(Zip Code)

Registrant's telephone number, including area code: **(303) 987-8000**

Check whether the Issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act, during the past 12 months and (2) has been subject to the filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of the chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer   
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

State the number of shares outstanding of each of the Issuer's classes of common stock, as of the latest practicable date:

There were 3,291,093 shares of the Issuer's common stock, no par value, outstanding as of January 31, 2012.

Supplemental disclosure of non-cash activity:

In December 2011, we settled the \$600 holdback amount from our acquisition of the assets of Apex Laboratories by paying \$562 and returning \$38 of accounts receivable.

The Company issued employee loans totaling \$235 and \$394 for the exercise of stock options during the nine month periods ended December 31, 2011 and 2010, respectively. Loans of \$301 were retired in the nine month periods ended December 31, 2011.

Table of Contents

**MESA LABORATORIES, INC. NOTES TO CONDENSED FINANCIAL STATEMENTS**

**1. Summary of Accounting Policies**

The summary of the Issuer's significant accounting policies are incorporated by reference to the Company's annual report on Form 10-K, at March 31, 2011.

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles for interim financial information and with the instructions to Form 10-Q, and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the financial position, results of operations and cash flows. The results of the interim period are not necessarily indicative of the results for the full year.

**Recently Adopted Accounting Pronouncements**

In January 2010, the FASB updated the disclosure requirements for fair value measurements, codified in ASC Topic 820, *Fair Value Measurements and Disclosure*. The updated guidance requires companies to disclose separately the investments that transfer in and out of Levels 1 and 2 and the reasons for those transfers. Additionally, in the reconciliation for fair value measurement using significant unobservable inputs (Level 3), companies should present separately information about purchases, sales, issuances and settlements. We adopted the updated guidance on April 1, 2010, except for the disclosures about purchases, sales, issuances and settlements in the Level 3 reconciliation, which became effective for us beginning April 1, 2011. The adoption of the required guidance did not have an impact on our financial statements.

In July 2010, FASB issued a new pronouncement that requires enhanced disclosures regarding the nature of credit risk inherent in an entity's portfolio of financing receivables, how that risk is analyzed, and the changes and reasons for those changes in the allowance for credit losses. The new disclosures will require information for both the financing receivables and the related allowance for credit losses at more disaggregated levels. Disclosures related to information as of the end of a reporting period became effective for Mesa in the fourth quarter of Fiscal 2011. Specific disclosures regarding activities that occur during a reporting period, such as the disaggregated roll forward disclosures, became required for Mesa beginning in the first quarter of Fiscal 2012. As these changes only relate to disclosures, they did not have an impact on Mesa's financial results.

In September 2011, the FASB issued ASC 2011-8 *Intangibles - Goodwill and Other*. The amended guidance will allow companies to first assess qualitative factors to determine if it is necessary to perform the two-step quantitative goodwill impairment test. Under these amendments, the Company would not be required to determine the fair value of the reporting unit, unless it determines, on a qualitative basis, that it is more likely than not that the fair value of the reporting unit is less than the carrying value. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The Company does not anticipate any material impact from the adoption of this amended guidance.

**2. Inventories**

(Dollars in thousands)	December 31, 2011		March 31, 2011	
Raw materials	\$	3,722	\$	4,387
Work-in-process		589		337
Finished goods		1,020		1,280
Less: reserve		(474)		(290)
	\$	4,857	\$	5,714

**3. Intangibles**

On September 30, 2011, the Company entered into a license agreement with Photonic Biosystems, Inc. for certain biological indicator technology. Under the terms of this agreement, in October 2011 the Company made an initial payment of \$150,000 for rights to the technology. An additional payment of \$25,000 was due by the end of January

Table of Contents

2012, and up to \$225,000 of additional payments may be made in the future, depending on meeting certain development and performance milestones. The \$150,000, included in intangible assets on the condensed balance sheet at December 31, 2011, is being amortized over ten years. In addition, sales of products covered by this license agreement will be subject to royalty payments.

