GENERAL INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Distribution of Proxy Solicitation and Other Required Annual Meeting Materials

The Board of Directors (the "Board") of Insmmed Incorporated is soliciting your proxy for the Annual Meeting of Shareholders to be held at the Bridgewater Marriott, 700 Commons Way, Bridgewater, New Jersey 08807, on May 19, 2016, at 9:00 a.m., local time and any adjournment or postponement thereof (the "Annual Meeting"). We intend to begin mailing the proxy statement and related proxy materials to shareholders on or about April 15, 2016.

Information about the Annual Meeting

Who May Vote. Shareholders of record at the close of business on March 28, 2016 (the "Record Date"), will be entitled to notice of and to vote at the Annual Meeting. As of the Record Date, we had 61,870,206 outstanding shares of our common stock, \$0.01 par value per share (the "Common Stock"). Each share of our Common Stock entitles the holder to one vote with respect to all matters submitted to shareholders at the Annual Meeting. Beneficial owners of shares of our Common Stock may direct the record holder of the shares on how to vote the shares held on their behalf.

Shareholders of Record. If on the Record Date, shares of our Common Stock were registered directly in your name with our transfer agent, then you are a shareholder of record. As a shareholder of record, you may vote in person or by proxy at the Annual Meeting. Whether or not you plan to attend the Annual Meeting, we hope you will take the time to vote your shares.

How can you vote? If you are a record holder, meaning your shares are registered in your name, you may vote or submit a proxy:

1. *By Telephone* Dial 1-800-690-6903 using any touch-tone phone to transmit your voting instructions up until 5:00 p.m. Eastern Time the day before the meeting date. Have your proxy card in hand when you call and follow the voting instructions given to you over the phone.
2. *By Mail* Complete and sign the enclosed proxy card and mail it in the enclosed postage prepaid envelope. Your shares will be voted according to your instructions. If you sign your proxy card but do not specify how you want your shares voted, they will be voted as recommended by our Board. Unsigned proxy cards will not be voted.
3. *By Internet* If you have Internet access, you may authorize the voting of your shares by following the "Submit a proxy by Internet" instructions set forth on the enclosed proxy card. You must specify how you want your shares voted or your vote will not be completed and you will receive an error message. Your shares will be voted according to your instructions.
4. *In Person at the Meeting* If you attend the Annual Meeting, you may deliver a completed and signed proxy card in person or you may vote by completing a ballot, which we will provide to you at the Annual Meeting.

Beneficial Owners of Shares. If on the Record Date, your shares of our Common Stock were not held in your name, but rather were held in an account at a brokerage firm, bank, dealer, or other similar organization, then you are the beneficial owner of shares held in "street name," and these proxy

Table of Contents

materials have been forwarded to you by that organization. The organization holding your account is considered to be the shareholder of record for purposes of voting at the Annual Meeting and is required to vote those shares in accordance with your instructions. If you do not give instructions to the organization holding your account, then the organization will have discretion to vote the shares with respect to "routine" matters but will not be permitted to vote the shares with respect to "non-routine" matters. Accordingly, if you do not instruct your broker or other agent on how to vote your shares with respect to the "non-routine" matters, your shares will be "broker non-votes" with respect to that proposal, which means your shares will not be voted. Proposal 1, the election of directors, is a non-routine matter. Proposal 2, the ratification of an independent registered public accounting firm, is a routine matter. As a beneficial owner, you have the right to direct your broker or other agent on how to vote the shares in your account. You are also invited to attend the Annual Meeting. If you are a beneficial owner and not the shareholder of record, you may not vote your shares in person at the Annual Meeting unless you request and obtain a valid proxy from your broker or other agent.

Quorum and Vote Required to Approve Each Item on the Proxy. Shares of our Common Stock representing a majority of the votes entitled to be cast on a matter at the Annual Meeting will constitute a quorum for the transaction of business with respect to such matter, unless otherwise provided by law or in our Articles of Incorporation, as amended ("Articles of Incorporation").

Proposal 1, the election of directors, requires the affirmative vote of the holders of a plurality of the votes cast in the election of directors. This means that the nominee(s) who receive the highest number of affirmative votes cast are elected irrespective of how small the number of affirmative votes is in comparison to the total number of shares voted. Signing and returning your proxy will constitute a vote "for" the nominees unless your proxy specifies that you are withholding authority to vote for the nominees or for a specific nominee. Any votes that are withheld and any broker non-votes will not be included in determining the number of votes cast. In the event that any of the nominees are unavailable for election, the Board may either reduce the number of directors or choose a substitute nominee. If the Board selects a substitute nominee, the shares represented by proxy will be voted "for" the substitute nominee unless other instructions are given in the proxy. The Board has no reason to believe that any nominee will be unavailable.

Proposal 2, ratification of an independent registered public accounting firm, does not require shareholder ratification under Virginia law, our Articles of Incorporation, or our Amended and Restated Bylaws ("Bylaws"). However, the Board is submitting the appointment of Ernst & Young LLP to the shareholders for ratification as a matter of good corporate practice. Approval of Proposal 2 requires the affirmative vote of a majority of the votes cast, in person or by proxy, at the Annual Meeting. In the event that Proposal 2 is not approved, the Audit Committee of the Board will consider the vote and the reasons therefore in future independent auditor selection decisions.

Revoking a Proxy. Anyone giving a proxy may revoke it at any time before it is voted by voting in person at the Annual Meeting or by delivering a later dated proxy or written notice of revocation to our Corporate Secretary. Attendance at the Annual Meeting will not itself revoke a proxy. A proxy, if executed and not revoked, will be voted at the Annual Meeting.

Cost of Soliciting Proxies. We will pay the cost of soliciting proxies. In addition to the use of mail, proxies may be solicited in person or by telephone by our employees. We have engaged Proxy Advisory Group to assist us in the solicitation of proxies from brokers, nominees, fiduciaries and other custodians. We will pay Proxy Advisory Group approximately \$10,000 for their services and reimburse them for their out-of-pocket expenses for such items as mailing, copying, phone calls, faxes and other related items. We will indemnify Proxy Advisory Group from any losses arising from that firm's proxy soliciting services on our behalf.

Our Code of Business Conduct and Ethics contains written standards designed to communicate our expectations of our directors, officers, and employees when making decisions and conducting themselves in corporate activities, including the ethical handling and use of confidential information; actual or apparent conflicts of interest; compliance with applicable governmental laws, rules and regulations; protection of our assets and proprietary information; the ethical handling of payments and gifts received in the normal course of business and of payments made to government personnel; prompt internal reporting of violations of our Code of Business Conduct and Ethics; and accountability for adherence to our Code of Business Conduct and Ethics. We have established a means for individuals to report a violation or suspected violation of the Code of Business Conduct and Ethics anonymously, including those violations relating to accounting, internal controls or auditing matters, and federal securities laws. Our Code of Business Conduct and Ethics is posted on our website at www.insmed.com under the heading "Investor Relations Corporate Governance." We intend to satisfy the disclosure requirements regarding any amendment to, or waiver from, a provision of the Code of Conduct by making disclosures concerning such matters available on our website at www.insmed.com under the heading "Investor Relations Corporate Governance."

