Form 10-Q
August 06, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the quarterly period ended June 30, 2014

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period from _____ to _____

Commission File Number 000-26121

LCNB Corp.

(Exact name of registrant as specified in its charter)

Ohio

31-1626393

(State or other jurisdiction of incorporation or
organization)

(I.R.S. Employer Identification Number)

2 North Broadway, Lebanon, Ohio 45036

(Address of principal executive offices, including Zip Code)

(513) 932-1414

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

Edgar Filing: LCNB CORP - Form 10-Q

The number of shares outstanding of the issuer's common stock, without par value, as of August 4, 2014 was 9,298,829 shares.

The accompanying notes to consolidated financial statements are an integral part of these statements.

Table of Contents

LCNB CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 - Basis of Presentation

Substantially all of the assets, liabilities and operations of LCNB Corp. ("LCNB" or the "Company") are attributable to its wholly-owned subsidiary, LCNB National Bank (the "Bank"). The accompanying unaudited consolidated financial statements include the accounts of LCNB and the Bank.

The unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited interim consolidated financial statements include all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation of financial position, results of operations, and cash flows for the interim periods, as required by Regulation S-X, Rule 10-01.

The consolidated balance sheet as of December 31, 2013 has been derived from the audited consolidated balance sheet as of that day.

Certain prior period data presented in the financial statements have been reclassified to conform with the current year presentation.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Results of operations for the three and six months ended June 30, 2014 are not necessarily indicative of the results to be expected for the full year ending December 31, 2014. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements, accounting policies, and financial notes thereto included in LCNB's 2013 Annual Report on Form 10-K filed with the SEC.

Note 2 – Acquisitions

On October 9, 2012, LCNB and First Capital Bancshares, Inc. ("First Capital") entered into an Agreement and Plan of Merger ("Merger Agreement") pursuant to which First Capital was merged into LCNB on January 11, 2013 in a stock and cash transaction valued at approximately \$20.2 million. Immediately following the merger of First Capital into LCNB, Citizens National Bank of Chillicothe ("Citizens"), a wholly-owned subsidiary of First Capital, was merged into LCNB National Bank. Citizens operated six full-service branches with a main office and two other facilities in Chillicothe, Ohio and one branch in each of Frankfort, Ohio, Clarksburg, Ohio, and Washington Court House, Ohio. These offices became branches of the Bank after the merger.

On October 28, 2013, LCNB and Colonial Banc Corp. ("Colonial") entered into a Stock Purchase Agreement ("Purchase Agreement") pursuant to which LCNB purchased from Colonial on January 24, 2014 all of the issued and outstanding shares of Eaton National Bank & Trust Co. ("ENB") in a cash transaction valued at \$24.75 million. Immediately

following the acquisition, ENB was merged into the Bank. ENB operated five full-service branches with a main office and another facility in Eaton, Ohio and branch offices in each of West Alexandria, Ohio, New Paris, Ohio, and Lewisburg, Ohio. These offices became branches of the Bank after the merger.

Table of Contents

LCNB CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 2 – Acquisitions (continued)

The merger with ENB was accounted for using the acquisition method of accounting and, accordingly, assets acquired, liabilities assumed, and consideration paid were recorded at their estimated fair values as of the merger date, as summarized in the following table (in thousands):

Consideration Paid:

Cash paid to shareholder	\$24,750
--------------------------	----------

Identifiable Assets Acquired:

Cash and cash equivalents	15,635
---------------------------	--------

Investment securities:

Available-for-sale	35,859
--------------------	--------

Federal Reserve Bank stock	41
----------------------------	----

Federal Home Loan Bank stock	784
------------------------------	-----

Loans	115,944
-------	---------

Premises and equipment	1,314
------------------------	-------

Bank owned life insurance	3,618
---------------------------	-------

Core deposit intangible	2,466
-------------------------	-------

Other real estate owned	262
-------------------------	-----

Other assets	1,624
--------------	-------

Total identifiable assets acquired	177,547
------------------------------------	---------

Liabilities Assumed:

Deposits	165,335
----------	---------

Short-term borrowings	651
-----------------------	-----

Other liabilities	263
-------------------	-----

Total liabilities assumed	166,249
---------------------------	---------

Total Identifiable Net Assets Acquired	11,298
--	--------

Goodwill resulting from merger	\$13,452
--------------------------------	----------

The amount of goodwill recorded reflects LCNB's entrance into a new market and related synergies that are expected to result from the acquisition and represents the excess purchase price over the estimated fair value of the net assets acquired. The goodwill will not be amortizable on LCNB's financial records, but is deductible for tax purposes. The core deposit intangible will be amortized over eight years using the straight-line method.

Prior to the end of the one-year measurement period for finalizing the purchase allocation, if information becomes available which would indicate adjustments to the purchase price allocation, such adjustments will be included in the purchase price retrospectively.

The following table details the changes in fair value of net assets acquired and liabilities assumed from the amounts reported in the Form 10-Q for the period ending March 31, 2014 (in thousands):

Goodwill at March 31, 2014	\$13,238
----------------------------	----------

Effect of adjustments to:	
Loans	189
Other assets	21
Other liabilities	4
Goodwill at June 30, 2014	\$13,452

8

LCNB CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 2 – Acquisitions (continued)

Direct costs related to the acquisition were expensed as incurred and are recorded in merger-related expense in the consolidated statements of income.

The results of operations are included in the consolidated statement of income from the date of the merger. The estimated amount of ENB revenue (net interest income plus non-interest income) and net income, excluding merger and data conversion costs, included in LCNB's consolidated statement of income for the six months ended June 30, 2014 were as follows (in thousands):

Total revenue	\$2,639
Net income	984

The following table presents unaudited pro forma information as if the merger with ENB had occurred on January 1, 2013 (in thousands). This pro forma information gives effect to certain adjustments, including purchase accounting fair value adjustments, amortization of the core deposit intangible, and related income tax effects. It does not include merger and data conversion costs. The pro forma information does not necessarily reflect the results of operations that would have occurred had the merger with ENB occurred in 2013. In particular, expected operational cost savings are not reflected in the pro forma amounts.

	Six Months Ended	
	June 30,	
	2014	2013

Note 3 - Investment Securities (continued)

Management has determined that the unrealized losses at June 30, 2014 are primarily due to fluctuations in market interest rates and do not reflect credit quality deterioration of the securities. Because LCNB does not have the intent to sell the investments and it is more likely than not that LCNB will not be required to sell the investments before recovery of their amortized cost bases, which may be at maturity, LCNB does not consider these investments to be other-than-temporarily impaired.

Contractual maturities of investment securities at June 30, 2014 were as follows (in thousands). Actual maturities may differ from contractual maturities when issuers have the right to call or prepay obligations.

	Available-for-Sale		Held-to-Maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due within one year	\$13,154	13,238	2,086	2,097

Note 4 - Loans

Major classifications of loans at June 30, 2014 and December 31, 2013 are as follows (in thousands):

	June 30, 2014	December 31, 2013
Commercial and industrial	38,919	29,337
Commercial, secured by real estate	377,806	314,252
Residential real estate	243,966	215,587
Consumer	20,015	12,643
Agricultural	8,466	2,472
Other loans, including deposit overdrafts	2,594	91
	691,766	574,382
Deferred net origination costs (fees)	(47) (28
	691,719	574,354
Less allowance for loan losses	3,394	3,588
Loans, net	688,325	570,766

All advances from the FHLB are secured by a blanket pledge of LCNB's 1-4 family first lien mortgage loans in the amount of approximately \$203 million and \$183 million at June 30, 2014 and December 31, 2013, respectively. Additionally, LCNB is required to hold minimum levels of FHLB stock, based on the outstanding borrowings.