#### 4. Stock-based Compensation

Stock-based compensation costs for award grants to employees and directors are valued at fair value and recognized on a straight line basis over the service periods of each award. We estimate forfeiture rates for the year based on historical experience. Amounts recognized in the condensed financial statements related to stock-based compensation are as follows:

(Dollars in thousands except earnings per share)	Three months ended		Nine months ended	
	December 31,		December 31,	
	2011	2010	2011	2010
Total cost of stock-based compensation charged against income before income taxes	\$ 112	\$ 125	\$ 339	\$ 287
Amount of income tax benefit recognized in earnings	41	46	124	109
Amount charged against net income	\$ 71	\$ 79	\$ 215	\$ 178
Impact on net income per common share:				
Basic	\$ 0.02	\$ 0.02	\$ 0.07	\$ 0.06
Diluted	\$ 0.02	\$ 0.02	\$ 0.06	\$ 0.05

Stock-based compensation expense is included in cost of revenues, and general and administrative expense in the condensed statements of income.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model (Black-Scholes). We use historical data to estimate the expected price volatility, the expected option life and expected forfeiture rate. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for the estimated life of the option. The dividend yield is calculated based upon the dividend payments made during the prior four quarters as a percent of the average stock price for that period. The following summarizes the Black-Scholes assumptions:

	Nine months ended December 31,	
	2011	2010
Volatility	33.4-33.7%	33.8-36.1%
Risk-free interest rate	0.9-2.2%	1.1-3.9%
Expected option life (years)	5-10	5-10
Dividend yield	1.8%	1.8%

The following summarizes option activity:

Edgar Filing: MESA LABORATORIES INC /CO - Form 10-Q

	Number of Shares	Weighted- average Exercise Price per Share	Weighted- average Remaining Contractual Term	Aggregate Intrinsic Value (000)
Outstanding at March 31, 2011	443,642	\$ 20.10	4.0	
Options granted	103,780	29.87	4.9	
Options forfeited	(8,650)	26.51		
Options expired	(1,020)	14.91		
Options exercised	(54,062)	17.52		
Outstanding at December 31, 2011	483,690	22.39	3.9	\$ 9,216
Exercisable at December 31, 2011	187,425	19.29	3.0	\$ 4,154

Table of Contents

The Company issues new shares of common stock upon exercise of stock options. The total intrinsic value of options exercised was \$738,000 and \$624,000 during the nine month periods ended December 31, 2011 and 2010, respectively.

A summary of the status of our unvested option shares as of December 31, 2011 is as follows:

	Number of Shares	Weighted- average Grant-Date Fair Value
Unvested at March 31, 2011	291,425	\$ 6.46
Options granted	103,780	8.33
Options forfeited	(8,255)	7.36
Options vested	(90,685)	6.04
Unvested at December 31, 2011	296,265	7.22

As of December 31, 2011, there was approximately \$1,260,000 of total unrecognized compensation cost related to unvested stock options granted under our plans, which is expected to be recognized over a weighted-average period of 2.3 years.

**5. Net Income Per Common Share**

Basic net income per common share is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted net income per common share uses the treasury stock method to compute the weighted average common stock outstanding assuming the conversion of potentially dilutive common shares.

The following table presents a reconciliation of the denominators used in the computation of net income per common share - basic and diluted:

(Amounts in thousands except earnings per share)	Three Months Ended December 31,		Nine Months Ended December 31,	
	2011	2010	2011	2010
Net income available for shareholders	\$ 1,987	\$ 1,258	\$ 5,720	\$ 4,006
Weighted average outstanding shares of common stock	3,286	3,234	3,280	3,226
Dilutive effect of stock options	212	121	174	90
Common stock and equivalents	3,498	3,355	3,454	3,316
Earnings per share:				
Basic	\$ 0.60	\$ 0.39	\$ 1.74	\$ 1.24
Diluted	\$ 0.57	\$ 0.37	\$ 1.66	\$ 1.21

Edgar Filing: MESA LABORATORIES INC /CO - Form 10-Q

For the three and nine months ended December 31, 2011 and 2010, no shares and no outstanding stock options were excluded from the calculation of diluted earnings per share because the exercise prices of the stock options were greater than or equal to the average price of the common shares and, therefore, their inclusion would have been anti-dilutive.

