### ASTA FUNDING, INC. AND SUBSIDIARIES

#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

##### NOTE 1: BUSINESS AND BASIS OF PRESENTATION

###### Business

Asta Funding, Inc., together with its wholly owned subsidiaries, is engaged in the business of purchasing, managing and servicing non-performing and distressed consumer receivables. Non-conforming consumer receivables are the obligations of individuals that have incurred credit impairment either at the time the obligation was originated or subsequent to origination. Distressed consumer receivables are the unpaid debts of individuals to banks, finance companies and other credit providers. A large portion of our distressed consumer receivables are MasterCard(R), Visa(R), other credit card accounts and telecommunication accounts which were charged-off by the issuers for non-payment. We acquire these portfolios at substantial discounts from their contractual amounts that are based on the characteristics (issuer, account size, debtor location and age of debt) of the underlying accounts of each portfolio.

###### Basis of Presentation

The condensed consolidated balance sheets as of March 31, 2006 and the consolidated balance sheets as of September 30, 2005, (the September 30, 2005 financial information included in this report has been extracted from our audited financial statements included in our Annual Report on Form 10-K/A) the consolidated statements of operations for the six and three month periods ended March 31, 2006 and 2005, respectively, the condensed consolidated statement of stockholders' equity as of and for the six months ended March 31, 2006 and the condensed consolidated statements of cash flows for the six month periods ended March 31, 2006 and 2005, have been prepared by us without an audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly our financial position at March 31, 2006 and September 30, 2005, the results of operations for the six and three month periods ended March 31, 2006 and 2005 and cash flows for the six month periods ended March 31, 2006 and 2005 have been made. The results of operations for the six and three month periods ended March 31, 2006 and 2005 are not necessarily indicative of the operating results for any other interim period or the full fiscal year.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with Rule 10-01 of Regulation S-X promulgated by the Securities and Exchange Commission and therefore do not include all information and footnote disclosures required under generally accepted accounting principles. We suggest that these financial statements be read in conjunction with the financial statements and notes thereto included in our Annual Report on Form 10-K/A for the fiscal year ended September 30, 2005 filed with the Securities and Exchange Commission.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

estimates including management's estimates of future cash flows and the allocation of collections between principal and interest resulting therefrom.

### Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123 (revised 2004) Share-Based Payment ("SFAS No.123R"). This statement is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. This Statement supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. This Statement requires that the cost resulting from all share-based payment transactions be recognized in the financial statements. This Statement supersedes the current method utilized by the Company of the disclosure-only provisions of the original SFAS No. 123. The effective date for implementation of SFAS No. 123R for the Company was October 1, 2005. The Company had been disclosing the impact on net income and earnings per share since the adoption of the original SFAS No. 123 and its amendment, SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure" in the notes to the financial statements. As permitted by SFAS 148 and SFAS 123, we continued to apply the accounting provisions of Accounting Principles Board Opinion Number 25, "Accounting for Stock Issued to Employees," and related interpretations, with regard to the measurement of compensation cost for options granted under our Stock Option Plans through September 30, 2005. No employee compensation expense has been recorded as all options granted had an exercise price equal to the market value of the underlying common stock on the date of grant. No stock options were awarded during the six month period ended March 31, 2006.

6

### ASTA FUNDING, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

#### NOTE 1: BUSINESS AND BASIS OF PRESENTATION (CONTINUED)

In October 2003, the American Institute of Certified Accountants issued Statement of Position ("SOP") 03-03, "Accounting for Loans or Certain Securities Acquired in a Transfer." This SOP proposes guidance on accounting for differences between contractual and expected cash flows from an investor's initial investment in loans or debt securities acquired in a transfer if those differences are attributable, at least in part, to credit quality. Increases in expected cash flows should be recognized prospectively through an adjustment of the internal rate of return while decreases in expected cash flows should be recognized as impairment. This SOP became effective October 1, 2005. We believe the implementation of this SOP will make it more likely that an impairment loss may be recorded some time in the future, although through March 31, 2006 no impairment loss has been recorded.

SFAS No. 153, "Exchanges of Nonmonetary Assets - an amendment of APB Opinion No. 29" ("SFAS 153") addresses the measurement of exchanges of nonmonetary assets. It eliminates the exception from fair value accounting for nonmonetary exchange of similar productive assets and replaces it with an exception for exchanges that do not have commercial substance. SFAS 153 specifies that a nonmonetary exchange has commercial substance if the future cash flows of an entity are expected to change significantly as a result of the exchange. This statement became effective October 1, 2005. This statement is not expected to have an impact on the Company's financial results.

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

In May 2005, the FASB issued SFAS 154, Accounting Changes and Error Corrections - a replacement of APB Opinion No. 20 and FASB Statement No. 3" (SFAS 154), which requires a retrospective application to prior periods' financial statements of changes in accounting principle for all periods presented. This statement replaces APB Opinion No. 20 which required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. The provisions of SFAS 154 are effective for fiscal years beginning after December 15, 2006, (the Company's fiscal year 2008.) This statement is not expected to have an impact on the Company's financial results.

### Reclassifications

Certain items in prior year's financial statements have been reclassified to conform to current period's presentation.

### NOTE 2: PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Asta Funding, Inc. and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

### NOTE 3: CONSUMER RECEIVABLES ACQUIRED FOR LIQUIDATION

Accounts acquired for liquidation are stated at their net realizable value and consist of mainly defaulted consumer loans to individuals throughout the country.