Loans acquired from the mergers with First Capital and ENB are recorded at fair value with no carryover of the acquired entity's previously established allowance for loan losses. The excess of expected cash flows over the estimated fair value of acquired loans is recognized as interest income over the remaining contractual lives of the loans using the level yield method.

Subsequent decreases in expected cash flows will require additions to the allowance for loan losses. Subsequent improvements in expected cash flows result in the recognition of additional interest income over the then-remaining contractual lives of the loans.

Impaired loans acquired are accounted for under FASB ASC 310-30. Factors considered in evaluating whether an acquired loan was impaired include delinquency status and history, updated borrower credit status, collateral information, and updated loan-to-value information. The difference between contractually required payments at the time of acquisition and the cash flows expected to be collected is referred to as the nonaccretable difference. The interest component of the cash flows expected to be collected is referred to as the accretable yield and is recognized as interest income over the remaining contractual life of the loan using the level yield method. Subsequent decreases in expected cash flows will require additions to the allowance for loan losses. Subsequent improvements in expected cash flows will result in a reclassification from the nonaccretable difference to the accretable yield.

The following table provides certain information at the acquisition date on loans acquired from ENB, not including loans considered to be impaired (in thousands):

Contractually required principal at acquisition	\$ 102,483
Less fair value adjustment	1,347
Fair value of acquired loans	\$ 101,136

Contractual cash flows not expected to be collected

\$1,702

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 4 – Loans (continued)

The risk characteristics of LCNB's material loan portfolio segments are as follows:

Commercial and Industrial Loans. LCNB's commercial and industrial loan portfolio consists of loans for various purposes, including loans to fund working capital requirements (such as inventory and receivables financing) and purchases of machinery and equipment. LCNB offers a variety of commercial and industrial loan arrangements, including term loans, balloon loans, and line of credit. Most commercial and industrial loans have a variable rate, with adjustments occurring monthly, annually, every three years, or every five years. Adjustments are generally based on a publicly available index rate plus a margin. The margin varies based on the terms and collateral securing the loan. Commercial and industrial loans are offered to businesses and professionals for short and medium terms on both a collateralized and uncollateralized basis. Commercial and industrial loans typically are underwritten on the basis of the borrower's ability to make repayment from the cash flow of the business. Collateral, when obtained, may include liens on furniture, fixtures, equipment, inventory, receivables, or other assets. As a result, such loans involve complexities, variables, and risks that require thorough underwriting and more robust servicing than other types of loans.

Commercial, Secured by Real Estate Loans. Commercial real estate loans include loans secured by a variety of commercial, retail, and office buildings, religious facilities, multifamily (more than two-family) residential properties, construction and land development loans, and other land loans. Commercial real estate loan products generally amortize over five to twenty-five years and are payable in monthly principal and interest installments. Some have balloon payments due within one to ten years after the origination date. Many have adjustable interest rates with adjustment periods ranging from one to ten years, some of which are subject to established "floor" interest rates.

Commercial real estate loans are underwritten based on the ability of the property, in the case of income producing property, or the borrower's business to generate sufficient cash flow to amortize the debt. Secondary emphasis is placed upon global debt service, collateral value, financial strength of any guarantors, and other factors. Commercial real estate loans are generally originated with a 75 percent maximum loan to appraised value ratio.

Residential Real Estate Loans. Residential real estate loans include loans secured by first or second mortgage liens on one-to-two family residential property. Home equity lines of credit and mortgage loans secured by owner-occupied agricultural property are included in this category. First and second mortgage loans are generally amortized over five to thirty years with monthly principal and interest payments. Home equity lines of credit generally have a five year draw period with interest only payments followed by a repayment period with monthly payments based on the amount outstanding. LCNB offers both fixed and adjustable rate mortgage loans. Adjustable rate loans are available with adjustment periods ranging between one to ten years and adjust according to an established index plus a margin, subject to certain floor and ceiling rates. Home equity lines of credit have a variable rate based on the Wall Street Journal prime rate plus a margin.

LCNB does not originate reverse mortgage loans or residential real estate loans generally considered to be "subprime."

Residential real estate loans are underwritten primarily based on the borrower's ability to repay, prior credit history, and the value of the collateral. LCNB requires private mortgage insurance for first mortgage loans that have a loan to appraised value ratio of greater than 80%.

Consumer Loans. LCNB's portfolio of consumer loans generally includes secured and unsecured loans to individuals for household, family and other personal expenditures. Secured loans include loans to fund the purchase of automobiles, recreational vehicles, boats, and similar acquisitions. Consumer loans made by LCNB generally have fixed rates and terms ranging up to 72 months, depending upon the nature of the collateral, size of the loan, and other relevant factors.

Consumer loans generally have higher interest rates, but pose additional risks of collectability and loss when compared to certain other types of loans. Collateral, if present, is generally subject to damage, wear, and depreciation. The borrower's ability to repay is of primary importance in the underwriting of consumer loans.

Agricultural Loans. LCNB's portfolio of agricultural loans includes loans for financing agricultural production or for financing the purchase of equipment used in the production of agricultural products. LCNB's agricultural loans are generally secured by farm machinery, livestock, crops, vehicles, or other agri-related collateral.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 4 – Loans (continued)

LCNB uses a risk-rating system to quantify loan quality. A loan is assigned to a risk category based on relevant information about the ability of the borrower to service the debt including, but not limited to, current financial information, historical payment experience, credit documentation, public information, and current economic trends.

The categories used are:

• Pass – loans categorized in this category are higher quality loans that do not fit any of the other categories described below.

• Other Assets Especially Mentioned (OAEM) - loans in this category are currently protected but are potentially weak.

• These loans constitute a risk but not to the point of justifying a classification of substandard. The credit risk may be relatively minor yet constitute an undue risk in light of the circumstances surrounding a specific asset.

Substandard – loans in this category are inadequately protected by the current sound net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the possibility that LCNB will sustain some loss if the deficiencies are not corrected.

Doubtful – loans classified in this category have all the weaknesses inherent in loans classified substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

A breakdown of the loan portfolio by credit quality indicators at June 30, 2014 and December 31, 2013 is as follows (in thousands):

	Pass	OAEM	Substandard	Doubtful	Total
June 30, 2014

Note 4 – Loans (continued)

Loan modifications that were classified as troubled debt restructurings during the three and six months ended June 30, 2014 and 2013 are as follows (dollars in thousands):

	2014		2013	
	Number	Balance at	Number	Balance at
	of Loans	Modification	of Loans	Modification
Three Months Ended June 30,				
Commercial and industrial	6	\$ 628	1	\$ 22
Commercial, secured by real estate	1	818	—	—
Residential real estate	1	78	2	335
Consumer	—	—	2	27
Total	8	\$ 1,524	5	\$ 384
Six Months Ended June 30,				
Commercial and industrial	7	\$ 638	1	\$ 22
Commercial, secured by real estate	1	818	—	—
Residential real estate	1	78	2	335
Consumer	1	2	2	27
Total	10	\$ 1,536	5	\$ 384

Each restructured loan is separately negotiated with the borrower and includes terms and conditions that reflect the borrower's ability to pay the debt as modified. Modifications may include interest only payments for a period of time, temporary or permanent reduction of the loan's interest rate, capitalization of delinquent interest, or extensions of the maturity date.