Table of Contents**6. Debt**

(Dollars in thousands)	December 31, 2011	March 31, 2011
Reducing line of credit	\$ 1,750	\$ 2,500
Revolving line of credit		4,000
	1,750	6,500
Less: current portion	1,000	5,000
Long-term portion	\$ 750	\$ 1,500

To help finance the acquisition of Apex Laboratories, Inc., SGM Biotech, Inc., and the related building that houses the SGM Biotech facility, the Company entered into a credit facility consisting of: a) 36 month reducing line of credit for \$3,000,000 and maturing at April 27, 2013, requiring quarterly principal payments of \$250,000 beginning July 27, 2010. In December 2010, the bank deferred the January 27, 2011 payment of \$250,000 until maturity at April 27, 2013, which allowed the Company to complete the acquisition of Apex Laboratories, Inc. without further alteration of its existing credit facility; and b) revolving line of credit for \$4,000,000 maturing on December 23, 2011, which was retired in December 2011. Both of these lines of credit are subject to a variable rate of interest and a rate floor, both of which were 3.25% at December 31, 2011. The remaining line of credit requires monthly interest payments, is subject to restrictive covenants and is secured by most of the assets of the Company. The Company was in compliance with the restrictive covenants as of December 31, 2011.

Future maturities of debt are as follows (dollars in thousands):

2012	\$	250
2013		1,000
2014		500
	\$	1,750

**7. Related Party Transactions**

On April 30, 2010, the Company purchased the building housing the facilities of SGM Biotech, Inc. for \$2,150,000 from Surreal, LLC. Surreal, LLC is owned by the former owners of SGM Biotech, Inc., who became employees of the Company when SGM Biotech was acquired on April 27, 2010.

**8. Contingencies**

During the third quarter of fiscal 2012, the Company determined that it has a potential liability for state sales taxes. The ultimate amount due will depend on a number of factors, including the jurisdictional tax rates (ranging from 7.25-9.75%), the amount of sales to customers who already paid the tax or are exempt, and any penalties and interest. The Company has recorded an estimate of \$250,000 as taxes payable on the condensed balance sheet, and general and administrative expense in the condensed statements of income. This estimate may change as further

analysis is completed and sales tax returns are filed. Management believes that this matter, after consideration of amounts accrued, will not have a material adverse effect on our results of operations, financial position or cash flows.

**9. Subsequent Events**

On February 8, 2012, the Company's Board of Directors declared a quarterly cash dividend of \$0.13 per share of common stock, payable on March 15, 2012, to shareholders of record at the close of business on February 27, 2012.

Table of Contents**10. Segment Data**

Our operations are organized into two reporting segments: Biological Indicators and Instrumentation Products. The following tables set forth our segment information:

(Dollars in thousands)	Biological Indicators	Instrumentation Products	Total
<b>Three months ended December 31, 2011</b>

	\$ 9,259	\$ 7,652	\$ 27,438	\$ 22,861

All long-lived assets are located in the United States.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Overview**

Mesa Laboratories, Inc. has two segments. Our Instrument Division manufactures and markets quality control instruments and disposable products utilized in connection with the healthcare, pharmaceutical, food and beverage, medical device, and petrochemical industries. Our Biological Indicators Division manufactures and markets biological indicators and distributes chemical indicators used to assess the effectiveness of sterilization processes in the hospital, dental, medical device and pharmaceutical industries. Our Company follows a philosophy of manufacturing a high quality product and providing a high level of on-going service for those products.