Prior to September 30, 2005, the Company accounted for its investment in finance receivables using the interest method under the guidance of Practice Bulletin 6, "Amortization of Discounts on Certain Acquired Loans." Effective October 1, 2005, the Company adopted and began to account for its investment in finance receivables using the interest method under the guidance of American Institute of Certified Public Accountants ("AICPA") Statement of Position ("SOP") 03-3, "Accounting for Loans or Certain Securities Acquired in a Transfer." Practice Bulletin 6 was amended by SOP 03-3 as described further in this note. Under the guidance of SOP 03-3 (and the amended Practice Bulletin 6); static pools of accounts are established. These pools are aggregated based on certain common risk criteria. Each static pool is recorded at cost and is accounted for as a single unit for the recognition of income, principal payments and loss provision. Once a static pool is established for a quarter, individual receivable accounts are not added to the pool (unless replaced by the seller) or removed from the pool (unless sold or returned to the seller). SOP 03-3 (and the amended Practice Bulletin 6) requires that the excess of the contractual cash flows over expected cash flows not be recognized as an adjustment of revenue or expense or on the balance sheet. The SOP initially freezes the internal rate of return, referred to as IRR, estimated when the accounts receivable are purchased as the basis for subsequent impairment testing. Significant increases in actual, or expected future cash flows may be recognized prospectively through an upward adjustment of the IRR over a portfolio's remaining life. Any increase to the IRR then becomes the new benchmark for impairment testing. Effective for fiscal years beginning October 1, 2005 under SOP 03-3 and the amended Practice Bulletin 6, rather than lowering the estimated IRR if the collection estimates are not received or projected to be received, the carrying value of a pool would be written down to maintain the then current IRR. Through March 31, 2006, the Company has not made any such downward adjustments to the carrying amount of any of its pools. Income on

# Edgar Filing: ASTA FUNDING INC - Form 10-Q

## ASTA FUNDING, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### NOTE 3: CONSUMER RECEIVABLES ACQUIRED FOR LIQUIDATION- (CONTINUED)

finance receivables is earned based on each static pool's effective IRR. Under the interest method, income is recognized on the effective yield method based on the actual cash collected during a period and future estimated cash flows and timing of such collections and the portfolio's cost. Revenue arising from collections in excess of anticipated amounts attributable to timing differences is deferred. The estimated future cash flows are reevaluated quarterly. Under the cost recovery method, no income is recognized until the cost of the portfolio has been fully recovered. A pool can become fully amortized (zero carrying balance on the balance sheet) while still generating cash collections. In this case, all cash collections are recognized as revenue when received. Additionally, the Company uses the cost recovery method when collections on a particular pool of accounts cannot be reasonably predicted.

The following tables summarize the changes in the balance sheet of the investment in receivable portfolios during the following periods.

	FOR THE SIX MONTHS ENDED	
	ACCRUAL BASIS PORTFOLIOS	CASH BASIS PORTFOLIOS

In March 2005, through a wholly owned subsidiary, the Company acquired Option Card, LLC, a Denver, Colorado based consumer debt buyer and debt management company. Benefits accruing to the Company include portfolios of distressed consumer receivable debt of approximately \$197 million that consist of paying accounts, accounts already within a legal network, and non paying accounts. The purchase price, substantially all of which was applied to the cost of the portfolios, was approximately \$13.5 million in cash.

9

### ASTA FUNDING, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

#### NOTE 3: CONSUMER RECEIVABLES ACQUIRED FOR LIQUIDATION- (CONTINUED)

As of March 31, 2006 the Company had \$237,206,000 in consumer receivables acquired for liquidation. Based upon current projections, net cash collections, applied to principal for interest method portfolios will be as follows for the twelve months in the periods ending:

September 30, 2006 (six months ending)	\$ 22,886,000
September 30, 2007	70,675,000
September 30, 2008	63,506,000
September 30, 2009	50,048,000
September 30, 2010	29,701,000
September 30, 2011	5,000
	-----
Total	\$236,821,000
	=====

Accretable yield represents the amount of income the Company can expect to generate over the remaining life of its existing portfolios based on estimated future net cash flows as of March 31, 2006. The Company adjusts the accretable yield upward when it believes, based on available evidence, that portfolio collections will exceed amounts previously estimated. Changes in accretable

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

yield for the three months and six months ended March 31, 2006 are as follows:

	SIX MONTHS ENDED MARCH 31, 2006 -----
Balance at beginning of period, September 30, 2005	\$ 94,022,000
Income recognized on finance receivables, net	(43,067,000)
Additions representing expected revenue from purchases	71,670,000
Reclassifications from nonaccretable difference	31,234,000 -----
Balance at end of period, March 31, 2006	\$153,859,000 =====

  

	THREE MONTHS ENDED MARCH 31, 2006 -----
Balance at beginning of period, December 31, 2005	\$ 135,306,000
Income recognized on finance receivables, net	(24,020,000)

	2006	2005
	----	----
Gross collections (1)	\$ 79,304,000	\$ 51,500,000
Commissions and fees (2)	23,715,000	9,318,000
	-----	-----
Net collections	\$ 55,589,000	\$ 42,182,000
	=====	=====

(1) Gross collections include: collection from third-party collection agencies and attorneys, collections from our in-house efforts and collections represented by account sales.

(2) Commissions and fees are the contractual commission earned by third party collection agencies and attorneys, and direct costs associated with the collection effort- generally court costs.