Corporate Governance Guidelines. We have adopted Corporate Governance Guidelines to assist and guide the Board in the exercise of its responsibilities. The Corporate Governance Guidelines contain written standards pertaining to director qualifications, director responsibilities, structure of our Board, director access to management and independent advisors, director compensation, and performance evaluation of our Board and committees, among other things. The Corporate Governance Guidelines help to ensure that the Board is independent from management, the Board adequately performs its oversight functions, and the interests of the Board and management align with the interests of our stockholders. Our Corporate Governance Guidelines are interpreted in accordance with all applicable laws and regulations, the Nasdaq Listing Rules, and our Articles of Incorporation and our Bylaws. Our Corporate Governance Guidelines and Bylaws are posted on our website at www.insmed.com under the heading "Investor Relations Corporate Governance."

No director missed more than one Board meeting in 2015 during his or her tenure as a director. Each director attended at least 75% of the committee meetings that occurred in 2015 during his or her tenure on such committees.

Director Nominating Process

The Nominations and Governance Committee. Our Nominations and Governance Committee, which is described more fully below under "Corporate Governance Nominations and Governance Committee," performs the functions of a nominating committee and serves as an independent and objective party to identify and nominate qualified candidates for directorship, consistent with criteria approved by the Board, and establishes such criteria based on factors it considers appropriate. Among the factors that the Board considers are strength of character, maturity of judgment, career specialization, relevant technical skills, diversity, independence, and the extent to which the candidate would fill a present need of the Board. The committee takes a leadership role in shaping our corporate governance, including overseeing the evaluation of the Board and its committees. The committee's Charter contains information concerning its responsibilities, including identifying and evaluating the director candidates. The Nominations and Governance Committee Charter and the Corporate Governance Guidelines are both available on our website at www.insmed.com under the heading "Investors Corporate Governance." The Board has determined that all members of the Nominations and Governance Committee are independent as defined in Rule 5605(a)(2) of the Nasdaq Listing Rules and our Corporate Governance Guidelines.

Director Candidate Recommendations and Nominations by Shareholders. The Nominations and Governance Committee's Charter provides that the committee will consider director candidate recommendations by shareholders. Shareholders should submit any such recommendations for the Nominations and Governance Committee through the method described below under "Corporate Governance Communications with the Board." In addition, in accordance with our Bylaws, any person who is a shareholder of record on the record date for the shareholder meeting, on the date of the shareholder meeting, and on the date such person provides required notice to the Company may nominate persons for election to the Board if such shareholder complies with the notice procedures set forth in the Bylaws and summarized in this Proxy Statement under the heading "Proposals for 2017 Annual Meeting."

Nominations and Governance Committee Process for Identifying and Evaluating Director Candidates. The Nominations and Governance Committee evaluates all director candidates in accordance with the director qualification standards described in the Corporate Governance Guidelines and the Nominations and Governance Committee Charter, including the provision that diversity of backgrounds and experience should be emphasized in board composition, and seeks candidates with experience in the pharmaceutical and biotechnology industries, as well as business, management, accounting and financial experience. The Nominations and Governance Committee evaluates a candidate's qualifications to serve as a member of the Board based on the skills and characteristics of such individual Board members, as well as the composition of the Board as a whole. In addition, the Nominations and Governance Committee will evaluate a candidate's independence, diversity, skills and experience in the context of the Board's needs.

Communications with the Board

The Board has approved a process for shareholders to send communications to the Board. Director Attendance at Annual Meeting

Our policy is that directors attend the annual meeting of shareholders. All directors attended the 2015 Annual Meeting of Shareholders in accordance with our policy.

Board Leadership Structure

Our corporate governance documents provide the Board with the flexibility to select the appropriate leadership for the company in the way it believes best at a given time. The Board believes that its current leadership structure, with Mr. Lewis serving as Chief Executive Officer and Mr. Hayden serving as our independent non-executive Chairman, is appropriate for the Company at this time. Both Mr. Lewis and Mr. Hayden are actively engaged on significant matters affecting us, such as long-term strategy. The Chief Executive Officer has overall responsibility for all aspects of our operation, while the Chairman has a greater focus on governance of the Company, including oversight of the Board. We believe this balance of shared leadership between the two positions is a strength for the Company. As our independent non-executive Chairman, Mr. Hayden calls and chairs regular and special meetings of the Board and all executive sessions of the independent directors, chairs and presides at annual or special meetings of shareholders, provides meaningful input into the agenda of Board meetings, authorizes the retention of outside advisors, consultants and legal counsel who report directly to the Board, consults frequently with committee chairs and has the right to and often does attend Board committee meetings.

The Role of the Board in Risk Oversight

The Board has primary responsibility for overseeing the Company's risk management. The Board administers its oversight responsibility for risk management directly and through its committees. Each committee chairman reports to the Board regarding the committee's considerations of management's processes for identifying, evaluating, and controlling significant risks. In addition, the officers responsible for oversight of particular risks within the Company provide updates and information to our Board. The Board considers specific risk topics, including risks associated with our strategic plan, our capital structure, our research and development activities, our manufacturing and supply chain, and our operations. Our Board believes that full and open communication between management and the Board is essential for effective risk management and oversight. The Board and each of its committees have full access to our senior management, as well as the ability to engage outside advisors and other experts. Management routinely informs the Board of developments that could affect our risk profile or other aspects of our business and development. We face a number of risks, including those described under the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2015, which is available on our website at www.insmed.com under the heading "Investor Relations SEC Filings."

The Audit Committee periodically discusses with management our policies and guidelines regarding risk assessment and risk management as well as our major financial and operational risk exposures and the steps that management has taken to monitor and control such exposures. The Audit Committee oversees disclosure controls and procedures, including applicable internal control over financial reporting and meets with the Chief Financial Officer, the General Counsel, the Vice President of Quality Assurance, the Vice President, Corporate Controller, external audit personnel, and other senior managers as appropriate to review issues regarding compliance with the applicable legal and regulatory requirements.

The Compensation Committee assesses and monitors whether any of our compensation policies and programs has the potential to encourage excessive risk taking. The Compensation Committee periodically discusses with management and our independent auditor major risk exposures of the Company and the steps taken to monitor, control and minimize such exposures. The Compensation

Table of Contents

Committee also reviews and evaluates our processes and policies for identifying and assessing key risk areas and for formulating and implementing steps to address such risk areas. As part of this process, the Compensation Committee develops and periodically reviews guidelines and policies to govern the process by which this is handled. Our Compensation Committee typically engages an independent consultant to advise it on topics related to Board and executive compensation. The Company believes that the risks arising from our overall compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the Company. During the last year, the Compensation Committee, with the assistance of ExeQuity, its independent compensation consultant, reviewed the executive compensation program and determined that the design of the compensation policies, including the components, weightings and focus of the elements of executive compensation, do not encourage management to assume excessive or inappropriate risks.

The Nominations and Governance Committee oversees the risks associated with our corporate governance and operating practices, including those relating to the composition of the Board, the structure and function of Board committees and meeting logistics and policies. The Nominations and Governance Committee regularly reviews the Board's performance, oversees evaluation of each of the Board's committees, oversees our corporate governance and formulates and recommends corporate governance standards to our Board.

