Filed Pursuant to Rule 433
Issuer Free Writing Prospectus
Relating to Preliminary Prospectus dated May 11, 2009
Registration No. 333-157034

This free writing prospectus relates only to the securities described below and should be read together with the preliminary prospectus dated May 11, 2009 relating to this offering (the "*Preliminary Prospectus*"), included in Amendment No. 5 to the Registration Statement on Form S-1 (File No. 333-157034) relating to these securities. The most recent amendment to such Registration Statement can be accessed through the following link: <http://www.sec.gov/Archives/edgar/data/1125914/000104746909005322/0001047469-09-005322-index.idea.htm>. The following information supplements and updates the information contained in the Preliminary Prospectus.

The disclosure set forth in the Preliminary Prospectus under "Risk Factors Assertions by third parties of infringement by us of their intellectual property rights could result in significant costs and substantially harm our business and operating results." has been updated to read in substance as follows:

Other parties have asserted, and may in the future assert, that we have infringed their intellectual property rights. Such litigation may involve patent holding companies or other adverse patent owners who have no relevant product revenue, and therefore our own issued and pending patents may provide little or no deterrence. For example, on May 12, 2009, Mount Hamilton Partners, LLC, or Mount Hamilton, filed a patent infringement lawsuit against us in the United States District Court for the Northern District of California, seeking, among other things, a judgment that we have infringed a certain patent held by Mount Hamilton, an injunctive order against the alleged infringing activities and an award for damages. If an injunction is granted, it could force us to stop or alter certain of our business activities, such as certain aspects of our points-based loyalty program, OpenTable Dining Rewards. We could also be required to pay damages in an unspecified amount. Neither the outcome of the litigation nor the amount and range of potential damages or exposure associated with the litigation can be assessed with certainty.

Furthermore, we cannot predict whether assertions of third party intellectual property rights or claims arising from such assertions will substantially harm our business and operating results. If we are forced to defend against any infringement claims, including the alleged infringement claims of Mount Hamilton, whether they are with or without merit or are determined in our favor, we may face costly litigation and diversion of technical and management personnel. Furthermore, an adverse outcome of a dispute may require us to pay damages, potentially including treble damages and attorneys' fees, if we are found to have willfully infringed a party's patent or copyright rights; cease making, licensing or using solutions that are alleged to incorporate the intellectual property of others; expend additional development resources to redesign our solutions; and enter into potentially unfavorable royalty or license agreements in order to obtain the right to use necessary technologies. Royalty or licensing agreements, if required, may be unavailable on terms acceptable to us, or at all. In any event, we may need to license intellectual property which would require us to pay royalties or make one-time payments.

The disclosure set forth in the Preliminary Prospectus under "Business Legal Proceedings" has been updated to read in substance as follows:

On May 12, 2009, Mount Hamilton filed a patent infringement lawsuit against us in the United States District Court for the Northern District of California, seeking, among other things, a judgment that OpenTable has infringed a certain patent held by Mount Hamilton, an injunctive order against the alleged infringing activities and an award for damages. If an injunction is granted, it could force us to stop or alter certain of our business activities, such as certain aspects of our points-based loyalty program, OpenTable Dining Rewards. Although we plan to deny Mount Hamilton's allegations and defend the claims vigorously, and we believe that we have substantial and meritorious defenses to the claims, neither the outcome of the litigation nor the amount and range of potential damages or exposure associated with the litigation can be assessed with certainty.

In addition to the Mount Hamilton lawsuit, from time to time, we may become involved in legal proceedings arising in the ordinary course of our business. We are not presently involved in any legal proceeding in which the outcome, if determined adversely to us, would be expected to have a material adverse effect on our business, operating results or financial condition.
