CONSOLIDATED GRAPHICS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share and per share data and percentages)

(Unaudited)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited condensed consolidated financial statements include the accounts of Consolidated Graphics, Inc. (collectively with its consolidated subsidiaries, the Company). All intercompany accounts and transactions have been eliminated. Such statements have been prepared in accordance with United States generally accepted accounting principles and the Securities and Exchange Commission's (SEC) rules and regulations for reporting interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the accompanying unaudited condensed consolidated financial statements have been included. Operating results for the six months ended September 30, 2012 are not necessarily indicative of future operating results. Balance sheet information as of March 31, 2012 has been derived from the Company's most recent annual audited consolidated financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2012 (2012 Form 10-K).

Use of Estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the use of certain estimates and assumptions by management in determining the reported amounts of assets and liabilities, disclosure of contingent liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including depreciation of property and equipment and amortization or impairment of intangible assets. The Company evaluates its estimates and assumptions on an ongoing basis and relies on historical experience and various other factors that it believes to be reasonable under the circumstances to determine such estimates. Because uncertainties with respect to estimates and assumptions are inherent in the preparation of financial statements, actual results could differ from these estimates.

Reclassifications Certain reclassifications of prior period data have been made to conform to the current period reporting.

Cash and Cash Equivalents The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents. Pursuant to the Company's cash management system, the Company deposits cash into its bank accounts as checks written by the Company are presented to the bank for payment. Checks issued by the Company but not presented to the bank for payment are included in accounts payable and totaled \$46,365 as of September 30, 2012 and \$42,993 as of March 31, 2012.

Revenue Recognition and Accounts Receivable The Company primarily recognizes revenue upon delivery of the printed product to the customer. In the case of customer fulfillment arrangements, including multiple deliverables of printing services and distribution services, revenue relating to the printed product is recognized upon the delivery of the printed product into the Company's fulfillment warehouses, and invoicing of the customer for the product at an agreed price. Revenue from distribution services is recognized when the services are provided.

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

Because printed products manufactured for the Company's customers are customized based upon the customer's specifications, product returns are not significant. Revenue is recognized net of sales taxes. The Company derives the majority of its revenues from sales and services to a broad and diverse group of customers with no individual customer accounting for more than 6% of the Company's revenues for the six months ended September 30, 2012. The Company maintains an allowance for doubtful accounts based upon its evaluation of aging of receivables, historical experience and the current economic environment. Accounts receivable in the accompanying condensed consolidated balance sheets are reflected net of allowance for doubtful accounts of \$3,473 and \$3,246 at September 30, 2012 and March 31, 2012, respectively.

Table of Contents**CONSOLIDATED GRAPHICS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(In thousands, except share and per share data and percentages)****(Unaudited)**

Inventories Inventories are valued at the lower of cost or market utilizing the first-in, first-out method for raw materials and the specific identification method for work in progress and finished goods. Raw materials consist of paper, ink, proofing materials, plates, boxes and other general supplies. Inventory values include the cost of purchased raw materials, labor and overhead. The carrying values of inventories are set forth below:

	September 30, 2012		March 31, 2012
Raw materials	\$ 25,601	\$	24,565
Work in progress	25,337		21,345
Finished goods	8,278		8,219
	\$ 59,216	\$	54,129

Goodwill and Long-Lived Assets Goodwill totaled \$25,072 at September 30, 2012 and represents the excess of the Company's purchase cost over the fair value of the net identifiable assets acquired, net of previously recorded amortization and impairment charges. Each of the Company's printing businesses is separately evaluated for goodwill impairment because they comprise individual reporting units. The Company evaluates goodwill for impairment at the end of each fiscal year, or at any time that management becomes aware of an indication of impairment.

Under the applicable accounting standards, the Company first assesses qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of the events or circumstances, the Company determines it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then the Company is required to perform the first step of the two-step impairment test. The first step, used to identify potential impairment, involves comparing each reporting unit's estimated fair value to its carrying value including goodwill. The Company estimates the fair value for each reporting unit using trailing twelve months earnings before interest, income taxes and depreciation and amortization (EBITDA) multiplied by management's estimate of an appropriate enterprise value-to-EBITDA multiple for each reporting unit, adjusted for a control premium. Management's total Company enterprise value-to-EBITDA multiple is based upon the multiple derived from using the market capitalization of the Company's common stock on or around the applicable balance sheet date, after considering an appropriate control premium (25% at March 31, 2012, based upon historical transactions in the printing industry). If the fair value of a reporting unit exceeds its carrying value, applicable goodwill is considered not to be impaired. If the carrying value exceeds fair value, there is an indication of impairment and the second step is performed to measure the amount of impairment. The second step involves calculating an implied fair value of goodwill for each reporting unit for which the first step indicated potential impairment. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination, which is the excess of the fair value of the reporting unit, as determined in the first step, over the aggregate fair values of the individual assets, liabilities and identifiable intangible assets as if the reporting unit was being acquired in a business combination. If the implied fair value of goodwill in the proforma business combination accounting described above exceeds the goodwill assigned to the reporting unit, there is no impairment. If the goodwill assigned to a reporting unit exceeds the implied fair value of the goodwill, an impairment charge is recorded for the excess. A recognized impairment loss cannot exceed the amount of goodwill assigned to a reporting unit, and the loss establishes a new basis in the goodwill. Subsequent reversal of goodwill impairment losses is not permitted.