Committees of the Board

Our Bylaws provide that the Board may create one or more committees of the Board. Currently, the Board has three standing committees: the Audit Committee, the Compensation Committee and the Nominations and Governance Committee.

Audit Committee

Our Board also has determined that Mr. McGirr is an "audit committee financial expert," as that term is defined in the rules promulgated by the Securities and Exchange Commission ("SEC") pursuant to the Sarbanes-Oxley Act of 2002, as amended.

Compensation Committee

Composition and Attendance. Our Compensation Committee consists of Mr. Altomari (Chairman), Mr. Brennan, Ms. Potter, and Dr. Sharoky. During fiscal 2015, the Compensation Committee held nine meetings. Responsibilities and Duties. The Compensation Committee develops and oversees the implementation of our compensation philosophy for our executive officers and is responsible for our executive and other compensation plans. The Committee's primary objectives are to develop and maintain an executive compensation policy that:

creates a direct relationship between pay levels and corporate performance and returns to shareholders;

provides overall competitive pay levels to effectively attract and retain executive talent;

creates proper incentives to enhance shareholder value; and

rewards performance.

Our Board has adopted an amended written charter for the Compensation Committee, a copy of which is available on our website at www.insmed.com under the heading "Investor Relations Corporate Governance." The Compensation Committee reviews and reassesses the adequacy of the charter at least annually.

Independence. Rule 5605(d)(2) of the Nasdaq Listing Rules requires that the members of our Compensation Committee be independent. Our Board has determined that all four of the current Compensation Committee members, Mr. Altomari, Mr. Brennan, Ms. Potter and Dr. Sharoky, are "independent directors" within the meaning of Rule 5605(a)(2) of the Nasdaq Listing Rules and our Corporate Governance Guidelines. In addition, all of the members of our Compensation Committee are "non-employee directors" within the meaning of the rules of Section 16 of the Securities Exchange Act and "outside directors" for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code").

Responsibilities and Duties. The Nominations and Governance Committee identifies and nominates qualified candidates for directorship and serves in a leadership role in shaping our corporate governance and overseeing the evaluation of the Board and its committees. The Nominations and Governance Committee:

assists the Board by identifying and recruiting individuals qualified to become Board members and recommending to the Board the director nominees for the next annual meeting of shareholders;

recommends to the Board director nominees for each committee;

AUDIT COMMITTEE REPORT* AND INDEPENDENT AUDITOR FEES

Report of the Audit Committee

The Audit Committee of the Board (the "Audit Committee") is comprised of three independent directors and operates under a written charter adopted by the Board. The Audit Committee reviews and reassesses the adequacy of the charter at least annually. The Audit Committee approves and recommends to the Board, the selection of the Company's independent registered public accounting firm. The Audit Committee meets with and holds discussions with management and Ernst & Young LLP, the Company's independent registered public accounting firm.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 (the "Annual Report") with management including a discussion of the quality, the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Audit Committee reviewed with the independent registered public accounting firm, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, its judgments as to the overall quality of financial reporting, the Company's accounting principles, and such other matters as are required to be discussed with the Audit Committee by Public Company Accounting Oversight Board Standards.

In addition, the Audit Committee has discussed with the independent registered public accounting firm the independence of the independent registered public accounting firm from management and the Company, including the matters in the written disclosures and letter from the independent registered public accounting firm to the Audit Committee required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and considered the compatibility of non-audit services with the independence of the independent registered public accounting firm.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board (and the Board approved) that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 for filing with the SEC. The Audit Committee and the Board also recommended the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the year ending December 31, 2016.

Table of Contents**Audit Committee Pre-Approval Policy**

The Audit Committee has adopted an Audit Committee Pre-Approval Policy for the pre-approval of audit services and permitted non-audit services by the Company's independent registered public accounting firm in order to assure that the provision of such services does not impair the independence of the independent registered public accounting firm from the Company and is consistent with the rules of the SEC. The policy requires pre-approval by the Audit Committee of the terms and fees of all audit, review and attestation engagements and related services. The policy also requires the Audit Committee to determine that the provision of any audit-related services or non-audit services would not impair the independence of our independent registered public accounting firm. The policy also prohibits the Audit Committee from retaining our independent registered public accounting firm in connection with a transaction initially recommended by such firm, the purpose of which may be tax deferral or reduction. The policy delegates pre-approval authority to the Chair of the Audit Committee or, if the Chair is not available, to any of the Audit Committee's independent members, but any pre-approval decision must be reported to the full Audit Committee at its next scheduled meeting. All of the services performed by Ernst & Young LLP ("Ernst & Young") in the year ended December 31, 2015 were pre-approved in accordance with the applicable pre-approval policy.

- (2) Includes \$77,750 paid to Ernst & Young for consent and comfort letter procedures for registration statements filed in 2014.

Audit Fees in 2015 and 2014 include fees for services performed to comply with Generally Accepted Auditing Standards. These services include the quarterly reviews, the integrated year-end audit of our consolidated financial statements, review of documents filed with the SEC, and accounting consultations on matters addressed during the audit or quarterly reviews. All of the Ernst & Young fees were pre-approved by the Audit Committee.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review and Approval of Related Person Transactions

All of our directors and officers complete a directors and officers questionnaire in the first calendar quarter of each year, in which they are asked to disclose family relationships and other related party transactions. Our Audit Committee must review and approve or ratify all related party transactions, as defined in Item 404 of Regulation S-K promulgated under the Securities Act of 1933. In examining related party transactions, our Audit Committee considers whether any of our directors, officers, holders of more than five percent (5%) of our voting stock, or any immediate family members of the foregoing persons and any other persons whom the Audit Committee determines to be related parties, have a conflict of interest where an individual may have a private interest which interferes with or appears to interfere with our interests. In determining whether to approve or ratify a related party transaction, the Audit Committee will take into account, among other factors it deems appropriate, whether the related party transaction is on terms no less favorable to us than terms generally available to us from an unaffiliated third-party under the same or similar circumstances, and the extent of the related party's interest in the transaction. Any transaction which is deemed to be a related party transaction requires the approval, initially by a majority of the disinterested Audit Committee members, and finally by a majority of the disinterested Board members. Our Audit Committee's procedures for reviewing related party transactions are in writing.

Related Person Transactions

Since January 1, 2015, there were not any transactions, nor are there currently any proposed transactions, which in accordance with SEC rules would require disclosure in this Proxy Statement.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires that our directors, executive officers and holders of more than 10% of our Common Stock report to the SEC their ownership of our Common Stock and changes in that ownership. Directors, executive officers and beneficial owners of more than 10% of our Common Stock are required by applicable regulations to furnish us with copies of all Section 16(a) forms they file. As a matter of practice, members of our staff assist our executive officers and directors in preparing initial ownership reports and reporting ownership changes and typically file these reports on their behalf. We reviewed copies of the reports filed pursuant to Section 16(a) of the Exchange Act. Based solely upon that review and information provided to us by our directors and executive officers, we believe that during the year ended December 31, 2015, our executive officers, directors and holders of more than 10% of our Common Stock complied with applicable Section 16(a) requirements.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth information about the beneficial ownership of our Common Stock as of the Record Date, March 28, 2016 (except as otherwise noted), by:

based on reports filed with the SEC, each person, or group of persons, who beneficially owns more than five percent (5%) of our common stock;

each of our directors and director nominees;

each of our Named Executive Officers; and

all directors and executive officers as a group.

