RISK FACTORS

Investing in our securities involves risk. Before making an investment decision, you should carefully consider the following risks and the risk factors discussed or incorporated by reference in this prospectus, together with all the other information contained in this prospectus or incorporated by reference in this prospectus, including the risk factors and other cautionary statements described under the heading "Risk Factors" included in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2008 and in Item 1A of Part II of our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2009, each of which is incorporated by reference in this prospectus.

Risks Related to Investing in Our Common Stock

The market price of our common stock has historically experienced volatility.

The market price of our common stock has historically experienced fluctuations, including recent volatility that has resulted in our common stock trading at historically high market prices for the past 52 weeks (\$83.10 per share for the high) followed by recent significant decreases in the market prices (\$10.33 per share for the low). The market price of our common stock is likely to continue to be volatile and subject to fluctuations in response to commodity price volatility, market, and other factors, including the other risk factors incorporated by reference in this prospectus. Volatility or depressed market prices of our common stock could make it difficult for you to resell shares of our common stock at attractive prices.

We may issue shares of preferred stock with greater rights than our common stock.

Other than our shareholders' rights agreement, we have no current plans, arrangements, understandings, or agreements to issue any preferred stock. However, our restated certificate of incorporation authorizes our board of directors to issue one or more series of preferred stock and set the terms of the preferred stock without seeking any further approval from our shareholders. Any preferred stock that is issued may rank ahead of our common stock in terms of dividends, liquidation rights, or voting rights. If we issue preferred stock, it may adversely affect the market price of our common stock. See "Description of Capital Stock Preferred Stock Shareholders' Rights Agreement" in the prospectus accompanying this prospectus supplement.

We do not expect to pay dividends on our common stock.

We do not expect to pay any dividends on our common stock, in cash or otherwise, in the foreseeable future. We intend to retain any earnings for use in our business. In addition, our bank credit facilities and the indentures concerning our senior notes restrict our ability to pay dividends on our common stock. In the future, we may agree to further restrictions on our ability to pay dividends. See "Dividend Policy" in this prospectus supplement.

Additional issuances of equity securities by us would dilute the ownership of our existing shareholders and could reduce our earnings per share.

We may issue equity in the future in connection with capital raisings, acquisitions, strategic transactions, or for other purposes. To the extent we issue substantial additional equity securities, the ownership of our existing shareholders would be diluted and our earnings per share could be reduced.

Table of Contents

USE OF PROCEEDS

We expect to receive net proceeds from the sale of 12,500,000 shares of common stock in this offering of approximately \$222.8 million (after deducting underwriting discounts and commissions and estimated offering expenses). If the underwriters exercise their option to purchase additional shares in full, we expect to receive net proceeds from this offering of approximately \$256.3 million (after deducting underwriting discounts and commissions and estimated offering expenses).

We intend to use the net proceeds from this offering to reduce borrowings under our bank credit facilities. At March 31, 2009, there were outstanding borrowings of \$800.0 million under our U.S. bank credit facility at a weighted average interest rate of 1.8%, and there were outstanding borrowings of \$112.6 million under our Canadian bank credit facility at a weighted average interest rate of 2.1%. We also had used our bank credit facilities for \$2.7 million in letters of credit, leaving an unused borrowing amount under our bank credit facilities of \$704.7 million at March 31, 2009. At April 30, 2009, there were outstanding borrowings of \$800.0 million under our U.S. bank credit facility at a weighted average interest rate of 1.7%, and there were outstanding borrowings of \$135.8 million under our Canadian bank credit facility at a weighted average interest rate of 2.1%. We also had used our bank credit facilities for \$2.7 million in letters of credit, leaving an unused borrowing amount under our bank credit facilities of \$681.5 million at April 30, 2009. Because more than 10% of the net proceeds from this offering will be paid to affiliates of the underwriters, this offering is being made in compliance with Rule 5110(h) of the Financial Industry Regulatory Authority.

