CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	Amount to be registered (1)	Proposed maximum offering price per share	Proposed maximum aggregate offering price	Amount registered
Shares of common stock	40,500,000	\$0.66(2)	\$26,730,000.00	
Shares of common stock issuable upon exercise of warrants	17,504,688	\$0.66(2)	\$11,533,094.08	
Total	58,004,688			

(1) Includes shares of our common stock, par value \$0.001 per share, which may be offered pursuant to this registration statement, which shares are currently outstanding or issuable upon the exercise of warrants held by the selling stockholders. In addition to the shares set forth in the table, the amount to be registered includes an indeterminate number of shares issuable upon exercise of the warrants as such number may be adjusted as a result of stock splits, stock dividends and similar transactions in accordance with Rule 416. Should a decrease in the exercise price for our warrants as a result of an issuance or sale of shares below the then current market price, result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

(2) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(c) under the Securities Act of 1933, using the average of the high and low price as reported on the Over-The-Counter Bulletin Board on December 7, 2005, which was \$0.66 per share.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become

effective on such date as the commission, acting pursuant to said Section 8(a), may determine.

PRELIMINARY PROSPECTUS SUBJECT TO COMPLETION, DATED DECEMBER 20, 2005

BRAVO! FOOD INTERNATIONAL CORP.
58,004,688 SHARES OF
COMMON STOCK

This prospectus relates to the resale by the selling stockholders up to 58,004,688 shares of our common stock, including the following:

- o 40,500,000 shares of our common stock;
- o up to 15,492,188 shares issuable upon the exercise of common stock purchase warrants at \$0.80.
- o up to 1,012,500 shares issuable upon the exercise of common stock purchase warrants at \$0.50; and
- o up to 1,000,000 shares issuable upon the exercise of common stock purchase warrants at \$0.05

The selling stockholders may sell common stock from time to time in the principal market on which the stock is traded at the prevailing market price or in negotiated transactions. The selling stockholders may be deemed underwriters of the shares of common stock, which they are offering. We will pay the expenses of registering these shares.

Our common stock is registered under Section 12(g) of the Securities Exchange Act of 1934 and is listed on the Over-The-Counter Bulletin Board under the symbol "BRVO". The last reported sales price per share of our common stock as reported by the Over-The-Counter Bulletin Board on December 7, 2005, was \$0.66.

PROSPECTUS SUMMARY

The following summary highlights selected information contained in this prospectus. This summary does not contain all the information you should consider before investing in the securities. Before making an investment decision, you should read the entire prospectus carefully, including the "risk factors" section, the financial statements and the notes to the financial statements.

BRAVO! FOODS INTERNATIONAL CORP.

We are involved in the development and marketing of our Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters, and the granting of production and marketing rights to processor dairies to produce branded flavored milk and generating revenue through the sale of "kits" to these dairies outside of the United States and through wholesale sales within the United States. The price of the "kits" consists of an invoiced price for a fixed amount of flavor ingredients per kit used to produce the flavored milk and a fee charged to the dairies for the production, promotion and sales rights for the branded flavored milk. In the United States, we also generate revenue from the unit sales of finished branded flavored milks to retail consumer outlets.

Our new product introduction and growth expansion continue to be expensive and we reported a net loss of \$3,016,987 for the year ended December 31, 2004 and a net loss of \$3,799,926 for the year ended December 31, 2003. In addition, we had a net loss of \$7,485,371 for the nine months ended September 30, 2005. We have suffered operating losses and negative cash flows from operations since inception and, at December 31, 2004, we had an accumulated deficit, a capital deficit, are delinquent on certain debts and have negative working capital. These conditions give rise to substantial doubt about our ability to continue as a going concern.

Our principal offices are located at 11300 US Highway 1, North Palm Beach, Florida 33408, and our telephone number is (561) 625-1411. We are a Delaware corporation.

To obtain funding for our ongoing operations, we entered into the following financing transaction:

On November 28, 2005, we closed a funding transaction with 13 accredited institutional investors, for the issuance and sale of 40,500,000 shares of our common stock for a purchase price of \$20,250,000. We also issued five-year warrants for the purchase of an additional 15,187,500 shares of common stock at an exercise price of \$0.80 per share to these investors. In connection with this financing, we issued a five-year common stock purchase warrant to purchase of 1,012,500 shares of common stock at an exercise price of \$0.50 and 304,688 shares at an exercise price of \$0.80 to SG Cowen & Co., LLC, for its services as a Placement Agent in connection with this funding transaction. The securities are restricted and have been issued pursuant to an exemption to the registration requirements of Section 5 of the Securities Act of 1933 for "transactions of the issuer not involving any public offering" provided in Section 4(2) of the Act and pursuant to a Regulation D offering.

The shares of common stock and the shares of common stock underlying the warrants carry registration rights that obligate us to file a registration statement within 45 days from closing and have the registration statement declared effective within 120 days from closing.

In connection with an intellectual property licenses, we entered into the following:

On June 20, 2005, we issued a one year warrant for the purchase of 1,000,000 shares of common stock at an exercise price of \$0.05 per share to Marvel Enterprises, Inc., pursuant to an April 14, 2005 Services Agreement for marketing, promotional and creative services to be performed by Marvel Enterprises, Inc. in connection with an intellectual property license between our company and Marvel Enterprises, Inc.

This prospectus relates to the resale of the shares of common stock and the shares of common stock issued or to be issued upon exercise of common stock purchase warrants in connection with the November 28, 2005 private placement and the shares of common stock issuable upon exercise of common stock purchase warrants issued in connection with the April 14, 2005 Services Agreement.

3

RISK FACTORS

This investment has a high degree of risk. Before you invest you should carefully consider the risks and uncertainties described below and the other

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

information in this prospectus. If any of the following risks actually occur, our business, operating results and financial condition could be harmed and the value of our stock could go down. This means you could lose all or a part of your investment.

Risks Relating to Our Business:

We Have a History Of Losses Which May Continue, Requiring Us To Seek Additional Sources of Capital Which May Not Be Available, Requiring Us To Curtail Or Cease Operations.

Our new product introduction and growth expansion continue to be expensive and we reported a net loss of \$3,016,987 for the year ended December 31, 2004 and a net loss of \$3,799,926 for the year ended December 31, 2003. In addition, we had a net loss of \$7,485,371 for the nine months ended September 30, 2005. We cannot assure you that we can achieve or sustain profitability on a quarterly or annual basis in the future. If revenues grow more slowly than we anticipate, or if operating expenses exceed our expectations or cannot be adjusted accordingly, we will continue to incur losses. We will continue to incur losses until we are able to establish significant sales. Our possible success is dependent upon the successful development and marketing of our services and products, as to which there is no assurance. Any future success that we might enjoy will depend upon many factors, including factors out of our control or which cannot be predicted at this time. These factors may include changes in or increased levels of competition, including the entry of additional competitors and increased success by existing competitors, changes in general economic conditions, increases in operating costs, including costs of supplies, personnel, marketing and promotions, reduced margins caused by competitive pressures and other factors. These conditions may have a materially adverse effect upon us or may force us to reduce or curtail operations. In addition, we will require additional funds to sustain and expand our sales and marketing activities, particularly if a well-financed competitor emerges. While we closed on \$20,250,000 in new equity financing in November 2005, after the payment of approximately \$1.5 million in fees and expenses, we have allocated approximately \$1.7 million of the net proceeds for the payment of a finders fee in connection with our execution of a Master Distribution Agreement with Coca-Cola Enterprises Inc. and approximately \$5.4 million for the redemption of approximately 30.3 million warrants, and have allocated approximately \$11.7 million for general working expenses. There can be no assurance that this financing will be adequate for the development and marketing of our services and products at a level that provides sufficient profitability for sustained growth. If the present funds prove sufficient and we are unable to generate adequate funds from operations or external sources, we would be required to curtail or cease operations.

If We Are Unable to Achieve and Sustain Profitability, Our Business Operations Will be Harmed and If We Obtain Additional Financing Our Then Existing Shareholders May Suffer Substantial Dilution.

Additional capital may be required to effectively support the operations and to otherwise implement our overall business strategy. However, there can be no assurance that financing will be available when needed on terms that are acceptable to us. The inability to obtain additional capital will restrict our ability to grow and may reduce our ability to continue to conduct business operations. If we are unable to obtain additional financing, we will likely be required to curtail our marketing and development plans and possibly cease our operations. Any additional equity financing may involve substantial dilution to our then existing shareholders.

Our Independent Auditors Have Expressed Substantial Doubt About Our Ability to Continue As a Going Concern, Which May Hinder Our Ability to Obtain Future Financing.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

In their report dated March 4, 2005, our independent auditors stated that our financial statements for the year ended December 31, 2004 were prepared assuming that we would continue as a going concern. Our ability to continue as a going concern is an issue raised as a result of a net loss for the year ended December 31, 2004 in the amount of \$3,799,926. We continue to experience net operating losses. Our ability to continue as a going concern is subject to our ability to generate a profit and/or obtain necessary funding from outside sources, including obtaining additional funding from the sale of our securities, increasing sales or obtaining loans and grants from various financial institutions where possible. Our continued net operating losses increases the difficulty in meeting such goals and there can be no assurances that such methods will prove successful.

4

Since we depend upon key personnel having significant business contacts in the US and internationally, the loss of one or more of our management team may have a negative effect on our business.

The unexpected loss of the services of any member of the management team could have a material adverse effect on our ability to conduct and grow both our US and international business. We are and will be dependent on our current management teams for the foreseeable future

- o to obtain needed additional financing
- o to develop and maintain critical business contacts for the production of our branded milk products
- o to develop and maintain third party licensor and brand development contacts for the formulation of new brand development and branded food products

We face intense competition in our US market that could negatively impact our results of operations

Since we are smaller than our competitors in the US market and since we have limited resources and sell our branded products at premium prices, we have had difficulty in developing and maintaining our market share in the consumer milk market. This difficulty could adversely affect our ability to achieve our business goals to develop and increase the awareness of our branded products in an effort to increase sales, while maintaining a premium price structure.

