TRAVELCENTERS OF AMERICA LLC

FORM 10-Q/A

SEPTEMBER 30, 2007

Explanatory Note

Overview

We are filing this Amendment No. 1 to Form 10-Q for the quarterly period ended September 30, 2007 to amend and restate financial statements and other financial information for the three month and eight month periods ended September 30, 2007. During the preparation of our Annual Report on Form 10-K for the year ended December 31, 2007, we discovered an error related to the fact that we had not properly reported in our 2007 quarterly financial statements included in our Quarterly Reports on Form 10-Q for the quarters ended March 31, June 30 and September 30, 2007, the impact of two elements of our lease of our TA branded sites with Hospitality Properties Trust, or Hospitality Trust. We believe Hospitality Trust's commitment to fund up to \$125 million of capital expenditures at our TA branded sites should have been previously reported as a tenant allowance under U.S. generally accepted accounting principles, or GAAP, and that a portion of our lease rent payments originally recognized as interest expense in the 2007 Quarterly Reports on Form 10-Q should instead have been recognized as a reduction of our capital lease obligation. We have corrected this reporting in this amended Quarterly Report on Form 10-Q/A and the accompanying financial statements. As of March 31, 2008, our management implemented new control procedures to reduce the possibility that our future financial reporting may not reflect GAAP with regard to lease accounting.

In light of this restatement, our previously filed financial statements and other financial information for the quarterly periods ended March 31, June 30 and September 30, 2007, should no longer be relied upon.

Background

In preparing our Annual Report on Form 10-K for the year ended December 31, 2007, we became aware of an error in the application of accounting principles used in connection with the preparation of our audited statements for the year ended December 31, 2007. This related to our accounting for two elements of our lease of our TA branded sites with Hospitality Trust, as noted above. After studying the issue, our management concluded that under applicable GAAP we should have recognized Hospitality Trust's commitment to fund up to \$125 million of capital expenditures at our TA branded sites as a tenant allowance. Additionally, our management determined a portion of our lease rent payments recognized as interest expense should have been recognized as a reduction of our capital lease obligations.

We then recommended to the Audit Committee of the Board of Directors that previously reported financial results for the quarters ended March 31, June 30 and September 30, 2007, be restated to reflect the recognition of the tenant allowance and the adjustment to our capital lease obligation. The Audit Committee discussed and agreed with this recommendation. At a meeting on March 29, 2008, the Board of Directors

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

adopted the recommendation of the Audit Committee and determined that previously filed financial statements and other financial information referred to above should not be relied upon. The restatement resulted from a material weakness in internal control, namely, that we did not maintain effective controls over the accuracy of our accounting for certain terms of our leases with Hospitality Trust.

As of March 31, 2008, our management had implemented new control procedures to reduce the possibility that our future financial reporting may not reflect GAAP with regard to lease accounting. As a result of these new procedures we have concluded that we maintain effective control over the accuracy of our accounting for leases as of that date.

Amendments to this Quarterly Report on Form 10-Q

For convenience, this amended Quarterly Report on Form 10-Q/A sets forth the original filing in its entirety, as amended where necessary to reflect the restatement. The following sections of this amended Quarterly Report on Form 10-Q/A have been revised to reflect the restatement:

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

- Part I, Item 1. Consolidated Financial Statements,
- Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, and
- Part 1, Item 4. Controls and Procedures.

Except to the extent relating to the restatement of our financial statements and other financial information described above, the financial statements and other disclosures in this amended Quarterly Report on Form 10-Q/A do not reflect any events that have occurred after the Quarterly Report on Form 10-Q was initially filed on November 13, 2007.

Effects of Restatement

The restatement reflects the appropriate accounting for two elements of our lease of our TA branded sites with Hospitality Trust, as noted above, and also reflects various immaterial adjustments to our opening balance sheet amounts that had been identified subsequent to the original filing. In the aggregate these adjustments increased our total assets, total liabilities and total nonredeemable shareholders' equity as of September 30, 2007 by \$90,775, \$82,687 and \$8,088, respectively, and reduced our net loss for the eight months ended September 30, 2007 by \$8,607. The following tables set forth the effects of the restatement on our previously reported consolidated financial statements as of, and for the eight months ended, September 30, 2007:

	Eight Months Ended September 30, 2007	
	As Previously Reported	Restated
<u>Statement of operations data:</u>		
Total revenues	\$ 4,008,062	\$ 4,006,744

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

1. Basis of Presentation and Organization.

TravelCenters of America LLC, which we refer to as the Company or we, operates and franchises travel centers under the TravelCenters of America, TA and Petro brands primarily along the U.S. interstate highway system. Our customers include trucking fleets and their drivers, independent truck drivers and motorists.

At September 30, 2007, our geographically diverse business included 234 travel centers in 41 U.S. states and in Canada. As of September 30, 2007, we operated 187 of these travel centers, which we refer to as company operated sites, and our franchisees operated 47 of these travel centers including, 10 travel centers which our franchisees sublease from us and 37 travel centers which our franchisees own.

Our travel centers typically include 20 to 25 acre sites and provide our customers with diesel fuel and gasoline as well as nonfuel products and services such as truck repair and maintenance services, full service restaurants, quick service restaurants, travel and convenience stores and other driver amenities. We also collect rents and franchise royalties from our franchisees.

We were formed as a Delaware limited liability company on October 10, 2006. Our initial capitalization of one dollar was provided by Hospitality Properties Trust, or Hospitality Trust, on our formation date. We were a wholly owned, indirect subsidiary of Hospitality Trust, and until January 31, 2007, we conducted no business activities.

On January 31, 2007, Hospitality Trust acquired Travel Centers of America, Inc. through a merger of a subsidiary of ours with and into TravelCenters of America, Inc., restructured the business of TravelCenters of America, Inc. and distributed our shares to its shareholders in a spin off transaction.

The principal effects of the restructuring were that (i) TravelCenters of America, Inc. became our 100% owned subsidiary, (ii) subsidiaries of Hospitality Trust that we do not own became owners of the real estate at substantially all of the travel centers and certain other assets previously owned by TravelCenters of America, Inc. as of January 31, 2007, (iii) we entered a lease of that real estate and those other assets, which we refer to as the TA Lease, and (iv) all of the outstanding indebtedness of TravelCenters of America, Inc. was repaid in full, which series of transactions we refer to as the HPT Transaction. We retained the balance of the assets previously owned by TravelCenters of America, Inc. and continue their operation.

On May 30, 2007, we acquired Petro Stopping Centers, L.P., or Petro, from Petro Stopping Centers Holdings, L.P., or Petro Holdings (see Note 4). Also on May 30, 2007, Hospitality Trust acquired Petro Holdings, which owned the real estate of 40 Petro travel centers. Simultaneously with Hospitality Trust's acquisition of this real estate, we leased these 40 travel centers from Hospitality Trust. We refer to this lease as the Petro

Lease.

In connection with the HPT Transaction and the Petro acquisition, we accounted for our acquired assets and liabilities at their respective fair values, in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations. Accordingly, our balance sheet is not comparable with the historical balance sheet of our predecessor as of December 31, 2006, which is included herein. Similarly, significant differences exist between our statement of operations and comprehensive income (loss) and that of our predecessor. Our results include rent and interest expense related to our leases with Hospitality Trust while our predecessor's results included interest expense related to funded debt, debt extinguishment expense, merger related expenses and a larger depreciation and amortization expense amount.

The accompanying consolidated financial statements are unaudited. These unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles applicable for interim financial statements. Therefore, the notes and disclosures do not include all the information necessary for complete financial statements in accordance with U.S. generally accepted accounting principles. These unaudited interim financial statements should be read in conjunction with the financial statements and notes contained in our predecessor's audited consolidated financial statements as of and for the year ended December 31, 2006. In the opinion of our management, all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation, have been included. Our operating results for interim periods are not necessarily indicative of the results that may be expected for the full year.

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

The information contained in this Quarterly Report on Form 10-Q/A should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, Quantitative and Qualitative Disclosures About Market Risk and the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2006, as filed with the Securities and Exchange Commission.

2. Recently Issued Accounting Pronouncements.

In June 2006 the Financial Accounting Standards Board, or FASB, issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109, or FIN 48. FIN 48 is effective for fiscal years beginning after December 15, 2006. FIN 48 prescribes methods for the financial statement recognition and measurement of tax positions taken or expected to be taken in tax returns. Under this guidance, a benefit can be recognized with respect to a tax position only if it is more likely than not that the position will be sustained upon examination. In such cases, the tax position is to be measured at the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. There was no material impact on our financial statements as a result of our adoption of FIN 48 effective January 1, 2007.

3. HPT Transaction.

The following table summarizes the amounts assigned, based on their fair values, to the assets and liabilities we acquired as a result of the HPT Transaction. The following amounts are preliminary and represent our best estimates of the fair values of the assets and liabilities and therefore are subject to change. See Note 5 for pro forma results of operations data.

	(Restated)
Current assets	\$ 460,417
Property and equipment	231,996
Goodwill	15,390
Intangible assets	23,674
Leasehold improvement receivable	82,733
Other noncurrent assets	9,852
Total assets acquired	824,062
Current liabilities	247,999
Capital lease obligations	107,620
Deferred taxes	1,262
Deferred rental allowance	101,528
Noncurrent liabilities	32,533
Net assets acquired	\$ 333,120

4. Petro Acquisition.

On May 30, 2007, we acquired Petro for approximately \$63,567. In addition, we assumed Petro's outstanding 9% Senior Secured Notes due 2012, or the 9% Notes, with a face amount of \$250,000 and a fair value of \$270,399, which had been defeased. We also paid \$1,230 of direct acquisition costs and accrued certain other liabilities. Also on May 30, 2007, Hospitality Trust acquired the real estate of 40 Petro travel centers, and simultaneously with Hospitality Trust's acquisition of this real estate, we entered the Petro Lease for these 40 locations. We refer to this transaction as the Petro Acquisition.