## NOTE 4: FURNITURE AND EQUIPMENT

Furniture and equipment consist of the following as of the dates indicated:

	MARCH 31, 2006	SEPTEMBER 30, 2005
	-----	-----
Furniture.....	\$ 307,000	\$ 307,000
Equipment.....	2,353,000	2,108,000
	-----	-----
	2,660,000	2,415,000
Less accumulated depreciation.....	1,599,000	1,426,000
	-----	-----
Balance, end of period.....	\$ 1,061,000	\$ 989,000
	=====	=====

## ASTA FUNDING, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

## NOTE 5: DEBT

In January 2006, the Company entered into an amended and restated loan and security agreement that increased the line of credit with a consortium of banks from \$100 million to \$125 million. The amended and restated loan and security

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

agreement expiration date remains May 11, 2006. (see below) The line of credit bears interest at the lesser of LIBOR plus an applicable margin, or the prime rate plus or minus an applicable margin based on certain leverage ratios (the applicable rate was 7.25% at March 31, 2006, with an average rate of 6.69% for the six month period ended March 31, 2006). The credit line is collateralized by all portfolios of consumer receivables acquired for liquidation and contains customary financial and other covenants (relative to tangible net worth, interest coverage, and leverage ratio, as defined) that must be maintained in order to borrow funds. As of March 31, 2006, \$72.0 million was outstanding. The Company is currently in negotiations for a new, increased credit facility and has agreed with its lenders to extend the current agreement for sixty days until a new agreement can be finalized.

### NOTE 6: COMMITMENTS AND CONTINGENCIES

#### Employment Agreements

We have an employment agreement with one executive and are in the process of formalizing new employment agreements with two other executive officers. Such agreement and anticipated agreements provide for base salary payments as well as bonuses. The agreements also contain confidentiality and non-compete provisions.

#### Leases

We are a party to two operating leases with respect to our facilities in Englewood Cliffs, New Jersey and Bethlehem, Pennsylvania. Please refer to our consolidated financial statements and notes thereto in our Annual Report on Form 10-K/A, as filed with the Securities and Exchange Commission, for additional information.

#### Litigation

In the ordinary course of our business, we are involved in numerous legal proceedings. We regularly initiate collection lawsuits, using our network of third party law firms, against consumers. Also, consumers occasionally initiate litigation against us, in which they allege that we have violated a federal or state law in the process of collecting their account. We do not believe that these ordinary course matters are material to our business and financial condition. As of May 9, 2006, we were not involved in any material litigation in which we were a defendant.

### NOTE 7: INCOME RECOGNITION

We recognize income on non-performing and performing consumer receivable portfolios, which are acquired for liquidation, using either the interest method or cost recovery method. Upon acquisition of a portfolio of receivables, management estimates the future anticipated cash flows and determines the allocation of payments based upon this estimate. If management can reasonably estimate the expected amount to be collected on a portfolio and can reasonably determine the timing of such payments based on historic experience and other factors, we use the interest method. If management cannot reasonably estimate the future cash flows, we use the cost recovery method.

Under the interest method, we recognize income on the effective yield method based on the actual cash collected during a period and future estimated cash flows and timing of such estimated collections. Finance income arising from collections in excess of anticipated amounts attributed to timing differences, is deferred. The estimated future cash flows are revaluated quarterly. Under the cost recovery method, no finance income is recognized until we have fully collected the cost of the portfolio

We recognize income net of collection fees paid to third-party collection

# Edgar Filing: ASTA FUNDING INC - Form 10-Q

agencies. With respect to amounts collected in-house, such finance income is recognized at the gross amount collected. Income from finance receivables was recognized over the periods from the date of purchase to the estimated collection date.

12

## ASTA FUNDING, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### NOTE 8: INCOME TAXES

The provision for income tax expense reflects income tax expense at an effective rate of approximately 40.5% for the six and three month periods ending March 31, 2006 and 2005.

Deferred federal and state taxes arise from temporary differences resulting primarily from the provision for credit losses and depreciation timing differences.

### NOTE 9: NET INCOME PER SHARE

Basic per share data is determined by dividing net income by the weighted average shares outstanding during the period. Diluted per share data is computed by dividing net income by the weighted average shares outstanding, assuming all dilutive potential common shares were issued. With respect to the assumed proceeds from the exercise of dilutive options, the treasury stock method is calculated using the average market price for the period.

The following table presents the computation of basic and diluted per share data for the six and three months ended March 31, 2006 and 2005:

	SIX MONTHS ENDED MARCH 31,				
	2006			2005	
	NET INCOME	WEIGHTED AVERAGE SHARES	PER SHARE AMOUNT	NET INCOME	WEIGHTED AVERAGE SHARES

## NOTE 10: STOCK-BASED COMPENSATION

The Company accounts for stock-based employee compensation under Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (Revised 2005), Share-Based Payment ("SFAS 123R"). SFAS 123R which the Company adopted October 1, 2005, requires that compensation expense associated with stock options be recognized in the statement of operations, rather than a disclosure in the notes to the Company's consolidated financial statements.

Effective September 30, 2005, the Company accelerated the vesting of all unvested stock options previously awarded to employees, officers and directors under the Company's stock option plans. In order to prevent unintended personal benefits to employees, officers and directors, the Board imposed restrictions on any shares received through the exercise of accelerated options held by those individuals. These restrictions prevent the sale of any stock obtained through exercise of an accelerated option prior to the earlier of the original vesting date or the individual's termination of employment.