The ability of our competition to sell dairy and other food products at prices below prices charged by us for our products may represent an obstacle to our ability to secure a market share at revenue levels sufficient to achieve profitability.

In our foreign business, we grant the rights to produce and sell branded milk products to processor dairies under production agreements. Our role in these agreements, in addition to granting the rights to produce the branded milks as part of the sale of flavor ingredient packages to dairies, is limited to marketing and promotion assistance and control over packaging and advertising design issues. Such processors dairies have significant control over sales and distribution of the branded milk products.. A reduction in sales effort or discontinuance of sales of our products by our co-producers could lead to reduced sales.

Risks Relating to Convertible Preferred and Convertible Debenture Financing Arrangement:

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

There Are a Large Number of Shares Underlying Our Convertible Debentures and Warrants That May be Available for Future Sale and the Sale of These Shares May Depress the Market Price of Our Common Stock.

As of December 7, 2005, we had 181,753,751 shares of common stock issued and outstanding and convertible debentures outstanding that may be converted into an estimated 31,329,273 shares of common stock at below market prices, convertible preferred outstanding that may be converted into an estimated 8,047,038 shares of common stock at below market prices outstanding warrants to purchase 64,291,697 shares of common stock and options to purchase 11,958,459 shares of common stock. All of the shares, including all of the shares issuable upon conversion of the debentures and upon exercise of our warrants, may be sold pursuant to a currently effective registration statement or pursuant to Rule 144. The sale of these shares may adversely affect the market price of our common stock.

The Issuance of Shares Upon Conversion of the Convertible Debentures and Exercise of Outstanding Warrants May Cause Immediate and Substantial Dilution to Our Existing Stockholders.

The issuance of shares upon conversion of the convertible debentures and exercise of warrants may result in substantial dilution to the interests of other stockholders since the selling stockholders may ultimately convert and sell the full amount issuable on conversion. Although the debenture holders may

5

not convert their convertible debentures and/or exercise their warrants if such conversion or exercise would cause them to own more than 9.99% of our outstanding common stock, this restriction does not prevent the selling stockholders from converting and/or exercising some of their holdings, selling these shares and then converting the rest of their holdings. In this way, the debenture holders could sell more than this limit while never holding more than this limit.

If We Are Required for any Reason to Repay Our Outstanding Convertible Debentures, We Would Be Required to Deplete Our Working Capital, If Available, Or Raise Additional Funds. Our Failure to Repay the Convertible Debentures, If Required, Could Result in Legal Action Against Us, Which Could Require the Sale of Substantial Assets.

In November 2003, April 2004, June 2004, October 2004, December 2004, January 2005 and April 2005, we entered into financing arrangements for the sale of \$5,750,000 principal amount of convertible debentures. Currently, the remaining unpaid principal of the issued notes is \$766,666, with approximately \$85,350 in accrued interest

Any event of default could require the early repayment of the convertible debentures, including a default interest rate if the default is not cured with the specified grace period. We anticipate that the full amount of the convertible debentures, together with accrued interest, will be converted into shares of our common stock, in accordance with the terms of the convertible debentures. If we are required to repay the convertible debentures, we would be required to use our working capital or raise additional funds. If we were unable to repay the debentures when required, the debenture holders could commence legal action against us to recover the amounts due. Any such action may require us to obtain additional financing or curtail operations.

Risks Relating to Our Common Stock:

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

If We Fail to Remain Current on Our Reporting Requirements, We Could be Removed From the OTC Bulletin Board Which Would Limit the Ability of Broker-Dealers to Sell Our Securities and the Ability of Stockholders to Sell Their Securities in the Secondary Market.

Companies trading on the OTC Bulletin Board, such as us, must be reporting issuers under Section 12 of the Securities Exchange Act of 1934, as amended, and must be current in their reports under Section 13, in order to maintain price quotation privileges on the OTC Bulletin Board. If we fail to remain current on our reporting requirements, we could be removed from the OTC Bulletin Board. As a result, the market liquidity for our securities could be severely adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market.

Our Common Stock is Subject to the "Penny Stock" Rules of the SEC and the Trading Market in Our Securities is Limited, Which Makes Transactions in Our Stock Cumbersome and May Reduce the Value of an Investment in Our Stock.

The Securities and Exchange Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- o that a broker or dealer approve a person's account for transactions in penny stocks; and
- o the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- o obtain financial information and investment experience objectives of the person; and
- o make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

6

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- o sets forth the basis on which the broker or dealer made the suitability determination; and
- o that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

7

USE OF PROCEEDS

This prospectus relates to shares of our common stock that may be offered and sold from time to time by the selling stockholders. We will not receive any proceeds from the sale of shares of common stock in this offering. In the event that we received proceeds from the exercise of the Class A, Class B Warrants and other warrants, we will use these funds for working capital.

Dividends

We have not paid dividends on our common stock and do not anticipate paying dividends. Management intends to retain future earnings, if any, to finance working capital, to expand our operations and to pursue our acquisition strategy.

The holders of common stock are entitled to receive, pro rata, such dividends and other distributions as and when declared by our board of directors out of the assets and funds legally available therefor. The availability of funds is dependent upon dividends or distribution of profits from our subsidiaries and may be subject to regulatory control and approval by the appropriate government authorities on either a regional or national level.

Preferred Stock

We have accrued dividends for our convertible preferred stock in the amount of \$339,904 at December 31, 2003, \$388,632 for the period ended December 31, 2004 and \$236,001 for the period ended September 30, 2005.

As of December 7, 2005, we have issued and outstanding 107,440 shares of Series B convertible preferred stock; 5,248 shares of Series F convertible preferred stock; 64,500 shares of shares of Series H convertible preferred stock; 200,000 shares of Series J convertible preferred stock; and 95,000 shares of Series K convertible preferred stock. With the exception of the Series B stock, which is convertible on a one share of common for one share of preferred basis, the remaining convertible preferred has a stated value of \$10.00 per share and, in the aggregate, are convertible into 31,221,830 shares of our common stock

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Series B shares are not redeemable. Series F shares are redeemable at the option of the Holder at 125% of the stated value, if the Company is in default of the material terms of the Series F operative documents, including the Certificate of designation and the Subscription Agreement. Series H, J and K shares are redeemable at the option of the company at 135% of the stated value, commencing two years after issuance of the preferred and upon two days notice by the Company. The Holders of the Series H, J and K shares have the right to convert the preferred to common shares during the two day notice period.

Securities authorized for issuance under equity compensation plans

The equity compensation reported in this section has been and will be issued pursuant to individual compensation contracts and arrangements with employees, directors, consultants, advisors, vendors, suppliers, lenders and service providers. The equity is reported on an aggregate basis as of December 31, 2004. Our security holders have not approved the compensation contracts and arrangements underlying the equity reported.

(1) On April 6, 2005, our Directors voted to adopt a Stock Option Incentive Plan for the grant of option to directors, employees and consultants for the purchase of up to 10,397,745 shares of our common stock. On May 12, 2005, the Board of Directors accepted and adopted the determination of the Compensation Committee to grant 9,147,745 of the authorized option to our directors and senior management. The individual option contracts have not yet been issued; we anticipate such issuance before December 31, 2005.

Compensation Plans

Directors

On March 27, 2001, we issued options to our directors to purchase an aggregate of 925,000 shares of our common stock. The options have an exercise price of \$0.75 and expire March 26, 2006. Directors received options for 35,000 shares for each full year of service and an additional 40,000 shares for service on a board committee. On August 14, 2001, we issued 250,000 options to the Board of Directors for services rendered as directors. Each director received options for 25,000 shares of common stock at an exercise price of \$0.60. The options can

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

be exercised for five years.

9

On January 13, 2004, the Board of Directors adopted a plan to convert on a one for one basis the options granted to our present employees and the directors currently serving on the Board into a like number of our restricted shares of common stock at the then market value of \$0.08 per share. The conversion of the options to common stock for any individual director or employee was conditioned upon a "lockup" agreement by such director or employee, pursuant to which the recipients of such common stock could not sell, transfer, pledge or hypothecate such common stock for a six-month period.

On April 6, 2005, our Directors voted to adopt a Stock Option Incentive Plan for the grant of options to directors, employees and consultants for the purchase of up to 10,397,745 shares of our common stock. On May 12, 2005, the Board of Directors accepted and adopted the determination of the Compensation Committee to grant 3,572,744 of the authorized options to our directors.

Senior Management

On April 6, 2005, our Directors voted to adopt a Stock Option Incentive Plan for the grant of options to directors, employees and consultants for the purchase of up to 10,397,745 shares of our common stock. On May 12, 2005, the Board of Directors accepted and adopted the determination of the Compensation Committee to grant 4,900,000 of the authorized option to our senior management.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Some of the information in this Form SB-2 contains forward-looking statements that involve substantial risks and uncertainties. You can identify these statements by forward-looking words such as "may," "will," "expect," "anticipate," "believe," "estimate" and "continue," or similar words. You should read statements that contain these words carefully because they:

- o discuss our future expectations;
- o contain projections of our future results of operations or of our financial condition; and
- o state other "forward-looking" information.

We believe it is important to communicate our expectations. However, there may be events in the future that we are not able to accurately predict or over which we have no control. Our actual results and the timing of certain events could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under "Risk Factors," "Business" and elsewhere in this prospectus. See "Risk Factors."