LCNB is not committed to lend additional funds to borrowers whose loan terms were modified in a troubled debt restructuring.

A restructured automobile loan with a balance of \$13,000 was charged off during the first quarter 2013, which was within twelve months of the loan's modification date. There were no other troubled debt restructurings that subsequently defaulted within twelve months of the restructuring date for the six months ended June 30, 2014 and 2013.

Note 5 - Acquired Credit Impaired Loans

The following table provides the major classifications of loans acquired during 2014 and 2013 that are accounted for in accordance with FASB ASC 310-30 (in thousands):

	June 30, 2014	December 31, 2013
Commercial and industrial	\$2,501	332
Commercial, secured by real estate	13,461	4,363
Residential real estate	3,930	1,332
Consumer	215	—
Agricultural	115	—
Other loans, including deposit overdrafts	538	—
	20,760	6,027
Less allowance for loan losses	415	—
Loans, net	20,345	6,027

The following table provides the outstanding balance and related carrying amount for acquired credit impaired loans at the dates indicated (in thousands):

	June 30, 2014	December 31, 2013
Outstanding balance	\$30,644	8,220
Carrying amount	20,760	6,027

Activity during 2014 for the accretable discount related to acquired credit impaired loans is as follows (in thousands):

Accretable discount at December 31, 2013	\$1,107
Accretable discount acquired during period	2,163
Reclass from nonaccretable discount to accretable discount	28
Less transferred to other real estate owned	(61)
Less accretion	(175)
Accretable discount at June 30, 2014	\$3,062

Note 6 – Other Real Estate Owned

Other real estate owned includes property acquired through foreclosure or deed-in-lieu of foreclosure and also includes property deemed to be in-substance foreclosed and are included in "other assets" in the consolidated balance sheets. Changes in other real estate owned are as follows (in thousands):

	Six Months Ended June 30,	
	2014	2013
Balance, beginning of year	\$1,463	2,189
Additions	452	—
Additions due to merger	262	127
Reductions due to sales	(266) (748
Reductions due to valuation write downs	(5) (38
Balance, end of period	\$1,906	1,530

Other real estate owned at June 30, 2014 and December 31, 2013 consisted of (dollars in thousands):

	June 30, 2014	December 31, 2013
Commercial real estate	\$1,700	\$1,415
Residential real estate	206	48
	\$1,906	\$1,463

Note 7 – Income Taxes

A reconciliation between the statutory income tax and LCNB's effective tax rate on income from continuing operations follows:

	For the three months ended		For the six months ended	
	June 30,	2013	June 30,	2013
Statutory tax rate	34.0	% 34.0	% 34.0	% 34.0
Increase (decrease) resulting from:				
Tax exempt interest	(6.2)% (6.8)% (8.3)% (7.7
Tax exempt income on bank owned life insurance	(1.7)% (1.8)% (2.3)% (2.2
Other, net	(1.7)% 0.6	% —	% 0.7
Effective tax rate	24.4	% 26.0	% 23.4	% 24.8

Note 8 - Commitments and Contingent Liabilities

LCNB is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. They involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheets.

Exposure to credit loss in the event of nonperformance by the other parties to financial instruments for commitments to extend credit is represented by the contract amount of those instruments.

LCNB offers the Bounce Protection product, a customer deposit overdraft program, which is offered as a service and does not constitute a contract between the customer and LCNB.

LCNB uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments.

Table of Contents

LCNB CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 8 – Commitments and Contingent Liabilities (continued)

Financial instruments whose contract amounts represent off-balance-sheet credit risk at June 30, 2014 and December 31, 2013 are as follows (in thousands):

	June 30, 2014	December 31, 2013
Commitments to extend credit:		
Commercial loans	\$2,429	9,316
Other loans		
Fixed rate	2,465	852
Adjustable rate	1,839	1,653
Unused lines of credit:		
Fixed rate	8,876	3,404
Adjustable rate	69,582	60,236
Unused overdraft protection amounts on demand and NOW accounts	10,530	9,494
Standby letters of credit	590	365
	\$96,311	85,320

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Unused lines of credit include amounts not drawn on line of credit loans. Commitments to extend credit and unused lines of credit generally have fixed expiration dates or other termination clauses.

Standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. These guarantees generally are fully secured and have varying maturities.

LCNB evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary, is based on management's credit evaluation of the borrower. Collateral held varies, but may include accounts receivable; inventory; property, plant and equipment; residential realty; and income-producing commercial properties.

Capital expenditures include the construction or acquisition of new office buildings, improvements to LCNB's offices, purchases of furniture and equipment, and additions or improvements to LCNB's information technology system. Commitments outstanding for capital expenditures as of June 30, 2014 were not material.

Management believes that LCNB has sufficient liquidity to fund its lending and capital expenditure commitments.

LCNB and its subsidiary are parties to various claims and proceedings arising in the normal course of business.

Management, after consultation with legal counsel, believes that the liabilities, if any, arising from such proceedings and claims will not be material to the consolidated financial position or results of operations.

Note 9 – Regulatory Capital

The Bank and LCNB are required by regulators to meet certain minimum levels of capital adequacy. These are expressed in the form of certain ratios. Capital is separated into Tier 1 capital (essentially shareholders' equity less

goodwill and other intangibles) and Tier 2 capital (essentially the allowance for loan losses limited to 1.25% of risk-weighted assets). The first two ratios, which are based on the degree of credit risk in LCNB's assets, provide for weighting assets based on assigned risk factors and include off-balance sheet items such as loan commitments and stand-by letters of credit. The leverage ratio supplements the risk-based capital guidelines.

Table of Contents

LCNB CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 9 – Regulatory Capital (continued)

For various regulatory purposes, financial institutions are classified into categories based upon capital adequacy.

	Minimum Requirement		To Be Considered Well-Capitalized	
Ratio of tier 1 capital to risk-weighted assets	4.0	%	6.0	%
Ratio of total capital (tier 1 capital plus tier 2 capital) to risk-weighted assets	8.0	%	10.0	%
Leverage ratio (tier 1 capital to adjusted quarterly average total assets)	3.0	%	5.0	%

As of the most recent notification from their regulators, the Bank and LCNB were categorized as "well-capitalized" under the regulatory framework for prompt corrective action. Management believes that no conditions or events have occurred since the last notification that would change the Bank's or LCNB's category.

A summary of the regulatory capital and capital ratios of LCNB follows (dollars in thousands):

	June 30, 2014		December 31, 2013	
Regulatory Capital:				
Shareholders' equity	\$ 122,584		118,873	
Goodwill and other intangibles	(32,192)	(16,532)

Note 11 – Retirement Plans

LCNB participates in a noncontributory defined benefit retirement multi-employer plan that covers substantially all regular full-time employees hired before January 1, 2009.

Employees of LCNB also participate in a defined contribution retirement plan. Employees hired on or after January 1, 2009 receive a 50% employer match on their contributions into the 401(k) plan, up to a maximum LCNB contribution of 3% of each individual employee's annual compensation. Employees hired before January 1, 2009 who received a benefit reduction under certain amendments to the defined benefit retirement plan receive an automatic contribution of 5% or 7% of annual compensation, depending on the sum of an employee's age and vesting service, into the 401(k) plan, regardless of the contributions made by the employees. This contribution is made annually and these employees do not receive any employer matches to their 401(k) contributions.