13

## ASTA FUNDING, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) (UNAUDITED)

## NOTE 10: STOCK-BASED COMPENSATION (CONTINUED)

Financial Accounting Standards Board ("FASB") Financial Interpretation No. 44 would require the Company to recognize compensation expense under certain circumstances, such as the change in the vesting schedule, that would allow an employee to vest in an option that would have otherwise been forfeited based on the award's original terms. The Company would be required to begin to recognize compensation expense over the new expected vesting periods based on estimates of the numbers of options that employees ultimately will retain that otherwise would have been forfeited, absent the modifications. The accelerated options, absent the acceleration, would substantially have vested over the period October 1, 2005 through April 30, 2007. Such estimates would be based on such factors such as historical and expected employee turnover rates and similar statistics. Of the 587,000 stock option that were affected by the acceleration of the vesting of all stock options as of September 30, 2005, 547,000 are attributable to officers and directors of the Company representing \$9.0 million of the \$9.7 million intrinsic value of the newly vested stock options. The Company is unable to estimate the number of options that employees will ultimately retain that otherwise would have been forfeited, absent the modification. Based on the current circumstances, market price above the grant price, concentration of

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

options awarded to officers and directors and low historical turnover rates, no compensation expense resulting from the new measurement date has been recognized through March 31, 2006 or, prior to the employees' termination. The Company will recognize compensation expense in future periods, should a benefit be realized by the holders of the aforementioned options, which they would not otherwise have been entitled to. In the event the Company grants stock options under the stock option plans, the Company will recognize compensation expense in accordance with Financial Interpretation No. 44. The primary purpose of the accelerated vesting is to eliminate the compensation expense the Company would otherwise recognize in its income statement with respect to these accelerated stock options based upon the adoption of Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (Revised 2005), Share-Based Payment ("SFAS 123R").

Pro-forma net income for the three and six months ended March 31, 2005 if the fair value based method as prescribed by disclosure only provisions of Statement of Financial Accounting Standards ("SFAS") No. 123, Accounting for Stock Based Compensation and SFAS No. 148 Accounting for Stock Based Compensation - Transition and Disclosure" is displayed in the following table.

	SIX MONTHS ENDED MARCH 31, 2005 -----
Net income as reported.....	\$ 13,456,000
Stock based compensation expense	
Determined under fair value method, net of related tax effects.....	(1,114,000) -----
Pro forma net income.....	\$ 12,342,000 =====
Earnings per share:	
Basic -- as reported.....	\$ 1.00 =====
Basic -- pro forma.....	\$ 0.91 =====
Diluted -- as reported.....	\$ 0.94 =====
Diluted -- pro forma.....	\$ 0.86 =====

The weighted average fair value of the options granted during 2005 was \$18.25 per share on the dates of grant, using the Black-Scholes option pricing model with the following assumptions: dividend yield 0.0083% (2005) weighted average volatility 40.128% (2005), expected life 10 years, weighted average risk free interest rate of 4.1900% in 2005.

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

(UNAUDITED)

### NOTE 11: STOCK OPTION PLANS

#### Equity Compensation Plan

On December 1, 2005, the Board of Directors adopted the Company's Equity Compensation Plan (the "Equity Compensation Plan"), subject to the approval of the stockholders of the Company. The Equity Compensation Plan was adopted to supplement the Company's existing 2002 Stock Option Plan. In addition to permitting the grant of stock options as are permitted under the 2002 Stock Option Plan, the Equity Compensation Plan allows the Company flexibility with respect to equity awards by also providing for grants of stock awards (i.e. restricted or unrestricted), stock purchase rights and stock appreciation rights. The Equity Compensation Plan was ratified by the shareholders on March 1, 2006.

The general purpose of the Equity Compensation Plan is to provide an incentive to our employees, directors and consultants, including executive officers, employees and consultants of any subsidiaries, by enabling them to share in the future growth of our business. The Board of Directors believes that the granting of stock options and other equity awards promotes continuity of management and increases incentive and personal interest in the welfare of the Company by those who are primarily responsible for shaping and carrying out our long range plans and securing our growth and financial success.

The Board believes that the Equity Compensation Plan will advance our interests by enhancing our ability to (a) attract and retain employees, directors and consultants who are in a position to make significant contributions to our success; (b) reward employees, directors and consultants for these contributions; and (c) encourage employees, directors and consultants to take into account our long-term interests through ownership of our shares.

#### 2002 Stock Option Plan

On March 5, 2002, the Board of Directors adopted the Asta Funding, Inc. 2002 Stock Option Plan (the "2002 Plan"), which plan was approved by the Company's stockholders on May 1, 2002. The 2002 Plan was adopted in order to attract and retain qualified directors, officers and employees of, and consultants to, the Company. The following description does not purport to be complete and is qualified in its entirety by reference to the full text of the 2002 Plan, which is included as an exhibit to the Company's reports filed with the SEC.

The 2002 Plan authorizes the granting of incentive stock options (as defined in Section 422 of the Code) and non-qualified stock options to eligible employees of the Company, including officers and directors of the Company (whether or not employees) and consultants of the Company.

The Company has 1,000,000 shares of Common Stock authorized for issuance under the 2002 Plan and 404,667 were available as of March 31, 2006. As of March 31, 2006, approximately 140 of the Company's employees were eligible to participate in the 2002 Plan. Future grants under the 2002 Plan have not yet been determined.

#### 1995 Stock Option Plan

The 1995 Stock Option Plan expired on September 14, 2005. The plan was adopted in order to attract and retain qualified directors, officers and employees of, and consultants, to the Company. The following description does not purport to be complete and is qualified in its entirety by reference to the

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

full text of the 1995 Stock Option Plan, which is included as an exhibit to the Company's reports filed with the SEC.

The 1995 Stock Option Plan authorized the granting of incentive stock options (as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the "Code")) and non-qualified stock options to eligible employees of the Company, including officers and directors of the Company (whether or not employees) and consultants of the Company.

The Company authorized 1,840,000 shares of Common Stock authorized for issuance under the 1995 Stock Option Plan. All but 96,002 shares were utilized. As of September 14, 2005, no more options could be issued under this plan.

15

	=====			=====

## NOTE 12: STOCKHOLDERS' EQUITY

For the six months ended March 31, 2006, we declared dividends of \$1,089,000 of which \$545,000 was accrued as of March 31, 2006 and paid May 1, 2006.