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

The assets we acquired in the Petro Acquisition included:

- Two travel centers owned and operated by Petro.
- Two travel centers that Petro leases from third parties other than Hospitality Trust.
- A 40% minority interest in a joint venture which owns a travel center that is managed by Petro.
- Contract rights as franchisor of 24 Petro travel centers.
- Four land parcels which we believe are suitable for development of new travel centers.
- Certain personal property, contract rights and all of the working capital associated with the 44 sites operated by Petro.

The aggregate acquisition cost was \$426,977, which was comprised of the following:

Calculation of acquisition cost for Petro Stopping Centers, L.P.:		
Cash consideration	\$	63,567
Assumed indebtedness defeased at closing		270,399
Other assumed liabilities		101,231
Estimated fees and other direct acquisition costs		1,230
Total acquisition cost	\$	436,427

The following table summarizes the amounts assigned, based on their fair values, to the assets and liabilities acquired in the Petro Acquisition. The following amounts are preliminary and represent our best estimates of the fair values of the assets and liabilities and therefore are subject to change. See Note 5 for pro forma results of operations.

Cash and cash equivalents	\$	42,205
Restricted investments		277,164
Other current assets		54,061
Property and equipment		33,587
Intangible assets		20,136
Other noncurrent assets		9,272
Total assets acquired		436,427
Indebtedness		270,399

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

Current liabilities		98,296
Other noncurrent liabilities		2,935
Net assets acquired	\$	64,797

Of the \$20,136 of acquired intangible assets, \$7,906 was assigned to registered trademarks that are not subject to amortization. The remaining \$12,230 of acquired intangible assets is being amortized over a useful life of 20 years.

Simultaneously with our Petro Acquisition and our lease of 40 Petro sites from Hospitality Trust, the 9% Notes were defeased, and these 9% Notes and the related defeasance deposit of restricted investments will cease to be reflected on our balance sheet when these 9% Notes are repaid in February 2008.

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

5. Pro Forma Information.

The following unaudited pro forma information presents our results of operations as if both the HPT Transaction and the Petro Acquisition had occurred at the beginning of the period presented:

	Three months ended		Nine months ended	
	September 30, 2007 (Restated)	September 30, 2006	September 30, 2007 (Restated)	September 30, 2006
Total revenues	\$ 1,783,618	\$ 1,880,597	\$ 5,234,089	\$ 5,352,711
Net income (loss)	\$ (16,458)	\$ 8,076	\$ (79,844)	\$ (4,567)
Income (loss) per common share	\$ (1.19)	\$ 0.92	\$ (7.44)	\$ (0.52)

These pro forma results of operations have been prepared for comparative purposes only and do not purport to be indicative of the results of operations that actually would have resulted had the HPT Transaction and the Petro Acquisition occurred at the beginning of the periods presented, or that may result in the future. The pro forma net loss for the nine months ended September 30, 2007, reflected \$66,554 of merger related expenses, \$16,662 of debt extinguishment expenses and \$4,268 of share based compensation expense, each incurred by our predecessor or Petro as a result of the HPT Transaction or the Petro Acquisition, and \$15,251 of expenses related to employee retention and separation payments. We do not include motor fuel taxes in our fuel revenues and fuel cost of sales; however prior to the Petro Acquisition, Petro included motor fuel taxes in its fuel revenues and fuel cost of sales. These amounts, for periods prior to May 30, 2007, have not been removed from Petro's reported revenues. For the nine months ended September 30, 2007, the total revenue presented above includes \$130,240 of motor fuel taxes that were also included in fuel cost of sales. For the three months ended September 30, 2006, the total revenue presented above includes \$77,971 of motor fuel taxes that were also included in fuel cost of sales. For the nine months ended September 30, 2006 the total revenue presented above includes \$237,490 of motor fuel taxes that were also included in fuel cost of sales.

6. Earnings Per Share.

During the quarter ended September 30, 2007, we issued 5,335,090 common shares for net proceeds of \$205,338 after underwriter discounts and commissions and other costs of the offering. These proceeds will be used for general business purposes, including funding expansion activities. We also issued 9,000 common shares under our equity incentive plan (see Note 13).

The following table reconciles our predecessor's basic earnings per common share to diluted earnings per common share. The assumed exercise of our predecessor's stock options and warrants would have had an anti-dilutive effect on loss per common share for the one month period ended January 31, 2007. Our unvested common share grants had an anti-dilutive effect on our loss per common share for the three months and eight months ended September 30, 2007.

	One month ended January 31, 2007	Predecessor Three months ended September 30, 2006	Nine months ended September 30, 2006
	(share amounts in thousands)		
Determination of shares:			
Weighted average common shares outstanding	6,937	6,937	6,937
Shares attributable to the assumed exercise of our predecessor's outstanding stock options	n/a	404	348
Shares attributable to the assumed exercise of our predecessor's outstanding warrants	n/a	277	277
Diluted weighted average common shares outstanding	6,937	7,618	7,562
Basic earnings (loss) per common share	\$ (3.18)	\$ 2.02	\$ 3.62
Diluted earnings (loss) per common share	\$ (3.18)	\$ 1.84	\$ 3.32

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

7. Inventories.

Inventories consisted of the following:

	Company September 30, 2007 (Restated)	Predecessor December 31, 2006
Non-fuel merchandise	\$ 101,214	\$ 71,820
Fuel	37,172	18,530
Total inventories	\$ 138,386	\$ 90,350

8. Property and Equipment.

Property and equipment we acquired as a result of the HPT Transaction and Petro Acquisition was recorded based on the fair market values as of the date of those transactions. All other property and equipment is recorded at cost. We depreciate our property and equipment on a straight line basis over the following estimated useful lives of the assets:

Building and site improvements	15-40 years
Machinery and equipment	3-15 years
Furniture and fixtures	5-10 years

We are obligated to remove underground storage tanks and certain other assets at some sites we lease. We evaluate our asset retirement obligations based on estimated tank useful lives, internal and external estimates as to the cost to remove the tanks and related obligations in the future, and regulatory or contractual requirements. We recognized an asset retirement obligation as of January 31, 2007, of \$10,197, and we recorded an additional liability related to underground storage tanks of \$2,935 as a result of the Petro Acquisition on May 30, 2007. The asset retirement obligation, which is included within other noncurrent liabilities in our consolidated balance sheet, was \$13,759 at September 30, 2007.

9. Goodwill and Intangible Assets.

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

Acquired goodwill and intangible assets are recorded based on their fair market values as of their acquisition dates or at the excess of amounts paid to a seller over the fair value of identifiable assets acquired less liabilities assumed. We amortize certain intangible assets over periods generally ranging from five to 20 years.

10. Indebtedness.

Simultaneously with our Petro Acquisition, Petro and Hospitality Trust covenant defeased all of Petro's 9% Notes, made arrangements to call Petro's 9% Notes as of February 15, 2008, and deposited with the trustee for the 9% Notes U.S. Treasury obligations sufficient to effect the covenant defeasance, to pay all of the interest that will accrue on the 9% Notes until the redemption date and to pay the full amount of the 9% Notes, including the redemption premium, on the redemption date of February 15, 2008. On September 30, 2007, \$250,000 in principal amount of the 9% Notes was outstanding. The 9% Notes are our obligations and are expected to remain so until the redemption date, and are included on our balance sheet as of September 30, 2007, at their estimated fair value of \$266,093, which includes the redemption premium. The U.S. Treasury obligations and related interest receipts are expected to remain restricted investments of ours until exhausted by the payment in full of the interest, principal and redemption amounts of the 9% Notes as these amounts are paid.

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

11. Leasing Transactions.

Our leases with Hospitality Trust are triple net leases, which require us to pay all costs incurred in the operation of the leased travel centers, including personnel, utilities, inventories, services to customers, repairs and maintenance, insurance, real estate and personal property taxes and ground lease payments. The TA Lease expires on December 31, 2022, and minimum rent increases annually during the first five years of the lease term as shown in the table below and may increase if Hospitality Trust funds or reimburses the cost in excess of \$125,000 (see below) for improvements to the leased TA travel centers. The Petro Lease expires on June 30, 2024, subject to extension by us for all but not less than all of the leased Petro travel centers for up to two additional periods of 15 years each, and requires minimum annual rent of \$62,225. Starting in 2012 and 2013, respectively, the TA Lease and Petro Lease require us to pay Hospitality Trust additional rent equal to 3% of increases in nonfuel gross revenues and 0.3% of increases in gross fuel revenues at the leased travel centers over a base amount. The increase in percentage rent attributable to fuel revenues is subject to a maximum each year calculated by reference to changes in the consumer price index.

The TA Lease requires us to pay minimum rent to Hospitality Trust as follows:

Lease Year	Annual Rent
February 1, 2007 through January 31, 2008	\$ 153,500
February 1, 2008 through January 31, 2009	\$ 157,000
February 1, 2009 through January 31, 2010	\$ 161,000
February 1, 2010 through January 31, 2011	\$ 165,000
February 1, 2011 through January 31, 2012	\$ 170,000
February 1, 2012 and thereafter	\$ 175,000

Although the future minimum lease payments under the TA Lease are scheduled to increase over time, we are required, under generally accepted accounting principles, to recognize the expense related to these payments in equal annual amounts for the term of the lease, or \$170,696 per year. There are no scheduled minimum rent increases under the Petro Lease.

Hospitality Trust has agreed to provide up to \$25,000 of funding annually for the first five years of the TA Lease for improvements to the leased TA travel centers. There will not be any adjustment in our minimum rent as Hospitality Trust funds these amounts. All improvements funded by Hospitality Trust will be owned by Hospitality Trust. We may request that Hospitality Trust fund amounts in excess of the \$25,000 annually referred to above in return for minimum rent increases according to formulas. As of September 30, 2007, Hospitality Trust has funded \$14,127 under the TA Lease and we have sold \$1,438 of additional improvements to Hospitality Trust for an increase in annual rent of \$122.