Beneficial ownership and percentage ownership are determined in accordance with the rules and regulations of the SEC and include voting or investment power with respect to shares of stock. This information does not necessarily indicate beneficial ownership for any other purpose. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of Common Stock subject to options held by that person that are currently exercisable or exercisable within 60 days of March 28, 2016 are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Except as indicated in the footnotes to the following table or pursuant to applicable community property laws, each shareholder named in the table has sole voting and investment power with respect to the shares set forth opposite such shareholder's name. The percentage of beneficial ownership is based on 61,870,206 shares of Common Stock outstanding on the Record Date, March 28, 2016.

Executive Summary of Our 2015 Business and Strategic Achievements

We are a global biopharmaceutical company focused on the unmet needs of patients with rare diseases. Our lead product candidate is ARIKAYCE, or liposomal amikacin for inhalation (LAI), which is in late-stage development for patients with nontuberculous mycobacteria (NTM) lung disease, a rare and often chronic infection that is capable of causing irreversible lung damage and can be fatal. Our earlier stage pipeline includes INS1009, a nebulized prodrug formulation of treprostinil, a vasodilator of pulmonary arterial vascular beds. We believe INS1009 may offer a differentiated product profile with therapeutic potential in pulmonary arterial hypertension (PAH), idiopathic pulmonary fibrosis (IPF), sarcoidosis, and severe refractory asthma.

We are conducting a global phase 3 clinical study of ARIKAYCE (the 212 or CONVERT study) in adult patients with NTM lung disease caused by *Mycobacterium avium* complex (MAC), the predominant infective species in NTM lung disease in the U.S., Europe, and Japan. The European Medicines Agency (EMA) Committee for Medicinal Products for Human Use (CHMP) is reviewing our marketing authorization application (MAA) seeking approval of ARIKAYCE for the treatment of MAC lung disease in adult patients who have persistent positive sputum cultures despite the use of medically appropriate first-line therapy. We recently completed a phase 1 study of INS1009 in healthy subjects. In addition to INS1009, our earlier-stage pipeline includes preclinical compounds that we are evaluating in multiple rare diseases of unmet medical need, including methicillin-resistant staph aureus (MRSA), NTM, PAH and sarcoidosis. We are also evaluating additional formulations and delivery options for treprostinil, including delivery via a metered dose inhaler. To complement our internal research, we actively seek in-licensing and acquisition opportunities for a broad range of rare diseases.

Table of Contents

Our current primary development focus is to enroll and complete our global phase 3 CONVERT study, obtain regulatory approval for ARIKAYCE in the U.S. and Europe for the NTM indication, and prepare for commercialization, assuming regulatory approval of ARIKAYCE, in the U.S., Europe, Canada and Japan. We have commenced the build-out of a core commercial team in preparation for potential commercial launches in Europe, Canada and the U.S. We also plan to develop, acquire, in-license or co-promote other products that address orphan or rare diseases possibly in the fields of pulmonology and infectious disease.

2015 Company Performance

In 2015, our executive officers played critical roles in achieving several key strategic steps toward our goal of building a leading biopharmaceutical company. We advanced the ARIKAYCE clinical programs to treat NTM lung disease, we also advanced the development of INS1009, and we expanded our leadership team with talented executives in key clinical, medical affairs, compliance, and European operating roles. We made the following achievements in 2015:

We advanced the CONVERT study, a randomized, open-label global phase 3 clinical study of ARIKAYCE in adult patients with treatment refractory NTM lung disease caused by MAC.

We responded to the EMA's 120-day questions, which are a standard part of the EMA's centralized review process in the EU.

We submitted an investigational new drug (IND) application with the United States Food and Drug Administration (FDA) for INS1009, our novel nebulized prodrug formulation of trepostinil.

We initiated a phase 1 randomized, double-blind, placebo-controlled single ascending dose study to determine the safety, tolerability, and pharmacokinetics of INS1009 in healthy volunteers.

We established European operations through the creation of six entities in Europe, appointed Dr. Olaf Bartsch, vice president of Europe, general manager Germany, and Dr. Francois Cornu, vice president of Europe, general manager France, to lead the European team, established a global tax structure, and hired key personnel.

The French National Agency for Medicines and Health Products Safety (ANSM) granted LAI a Temporary Authorization for Use (Autorisation Temporaire d'Utilisation or ATU). Pursuant to this program, we shipped ARIKAYCE to pharmacies after receiving requests from physicians for patients in France.

We established commercial supply agreements with key vendors.

We made the following appointments to our leadership team: Eugene J. Sullivan, M.D., chief medical and scientific officer, Reinilde Heyrman, M.D., senior vice president of clinical development & operations, Don Nociolo, vice president of technical operations, George Georges, M.D., vice president of medical affairs, and Ela Bochenek, vice president of global compliance.

As a result, we mostly met or exceeded a number of our corporate objectives during 2015 including:

Advancing LAI regulatory filings;

Progressing manufacturing readiness for commercial launch; and

Advancing infrastructure activities in preparation for commercialization.

Compensation Principles

We operate in a very competitive, rapidly-changing and heavily-regulated industry. The long term success of our business requires the ability to be resourceful, adaptable, and innovative. As we transition from a development stage company to a commercial biopharmaceutical company, the skills, talent, and dedication of our executive officers are critical components to the success of this transition and the future growth of the company. Therefore, our compensation program for our executive officers, including our named executive officers, is designed to attract, retain, incentivize, and motivate the best possible talent. The Company's compensation program for named executive officers is structured to implement the following guiding principles:

Pay for performance. The compensation program is designed to reward the named executive officers for attaining established business and individual goals. The attainment of these goals requires the named executive officer to dedicate their time, effort, skills and business experience to the success of the Company and the maximization of shareholder value. A significant portion of the named executive officers' compensation is based on the performance of the Company, and the compensation program is designed to reward both short-term and long-term performance. Short-term performance of our named executive officers is rewarded through base salary and annual cash incentive awards that are measured by the achievement of corporate and individual goals. Long-term performance of our named executive officers is largely rewarded through long-term equity awards that are eligible to vest based on continued service (time based). Accordingly, 84% of our CEO's compensation for 2015 was variable, or "at risk," and 78% of our other named executive officers' compensation for 2015 was "at risk":

Pay competitively for the retention of our executive officers. The compensation program is designed to allow the Company to attract and retain individuals whose skills are critical to the current and long-term success of the Company. Because the implementation of our strategic goals requires long-term commitments on the part of the named executive officers, and because competition for top talent is intense in our industry, retention is a key objective of the compensation program. The compensation program is designed to appropriately compensate the named executive officers for the success of the Company from a competitive standpoint, so that our named executive officers remain with the Company and continue to contribute to the Company's long-term success.