Funding and administrative costs of the qualified noncontributory defined benefit retirement plan and 401(k) plan charged to pension and other employee benefits in the consolidated statements of income for the three and six-month periods ended June 30, 2014 and 2013 are as follows (in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2014	2013	2014	2013
Qualified noncontributory defined benefit retirement plan	\$209	31	416	62
401(k) plan	83	75	161	154

Certain highly compensated employees participate in a nonqualified defined benefit retirement plan. The nonqualified plan ensures that participants receive the full amount of benefits to which they would have been entitled under the noncontributory defined benefit retirement plan in the absence of limits on benefit levels imposed by certain sections of the Internal Revenue Code.

The components of net periodic pension cost of the nonqualified defined benefit retirement plan for the three and six months ended June 30, 2014 and 2013 are summarized as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Service cost	\$17	18	34	36
Interest cost	15	12	30	23
Amortization of unrecognized net loss	—	6	—	12
Amortization of unrecognized prior service cost	4	7	8	14
Net periodic pension cost	\$36	43	72	85

Amounts recognized in accumulated other comprehensive income, net of tax, at June 30, 2014 and December 31, 2013 for the nonqualified defined benefit retirement plan consists of (in thousands):

	June 30, 2014	December 31, 2013
Net actuarial loss	\$70	70
Past service cost	6	10

Note 12 - Stock Based Compensation

LCNB established an Ownership Incentive Plan (the "Plan") during 2002 that allowed for stock-based awards to eligible employees, as determined by the Board of Directors. The awards were made in the form of stock options, share awards, and/or appreciation rights. The Plan provided for the issuance of up to 200,000 shares. The plan expired on April 16, 2012. Any outstanding unexercized options, however, continue to be exercisable in accordance with their terms.

Options granted to date vest ratably over a five-year period and expire ten years after the date of grant. Stock options outstanding at June 30, 2014 are as follows:

Exercise Price Range	Outstanding Stock Options			Exercisable Stock Options		
	Number	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)	Number	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)
\$9.00 - \$10.99	23,494	\$9.00	4.6	23,494	\$9.00	4.6
\$11.00 - \$12.99	63,354	12.05	6.0	42,249	12.02	5.7
\$17.00 - \$18.99	12,962	18.41	2.1	12,962	18.41	2.1
	99,810	12.16	5.2	78,705	12.17	4.8

The following table summarizes stock option activity for the periods indicated:

	2014		2013	
	Options	Weighted Average Exercise Price	Options	Weighted Average Exercise Price
Outstanding, January 1	104,966	\$12.43	110,586	\$12.42
Granted	—	—	—	—
Exercised	—	—	(3,400) 12.66
Expired	(5,156) 17.66	—	—
Outstanding, June 30	99,810	12.16	107,186	12.41
Exercisable, June 30	78,705	12.17	70,119	12.83

The aggregate intrinsic value (the amount by which the current market value of the underlying stock exceeds the exercise price of the option) for options outstanding at June 30, 2014 that were "in the money" (market price greater than exercise price) was \$429,000. The aggregate intrinsic value at that date for only the options that were exercisable was \$343,000. The aggregate intrinsic value for options outstanding at June 30, 2013 that were in the money was \$1,066,000 and the aggregate intrinsic value at that date for only the options that were exercisable was \$668,000. The intrinsic value changes based upon fluctuations in the market value of LCNB's stock.

Total expense related to options included in salaries and employee benefits in the consolidated statements of income for the three and six months ended June 30, 2014 was \$6,000 and \$13,000, respectively, and \$10,000 and \$19,000 for the three and six months ended June 30, 2013, respectively.

Note 13 - Earnings per Common Share

Basic earnings per common share is calculated by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per common share is adjusted for the dilutive effects of stock options, warrants, and restricted stock. The diluted average number of common shares outstanding has been increased for the assumed exercise of stock options and warrants with proceeds used to purchase treasury shares at the average market price for the period. The computations are as follows for the three and six months ended June 30, 2014 and 2013 (dollars in thousands, except share and per share data):

	For the Three Months		For the Six Months	
	Ended June 30,		Ended June 30,	
	2014	2013	2014	2013
Net income	\$2,611	2,348	3,934	4,076
Weighted average number of shares outstanding used in the calculation of basic earnings per common share	9,293,382	7,627,900	9,290,905	7,570,817
Add dilutive effect of:				
Stock options	18,349	23,889	20,099	19,125
Stock warrants	90,612	107,649	96,960	96,948
Adjusted weighted average number of shares outstanding used in the calculation of diluted earnings per common share	9,402,343	7,759,438	9,407,964	7,686,890
Earnings per common share:				
Basic	\$0.28	0.31	0.42	0.54
Diluted	0.28	0.30	0.42	0.53

Options to purchase 18,118 and 18,046 shares of common stock at a weighted average price of \$18.19 and \$18.19 per share were outstanding at June 30, 2014 and 2013, respectively, but were not included in the computation of diluted earnings per common share because the exercise prices of the options were greater than the average market price of the common shares.

Note 14 - Fair Value Measurements

LCNB measures certain assets at fair value using various valuation techniques and assumptions, depending on the nature of the asset. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

The inputs to valuation techniques used to measure fair value are assigned to one of three broad levels:

Level 1 – quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the reporting date.

Level 2 – inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly. Level 2 inputs may include quoted prices for similar assets in active markets, quoted prices for identical assets or liabilities in markets that are not active, inputs other than quoted prices (such as interest rates or yield curves) that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data.

Level 3 - inputs that are unobservable for the asset or liability.

The majority of LCNB's financial debt securities are classified as available-for-sale. The securities are reported at fair value with unrealized holding gains and losses reported net of income taxes in accumulated other comprehensive income.

Table of Contents

LCNB CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 14 - Fair Value Measurements (continued)

LCNB utilizes a pricing service for determining the fair values of most of its investment securities. Fair value for U.S. Treasury notes and corporate securities are determined based on market quotations (level 1). Fair value for most of the other investment securities is calculated using the discounted cash flow method for each security. The discount rates for these cash flows are estimated by the pricing service using rates observed in the market (level 2). Cash flow streams are dependent on estimated prepayment speeds and the overall structure of the securities given existing market conditions. In addition, LCNB has invested in two mutual funds that invest in debt securities or loans that qualify for credit under the Community Reinvestment Act. The investment in one of the mutual funds is considered to have level 1 inputs because it is publicly traded in an active market and it publishes a daily net asset value. The investment in the other mutual fund is considered to have level 2 inputs because, although its shares are not traded in an active market, an investor can have its interest in the fund redeemed for the balance of its capital account at any quarter-end assuming the fund is given a 60 day notice. The investment in this fund is carried at fair value, which approximates cost. Additionally, LCNB owns trust preferred securities in various financial institutions, equity securities in various financial and non-financial companies, and a mutual fund that invests primarily in floating rate loans. Market quotations (level 1) are used to determine fair values for these investments. The investment in the mutual fund is considered to have level 1 inputs because it is publicly traded in an active market and it publishes a daily net asset value.

Assets that may be recorded at fair value on a nonrecurring basis include impaired loans, other real estate owned, and other repossessed assets. A loan is considered impaired when management believes it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement. Impaired loans are carried at the present value of estimated future cash flows using the loan's existing rate or the fair value of collateral if the loan is collateral dependent, if this value is less than the loan balance. When the fair value of the collateral is based on an observable market price or current appraised value, the inputs are considered to be level 2.

When an appraised value is not available and there is not an observable market price, the inputs are considered to be level 3.