The Company compares the carrying value of long-lived assets, including property, plant and equipment and intangible assets (other than goodwill or intangible assets with indefinite lives), to projections of future undiscounted cash flows attributable to such assets whenever events or changes in conditions indicate the carrying value may not be recoverable. In the event that the carrying value of any long-lived asset exceeds the projection of future undiscounted cash flows attributable to such asset, the Company records an impairment charge against income equal to the excess, if any, of the carrying value over the asset's fair value. Property and equipment in the accompanying condensed consolidated balance sheets are reflected net of accumulated depreciation of \$492,435 and \$463,649 at September 30, 2012 and March 31, 2012, respectively.

Table of Contents**CONSOLIDATED GRAPHICS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(In thousands, except share and per share data and percentages)****(Unaudited)**

The net book value of other intangible assets at September 30, 2012 was \$13,900. Other intangible assets consist primarily of the value assigned to such items as customer lists and trade names in connection with the allocation of purchase price for acquisitions and are generally amortized on a straight-line basis over periods of between 5 and 25 years. Such assets are evaluated for recoverability with other long-lived assets as discussed above. Amortization expense totaled \$898 and \$901 for the three months ended September 30, 2012 and 2011, respectively. Amortization expense totaled \$1,792 and \$1,804 for the six months ended September 30, 2012 and 2011, respectively.

Supplemental Cash Flow Information The condensed consolidated statements of cash flows provide information about the Company's sources and uses of cash and exclude the effects of non-cash transactions. For the six months ended September 30, 2012 and 2011, the Company paid cash for interest totaling \$2,971 and \$3,226, respectively. For the six months ended September 30, 2012, the Company received income tax refunds, net of taxes paid, totaling \$86. For the six months ended September 30, 2011, the Company paid cash for income taxes, net of refunds, totaling \$1,225.

Earnings Per Share Basic earnings per share are calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share reflect net income divided by the weighted average number of common shares, dilutive stock options and restricted stock unit awards outstanding using the treasury stock method. Earnings per share are set forth below:

	Three Months Ended September 30		Six Months Ended September 30	
	2012	2011	2012	2011
Numerator:				
Net income	\$ 6,709	\$ 7,535	\$ 6,261	\$ 9,120
Denominator:				
Weighted average number of common shares outstanding	9,863,363	10,760,891	10,017,546	10,902,698
Dilutive options and stock awards	35,338	128,832	57,942	195,708
Diluted weighted average number of common shares outstanding	9,898,701	10,889,723	10,075,488	11,098,406
Net earnings per share				
Basic	\$.68	\$.70	\$.62	\$.84
Diluted	\$.68	\$.69	\$.62	\$.82

Diluted net earnings per share take into consideration the dilutive effect of certain unvested restricted stock unit awards and unexercised stock options. For the three and six months ended September 30, 2012 and 2011 options to purchase 1,063,956 and 981,220 shares of common stock, respectively, were outstanding but not included in the computation of diluted net earnings per share because the inclusion would have had an anti-dilutive effect.

Fair Value of Financial Instruments The Company's financial instruments consist of cash, trade receivables, trade payables and debt obligations. The Company does not currently hold or issue derivative financial instruments. The Company believes that the recorded values of its variable rate debt obligations, which totaled \$109,605 at September 30, 2012 and \$96,793 at March 31, 2012, respectively, approximated their fair values. The Company believes that the recorded values of its fixed rate debt obligations, which totaled \$57,553 at September 30, 2012 and \$66,953 at March 31, 2012, respectively, approximated their fair values. Estimates of fair value are based on estimated interest rates for the same or similar debt offered to the Company having the same or similar maturities and collateral requirements and were determined to be Level 2 under the fair value hierarchy.

Foreign Currency Assets and liabilities of subsidiaries operating outside the United States with a functional currency other than the U.S. dollar are translated at the period-end exchange rates. Income and expense items are translated at the average monthly exchange rates. The effects of period-end translation are included as a component of Other Comprehensive Income (Loss) in the condensed consolidated statements of comprehensive income. The net foreign currency transaction loss or (gain) related to the revaluation of certain transactions denominated in currencies other than the reporting unit's functional currency totaled (\$146) and

Table of Contents

CONSOLIDATED GRAPHICS, INC.

(In thousands, except share and per share data and percentages)

(Unaudited)

\$158 for the three months ended September 30, 2012 and 2011, respectively, and (\$213) and \$191 for the six months ended September 30, 2012 and 2011, respectively, and is recorded in Other Expense (Income) on the condensed consolidated income statements.

Accumulated Other Comprehensive Income Accumulated Other Comprehensive Income is comprised of foreign currency translation adjustments.

Geographic Information Revenues of the Company's subsidiaries operating outside the United States were \$13,681 and \$13,656 for the three months ended September 30, 2012 and 2011, respectively, and \$27,030 and \$26,626 for the six months ended September 30, 2012 and 2011, respectively. Long-lived assets of the Company's subsidiaries operating outside the United States were \$40,481 as of September 30, 2012 and \$36,233 as of March 31, 2012.

Multi-Employer Pension Plans The Company participates in multi-employer pension plans for certain of its employees covered by union agreements. During the six months ended September 30, 2011, the Company recognized expense of \$5,281 for the present value of the liability for withdrawing from certain multi-employer pension plans. The Company has in the past withdrawn from certain multi-employer pension plans. Upon withdrawing from a plan, the Company receives a notice from the plan administrator demanding payment of a withdrawal liability as may be required by applicable law. The Company can choose to pay the withdrawal liability in a lump sum or in quarterly payments. Withdrawal liabilities in the accompanying balance sheets total \$18,696 at September 30, 2012 and \$17,906 at March 31, 2012. The Company is awaiting further information required to compute the actual withdrawal liability and required payments with respect to all of the plans from which it has withdrawn. As a result, the Company has estimated the withdrawal liabilities reflected in the accompanying balance sheet using limited information available from the plans, which has not been independently verified. Therefore, the withdrawal liabilities are subject to adjustment. The withdrawal liability is expected to be paid over a 20 year period, but may be extended in the event of mass withdrawal from one or more of the plans.