Corporate Governance Perspectives on our Executive Compensation Program

We believe that our executive compensation program reflects our commitment to strong corporate governance practices. This is evidenced by the following aspects of our executive compensation program:

Our Compensation Committee has governance responsibility over executive pay and incentives while the Board ratifies recommendations made by our Compensation Committee on our CEO's pay and incentives;

Performance metrics that will govern incentive compensation are defined by our Compensation Committee at the start of each fiscal year and are reviewed by our Compensation Committee at the end of the year;

The executive compensation program, in the aggregate, rewards performance in a variety of ways, aimed at a balanced assessment based on Company financial and strategic objectives;

Individual and corporate multiplier ranges under our incentive compensation program are developed and implemented such that payouts are capped at a predetermined maximum amount, irrespective of performance that exceeds objectives;

Our Compensation Committee has the ability to exercise its discretion to reduce or eliminate incentive compensation payouts;

Our outside independent executive compensation consultants report directly to the Compensation Committee, which has the ability to engage and terminate relationships with outside advisors and other experts.

Edgar Filing: INSMED Inc - Form DEF 14A

Our executive compensation program balances short-term pay opportunities through base salary and annual cash incentives with long-term incentive opportunities through equity awards and

Table of Contents

balances fixed compensation (base salary) with variable compensation (annual cash incentives and equity awards); and

Our insider trading policy prohibits insiders from engaging in hedging transactions involving the Company's securities and prohibits insiders from pledging the Company's securities as collateral for loans of any type, which further mitigates risk.

In addition, the Compensation Committee conducts a compensation risk assessment annually. We do not believe that our incentive programs encourage short-term risky behavior because the performance criteria on which our incentive programs are primarily based are longer-term corporate goals designed to reward our executives and employees for outstanding corporate performance, including success in progressing our development programs and our commercialization activities.

Say on Pay and Say on Pay Frequency

At our 2014 Annual Meeting of Shareholders, as required under federal securities laws, we held an advisory vote on our executive compensation, commonly referred to as "say-on-pay." Over 98% of the shares voted at our 2014 Annual Meeting of Shareholders approved our say-on-pay proposal. The Compensation Committee considered these voting results and believes they affirm shareholders' support of our Company's approach to executive compensation. The Compensation Committee will continue to take into account future shareholder advisory votes on executive compensation in analyzing whether any subsequent changes to our executive compensation programs and policies would be warranted. Taking into account the voting preference of our shareholders, the frequency of "say-on-pay" votes will be every three years. As a result, a shareholder advisory vote on executive officer compensation will next occur at the 2017 Annual Meeting of Shareholders.

Anti-Hedging and Pledging Policies

As part of our corporate insider trading policy, all of our employees, including our named executive officers, as well as our directors, may not hold our securities in margin accounts; are restricted from pledging, without the prior approval of the Compensation Committee, our securities as collateral; and are prohibited from engaging in hedging transactions in our company securities, including the use of financial instruments such as prepaid variable forwards, equity swaps, collars, exchange funds or otherwise.

Compensation Determination Process

Role of the Compensation Committee and the Board in Making Decisions. Our Compensation Committee has been delegated the authority to make determinations regarding all elements of compensation for our executive officers, except for Mr. Lewis, our President and CEO. Our Compensation Committee recommends to our Board the compensation for Mr. Lewis for final approval. The Board reviews those recommendations and determines the compensation for Mr. Lewis. As discussed in further detail below, in assessing and determining our compensation programs, our Compensation Committee conducts a peer group review and engages outside independent executive compensation consultants to assess the competitiveness of our programs on a periodic basis. A review of peer company data was conducted in August 2014 which resulted in modifications to our 2015 peer group. We plan to continue conducting peer group and outside consultant review of our programs at least on an annual basis. See "Selection of Peer Companies/Benchmarking" below for additional information regarding our Peer Group analysis.

Table of Contents

Compensation Evaluation Processes and Criteria. The Compensation Committee has previously implemented some enhancements to our executive compensation program, including the introduction of performance-based equity awards and the practice of routinely seeking the advice of an independent compensation consultant, ExeQuity, regarding the establishment of a peer group intended to better align target compensation with competitive data. Based on the information it gathers, the Compensation Committee establishes benchmarks used for the purpose of evaluating appropriate compensation ranges for base salary, annual cash incentive targets and long-term incentives. Given the high demand for experienced and well-qualified executives of the type we seek to employ, the Compensation Committee reviews data and information from a variety of sources such as outside surveys of compensation and benefits for executive officers in the biotechnology industry, as well as public information regarding executive compensation at peer biotechnology companies. The Compensation Committee, with the help of ExeQuity, established a peer group to better align target compensation with competitive data. The Compensation Committee further draws upon the personal knowledge of its members with respect to executive compensation at comparable companies.

In determining the amount and composition of compensation elements (cash and non-cash elements and short and long-term elements), our Compensation Committee relies upon its judgment about the performance of each individual executive officer and not on rigid formulas or short-term changes in business performance. In setting final compensation levels for our executive officers for 2015 our Compensation Committee considered many factors, including, but not limited to the following (the "compensation factors"):

our achievement of certain product development, corporate partnering, financial, strategic planning and other goals;

each officer's individual performance using certain subjective criteria, including an evaluation of each officer's initiative, contribution to overall corporate performance and managerial ability;

the scope and strategic impact of each executive officer's responsibilities;

our past business performance and future expectations;

our long-term goals and strategies;

the experience of each individual;

past compensation levels of each individual and of the executives as a group;

relative levels of pay among the officers;

the amount of each element of compensation in the context of the executive officer's total compensation and other benefits;

for each executive officer, other than the President and CEO, the evaluations and recommendations of our President and CEO; and

the competitiveness of our compensation relative to the selected peer group companies and benchmarks (which are described below).

Consideration of the compensation factors is subjective; no relative weights or rankings are assigned to these factors (except as otherwise discussed in this CD&A).

Selection of Peer Companies/Benchmarking

Edgar Filing: INSMED Inc - Form DEF 14A

In August 2014, the Compensation Committee, upon advice received from ExeQuity, selected the companies that comprise our 2015 peer group through a screening process that considered publicly traded biopharmaceutical companies that were similar to us in size, market capitalization and stage of development. The median number of employees and market capitalization of the companies selected

Table of Contents

for our 2015 peer group was 89 employees and approximately \$1.09 billion respectively. The number of employees at the companies in our 2015 peer group ranged from 20 to 445, and these companies had market capitalizations that ranged from approximately \$357.6 million to \$3.12 billion. We had 61 employees and a market capitalization of approximately \$724.8 million at the time of selection. Employee numbers were as of the most recently reported fiscal year-end and market capitalizations were the three month trailing average as of September 30, 2014. The table below depicts our 2015 peer group:

Aegerion Pharmaceuticals, Inc.	Hyperion Therapeutics Inc.	Raptor Pharmaceutical Corp.
Amicus Therapeutics, Inc.	Inovio Pharmaceuticals, Inc.	Sangamo BioSciences, Inc.
Anacor Pharmaceuticals, Inc.	Keryx Biopharmaceuticals, Inc.	Sunesis Pharmaceuticals, Inc.
Celldex Therapeutics, Inc.	Ligand Pharmaceutical Incorporated	
Clovis Oncology, Inc.	Nektar Therapeutics	
Dyax Corp.	Novavax, Inc.	
Halozyyme Therapeutics, Inc.	NPS Pharmaceuticals, Inc.	