The HPT Transaction required us to evaluate our TA Lease with Hospitality Trust under Statement of Financial Accounting Standards No. 98, or FAS 98. Under FAS 98, thirteen of the travel centers owned by our predecessor that we now lease from Hospitality Trust did not qualify for operating lease treatment because more than a minor portion of those travel centers is subleased to third parties and one travel center did not qualify for operating lease treatment for other reasons. Accordingly, we recorded the leased assets at these travel centers at an amount equal to

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

Hospitality Trust's recorded initial carrying amount, which was equal to their fair values, and have an equal amount of liability that is presented as capital lease obligations in our consolidated balance sheet. Rent payments related to these assets are recognized as interest expense in our consolidated statement of operations and comprehensive income (loss).

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

The following table summarizes the various amounts related to the leases with Hospitality Trust and other real estate leases that are reflected in our operating results:

	Three months ended September 30, 2007 (Restated)	Eight months ended September 30, 2007 (Restated)
Minimum base rent (TA Lease cash payments)	\$ 38,374	\$ 102,331
Minimum base rent (Petro Lease cash payments)	15,556	21,087
Required straight line rent adjustment (TA Lease)	4,299	11,464
Total rent to Hospitality Trust	58,229	134,882
Less amount recognized as interest	(2,402)	(6,404)
Less capital lease amortization	(480)	(1,281)
Less leasehold improvement obligation amortization	(1,691)	(4,513)
Rent to Hospitality Trust recognized as rent expense	55,656	122,684
Other real estate lease rent	4,252	9,483
Total real estate lease rent	\$ 57,908	\$ 132,167

12. Related Party Transactions.

We were formerly a 100% subsidiary of Hospitality Trust and Hospitality Trust is our principal landlord. For the three months and eight months ended September 30, 2007, we recognized expense of \$58,229 and \$134,882 under our leases with Hospitality Trust. At September 30, 2007, other accrued liabilities on our consolidated balance sheet included \$5,531 for rent due to Hospitality Trust.

We are party to a management and shared services agreement with Reit Management & Research LLC, or Reit Management, whereby Reit Management oversees and assists us with various aspects of our business, which may include, but are not limited to, compliance with various laws and rules applicable to our status as a publicly owned company, maintenance of our travel centers, site selection for properties on which new travel centers may be developed, identification of, and purchase negotiation for, travel centers and travel center companies, accounting and financial reporting, capital markets and financing activities, investor relations and general oversight of all our daily business activities, including legal matters, human resources, insurance programs, management information systems and the like. For these services, we pay Reit Management a fee equal to 0.6% of our fuel gross margin and of our total nonfuel revenues. The fee is payable monthly based upon the prior month's margin and revenues. For the three months and eight months ended September 30, 2007, we recognized expense of \$2,339 and \$5,049, respectively, under this agreement.

We have a 40% joint venture interest in Petro Travel Plaza LLC, which owns one travel center that we operate under a management agreement. This investment is accounted for under the equity method. Included in our results for the three months and eight months ended September 30, 2007, was management fee income of \$97 and \$129, respectively. At September 30, 2007, we had a receivable from and a payable to Petro Travel Plaza LLC of \$1,474 and \$1,604, respectively.

13. Equity Incentive Plans.

We have an equity incentive plan, or the Plan, for which 2,000,000 common shares have been reserved for awards. At September 30, 2007, 9,000 common shares had been awarded under the Plan. Shares awarded to directors vest immediately. Other shares awarded under the plan may vest on schedules set by our board of directors.

For the eight months ended September 30, 2007, the share based compensation expense recognized in connection with the vested portion of our common share awards was \$260. This expense is included within selling, general and administrative expenses in our consolidated statement of operations and comprehensive income (loss). We will recognize compensation expense for unvested shares as they vest in future periods.

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

Our predecessor had a stock option plan that we did not assume. All 939,375 options that were outstanding under our predecessor's stock option plan as of December 31, 2006 were cancelled as part of the HPT Transaction on January 31, 2007. Our predecessor recognized share based compensation expense of \$4,268 in January 2007 when its outstanding options vested as a result of the HPT Transaction. Our predecessor recognized shared based compensation expense of \$11,946 related to their option plan for the nine months ended September 30, 2006. This expense is included within selling, general and administrative expenses in our predecessor's consolidated statement of operations and comprehensive income (loss).

14. Commitments and Contingencies.

Commitments

As of September 30, 2007, we had five properties under contract for purchase for an aggregate of \$23,000. Three of these properties are operating travel centers and two are undeveloped properties on which we intend to build new travel centers. We completed our acquisition of one of the operating properties and one of the undeveloped properties in November 2007. We expect two of the remaining acquisitions to close during the fourth quarter of 2007, and one to close in the first quarter of 2008. We expect to make improvements at these five sites with an aggregate cost of approximately \$40,000. These three potential acquisitions are subject to completion of diligence and other customary conditions; because of these contingencies we can provide no assurances that we will purchase the properties.

Guarantees

In the normal course of business, we periodically enter agreements that contain guarantees or indemnification provisions. While the maximum amount to which we may be exposed under such agreements cannot be estimated, we do not believe that any potential guaranty or indemnification will have a material adverse effect on our consolidated financial position or result of operations. We offer a warranty of our workmanship in our truck repair shops, but the annual warranty expense and corresponding liability are not material to us.

Environmental Matters

Our operations and properties are extensively regulated by environmental laws and regulations, or Environmental Laws, that (i) govern operations that may have adverse environmental effects, such as discharges to air, soil and water, as well as the management of petroleum products and other hazardous substances, or Hazardous Substances, or (ii) impose liability for the costs of cleaning up sites affected by, and for damages resulting from, disposal or other releases of Hazardous Substances. We use underground and above ground storage tanks to store petroleum products and waste at our travel centers. We must comply with requirements of Environmental Laws regarding tank construction,

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

integrity testing, leak detection and monitoring, overfill and spill control, contaminant release reporting, financial assurance and corrective action in case of a release from a storage tank into the environment. At some locations, we must also comply with Environmental Laws relating to vapor recovery and discharges to water.

We have received notices of alleged violations of Environmental Laws, or are aware of the need to undertake corrective actions to comply with Environmental Laws, at travel centers in a number of jurisdictions. We do not expect that financial penalties associated with these alleged violations, or compliance costs incurred in connection with corrective actions, will be material to our results of operations or financial condition. We are conducting investigatory and/or remedial actions with respect to releases of Hazardous Substances at a number of our sites. While we cannot precisely estimate the costs we may incur in connection with the remediation of these properties, based on our current knowledge, we do not expect that the costs to be incurred at these sites will be material to our financial condition, results of operations or cash flows.

Under certain environmental agreements entered into as part of our predecessor's acquisition of travel centers, predecessor owners of certain of our sites are required to indemnify us for certain environmental conditions. Certain of our remediation expenditures may be recovered from state government administered tank funds. In addition, we have obtained insurance of up to \$35,000 for environmental liabilities at certain of our travel centers that were known at the time the policies were issued, and up to \$60,000 for unknown environmental liabilities, subject, in each case, to certain limitations and deductibles. At September 30, 2007, we had reserves for

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

environmental matters of \$11,509, as well as a receivable for expected recoveries of certain of these estimated future expenditures and cash in an escrow account to fund certain of these estimated future expenditures, leaving an estimated net amount of \$4,019 to be funded from future operating cash flows. While it is not possible to quantify with certainty our environmental exposure, in our opinion, based upon the information now known to us, our potential liability in excess of the reserves we have recorded will not have a material adverse effect on our financial condition, results of operations or cash flows.

While the costs of our environmental compliance in the past have not had a material adverse impact on us, it is impossible to predict the ultimate effect changing circumstances and changing Environmental Laws may have on us in the future. We cannot be certain that additional contamination presently unknown to us does not exist at our sites, or that material liability will not be imposed on us in the future. If additional environmental problems arise or are discovered, or if additional environmental requirements are imposed by government agencies, increased environmental compliance or remediation expenditures may be required, and such costs could have a material adverse effect on us.

Pending Litigation

We are involved from time to time in various legal and administrative proceedings and threatened legal and administrative proceedings incidental to the ordinary course of our business. Other than as described below, we believe that we are not now involved in any litigation, individually or in the aggregate, which could have a material adverse affect on our business, financial condition, results of operations or cash flows.

On February 27, 2006, Flying J, Inc. and certain of its affiliates, or Flying J, filed a lawsuit against us and Pilot Travel Centers, LLC and certain of its affiliates, or Pilot, in the U.S. District Court for the District of Utah. Flying J and Pilot are competitors of ours. Flying J also markets a fuel purchasing credit card to trucking companies. The Flying J lawsuit claims, in essence, that we and Pilot have refused to accept the Flying J fuel card, and that such refusal was the result of unlawful concerted action. Flying J is seeking, among other things, an injunction requiring us and Pilot to accept the Flying J fuel card and damages. We believe that there are substantial factual and legal defenses to Flying J's claims. This case is at an early stage and we cannot estimate our ultimate exposure to loss or liability, if any, related to this litigation. However, like most complex antitrust litigation, the costs of this continuing defense are likely to be substantial.