2. ACQUISITIONS

Revenues and expenses of the acquired businesses have been included in the accompanying condensed consolidated financial statements beginning on their respective dates of acquisition. The allocation of purchase price to the acquired assets and liabilities is based on estimates of fair value and may be prospectively revised if and when additional information the Company is awaiting concerning certain asset and liability valuations is obtained, provided that such information is received no later than one year after the date of acquisition. For the six months ended September 30, 2012, the Company paid cash totaling \$17 to satisfy liabilities in connection with a prior period acquisition. For the six months ended September 30, 2011, the Company paid cash totaling \$3,162 and assumed liabilities totaling \$3,142 to acquire the assets of a printing business and \$96 to satisfy liabilities in connection with a prior period acquisition.

Table of Contents**CONSOLIDATED GRAPHICS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(In thousands, except share and per share data and percentages)****(Unaudited)****3. LONG - TERM DEBT**

The following is a summary of the Company's long-term debt as of:

	September 30, 2012	March 31, 2012
Bank credit facilities	\$ 109,405	\$ 93,793
Term equipment notes	55,910	65,310
Other	1,843	4,643
	167,158	163,746
Less: current portion	(21,102)	(23,596)
	\$ 146,056	\$ 140,150

In June 2012, we amended the Company's existing primary secured credit agreement (the "Credit Agreement") to, among other things, extend the maturity date from October 6, 2014 to June 8, 2017. The Credit Agreement currently provides up to \$285,000 in revolving credit and contains an accordion feature that could, under prescribed conditions, increase the facility by \$100,000 to \$385,000. At September 30, 2012, outstanding borrowings under the Credit Agreement were \$100,000 and accrued interest at a weighted average rate of 1.7%.

Under the terms of the Credit Agreement, the proceeds from borrowings may be used to repay certain indebtedness, finance certain acquisitions, provide for working capital and general corporate purposes and, subject to certain restrictions, repurchase the Company's common stock. In order to repurchase Company common stock under the terms of the Credit Agreement, the Company must (1) demonstrate compliance on a proforma basis, giving effect to such repurchase with the financial covenants set forth in the Credit Agreement, and (2) have a Leverage Ratio (Debt divided by EBITDA, as defined in the Credit Agreement) not exceeding 2.75 to 1.00 on a proforma basis after giving effect to such repurchase. Borrowings outstanding under the Credit Agreement are secured by substantially all of the Company's assets other than real estate and certain equipment subject to term equipment notes and other financings. The collateral also secures, on a pari passu basis, the obligations under the A&B Credit Facility and the Auxiliary Bank Facilities described below. Borrowings under the Credit Agreement accrue interest, at the Company's option, at either LIBOR plus a margin of 1.25% to 2.25%, or an alternate base rate (based upon the greater of (i) the administrative agent bank's prime lending rate, (ii) the sum of the LIBOR rate for a one-month interest period plus 1.50% or (iii) the sum of the Federal Funds effective rate plus .5% per annum) plus a margin of 0% to .75%. The Company is also required to pay an annual commitment fee ranging from .25% to .375% on available but unused amounts under the Credit Agreement. The interest rate margin and the commitment fee are based upon certain financial performance measures set forth in the Credit Agreement and are redetermined quarterly. At September 30, 2012, the applicable margin on LIBOR based loans was 1.5%, the applicable margin on alternative base rate loans was 0% and the applicable commitment fee was .25%.

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

The Company is subject to certain covenants and restrictions, including limitations on additional indebtedness it may incur in the future, and must meet certain financial tests under the Credit Agreement. The Company was in compliance with such covenants, restrictions and financial tests at September 30, 2012. In the event the Company is unable to remain in compliance with the Credit Agreement covenants and financial tests contained in the Credit Agreement in the future, the Company's lenders would have the right to declare it in default with respect to such obligations, and consequently, certain of our other debt obligations, including substantially all our term equipment notes, would be deemed to also be in default. All debt obligations in default would be required to be reclassified as a current liability. In the event the Company was unable to obtain a waiver from its lenders or renegotiate or refinance these obligations, a material adverse effect on the ability of the Company to conduct its operations in the ordinary course would likely result.

The Company also maintains a secured credit facility (the "A&B Credit Facility") which provides revolving credit for its Canadian subsidiary, Annan & Bird Lithographers, Inc., available for both U.S. dollar and Canadian dollar loans not to exceed in the aggregate \$25,000 (U.S. equivalent). The A&B Credit Facility expires in June 2017. At September 30, 2012, outstanding borrowings were \$2,033 (U.S. equivalent) which accrued interest at a weighted average rate of 2.8%. The A&B Credit Facility contains many of the same covenants and restrictions contained in the Credit Agreement. Additionally, a default by the Company under the Credit Agreement constitutes a default under the A&B Credit Facility and vice-versa.

Table of Contents

CONSOLIDATED GRAPHICS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share and per share data and percentages)

(Unaudited)

In addition, the Company maintains two auxiliary revolving credit facilities (each an Auxiliary Bank Facility and collectively the Auxiliary Bank Facilities). Each Auxiliary Bank Facility is secured and has a maximum borrowing capacity of \$5,000. One facility expires in December 2012 while the other facility expires in October 2014. At September 30, 2012, outstanding borrowings under the Auxiliary Bank Facilities totaled \$7,372 and accrued interest at a weighted average rate of 2.4%. Because the Company currently has the ability and intent to refinance borrowings outstanding under the Auxiliary Bank Facility expiring in December 2012, such borrowings are classified as long-term debt in the accompanying condensed consolidated balance sheet at September 30, 2012. The Auxiliary Bank Facilities cross-default to the events of default set forth in the Credit Agreement.