Our revenues come from two main sources—products sales, and parts and services. Product sales are dependent on several factors, including general economic conditions, both domestic and international, customer capital spending trends, competition, introduction of new products, and acquisitions. Biological indicator products are disposable and are used on a routine basis for quality control, thus product sales are less sensitive to general economic conditions. Instrumentation products have a longer life, and their purchase by our customers is somewhat discretionary, so sales are more sensitive to general economic conditions. Parts and service demand is driven by our customers' quality control and regulatory environments, which require periodic repair and recalibration or certification of our instrumentation products. We typically evaluate costs and pricing annually. Our policy is to price our products competitively and, where possible, we try to pass along cost increases in order to maintain our margins, where possible. As part of the integration of our biological indicator acquisitions we have been adjusting prices to achieve price parity for similar products.

Gross profit is affected by our product mix, manufacturing efficiencies and price competition. The biological indicator market is more competitive than that for our instrumentation products, thus the gross margin percentages are lower. Generally, an increase in biological indicator product sales compared to instrumentation product sales would result in a lower overall gross margin. Cost of revenue and gross profit also include an allocation of the amortization of acquired intangibles, which mostly affect the biological indicator results.

Selling expense is driven primarily by labor costs, including salaries and commissions. Accordingly, they may vary with sales levels. Labor costs and amortization of intangible assets drive 70-80% of general and administrative expense. Research and development expense is predominantly comprised of labor costs.

**Discussion of Key Indicators and Trends**

Acquisitions in December 2010, April 2010 and December 2009, impacted our current assets and working capital, as we used available cash and incurred debt to complete those transactions. During the nine months ended December 31, 2010, we were still integrating these acquisitions, which impacted the key indicators. The results for the nine months ended December 31, 2011, reflect our successful integration of these acquisitions - performance ratios (gross margin, operating margin and net profit margin) are at or near the same levels as 2009 and 2008. Revenues, gross profit and net income have all increased due to having a full nine months of operations from the acquisitions, successfully integrating the acquisitions, and organic growth. The decrease in revenues and profit indicators in 2009 was primarily attributable to poor general economic conditions.

Table of Contents

(Dollars in thousands except earnings per share)	Key Financial Indicators			
	As of and for the Nine Months Ended December 31,			
	2011	2010	2009	2008
Cash and Investments	\$ 5,691	\$ 2,129	\$ 9,940	\$ 7,962
Trade Receivables Gross	\$ 6,396	\$ 5,605	\$ 3,816	\$ 4,525

Current Ratio	4:1	2:1	11:1	13:1
Average Return On:				
Stockholder Investments (2)	20%	16%	16%	19%
Assets	15%	13%	15%	18%
Invested Capital (3)	20%	18%	23%	26%
Revenues	\$ 27,438	\$ 22,861	\$ 15,702	\$ 16,071
Gross Profit	\$ 17,047	\$ 13,373	\$ 9,593	\$ 10,285
Gross Margin	62%	58%	61%	64%
Operating Income	\$ 9,141	\$ 6,538	\$ 5,400	\$ 5,515
Operating Margin	33%	29%	34%	34%
Net Income	\$ 5,720	\$ 4,006	\$ 3,424	\$ 3,586
Net Profit Margin	21%	18%	22%	22%
Earnings Per Diluted Share	\$ 1.66	\$ 1.21	\$ 1.04	\$ 1.11
Earnings Before Income Tax, Depreciation and Amortization	\$ 10,647	\$ 7,758	\$ 5,963	\$ 6,175
Capital Expenditures, Net	\$ 545	\$ 2,578	\$ 488	\$ 506
Employees	186	172	113	110
Revenues Per Employee (Annualized)	\$ 197	\$ 177	\$ 185	\$ 195

(1) Days revenues outstanding is based on specific Revenues in that period, not average Revenues for the 9 months.