OVERVIEW

Our business model includes the development and marketing of our company owned Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters and the granting of production and marketing rights to processor

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

dairies to produce branded flavored milk. We generate revenue in our international (non-US) business through the sale of "kits" to these dairies. The price of the "kits" consists of an invoiced price for a fixed amount of flavor ingredients per kit used to produce the flavored milk and a fee charged to the dairy processors for the production, promotion and sales rights for the branded flavored milk. In the United States, we generate revenue from the unit sales of finished branded flavored milks to retail consumer outlets.

Our new product introduction and growth expansion continues to be expensive, and we reported a net loss of \$7,485,731 for the nine-month period ended September 30, 2005. As shown in the accompanying financial statements, we have suffered operating losses and negative cash flows from operations since inception and at September 30, 2005 had an accumulated deficit of \$41,485,761 and negative working capital of \$4,105,854. These conditions give rise to substantial doubt about our ability to continue as a going concern. As discussed herein, we plan to work toward profitability in our U.S. and international business and obtain additional financing. While there is no assurance that funding will be available or that we will be able to improve our operating results, we are continuing to seek equity and/or debt financing. No assurances can be given, however, that management will be successful in carrying out our plans.

CORPORATE GOVERNANCE

The Board of Directors

Our board has positions for seven directors that are elected as Class A or Class B directors at alternate annual meetings of our shareholders. We currently have one open position on the Board. Five of the six current directors of our board are independent. Our chairman and chief executive officer are separate. The board meets regularly, at least four times a year, and all directors have access to the information necessary to enable them to discharge their duties. The board, as a whole, and the audit committee in particular, reviews our financial condition and performance on an estimated vs. actual basis and financial projections as a regular agenda item at scheduled periodic board meetings, based upon separate reports submitted by the Company's chief executive officer and chief financial officer. Directors are elected by our shareholders after nomination by the board or are appointed by the board when a vacancy arises prior to an election. We have adopted a nomination procedure based upon a rotating nomination committee made up of those members of the director Class not up for election. The board presently is examining whether this procedure, as well as the make up of the audit and compensation committees, should be the subject of an amendment to the by-laws.

11

Audit Committee

Our audit committee is composed of three independent directors and functions to assist the board in overseeing our accounting and reporting practices. Our financial information is booked in house by our CFO's office, from which we prepare financial reports. These financial reports are audited or reviewed by Lazar Levine & Felix LLP, independent registered certified accountants and auditors. Our chief financial officer reviews the preliminary financial and non-financial information prepared in house with our securities counsel and the auditors. The committee reviews the preparation of our audited and unaudited periodic financial reporting and internal control reports prepared by our chief financial officer. The committee reviews significant changes in accounting policies and addresses issues and recommendations presented by our internal and external certified accountants as well as our auditors. Currently,

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

there is one vacancy on the audit committee.

Compensation Committee

Our compensation committee is composed of three independent directors who review the compensation structure and policies concerning executive compensation. The committee develops proposals and recommendations for executive compensation and presents those recommendations to the full board for consideration. The committee periodically reviews the performance of our other members of management and the recommendations of the chief executive officer with respect to the compensation of those individuals. Given the size of our company, the board periodically reviews all such employment contracts. The board must approve all compensation packages that involve the issuance of the Company's stock or stock options.

Nominating Committee

The nominating committee was established in the second quarter 2002 and consists of those members of the director Class not up for election. The committee is charged with determining those individuals who will be presented to the shareholders for election at the next scheduled annual meeting. The full board fills any mid term vacancies by appointment.

CRITICAL ACCOUNTING POLICIES

Estimates

This discussion and analysis of our consolidated financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our estimates, including those related to reserves for bad debts and valuation allowance for deferred tax assets. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the result of which forms the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates under different assumptions or conditions. Our use of estimates, however, is quite limited as we have adequate time to process and record actual results from operations.

Revenue recognition

United States

We recognize revenue in the United States at the gross amount of our invoices for the sale of finished product to wholesale buyers. We take title to our branded flavored milks when they are shipped by our third party processors and recognize as revenue the gross wholesale price charged to our wholesale customers. Our gross margin is determined by the reported wholesale price less the cost charged by Jasper Products, our third party processor, to produce the branded milk products.

Prior to 2004, we reported revenue in the United States from its sale of "kits" to third party processors and from the differential between the cost of

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

producing its finished product and the wholesale price of its finished product. Commencing in the first quarter 2004, we no longer employ the "kit" model in the United States and we report revenue from our sale of finished product on the wholesale level. We report the cost of producing the product charged by a third party processor as the cost of goods sold. This change in revenue recognition has resulted in materially higher reported revenue for our company, with a corresponding material increase in reported costs of goods sold.

In certain circumstances in our U.S. business, we are required to pay slotting fees, give promotional discounts or make marketing allowances in order to secure wholesale customers. These payments, discounts and allowances reduce our reported revenue in accordance with the guidelines set forth in EITF 01-9 and SEC Staff Accounting Bulletin No. 104.

International Sales

We recognize revenue in our international (non US) business at the gross amount of our invoices for the sale of kits at the time of shipment of flavor ingredients to processor dairies with whom we have production contracts for extended shelf life and aseptic long life milk. We base this recognition on our role as the principal in these transactions, its discretion in establishing kit prices (including the price of flavor ingredients and production right fees), its development and refinement of flavors and flavor modifications, our discretion in supplier selection and our credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model consists of the cost of the processors' purchase of flavor ingredients and fees charged by our company to the processors for production rights. We formulate the price of production rights to cover our intellectual property licenses, which varies by licensor as a percentage of the total cost of a kit sold to the processor dairy under the production agreement. We recognize revenue on the gross amount of "kit" invoices to the dairy processors and simultaneously records as cost of goods sold the cost of flavor ingredients paid by the processor dairies to ingredients supplier. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped.

Pursuant to EITF 99-19, international sales of kits made directly to customers by the Company are reflected in the statements of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue.

RESULTS OF OPERATIONS

Financial Condition at September 30, 2005

As of September 30, 2005, we had an accumulated deficit of \$41,485,761, cash on hand of \$553,857 and reported total capital surplus of \$7,544,377.

For the nine month period ended September 30, 2005, we had revenue of \$6,591,693 and general and administrative expense of \$2,345,041.

After interest expenses of \$293,415, cost of goods sold of \$4,719,011, product development costs of \$194,955 and selling expenses of \$3,525,002 incurred in the operations of the Company, we had a net loss of \$7,485,731. Of this net loss amount, \$3,000,000 has been recorded in the quarter ending September 30, 2005 as a one time, non-recurring finder's fee payable to a third-party in connection with the execution of the Master Distribution Agreement with Coca-Cola Enterprises, Inc.

Nine Months Ended September 30, 2005 Compared to the Nine Months Ended September 30, 2004

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Consolidated Revenue

We had revenues for the nine months ended September 30, 2005 of \$6,591,693, with cost of sales of \$4,719,011, resulting in a gross margin of \$1,872,682. This revenue and resultant gross margin are net of slotting fees,

13

promotional discounts and marketing allowances for this period in the amount of \$330,699. Of the reported revenue, U.S. sales accounted for \$6,269,747, with \$288,596 from UK unit sales and an additional \$33,350 from international kit sales in the Middle East. We did not have revenue in this period in Canada or Mexico. Our reported revenue for the nine months ended September 30, 2005 increased by \$3,886,701, a 143.69% increase compared to revenue of \$2,704,992 for the same period in 2004. This increase is the result of the Company's development of new branded product lines in the United States, including the 2005 launch of our Slammers(R) line of Mars' Starburst, MilkyWay and 3 Musketeers flavored milk drinks. Our launch of Mars Slammers(R) line in the first quarter 2005 achieved market penetration in over 30,000 grocery and convenience stores for this line by September 30, 2005.

Consolidated Cost of Sales

We incurred cost of goods sold of \$4,719,011 for the nine months ended September 30, 2005, \$4,506,616 of which was incurred in our U.S. business, \$209,782 in connection with our UK operation and \$2,613 in connection with our international sales in the Middle East. Cost of goods sold in this period increased by \$2,825,177 a 149.18% increase compared to \$1,893,834 for the same period in 2004. The increase in cost of goods sold reflects an increase in sales, the concomitant increase in reported cost of goods sold associated with that increase and the economic inefficiencies of low production volume associated with the initial launch of the Slammers(R) line in the UK.

In countries except the United States and the United Kingdom, our revenue is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for flavored milks and production rights to manufacture and sell the milks. In line with our revenue recognition policies, we recognize the full invoiced kit price as revenue, less the cost of production charged by the processor, which we record as cost of goods sold.

In the United States and the United Kingdom, we are responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, we recognize as revenue the invoiced wholesale prices that we charge to the retail outlets that purchase the Slammers(R) flavored milks. We report as cost of goods sold the price charged to the Company by third party processors that produce the finished Slammers(R) products.

Segmented Revenues and Costs of Sales

The following table presents revenue by source and type against costs of goods sold, as well as combined gross revenues and gross margins. In countries other than the United States and the United Kingdom, revenues for the period ended September 30 2005 were generated by kit sales to third party processors. The Company's revenue from the sale of finished product to retail outlets is recorded as "unit sales" on the following table.

14

United States

Revenues for the period ended September 30, 2005 from unit sales in the United States increased from \$2,236,383 for the same period in 2004 to \$6,269,747 in 2005, a 180.4% increase. The increase is the result of the introduction of the Company's new product lines during this period.

In the period ended September 30, 2005, our gross margin for U.S. sales of \$1,763,131, increased by \$1,281,719, or by 266.24%, from \$481,412 for the same period in 2004. The increase in gross margin was the result of the increased sales and greater efficiencies in the production of our products.

Foreign Sales

Revenues for the period ended September 30, 2005 from sales in foreign countries decreased from \$403,148 for the same period in 2004 to \$321,946, a 20.14 % decrease. The decrease is the result of the lack of sales in Mexico and a reduction of sales in the Middle East during this period, offset by the commencement of sales in the United Kingdom.