At September 30, 2012, outstanding borrowings under term equipment notes totaled \$55,910 and carried interest rates between 2.8% and 4.1%. The term equipment notes provide for principal payments plus interest for defined periods of up to seven years from the date of issuance, and are secured by certain equipment of the Company. The Company is not subject to any significant financial covenants in connection with any of the term equipment notes. Most of the term equipment notes cross-default to the events of default set forth in the Credit Agreement.

At September 30, 2012, other debt obligations totaled \$1,843 and provided for principal payments plus interest (fixed and variable rates) for defined periods up to 16 years from the date of issuance. The Company does not have any significant financial covenants or restrictions associated with these other debt obligations.

As of September 30, 2012, the Company's available credit under existing credit facilities was \$206,737.

4. SHARE - BASED COMPENSATION

Pursuant to the Consolidated Graphics, Inc. Amended and Restated Long-Term Incentive Plan (as amended, the Plan), employees of the Company and members of the Company's Board of Directors have been, or may be, granted options to purchase shares of the Company's common stock, restricted stock unit awards or other forms of equity-based compensation. Options granted pursuant to the Plan include incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, and non-qualified stock options. Options previously granted under the Plan were at a strike price not less than the market price of the stock at the date of grant and periodically vest over a fixed period of up to ten years. Unvested options are generally cancelled on termination of employment and vested options generally expire shortly after termination of employment. Otherwise, options expire after final vesting at the end of a fixed period. At September 30, 2012, a total of 1,494,668 common shares were reserved for issuance pursuant to the Plan, of which 140,045 shares of the Company's common stock were available for future grants. Of the 140,045 shares available for future grants, 37,500 shares may be granted as restricted stock unit awards. At the 2012 Annual Meeting of Shareholders, the Company's shareholders voted to adopt the Consolidated Graphics, Inc. 2012 Long-Term Incentive Plan (the 2012 Plan). The 2012 Plan provides for a total of 350,000 common shares. At September 30, 2012, no options to purchase shares of the Company's common stock or other forms of equity-based compensation were granted pursuant to the 2012 Plan.

The following table summarizes stock option activity for the Plan for the six months ended September 30, 2012:

Stock Options	Shares	Weighted-Average Exercise Price
Outstanding at March 31, 2012	1,325,800	\$ 46.58
Granted	112,500	28.61
Exercised	(50,000)	14.75
Forfeited or expired	(37,844)	\$ 39.34
Outstanding at September 30, 2012 (a)	1,350,456	\$ 46.36
Exercisable at September 30, 2012 (a)	920,456	\$ 49.88

(a) Stock options outstanding as of September 30, 2012 have a weighted average remaining contractual life of 5.5 years. Based on the market value of the Company's common stock on September 30, 2012, outstanding stock options have an aggregate intrinsic value of \$1,257 and exercisable stock options have an aggregate intrinsic value of \$495.

(In thousands, except share and per share data and percentages)

(Unaudited)

The following table summarizes restricted stock unit award activity for the six months ended September 30, 2012:

Restricted Stock Unit Awards	Shares
Outstanding at March 31, 2012	16,667
Granted	
Vested and issued	(12,500)
Forfeited or expired	
Outstanding at September 30, 2012 (a)	4,167

(a) Restricted stock units outstanding as of September 30, 2012 have a weighted average remaining contractual term of .5 years and a total intrinsic value of \$109.

The Company accounts for share-based compensation by measuring the cost of employee services received in exchange for an award of equity instruments, including grants of stock options and restricted stock unit awards, based on the fair value of the award at the date of grant. The fair value of stock options is determined using the Black-Scholes model. Restricted stock unit awards are valued at the closing stock price on date of grant.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following management's discussion and analysis of financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and notes to unaudited condensed consolidated financial statements in this Quarterly Report on Form 10-Q and our audited financial statements and notes thereto included in our Annual Report on Form 10-K as of and for the year ended March 31, 2012. This discussion contains forward-looking statements that reflect our current views with respect to future events and financial performance. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those referenced in the section entitled "Forward-Looking Statements" below.

Overview

Our Organization

Consolidated Graphics is one of North America's leading general commercial printing and print-related companies, with 70 printing businesses strategically located across 27 states, Toronto, Prague, and Gero, Japan. In connection with our traditional print services, we also provide our customers fulfillment and mailing services and digital technology solutions and e-commerce capabilities. Generally, each facility primarily relies on locally-based customers; accordingly, we have approximately 20,000 individual customers with a broad diversification by industry-type and geographic orientation. No individual customer accounts for more than 6% of our total revenues.

Our printing businesses maintain their own sales, customer service, estimating and planning, prepress, production and accounting departments. Our corporate headquarters staff provides support to our printing businesses in such areas as human resources, purchasing, internal financial controls design and management information systems. We also maintain centralized human resources, treasury, risk management, legal, tax, internal audit and consolidated financial reporting activities.