Beginning in mid December 2006, and continuing to the present, a series of class action lawsuits have been filed against numerous companies in the petroleum industry, including us, in United States District Courts in over 20 states. Major petroleum companies and significant fuel retailers have been named as defendants in one or more of these lawsuits. The plaintiffs in these lawsuits generally allege that they purchased motor fuel that was greater than 60 degrees Fahrenheit at the time of sale. There are two primary theories upon which the plaintiffs seek recovery in these cases. The first theory alleges that the plaintiffs purchased smaller quantities of motor fuel than the amount for which defendants charged them because the defendants measured the amount of motor fuel they delivered in gallons that, at higher temperatures, contain less energy. These cases seek, among other relief, an order requiring the defendants to install temperature related equipment on retail fuel dispensing devices, damages and attorneys' fees. The second theory alleges that fuel taxes are calculated in temperature adjusted to 60 degree gallons and are collected by the government from suppliers and wholesalers, who are reimbursed in the amount of the tax by the defendant retailers before the fuel is sold to consumers. The tax cases allege that when the fuel is subsequently sold to consumers at temperatures above 60 degrees, the defendant retailers sell a greater volume of fuel than the amount on which they paid tax, and therefore reap a windfall because the customers pay

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

more tax than the retailer paid. The tax cases seek, among other relief, recovery of excess taxes paid and punitive damages. We believe that there are substantial factual and legal defenses to the theories alleged in these lawsuits. These cases have been consolidated for pretrial purposes in the United States District Court for the District of Kansas pursuant to multi district litigation procedures. These cases are at an early stage and we cannot estimate our ultimate liability, if any, related to these lawsuits, nor the costs of their defense, at this time.

On November 3, 2006, Great American Insurance Company of New York and Novartis Pharmaceuticals Corporation, or Novartis, filed a complaint in the United States District Court for the Southern District of New York against our predecessor and a trucking company, Prime, Inc., in connection with the alleged theft of a tractor trailer operated by Prime which contained Novartis' s pharmaceutical products. The theft allegedly occurred at one of our travel centers. Novartis seeks damages up to or exceeding \$30,000 together with interest, litigation costs and

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

attorneys' fees. On January 5, 2007, our predecessor answered Novartis' complaint and asserted a cross claim for contribution and indemnification against Prime. We believe that there are substantial defenses to this claim and that any liability arising from this matter may be covered by one or more of our existing insurance policies.

On May 2, 2007, a class action lawsuit was filed against us in the United States District Court for the Northern District of Indiana. The complaint alleges violation of a provision of the Federal Fair and Accurate Transactions Act which limits certain credit and debit card information that may appear on electronically printed receipts provided to cardholders. The plaintiff purports to represent a class of all persons provided with electronically printed receipts for transactions occurring at our travel centers in Indiana after December 4, 2006 which receipts allegedly violate the Federal Fair and Accurate Transactions Act. The complaint seeks damages of one hundred dollars to one thousand dollars per violation, attorneys' fees, litigation expenses and costs. This case is at an early stage and we cannot estimate our ultimate liability, if any, related to this lawsuit, nor the costs of its defense, at this time.

15. Income Taxes.

The provision (benefit) for income taxes was as follows:

	Company			Predecessor	
	Three Months Ended September, 2007 (Restated)	Eight Months Ended September, 2007 (Restated)	One Month Ended January, 2007	Three Months Ended September, 2006	Nine Months Ended September, 2006

Foreign			(15)	(90)	(90)
	(12,383)	(13,237)	(33,827)	1,514	7,605
Tax provision (benefit)	(3,433)	(13,237)	(40,470)	8,737	15,459
Valuation allowance	10,507	10,507			
Net tax provision (benefit)	\$ 7,074	\$ (2,730)	\$ (40,470)	\$ 8,737	\$ 15,459

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

Because of our short history and recent operating losses, we have recorded a valuation allowance to account for our anticipated net operating loss, which will be carried forward and available to offset future taxable income. We will, however, continue to assess our ability to generate sufficient taxable income during future periods in which these tax losses may be realized.

Our effective tax rate for the three months and eight months ended September 30, 2007 was a provision of 75.4% and a benefit of 7.8%, respectively, which differed from statutory rates primarily because we established a valuation allowance and partially due to state income taxes net of the federal tax effect. Our predecessor's effective tax rates for the one month ended January 31, 2007 and the nine months ended September 30, 2006 were a benefit of 64.7% and a provision of 38.1%, respectively. Our predecessor's rate for the one month ended January 31, 2007 differed from the statutory rate primarily due to deductibility for tax purposes of expenses related to stock options that were not expensed for financial reporting purposes, partially offset by certain merger related expenses recognized in the financial statements which were not deductible for income tax purposes. Our predecessor's rate for the nine months ended September 30, 2006, differed from the statutory rate primarily due to state income taxes, net of the federal tax effect. The differences in the effective tax rates among these periods primarily resulted from

TravelCenters of America LLC

Notes to Unaudited Consolidated Financial Statements

(dollars in thousands, except per share amounts)

the effects of the HPT Transaction on our predecessor's results for the one month ended January 31, 2007. These tax attributes, such as net operating losses and tax credits, were transferred to Hospitality Trust in connection with the HPT Transaction.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We were formed in October 2006 as a Delaware limited liability company and a 100% owned subsidiary of Hospitality Trust to succeed to the operating business of our predecessor. Until January 31, 2007, we had no activities. When Hospitality Trust acquired our predecessor on January 31, 2007, it caused us to acquire the operating business of our predecessor, it recapitalized us and then distributed our shares to Hospitality Trust shareholders.

Because of the restructuring and spin off, which we refer to collectively as the HPT Transaction, the historical financial information of our predecessor is not comparable to our present business or indicative of our future financial position, results of operations or cash flows. You should read the following discussion in conjunction with the financial statements and related notes thereto included elsewhere in this Quarterly Report on Form 10-Q/A and our Annual Report on Form 10-K for the year ended December 31, 2006. This discussion contains forward looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward looking statements for many reasons, including the risks described in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2006.

Our revenues and income are potentially subject to material changes as a result of the market prices of diesel fuel and gasoline, as well as the availability of these products. These factors are subject to the worldwide petroleum products supply chain, which historically has experienced shocks as a result of, among other things, severe weather, political crises, wars and other military actions and variations in demand. Over the past few years there has been a significant increase in the cost of diesel fuel and gasoline as crude oil demand increased due to economic growth in certain regions of the world such as India and China and as events such as Hurricane Katrina affected the supply of petroleum products. Recently, the cost of crude oil has continued to increase, recently exceeding \$95 per barrel. These significant increases can usually be passed on to our customers, but volatility in the crude oil and refined products markets has sometimes resulted in short term negative or positive effects on our operating results. We expect that the petroleum products markets may continue to be volatile and that prices for petroleum products will remain at historically high levels for the foreseeable future. While we at times may experience product availability shortages in certain areas, we do not expect these occasional supply disruptions will have a material effect on our results of operations.

Quarterly Business Update

For the three months ended September 30, 2007, our results showed significant differences as compared to the results of our predecessor for the comparable period of 2006, most of which were due to our acquisition of Petro on May 30, 2007. The acquisition of Petro accounted for a 35.6% increase in our fuel revenue, a 34.0% increase in fuel gross margin, a 37.9% increase in nonfuel revenue, a 35.6% increase in non fuel gross margin, a 35.2% increase in total gross margin and a 40.3% increase in site level operating expenses.

Operating results in our industry for the three months ended September 30, 2007, were adversely affected by slowing economic growth in the United States generally and, in particular, within the trucking industry. We believe that the relative weakness of the U.S. economy, the slowing in the housing market and durable goods orders, and the historically high cost of crude oil, among other factors, have led to reduced demand by shippers for trucks to carry freight. As a result, total miles driven by trucks were down for the third quarter as compared to the prior year quarter. The decline in miles driven by our trucking customers resulted in greater competition within our industry for the fueling customer. Market forces drove diesel and gasoline prices steadily upward throughout the 2007 third quarter; this tends also to reduce demand and to compress our operating financial margins over time. Many U.S. trucking fleets are reporting some reduced ability to pass through the increased

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

cost of fuel to their customers, which has focused the attention of our fleet customers on the cost of fuel and further compressed fuel margins. These negative pressures in the market had an adverse effect on our results for the third quarter and may continue to affect us.

Changes in the Number of Our Travel Centers

The changes in the number of our travel centers and in their method of operation (company operated, franchisee leased and operated or franchisee owned and operated) are factors which affect our results of operations. The following table summarizes these changes in our business from December 31, 2005 through September 30, 2007.

	Company Operated	Franchisee Leased and Operated	Franchisee Owned and Operated	Total
Number of travel centers at December 31, 2005	139	10	11	160
January - September 2006 Activity:				
New travel centers			2	2
Number of travel centers at September 30, 2006	139	10	13	162
October - December 2006 Activity:				
New travel centers	1			1
Number of travel centers at December 31, 2006	140	10	13	163
January - September 2007 Activity:				
Acquisition of franchisee travel center	1		(1)	
Petro acquisition	45		24	69
New travel centers	2		1	3
Closed travel center	(1)			(1)
Number of travel centers at September 30, 2007	187	10	37	234

Historical Results of Operations***Relevance of Fuel Revenues and Fuel Volumes***

Due to market pricing of commodity fuel products and our pricing arrangements with fuel customers, we do not consider fuel revenue to be a particularly reliable measure for analyzing our results of operations or our predecessor's results of operations from period to period. As a result solely of changes in petroleum products market prices, our fuel revenue may increase or decrease significantly versus our or our predecessor's historical results of operations, in both absolute amounts and on a percentage basis, without a comparable change in fuel sales volumes or in gross profit per gallon. We consider fuel volumes to be a better measure of comparative performance than fuel revenues.

Three months ended September 30, 2007 compared to September 30, 2006

The amounts in the following table for the three months ended September 30, 2007 include the results of Petro.