## NOTE 13: ACQUISITION

In February 2006 the Company acquired VATIV Recovery Solutions LLC for approximately \$1.4 million in cash. VATV provides nationwide bankruptcy and deceased account servicing. The purchase price has been tentatively and substantially allocated to goodwill.

16

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### OVERVIEW

We are primarily engaged in the business of acquiring, managing, servicing and recovering on portfolios of consumer receivables. These portfolios generally consist of one or more of the following types of consumer receivables:

- o charged-off receivables -- accounts that have been written-off by the originators and may have been previously serviced by collection agencies;
- o semi-performing receivables -- accounts where the debtor is currently making partial or irregular monthly payments, but the accounts may have been written-off by the originators; and
- o performing receivables -- accounts where the debtor is making regular monthly payments that may or may not have been delinquent in the past.

We acquire these consumer receivable portfolios at a significant discount to the amount actually owed by the borrowers. We acquire these portfolios after a qualitative and quantitative analysis of the underlying receivables and calculate the purchase price so that our estimated cash flow offers us an adequate return on our acquisition costs and servicing expenses. After purchasing a portfolio, we actively monitor its performance and review and adjust our collection and servicing strategies accordingly.

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

We purchase receivables from credit grantors and others through privately negotiated direct sales and auctions in which sellers of receivables seek bids from several pre-qualified debt purchasers. We pursue new acquisitions of consumer receivable portfolios on an ongoing basis through:

- o our relationships with industry participants, collection agencies, investors and our financing sources;
- o brokers who specialize in the sale of consumer receivable portfolios; and
- o other sources.

### CAUTIONS WITH RESPECT TO FORWARD LOOKING STATEMENTS

This Form 10-Q contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements typically are identified by use of terms such as "may," "will," "should," "plan," "expect," "believe," "anticipate," "estimate" and similar expressions, although some forward-looking statements are expressed differently. Forward-looking statements represent our management's judgment regarding future events. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. All statements other than statements of historical fact included in this report regarding our financial position, business strategy, products, products under development and clinical trials, markets, budgets, plans, or objectives for future operations are forward-looking statements. We cannot guarantee the accuracy of the forward-looking statements, and you should be aware that our actual results could differ materially from those contained in the forward-looking statements due to a number of factors, including the statements under "Risk Factors" and "Critical Accounting Policies" detailed in our annual report on Form 10-K/A for the year ended September 30, 2005, and other reports filed with the Securities and Exchange Commission.

Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all other documents filed by the Company or with respect to its securities with the Securities and Exchange Commission are available free of charge through our website at [www.astafunding.com](http://www.astafunding.com). Information on our website does not constitute a part of this report. The SEC also maintains an internet site ([www.sec.gov](http://www.sec.gov)) that contains reports and information statements and other information regarding issuers such as ourselves who file electronically with the SEC.

### CRITICAL ACCOUNTING POLICIES

We account for our investments in consumer receivable portfolios, using either:

- o the interest method; or
- o the cost recovery method.

Generally, each purchase is considered a separate portfolio of receivables and is considered a financial investment. Based upon the expected performance characteristics of the receivables in the portfolio, we determine whether the portfolio should be accounted for using the interest method or the cost recovery method. If we can reasonably estimate the amount to be collected on a portfolio and can reasonably determine the timing of such payments based on historic experience and other factors, we use the interest method. If we cannot reasonably estimate the future cash flows, we use the cost recovery method.

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

The Company adjusts the accretable yield upward when it believes, based on available evidence, that the portfolio collections will exceed amounts previously estimated. Portfolios tracking below estimates may result in an impairment charge.

17

The interest method allows us to recognize income on the effective yield of such portfolio based on the actual cash collected during a period and future estimated cash flows and the timing of such collections and the purchase of such portfolios. Under this method, we periodically apply a portion of the actual funds collected as a reduction in the principal amount invested in each specific portfolio and the remainder is recognized as finance income. Generally, these portfolios are expected to amortize over a three to five year period based upon our estimated future cash flows. Historically, a majority of the cash we ultimately collect on a portfolio is received during the first 18 - 24 months after acquiring the portfolio, although additional amounts are collected over the remaining periods. The estimated future cash flows of the portfolios are reevaluated quarterly.

Under the cost recovery method of accounting, no income is recognized until the purchase price of a portfolio has been fully recovered by us.

The estimated future cash flows are reevaluated quarterly. Income on finance receivables is earned based on each static pool's effective IRR. Under the interest method, income is recognized on the effective yield method based on the actual cash collected during a period and future estimated cash flows and timing of such collections and the portfolio's cost. We typically recognize finance income net of collection fees paid to third-party collection agencies and attorneys.

In the following discussions, most percentages and dollar amounts have been rounded to aid presentation. As a result, all figures are approximations.

### RESULTS OF OPERATIONS

THE SIX-MONTH PERIOD ENDED MARCH 31, 2006, COMPARED TO THE SIX-MONTH PERIOD ENDED MARCH 31, 2005

Finance income. During the six-month period ended March 31, 2006, finance income increased \$14.6 million or 47.9% to \$45.1 million from \$30.5 million for the six-month period ended March 31, 2005. The increase in finance income was primarily due to an increase in finance income earned on consumer receivables acquired for liquidation, which resulted from an increase in the average outstanding accounts acquired for liquidation during the six-months ended March 31, 2006, as compared to the same prior year period coupled with revenue recognized by adjustments to accretable yields on certain portfolios. Based on the available information, and based on improved liquidation rates from our third party collection agencies and attorneys, management believes the anticipated collections on these portfolios to be in excess of our original projections. As we believe these improved liquidation rates will continue, we have adjusted our accretable yield by \$31.2 million. The average outstanding accounts increased from \$158.6 million for the six month period ended March 31, 2005 to \$205.0 million for the same period of 2006. During the six-months ended March 31, 2006, we acquired receivables at a cost of \$121.2 million as compared to \$73.3 million during the six-months ended March 31, 2005 and for year ended