Nature of Our Services

We are a service business that utilizes sophisticated technology and equipment to produce high-quality, custom-designed printed materials for a large base of customers in a broad cross-section of industries, the majority of which are located in the markets where our printing businesses are based. In addition to providing a full range of prepress, digital and offset printing and finishing services, our printing businesses offer fulfillment and mailing services, as well as software solutions and other print-related, value-added services. The technology solutions, like the printed materials we produce, are customized to the specific needs of our customers. For marketing purposes, we refer to our e-commerce capabilities as the "WorkSmart Suite" group of products. Collectively, all of these discrete capabilities comprise a comprehensive range of printing services. Accordingly, for financial reporting purposes, we report our revenues and results of operations as a single segment.

Our sales are derived from providing commercial printing and print-related services. These services consist of (i) traditional print services, including electronic prepress, digital and offset printing, finishing, storage and delivery of high-quality printed documents which are custom manufactured to our customers' design specifications; (ii) fulfillment and mailing services for such printed materials; (iii) technology solutions

that enable our customers to more efficiently procure and manage printed material and/or design, procure, distribute, track and analyze results of printing-based marketing programs and activities; and (iv) cross media capabilities allowing our customers to supplement the message of their printed materials through other media, such as the internet, email, or text messaging. Examples of the types of documents we print for our customers include high-quality, multi-color marketing materials, product and capability brochures, point-of-purchase displays, direct mail pieces, shareholder communications, trading cards, photo products such as calendars and photo books, catalogs and training manuals.

Most of our sales are generated by individual orders through commissioned sales personnel. We predominantly recognize revenue from these orders when we deliver the ordered goods and services. To a large extent, continued engagement of our Company by our customers for successive business opportunities depends upon the customers' satisfaction with the quality of products and services we provide. As such, it is difficult for us to predict with any high degree of certainty the number, size, and profitability of printing services that we expect to provide for more than a few weeks in advance. Our revenues, however, tend to be strongest in the quarter ended December. Revenues tend to be seasonally weaker in the quarters ended June and September. Sales from election-related print business tend to be higher every other year, including years in which national elections are held.

Our cost of sales mainly consists of raw materials consumed in the printing process, as well as labor and outside services, such as delivery costs. Paper cost is the most significant component of our materials cost; however, fluctuations in paper pricing generally does not materially impact our operating margins because we typically quote, and subsequently purchase, paper for each specific printing project we are awarded. As a result, any changes in paper pricing are effectively passed through to customers by our

Table of Contents

printing businesses. Additionally, our cost of sales includes salary and benefits paid to operating personnel, maintenance, utilities, repair, rental and insurance costs associated with operating our facilities and equipment and depreciation charges.

Our selling expenses generally include the compensation paid to our sales professionals, along with promotional, travel and entertainment costs. Our general and administrative expenses generally include the salary and benefits paid to support personnel at our printing businesses and our corporate staff, including share-based compensation, as well as office rent, communication expenses, various professional service fees, depreciation charges and amortization of identifiable intangible assets.

Our Strategy

We are focused on adding value to our printing businesses by providing the financial and operational strengths, management support and technological advantages associated with a large, national organization. Our strategy currently includes the following initiatives to generate sales and profit growth:

- *Internal Sales Growth* We seek to use our competitive advantages to expand market share. We continually seek to hire additional sales professionals, invest in new equipment and technology, expand our national accounts program, develop new and expanded digital technology-based print-related services and provide sales training and education about our breadth of capabilities and services to our sales professionals.
- *Disciplined Acquisition Program* We selectively pursue opportunities to acquire additional printing businesses at reasonable prices. Some of these acquisitions may include smaller and/or distressed printing businesses for integration into one of our existing businesses.
- *Cost Savings* Because of our size and extensive geographic footprint, we leverage our economies of scale to purchase supplies and equipment at preferential prices, and centralize various administrative services to generate cost savings.
- *Best Practices/Benchmarking* We provide a forum for our printing businesses to share their knowledge of technical processes and their best practices with one another, as well as benchmark financial and operational data to help our printing businesses identify and respond to changes in operating trends.
- *Leadership Development* Through our unique Leadership Development Program, we develop talent for future sales and management positions at our printing businesses.

Results of Operations

The following table sets forth our Company's unaudited condensed consolidated income statements for the periods indicated:

Sales	\$	263.6	\$	267.4	\$	501.9	\$ 510.8
Cost of sales		202.7		205.9		390.7	395.2
Gross profit		60.9		61.5		111.2	115.6
Selling expenses		22.3		22.7		46.1	45.3
General and administrative expenses		24.4		24.2		48.9	47.4
Other charges		2.3		0.6		4.0	5.3
Other expense (income)		(0.1)		0.1		(0.3)	0.2

Net income	2.5%	2.8%	1.2%	1.8%

Comparative Analysis of Consolidated Income Statements for the Three Months Ended September 30, 2012 and 2011

Sales during the three months ended September 30, 2012 declined \$3.8 million, or 1.4%, to \$263.6 million from \$267.4 million for the same period in the prior year. The revenue decline this quarter compared to the prior year quarter was caused by a 3.5% decline in same-store sales, partially offset by an increase in election-related revenue.

Gross profit during the three months ended September 30, 2012 declined \$.6 million, or 1%, to \$60.9 million, compared to \$61.5 million for the same period in the prior year. The decline in gross profit was due to the 1.4% decline in sales partially offset by higher gross profit margin. Cost of sales as a percentage of sales declined from 77.0% to 76.9% during the three months ended September 30, 2012. The decline was caused by lower cost of materials (primarily paper), freight and labor, partially offset by an increase in outside purchases of manufacturing services and lower waste paper recycling income. For these same reasons, gross profit margin (gross profit divided by revenues) increased from 23.0% to 23.1% during the three months ended September 30, 2012.

Selling expense during the three months ended September 30, 2012 declined \$.4 million, or 2%, to \$22.3 million compared to \$22.7 million in the same period in the prior year. As a percentage of revenues, selling expenses were 8.5% in both periods.