Other real estate owned is adjusted to fair value upon transfer of the loan to foreclosed assets, usually based on an appraisal of the property. Subsequently, foreclosed assets are carried at the lower of carrying value or fair value. The inputs for a valuation based on current appraised value are considered to be level 2.

LCNB CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

Note 14 - Fair Value Measurements (continued)

The fair value of off-balance-sheet financial instruments at June 30, 2014 and December 31, 2013 was not material.

Fair values of financial instruments are based on various assumptions, including the discount rate and estimates of future cash flows. Therefore, the fair values presented may not represent amounts that could be realized in actual transactions. In addition, because the required disclosures exclude certain financial instruments and all nonfinancial instruments, any aggregation of the fair value amounts presented would not represent the underlying value of LCNB. The following methods and assumptions were used to estimate the fair value of certain financial instruments:

Cash and cash equivalents

The carrying amounts presented are deemed to approximate fair value.

Investment securities

Fair values for securities, excluding Federal Home Loan Bank and Federal Reserve Bank stock, are based on quoted market prices, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities and/or discounted cash flow analyses or other methods. The carrying value of Federal Home Loan Bank and Federal Reserve Bank stock approximates fair value based on the respective redemptive provisions.

Loans

Fair value is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities, incorporating assumptions of current and projected prepayment speeds. These current rates approximate market rates.

Deposits

The fair value of demand deposits, savings accounts, and certain money market deposits is the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit is estimated using the rates currently offered for deposits of similar remaining maturities, which approximates market rates.

Borrowings

The carrying amounts of federal funds purchased, repurchase agreements, and U.S. Treasury demand note borrowings are deemed to approximate fair value of short-term borrowings. For long-term debt, fair values are estimated based on the discounted value of expected net cash flows using current interest rates.

Note 15 – Recent Accounting Pronouncements

Financial Accounting Standards Board Accounting Standards Update ("ASU") No. 2013-04, "Liabilities (Topic 405): Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date"

ASU No. 2013-04 was issued in February 2013 and requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of the guidance is fixed at the reporting date as the sum of (a) the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and (b) any additional amount the reporting entity expects to pay on behalf of its co-obligors.

The entity is also required to disclose information about the obligation, including its nature and amount. ASU No. 2013-04 is effective for public companies for fiscal years, and interim periods within those years, beginning after December 15, 2013. The ASU is effective for nonpublic companies for fiscal years, and interim periods within those years, beginning after December 15, 2014. The adoption of this guidance did not have a material impact on LCNB's results of operations or financial position.

ASU No. 2013-11, "Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists"

ASU No. 2013-11 was issued in July 2013 and requires an entity to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. No new recurring disclosures are required. ASU No. 2013-11 is effective for public companies for fiscal years, and interim periods within those years, beginning after December 15, 2013 and is to be applied prospectively to all unrecognized tax benefits that exist at the effective date. The adoption of ASU No. 2013-11 did not have a material impact on LCNB's results of operations or financial position.

ASU No. 2014-01, "Investments-Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Qualified Affordable Housing Projects (a consensus of the FASB Emerging Issues Task Force)"

ASU No. 2014-01 was issued in January 2014 and provides guidance on accounting for investments in flow-through limited liability entities that manage or invest in affordable housing projects that qualify for low-income housing tax credits. Entities are permitted to make an accounting policy election to account for such investments using the proportional amortization method, as defined, if certain enumerated conditions are met. Under the proportional amortization method, an investor amortizes the initial cost of the investment in proportion to the tax credits and other tax benefits received and recognizes the net investment performance in the income statement as a component of income tax expense (benefit). Investments not accounted for using the proportional amortization method should be accounted for as an equity method investment or a cost method investment in accordance with Subtopic 970-323. ASU No. 2014-01 is effective for public companies for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2014 and is to be applied retrospectively to all periods presented. LCNB currently does not have any investments in qualified affordable housing projects and adoption of ASU No. 2014-01 is not expected to have a material impact on LCNB's results of operations or financial position.

ASU No. 2014-04, "Receivables—Troubled Debt Restructurings by Creditors (Subtopic 310-40): Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure (a consensus of the FASB Emerging Issues Task Force)"

ASU No. 2014-04 was issued in January 2014 and clarifies that an in-substance repossession or foreclosure occurs, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor through completion of a deed in lieu of foreclosure or through a similar legal agreement. In addition, the update requires interim and annual disclosure of both the amount of foreclosed residential real estate properties held by the creditor and the recorded investment in consumer mortgage loans collateralized by residential real estate properties that are in the process of foreclosure. ASU No. 2014-04 is effective for public companies for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. Adoption of ASU No. 2014-04 is not expected to have a material impact on LCNB's results of operations or financial position.

Note 15 – Recent Accounting Pronouncements (continued)

ASU No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity"

ASU No. 2014-08 was issued in April 2014 and changes the criteria for reporting discontinued operations and provides for expanded disclosures in this area. The new guidance provides that only disposals representing a strategic shift in operations should be presented as discontinued operations and that these strategic shifts should have a major effect on an organization's operations and financial results. ASU No. 2014-08 is effective in the first quarter of 2015 for public companies with calendar year-ends.

ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)"

ASU No. 2014-09 was issued in May 2014 and supercedes most current revenue recognition guidance for contracts to transfer goods or services or other nonfinancial assets. Lease contracts, insurance contracts, and most financial instruments are not included in the scope of this update. ASU No. 2014-09 provides that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance enumerates five steps that entities should follow in achieving this core principle. Additional disclosures providing information about contracts with customers are required. ASU No. 2014-09 is effective for public companies for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Transitional guidance is included in the update; early adoption is not permitted. Since LCNB's products are substantially financial in nature, adoption of ASU No. 2014-09 is not expected to have a material impact on LCNB's results of operations or financial position.

ASU No. 2014-11, "Transfers and Servicing (Topic 860): Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures"

ASU No. 2014-11 was issued in June 2014 and requires two accounting changes:

the accounting for repurchase-to-maturity transactions is changed to secured borrowing accounting, and for repurchase financing arrangements, separate accounting is required for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty, which results in secured borrowing accounting.

Additional disclosures are required. ASU No. 2014-11 is effective for public business entities for the first interim or annual period beginning after December 15, 2014. Changes in accounting for transactions outstanding on the effective date are to be recorded as a cumulative -effect adjustment to retained earnings as of the beginning of the period of adoption. Since LCNB already accounts for repurchase agreements as borrowings, this update is not expected to have a material impact on LCNB's results of operation or financial position.

ASU No. 2014-12, "Compensation - Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, a consensus of the FASB Emerging Issues Task Force"

ASU No. 2014-12 was issued in June 2014 and requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition and that current guidance for awards with performance conditions be followed. ASU No. 2014-12 is effective for all entities for annual and interim periods beginning after December 15, 2015 and early adoption is permitted. Entities may apply the amendments in the update either prospectively to all awards granted or modified after the effective date or retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the

financial statements and to all new or modified awards thereafter. None of LCNB's currently outstanding stock option grants contain the performance targets described in this update and adoption of ASU No. 2014-11 is not expected to have a material impact on its results of operations or financial position.