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

September 30, 2005, we acquired receivables at a cost of \$126.0 million as compared to \$103.7 million for the year ended September 30, 2004. During the six-month period ended March 31, 2006, the commissions and fees associated with gross collections from our third-party collection agencies and attorneys increased \$17.2 million or 66.6% to \$43.2 million from \$26.0 million for the six-month period ended March 31, 2005. The increase is indicative of a shift to the suit strategy implemented by the Company. As we continue to purchase portfolios and utilize our third party collection agencies and attorney networks, we anticipate these costs will rise, however, they should stabilize in the range of 30% to 32% of gross collections based upon the current mix of the portfolio.

General and Administrative Expenses. During the six-month period ended March 31, 2006, general and administrative expenses increased \$1.9 million, or 26.3% to \$8.8 million from \$6.9 million for the six-months ended March 31, 2005, and represented 81.7% of total expenses (excluding income taxes) for the six months ended March 31, 2006. The increase in general and administrative expenses was primarily due to an increase in receivable servicing expenses during the six-month period ended March 31, 2006, as compared to the same prior year period. The increase in receivable servicing expenses resulted from the substantial increase in our average outstanding accounts acquired for liquidation during the six-months ended March 31, 2006, as compared to the same prior year period with the average balance increasing 29.2 %. A majority of the increased costs were from collection expenses including printing, postage and delivery costs, salary and related benefits, telephone charges, offset by reduced professional fees, as work related to contracts and other legal matters has been brought in-house.

Interest Expense. During the six-month period ended March 31, 2006, interest expense increased to \$2.0 million from \$0.9 million in the same prior year period and represented 18.3% of total expenses (excluding income taxes) for the six-month period ended March 31, 2006. The increase was due to an increase in average outstanding borrowings coupled with a slightly higher interest during the six-month period ended March 31, 2006, as compared to the same period in the prior year. The weighted average balance increased from \$36.9 for the six month period ended March 31, 2005 to \$61.0 million for the same period of fiscal year 2006. The increase in borrowings was due to the increase in acquisitions of consumer receivables acquired for liquidation.

18

THE THREE-MONTH PERIOD ENDED MARCH 31, 2006, COMPARED TO THE THREE-MONTH PERIOD ENDED MARCH 31, 2005

Finance income. During the three-month period ended March 31, 2006, finance income increased \$8.1 million or 49.0% to \$24.8 million from \$16.7 million for the three-month period ended March 31, 2005. The increase in finance income was primarily due to an increase in finance income earned on consumer receivables acquired for liquidation, which resulted from an increase in the average outstanding accounts acquired for liquidation during the six and three-month periods ended March 31, 2006, as compared to the same prior year periods, coupled with revenue recognized by adjustments to accretable yields on certain portfolios. Based on the available information, and based on improved liquidation rates from our third party collection agencies and attorneys, management believes the anticipated collections on these portfolios to be in excess of our original projections. As we believe these improved liquidation rates will continue, we have adjusted our accretable yield by \$31.2 million.

The average balance outstanding increased from \$165.4 million for the second quarter of 2005, to \$243.2 million during the same period of fiscal 2006.

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

During the three months ended March 31, 2006, we acquired receivables at a cost of \$18.8 million, as compared to \$36.8 million during the three months ended March 31, 2005. For year ended September 30, 2005, we acquired receivables at a cost of \$126.0 million as compared to \$103.7 million for the year ended September 30, 2004. During the three-month period ended March 31, 2006, the commissions and fees associated with gross collections from our third-party collection agencies and attorneys increased \$14.4 million or 154.5% to \$23.7 million from \$9.3 million for the three-month period ended March 31, 2005.

**General and Administrative Expenses.** During the three-month period ended March 31, 2006, general and administrative expenses increased \$0.9 million, or 23.5% to \$4.8 million from \$3.9 million for the three-months ended March 31, 2005 and represented 78.8% of total expenses (excluding income taxes) for the three months ended March 31, 2006. The increase in general and administrative expenses was primarily due to an increase in receivable servicing expenses during the three-month period ended March 31, 2006, as compared to the same prior year period. The increase in receivable servicing expenses resulted from the substantial increase in our average outstanding accounts acquired for liquidation during the three-months ended March 31, 2006, as compared to the same prior year period. A majority of the increased costs were from collection expenses including printing, delivery, data processing costs, salaries and related benefits and telephone charges, slightly offset by lower professional fees and postage charges for the quarter.

**Interest Expense.** During the three-month period ended March 31, 2006, interest expense increased to \$1.3 million from \$.5 million in the same period of the prior year and represented 21.2 % of total expenses (excluding income taxes) for the three-month period ended March 31, 2006. The increase was due to an increase in average outstanding borrowings coupled with a slightly higher interest rate during the three-month period ended March 31, 2006, as compared to the same period in the prior year. The increase in borrowings was due to the increase in acquisitions of consumer receivables acquired for liquidation.

### LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of cash from operations include payments on the receivable portfolios that we have acquired. Our primary uses of cash include our purchases of consumer receivable portfolios. We rely significantly upon our lenders to provide the funds necessary for the purchase of consumer and commercial accounts receivable portfolios. While we maintain a \$125 million line of credit for portfolio purchases, we also may arrange financing on a transactional basis. While we have historically been able to finance these purchases, we do not have committed loan facilities, other than our \$125 million line of credit with a consortium of banks. As of March 31, 2006, there was a \$72.0 million outstanding balance under this facility. As of March 31, 2006, our cash and cash equivalents decreased \$0.1 million to \$4.0 million from \$4.1 million at September 30, 2005. The decrease in cash and cash equivalents during the three month period ended March 31, 2006, was due to an increase in consumer receivable purchases, higher dividend and interest payments offset by lower tax payments during the six months ended March 31, 2006, as compared to the same period in the prior year as we were in a pre-paid tax position at the end of September 30, 2005.

Net cash provided by operating activities was \$24.0 million during the six months ended March 31, 2006, compared to net cash provided by operating activities of \$5.0 million during the six months ended March 31, 2005. The increase in net cash provided by operating activities was primarily due to the increase in net income and a decrease in income tax payments and a decrease in the amount due from third party collection agencies and attorneys. Net cash used in investing activities was \$66.1 million during the six months ended March 31, 2006, compared to net cash used by investing activities of \$18.9 million during the six months ended March 31, 2005. The increase in net cash used by investing

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

activities was primarily due to an increase in the purchase of accounts acquired for liquidation during the six months ended March 31, 2006, compared to the same period in the prior year. In addition, the Company acquired Vativ Recovery Solutions, LLC during the second quarter. Net cash provided by financing activities was \$42.0 million and \$13.1 million during the six month periods ended March 31, 2006, and 2005, respectively. The increase in net cash provided by financing activities was primarily due to an increase in

19

borrowings under our line of credit which was due to an increase in accounts acquired for liquidation during the six months ended March 31, 2006, as compared to the same prior year period.

The advances under the credit line are collateralized by portfolios of consumer receivables acquired for liquidation, and the loan agreement contains customary financial and operating covenants that must be maintained in order for us to borrow funds. In January 2006, the line of credit was increased to \$125 million from \$100 million. The Company is currently in negotiations for a new, increased credit facility and has agreed with its lenders to extend the current agreement for sixty days until a new agreement can be finalized.

Our cash requirements have been and will continue to be significant. We depend on external financing to acquire consumer receivables. During the six months ended March 31, 2006, we acquired consumer receivable portfolios at a cost of approximately \$121.2 million. These acquisitions were financed with our credit facility and cash flows from operating activities.

We anticipate the funds available under our current renegotiated credit facility and cash from operations will be sufficient to satisfy our estimated cash requirements for at least the next 12 months. If for any reason our available cash otherwise proves to be insufficient to fund operations (because of future changes in the industry, general economic conditions, unanticipated increases in expenses, or other factors), we may be required to seek additional funding.

From time to time, we evaluate potential acquisitions of related businesses. However, we have not reached any agreement or arrangement with respect to any particular acquisition and we may not be able to complete any acquisitions on favorable terms or at all.

The following tables summarize the changes in the balance sheet of the investment in receivable portfolios during the following:

## ADDITIONAL SUPPLEMENTARY INFORMATION:

We do not anticipate collecting the majority of the purchased principal amounts. Accordingly, the difference between the carrying value of the portfolios and the gross receivables is not indicative of future revenues from these accounts acquired for liquidation. Since we purchased these accounts at significant discounts, we anticipate collecting only a portion of the face amounts. During the six months ended March 31, 2006, we purchased portfolios with an aggregate purchase price of \$121.2 million with a face value of \$2.5 billion.

Prior to October 1, 2005, we accounted for our investment in finance receivables using the interest method under the guidance of Practice Bulletin 6, "Amortization of Discounts on Certain Acquired Loans." Effective October 1, 2005, we adopted and began to account for its investment in finance receivables using the interest method under the guidance of American Institute of Certified Public Accountants ("AICPA") Statement of Position ("SOP") 03-3, "Accounting for Loans or Certain Securities Acquired in a Transfer." Practice Bulletin 6 was amended by SOP 03-3 as described further. Under the guidance of SOP 03-3 (and the amended Practice Bulletin 6), static pools of accounts are established. These pools are aggregated based on certain common risk criteria. Each static pool is recorded at cost and is accounted for as a single unit for the recognition of income, principal payments and loss provision. Once a static pool is established for a quarter, individual receivable accounts are not added to the pool (unless replaced by the seller) or removed from the pool (unless sold

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

or returned to the seller). SOP 03-3 (and the amended Practice Bulletin 6) requires that the excess of the contractual cash flows over expected cash flows not be recognized as an adjustment of revenue or expense or on the balance sheet. The SOP initially freezes the internal rate of return, referred to as IRR, estimated when the accounts receivable are purchased as the basis for subsequent impairment testing. Significant increases in actual, or expected future cash flows may be recognized prospectively through an upward adjustment of the IRR over a portfolio's remaining life. Any increase to the IRR then becomes the new benchmark for impairment testing. Effective for fiscal years beginning October 1, 2005 under SOP 03-3 and the amended Practice Bulletin 6, rather than lowering the estimated IRR if the collection estimates are not received or projected to be received, the carrying value of a pool would be written down to maintain the then current IRR. Income on finance receivables is earned based on each static pool's effective IRR. Under the interest method, income is recognized on the effective yield method based on the actual cash collected during a period and future estimated cash flows and timing of such collections and the portfolio's cost. Revenue arising from collections in excess of anticipated amounts attributable to timing differences is deferred. The estimated future cash flows are reevaluated quarterly.

### COLLECTIONS REPRESENTED BY ACCOUNT SALES

(1) Total collections do not represent full collections of the Company with respect to this or any other year.

(2) Purchase price refers to the cash paid to a seller to acquire a portfolio less the purchase price refunded by a seller due to the return of non-compliant accounts (also defined as put-backs).