(dollars in thousands)	Company Three months ended September 2007 (Restated)	Predecessor Three months ended September 2006	Change (Restated)
Revenues:			
Fuel	\$ 1,447,583	\$ 1,064,569	\$ 383,014
Non fuel	332,102	234,921	97,181
Rent and royalties	3,933	2,593	1,340

Interest income	7,043	660	6,383
Interest expense	(5,108)	(12,704)	7,596
Income (loss) before income taxes	(9,384)	22,771	(32,155)
Provision (benefit) for income taxes	7,074	8,737	(1,663)
Net income (loss)	\$ (16,458)	\$ 14,034	\$ (30,492)

Same Site Comparisons. A travel center is included in the following same site comparisons only if it was continuously operated by us or our predecessor from July 1, 2006 through September 30, 2007 or, in the case of rent revenues and royalty revenues, by a franchisee of ours or our predecessor for the entire period. Travel centers are not excluded from the same site comparisons as a result of expansions in their size or in the services offered. The following table excludes Petro travel centers because they were not operated by us or our predecessor prior to May 30, 2007.

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

	Three months ended September 30, Company 2007	Predecessor 2006 (gallons and dollars in thousands)	Change
Number of company operated travel centers	137	137	
Number of franchisee operated travel centers	21	21	
Diesel sales volume (gallons) (1)	360,819	371,286	-2.8%
Gasoline sales volume (gallons) (1)	50,542	53,466	-5.5%
Total nonfuel revenues (1)	\$ 235,850	\$ 232,326	+1.5%
Rent revenues (2)	1,185	1,156	+2.5%
Royalty revenues (2)	1,391	1,413	-1.6%
Operating expenses (1)	114,072	109,104	+4.6%

(1) Includes fuel volume, revenues and expenses of company operated travel centers only.

(2) Includes only revenues earned from franchisee operated travel centers.

Revenues. Revenues for the three months ended September 30, 2007, were \$1,783.6 million, which represented an increase from the quarter ended September 30, 2006, of \$481.5 million, or 37.0%, that is primarily attributable to the Petro Acquisition.

Fuel revenue for the quarter ended September 30, 2007, increased by \$383.0 million, or 36.0%, as compared to the same period in 2006. This increase was principally the result of sites added since 2006, including the Petro sites. The table below shows the changes in fuel revenues between periods that resulted from price and volume changes:

	Gallons Sold Diesel Fuel	Gallons Sold Gasoline	Fuel Revenues
	(gallons and dollars in thousands)		
Results for three months ended September 30, 2006	409,735	53,477	\$ 1,064,569
Increase due to commodity price			19,339
Decrease due to same site volume	(11,100)	(2,934)	(32,229)
Increase due to Petro sites added	158,801	11,511	379,168
Increase due to net company operated sites added since July 1, 2006	6,227	1,667	18,142
Increase (decrease) due to wholesale fuel business sales volume variations	(614)	12	(1,406)
Net increase from prior year period	153,314	10,256	383,014
Results for three months ended September 30, 2007	563,049	63,733	\$ 1,447,583

We believe the same site diesel fuel sales volume decrease resulted primarily from a decline in trucking activity that is largely attributable to a decline in durable goods orders and new home building during the 2007 periods versus the 2006 periods. Fuel revenues were 81.1% of total revenues for the quarter ended September 30, 2007, as compared to 81.8% for the same period in 2006.

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

Nonfuel revenues for the three months ended September 30, 2007 were \$332.1 million, an increase of \$97.2 million, or 41.4%, as compared to the same period in 2006. Of this increase, \$89.0 million related to the company operated sites added in the Petro Acquisition on May 30, 2007 and \$4.9 million from the three other net sites added in 2007 and 2006. Same site nonfuel revenues increased by \$3.5 million, or 1.5%. We believe the same site nonfuel revenue increase reflected increased customer traffic in our truck repair shops resulting, in part, from the repair shop bays we have added in 2006 and 2007. The increase related to truck repair shops was partially offset by decreased customer traffic in our other non fuel areas that coincides with declines in fuel sales volumes. We believe

that the capital improvements we have made to our travel centers and the marketing programs we have initiated have worked to mitigate the negative effects of the reduced customer traffic. Nonfuel revenues were 18.6% of total revenues for the quarter ended September 30, 2007, as compared to 18.0% for the same period in 2006.

Rent and royalty revenues for the three months ended September 30, 2007 were \$3.9 million, an increase of \$1.3 million, or 51.7%, as compared to the same period in 2006. This was primarily the result of royalty revenues during the quarter from the 24 Petro franchisee sites added on May 30, 2007 of \$1.5 million. Royalties from a new franchisee owned and operated travel center for the three months ended September 30, 2007 resulted in an increase of \$0.1 million.

Cost of goods sold (excluding depreciation). Cost of goods sold for the three months ended September 30, 2007, was \$1,535.7 million, an increase of \$418.9 million, or 37.5%, as compared to the same period in 2006, which was primarily attributable to costs of good sold at the Petro locations acquired on May 30, 2007. Fuel cost of goods sold for the quarter ended September 30, 2007 of \$1,392.6 million increased by \$374.7 million, or 36.8%, of which \$363.3 million resulted from fuel sales at the Petro locations for the quarter ended September 30, 2007. The increase in fuel cost of goods sold for the quarter ended September 30, 2007 as compared to the same period in 2006 also resulted from commodity price increases offset by the fuel sales volumes decreases described above.

Nonfuel cost of goods sold for the three months ended September 30, 2007 was \$143.1 million, an increase of \$44.2 million, or 44.7%, as compared to the same period in 2006, of which \$41.1 million resulted from nonfuel sales at the Petro locations for the quarter ended September 30, 2007. The nonfuel cost of goods sold increase was also due to the same site nonfuel revenue increase discussed above.

Site level operating expenses. Site level operating expenses for the three months ended September 30, 2007, were \$163.3 million, an increase of \$52.8 million, or 47.7%, as compared to the same period in 2006. This increase was the result of \$44.6 million in site level operating expenses at the Petro locations for the quarter ended September 30, 2007, \$3.4 million from the other company operated locations added in 2007 and 2006 and a \$5.0 million same site increase. On a same site basis, site level operating expenses as a percentage of nonfuel revenues for the quarter ended September 30, 2007 were 48.4%, compared to 47.0% for the same period in 2006.

Selling, general and administrative expenses. Selling, general and administrative expenses for the three months ended September 30, 2007 were \$32.6 million, an increase of \$18.9 million, or 137.7%, as compared to the same period in 2006, of which \$7.3 million resulted from the Petro Acquisition. In the quarter ended September 30, 2007, we incurred \$6.4 million for separation payments related to employment agreements with various former executive officers and retention bonus payments that were or are required to be made to certain of our employees who remain in our employ through specified dates. Our predecessor incurred \$0.3 million of share based compensation expense in the 2006 period related to stock options of our predecessor. Other selling, general and administrative expense increases over the prior year period represent increases in expenses primarily as a result of changes to our structure as a result of the HPT Transaction and the Petro Acquisition.

Real estate rent expense. Rent expense for the three months ended September 30, 2007 was \$57.9 million, an increase of \$55.1 million as compared to the same period in 2006. This increase was primarily attributable to our lease agreements with Hospitality Trust that became effective on January 31, 2007 and May 30, 2007. Under the leases with Hospitality Trust, we paid rent of \$53.9 million during the three months ended September 30, 2007, of which \$2.4 million was recognized as interest expense, \$0.5 million was recognized as a reduction of our capital lease obligation, \$1.7 million of deferred rental income was recognized as a reduction of rent; and we accrued an additional \$4.3 million of rent expense in order to recognize the rent expense related to the TA Lease on a straight line basis over the lease term.

Depreciation and amortization expense. Depreciation and amortization expense for the three months ended September 30, 2007 was \$6.0 million, a decrease of \$12.6 million, or 67.9%, as compared to the same period in 2006. This decrease was attributable to the significant decrease in depreciable assets on our balance sheet after the HPT Transaction on January 31, 2007, partially offset by assets added by the Petro Acquisition. Our property and equipment balance at September 30, 2007 was \$322.2 million, as compared to our predecessor's property and equipment balance as of December 31, 2006 of \$653.7 million, reflecting a 50.7% decrease.

Income (loss) from operations. Net loss from operations for the three months ended September 30, 2007, was \$11.9 million, a decrease of \$46.7 million, or 134.1%, as compared to the same period in 2006. This decrease was the result of the changes in revenues and expenses described above.

Interest income and expense. Interest income for the three months ended September 30, 2007 was \$7.0 million, an increase of \$6.4 million, or 967.1%, as compared to the same period in 2006, which was primarily attributable to the \$2.4 million of interest income on restricted investments combined with interest income from the increase in our cash balance after the HPT Transaction and our third quarter 2007 common share issuance. Interest expense for the three months ended September 30, 2007 was \$5.1 million, as compared to \$12.7 million for the same period in 2006. This \$7.6 million, or 59.8%, decrease primarily resulted from the repayment of our predecessor's indebtedness on January 31, 2007 as part of the HPT Transaction. The decline related to the debt repayment was somewhat offset by \$2.4 million of interest expense on the defeased 9% Notes and by recognizing as interest expense \$2.9 million of rent under our TA Lease with Hospitality Trust in connection with the lease payments related to those sites we lease from Hospitality Trust that did not qualify for operating lease treatment under generally accepted accounting principles, or GAAP.

Income tax provision (benefit). Our effective tax rate for the three months ended September 30, 2007 and 2006 was a provision of 75.4% and 38.4%, respectively. The rate for the 2007 period differs from the statutory rate due to an increase in our valuation allowance of \$13.8 million recorded in the third quarter of 2007, and to state income taxes net of the federal tax effect. For the 2006 period, the effective tax rate differs from the statutory rate due to state income taxes net of the federal effect.

Nine months ended September 30, 2007 compared to September 30, 2006

We were spun out of Hospitality Trust on January 31, 2007, and had no operations prior to that time. For the purpose of discussing the historical results of operations, the following table adds our results and the results of our predecessor, without pro forma adjustments, for the nine months ended September 30, 2007, and compares these combined results of operations to those of our predecessor for the nine months ended September 30, 2006. The data has been presented to facilitate our discussion below of the trends and changes affecting our operating results. It has been prepared for comparative purposes only and does not purport to be indicative of the results of operations that actually would have resulted had the HPT Transaction occurred on January 1, 2006, and is not indicative of our future results of operations. The amounts in the following table for the nine months ended September 30, 2007 include the results of Petro since May 30, 2007, the date of the Petro Acquisition.