Forward Looking Statements

Certain matters disclosed herein may be deemed to be forward-looking statements that involve risks and uncertainties. Forward looking statements are statements that include projections, predictions, expectations or beliefs about future events or results or otherwise are not statements of historical fact. Such statements are often characterized by the use of qualifying words and their derivatives such as "expects," "anticipates," "believes," "estimates," "plans," "projects," or other statements concerning opinions or judgments of LCNB and its management about future events. Factors that could influence the accuracy of such forward looking statements include, but are not limited to, regulatory policy changes, interest rate fluctuations, loan demand, loan delinquencies and losses, general economic conditions and other risks. Such forward-looking statements represent management's judgment as of the current date. Actual strategies and results in future time periods may differ materially from those currently expected. LCNB disclaims, however, any intent or obligation to update such forward-looking statements. LCNB intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

Critical Accounting Policies

Allowance for Loan Losses. The allowance for loan losses is established through a provision for loan losses charged to expense. Loans are charged against the allowance for loan losses when management believes that the collectability of the principal is unlikely. Subsequent recoveries, if any, are credited to the allowance. The allowance is an amount that management believes will be adequate to absorb inherent losses in the loan portfolio, based on evaluations of the collectability of loans and prior loan loss experience. The evaluations take into consideration such factors as changes in the nature and volume of the loan portfolio, overall portfolio quality, review of specific problem loans, and current economic conditions that may affect the borrowers' ability to pay. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific and general components. The specific component relates to loans that are classified as doubtful, substandard, or special mention. For such loans an allowance is established when the discounted cash flows or collateral value is lower than the carrying value of that loan. The general component covers non-classified loans and is based on historical loss experience adjusted for qualitative factors, which include trends in underperforming loans, trends in the volume and terms of loans, economic trends and conditions, concentrations of credit, trends in the quality of loans, and borrower financial statement exceptions.

Based on its evaluations, management believes that the allowance for loan losses will be adequate to absorb estimated losses inherent in the current loan portfolio.

Acquired Credit Impaired Loans. LCNB accounts for acquisitions using the acquisition method of accounting, which requires that assets acquired and liabilities assumed be measured at their fair values at the acquisition date. Acquired loans are reviewed to determine if there is evidence of deterioration in credit quality since inception and if it is probable that LCNB will be unable to collect all amounts due under the contractual loan agreements. The analysis includes expected prepayments and estimated cash flows including principal and interest payments at the date of acquisition. The amount in excess of the estimated future cash flows is not accreted into earnings. The amount in excess of the estimated future cash flows over the book value of the loan is accreted into interest income over the remaining life of the loan (accretable yield). LCNB records these loans on the acquisition date at their net realizable value. Thus, an allowance for estimated future losses is not established on the acquisition date. Subsequent to the date

of acquisition, expected future cash flows on loans acquired are updated and any losses or reductions in estimated cash flows which arise subsequent to the date of acquisition are reflected as a charge through the provision for loan losses. An increase in the expected cash flows adjusts the level of the accretable yield recognized on a prospective basis over the remaining life of the loan. Due to the number, size, and complexity of loans within the acquired loan portfolio, there is always a possibility of inherent undetected losses.

Table of Contents

LCNB CORP. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Accounting for Intangibles. LCNB's intangible assets at June 30, 2014 are composed primarily of goodwill and core deposit intangibles related to the acquisitions of Sycamore during the fourth quarter 2007, First Capital during the first quarter 2013, and ENB during the first quarter 2014. It also includes mortgage servicing rights recorded from sales of mortgage loans to the Federal Home Loan Mortgage Corporation and mortgage servicing rights acquired through the merger with ENB. Goodwill is not subject to amortization, but is reviewed annually for impairment. The core deposit intangible for Sycamore was amortized on a straight line basis over six years. The core deposit intangible for First Capital is being amortized on a straight line basis over nine years and the core deposit intangible for ENB is being amortized on a straight line basis over eight years. Mortgage servicing rights are capitalized by allocating the total cost of loans between mortgage servicing rights and the loans based on their estimated fair values. Capitalized mortgage servicing rights are amortized to loan servicing income in proportion to and over the period of estimated servicing income, subject to periodic review for impairment.

Results of Operations

Net income for the three and six months ended June 30, 2014 was \$2,611,000 (total basic and diluted earnings per common share of \$0.28) and \$3,934,000 (total basic and diluted earnings per common share of \$0.42), respectively.

This compares to net income of \$2,348,000 (total basic and diluted earnings per common share of \$0.31 and \$0.30, respectively) and \$4,076,000 (total basic and diluted earnings per common share of \$0.54 and \$0.53, respectively) for the same three and six-month periods in 2013. Results for 2013 and 2014 were significantly affected by the completion of a mergers with First Capital Bancshares, Inc. and its subsidiary, Citizens National Bank of Chillicothe, on January 11, 2013 and Eaton National Bank & Trust Co. ("ENB") on January 24, 2014. In addition, 1,642,857 shares of new voting common stock were issued during the fourth quarter 2013.

Net interest income for the three and six months ended June 30, 2014 increased \$1,646,000 and \$3,031,000, respectively, from the comparative periods in 2013 due primarily to the increased volume of average interest earning assets provided from the merger with ENB and by an increase in the net interest margin.

The provision for loan losses for the three and six months ended June 30, 2014 was \$213,000 and \$145,000 greater than the comparable periods in 2013. Net loan charge-offs for the first six months of 2014 and 2013 totaled \$530,000 and \$202,000, respectively. Non-accrual loans and loans past due 90 days or more and still accruing interest totaled \$6,373,000 or 0.92% of total loans at June 30, 2014, compared to \$3,211,000 or 0.56% of total loans at December 31, 2013. The increase was predominately due to acquired impaired loans that were classified as non-accrual during the second quarter 2014. Other real estate owned (which includes property acquired through foreclosure or deed-in-lieu of foreclosure and also includes property deemed to be in-substance foreclosed) and other repossessed assets increased from \$1,463,000 at December 31, 2013 to \$1,906,000 at June 30, 2014 primarily due to foreclosures and property obtained through the merger with ENB, partially offset by property sales.

Non-interest income for the three-month period in 2014 was \$123,000 greater than the comparable period in 2013 and \$307,000 less for the six-month period. The three-month period was greater primarily due to increases in trust income and service charges and fees on deposit accounts, partially offset by a decrease in gains from sales of investment securities and mortgage loans. For the six-month period, increases in trust income and service charges and fees on deposit accounts were more than offset by decreased gains from sales of investment securities and mortgage loans. The increases in service charges and fees were primarily due to a greater number of deposit accounts resulting from

the merger. The increase in trust income was due to growth in the fair value of trust assets serviced and to fee adjustments. The decreases in gains from sales of investment securities and mortgage loans were due to lower sales volumes during the 2014 period.

Non-interest expense for the three and six months ended June 30, 2014 was \$1,276,000 and \$2,857,000 greater than the comparable periods in 2013. Salaries and employee benefits, as well as a variety of other expense items, increased significantly due to the increased number of employees and offices resulting from the merger with ENB. Also contributing to the increase in non-interest expense was an increase in other real estate owned expenses.

Ratio of interest-earning assets
to interest-bearing liabilities

- (1) Includes nonaccrual loans, if any.
- (2) Income from tax-exempt securities is included in interest income on a taxable-equivalent basis. Interest income has been divided by a factor comprised of the complement of the incremental tax rate of 34%.
- (3) The net interest spread is the difference between the average rate on total interest-earning assets and interest-bearing liabilities.
- (4) The net interest margin is the taxable-equivalent net interest income divided by average interest-earning assets.

Table of Contents

LCNB CORP. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

The following table presents the changes in taxable-equivalent basis interest income and expense for each major category of interest-earning assets and interest-bearing liabilities and the amount of change attributable to volume and rate changes for the three months ended June 30, 2014 as compared to the same period in 2013. Changes not solely attributable to rate or volume have been allocated to volume and rate changes in proportion to the relationship of absolute dollar amounts of the changes in each.