General and administrative expenses during the three months ended September 30, 2012 increased \$.2 million, or 1%, to \$24.4 million, from \$24.2 million for the same period in the prior year. This increase primarily resulted from higher compensation expenses and higher depreciation expense due to recent technology investments. General and administrative expenses increased to 9.3% of sales in the current quarter compared to 9.0% for the same period in the prior year.

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

Other charges during the three months ended September 30, 2012 were \$2.3 million which consisted primarily of costs related to relocating certain production facilities and related asset impairments. Other charges during the three months ended September 30, 2011 were \$.6 million related to withdrawing from certain multi-employer pension plans.

Other expense (income) primarily consists of foreign currency gains and losses resulting from certain transactions of our Canadian and Czech Republic subsidiaries.

Interest expense declined from \$1.6 million in last year's September quarter to \$1.3 million for the quarter ended September 30, 2012, due to lower average interest rates and lower borrowing levels.

For the three months ended September 30, 2012, the Company's effective tax rate was 37.5% compared to an effective tax rate of 38.5% for the same period in the prior year. The effective tax rate declined year over year due to the lower effect of permanent differences.

Table of Contents

Comparative Analysis of Consolidated Income Statements for the Six Months Ended September 30, 2012 and 2011

Sales during the six months ended September 30, 2012 declined \$8.9 million, or 1.7%, to \$501.9 million from \$510.8 million for the same period in the prior year. Revenue declined this six months compared to the first six months of last year as a result of a 3.8% decline in same-store sales, partially offset by sales growth related to an acquisition and election-related revenue.

Gross profit during the six months ended September 30, 2012 declined \$4.4 million, or 4%, to \$111.2 million, compared to \$115.6 million for the same period in the prior year. The decline in gross profit was due to the 1.7% decline in sales and lower gross profit margin. Cost of sales, as a percentage of revenues, increased .4% from 77.4% to 77.8% during the six months ended September 30, 2012. This increase was caused by higher outside purchases of manufacturing services and lower recycling income, partially offset by lower material (primarily paper), freight and direct labor expenses. For the same reasons, gross profit margin (gross profit divided by revenues) decreased .4% from 22.6% to 22.2% during the six months ended September 30, 2012.

Selling expense during the six months ended September 30, 2012 increased \$.8 million, or 2%, to \$46.1 million, compared to \$45.3 million in the same period in the prior year primarily due to higher compensation expense. As a percentage of sales, selling expenses increased from 8.9% to 9.2%.

General and administrative expenses during the six months ended September 30, 2012 increased \$1.5 million, or 3%, to \$48.9 million, from \$47.4 million for the same period in the prior year. This increase primarily resulted from higher compensation expense and higher depreciation expense due to technology investments. General and administrative expenses increased to 9.7% of revenues in the current period compared to 9.3% for the same period in the prior year.

Other charges during the six months ended September 30, 2012 were \$4.0 million and consist primarily of costs related to relocating certain of our production facilities, related asset impairments and accretion of pension liability. Other charges during the six months ended September 30, 2011 were \$5.3 million related to withdrawing from certain multi-employer pension plans.

Other expense (income) primarily consists of foreign currency gains and losses resulting from certain transactions of our Canadian and Czech Republic subsidiaries.

Interest expense during the six months ended September 30, 2012 declined to \$2.8 million from \$3.1 million for the same period last year, due to lower interest rates and lower borrowings.

For the six months ended September 30, 2012, the Company's effective tax rate was 35.6% compared to an effective tax rate of 36.1% for the same period in the prior year. The effective tax rate declined year over year due to the lower effect of permanent differences.

Liquidity and Capital Resources*Sources and Uses of Cash*

Our historical sources of cash have primarily been provided by operations and borrowings under our various bank credit facilities. Our historical uses of cash have been for acquisitions of printing businesses, capital expenditures, payment of principal and interest on outstanding debt obligations, repurchases of common stock and for working capital requirements. Various components of our statement of cash flows are as follows:

		Six Months Ended September 30	
	2012		2011
		(In millions)	
Net cash provided by operating activities	\$	41.8	\$ 38.4
Acquisitions of businesses, net of cash acquired			(3.3)
Capital expenditures, net of proceeds from asset dispositions		(26.4)	(28.2)
Net proceeds under bank credit facilities		15.6	17.5
Net proceeds/(payments) on term equipment notes and other debt		(12.2)	4.2
Payments to repurchase and retire common stock		(17.7)	(30.4)
Proceeds from exercise of stock options, including excess tax benefit		.9	1.9

Table of Contents

Our cash position, working capital and debt obligations are shown below:

	September 30, 2012	(In millions)	March 31, 2012
Cash and cash equivalents	\$	8.2	\$ 6.1
Working capital		73.4	71.3
Total debt		167.2	163.7

Net cash provided by operating activities increased \$3.4 million over the same period in the prior year. This increase was due primarily to the increase related to accounts payable and accrued liabilities, partially offset by a greater increase in accounts receivable.

We believe that our cash flow provided by operations, combined with new borrowings, will be adequate to cover remaining fiscal year 2013 working capital needs, debt service requirements, common share repurchase programs, planned capital expenditures and the acquisitions of printing businesses.

We intend to continue pursuing acquisition opportunities at prices we believe are reasonable based upon prevailing market conditions. However, we cannot accurately predict the timing, size and success of our acquisition efforts or associated capital requirements. There can be no assurance that we will be able to acquire additional printing businesses on terms acceptable to us. We expect to fund future acquisitions through cash flow provided by operations and/or additional borrowings under our primary bank credit facility.