DIVIDEND POLICY

Our present or future ability to pay dividends is governed by:

the provisions of the New York Business Corporation Law;

our restated certificate of incorporation and bylaws;

the indentures concerning our 8% senior notes due 2011, our 7³/₄% senior notes due 2014, our 8¹/₂% senior notes due 2014, and our 7¹/₄% senior notes due 2019; and

our bank credit facilities.

On March 2, 2006, we distributed a special stock dividend in connection with the spin-off of our offshore Gulf of Mexico operations; however, we have not paid cash dividends on our common stock during the past five years. The future payment of cash dividends, if any, on our common stock is within the discretion of our board of directors and will depend on our earnings, capital requirements, financial condition, and other relevant factors. Additionally, our bank credit facilities and the indentures concerning our senior notes restrict our ability to pay dividends. There is no assurance that we will pay any cash dividends.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement, we have agreed to sell to the underwriters named below the following respective numbers of shares of common stock:

Underwriter	Number of Shares
Deutsche Bank Securities Inc.	6,250,000
Credit Suisse Securities (USA) LLC	6,250,000
Total	12,500,000

The underwriting agreement provides that the obligations of the several underwriters to purchase shares of our common stock are subject to the satisfaction of the conditions contained in the underwriting agreement, which include that: the representations and warranties made by us to the underwriters are true; there is no material adverse change in our business; and we deliver customary closing documents to the underwriters.

The underwriting agreement provides that the underwriters are obligated to purchase all the shares of common stock in the offering if any are purchased, other than those shares covered by the option to purchase additional shares described below. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriter may be increased or the public offering may be terminated.

We have granted to the underwriters a 30-day option to purchase on a pro rata basis up to 1,875,000 additional shares from us at the public offering price less the underwriting discounts and commissions. The option may be exercised only to cover any over-allotments of common stock.

The underwriters propose to offer the shares of common stock initially at the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of \$0.15 per share. After the offering, the underwriters may change the offering price and concession and other selling terms.

The underwriting fee is equal to the public offering price per share of common stock less the amount paid by the underwriters to us per share of common stock. The underwriting fee is \$0.40 per share and total underwriting discounts and commissions to be paid to the underwriters is \$5,000,000 (or \$5,750,000 if the underwriters' option is exercised in full).

We estimate that the total expenses of this offering payable by us, including registration, filing and listing fees, printing fees, and legal and accounting expenses, but excluding underwriting discounts and commissions, will be approximately \$340,000.

The offering of our shares of common stock is made for delivery when and if accepted by the underwriters and subject to prior sale and to withdrawal, cancellation, or modification of this offering without notice. The underwriters reserve the right to reject an order for the purchase of shares in whole or part.

We have agreed that we will not offer, sell, contract to sell, pledge, or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition, or filing, without the prior written consent of the underwriters for a period of 60 days after the date of the final prospectus supplement for this offering, except that (1) we may issue and sell shares of our common stock upon the conversion or exchange of convertible or exchangeable securities outstanding on the date of this prospectus supplement, (2) we may issue and sell shares of our common

stock upon the exercise of options or warrants outstanding on the date of this prospectus supplement or as a result of permitted grants or issuances as described in the following clause (3), (3) we may grant or issue stock options and warrants, restricted stock, phantom stock, and other securities to our employees, officers, and directors pursuant to the terms of a plan in effect on the date of this prospectus supplement, and (4) we may make filings with the SEC in connection with any such grants or issuances.

Our executive officers and directors have agreed that they will not offer, sell, contract to sell, pledge, or otherwise dispose of, directly or indirectly, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, enter into a transaction that would have the same effect, or enter into any swap, hedge, or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock, whether any of these transactions are to be settled by delivery of our common stock or other securities, in cash, or otherwise, or publicly disclose the intention to make any offer, sale, pledge, or disposition, or to enter into any transaction, swap, hedge, or other arrangement, without, in each case, the prior written consent of the underwriters for a period of 60 days after the date of the final prospectus supplement for this offering, except that such executive officers and directors may sell shares purchased by such executive officers and directors in the open market after the date of this prospectus supplement.

We have agreed to indemnify the underwriters against liabilities under the Securities Act, or contribute to payments the underwriters may require in that respect.