Based on the information it gathers, the Compensation Committee establishes benchmarks used for the purpose of evaluating appropriate compensation ranges for base salary, annual cash incentive targets and long-term incentives. Our Compensation Committee uses the benchmarks in various combinations in an effort to obtain comparative compensation information that reflects our particular facts and circumstances over the period of time for which the information is available.

Components of Compensation

In summary, the compensation paid to our executive officers includes the following components:

Component	Purpose of Component
Base Salary	Provide our executive officers with a level of stability and certainty each year.
Annual Cash Incentive Awards	Motivate and reward executive officers for short-term individual and corporate performance.
Long-term Incentives (Stock Options)	Motivate and reward executive officers for long-term corporate performance. Encourage stock ownership by management, which is beneficial for aligning the interests of management and shareholders, thereby enhancing shareholder value. Equity-based incentive to help attract, motivate, and retain talented employees.
Health, Welfare and Retirement Programs	Provide market competitive benefits to protect employees' and their covered dependents' health and welfare. Provide a program to foster retirement savings.
Severance and Change in Control Benefits	Discourage turnover and cause executives to be better able to respond to the possibility of a change in control without being influenced by the potential effect of a change in control on their job security.

Table of Contents

The components of our compensation program and compensation decisions for 2015 for each named executive officer are described in more detail below:

Base Salary

The Compensation Committee reviews and sets base salaries for executives, other than the President and CEO, on an annual basis during the first quarter of each fiscal year. The Compensation Committee reviews and recommends to our Board the base salary for our President and CEO and the Board determines the base salary for our President and CEO.

Our Board and Compensation Committee seek to establish and maintain base salaries for each position and level of responsibility that are competitive with those of executive officers at various other biotechnology companies of comparable size and stage of development. When our compensation is benchmarked, our Compensation Committee reviews variances between the salary levels for each of our executive officers and those of the companies included in our peer group and determines, in its discretion, individual salary adjustments after considering the compensation factors described above, although no relative weights or rankings are assigned to these factors. In setting the base salary for our executive officers other than our CEO, the Compensation Committee also considers the recommendations of our CEO.

The base salaries for our named executive officers were adjusted as follows in 2015:

Name	Base Salaries		
	Annual Rate Approved in 2014 Fiscal Year	Annual Rate Approved in 2015 Fiscal Year	% Increase
William H. Lewis	\$ 465,000	\$ 505,000	8.6%
Andrew T. Drechsler	\$ 340,800	\$ 351,024	3.0%
Eugene J. Sullivan	N/A	\$ 400,000	N/A
Christine Pellizzari	\$ 354,740	\$ 365,382	3.0%
S. Nicole Schaeffer	\$ 303,800	\$ 312,914	3.0%

Mr. Lewis, Mr. Drechsler, Ms. Pellizzari, and Ms. Schaeffer were given merit increases based on their respective performance in 2014. The base salary for Dr. Sullivan is the result of arm's-length negotiation of his employment agreement at the time of his hire in March 2015.

Annual Cash Incentives

We maintain an annual cash incentive program for all of our employees to motivate and reward the attainment of annual corporate goals and individual goals. In establishing targets for the cash incentive awards potentially payable to our executive officers, the Compensation Committee (and the Board in the case of our President and CEO) considers target annual cash incentive opportunities extended to executive officers in similar positions at companies included in our peer group.

For 2015, target cash incentive award percentages were set at 60% of our CEO's base salary; 40% of base salary for each of Mr. Drechsler, Dr. Sullivan, and Ms. Pellizzari; and 35% of base salary for

Edgar Filing: INSMED Inc - Form DEF 14A

Table of Contents

Ms. Schaeffer. The target percentages set for 2015 are comparable to the percentages set for the prior fiscal year for certain named executive officers, as reflected in the table below.

Name	Target Cash Incentive Award Opportunity as a Percentage of Base Salary	
	2014 Fiscal Year	2015 Fiscal Year
	William H. Lewis	60%
Andrew T. Drechsler	40%	40%
Eugene J. Sullivan	N/A	40%
Christine Pellizzari	40%	40%
S. Nicole Schaeffer	35%	35%

At the beginning of each fiscal year, management recommends annual corporate objectives to the Compensation Committee for approval. These objectives serve as the basis for determining our performance against key strategic and operating parameters for the year. In the past, criteria for cash incentive awards for executive officers ranged from success in raising capital, to success in conducting clinical trials, obtaining FDA and EMA approvals, entering into new and expanded collaborations, licensing, acquisitions, divestitures, and establishing and expanding our manufacturing capabilities.

The Compensation Committee approved our corporate objectives and assigned weightings for 2015 as follows:

Corporate Goals	Weighting (% of Corporate Objectives)
Development: regulatory/clinical/pipeline	50%
Prepare for commercialization	30%
Corporate development and other key performance indicators	20%
Total	100%

The Compensation Committee believes that these corporate objectives are challenging but attainable, and attainment was uncertain at the time the objectives were established.

For 2015, the Compensation Committee determined that the cash incentive award for our named executive officers other than Mr. Lewis would be determined by reference to both corporate and individual goals, with 75% tied to corporate goals and 25% tied to individual goals. While the Compensation Committee believes that achievement of our corporate goals should continue to be the dominant factor in determining cash incentive award payouts because it best aligns our named executive officers' compensation with the interests of our shareholders, they also believe that some portion of the executives' compensation, except with respect to the compensation of our CEO, should be linked to individual performance. The Compensation Committee believes that including the achievement of individual goals as a component of our 2015 cash incentive award payouts is important to incent our officers as we continue to transform the organization from a development stage company into a commercial biopharmaceutical company. Given Mr. Lewis's substantial influence on the overall performance of the Company, the Compensation Committee believes it is appropriate and in the best interests of our shareholders to continue to have Mr. Lewis's cash incentive award be based solely upon the achievement of corporate objectives.

Awards for corporate goals are based upon the product of each named executive officer's respective target award times an overall corporate multiplier (ranging between 0% and 200%), which is determined based on Company performance during the trailing fiscal year. Awards for individual objectives are based upon the product of each named executive officer's respective target award times

an individual multiplier (ranging between 25% and 150%), which is determined based on individual goals established for each named executive officer (other than the CEO) for the trailing fiscal year.

Mr. Lewis, in consultation with Ms. Schaeffer, established individual goals for each of our named executive officers at the beginning of 2015 that are specific to the executive officer's area of responsibility and are in support of our corporate objectives for 2015. These individual goals were then recommended to and approved by our Compensation Committee.

Mr. Drechsler's individual goals included:

- supporting technical operations;
- building process development capability;

- directing advancement of enrollment in the global phase 3 CONVERT study of ARIKAYCE and advancing INS1009 to phase 1 clinical development;
- building out the medical affairs function; and

Edgar Filing: INSMED Inc - Form DEF 14A

Ms. Schaeffer's individual goals included:

facilitating a high quality hiring process to enable top quality candidates to be selected and retained by the organization;

enabling and promoting cross communication especially with regard to company culture;

supporting international build-out; and

With input from the CEO, the Compensation Committee typically makes a qualitative determination as to the level of attainment that is deemed achieved by each of the foregoing named executive officers with regard to their respective individual performance objectives. The Compensation

Committee believes that these objectives are challenging but attainable, and attainment was uncertain at the time the objectives were established.