We recorded \$212,395 in costs of sales in foreign countries for the period ended September 30, 2005, an increase of \$138,993 or 189.36% from \$73,402 for the same period in 2004. The increase was the result of the costs associated with establishing a new business in the United Kingdom based upon the Company's unit sales model.

For the period ended September 30, 2005, our gross profit of \$109,551 for

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

sales in foreign countries decreased by \$220,195, or 66.78%, from \$329,746 for the same period in 2004. The decrease in gross profit was consistent with the decrease in sales volume for this period.

Consolidated Operating Expenses

We incurred selling expenses of \$3,525,002 for the period ended September 30, 2005, \$3,260,493 of which was incurred in our United States operations. Our selling expense for this period increased by \$2,254,960, a 177.5% increase compared to our selling expense of \$1,270,042 for the same period in 2004. The increase in selling expenses in the current period was due to increased freight and promotional charges, including media advertising, associated with increased sales and our development of four new product lines, utilizing newly licensed and directly owned branded trademarks. In addition, the Company recorded \$99,168, pro-rata, of an \$11,900,000 net charge in deferred distribution costs for the issuance of a three warrant to Coca-Cola Enterprises to purchase of 30,000,000 shares of our common stock in connection with the execution of a Master Distribution Agreement. The Company will recognize that cost as a selling expense over the 10-year term of the Master Distribution Agreement.

We incurred general and administrative expenses of \$2,345,041 for the period ended September 30, 2005, \$2,183,598 of which we incurred in our United States business operations and \$161,443 for the enlargement of our international business into the United Kingdom and Canada. Our general and administrative expenses for this period increased by \$131,715, a 5.95% increase compared to \$2,213,326 for the same period in 2004.

As a percentage of total revenue, the Company's general and administrative expenses decreased from 81.8% in the period ended September 30, 2004, to 35.6% for the current period in 2005. We anticipate a continued effort to reduce these expenses as a percentage of sales through revenue growth, cost cutting efforts and the refinement of business operations.

15

Interest Expense

We incurred interest expense for the period ended September 30, 2005 of \$293,415. Our interest expense increased by \$138,598, a 89.52% increase compared to \$154,817 for the same period in 2004. The increase was due to using additional debt to finance the Company's operations during this period, including the development and launch of new product lines and expenses associated with increased promotional activities and marketing sponsorships.

Loss Per Share

We accrued dividends payable of \$263,001 for various series of preferred stock during the period ended September 30, 2005. The accrued dividends decreased for this period by \$28,459, or 9.76%, from \$291,460 for the same period in 2004. The net loss before accrued dividends for the current period increased \$4,603,600, from \$2,882,131 for the period ended September 30, 2004 to \$7,485,731 for the current period. The increase in the net loss resulted in an increase in the Company's current period loss per share from \$0.08 for the same period in 2004, to a loss per share of \$0.09 for the current period. Of the \$7,485,731 net loss, \$3,000,000 has been recorded in the quarter ending September 30, 2005 as a one time, non-recurring finder's fee payable to a third party in connection with the execution of the Master Distribution Agreement with Coca-Cola Enterprises, Inc. Absent the \$3,000,000 non-recurring finder's fee charge, the Company's increased net loss per share was offset by an increase in the weighted average of common shares outstanding from 38,254,305 shares for the

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

nine months ended September 2004 to 82,091,556 shares for the current nine month period, resulting in a current period loss per share of \$0.06.

Three Months Ended (S)eptember 30, 2005 Compared to the Three Months Ended September 30, 2004

Revenue

We had revenues for the three months ended September 30, 2005 of \$3,245,305, with cost of sales of \$2,360,884, resulting in a gross profit of \$884,421, or 27.3% of sales, \$2,956,709 of which were generated by the Company's U.S. operation and \$288,596 from our UK business. We did not report any sales for Canada, Mexico or the Middle East in the three months ended September 30, 2005. Our revenue for the three months ended September 30, 2005 increased by \$2,419,875, a 293% increase compared to revenue of \$825,430 for the three months ended September 30, 2004. The increase in revenue in the United States for the three months ended September 30, 2005 is the result of the continuing rollout of our new product lines during this period and the launch of our business in the United Kingdom.

Cost of Goods Sold

We incurred cost of goods sold of \$2,360,884 for the three months ended September 30, 2005, \$2,151,102 of which was incurred in our U.S. operations in the third quarter. Our cost of goods sold for this period increased by \$1,732,137, a 275.5% increase compared to \$628,747 for the three months ended September 30, 2004. The increase in cost of goods sold in the United States for the three months ended September 30, 2005 is the result of increased sales and the corresponding increase in the costs of good sold.

Operating Expense

We incurred selling expenses of \$1,727,531 for the three months ended September 30, 2005, \$1,634,580 of which was incurred in our U.S. operation. Selling expenses increased for the three months ended September 30, 2005 by \$1,074,909, a 164.7% increase compared to the selling expense of \$652,622 for the three months ended September 30, 2004. The increase in selling expenses is the result of increased sales, including promotional expenses, the costs associated with guaranteed royalties under our third-party intellectual property license agreements and deferred distribution costs for the issuance of a warrant in connection with the execution a Master Distribution Agreement with Coca-Cola Enterprises Inc.

We incurred general and administrative expenses of \$905,487 for the three months ended September 30, 2005, \$844,464 of which we incurred in our U.S. operations. General and administrative expenses for the three months ended September 30, 2005 increased by \$354,188, a 64.25% increase compared to \$551,299 for the same period in 2004. The increase in general and administrative expenses for the current period is the result of greater management activities in the promotion and continued rollout of our new product lines in the United States and the establishment of our business in the United Kingdom.

Interest Expense

We incurred interest expense for the three months ended September 30, 2005 of \$73,169. Interest expense for the three months ended September 30, 2005 decreased by \$6,653, an 8.3% decrease compared to \$79,822, for the same period in 2004. This decrease was the result of reduced debt in this period.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Net Loss

We had a net loss for the three months ended September 30, 2005 of \$4,906,456 compared with a net loss of \$1,120,992 for the same period in 2004. The net loss increased by \$3,785,464 or 337.7% compared to the same period in 2004. Of the \$4,906,456 net loss reported in the quarter ending September 30, 2005, \$3,000,000 represents a one time, non-recurring finder's fee payable to a third party in connection with the execution of the Master Distribution Agreement with Coca-Cola Enterprises, Inc. Absent the \$3,000,000 non-recurring finder's fee charge, the Company's increased net loss per share was offset by an increase in the weighted average of common shares outstanding from 44,374,877 shares for the three months ending September 2004 to 113,680,645 shares for the current three month period, resulting in a current three month period loss per share of \$0.016.

Year Ended December 31, 2004 Compared to Year Ended December 31, 2003

Consolidated Revenue

We had revenue for the year ended December 31, 2004 of \$3,344,699, with cost of sales of \$2,374,805, resulting in a gross margin of \$969,894. This revenue and resultant gross margin are net of slotting fees, promotional discounts and marketing allowances for this period in the amount of \$204,755. Of the reported \$3,344,699, U.S. sales accounted for \$2,771,081 with an additional \$573,618 from international sales in Mexico and the Middle East. Our reported revenue for the year ended December 31, 2004 increased by \$2,144,557, a 178.69% increase compared to revenue of \$1,200,142 for the same period in 2003. This increase is the result of a change in our method of revenue recognition in the United States, commencing January 1, 2004, when we began to act as the principal in these transactions, rather than as an agent. In addition, in the first quarter of 2004, we began to phase out our Looney Tunes(TM) flavored milk products and to develop four new branded product lines in the United States, including the launch of our Slammers(R) line of Marvel Comics Super Heroes(R) branded flavored milks during the second quarter 2004. We also began to ship kits to our third-party Middle East dairy processor during the second quarter 2004.

Consolidated Cost of Sales

We incurred cost of goods sold of \$2,374,805 for the year ended December 31, 2004, \$2,262,055 of which was incurred in our U.S. business, and \$112,750 in connection with our international sales. Cost of goods sold in 2004 increased by \$2,182,307, a 1133.68% increase compared to \$192,498 for the same period in 2003. The increase in cost of goods sold reflects an increase in sales, the change in our role from agent to principal during this period and the concomitant increase in reported cost of goods sold associated with that change.

In countries except the United States, our revenue is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for flavored milks and production rights to manufacture and sell the milks. In line with our revenue recognition policies, we recognize the full invoiced kit price as revenue, less the cost of production charged by the processor, which we record as cost of goods sold.

In the United States, we are responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, we recognize as revenue the invoiced wholesale prices that we charge to the retail outlets that purchase the Slammers(R) flavored milks. We report, as cost of goods sold, the price charged to us by Jasper Products, a third party processor under contract with our company, for producing the finished Slammers(R) products.

Segmented revenues and costs of sales

The following table presents revenue by source and type against costs of goods sold, as well as combined gross revenues and gross margins. In countries other than the United States, revenues for the period ended December 31, 2004 were generated by kit sales to third party processors. Our revenue from the sale of finished product to retail outlets is recorded as "unit sales" on the following table.

United States

Revenues for the period ended December 31, 2004 in the United States increased from \$989,721 for the same period in 2003 to \$2,771,081 in 2004, a 179.99% increase. The increase is the result of a change in revenue recognition and the introduction of our new product lines during this period.

In the period ended December 31, 2004, our gross margin for U.S. sales of \$509,026 decreased by \$353,048, or by 40.95%, from \$862,074 for the same period in 2003. The decrease in gross margin was the result of our role change from agent to principal in our U.S. sales transactions, which required us to recognize the entire cost of production of our milk products against revenues from the wholesale sales for those products.