(dollars in thousands)	Company Eight months Ended September 2007 (Restated)	Predecessor One month Ended January 2007	Combined Nine months Ended September 2007 (Restated)	Predecessor Nine months Ended September, 2006	Change (Restated)

Same Site Comparisons. A travel center is included in the following same site comparisons only if it was continuously operated by us or our predecessor from January 1, 2006 through September 30, 2007 or, in the case of rent revenues and royalty revenues, by a franchisee of ours or our predecessor for the entirety of the same period. Travel centers are not excluded from the same site comparisons as a result of expansions in their size or in the services offered. The

following table excludes Petro travel centers because they were not operated by us or our predecessor for the entire period.

Nine months ended September 30,
Combined Predecessor
2007 2006
(gallons and dollars in thousands)

Number of company operated travel centers	137	137	
Number of franchisee operated travel centers	21	21	
Diesel sales volume (gallons) (1)	1,100,534	1,113,921	-1.2%
Gasoline sales volume (gallons) (1)	148,435	153,916	-3.6%
Total nonfuel revenues (1)	\$ 663,451	\$ 652,554	+1.7%
Rent revenues (2)	3,526	3,395	+3.9%
Royalty revenues (2)	3,697	3,683	+0.4%
Operating expenses (1) (3)	328,222	316,931	+3.6%

(1) Includes fuel volume, revenues and expenses of company operated travel centers only.

(2) Includes only revenues earned from franchisee operated travel centers.

(3) Excluded from the 2006 operating expense is a \$4.4 million reduction related to the settlement of two claims made in connection with certain transactions our predecessor completed in November 2000.

Revenues. Revenues for the nine months ended September 30, 2007, were \$4,359.4 million, which represented an increase from the nine months ended September 30, 2006, of \$681.0 million, or 18.5%, that is primarily attributable to the Petro Acquisition.

Fuel revenue for the nine months ended September 30, 2007, increased by \$540.8 million, or 18.0%, as compared to the same period in 2006. This increase was principally the result of sites added since 2006, primarily the Petro sites. The table below shows the changes in fuel revenues between periods that resulted from price and volume changes:

	Gallons Sold Diesel Fuel	Gasoline (gallons and dollars in thousands)	Fuel Revenues
Results for nine months ended September 30, 2006	1,234,774	154,709	\$ 3,010,252
Increase due to commodity price			23,399
Decrease due to same site volume	(14,282)	(5,480)	(42,814)
Increase due to Petro sites	214,632	16,697	542,237
Increase due to net company operated sites added since January 1, 2006	7,348	1,806	19,831
Decrease due to wholesale fuel business sales volume variations	(835)	(15)	(1,840)
Net increase from prior year period	206,863	13,008	540,813
Results for nine months ended September 30, 2007	1,441,637	167,717	\$ 3,551,065

We believe the same site diesel fuel sales volume decrease resulted primarily from a decline in trucking activity that is largely attributable to a decline in durable goods orders and new home building during the 2007 periods versus the 2006 periods. Fuel revenues were 81.5% of total revenues for the nine months ended September 30, 2007, as compared to 81.8% for the same period in 2006.

Nonfuel revenues for the nine months ended September 30, 2007, were \$799.2 million, an increase of \$138.5 million, or 21.0%, as compared to the same period in 2006. Of this increase, \$120.2 million relates to the company operated sites added in the Petro Acquisition on May 30, 2007 and \$9.1 million related to the three other net sites added in 2006 and 2007. Same site nonfuel revenues increased by \$10.9 million, or 1.7%, at company

operated sites open in both 2007 and 2006 despite the decrease in same site diesel fuel volumes noted above. We believe the same site nonfuel revenue increase reflected increased customer traffic in our truck repair shops resulting, in part, from the repair shop bays we have added in 2006 and 2007. The increase related to truck repair shops was partially offset by decreased customer traffic in our other non fuel areas that coincides with declines in fuel sales volumes. We believe that the capital improvements we have made to our travel centers and the marketing programs we have initiated have worked to mitigate the declines resulting from reduced customer traffic. Nonfuel revenues were 18.3% of total revenues for the nine months ended September 30, 2007, as compared to 18.0% for the same period in 2006.

Rent and royalty revenues for the nine months ended September 30, 2007, were \$9.2 million, an increase of \$1.7 million or 21.9%, as compared to the same period in 2006. This was primarily the result of royalty revenues for the Petro franchisee sites for the period subsequent to the Petro Acquisition of \$2.0 million, combined with a same site rent increase of \$0.1 million, or 3.9%.

Cost of goods sold (excluding depreciation). Cost of goods sold for the nine months ended September 30, 2007 was \$3,761.3 million, an increase of \$587.1 million, or 18.5%, as compared to the same period in 2006, which was primarily attributable to sales at the Petro locations acquired on May 30, 2007. Fuel cost of goods sold for the nine months ended September 30, 2007 of \$3,424.2 million increased by \$525.0 million, or 18.1%, including a \$521.2 million increase from fuel sales at the Petro locations for the period subsequent to the Petro Acquisition on May 30, 2007. The increase in fuel cost of goods sold for the quarter ended September 30, 2007 as compared to the same period in 2006 also resulted from commodity price increases partially offset by the fuel sales volumes decreases described above.

Nonfuel cost of goods sold for the nine months ended September 30, 2007 was \$337.1 million, an increase of \$62.0 million, or 22.5%, as compared to the same period in 2006, of which \$55.4 million resulted from nonfuel sales at the Petro locations for the period subsequent to the Petro Acquisition. The nonfuel cost of goods sold increase was also due to the same site nonfuel revenue increase discussed above.

Site level operating expenses. Site level operating expenses for the nine months ended September 30, 2007, were \$397.3 million, an increase of \$80.3 million, or 25.3%, as compared to the same period in 2006, which was primarily attributable to the \$59.0 million in site level operating expenses at the Petro locations for the period subsequent to the Petro Acquisition on May 30, 2007, \$6.0 million from company operated locations added in 2007 and 2006 and an \$11.4 million same site increase. Additionally, in June 2006 our predecessor recognized a reduction of site level operating expenses of \$4.4 million related to the settlement of two claims made in connection with certain transactions our predecessor completed in November 2000. On a same site basis, site level operating expenses as a percentage of nonfuel revenues for the nine months ended September 30, 2007 were 49.5%, compared to 48.6% for the same period in 2006.

Selling, general and administrative expenses. Selling, general and administrative expenses for the nine months ended September 30, 2007, were \$78.5 million, an increase of \$30.0 million, or 61.8%, as compared to the same period in 2006, of which \$10.1 million resulted from the Petro Acquisition. In the nine months ended September 30, 2007, we expensed \$14.8 million for separation payments to former executive officers and retention bonus payments that were or are required to be made to certain of our employees who remain in our employ through specified dates. Our predecessor incurred \$11.9 million of share based compensation expense in the prior year period and \$4.2 million in the one month ended January 31, 2007, for a net decrease in expense related to stock options of our predecessor of \$7.4 million. Other selling, general and administrative expense increases over the prior year period represent

increases in expenses as a result of changes to our management structure that we implemented after the HPT Transaction and the Petro Acquisition.

Real estate rent expense. Rent expense for the nine months ended September 30, 2007 was \$133.1 million, an increase of \$125.0 million as compared to the same period in 2006. This increase was primarily attributable to the lease agreements with Hospitality Trust that became effective on January 31, 2007 and May 30, 2007. Under the leases we paid rent of \$123.4 million during the eight months ended September 30, 2007, of which \$6.4 million was recognized as interest expense, \$4.3 million was recognized as a reduction of our capital lease obligation, \$4.5 million of deferred rental allowance was recognized as a reduction of rent; and we accrued an additional \$11.5 million of rent expense in order to recognize the rent expense related to the TA Lease on a straight line basis over the lease term.

Depreciation and amortization expense. Depreciation and amortization expense for the nine months ended September 30, 2007 was \$25.1 million, a decrease of \$26.4 million, or 51.3%, as compared to the same period in 2006. This decrease was attributable to the significant decrease in depreciable assets on our balance sheet after the HPT Transaction on January 31, 2007, partially offset by assets we acquired in the Petro Acquisition. Our property and equipment balance at September 30, 2007 was \$322.2 million, as compared to our predecessor's property and equipment balance as of December 31, 2006 of \$653.7 million, reflecting a 50.7% decrease. The decline in depreciation expense was somewhat offset by a \$1.6 million increase in amortization of intangible assets resulting from the accounting for the HPT Transaction and the Petro Acquisition.

Merger related expenses. During January 2007, our predecessor recognized a charge of \$45.0 million related to expenses incurred in marketing itself for sale and consummating the HPT Transaction. These costs primarily consisted of investment banking fees, other transaction advisory fees and management bonus payments.

Income (loss) from operations. Net loss from operations for the nine months ended September 30, 2007, was \$80.8 million, a decrease of \$155.2 million, or 208.7%, as compared to the same period in 2006. This decrease was the result of the changes in revenues and expenses described above.

Interest income and expense. Interest income for the nine months ended September 30, 2007 was \$13.3 million, an increase of \$12.0 million as compared to the same period in 2006. This was primarily attributable to \$3.2 million of interest income on restricted investments combined with interest income resulting from the increase in our cash balance after the HPT Transaction and our third quarter 2007 common share issuance. Interest expense for the nine months ended September 30, 2007 was \$14.7 million, as compared to \$36.3 million for the same period in 2006. This \$21.6 million, or 59.5%, decrease primarily resulted from the repayment of our predecessor's indebtedness on January 31, 2007 as part of the HPT Transaction. The decline related to these factors was somewhat offset by recognizing as interest expense \$6.4 million of rent under the TA Lease in connection with the lease payments related to those sites we lease from Hospitality Trust that did not qualify for operating lease treatment under GAAP and \$3.2 million of interest expense on the defeased Petro 9% Notes.