Our Board of Directors previously authorized a \$170.0 million share repurchase program. The share repurchase program will expire on September 30, 2013, and enables us to repurchase shares of our common stock in open-market purchases, as well as privately negotiated transactions, pursuant to applicable securities regulations, and subject to the terms of our primary credit facility, market conditions and other factors. The Board of Directors may modify, suspend, extend or terminate the program at any time. We expect to fund any additional repurchases under the amended program through cash flow provided by operations or additional borrowings under our primary credit facility. During the six month period ended September 30, 2012, we repurchased 643,508 shares of our common stock for a total cost of \$17.7 million. Remaining authorization under the amended share repurchase program on November 7, 2012 was \$79.5 million, taking into account share repurchases occurring through such date.

Debt Obligations

For information with respect to our existing debt obligations with our lenders, as well as the available credit under our existing credit facilities, refer to *Item 1. Financial Statements Note 3. Long-Term Debt*

Commitment and Contingencies

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

Operating leases We have entered into various noncancelable operating leases primarily related to facilities and equipment used in the ordinary course of our business. Our future contractual obligations under such operating leases total approximately \$69.1 million as of September 30, 2012.

Letters of credit We had letters of credit outstanding as of September 30, 2012 totaling \$3.9 million. All of these letters of credit were issued pursuant to the terms of our primary credit facility, which expires in June 2017.

Insurance programs We maintain third-party insurance coverage in amounts and against risks we believe are reasonable under our circumstances. We are self-insured for most workers' compensation claims and for a significant component of our group health insurance programs. For these exposures, we accrue expected loss amounts which are determined using a combination of our historical loss experience and subjective assessment of the future costs of incurred losses, together with advice provided by administrators and consulting actuaries. The estimates of expected loss amounts are subject to uncertainties arising from various sources, including changes in claims reporting patterns, claims settlement patterns, judicial decisions, legislation and economic conditions, which could result in an increase or decrease in accrued costs in future periods for claim matters which occurred in a prior period. Although we believe that the accrued loss estimates are reasonable, significant differences related to the items noted above could materially affect our risk exposure, insurance coverage, and future expense.

Table of Contents

Critical Accounting Policies

We have identified our critical accounting policies based on the following factors – significance to our overall financial statement presentation, complexity of the policy and its use of estimates and assumptions. We are required to make certain estimates and assumptions in determining the reported amounts of assets and liabilities, disclosure of contingent liabilities and the reported amounts of revenues and expenses. We evaluate our estimates and assumptions on an ongoing basis and rely on historical experience and various other factors that we believe to be reasonable under the circumstances to determine such estimates. Because uncertainties with respect to estimates and assumptions are inherent in the preparation of financial statements, actual results could differ from these estimates.

Revenue recognition – We primarily recognize revenue upon delivery of the printed product to the customer. In the case of customer fulfillment arrangements, including multiple deliverables of printing services and distribution services, revenue relating to the printed product is recognized upon the delivery of the printed product into our fulfillment warehouses, and invoicing of the customer for the product at an agreed price. Revenue from distribution services is recognized when the services are provided. Because printed products manufactured for our customers are customized based upon the customer's specifications, product returns are insignificant. Revenue is recognized net of sales tax.

Receivables, net of valuation allowance – Accounts receivable at September 30, 2012 were \$179.6 million, net of a \$3.5 million allowance for doubtful accounts. The valuation allowance was determined based upon our evaluation of aging of receivables, historical experience and the current economic environment. While we believe we have appropriately considered known or expected outcomes, our customers' ability to pay their obligations could be adversely affected by a contraction in the U.S. economy or other factors beyond our control. Changes in our estimates of collectability could have a material adverse effect on our consolidated financial condition or results of operations.

Impairment of Goodwill – We evaluate the carrying value of our goodwill as of each fiscal year end, or at any time that management becomes aware of an indication of potential impairment. Under the applicable accounting standards, we first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of the events or circumstances, we determine it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then we are required to perform the first step of the two-step impairment test. In the first step, we determine fair value for each reporting unit using trailing twelve months earnings before interest, income taxes and depreciation and amortization (EBITDA), multiplied by management's estimate of an appropriate enterprise value-to-EBITDA multiple for each reporting unit, adjusted for a control premium. Management's total Company enterprise value-to-EBITDA multiple is based upon the multiple derived from using the market capitalization of the Company's common stock on or around the applicable balance sheet date, after considering an appropriate control premium (25% at March 31, 2012, based upon historical transactions in the printing industry). This total Company enterprise value-to-EBITDA multiple is then used as a starting point in determining the appropriate multiple for each reporting unit. If the carrying value of the reporting unit exceeds the estimated fair value of the reporting unit, we must perform a second step to measure the amount of impairment. This second step involves estimating the fair value of identifiable tangible and intangible assets and determining an implied value of goodwill. To the extent the implied value of goodwill is less than the carrying value of goodwill for a particular reporting unit, we are required to record an impairment charge. The process of determining the fair values of assets and liabilities can involve a considerable degree of estimation.

Impairment of long-lived assets – We evaluate long-lived assets, including property, plant and equipment, and intangible assets, excluding goodwill and intangible assets with indefinite lives, whenever events or changes in conditions indicate that the carrying value may not be recoverable. The evaluation requires us to estimate future undiscounted cash flows associated with an asset or group of assets. If the cost of the asset or group of assets cannot be recovered by these undiscounted cash flows, then the need for an impairment exists. Estimating future cash flows requires judgments regarding future economic conditions, demand for services and pricing. Although we believe our estimates are reasonable, significant differences in the actual performance of the asset or group of assets may materially affect our asset values and require an

impairment charge in future periods.