Our common stock is quoted on the New York Stock Exchange under the symbol "FST."

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of shares of common stock described in this prospectus supplement may not be made to the public in that relevant member state prior to the publication of a prospectus in relation to the shares that has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state, all in accordance with the Prospectus Directive, except that, with effect from and including the relevant implementation date, an offer of securities may be offered to the public in that relevant member state at any time:

to any legal entity that is authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities; or

to any legal entity that has two or more of (1) an average of at least 250 employees during the last financial year, (2) a total balance sheet of more than €43,000,000, and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts; or

in any other circumstances that do not require the publication of a prospectus pursuant to Article 3 of the Prospectus Directive.

Each purchaser of shares of common stock described in this prospectus located within a relevant member state will be deemed to have represented, acknowledged, and agreed that it is a "qualified investor" within the meaning of Article 2(1)(e) of the Prospectus Directive.

For purposes of this provision, the expression an "offer to the public" in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe the securities, as the expression may be varied in that member state by any measure implementing the

Prospectus Directive in that member state, and the expression "Prospectus Directive" means Directive 2003/71/EC and includes any relevant implementing measure in each relevant member state.

We have not authorized and do not authorize the making of any offer of shares of common stock through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the shares of common stock as contemplated in this prospectus. Accordingly, no purchaser of the shares of common stock, other than the underwriters, is authorized to make any further offer of the shares of common stock on behalf of us or the underwriters.

This prospectus is only being distributed to, and is only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive ("Qualified Investors") that are also (1) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") or (2) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "relevant persons"). This prospectus supplement and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.

In connection with the offering the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions, and penalty bids.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriters is not greater than the number of shares that they may purchase in the over-allotment option. In a naked short position, the number of shares involved is greater than the number of shares in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing shares in the open market.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. If the underwriters sell more shares than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange or otherwise and, if commenced, may be discontinued at any time.

NOTICE TO CANADIAN RESIDENTS

Resale Restrictions

The distribution of this prospectus in Canada is being made only on a private placement basis exempt from the requirement that we prepare and file a prospectus with the securities regulatory authorities in each province where trades of the shares are made. Any resale of the shares in Canada must be made under applicable securities laws which will vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Purchasers are advised to seek legal advice prior to any resale of the shares.

Representations of Purchasers

By purchasing shares in Canada and accepting a purchase confirmation a purchaser is representing to us, and the dealer from whom the purchase confirmation is received that:

the purchaser is entitled under applicable provincial securities laws to purchase the shares without the benefit of a prospectus qualified under those securities laws;

where required by law, that the purchaser is purchasing as principal and not as agent;

the purchaser has reviewed the text above under Resale Restrictions; and

the purchaser acknowledges and consents to the provision of specified information concerning its purchase of the shares to the regulatory authority that by law is entitled to collect the information.

Further details concerning the legal authority for this information is available on request.

Rights of Action Ontario Purchasers Only

Under Ontario securities legislation, certain purchasers who purchase a security offered by this prospectus during the period of distribution will have a statutory right of action for damages, or while still the owner of the shares, for rescission against us in the event that this prospectus contains a misrepresentation without regard to whether the purchaser relied on the misrepresentation. The right of action for damages is exercisable not later than the earlier of 180 days from the date the purchaser first had knowledge of the facts giving rise to the cause of action and three years from the date on which payment is made for the shares. The right of action for rescission is exercisable not later than 180 days from the date on which payment is made for the shares. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against us. In no case will the amount recoverable in any action exceed the price at which the shares were offered to the purchaser and if the purchaser is shown to have purchased the securities with knowledge of the misrepresentation, we will have no liability. In the case of an action for damages, we will not be liable for all or any portion of the damages that are proven to not represent the depreciation in value of the shares as a result of the misrepresentation relied upon. These rights are in addition to, and without derogation from, any other rights or remedies available at law to an Ontario purchaser. The foregoing is a summary of the rights available to an Ontario purchaser. Ontario purchasers should refer to the complete text of the relevant statutory provisions.