Foreign Sales

Revenues for the period ended December 31, 2004 from kit sales in foreign countries increased from \$210,421 for the same period in 2003 to \$573,618, a 172.6 % increase. The increase is the result of sales growth in Mexico and the Middle East during this period.

We recorded \$112,750 in costs of kit sales in foreign countries for the period ended December 31, 2004, an increase of \$47,899 or 73.86% from \$64,851 for the same period in 2003. As a percentage of sales, the costs of goods sold decreased 19.7% for the period ended December 31, 2004, from 30.8% for the same period in 2003. The decrease in cost of goods sold as a percentage of sales was the result of the commencement of sales in the Middle East, which had significantly lower costs of goods sold as a percentage of sales than occurred China, Mexico and Canada.

18

For the period ended December 31, 2004, the gross profit of \$460,868 for kit sales in foreign countries increased by \$315,298 or 216.6%, from \$145,570 for the same period in 2003. The increase in gross profit was consistent with the increase in sales volume and the decrease in cost of goods sold for this period.

Consolidated Operating Expenses

We incurred selling expenses of \$1,804,617 for the period ended December 31, 2004, of which we incurred \$1,664,520 in our United States operations. Our selling expense for this period increased by \$64,767, a 3.72% increase compared to selling expense of \$1,739,850 for the same period in 2003. The increase in selling expenses in the current period was due to increased freight and promotional charges associated with our transition away from our Looney Tunes(TM) product line and the development of four new product lines, utilizing newly licensed and directly owned branded trademarks.

Our incurred general and administrative expenses for the period ended December 31, 2004 were \$2,639,085, most of which we incurred in our United States business operations. Our general and administrative expenses for this period increased by \$389,407, a 17.31% increase compared to \$2,249,678 for the same period in 2003. The increase in general and administrative expenses for the current period in 2004 is the result of the accrual of the compensation value of the conversion of management's and directors' options to common stock, in the amount of \$269,750 plus the recording of an additional payroll period in 2004. This expense is a one-time charge.

As a percentage of total revenue, our general and administrative expenses decreased from 187.5% in the period ended December 31, 2003, to 78.9% for the current period in 2004. We anticipate a continued effort to reduce these expenses as a percentage of sales through revenue growth, cost cutting efforts and the refinement of business operations.

Interest Expense

We incurred interest expense for the period ended December 31, 2004 of \$240,447. Our interest expense increased by \$210,914, a 714.16% increase compared to \$29,533 for the same period in 2003. The increase was due to additional loans in 2004 and utilizing debt to finance our operations during this period's transition in licensors of intellectual property utilized by our company and the development and launch of new product lines.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Loss Per Share

We accrued dividends payable of \$388,632 to various series of preferred stock during the period ended December 31, 2004. Our accrued dividends increased for this period by \$48,728, or 14.33%, from \$339,904 for the same period in 2003. The net loss before accrued dividends increased by \$782,939, from \$3,016,987 for the period ended December 31, 2003 to \$3,799,926 for the current period, and the increase in accrued dividends was offset by the increase in the weighted average number of common shares outstanding, resulting in a decrease in our current period loss per share from \$0.15 for the same period in 2003, to a loss per share of \$0.10 for the current period.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2005, we reported that net cash used in operating activities was \$4,956,448, net cash provided by financing activities was \$5,510,649 and net cash used in investing activities was \$90,583. We had a negative working capital of \$4,105,854 as of September 30, 2005.

Compared to \$3,372,840 of net cash used in operating activities in the period ended September 30, 2004, our current period net cash used in operating activities increased by \$1,583,608 to \$4,956,448. Prepaid expenses increased by \$902,920, which increase was primarily due to increases in programs for marketing, demos and advertising (\$370,000), increased costs incurred in connection with financing (\$158,000), slotting (\$114,000) and costs incurred in connection with production (\$258,319). Accounts payable and accrued expenses increased to \$4,208,414, mainly due to the recording of \$3,000,000 for a finder's fee in connection with the Coca-Cola Enterprises Master Distribution Agreement, \$343,000 in promotional expenses and \$161,000 in third-party processor costs. Accrued expenses included \$128,180 for a Masterfoods quarterly royalty payment. Deferred product and development costs increased by \$296,000, consisting mainly of licensing payments made to Marvel.

19

Changes in accounts receivable in this current period in 2005 resulted in a cash decrease of \$149,281, compared to a cash decrease in receivables of \$8,490 for the same period in 2004, having a net result of an decrease of \$140,791. The changes in accounts payable and accrued liabilities in the period ended of September 30, 2004 contributed to a cash decrease of \$224,031, whereas the changes in accounts payable and accrued liabilities for the current period in 2005 amounted to an increase of \$4,208,414. Cash flow generated through our operating activities was inadequate to cover all of our cash disbursement needs in the period ended September 30, 2005, and we had to rely on equity and debt financing to cover expenses.

Cash used in the period ended September 30, 2005 in our investing activities for equipment was \$90,583 for software, computer equipment, telephone system, Company van, mobile communication devices and leasehold improvements in the U.S., compared to \$47,647 for the same period in 2004.

Net cash provided by our financing activities for the period ended September 30, 2005 was \$5,510,649. Net cash provided by financing activities for the same period in 2004 was \$3,419,891. The increase was due to a greater need for financing to fund the Company's operations during this period and the exercise of warrants generating \$2,958,509.

The Company used the proceeds of the current period financing for working capital purposes to support the continued launch of new product lines under a

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

license with Masterfoods USA and for new product development.

Going forward, our primary requirements for cash consist of the following:

- o the continued development of our business model in the United States and on an international basis;
- o promotional and logistic production support for the capacity demands presented by our Master Distribution Agreement with Coca-Cola Enterprises;
- o general overhead expenses for personnel to support the new business activities;
- o development, launch and marketing costs for our line of new branded flavored milk products, and
- o the payment of guaranteed license royalties.

We estimate that our need for financing to meet cash requirements for operations will continue through the fourth quarter of 2005, when we expect that cash supplied by operating activities will approach the anticipated cash requirements for operating expenses. We anticipate the need for additional financing in 2005 to reduce our liabilities, assist in marketing and to improve shareholders' equity status. No assurances can be given that we will be able to obtain additional financing, or that operating cash flows will be sufficient to fund our operations.

We currently have monthly working capital needs of approximately \$300,000. We will continue to incur significant selling and other expenses in 2005 in order to derive more revenue in retail markets, through the introduction and ongoing support of our new products and the implementation of the Master Distribution Agreement with Coca-Cola Enterprises. Certain of these expenses, such as slotting fees and freight charges, will be reduced as a function of unit sales costs as we expand our sales markets and increase our sales within established markets. Freight charges will be reduced as we are able to ship more full truckloads of product given the reduced per unit cost associated with full truckloads versus less than full truckloads. Similarly, slotting fees, which are paid to warehouses or chain stores as initial set up or shelf space fees, are essentially one-time charges per new customer. We believe that along with the increase in our unit sales volume, the average unit selling expense and associated costs will decrease, resulting in gross margins sufficient to mitigate cash needs. In addition, we are actively seeking additional financing to support our operational needs and to develop an expanded promotional program for our products.

Material Events

In January 2005, we launched our Slammers(R) Starburst line of Fruit & Cream Smoothies utilizing a "shelf stable" re-sealable plastic bottle for milk products that does not require refrigeration. Until that launch, all single served flavored milk in plastic bottles required refrigeration for storage, distribution, and shelf placement. The tactical advantage of distributing milk products ambient enables us to side-step a major entry barrier in our immediate consumption strategy. Refrigerated milk is relegated to dairy direct-store-delivery systems that are controlled by either regional dairy

processors or larger national dairy holding companies. Shelf stable re-sealable

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

plastic bottle allows us to use a more traditional distribution network that accommodates the non-refrigerated beverages. Also, milk products packaged in shelf stable re-sealable plastic bottles have significantly longer shelf life for storage, allowing us to ship in full truckloads resulting in decreased freight costs. We currently are converting all of our products to "shelf stable" re-sealable plastic bottle.

On July 13, 2005, Coca-Cola Enterprises Inc. (CCE) acquired options to purchase shares of common stock, convertible securities and warrants, entitling Coca-Cola Enterprises to purchase approximately 69,000,000 shares of common stock from nine non-affiliated shareholders of the Company (the "CCE Options"), representing, as of that date, approximately 23% of the authorized shares of our common stock. Coca-Cola Enterprises and our company contemporaneously commenced negotiations regarding a stock purchase agreement for the direct sale of approximately 81 million shares of our common stock to Coca-Cola Enterprises. The consummation of the direct sale and the exercise of the CCE Options by Coca-Cola Enterprises would have resulted in Coca-Cola Enterprises holding slightly in excess of 50% of our equity on a fully diluted basis. These transactions were contingent upon the execution of a Master Distribution Agreement between us and Coca-Cola Enterprises. On July 29, 2005, our company and Coca-Cola Enterprises entered into a Letter of Intent memorializing and confirming their intention to enter into the stock purchase agreement.

Subsequent to the execution of the Letter of Intent, in lieu of the exercise of the CCE Options and the stock purchase agreement, the parties agreed to enter into the Master Distribution Agreement with the attendant grant of three-year warrants by our company to Coca-Cola Enterprises for the right to purchase 30 million shares of our common stock at an exercise price of \$0.36 per share. On August 31, 2005, we issued the warrants to Coca-Cola Enterprises and the parties executed a ten-year exclusive Master Distribution Agreement that we believe will significantly expand the distribution and sales of our products. We will recognize a \$11,900,000 net charge in deferred distribution costs for the warrant issuance to Coca-Cola Enterprises over the 10-year term of the Master Distribution Agreement.