When determining what cash incentive amounts, if any, would be paid for 2015, the Board, with respect to the President and CEO, and the Compensation Committee, with respect to the other executive officers, also took into account our overall financial condition at the time and our performance against our annual corporate objectives. During the fourth quarter of 2015, the Compensation Committee engaged Frederic W. Cook & Co., Inc., an independent compensation consultant, to conduct a new comprehensive assessment of our executive pay programs and levels. In addition to the Compensation Committee's evaluation process described above, the Compensation Committee received input from Frederic W. Cook in evaluating the 2015 cash incentive awards for our named executive officers. For bonuses related to our 2015 performance, the Compensation Committee determined that we achieved a cash bonus payout percentage of 82% on our overall performance against our corporate objectives. The following table provides a breakdown of how we performed against each of our corporate objectives during 2015:

Corporate Objectives	Weighting (% of Corporate Objectives)	Actual Performance	Actual % of Corporate Objectives Earned
Development: regulatory/clinical/pipeline	50%	Partially Achieved	26%
Prepare for commercialization	30%	Exceeded	33%
Corporate development and other key performance indicators	20%	Exceeded	23%
Total	100%		82%

The achievement of a significant portion of our development objective required completing enrollment of the CONVERT study by the end of 2015. While we believe our procedures for enrolling patients was appropriate, securing regulatory clearance for a few countries in Asia and Europe and the ramp of enrollment at certain centers took longer than expected. As a result, we modified our guidance and indicated we expect to complete enrollment before the end of 2016. As of the filing of our Annual Report on Form 10-K for the year ended December 31, 2015, we had secured health authority clearance in 16 countries and opened more than 115 sites. The remainder of our development objective relied upon our timely reply to EMA's 120-day questions, submission of an IND application with the FDA for INS1009, and the enrollment of the first patient in the INS1009 phase 1 study. While each of these latter goals was fully achieved, we awarded only 26% achievement of our development objective given the revised timeline for completing enrollment in the CONVERT study.

In addition to reviewing our performance against our corporate objectives, the CEO is evaluated by the Board and each executive officer is evaluated by the Compensation Committee with input from the CEO regarding his or her individual performance, level of responsibility, leadership in relation to our overall performance and the other compensation factors described above. For 2015, the Compensation committee determined that Mr. Drechsler and Dr. Sullivan partially achieved their individual goals and they achieved a cash bonus payout percentage of 95% and 90%, respectively, on their performance against their individual goals. The Compensation Committee determined that each of Ms. Pellizzari and Ms. Schaeffer exceeded their individual goals and they achieved a cash bonus payout percentage of 115% and 105%, respectively, on their performance against their individual objectives.

Table of Contents

Based upon our performance in fiscal 2015, including our achievement of the corporate goals summarized above, as well as the achievement of individual goals set by the Compensation Committee, our named executive officers earned the following cash incentive awards for 2015:

Name	Base Salary	Target Bonus %	Allocation of Bonus %		Actual Bonus % Achievement		2015 Cash Bonus
			Corporate Goals	Individual Goals	Corporate Goals	Individual Goals	
William H. Lewis	\$ 505,000	60%	100%	N/A	82%	N/A	\$ 248,460
Andrew T. Drechsler	\$ 351,024	40%	75%	25%	82%	95%	\$ 119,700
Eugene J. Sullivan(1)	\$ 400,000	40%	75%	25%	82%	90%	\$ 134,400
Christine Pellizzari	\$ 365,382	40%	75%	25%	82%	115%	\$ 132,000
S. Nicole Schaeffer	\$ 312,914	35%	75%	25%	82%	105%	\$ 96,200

(1)

Dr. Sullivan's payments were prorated for his period of service during 2015.

For our named executive officers other than our CEO, 75% of their cash incentive award was based on achievement of corporate goals and 25% was based on achievement of individual goals. Mr. Lewis's cash incentive award was based solely upon achievement of corporate goals.

Long-term Incentives

One of the guiding principles of our compensation program is pay for performance, and we believe that a significant portion of our executives' compensation should be performance-based to create appropriate incentives and rewards for achieving strategic goals that are critical drivers of shareholder value. We also believe that stock ownership by management aligns our executives' interests with those of our shareholders, and equity incentive compensation rewards our executives for their contributions to the long-term success of the Company. The Compensation Committee believes that equity-based compensation is a vital part of our compensation program as it creates an ownership culture that rewards our executives for maximizing shareholder value over time and aligns the interests of our named executive officers and other key employees with those of our shareholders.

Historically, we have granted stock options to all new employees upon commencement of employment and we plan to continue this practice. The Compensation Committee believes that providing additional stock option grants beyond an initial new hire grant provides management with a strong link to long-term corporate performance and the creation of shareholder value, as well as providing continued retention via long-term and milestone driven vesting. The Compensation Committee may grant stock options to executive officers from time to time in recognition of such executive officer's expanded duties and responsibilities or continuing contributions to the Company's performance. Shares of our Common Stock underlying time-vested stock options typically vest over a four-year period, with 25% of the shares vesting on the first anniversary of the date of grant and 12.5% of the shares vesting on each sixth month anniversary thereafter until the fourth yearly anniversary of the date of grant. The stock options granted typically expire ten years from the date of grant and the exercise price typically equals the closing price of our Common Stock on the date of grant.

Equity compensation awards were granted to each of Messrs. Lewis and Drechsler, Ms. Pellizzari and Ms. Schaeffer in January 2015 and to each of Messrs. Lewis and Drechsler, Dr. Sullivan, Ms. Pellizzari, and Ms. Schaeffer in May 2015. In March 2015, as a material inducement for Dr. Sullivan to accept employment with the Company, he was granted 100,000 stock options that vest over a four-year period conditioned on his continued employment with the Company.

One of the guiding principles of our compensation program is pay for performance and from time-to-time the Compensation Committee has made the determination to grant equity-based

Table of Contents

compensation to our named executive officers that is performance-based, vesting upon the achievement of certain strategic goals.

See "Outstanding Equity Awards at Fiscal Year End" below for additional information regarding equity-based based compensation held by each of our named executive officers as of December 31, 2015. The Board approves all stock option grants to our President and CEO upon recommendation of the Compensation Committee.

We may grant restricted stock and RSU awards to employees and to executive officers. The vesting criteria for the restricted stock or RSUs can be either time-based, performance-based or a combination of time-based and performance-based. We may grant stock options, restricted stock, and RSU awards to employees separately or in combination in the future as we deem beneficial and appropriate to fulfill the goals of our compensation program.

When granting stock options, restricted stock or RSUs, the Compensation Committee considers the compensation factors described above, as well as:

the existing levels of stock ownership among the executive officers relative to each other and to our employees as a whole;

previous grants of stock options, restricted stock or RSUs to such executive officers;

vesting schedules of previously granted stock options, restricted stock and RSUs;

a thorough review of market data by the Compensation Committee members regarding executive stock options and restricted stock awards at comparable companies; and

the impact of stock option, restricted stock and RSU awards on our results of operations.