CERTAIN UNITED STATES FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of the material United States federal income and estate tax consequences of the ownership and disposition of our common stock by a non-U.S. holder. As used in this discussion, the term "non-U.S. holder" means a beneficial owner of our common stock that is not, for United States federal income tax purposes:

an individual who is a citizen or resident of the United States;

a corporation (including any entity treated as a corporation for United States federal income tax purposes) created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;

an estate whose income is subject to United States federal income taxation regardless of its source; or

a trust, if a United States court is able to exercise primary supervision over the administration of the trust and one or more United States persons have authority to control all substantial decisions of the trust, or if it has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a United States person.

An individual may generally be treated as a resident of the United States in any calendar year for United States federal income tax purposes, by, among other ways, being present in the United States for at least 31 days in that calendar year and for an aggregate of at least 183 days during a three-year period ending in the current calendar year. For purposes of the 183-day calculation, all of the days present in the current year, one-third of the days present in the immediately preceding year, and one-sixth of the days present in the second preceding year are counted. Residents are taxed for United States federal income tax purposes as if they were United States citizens.

This discussion does not consider:

United States state or local or non-United States tax consequences;

all aspects of United States federal income and estate taxes or specific facts and circumstances that may be relevant to a particular non-U.S. holder's tax position, including the fact that in the case of a non-U.S. holder that is an entity treated as a partnership for United States federal income tax purposes, the United States tax consequences of holding and disposing of our common stock may be affected by certain determinations made at the partner level;

the tax consequences for the stockholders, partners, or beneficiaries of a non-U.S. holder;

special tax rules that may apply to particular non-U.S. holders that are subject to special rules, such as financial institutions, insurance companies, tax-exempt organizations, United States expatriates, broker-dealers, and traders in securities; or

special tax rules that may apply to a non-U.S. holder that holds our common stock as part of a "straddle," "hedge," "conversion transaction," "synthetic security," or other integrated investment.

The following discussion is based on provisions of the United States Internal Revenue Code of 1986, as amended (the "Code"), existing and proposed U.S. Treasury Regulations, and administrative and judicial interpretations, all as of the date of this prospectus supplement, and all of which are subject to change, retroactively or prospectively. The following summary assumes that a non-U.S. holder holds our common stock as a capital asset (generally, property held for investment).

Table of Contents

Each non-U.S. holder should consult a tax advisor regarding the United States federal, state, local, and non-United States income and other tax consequences of acquiring, holding, and disposing of shares of our common stock.

Distributions on Common Stock

We do not expect to pay any cash distributions on our common stock in the foreseeable future. However, in the event we do make such cash distributions, these distributions generally will constitute dividends for United States federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under United States federal income tax principles. Any amount paid in excess of such earnings and profits generally will be treated as a recovery of tax basis, to the extent thereof, and then gain from sale. Dividends paid to a non-U.S. holder of our common stock that are not effectively connected with the non-U.S. holder's conduct of a United States trade or business will be subject to United States federal withholding tax at a 30% rate, or if an income tax treaty applies, a lower rate specified by the treaty.

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business in the United States and, if an income tax treaty so requires, are attributable to a permanent establishment maintained by the non-U.S. holder in the United States, are taxed on a net income basis at the regular graduated rates and in the manner applicable to United States persons (as defined under the Code). In that case, we will not have to withhold United States federal withholding tax if the non-U.S. holder complies with applicable certification and disclosure requirements (which may generally be met by providing an Internal Revenue Service ("IRS") Form W-8ECI). In addition, a "branch profits tax" may be imposed at a 30% rate, or a lower rate under an applicable income tax treaty, on dividends received by a foreign corporation that are effectively connected with its conduct of a trade or business in the United States.

A non-U.S. holder that claims the benefit of an applicable income tax treaty generally will be required to satisfy applicable certification and other requirements. However,

in the case of common stock held by a foreign partnership, the certification requirement will generally be applied to the partners of the partnership and the partnership will be required to provide certain information;

in the case of common stock held by a foreign trust, the certification requirement will generally be applied to the trust or the beneficial owners of the trust depending on whether the trust is a "foreign complex trust," "foreign simple trust," or "foreign grantor trust" as defined in the U.S. Treasury Regulations; and

look-through rules will apply for tiered partnerships, foreign simple trusts, and foreign grantor trusts.