On November 28, 2005, the Company closed a funding transaction with thirteen accredited institutional investors, for the issuance and sale of 40,500,000 shares of the Company's common stock to the Subscribers for \$20,250,000. The Company also issued five-year warrants for the purchase of an additional 15,187,500 shares of common stock at an exercise price of \$0.80 per share. The securities are restricted and have been issued pursuant to an exemption to the registration requirements of Section 5 of the Securities Act of 1933 for "transactions of the issuer not involving any public offering." provided in Section 4(2) of the Act and pursuant to a Regulation D offering" The securities carry registration rights that obligate the Company to file a registration statement within 45 days and have the registration statement declared effective within 120 days from closing.

The net proceeds to the Company after the payment of transaction expenses will be approximately \$18.9 million. Approximately \$5.8 million of the net proceeds will be used by the Company to redeem warrants for the purchase of approximately 30.3 million shares of the Company's common stock, issued by the Company in connection with prior financing transactions. In addition, the Company will use the net proceeds from the financing for increased production capacity, the launch of marketing campaigns, paying the finder's fee relating to the Coca-Cola Enterprises Master Distribution Agreement and general working capital purposes.

External Sources of Liquidity

Individual Loans

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

On November 6 and 7, 2001, respectively, we received the proceeds of two loans aggregating \$100,000 from two offshore lenders. The two promissory notes, one for \$34,000 and the other for \$66,000, were payable February 1, 2002 and bear interest at the annual rate of 8%. These loans are secured by a general security interest in all our assets. On February 1, 2002, the parties agreed to extend the maturity dates until the completion of the anticipated Series H financing. On September 18, 2002, the respective promissory note maturity dates were extended by agreement of the parties to December 31, 2002. On September 18, 2002, we agreed to extend the expiration dates of warrants issued in connection with our Series D and F preferred until September 17, 2005 and to reduce the exercise price of certain of those warrants to \$1.00, in partial consideration for the maturity date extension. The holders of these notes have agreed to extend the maturity dates, and the notes are now payable on a demand basis.

21

On May 6, 2004, we issued a secured promissory note to Mid- Am Capital LLC in the principal amount of \$750,000. The note provides for 8% interest. The note's original maturity date of September 4, 2004 has been extended. We issued warrants to purchase 3,000,000 shares of our common stock to Mid-Am in connection with this promissory note. The warrants are exercisable for one year from issue at an exercise price of \$0.25 per share. We used the proceeds of this promissory note to pay the promissory note issued to Jasper Products in January 2004.

Convertible Debentures

To obtain funding for our ongoing operations, we entered into the following financing transactions:

In November 2003, April 2004, June 2004, October 2004, December 2004, January 2005 and April 2005, we entered into financing arrangements for the sale of \$5,750,000 principal amount of convertible debentures.

In November 2003 we issued \$400,000 in convertible debentures at 8% interest, two years from the date of issuance, unless sooner converted into shares of our common stock. Two hundred thousand dollars (\$200,000) in principal remains unpaid.

In April 2004, we issued of \$500,000 in convertible debentures at 10% interest. The principal on the notes is due in equal monthly installments commencing on November 1, 2004 until October 1, 2005. Twenty five thousand dollars (\$25,000) in principal remains unpaid.

In June 2004, we issued convertible 10% notes in the aggregate amount of \$1,300,000. The notes are payable in twelve equal monthly installments, commencing January 1, 2005. Ten thousand four hundred sixteen dollars (\$510,416) in principal remains unpaid.

In October 2004, we issued convertible 10% notes in the aggregate amount of \$500,000. The notes are payable in twelve equal monthly installments, commencing May 1, 2005. Five hundred thousand dollars (\$500,000) in principal remains unpaid.

In December 2004, we issued convertible 10% notes in the aggregate amount of \$400,000. The notes are payable in twelve equal monthly installments, commencing May 1, 2005 in cash or conversion to common stock. All principal has been repaid through the issuance of common stock.

On January 31, 2005, we closed a funding transaction with five

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

institutional accredited investors for the issuance and sale of up to \$2,300,000 of principal amount of convertible notes convertible into shares of our common stock. The notes have a maturity date two years from closing, have an interest rate of 4% and are payable in 12 equal monthly installments, commencing June 1, 2005 in cash or conversion to common stock. All but \$25,000 of principal has been repaid through the issuance of common stock.

On April 21, 2005, we issued a 10% convertible note in the amount of \$300,000. The convertible note has an October 31, 2005 maturity date and is payable in five equal monthly installments, commencing June 1, 2005. The installment payments consist of principal (equal to 1/5th of the initial principal amount) plus accrued interest in cash or conversion to common stock. All principal has been repaid through the issuance of common stock

EFFECTS OF INFLATION

We believe that inflation has not had any material effect on our net sales and results of operations.

BUSINESS

Our company

Our company is a Delaware corporation, which was formed on April 27, 1996. We formerly owned the majority interest in two Sino-American joint ventures in China, known as Green Food Peregrine Children's Food Co. Ltd. and Hangzhou Meilijian Dairy Products Co., Ltd. These two joint ventures processed milk products for local consumption in the areas of Shanghai and Hangzhou, China, respectively. We closed Green Food Peregrine in December 1999 and sold our interest in Hangzhou Meilijian Dairy in December 2000.

In December 1999, we obtained Chinese government approval for the registration of a new wholly owned subsidiary in the Wai Gao Qiao "free trade zone" in Shanghai, China. We formed this import-export company to import, export and distribute food products on a wholesale level in China. In addition, China Premium (Shanghai) was our legal presence in China with respect to contractual arrangements for the development, marketing and distribution of branded food products. We ceased all activities of this Chinese subsidiary in April 2004, owing to low sales volume and insufficient financial or logistic resources to market our products profitably in mainland China.

In December 1999, we formed Bravo! Foods, Inc., a wholly owned Delaware subsidiary, which we utilized to advance the promotion and distribution of branded Looney Tunes(TM) products in the United States, through production agreements with local dairy processors. At the end of 2001, we assumed this business, and our U.S. subsidiary ceased functioning as an operating company at that time.

On February 1, 2000, we changed our name from China Peregrine Food Corporation to China Premium Food Corporation, and on March 16, 2001 we changed our name to Bravo! Foods International Corp.

In January 2005, we formed Bravo! Brands (UK) Ltd., a United Kingdom registered company that is wholly owned by Bravo! Brands International Ltd. We will utilize Bravo! Brands (UK) Ltd. to advance the production, promotion and distribution of licensed branded products in the United Kingdom through production and sales agent agreements with local entities.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

In March 2005, we formed Bravo! Brands International Ltd., a Delaware subsidiary that may hold license rights for our branded products on an international basis. We may utilize Bravo! Brands International Ltd. to hold and exploit certain license rights for branded products developed by us in international markets through local second-tier subsidiaries such as Bravo! Brands (UK) Ltd.

The Business

Our business involves the development and marketing of our own Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters and the granting of production and marketing rights to processor dairies to produce branded flavored milk utilizing our intellectual property. .

In the United States, we generate revenue from the unit sales of finished branded flavored milks to retail consumer outlets. Currently, we use a single third-party processor in the United States to product all of our single serve milk based beverages. We recognize revenue in the United States at the gross amount of our invoices for the sale of finished product to wholesale buyers ("unit sales"). We take title to our branded flavored milks when they are shipped by our third party processors and recognize as revenue the gross wholesale price charged to our wholesale customers. Our gross margin is determined by the reported wholesale price less the cost charged by Jasper Products, our third party processor, to produce our branded milk products.

Internationally, we generate revenue primarily through the sale of "kits" to these processors. "Kits" sold to processors consist of flavor ingredients that are developed and refined by us and the grant of production rights to processors to produce the flavored milks. The consideration paid to us under these production contracts consists of fees charged for our grant of production rights for the branded flavored milks plus a charge for flavor ingredients. The fees charged by us for the production rights are set to match royalty fees for our intellectual property licenses.

23

All of our third party licensing agreements recognize that we will use third party production agreements for the processing of flavored milk products, and that the milk products will be produced and may be sold directly by those processors. Our responsibilities under our third party production agreements are to design and provide approved packaging artwork, to help determine the best tasting flavors for the particular market and to assist in the administration, promotion and expansion of the respective branded milk programs. Ingredients for the flavored milks are formulated to our specifications and supplied on an exclusive basis by either Givaudan Roure or Mastertaste, both of which are flavor development and production companies. In the United States, we assume the responsibility for sales and marketing of our flavored milks produced by Jasper Products LLC.

Master Distribution Agreement - Coca-Cola Enterprises

On July 13, 2005, Coca-Cola Enterprises Inc. (CCE) acquired options to purchase shares of common stock, convertible securities and warrants, entitling Coca-Cola Enterprises to purchase approximately 69,000,000 shares of common stock from nine non-affiliated shareholders of the Company (the "CCE Options"), representing, as of that date, approximately 23% of the authorized shares of our common stock. Coca-Cola Enterprises and our company contemporaneously commenced negotiations regarding a stock purchase agreement for the direct sale of approximately 81 million shares of our common stock to Coca-Cola Enterprises.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

The consummation of the direct sale and the exercise of the CCE Options by Coca-Cola Enterprises would have resulted in Coca-Cola Enterprises holding slightly in excess of 50% of our equity on a fully diluted basis. These transactions were contingent upon the execution of a Master Distribution Agreement between us and Coca-Cola Enterprises. On July 29, 2005, our company and Coca-Cola Enterprises entered into a Letter of Intent memorializing and confirming their intention to enter into the stock purchase agreement.