(2) Average return on stockholder investment is calculated by dividing total annualized net income by the average of end and beginning of period total stockholder's equity.

(3) Average return on invested capital (invested capital = total assets - current liabilities - cash and cash equivalents) is calculated by dividing total annualized net income by the average of end and beginning of period invested capital.

**Reconciliation of Non-GAAP Measure**

Earnings before income tax, depreciation and amortization is used by management as a supplemental performance and liquidity measure, primarily to assess financial performance without regard to historical cost basis, the ability of our assets to generate cash, and the evaluation of potential acquisitions.

Table of Contents

Earnings before income tax, depreciation and amortization should not be considered an alternative to, or more meaningful than, net income, operating income, cash flow from operating activities or any other measure of financial performance presented in accordance with GAAP as measures of operating performance or liquidity.

The following table sets forth our reconciliation of Earnings before income tax, depreciation and amortization, a non-GAAP measure:

(Dollars in thousands)	For the Nine Months Ended December 31,			
	2011	2010	2009	2008
Net income	\$ 5,720	\$ 4,006	\$ 3,424	\$ 3,586

**Revenues**

The following table summarizes our revenues by source:

(Dollars in Thousands)		For the Three Months Ended December 31,				For the Nine Months Ended December 31,			
		2011	2010	2011	2010	2011	2010	2011	2010
Biological Indicators	Product	\$ 4,646	\$ 3,729	\$ 14,271	\$ 11,081				
Instruments:									
	Product	3,047	2,495	8,361	7,454				
	Parts and disposables	682	621	2,061	1,819				
	Service	884	807	2,745	2,507				
Total		\$ 9,259	\$ 7,652	\$ 27,438	\$ 22,861				

Biological indicator product sales increased approximately \$917,000 and \$3,190,000, respectively, for the three and nine month periods ended December 31, 2011, compared to the prior year. An asset acquisition in December 2010, contributed approximately \$610,000 and \$1,780,000, respectively, to the three and nine month revenue growth. The remaining revenue growth was driven by organic growth.

Instrumentation revenues increased approximately \$690,000 and \$1,390,000, respectively, for the three and nine month periods ended December 31, 2011, compared to the prior year. \$200,000 of the increase related to sales to a single customer, while the rest of the increase is due to customers upgrading or expanding as economic uncertainties lessened.

Table of Contents

***Cost of Revenues / Gross Profit***

Gross profit for instrumentation increased approximately \$970,000 and \$1,890,000, respectively, for the three and nine month periods ended December 31, 2011, compared to the prior year. These improvements were driven by relatively flat fixed costs with increased sales volumes, coupled with manufacturing efficiencies. We also integrated manufacturing one product line from a third party to our facility in December 2010, which contributed an additional gross profit of approximately \$285,000 and \$450,000, respectively, for the three and nine month periods.

Biological indicator gross profit increased approximately \$470,000 and \$1,780,000, respectively, for the three and nine month periods ended December 31, 2011, compared to the prior year. This increase was due almost entirely to revenue growth, as gross margin percentage remained relatively consistent between periods.

***Operating Expenses***

Selling expenses increased approximately \$50,000 and \$295,000, respectively, for the three and nine month periods ended December 31, 2011, compared to the prior year. Selling expenses for biological indicator products decreased during the three months, due primarily to successfully integrating the SGM Biotech acquisition. Biological indicator selling expense was higher, however, for the nine month period. As a percent of sales, biological indicator selling expense decreased for both the three and nine month periods. Instrumentation selling expense as a percent of sales remained relatively flat, but increased overall for both periods due to higher commissions and adding individuals to the sales force.