A non-U.S. holder that is a foreign partnership or a foreign trust is urged to consult its own tax advisor regarding its status under these U.S. Treasury Regulations and the certification requirements applicable to it. A non-U.S. holder that is eligible for a reduced rate of United States federal withholding tax under an income tax treaty may obtain a refund or credit of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Gain on Disposition of Common Stock

A non-U.S. holder generally will not be subject to United States federal income tax on gain recognized on a disposition of our common stock unless:

the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, if an income tax treaty applies, is attributable to a permanent establishment

Table of Contents

maintained by the non-U.S. holder in the United States; in this case, the gain will be taxed on a net income basis at the rates and in the manner applicable to United States persons (as defined under the Code), and if the non-U.S. holder is a foreign corporation, the branch profits tax described above may also apply;

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and meets other requirements; or

we are or have been a "United States real property holding corporation", or USRPHC, for United States federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the non-U.S. holder held our common stock.

Generally, a corporation is a USRPHC if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. We believe that we are currently a USRPHC for United States federal income tax purposes. However, the tax relating to stock in a USRPHC generally will not apply to a non-U.S. holder whose actual and constructive stock holdings of our common stock constituted 5% or less of our common stock at all times during the applicable period described in the third bullet point, above, provided that our common stock continues to be regularly traded on an established securities market.

U.S. Federal Estate Tax

Common stock owned or treated as owned by an individual who is a non-U.S. holder for United States federal estate tax purposes at the time of death will be included in the individual's gross estate for United States federal estate tax purposes, unless an applicable estate tax or other treaty provides otherwise, and therefore may be subject to United States federal estate tax.

Information Reporting and Backup Withholding Tax

Dividends paid to you will generally be subject to information reporting and may be subject to United States backup withholding. You will be exempt from this backup withholding tax if you properly provide a Form W-8BEN certifying under penalties of perjury that you are a non-U.S. holder or otherwise meet documentary evidence requirements for establishing that you are a non-U.S. holder, or you otherwise establish an exemption. Copies of the information returns reporting such dividends (and the tax withheld with respect to such dividends) may also be made available to the tax authorities in the country in which you reside.

The gross proceeds from the disposition of our common stock may be subject to information reporting and backup withholding. If you sell your common stock outside the United States through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to you outside the United States, then the United States backup withholding and information reporting requirements generally will not apply to that payment. However, United States information reporting, but not backup withholding, will generally apply to a payment of sales proceeds, even if that payment is made outside the United States, if you sell your common stock through a non-U.S. office of a broker that is, for United States federal income tax purposes:

a United States person;

a foreign person that derives 50% or more of its gross income in specific periods from the conduct of a trade or business in the United States;

a "controlled foreign corporation;" or

Table of Contents

a foreign partnership, if at any time during its tax year:

one or more of its partners are United States persons who in the aggregate hold more than 50% of the income or capital interests in the partnership; or

the foreign partnership is engaged in a United States trade or business,

unless the broker has documentary evidence in its files that you are a non-U.S. person and certain other conditions are met, or you otherwise establish an exemption.

If you receive payments of the proceeds of a sale of our common stock to or through a United States office of a broker, the payment is subject to both United States backup withholding and information reporting unless you properly provide a Form W-8BEN certifying under penalties of perjury that you are a non-U.S. person (and the payor does not have actual knowledge or reason to know that you are a United States person, as defined under the Code) or you otherwise establish an exemption.

You generally may obtain a refund or credit of any amounts withheld under the backup withholding rules that exceed your United States federal income tax liability provided the required information is timely furnished to the IRS.