Subsequent to the execution of the Letter of Intent, in lieu of the exercise of the CCE Options and the stock purchase agreement, the parties agreed to enter into the Master Distribution Agreement with the attendant grant of three-year warrants by our company to Coca-Cola Enterprises for the right to purchase 30 million shares of our common stock at an exercise price of \$0.36 per share. On August 31, 2005, we issued the warrants to Coca-Cola Enterprises and the parties executed a ten-year exclusive Master Distribution Agreement (the "Master Agreement") that we believe will significantly expand the distribution and sales of our products in the entirety of the United States, all U.S. possessions, Canada, Belgium, continental France, Great Britain, Luxembourg, Monaco and the Netherlands, as well as any other geographic territory to which, during the term of the Master Agreement, Coca-Cola Enterprises obtains the license to distribute beverages of The Coca-Cola Company. The appointment of Coca-Cola Enterprises as the exclusive distributor for our products is effective August 30, 2005, has an effective distribution date of October 31, 2005, and an expiration date of August 15, 2015. Coca-Cola Enterprises has the option to renew the Master Agreement for two subsequent periods of ten additional years.

Under the terms of the Master Agreement, Coca-Cola Enterprises is obligated to use all commercially reasonable efforts to solicit, procure and obtain orders for our products, and merchandise and actively promote the sale of such products in the Territory, as defined in the Master Agreement. The Master Agreement establishes a comprehensive process for the phased transition from our existing system of distributors to Coca-Cola Enterprises, dependent upon distribution territory, product and sales channels. The parties have agreed that Coca-Cola Enterprises will implement its distribution on a ramp-up basis, with the initial distribution commencing in the United States on or about the October 31, 2005 effective distribution date. Coca-Cola Enterprises' distribution in other Territory areas will be dependent upon, among other things, third-party licensing considerations and compliance with the regulatory requirements for the products in foreign countries.

We have agreed to provide the following:

- o strategic direction of its products;
- o maintain sales force education and support;
- o actively market and advertise its products and design and develop point of sale materials and advertising.

24

We are also responsible for handling:

- o consumer inquiries;
- o product development; and
- o the manufacture and adequate supply of its products for distribution by Coca-Cola Enterprises.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

The terms of the Agreement require our company to maintain the intellectual property rights necessary for our company to produce, market and/or distribute and for Coca-Cola Enterprises to sell our products in the Territory. We are obligated to spend a fixed dollar amount in the remainder of 2005 and 2006 on national and local advertising, including actively marketing the Slammers trademark, based on a plan as mutually agreed each year. Beginning in 2007, the Company shall allocate an amount per year for such activities in each country in the defined Territory equal or greater than an agreed upon percentage of our total revenue in such country.

Under the Agreement, Coca-Cola Enterprises has the right of first refusal to distribute any new products developed by our company, and the Master Agreement establishes a process for the potential expansion of Coca-Cola Enterprises' distribution of the Company's products to new territories. Either party may terminate the Master Agreement for a material breach, insolvency or bankruptcy and Coca-Cola Enterprises may terminate for change of control by our company, material governmental regulatory enforcement action or threatened governmental action having a material adverse consumer or sales impact on our products, and upon twelve months notice after August 15, 2006.

Third Party Intellectual Property Licenses

Marvel Enterprises, Inc. (Super Heroes(R) and Marvel Heroes(R))

On February 4, 2005, we entered into a two-year license agreement for the utilization of Marvel Heroes characters on our flavored milks in the United Kingdom and Ireland. We agreed to a royalty rate of 4% of net wholesale sales in the territory against the prepayment of a guaranteed minimum royalty amount. We have adopted the unit sales model currently used in the United States. We have outsourced the infrastructure required for the production, promotion, marketing, distribution and sale of our products through a production agreement with Waterfront Corporation in the UK and through an exclusive sales agency agreement with Drinks Brokers, Ltd. a UK registered company responsible for the launch and growth of several major beverage brands in the licensed territory.

In March 2005, we entered into a new one-year license agreement with Marvel Enterprises, Inc. to use its Super Heroes(R) properties to promote our branded milk products in the United States, Canada and Mexico. Under the terms of the license agreement, we agreed to a royalty rate of 5% of net wholesale sales in the United States, 4% for school lunch channels and 2.5% for school hot lunch programs. We also agreed to a 11% royalty on the amount invoiced to dairy processors for "kits" in Canada and Mexico.

On February 4, 2005, we entered into an eighteen month license agreement for the utilization of Marvel Heroes characters on our flavored milks in nine Middle East Countries. We agreed to a 11% royalty on the amount invoiced to third party dairy processors for "kits" in the territory against the prepayment of a guaranteed minimum royalty amount.

Chattanooga Bakery, Inc. (Moon Pie(R))

In October 2003, we commenced a two-year license agreement with MD Enterprises, Inc. on behalf of Chattanooga Bakery. Under the terms of the license agreement, we have the exclusive right to manufacture, distribute, market and sell Moon Pie(R) flavored milk products in the United States. We agreed to a variable royalty rate of 3% to 2% of net wholesale sales, depending upon volume.

Masterfoods USA (Starburst(R), Milky Way(R), 3 Musketeers(R))

On September 21, 2004, we entered into a licensing agreement with Masterfoods USA, a division of Mars, Incorporated, for the use of Masterfood's

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Milky Way(R), Starburst(R) and 3 Musketeers(R) trademarks in connection with the manufacture, marketing and sale of single serve flavored milk drinks in the United States, its Possessions and Territories, and US Military installations worldwide. The license limits the relationship of the parties to separate independent entities. The initial term of the license agreement expires December 31, 2007. We have agreed to pay a royalty based upon the total net sales value of the licensed products sold and advance payments of certain agreed upon guaranteed royalties. Ownership of the licensed marks and the specific milk flavors to be utilized with the marks remains with Masterfoods. We have a right of first refusal for other milk beverage products utilizing the Masterfoods marks within the licensed territory.

25

In House Intellectual Property

In addition to our third-party licenses, we have developed and sell flavored milks bearing trademarks developed by us, including "Slammers(R)" "Pro Slammers(TM)", "Slim Slammers(R)" and "Breakfast Blenders(TM)".

Production Contracts/Administration

Prior to 2000, our business primarily involved the production and distribution of milk in China. In the third quarter of 2000, we began to refocus our business away from the production - distribution aspect of the value chain by implementing a business model that involved the branding, marketing, packaging design and promotion of branded flavored fresh milk in the United States. During the middle of 2001, this refocused business was implemented in China, in December 2001 in Mexico and in the third quarter of 2002 in Canada. Currently, operations in the United States, Mexico and Canada are run directly by Bravo! Foods International Corp. Our international business, which had been facilitated by AsheTrade, our international agent, will now be handled by the company's subsidiary formed in 2005, Bravo! Brands International Ltd. Mr. Ibrahim Ashemimry, the principal of AsheTrade, has joined Bravo! Brands International Ltd. as an employee and officer.

United States

The initial dairy processors with which we had production contracts were members of Quality Chekd Dairies, Inc., a national cooperative with over 40 member dairies that process fresh milk on a regional basis. This business, while viable, proved to have limited sales expansion capabilities in the US owing to the inherent regional distribution limitations of a "fresh" milk product with a short shelf life.

The advent of extended shelf life (ESL) and aseptic long life milk presented us with the opportunity to increase dramatically sales on a national basis. In the third quarter of 2001 and the first quarter of 2002, we entered into production contracts with Shamrock Farms, located in Phoenix, Arizona and Jasper Products, of Joplin, Missouri, and began to market branded ESL and aseptic flavored milks to large national chain accounts. Since 2003, we have our ESL and aseptic milks produced by Jasper Products

United Kingdom

In February 2005, we executed an exclusive sales agency agreement with Drinks Brokers, Ltd., a division of Tactical Sales Resources Limited for sales of our product lines in the United Kingdom. Pursuant to terms of the agreement, Bravo! appointed Drinks Brokers as its Sales Agent in the United Kingdom for the marketing, promotion, distribution and sale of Bravo!'s Slammers(R) Marvel

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Heroes line of flavored milk, as well as other product lines that Bravo! may introduce to the UK in the near future.

Drinks Brokers will utilize its established networks to manage all matters relating to the sale and effective distribution of Bravo!'s products within the United Kingdom, including the solicitation of sales from customers in applicable market segments, marketing, advertising and promotion of the Bravo!'s products, distribution, and merchandising.

Our products are processed in the United Kingdom by Waterfront Corporation Limited, on a third party co-pack basis. We generate revenue in the United Kingdom from the unit sales of finished branded flavored milks to retail consumer outlets. Currently, we use a single third-party processor in the United States to produce all of our single serve milk based beverages. We recognize revenue in the United States at the gross amount of our invoices for the sale of finished product to wholesale buyers ("unit sales"). We take title to our branded flavored milks when they are shipped by our third party processor and recognize as revenue the gross wholesale price charged to our wholesale customers. Our gross margin is determined by the reported wholesale price less the cost charged by Waterfront Corporation Limited.

Middle East

In December 2003, we entered into a third party production agreement with Saudia Dairy & Foodstuff Company, (SADAFCO) a Middle East dairy processor, headquartered in Jeddah, Saudi Arabia. SADAFCO processes our Slammers (R) branded flavored milks, including the Marvel line, for distribution in nine Middle East countries. AsheTrade, our international agent, with offices in Miami, Florida and Jeddah, Saudi Arabia, facilitates our international business.

In September 2005, we entered into a third party production agreement with Oman National Dairy Products Co. Ltd. , a Middle East dairy processor, headquartered in Ruwi, Oman. Oman Dairy will process our Slammers (R) branded flavored milks, including the Marvel line, for distribution in nine Middle East countries. We generate revenue for sales in the Middle East utilizing the "kit" model. WE are not responsible for production, marketing, promotion or distribution of the product in the Middle East

Products

Commencing in September of 2000, we implemented the "kit" sales program with third party dairy processors in the United States, for the production and sale of fresh branded flavored milk in single serve plastic bottles. This product, as with all of our U.S. products up to September 2000, had a limited shelf life of, generally, 21 days.