Debt extinguishment expense. In connection with the repayment of its indebtedness as a result of the HPT Transaction, our predecessor charged to expense the remaining unamortized balance of its previously incurred debt issuance costs of \$15.2 million and the remaining unamortized debt discount of \$0.9 million related to a note payable.

Income tax provision (benefit). Our effective tax rate for the eight months ended September 30, 2007 was a benefit of 7.8% which differed from the statutory rate primarily due to an increase in our valuation allowance of \$10.5 million recorded in the third quarter of 2007, and also due to state income taxes net of the federal tax effect. Our predecessor's effective tax rates for the one month ended January 31, 2007 and the nine months ended September 30, 2006 were a benefit of 64.7% and a provision of 38.1%, respectively. Our predecessor's rate for the one month ended January 31, 2007 differed from the statutory rate primarily due to the deductibility for tax purposes of expenses related to stock options that were not expensed for financial reporting purposes, which was partially offset by certain merger related

expenses recognized in the financial statements which were not deductible for income tax purposes. Our predecessor's tax rate for the nine months ended September 30, 2006, differed from the statutory rate primarily due to state income taxes, net of the federal tax effect. The differences in the effective tax rates among these periods primarily resulted from the effects of the HPT Transaction on our predecessor's results for the one month ended January 31, 2007 as well as the effects of the HPT Transaction on our results and our other tax attributes.

Seasonality

Our revenues during a year are often lowest in the first quarter when movement of freight by professional truck drivers and motorist travel are historically at their lowest seasonal levels. Our revenues in the fourth quarter of a year are often somewhat lower than those of the second and third quarters because although the fourth quarter is often positively impacted by increased movement of freight in preparation for various national holidays, that positive impact is often more than offset by a reduction in freight movement caused by vacation time associated with those holidays taken by professional truck drivers. While our revenues are modestly seasonal, the quarterly variations in our operating income has historically been somewhat more pronounced as a result of a relatively fixed amount of managerial, occupancy and administrative costs that represent a relatively smaller percentage of revenues during the second and third quarters as compared to the first and fourth quarters. The impact of seasonality can be

somewhat masked however, by other market forces, such as changes in the economy generally and in trucking industry conditions.

Staff Reorganization

In August 2007, we announced plans for a staff reorganization. There are two primary parts to our staff reorganization plan.

- We realigned functions within our field management and corporate office marketing and operations departments. Through September 30, 2007, we terminated 95 operations management employees. During the third quarter, we incurred charges of \$0.7 million of separation payments and relocation costs in connection with these terminations and this reorganization. This part of our reorganization was substantially completed during September 2007.
- We consolidated functions within our corporate office, primarily to eliminate duplications resulting from our acquisition of Petro. Through September 30, 2007, 32 corporate office employees were terminated. We expect that the process of consolidating these functions will continue during the remainder of 2007 and into 2008 as we integrate systems and back office functions and that a total of 60 positions will be eliminated. We expect this part of our reorganization to be complete by mid-2008.
- We expect annual savings associated with our staff reorganization of approximately \$8 million.

Critical Accounting Policies

We have no material changes to the disclosure on this matter made in our Annual Report on Form 10-K for the year ended December 31, 2006.

Liquidity and Capital Resources

Our principal liquidity requirements are to meet our operating expenses including rent and to fund our capital expenditures and other working capital requirements. Our sources of liquidity to meet these requirements are our operating cash flow, our cash balance and our ability to draw capital improvement funding under the terms of our leases with Hospitality Trust.

The primary risks we face with respect to our operating cash flow include decreased demand for our products and services, including that which may be caused by the volatility of prices of petroleum based products. A reduction of our revenue without an offsetting reduction in our

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

operating expenses may cause us to use our cash at a rate that we cannot sustain for extended periods. Also, a significant increase in the prices we must pay to obtain fuel may increase our cash working capital requirements.

On May 30, 2007, we acquired Petro for approximately \$64.7 million. In addition, we assumed 9% Notes due 2012 with a face amount of \$250.0 million and a fair value of \$270.4 million which had been defeased and will be redeemed in February 2008. We had restricted investments totaling \$266.7 million at September 30, 2007 that will be used to repay the full face amount of this debt, the redemption premium and accrued, but unpaid, interest. The Petro Acquisition was funded from cash on hand.

Hospitality Trust has agreed to provide up to \$25 million of funding annually for the first five years of the TA Lease for certain improvements to the leased travel centers. There will not be any adjustment in our minimum rent as Hospitality Trust funds these amounts. All improvements funded by Hospitality Trust will be owned by Hospitality Trust. We are required to maintain, at our expense, the leased travel centers in good order and repair, including structural and non-structural components, but we may request that Hospitality Trust fund amounts in excess of the \$25 million annually referred to above in return for minimum rent increases equal to a minimum of 8.5% per annum of the amount Hospitality Trust funds. As of September 30, 2007, Hospitality Trust had reimbursed us for \$14.1 million of covered improvements and, in addition, we sold \$1.4 million of improvements to Hospitality Trust for an increase in annual rent of \$0.1 million. During the eight months ended September 30, 2007, we incurred capital expenditures of \$75.9 million which have not been reimbursed by, or sold to, Hospitality Trust. This included amounts incurred to complete the construction of new travel centers in Livingston, CA and Laredo, TX that opened in March 2007 and July 2007, respectively. We also incurred \$25.1 million, net of cash acquired of

\$43.0 million, for acquisitions of businesses, including the Petro Acquisition. These acquisitions were funded from cash on hand.

Earlier in 2007 we implemented a program we call *Operation Refresh*, a plan to invest \$125 million to \$150 million to upgrade the quality of our TA locations and make them more attractive to customers. Through September 30, 2007, we invested \$11.5 million in *Operation Refresh* capital projects. We expect to spend approximately \$40 million in 2007 and \$70 million in 2008 on this program. We expect that a substantial portion of this program will be funded by Hospitality Trust, as we draw the \$125 million (limited to \$25 million annually) of committed funding for capital improvements at properties leased from Hospitality Trust.

During the three months ended September 30, 2007, we invested \$36.6 million in capital projects, including \$14.0 million which we consider to be sustaining capital expenditures, \$8.7 million for *Operation Refresh* and \$13.9 million which we consider to be growth related capital expenditures.

		Three months Ended September 30, 2007		Eight months Ended September 30, 2007
Sustaining	\$	13,998	\$	26,175
Operation Refresh		8,730		11,532
Existing network improvements		4,291		10,888
Network expansion/development		9,137		26,592
Acquisition/conversion of operating sites		407		3,800
Total capital expenditures	\$	36,563	\$	78,987

Through September 30, 2007, we have received \$15.5 million of funding for capital improvements from Hospitality Trust. Of the total amount received from Hospitality Trust, \$14.1 million represented reimbursements from Hospitality Trust that did not result in increased rent.

As of September 30, 2007, our commitments and plans for acquisitions, development and redevelopment are substantial, totaling \$340 million. Our acquisition commitments, including planned improvements to currently operating travel centers to be acquired, total \$37 million; our *Operation Refresh* commitments total \$130 million; our unfunded development costs on eight land parcels we now own or have under contract or letter of intent to purchase total \$108 million, including the cost of the parcels not yet owned; our plan to invest in our joint venture to fund the development of a new travel center in Southern California totals \$10 million; and our expected cost of redevelopment of eight older properties totals \$55 million.

On July 3, 2007, we issued 4,868,600 common shares in a public offering, for net proceeds of \$188 million after underwriters discount and commissions and expenses payable by us, and on August 1, 2007, the underwriters partially exercised their over allotment option for an additional 466,490 common shares paying net proceeds to us of \$18 million after underwriters discount and commissions. The net proceeds will be used for general business purposes including funding expansion activities. We expect that these net proceeds will remain invested in short term, interest bearing securities pending these uses.

We anticipate that we will be able to fund our working capital needs and capital expenditures in the next twelve months with funds generated by our operations, our cash balances and from our ability to draw improvement funding under the terms of our leases with Hospitality Trust. Over the longer term, we may seek additional forms of financing, including accessing public capital markets for debt or equity, and the sale and lease

Edgar Filing: TRAVELCENTERS OF AMERICA LLC - Form 10-Q/A

back of travel centers that we own, develop or acquire and entering a credit facility which we are currently negotiating with a large commercial bank. We expect this facility will provide a credit line of approximately \$100 million and be secured by our accounts receivable and inventory.

Summary of Contractual Obligations and Commitments

The following table summarizes our obligations to make future payments under various agreements as of September 30, 2007:

	Total	Payments due by period			
		October 1 through December 31, 2007	2008-2009 (In Millions)	2010-2011	Thereafter
Term debt (1)	\$ 261.3	\$	\$ 261.3	\$	\$
Leases with Hospitality Trust	3,630.4	54.0	442.8	459.8	2,673.8
Other operating leases	152.2	4.9	34.9	30.0	82.4
Employee retention and separation payments	8.8	3.0	5.8		
Acquisitions of properties	23.0	22.1	0.9		
Other long term liabilities	22.5	2.0	7.3	2.9	10.3
Total contractual obligations	\$ 4,098.2	86.0	\$ 753.0	\$ 492.7	\$ 2,766.5

(1) All of our predecessor's debt was repaid in connection with the HPT Transaction. The debt assumed in the Petro Acquisition was defeased and will be fully repaid in February 2008. The amount shown includes the principal of this debt and the prepayment premium. Marketable securities are escrowed to fund the repayment of this debt as well as the prepayment premium and interest that is payable through the expected repayment date.