THE FOREGOING DISCUSSION IS FOR GENERAL INFORMATION ONLY AND SHOULD NOT BE VIEWED AS TAX ADVICE. INVESTORS CONSIDERING THE PURCHASE OF OUR COMMON STOCK SHOULD CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE UNITED STATES FEDERAL INCOME AND ESTATE TAX LAWS TO THEIR PARTICULAR SITUATIONS AND THE APPLICABILITY AND EFFECT OF STATE, LOCAL, OR FOREIGN TAX LAWS AND TAX TREATIES.

We are an independent oil and gas company engaged in the acquisition, exploration, development, and production of natural gas and liquids primarily in North America. We were incorporated in New York in 1924, as the successor to a company formed in 1916, and have been a publicly held company since 1969.

We currently conduct our operations in three geographical segments and five business units. The geographical segments are: the United States, Canada, and International. RISK FACTORS

Investing in our securities involves risk. Before making an investment decision, you should carefully consider the risk factors discussed or incorporated by reference in the applicable prospectus supplement, together with all the other information contained in the applicable prospectus supplement, this prospectus, or incorporated by reference, including the risk factors and other cautionary statements described under the heading "Risk Factors" included in our most recent Annual Report on Form 10-K, and, to the extent applicable, in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

USE OF PROCEEDS

We will use the net proceeds from the sale of the securities as set forth in the applicable prospectus supplement.

DESCRIPTION OF CAPITAL STOCK

Pursuant to our restated certificate of incorporation, our authorized capital stock consists of 210,000,000 shares of stock, including:

200,000,000 shares of common stock, \$0.10 par value per share, of which 97,106,323 shares were issued and outstanding as of May 18, 2009; and

10,000,000 shares of preferred stock, \$0.01 par value per share, which is classified into two classes, senior preferred stock and junior preferred stock, both of which are issuable in one or more series, of which no shares are currently issued or outstanding.

Common Stock

This section describes the general terms of our common stock. For more detailed information, you should refer to our restated certificate of incorporation and bylaws, copies of which have been filed with the SEC. These documents are also incorporated by reference in this prospectus.

Our outstanding shares of common stock are listed on the New York Stock Exchange under the symbol "FST."

All outstanding shares of common stock are fully paid and non-assessable. Any additional common stock we issue will, when issued, also be fully paid and non-assessable.

Our common shareholders are entitled to one vote per share of common stock in the election of directors and on all other matters submitted to a vote of our common shareholders. Our common shareholders do not have preemptive or cumulative voting rights.

Our common shareholders are entitled to receive ratably any dividends declared by our board of directors out of funds legally available for the payment of dividends. Dividends on our common stock are, however, subject to any preferential dividend rights of any outstanding preferred stock. We do not intend to pay cash dividends on our common stock in the foreseeable future. Upon our liquidation, dissolution, or winding up, our common shareholders are entitled to receive ratably our net assets available after payment of all of our debts and other liabilities. Any payment is, however, subject to the prior rights of any outstanding preferred stock. Our common shareholders do not have any preemptive, subscription, redemption, or conversion rights.

We will notify common shareholders of any shareholders' meetings according to applicable law. If we liquidate, dissolve, or wind-up our business, either voluntarily or not, common shareholders will share equally in the assets remaining after we pay our creditors and preferred shareholders.

Table of Contents

Preferred Stock

The following summary describes certain general terms and provisions of our authorized preferred stock. If we offer preferred stock, a description will be filed with the SEC and the specific terms of the preferred stock will be described in the prospectus supplement, including, among other things:

the class, the series, the number of shares offered, and the liquidation value of the preferred stock;

the price at which the preferred stock will be issued;

the dividend rate, the dates on which the dividends will be payable, and other terms relating to the payment of dividends on the preferred stock;

the liquidation preference of the preferred stock;

the voting rights of the preferred stock;

whether the preferred stock is redeemable or subject to a sinking fund, and the terms of any such redemption or sinking fund;

whether the preferred stock is convertible or exchangeable for any other securities, and the terms of any such conversion or exchange; and

any additional rights, preferences, qualifications, limitations, and restrictions of the preferred stock.