	Three Months Ended June 30, 2014 vs. 2013		
	Increase (decrease) due to:		
	Volume	Rate	Total
	(In thousands)		
Interest-earning Assets:			
Loans	\$1,612	(284) 1,328
Federal funds sold	—	—	—
Interest-bearing demand deposits	2	—	2
Federal Reserve Bank stock	17	—	17
Federal Home Loan Bank stock	8	(2) 6
Investment securities:			
Taxable	153	13	166
Non-taxable	(17) 20	3
Total interest income	1,775	(253) 1,522
Interest-bearing Liabilities:			
Deposits	161	(278) (117
Short-term borrowings	—	1	1
Long-term debt	(12) 3	(9
Total interest expense	149	(274) (125
Net interest income	\$1,626	21	1,647

Net interest income on a fully tax-equivalent basis for the three months ended June 30, 2014 totaled \$9,344,000, an increase of \$1,647,000 over the comparable period in 2013. Total interest income increased \$1,522,000 and total interest expense decreased \$125,000.

The increase in total interest income was primarily due to a \$174.2 million increase in average total earning assets, slightly offset by a 9 basis point (a basis point equals 0.01%) decrease in the average rate earned on earning assets. The increase in average interest earning assets was primarily due to interest-earning assets acquired through the merger with ENB. The decrease in the average rate earned reflects a general decrease in market rates.

The decrease in total interest expense was primarily due to a 15 basis point decrease in the average rate paid on interest-bearing liabilities, partially offset by a \$128.3 million increase in average interest-bearing liabilities. The increase in average interest-bearing liabilities was primarily due to an increase in average interest-bearing deposits resulting from the merger with ENB. The decrease in the average rate paid on interest-bearing liabilities also reflects a general decrease in market rates.

Six Months Ended June 30, 2014 vs. 2013

The following table presents, for the six months ended June 30, 2014 and 2013, average balances for interest-earning assets and interest-bearing liabilities, the income or expense related to each item, and the resulting average yields earned or rates paid.

The following table presents the changes in taxable-equivalent basis interest income and expense for each major category of interest-earning assets and interest-bearing liabilities and the amount of change attributable to volume and rate changes for the six months ended June 30, 2014 as compared to the same period in 2013. Changes not solely attributable to rate or volume have been allocated to volume and rate changes in proportion to the relationship of absolute dollar amounts of the changes in each.

LCNB CORP. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

	Six Months Ended June 30, 2014 vs. 2013 Increase (decrease) due to:			
	Volume	Rate	Total	
	(In thousands)			
Interest-earning Assets:				
Loans	\$2,938	(494) 2,444	
Federal funds sold	(1) —	(1)
Interest-bearing demand deposits	3	(1) 2	
Federal Reserve Bank stock	17	—	17	
Federal Home Loan Bank stock	15	(2) 13	
Investment securities:				
Taxable	204	19	223	
Non-taxable	33	5	38	
Total interest income	3,209	(473) 2,736	
Interest-bearing Liabilities:				
Deposits	288	(579) (291)
Short-term borrowings	—	1	1	
Long-term debt	(26) 8	(18)
Total interest expense	262	(570) (308)
Net interest income	\$2,947	97	3,044	

Net interest income on a fully tax-equivalent basis for the six months ended June 30, 2014 totaled \$18,040,000, an increase of \$3,044,000 over the comparable period in 2013. Total interest income increased \$2,736,000 and total interest expense decreased \$308,000.

The increase in total interest income was primarily due to a \$150.1 million increase in average total earning assets, partially offset by a 5 basis point decrease in the average rate earned on earning assets. The increase in average interest earning assets was primarily due to interest-earning assets acquired through the merger with ENB. The decrease in the average rate earned reflects a general decrease in market rates.

The decrease in total interest expense was primarily due to a 16 basis point decrease in the average rate paid on interest-bearing liabilities, partially offset by a \$108.4 million increase in average interest-bearing liabilities. The increase in average interest-bearing liabilities was primarily due to an increase in average interest-bearing deposits resulting from the merger with ENB. The decrease in the average rate paid on interest-bearing liabilities reflects a general decrease in market rates.

Provision and Allowance For Loan Losses

The total provision for loan losses is determined based upon management's evaluation as to the amount needed to maintain the allowance for loan losses at a level considered appropriate in relation to the risk of losses inherent in the portfolio. In addition to historic charge-off percentages, factors taken into consideration to determine the adequacy of the allowance for loan losses include the nature, volume, and consistency of the loan portfolio, overall portfolio

quality, a review of specific problem loans, and current economic conditions that may affect borrowers' ability to pay. The provision for loan losses for the three and six months ended June 30, 2014 was \$255,000 and \$336,000, respectively, and \$42,000 and \$191,000 for the three and six months ended June 30, 2013, respectively. Net charge-offs for the three and six months ended June 30, 2014 were \$232,000 and \$530,000, respectively, as compared to \$20,000 and \$202,000 for the same periods in 2013. Included in net charge-offs for the first half of 2014 were two commercial real estate loan charge-offs totaling \$291,000.

The fair value of loans acquired through the merger with ENB was estimated by discounting at current rates the cash flows expected to be received on ENB's loan portfolio. Since the estimation of cash flows recognized the probability that LCNB would not be able to collect all contractually required principal and interest payments, ENB's allowance for loan losses was not carried forward.

Table of Contents

LCNB CORP. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Non-Interest Income

Three Months Ended June 30, 2014 vs. 2013

Total non-interest income for the second quarter 2014 was \$123,000 greater than for the second quarter 2013 primarily due to a \$119,000 increase in trust income and a \$179,000 increase in service charges and fees on deposit accounts, partially offset by a \$108,000 decrease in net gains on sales of investment securities and a \$66,000 decrease in net gains from sales of mortgage loans. The increase in trust income reflects growth in the fair value of trust assets and fee adjustments that became effective July 1, 2013. The increase in service charges and fees on deposit accounts reflects a greater number of deposit accounts resulting from the merger with ENB. The decreases in gains from sales of investment securities and mortgage loans reflect declines in the volume of investment securities and loans sold.

Six Months Ended June 30, 2014 vs. 2013

Total non-interest income for the first half of 2014 was \$307,000 less than the comparable amount for the first half of 2014 primarily due to a \$699,000 decrease in net gains from sales of investments securities and a \$180,000 decrease in net gains from sales of mortgage loans, partially offset by a \$199,000 increase in trust income and a \$322,000 increase in service charges and fees on deposit accounts. Trust income and service charges and fees on deposit accounts increased for substantially the same reasons mentioned above. Likewise, net gains from sales of investment securities and mortgage loans decreased for substantially the same reasons mentioned above.

Non-Interest Expense

Three Months Ended June 30, 2014 vs. 2013

Non-interest expense for the second quarter 2014 was \$1,276,000 greater than for the second quarter 2013 primarily due to a \$714,000 increase in salaries and employee benefits and a \$611,000 increase in other non-interest expense. The increase in salaries and employee benefits reflects the additional staff needed to operate the five offices LCNB acquired as a result of the merger with ENB. Other non-interest expense increased primarily due to increased costs for contracted services, computer maintenance and supplies, other real estate owned, amortization of ENB's core deposit intangible during 2014, and smaller increases in a number of other accounts.