(3) Net cash collections include: net collections from our third-party collection agencies and attorneys, collections from our in-house efforts and net collections represented by account sales. Net collections are from the inception of the portfolio acquisition.

(4) Does not include estimated collections from portfolios that are zero bases.

(5) Total estimated collections refers to the actual net cash collections, including cash sales, plus estimated remaining net collections.

### RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123 (revised 2004) Share-Based Payment ("SFAS No.123R"). This statement is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. This Statement supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. This Statement requires that the cost resulting from all share-based payment transactions be recognized in the financial statements. This Statement supersedes the current method utilized by the Company of the disclosure-only provisions of the original SFAS No. 123. The effective date for implementation of SFAS No. 123R for the Company was October 1, 2005. The Company had been disclosing the impact on net income and earnings per share since the adoption of the original SFAS No. 123 and its amendment, SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure" in the notes to the financial statements. As permitted by SFAS 148 and SFAS 123, we continued to apply the accounting provisions of Accounting Principles Board Opinion Number 25, "Accounting for Stock Issued to Employees," and related interpretations, with regard to the measurement of compensation cost for options granted under our Stock Option Plans through September 30, 2005. No employee compensation expense has been recorded as all options granted had an exercise price equal to the market value of the underlying common stock on the date of grant. No stock options were awarded during the six month period ended March 31,

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

2006.

In October 2003, the American Institute of Certified Accountants issued Statement of Position ("SOP") 03-03, "Accounting for Loans or Certain Securities Acquired in a Transfer." This SOP proposes guidance on accounting for differences between contractual and expected cash flows from an investor's initial investment in loans or debt securities acquired in a transfer if those differences are attributable, at least in part, to credit quality. Increases in expected cash flows should be recognized prospectively through an adjustment of the internal rate of return while decreases in expected cash flows should be recognized as impairment. This SOP became effective October 1, 2005. We believe the implementation of this SOP will make it more likely that an impairment loss may be recorded some time in the future, although through March 31, 2006, no impairment loss has been recorded.

SFAS No. 153, "Exchanges of Nonmonetary Assets - an amendment of APB Opinion No. 29" ("SFAS 153") addresses the measurement of exchanges of nonmonetary assets. It eliminates the exception from fair value accounting for nonmonetary exchange of similar productive assets and replaces it with an exception for exchanges that do not have commercial substance.

23

SFAS 153 specifies that a nonmonetary exchange has commercial substance if the future cash flows of an entity are expected to change significantly as a result of the exchange. This statement became effective October 1, 2005. This statement is not expected to have an impact on the Company's financial results.

In May 2005, the FASB issued SFAS 154, Accounting Changes and Error Corrections - a replacement of APB Opinion No. 20 and FASB Statement No. 3" (SFAS 154), which requires a retrospective application to prior periods' financial statements of changes in accounting principle for all periods presented. This statement replaces APB Opinion No. 20 which required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. The provisions of SFAS 154 are effective for fiscal years beginning after December 15, 2006, the Company's fiscal year 2008. This statement is not expected to have an impact on the Company's financial results.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various types of market risk in the normal course of business, including the impact of interest rate changes and changes in corporate tax rates. A material change in these rates could adversely affect our operating results and cash flows. A 25 basis-point increase in interest rates could increase our annual interest expense by \$25,000 for each \$10 million of variable debt outstanding for the entire fiscal year. We do not invest in derivative financial or commodity instruments.

### ITEM 4. CONTROLS AND PROCEDURES

#### a. Disclosure Controls and Procedures.

During the six month period ended March 31, 2006, our management, including the principal executive officer and principal financial officer, evaluated our

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) related to the recording, processing, summarization and reporting of information in our reports that we file with the SEC. These disclosure controls and procedures have been designed to ensure that material information relating to us, including our subsidiaries, is made known to our management, including these officers, by other of our employees, and that this information is recorded, processed, summarized, evaluated and reported, as applicable, within the time periods specified in the SEC rules and forms. Due to the inherent limitations of control systems, not all misstatements may be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons by collusion of two or more people, or by management override of the control. Our controls and procedures can only provide reasonable, not absolute, assurance that the above objectives have been met.

Based on their evaluation as of March 31, 2006, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to reasonably ensure that the information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

### b. Changes in Internal Controls Over Financial Reporting.

There have been no changes in our internal control over financial reporting that occurred during our last fiscal quarter to which this Quarterly Report on Form 10-Q relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

24

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of our business, we are involved in numerous legal proceedings. We regularly initiate collection lawsuits, using our network of third party law firms, against consumers. Also, consumers occasionally initiate litigation against us, in which they allege that we have violated a federal or state law in the process of collecting their account. We do not believe that these ordinary course matters are material to our business and financial condition. As of May 9, 2006, we were not involved in any material litigation in which we were a defendant.

### ITEM 1A. RISK FACTORS

There were no material changes in any risk factors previously disclosed in the Company's Report on Form 10-K/A filed with the Securities & Exchange Commission.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

### ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

## Edgar Filing: ASTA FUNDING INC - Form 10-Q

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company held its annual meeting on March 1, 2006. At that meeting, the following matters were voted on and received the votes indicated:

Election of Directors -----	For ---	Authority Withheld -----
Gary Stern .....	11,839,393	518,361
Arthur Stern .....	11,838,367	519,387
Herman Badillo .....	11,604,266	753,488
David Slackman.....	11,773,019	584,735
Edward Celano .....	11,640,600	717,154
Harvey Leibowitz .....	11,542,656	815,098
Alan Rivera .....	11,908,539	449,215
Louis A. Piccolo .....	12,004,626	353,128