Our restated certificate of incorporation allows our board of directors to issue preferred stock from time to time in one or more series, without any action being taken by our shareholders. The board can also determine the number of shares of each series. Subject to the provisions of our restated certificate of incorporation and limitations prescribed by law, our board may adopt resolutions to issue shares of a series of our preferred stock, and establish their terms. These terms may include, among other things:

voting powers;

designations;

preferences;

dividend rights;

dividend rates;

terms of redemption;

redemption process;

conversion or exchange rights; and

any other terms permitted to be established by our certificate of incorporation and by applicable law.

In some cases, the issuance of preferred stock could delay, defer, or prevent a change in control of our company. Under certain circumstances, preferred stock could also restrict dividend payments to holders of our common stock.

The preferred stock will, when issued, be fully paid and non-assessable.

Table of Contents

Anti-Takeover Provisions

Certain provisions in our restated certificate of incorporation, bylaws, shareholders' rights agreement, and the New York Business Corporation Law, or NYBCL, may have the effect of encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts.

Classified Board of Directors. Our bylaws contain provisions for a staggered board of directors, with only one-third of the board standing for election each year. A staggered board makes it more difficult for shareholders to change the majority of the directors.

Shareholder Proposals. Our bylaws contain provisions requiring advance notification for any shareholder proposal, including, among other things, the nomination by a shareholder of a candidate for election to our board of directors, if such matter is to be brought before an annual meeting or special meeting of the shareholders. These bylaw provisions are the exclusive means by which a shareholder may make nominations or submit other business before a meeting of our shareholders.

Blank Check Preferred Stock. Our restated certificate of incorporation authorizes the issuance of blank check preferred stock. Our board of directors can set the voting, redemption, conversion, and other rights relating to such preferred stock and can issue such stock in either a private or public transaction. The issuance of preferred stock, while providing desired flexibility in connection with possible acquisitions and other corporate purposes, could adversely affect the voting power of holders of common stock and the likelihood that holders of common stock will receive dividend payments and payments upon liquidation and could have the effect of delaying, deferring, or preventing a change in control of our company. In some circumstances, the blank check preferred stock could be issued and have the effect of preventing a merger, tender offer, or other takeover attempt which our board opposes.

Shareholders' Rights Agreement. Our board of directors has adopted a shareholders' rights agreement. Under the rights agreement, each share of common stock includes a preferred stock purchase right (the "rights"). Each right entitles the registered holder under the circumstances described below to purchase from our company one one-hundredth of a share of our First Series Junior Preferred Stock, par value \$0.01 per share (the "preferred shares"), at a price of \$120 per one one-hundredth of a preferred share, subject to adjustment. The following is a summary of certain terms of the rights agreement (as amended and restated as of the date of this prospectus). The rights agreement is filed as an exhibit to the registration statement of which this prospectus is a part, and this summary is qualified by reference to the specific terms of the rights agreement.

Until the distribution date, the rights will be transferred with and only with our common stock. Until the distribution date (or earlier redemption or expiration of the rights), new common stock certificates or ownership statements issued after October 29, 1993 upon transfer or any new issuance of the common stock will contain a notation incorporating the rights agreement by reference. Until the distribution date (or earlier redemption or expiration of the rights), the surrender for transfer of any certificates for common stock, even without such notation or a copy of a summary of the rights being attached thereto, will also constitute the transfer of the rights associated with the common stock represented by such certificate. One right is issued for each share of our common stock issued. The rights will separate from the common stock and a distribution date will occur upon the earlier of: 10 days following a public announcement that a person or group of affiliated or associated persons has acquired beneficial ownership of 20% or more of our outstanding voting shares; and 10 business days following the commencement or announcement of an intention to commence a tender offer or exchange offer the completion of which would result in the beneficial ownership by a person or group of 20% or more of our outstanding voting shares.

Table of Contents

As soon as practicable following the distribution date, separate certificates evidencing the rights will be mailed to holders of record of the common stock as of the close of business on the distribution date and such separate rights certificates alone will thereafter evidence the rights.

The rights are not exercisable until the distribution date. The rights will expire on October 29, 2013, unless the expiration date is extended or the rights are earlier redeemed or exchanged by us.