None of the named executive officers were granted restricted stock or RSUs during 2015. One of the guiding principles of our compensation program is pay for performance, and we believe that a substantial portion of our executives' compensation should be performance-based to create appropriate incentives and rewards for achieving strategic goals that are critical drivers of shareholder value. We also believe that stock ownership by management aligns our executives' interests with those of our shareholders, and equity incentive compensation rewards our executives for their contributions to the long-term success of the Company. The Compensation Committee previously determined that it is potentially beneficial to grant total annual equity compensation awards on a semi-annual basis, rather than on an annual basis, to help address pricing volatility of the stock and to further the Company's goal of providing meaningful compensation packages to employees consistent with best practices. The Compensation Committee believes that a semi-annual grant cycle spreads the incentives of the stock option grant across a broader time horizon and may mitigate the impact of the historical volatility of our stock.

Other Benefits

We maintain several other benefit programs that are offered to all employees, which include coverage for health insurance, dental insurance, life and disability insurance, and a 401(k) Plan. In 2015, we implemented a Company match with respect to our 401(k) Plan. In general, for each employee who contributes up to 3% of their eligible compensation, the Company will deposit a matching contribution of 100% of deferrals up to 3% of eligible compensation (subject to any maximum applicable limits under the IRS regulations). We do not have any defined benefit plans or non-qualified deferred compensation plans.

Severance and Change in Control Benefits

As discussed in further detail below, we entered into employment agreements with each of our named executive officers that, in addition to other items, provide for certain severance and change in control payments. We believe that the existence of these potential benefits will discourage turnover and cause such executives to be better able to respond to the possibility of a change in control without being influenced by the potential effect of a change in control on their job security.

Other Compensation Considerations

Section 162(m). In general, under Section 162(m) of the Code, we cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers for any one calendar year. This deduction limitation does not apply, however, to certain "performance-based compensation" within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. We have considered the limitations on deductions imposed by Section 162(m) of the Code. However, we cannot assure you that all compensation will qualify for deductibility under Section 162(m), and we may, in our discretion, award non-deductible compensation.

Potential Payments Upon Termination or Change in Control

Our named executive officers are entitled to certain benefits in connection with certain terminations or as a result of a change in control. We believe that the existence of these potential benefits will discourage turnover and cause such executives to be better able to respond to the possibility of a change in control without being influenced by the potential effect of a change in control on their job security.

- (b) a material diminution in the executive's authority, duties, or responsibilities;
- (c) a material diminution in the authority, duties, or responsibilities of the supervisor to whom the executive is required to report;

To protect our business and goodwill, for a period of twelve months after the termination of an executive's employment with us, the executive agrees that he or she will not:

1. engage in any activity in material competition with the business in which we engaged while the executive was employed by us;
2. directly or indirectly recruit or solicit any person who is then an employee of us or was an employee of us at any time within six months prior to such solicitation; or
3. solicit, divert or take away, or attempt to divert or to take away, the business or patronage of any of our clients or customers, or prospective clients or customers.

The severance benefits that executives may be entitled to receive under these agreements and other benefits that the executives are entitled to receive under other plans, may constitute parachute payments that are subject to the "golden parachute" rules of Section 280G of the Code and the excise tax of Code Section 4999. If these payments are determined to be parachute payments, as calculated by our independent registered public accounting firm, the parachute payments will be reduced if, and only to the extent that, a reduction will allow the executives to receive a greater net after tax amount than the executives would receive absent a reduction. All severance benefits are also subject to the execution and non-revocation of a general release of claims against the Company.

The table below summarizes the hypothetical payments that could be incurred for each of the named executive officers at the time assuming that a qualified termination under the applicable agreement occurred on December 31, 2015 as a result of termination without cause or for good reason during the one year period immediately following a change in control.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Compensation Committee is comprised entirely of independent directors and none of our executive officers served on the Compensation Committee or on the board of any company that employed any member of our Compensation Committee or our Board.

Table of Contents

DIRECTOR COMPENSATION

Mr. Lewis is a director and an executive officer of the Company. He receives no additional compensation for serving on the Board. No other director is an employee of the Company.

Our Board determines the compensation of our non-employee directors in conjunction with recommendations made by the Compensation Committee. The Compensation Committee evaluates the appropriate level and form of compensation for non-employee directors at least annually and recommends changes to our Board when appropriate. Our Board is currently compensated through a combination of fees, in the form of cash retainers, and equity awards, in the form of RSUs. Our approach to Board compensation is intended to align our non-employee director compensation practices with the best interests of our shareholders.

Fees Earned or Paid in Cash

Our non-employee directors are paid quarterly retainer fees for their service on the Board. Our non-employee directors are not compensated for attending individual meetings of the Board on a per-meeting basis. During 2015, each non-employee director was paid quarterly retainer fees totaling \$40,000 annually, except for Mr. Hayden who, as the Chairman of the Board, was paid quarterly retainer fees totaling \$80,000 annually. The Chairman of the Nominations and Governance Committee was paid an additional annual fee of \$10,000. The Chairman of the Compensation Committee was paid an additional annual fee of \$15,000. The Chairman of the Audit Committee was paid an additional annual fee of \$20,000. These annual fees were paid quarterly.

Grant of Restricted Stock Units

During 2015, each non-employee director, received an annual equity-based grant with a grant date value of approximately \$100,000 in the form of RSUs. Except in the case of Dr. Whitcomb, the RSUs vest on the first anniversary of the date of the award, provided that the director attend at least 75% of the meetings of the Board. In connection with Dr. Whitcomb's resignation, effective as of May 21, 2015, the Board approved the vesting of all of Dr. Whitcomb's outstanding 2015 equity awards effective as of the same date.

Other

We reimburse all of our directors for expenses incurred in connection with their attendance at Board or committee meetings. We also provide director and officer insurance for all directors.

The following table sets forth a summary of the compensation we paid to our non-employee directors in 2015.

PROPOSAL NO. 2

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Information Relative to Ratification of Independent Registered Public Accounting Firm

The Audit Committee has designated Ernst & Young LLP, independent registered public accounting firm, as our independent registered public accounting firm for the fiscal year ending December 31, 2016. A representative of Ernst & Young LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement and respond to appropriate questions.

The principal function of Ernst & Young LLP is to audit our consolidated financial statements and, in connection with that audit, to review certain related filings submitted to the Securities and Exchange Commission and to conduct limited reviews of the consolidated financial statements included in each of our quarterly reports. The aggregate fees billed for each of the last two fiscal years for professional services rendered by Ernst & Young LLP, as well as information relating to the Audit Committee's pre-approval policies and procedures, are detailed in the "Audit Committee Report."

Vote Not Required for Approval

Shareholder ratification of our independent registered public accounting firm is not required under Virginia law, our Articles of Incorporation or our Bylaws. However, the Board is submitting the expected appointment of Ernst & Young to the shareholders for ratification as a matter of good corporate practice. In the event that a majority of the votes cast are against the ratification of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016, the Audit Committee will consider the vote and the reasons therefor in future decisions on the selection of our independent registered public accounting firm. Even if the appointment is ratified, the Audit Committee may engage different independent auditors at any time during the year if it determines that such a change would be in our best interests and those of our shareholders.

Recommendation

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