General and administrative expense increased approximately \$290,000 and \$680,000, respectively, for the three and nine month periods ended December 31, 2011, compared to the prior year. The increase for the three month period relates primarily to a \$250,000 contingent liability for estimated state sales taxes, along with increased labor costs. The increase for the nine month period includes the estimated state sales tax liability, as well as approximately \$260,000 in labor costs for additional personnel and salary adjustments. Amortization of intangible assets increased approximately \$66,000 and \$300,000, respectively, for the three and nine month periods. These increases were offset by non-recurring costs associated with acquisitions in the prior year.

Research and development expense decreased approximately \$50,000 for the three months, and increased approximately \$100,000 for the nine month periods ended December 31, 2011, compared to the prior year. These changes were primarily due to the timing of work performed by third parties.

***Net Income***

Net income varied consistently with the growth in revenues and gross profit, as we managed our other expenses and income tax expense increased commensurate with our growth in profitability.

**Liquidity and Capital Resources**

Our sources of liquidity may include cash generated from operations, working capital, and potential equity and debt offerings. Our more significant uses of resources include quarterly dividends to shareholders, payment of debt obligations, long-term capital equipment expenditures and potential acquisitions. We believe that cash generated from these sources will be sufficient to meet our short-term and long-term needs.

Our Company invests its surplus capital in various interest bearing instruments, including money market funds. All investments are fixed dollar investments with variable rates in order to minimize the risk of principal loss.

In April 2010, we entered into a \$7,000,000 debt agreement to partially finance our acquisition of SGM Biotech. The \$3,000,000 reducing line of credit portion has \$1,750,000 outstanding at December 31, 2011, payable in quarterly installments of \$250,000, plus interest. The \$4,000,000 revolving line of credit portion was retired in December 2011.

Table of Contents

We routinely evaluate opportunities for strategic acquisitions. Future material acquisitions may require that we obtain additional capital, assume third party debt or incur other long-term obligations. We have the option to utilize both equity and debt instruments as vehicles for the long-term financing of our investment activities and acquisitions.

Our Board of Directors has authorized a program to repurchase up to 300,000 shares of our outstanding common stock. Under the plan, the shares may be purchased from time to time in the open market at prevailing prices or in negotiated transactions off the market. Shares purchased will be canceled and repurchases will be made with existing cash reserves. We do not maintain a set policy or schedule for our buyback program, but currently we are minimizing buybacks.

On November 12, 2003 our Board of Directors instituted a policy of paying regular quarterly dividends. We paid dividends of approximately \$1,200,000 and \$1,100,000, respectively, during the nine month periods ended December 31, 2011 and 2010. Dividends per share paid by quarter were as follows:

	Fiscal Year			
	2012		2011	
Third quarter	\$	0.13	\$	0.12
Second quarter	\$	0.12	\$	0.11
First quarter	\$	0.12	\$	0.11

On February 8, 2012, the Company's Board of Directors declared a quarterly cash dividend of \$0.13 per share of common stock, payable on March 15, 2012, to shareholders of record at the close of business on February 27, 2012.

Working capital is the amount by which current assets exceed current liabilities. We had working capital of approximately \$12,800,000 and \$5,700,000, respectively, at December 31, 2011, and March 31, 2011. The increase is principally driven by increased revenues and the resulting increase in cash flows from operations, offset by debt payments of \$4,750,000 and dividends of approximately \$1,200,000.

At December 31, 2011 we had contractual obligations for open purchase orders for routine purchases of supplies and inventory, which would be payable in less than one year. In September 2011, the Company entered into a license agreement for certain biological indicator technology. Under the terms of this agreement, in October 2011 the Company made an initial payment of \$150,000 for rights to the technology. An additional payment of \$25,000 is due by the end of January 2012, and up to \$225,000 of additional payments may be made in the future, depending on meeting certain development and performance milestones. The initial \$150,000 payment is being amortized over ten years. In addition, sales of products covered by this license agreement will be subject to royalty payments.