If a person or group acquires beneficial ownership of 20% or more of our outstanding voting shares, each right then outstanding, other than rights beneficially owned by the acquiring persons, which would become null and void, becomes a right to buy that number of shares of common stock, or under certain circumstances, the equivalent number of one one-hundredths of a preferred share, that at the time of such acquisition has a market value of two times the exercise price of the right.

If we are acquired in a merger or other business combination transaction or assets constituting more than 50% of our consolidated assets or producing more than 50% of our earning power or cash flow are sold, proper provision will be made so that each holder of a right will thereafter have the right to receive, upon the exercise thereof at the then current exercise price of the right, that number of shares of common stock of the acquiring company that at the time of such transaction has a market value of two times the exercise price of the right.

The dividend, liquidation, and voting rights, and the non-redemption feature, of the preferred shares are designed so that the value of one one-hundredth of a preferred share purchasable upon exercise of each right will approximate the value of one share of common stock. The preferred shares issuable upon exercise of the rights will be non-redeemable and rank junior to all other series of our preferred stock. Each whole preferred share will be entitled to receive a quarterly preferential dividend in an amount per share equal to the greater of (a) \$1.00 in cash, and (b) 100 times the aggregate per share dividend declared on the common stock. In the event of liquidation, the holders of preferred shares will be entitled to receive a preferential liquidation payment per whole share equal to the greater of (a) \$100 per share, and (b) 100 times the aggregate amount to be distributed per share of common stock. In the event of any merger, consolidation, or other transaction in which the shares of common stock are exchanged for or changed into other stock or securities, cash, or other property, each whole preferred share will be entitled to 100 times the amount received per share of common stock. Each whole preferred share will be entitled to 100 votes on all matters submitted to a vote of our shareholders, and preferred shares will generally vote together as one class with the common stock and any other capital stock on all matters submitted to a vote of our shareholders.

The purchase price and the number of one one-hundredths of a preferred share or other securities or property issuable upon exercise of the rights may be adjusted from time to time to prevent dilution.

At any time after a person or group of affiliated or associated persons acquires beneficial ownership of 20% or more of our outstanding voting shares and before a person or group acquires beneficial ownership of 50% or more of our outstanding voting shares, our board of directors may, at its option, issue common stock in mandatory redemption of, and in exchange for, all or part of the then outstanding exercisable rights, other than rights owned by such person or group, which would become null and void, at the exchange ratio calculated in accordance with the rights agreement.

At any time prior to the acquisition by a person or group of beneficial ownership of 20% or more of the outstanding common stock, our board of directors may redeem all, but not less than all, the then outstanding rights at a price of \$0.01 per right. The redemption of the rights may be made effective at such time, on such basis and with such conditions as our board of directors in its sole discretion may establish. Immediately upon the action of our board of directors ordering redemption of the rights, the right to exercise the rights will terminate and the only right of the holders of rights will be to receive the redemption price.

Table of Contents

Business Combinations under New York law. We are a New York corporation and are subject to the NYBCL. The business combination provisions of Section 912 of the NYBCL could prohibit or delay mergers or other takeovers or change in control attempts with respect to our company and, accordingly, may discourage attempts to acquire our company. In general such provisions prohibit an interested shareholder (i.e., a person who owns 20% or more of our outstanding voting stock) from engaging in various business combination transactions with our company, unless (a) the business combination transaction, or the transaction in which the interested shareholder became an interested shareholder, was approved by the board of directors prior to the interested shareholder's stock acquisition date, (b) the business combination transaction was approved by the disinterested shareholders at a meeting called no earlier than five years after the interested shareholder's stock acquisition date, or (c) if the business combination transaction takes place no earlier than five years after the interested shareholder's stock acquisition date, the price paid to all the shareholders under such transaction meets statutory criteria.

A business combination is defined by Section 912 of the NYBCL as including various transactions between the corporation and an interested shareholder, including mergers, consolidations, transfers of assets (whether by sale, lease, exchange, mortgage, pledge, transfer or otherwise), certain share issuances, liquidation or dissolution, certain reclassifications of securities, and other transactions resulting in financial benefit to the shareholder.