At September 30, 2007, our primary outstanding trade commitments were letters of credit. We had outstanding \$34.2 million of letters of credit. Until we have established a credit facility, we have secured these letters of credit with cash deposits of \$37.0 million. As of September 30, 2007, we also had commitments to purchase land or operating travel centers for an aggregate of \$23.0 million.

As of September 30, 2007, we had three operating properties under contract for purchase for an aggregate of \$21 million. We completed our acquisition of one of these properties in November 2007, and we expect the remaining acquisitions to close during the fourth quarter of 2007. We expect the total acquisition cost plus the cost of our planned improvements at these three sites will be \$37 million. Although we are currently negotiating or reviewing several additional operating property acquisition opportunities, none of these opportunities are the subject of final contracts as of today.

Off-Balance Sheet Arrangements

As part of the Petro Acquisition, we acquired a 40% interest in a joint venture that owns one travel center that we operate. This travel center is encumbered by mortgage debt of approximately \$10.7 million as of September 30, 2007. We account for the investment in the joint venture on the equity method and, therefore, we have not recorded a liability for this mortgage debt. Petro was not and we are not directly liable for this debt, but the carrying value of our investment in this joint venture could be adversely affected if the joint venture defaulted on this debt and the joint venture's property was sold in foreclosure. We have no other off balance sheet arrangements at September 30, 2007. We expect to invest approximately \$10 million in this joint venture in connection with the plans to develop a new travel center in Southern California.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 30, 2007, we had no obligations for funded debt (other than the covenant defeased notes that we assumed in the Petro Acquisition) and were not directly affected by changes in market interest rates. However, we expect to obtain a revolving credit facility generally secured by our accounts receivable and inventory. We expect that such a line of credit may bear interest for funded amounts at floating rates. We may from time to time consider our exposure to interest rate risks if we have or expect to have material amounts of floating rate obligations, and we may decide to purchase interest rate caps or other hedging instruments.

We are exposed to risks arising from market changes in the availability and price of fuel. Some of these changes may arise from local conditions, such as a malfunction in a particular pipeline or at a particular terminal. However, most of these risks arise from national or international conditions, such as weather related shut downs of oil drilling or refining capacities, political instability in oil producing regions of the world or terrorism. Almost all of these risks are beyond our control. These risks may also arise from changes in the demand for fuel, particularly those changes which result from increases and decreases in economic activities. Because petroleum products are traded in commodity markets, material changes in demand for fuel worldwide, such as the recent increases in fuel demand in India and China, may have a material impact upon the prices we have to pay for fuel.

We attempt to mitigate our exposure to fuel availability and price market risks in four ways. First, we maintain supply contracts and arrangements for diesel fuel with several different suppliers for each of our travel centers; if one supplier has a local problem we may be able to obtain fuel supplies from other suppliers. Second, we maintain modest fuel inventories, generally about three days of fuel sales; modest inventories may mitigate the risk that we sell fuel for less than its cost in the event of rapid price declines. Third, we sell a majority of our diesel fuel at contracted prices determined as cents per gallon above a benchmark which is reflective of the market costs for fuel; by selling on such terms we may be able to maintain our margin per gallon despite changes in the prices we pay for fuel. Finally, we may from time to time purchase or sell futures contracts for fuel, which may partially insulate us from the effects of some price fluctuations.

Item 4. Controls and Procedures

In our Quarterly Report on Form 10-Q for the period ended September 30, 2007, filed on November 13, 2007, we reported that our management carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective. Subsequently, we became aware of a material weakness in our internal control over financial reporting; namely, that we did not maintain effective controls over the accuracy of our accounting for two elements of our lease of our TA branded sites with Hospitality Trust.

This material weakness resulted in this amendment to our Quarterly Report on Form 10-Q/A for the period ended September 30, 2007, in order to restate the financial statements for the period ended September 30, 2007. Solely as a result of this material weakness, our management has revised its earlier conclusion and has now concluded that our disclosure controls and procedures were not effective as of September 30, 2007.

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2007, that materially affected, or were reasonably likely to materially affect, our internal control over financial reporting.

As of March 31, 2008, our management had implemented new control procedures to reduce the possibility that our future financial reporting may not reflect GAAP with regard to lease accounting. As a result of these new procedures we have concluded that we maintain effective control over the accuracy of our accounting for leases as of that date.

Warning concerning forward looking statements

THIS QUARTERLY REPORT ON FORM 10-Q/A CONTAINS STATEMENTS WHICH CONSTITUTE FORWARD LOOKING STATEMENTS WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 AND OTHER FEDERAL SECURITIES LAWS. ALSO, WHENEVER WE USE WORDS SUCH AS BELIEVE , EXPECT , ANTICIPATE , INTEND , ESTIMATE OR SIMILAR EXPRESSIONS, WE ARE MAKING FORWARD LOOKING STATEMENTS. THESE FORWARD LOOKING STATEMENTS ARE BASED UPON OUR PRESENT INTENT, BELIEFS OR EXPECTATIONS, BUT FORWARD LOOKING STATEMENTS ARE NOT GUARANTEED TO OCCUR AND MAY NOT OCCUR. ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE CONTAINED IN OR IMPLIED BY OUR FORWARD LOOKING STATEMENTS AS A RESULT OF VARIOUS FACTORS. AMONG OTHERS, THE FORWARD LOOKING STATEMENTS WHICH APPEAR IN THIS QUARTERLY REPORT ON FORM 10-Q/A THAT MAY NOT OCCUR INCLUDE:

- WE MAY BE UNABLE TO SUCCESSFULLY EXECUTE OUR BUSINESS PLAN TO ACQUIRE NEW SITES AND ENGAGE IN OTHER EXPANSION ACTIVITIES;
- WE MAY BE UNABLE TO SECURE A WORKING CAPITAL LINE OF CREDIT FOR \$100 MILLION OR FOR ANY AMOUNT;
- WE MAY BE UNABLE TO MANAGE OUR STAFF REORGANIZATION EFFECTIVELY AND ACHIEVE OUR CONTEMPLATED SAVINGS;
- WE MAY BE UNABLE TO DEVELOP OR OPERATE SITES WE PURCHASE AS PROFITABLE TRAVEL CENTERS AT ANY PARTICULAR TIME OR AT ALL;
- THE CAPITAL REQUIRED TO FUND OUR OPERATION REFRESH AND THE ACQUISITION AND IMPROVEMENT OF THE SITES WE EXPECT TO PURCHASE, DEVELOP OR REDEVELOP MAY EXCEED OUR EXPECTATIONS. IN ADDITION, THESE ACTIVITIES ARE SUBJECT TO VARIOUS CONDITIONS TO CLOSING, ZONING, PERMITTING AND/OR THIRD PARTY APPROVALS; THESE CONDITIONS OR APPROVALS MAY NOT BE SATISFIED OR OBTAINED AND THESE ACTIVITIES MAY NOT OCCUR ON THE TERMS OR TIMING WE NOW EXPECT OR MAY NOT OCCUR AT ALL;
- OUR ENVIRONMENTAL LIABILITY MAY BE GREATER THAN WE CURRENTLY ANTICIPATE; AND
- WE MAY BE UNABLE TO SETTLE OR PREVAIL IN THE PENDING LITIGATION MATTERS FOR AMOUNTS WHICH DO NOT HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS.

RESULTS WHICH DIFFER FROM THOSE STATED OR IMPLIED BY OUR FORWARD LOOKING STATEMENTS MAY BE CAUSED BY VARIOUS CHANGES IN OUR BUSINESS OR MARKET CONDITIONS, INCLUDING SOME WHICH ARE BEYOND OUR CONTROL. OTHER RISKS MAY ADVERSELY IMPACT US, AS DESCRIBED MORE FULLY IN OUR ANNUAL REPORT ON FORM 10-K FOR THE YEAR ENDED DECEMBER 31, 2006 UNDER ITEM 1A. RISK FACTORS.

YOU SHOULD NOT PLACE UNDUE RELIANCE UPON FORWARD LOOKING STATEMENTS. EXCEPT AS REQUIRED BY LAW, WE UNDERTAKE NO OBLIGATION TO UPDATE OR REVISE ANY FORWARD LOOKING STATEMENT AS A RESULT OF NEW INFORMATION, FUTURE EVENTS OR OTHERWISE.

Part II. Other Information

Item 1. Legal Proceedings

There have been no material changes during the period covered by this Quarterly Report on Form 10-Q/A to the legal proceedings previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2006 and our prospectus dated June 28, 2007. For more information about our pending legal proceedings, please see the description of pending litigation in footnote 14 to our unaudited consolidated financial statements for the period ended September 30, 2007 included elsewhere in this Quarterly Report on Form 10-Q/A.

Item 1A. Risk Factors

There have been no material changes during the period covered by this Quarterly Report on Form 10-Q/A to the risk factors previously disclosed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006 and our prospectus dated June 28, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On August 20, 2007, we granted 1,500 common shares, valued at \$33.32 per share, the closing price of our common shares on the American Stock Exchange on that day, to each of our five directors as part of their annual compensation. On September 18, 2007, we granted 1,500 common shares, valued at \$33.90 per share, the closing price of our common shares on the American Stock Exchange on that day, to our Director of Internal Audit as part of his annual compensation. We made these grants pursuant to the exemption from registration contained in Section 4(2) of the Securities Act of 1933, as amended.

Item 6. Exhibits

Exhibit 31.1 Rule 13a-14(a)/15d-14(a) Certification of Chief Executive Officer (filed herewith)

Exhibit 31.2 Rule 13a-14(a)/15d-14(a) Certification of Chief Financial Officer (filed herewith)

Exhibit 32.1 Section 1350 Certification of Chief Executive Officer and Chief Financial Officer (furnished herewith)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