**Forward Looking Statements**

All statements other than statements of historical fact included in this quarterly report regarding our Company's financial position and operating and strategic initiatives and addressing industry developments are forward-looking statements. Where, in any forward-looking statement, the Company, or its management, expresses an expectation or belief as to future results, such expectation or belief is expressed in good faith and

believed to have a reasonable basis, but there can be no assurance that the statement of expectation or belief will result or be achieved or accomplished. Factors which could cause actual results to differ materially from those anticipated, include but are not limited to general economic, financial and business conditions; competition in the data logging market; competition in the kidney dialysis market; competition in the fluid measurement market; competition in the biological indicator market; competition in the bottlecap torque testing market; the business abilities and judgment of personnel; the impacts of unusual items resulting from ongoing evaluations of business strategies; and changes in business strategy. We do not intend to update these forward looking statements. You are advised to review Item 1A. Risk Factors provided in our Company's most recent Form 10-K filing with the SEC for more information about risks that could affect the financial results of Mesa Laboratories, Inc.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to a variety of market risks, currently all investments are in dollar denominated accounts, such as money market funds, with variable interest rates. In the normal course of business, we employ established policies and procedures to manage our exposure to changes in the market value of our investments.

Table of Contents

**ITEM 4T. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) that are designed to reasonably ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive and Chief Financial Officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Our management evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered in this quarterly report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of such period to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that material information relating to our company is made known to management, including our Chief Executive Officer and Chief Financial Officer, particularly during the period when our periodic reports are being prepared.

**Changes in Internal Control Over Financial Reporting**

There was no change in our internal control over financial reporting that occurred during our third quarter ended December 31, 2011 that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

None.

**ITEM 1A. RISK FACTORS**

## Edgar Filing: MESA LABORATORIES INC /CO - Form 10-Q

We are affected by risks specific to us as well as factors that affect all businesses operating in a global market. The significant factors known to us that could materially adversely affect our business, financial condition or operating results are described in our annual report on Form 10-K for the fiscal year ended March 31, 2011 under the heading Part I Item 1A. Risk Factors. There has been no material change in those risk factors.

Table of Contents

**ITEM 2. CHANGES IN SECURITIES, USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES**

We made the following repurchases of our common stock, by month, within the third quarter of the fiscal year covered by this report.

	Shares Purchased	Avg. Price Paid	Total Shares Purchased as Part of Publicly Announced Plan	Remaining Shares to Purchase Under Plan
October 2011	625	\$ 35.21	144,394	155,606
November 2011	190	39.00	144,584	155,416
December 2011				
Total 3rd Quarter	815	\$ 36.10		

On November 7, 2005, the Board of Directors of Mesa Laboratories, Inc. adopted a share repurchase plan which allows for the repurchase of up to 300,000 of the company's common shares. This plan will continue until the maximum is reached or the plan is terminated by further action of the Board.

**PART III. EXHIBITS AND SIGNATURES**

**ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K**

a) Exhibits:

- 31.1 Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of Chief Executive Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of Chief Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 101 The following financial information from the quarterly report on Form 10-Q of Mesa Laboratories, Inc. for the quarter ended December 31, 2011, formatted in XBRL (eXtensible Business Reporting Language): (i) Condensed Statements of Operations, (ii) Condensed Balance Sheets, (iii) Condensed Statements of Cash Flows, and (v) Notes to the Condensed Financial Statements.

b) Reports on Form 8-K:

On October 7, 2011, the Registrant filed a Report on Form 8-K, under Item 8.01, reporting notification from the Staff at Nasdaq regarding a non-independent director serving on the Nominating Committee and the resolution of this matter effective September 21, 2011.

On November 9, 2011, the Registrant filed a Report on Form 8-K, under item 2.02, reporting the issuance of a press release reporting revenues and earnings for the second fiscal quarter ended September 30, 2011.

On December 1, 2011, the Registrant filed a Report on Form 8-K, under item 5.02, reporting that Mesa entered into severance agreements with its executive officers.