Six Months Ended June 30, 2014 vs. 2013

Non-interest expense for the first half of 2014 was \$2,857,000 greater than for the comparable period in 2013 primarily due to a \$1,338,000 increase in salaries and employee benefits and a \$1,147,000 increase in other non-interest expense. The increases were for substantially the same reasons mentioned above.

Income Taxes

LCNB's effective tax rates for the six months ended June 30, 2014 and 2013 were 23.4% and 24.8%, respectively. The difference between the statutory rate of 34.0% and the effective tax rate is primarily due to tax-exempt interest income from municipal securities and tax-exempt earnings from bank owned life insurance.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Financial Condition

The carrying values of loans, securities available-for-sale, premises and equipment, and deposits were greatly influenced by the merger with ENB. See Note 2 - Acquisition to the Financial Statements for a description of the merger and a summary of the fair values of ENB's assets and liabilities added to LCNB's consolidated balance sheet.

Net loans at June 30, 2014 were \$117.6 million greater than at December 31, 2013 primarily due to the merger with ENB, which increased LCNB's loan balance by \$115.9 million. The remainder of the increase was due to new loan origination.

Available for sale investment securities at June 30, 2014 were \$69.5 million greater than at December 31, 2013. Included in the increase were \$35.9 in investment securities obtained through the ENB merger. The remainder of the increase was due to \$76.3 million of new purchases, partially offset by sales, maturities, and calls of investment securities.

Goodwill at June 30, 2014 was \$13.5 greater than at December 31, 2013 due to goodwill recorded on the ENB acquisition.

Total deposits at June 30, 2014 was \$201.1 million greater than at December 31, 2013. Included in this increase were \$165.3 million in new deposits obtained through the merger with ENB. Most of the remaining increase was due to public fund deposits by local government entities. Public fund deposits can be relatively volatile due to seasonal tax collections and the financial needs of the local entities.

Shareholders' equity at June 30, 2014 was \$3.7 million greater than at December 31, 2013, but total risk-based capital (see Note 9 - Regulatory Capital) was \$14.7 million less. In addition, all capital ratios at March 31, 2014 were less than their respective ratios as December 31, 2013. LCNB issued 1,642,857 shares of stock in November 2013, resulting in net proceeds of \$26.9 million and increases in capital and capital ratios at year-end 2013. The net proceeds were substantially used to fund the acquisition of ENB in January 2014, decreasing regulatory capital and capital ratios due to additional assets obtained through the merger.

Liquidity

LCNB depends on dividends from the Bank for the majority of its liquid assets, including the cash needed to pay dividends to its shareholders. National banking law limits the amount of dividends the Bank may pay to the sum of retained net income for the current year plus retained net income for the previous two years. Prior approval from the Office of the Comptroller of the Currency, the Bank's primary regulator, is necessary for the Bank to pay dividends in excess of this amount. In addition, dividend payments may not reduce capital levels below minimum regulatory guidelines. Management believes the Bank will be able to pay anticipated dividends to LCNB Corp. without needing to request approval. The Bank is not aware of any reasons why it would not receive such approval.

Liquidity is the ability to have funds available at all times to meet the commitments of LCNB. Asset liquidity is provided by cash and assets which are readily marketable or pledgeable or which will mature in the near future. Liquid assets include cash and cash equivalents and securities available for sale. At June 30, 2014, LCNB's liquid assets amounted to \$346.6 million or 30.1% of total assets. This compares to liquid assets totaling \$272.9 million or 29.3%

of total assets at December 31, 2013.

Liquidity is also provided by access to core funding sources, primarily core depositors in LCNB's market area.

Approximately 82.2% of total deposits at June 30, 2014 were "core" deposits, compared to 83.9% of deposits at December 31, 2013. Core deposits, for this purpose, are defined as total deposits less public funds and certificates of deposit greater than \$100,000. The percentage of core deposits to total deposits decreased because of the growth in public fund deposits discussed above in relation to total growth in deposits.

Secondary sources of liquidity include LCNB's ability to sell loan participations, borrow funds from the Federal Home Loan Bank, purchase federal funds, issue repurchase agreements, or use a line of credit established with another bank.

Management closely monitors the level of liquid assets available to meet ongoing funding needs. It is management's intent to maintain adequate liquidity so that sufficient funds are readily available at a reasonable cost. LCNB experienced no liquidity or operational problems as a result of the current liquidity levels.

Item 3. Quantitative and Qualitative Disclosures about Market Risks

Market risk for LCNB is primarily interest rate risk. LCNB attempts to mitigate this risk through asset/liability management strategies designed to decrease the vulnerability of its earnings to material and prolonged changes in interest rates. LCNB does not use derivatives such as interest rate swaps, caps, or floors to hedge this risk. LCNB has not entered into any market risk instruments for trading purposes.

The Bank's Asset and Liability Management Committee ("ALCO") primarily uses a combination of Interest Rate Sensitivity Analysis ("IRSA") and Economic Value of Equity ("EVE") analysis for measuring and managing interest rate risk. IRSA is used to estimate the effect on net interest income during a one-year period of instantaneous and sustained movements in interest rates, also called interest rate shocks, of 100, 200, and 300 basis points. Management considers the results of any significant downward scenarios to not be meaningful in the current interest rate environment. The base projection uses a current interest rate scenario. As shown below, the June 30, 2014 IRSA indicates that an increase in interest rates would have a positive effect on net interest income ("NII"). The changes in NII for all rate assumptions are within LCNB's acceptable ranges.

Rate Shock Scenario in Basis Points	Amount	\$ Change in NII	% Change in NII	
	(Dollars in thousands)			
Up 300	\$39,098	2,996	8.30	%
Up 200	38,089	1,987	5.50	%
Up 100	37,090	988	2.74	%
Base	36,102	—	—	%

IRSA shows the effect on NII during a one-year period only. A more long-range model is the EVE analysis, which shows the estimated present value of future cash inflows from interest-earning assets less the present value of future cash outflows for interest-bearing liabilities for the same rate shocks. As shown below, the June 30, 2014 EVE analysis indicates that an increase in interest rates would have a negative effect on the EVE. The changes in eve for all rate assumptions are within LCNB's acceptable ranges.

Rate Shock Scenario in Basis Points	Amount	\$ Change in EVE	% Change in EVE	
	(Dollars in thousands)			
Up 300	\$120,031	(6,457)	(5.10)	%
Up 200	121,473	(5,015)	(3.96)	%
Up 100	122,969	(3,519)	(2.78)	%
Base	126,488	—	—	%

The IRSA and EVE simulations discussed above are not projections of future income or equity and should not be relied on as being indicative of future operating results. Assumptions used, including the nature and timing of interest rate levels, yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, and reinvestment or replacement of asset and liability cash flows, are inherently uncertain and, as a result, the models cannot precisely measure future net interest income or equity. Furthermore, the models do not reflect actions that borrowers, depositors, and management may take in response to changing economic conditions and interest rate levels.

Item 4. Controls and Procedures

a) Disclosure controls and procedures. The Chief Executive Officer and the Chief Financial Officer have carried out an evaluation of the effectiveness of LCNB's disclosure controls and procedures that ensure that information relating to LCNB required to be disclosed by LCNB in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to LCNB's management, including its principal executive officer and principal financial officer, as appropriate, in order to allow timely decisions to be made regarding required disclosures. Based upon this evaluation, these officers have concluded that, as of June 30, 2014, LCNB's disclosure controls and procedures were effective.

b) Changes in internal control over financial reporting. During the period covered by this report, there were no changes in LCNB's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, LCNB's internal control over financial reporting.