Insurance liabilities We are self-insured for the majority of our workers' compensation and group health insurance costs. Insurance claims liabilities have been accrued using a combination of our historical loss experience and subjective assessment of the future costs of incurred losses, together with advice provided by administrators and consulting actuaries. The estimates of expected loss amounts are subject to uncertainties arising from various sources, including changes in claims reporting patterns, claims settlement patterns, judicial decisions, legislation and economic conditions, which could result in an increase or decrease in accrued costs in future periods for claims matters which occurred in a prior period.

Accounting for income taxes As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes. This process involves estimating our actual current tax exposure, together with assessing temporary

Table of Contents

differences resulting from differing treatment of items for tax and financial reporting purposes. The tax effects of these temporary differences are recorded as deferred tax assets or deferred tax liabilities. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income, and to the extent we believe that recovery is not likely, we must establish a valuation allowance. Significant judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. Additionally, to account for uncertain tax positions we use a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Although we believe our estimates are reasonable, the final outcome of uncertain tax positions may be different from that which is reflected in our consolidated financial statements.

Accounting for acquisitions The allocations of purchase price to acquired assets and liabilities are initially based on estimates of fair value and are revised if and when additional information concerning certain asset and liability valuations we are waiting for at the time of the initial allocations is obtained, provided that such information is received no later than one year after the date of acquisition. In addition, when appropriate, we retain an independent third-party valuation firm to assist in the identification, valuation and determination of useful lives of identifiable intangible assets in connection with our acquisitions.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, in which the Company discusses factors it believes may affect its performance or results in the future. Forward-looking statements are all statements other than historical facts, such as statements regarding assumptions, expectations, beliefs and projections about future events or conditions. You can generally identify forward-looking statements by the appearance in such a statement of words like anticipate, believe, continue, could, estimate, expect, intend, may, might, plan, potential, predict, forecast, project, should or will or other comparable words or the negative of such words. The accuracy of the Company's assumptions, expectations, beliefs and projections depends on events or conditions that change over time and are thus susceptible to change based on actual experience, new developments and known and unknown risks, including those created by general market conditions, competition and the possibility that events may occur beyond the Company's control, which may limit its ability to maintain or improve its operating results or financial condition or acquire additional printing businesses. The Company gives no assurance that the forward-looking statements will prove to be correct and does not undertake any duty to update them. The Company's actual future results might differ from the forward-looking statements made in this Quarterly Report on Form 10-Q for a variety of reasons, which include, weakness in the economy, financial stability of its customers, the sustained growth of its digital printing business, seasonality of election-related business, its ability to adequately manage business expenses, including labor costs, the unfavorable outcome of legal proceedings, the lack of or adequacy of insurance coverage for its operations, the continued availability of raw materials at affordable prices, retention of its key management and operating personnel, satisfactory labor relations, the potential for additional goodwill impairment charges, its ability to identify new acquisition opportunities, negotiate and finance such acquisitions on acceptable terms and successfully absorb and manage such acquisitions in a timely and efficient manner, as well as other risks described under the heading Risk Factors of our Annual Report on Form 10-K and the risk factors and cautionary statements described in the other documents the Company files or furnishes from time to time with the Securities and Exchange Commission, including its Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Should one or more of the foregoing risks or uncertainties materialize, or should the Company's underlying assumptions, expectations, beliefs or projections prove incorrect, the Company's actual results may vary materially from those anticipated in its forward-looking statements, and its business, financial condition and results of operations could be materially and adversely affected.

ITEM 3. Quantitative and Qualitative Disclosure About Market Risk

Market risk generally means the risk that losses may occur in the value of certain financial instruments as a result of movements in interest rates, foreign currency exchange rates and commodity prices. We do not currently hold or utilize derivative financial instruments to manage market risk or that could expose us to other market risk. We are exposed to market risk in interest rates related primarily to certain of our debt obligations, which as of September 30, 2012, include borrowings under our bank credit facilities, various term equipment notes and other debt obligations. As of September 30, 2012, there were no material changes in our market risk or the estimated fair value of our debt obligations relative to their recorded value, as reported in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer (CEO) and Chief Financial and Accounting Officer (CFO), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

by this report. Based on such evaluation, the Company's CEO and CFO have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**CONSOLIDATED GRAPHICS, INC.****PART II OTHER INFORMATION****ITEM 1. Legal Proceedings**

From time to time, our Company is involved in litigation relating to claims arising out of its operations in the normal course of business. We maintain insurance coverage against certain types of potential claims in an amount which we believe to be adequate, but there is no assurance that such coverage will in fact cover, or be sufficient to cover, all potential claims. Currently, we are not aware of any legal proceedings or claims pending against the Company that our management believes may have a material adverse effect on our financial condition or results of operations.

ITEM 1A. Risk Factors

There have been no material changes from risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company's Board of Directors previously approved a share repurchase program that provides for repurchases of our common stock not to exceed \$170.0 million in the aggregate in open-market or privately negotiated transactions. The share repurchase program expires September 30, 2013. The following are details of repurchases under this program as in effect for the period covered by this report:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Announced Plan
Purchases from July 1, 2012 through July 31, 2012		\$		\$ 90,505,564
Purchases from August 1, 2012 through August 31, 2012	279,948	\$ 26.33	279,948	\$ 83,135,177
Purchases from September 1, 2012 through September 30, 2012	87,494	\$ 27.53	87,494	\$ 80,726,847
Total	367,442	\$ 26.61	367,442	

(1) All shares were purchased in open-market transactions.