In early 2002, we developed branded extended shelf life and aseptic, bacteria free, long life flavored milk products. The extended shelf life product was sold in 11.5oz single serve plastic bottles and had to be refrigerated. The shelf life of this product is 90 days. Our aseptic product does not require refrigeration and has a shelf life of 8 months. This product was packaged in an 11.2oz Tetra Pak Prisma(TM) sterile paper container. Both of these products were introduced to the public in the second and third quarters of 2002.

Commencing in May 2002, we developed a new branded fortified flavored milk product under the "Slammers(R) Fortified Reduced Fat Milk" brand name. We use our Slammers(R) brand in conjunction with our licensed third party trademarks. Slammers(R) is made from 2 percent fat milk and is fortified with 11 essential

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

vitamins. The introduction of this new product and the phase out of our "regular" branded milks occurred in the fourth quarter of 2002. Our Slammers(R) flavored milks are sold in the United States in single serve extended shelf life plastic bottles, as well as the long life aseptic Tetra Pak Prisma(TM) package. Our Slammers(R) flavored milks are sold in Mexico and have been sold in Canada in single serve extended shelf life plastic bottles.

In November 2002, we introduced Slim Slammers(R) Fortified Milk, a low calorie version of our Slammers (R)Fortified Reduced Fat Milk. Slim Slammers(R) Fortified Milk has no added sugar and is sweetened with sucralose, a natural sweetener made from sugar. Slim Slammers(R) Fortified Milk is made from 1 percent fat milk, is fortified with 11 essential vitamins and is available in the same flavors as our Slammers(R) brand. We reintroduced this product in the United States with a new package and formulation during 2004.

In 2004, we announced our product development and brand strategy for seven new, separate and distinct single serve product lines. Ultimate Slammers(TM), Slim Slammers(R), Moon Pie Slammers(R), Pro-Slammers(TM), Starburst (R) Slammers(R), 3 Musketeers(R) Slammers(R), and Milky Way(R) Slammers(R) are all fortified and positioned to appeal directly to profiled demographic segments, including teens and pre teens for Ultimate Slammers(TM), Starburst (R) Slammers(R) and , Milky Way(R) Slammers(R), teens and sports enthusiasts for Pro-Slammers(TM), young to old for Moon Pie(R) Slammers(R) and health conscious adults for Slim Slammers(R) and3 Musketeers(R) Slammers(R).

We launched four brands in 2004, beginning with Ultimate Slammers(R) in April and achieved national distribution of Ultimate Slammers(R) through both retail grocers and convenience stores by mid- summer. Roughly 10,000 retail supermarket stores carried this brand nationwide in 2004. This was followed by our June launch of Slim Slammers(R) and Moon Pie (R)Slammers(R) and the July release of our Pro-Slammers(TM) line.

In January 2005, we launched our Slammers(R) Starburst line of Fruit & Cream Smoothies utilizing a "shelf stable" re-sealable plastic bottle for milk products that does not require refrigeration. Until that launch, all single served flavored milk in plastic bottles required refrigeration for storage, distribution, and shelf placement. The tactical advantage of distributing milk products ambient enables us to side-step a major entry barrier in our immediate

27

consumption strategy. Refrigerated milk is relegated to dairy direct-store-delivery systems that are controlled by either regional dairy processors or larger national dairy holding companies. Shelf stable re-sealable plastic bottle allows us to use a more traditional distribution network that accommodates the non-refrigerated beverages. Also, milk products packaged in shelf stable re-sealable plastic bottles have significantly longer shelf life for storage, allowing us to ship in full truckloads resulting in decreased freight costs. We currently are converting all of our products to "shelf stable" re-sealable plastic bottle.

In the first quarter2005, we launched our Slammers(R) MilkyWay and 3 Musketeers lines utilizing a "shelf stable" re-sealable plastic bottle for milk products that does not require refrigeration, under the Masterfoods License.

Industry Trends

The flavored milk industry has grown from approximately \$750 million in 1995 to \$2.5 billion in 2004. The single serve portion of this category is difficult to measure, since approximately 2/3 of the sales in the single serve

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

milk industry are sold in immediate consumption channels or other channels that do not report scan-data. For example, Wal-Mart has become the largest retailer in the USA for milk, selling an estimated 15% of total milk sales. Wal-Mart does not report sales for the industry data resources embodied in A.C. Neilson or IRI analyses. Similarly, most convenience stores and "up-and-down-the-street" retailers in the immediate consumption sales channels do not report either, and neither do vending and schools.

We have analyzed the industry using reports available from milk and beverage industry sources. These include the total, segmented and rate of growth sales that are reported, the immediate consumption sales rates for all consumables compared to retail grocery buying patterns and opinions of experts in the milk industry as to the relative size of reported versus non-reported sales. Based upon these reports and analysis, we believe the current size of the single serve flavored milk industry (packaging 16 oz. or smaller) is approximately \$1.5 billion domestically. The industry grew at annual rates of between 5 and 15 percent during the last five years but was virtually flat in the last two years while it digested the remarkable 10-year growth rates. We believe that this space is positioned for growth now and will continue to be in the immediate consumption channels such as vending, convenience stores and food service market segments.

Market Analysis

The flavored milk business is a relatively new category in the dairy field. The flavored "refreshment" segment is both the fastest growing and most profitable category in the industry and is receiving the most attention in the industry today. Pioneered by Nestle with the NesQuik line and Dean Foods with its Chug brand, this "good for you" segment is in demand both in the U.S. and internationally.

The International Dairy Foods Association reports that, although flavored milk currently amounts to only 5 to 6 percent of milk sales, it represents over 59% of the growth in milk sales. With the total milk category exceeding \$9.3 billion in 2004, the flavored milk segment was approximately \$2.5 billion in 2004, with single serve flavored milk growing to approximately \$1.5 billion for the same period. Statistically, as the flavored segment grows, the entire category grows as well. In the past ten years, selling more flavored milks has resulted in more sales of white milk as well.

In addition, the International Dairy Foods Association and Dairy Management Inc. have reported on studies suggesting that dairy products may help in weight loss efforts when coupled with a reduced calorie diet, based on data associating adequate calcium intake with lower body weight and reduced body fat. We continue to develop a niche in the single serve flavored milk business by utilizing strong, national branding as part of the promotion of our Slammers(R), Pro Slammers(TM) and Slim Slammers(R) products. This niche has as its focus the increased demand for single serve, healthy and refreshing drinks.

Market Segment Strategy

The Bravo! product model addresses a very clear and concise target market. We know from experience that the largest retailers of milk products are demanding new and more diverse refreshment drinks, specifically in the dairy area, in response to consumer interest and demand. To that end, we have and will continue to differentiate our products from those of our competitors through innovative product formulations and packaging designs, such as those implemented in our Slammers(R) and Pro Slammers(TM) fortified milk product lines and our Slim Slammers(R) low calorie, no sugar added products.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Our Slammers(R) milk products have had promising results penetrating this arena as consumers continue to look for healthy alternatives to carbonated beverages. The positioning of our products as a healthy, fun and great tasting alternative refreshment drink at competitive prices to more traditional beverages creates value for the producer and the retailer alike. This "profit orientation" for the trade puts old-fashioned milk products in a whole new light. The consumer is happy, the retailer is happy and the producer is able to take advantage of the value added by the brand and the resulting overall increase in milk sales.

We currently are implementing a very important "first-to-market" strategy that we feel will dramatically reposition our brands and company. Until now, all single served flavored milk in plastic bottles required refrigeration for storage, distribution, and shelf placement. Our strategic partner, Jasper Products, became America's first processor with FDA approval to offer a "shelf stable" re-sealable plastic bottle for ambient milk products that do not require refrigeration.

The tactical advantage of distributing our milk products at ambient temperatures enables us to side-step a major entry barrier in our immediate consumption strategy. Most beverages are distributed ambient either through beverage distribution channels or warehouse "candy and tobacco" distributors. Refrigerated milk was relegated to dairy direct-store-delivery systems that are controlled by either regional dairy processors or larger national dairy holding companies such as Dean Foods or H.B. Hood. We avoid the roadblock of being reliant upon our competition for chilled distribution since we are now in the unique position to use the more traditional distribution network that accommodates non-refrigerated beverages. We currently are converting all of our products into ambient "shelf stable" re-sealable plastic bottles.

We have been and continue to pursue a strategic goal of placing Slammers(R) milks in elementary, middle and high schools through ala carte lunch programs and vending facilities in school cafeterias and we are promoting our Slim Slammers(R) milks as low calorie, non-sugar added alternatives to traditional soft drinks. Penetration of this market segment has been limited by logistic and economic concerns of school administrators in the push to remove traditional carbonated soft drinks from schools in favor of milk and milk based products.

Competition

Nestle pioneered the single serve plastic re-sealable bottle which has become the standard for this industry, and they currently enjoy a dominant market share. Dean Foods owns a number of regional single serve brands that are sold in this format, and they also have an exclusive license to produce Hershey brand flavored milk nationwide. Our analysis indicates that the Nestle's Nesquik brand accounts for approximately 30-35 percent of the U.S. single serve milk category, while Hershey's market share is approximately half that, at around 15%. The other competition comes from private label and regional dairy brands. Our Slammers(R) milks are the only other single serve brand distributed nationally in America in plastic re-sealable containers.

Our resources for promotions have been limited, and we run significantly less promotional activities in comparison to our competitors. Where we are in direct competition with Nestle and Hershey, however, we have been able to maintain competitive sales levels.

Employees

We have fifteen full time employees located at our North Palm Beach

corporate offices..

Description of Property

Neither our company nor our subsidiaries currently own any real property. As of February 1, 1999, we moved our corporate offices from West Palm Beach to 11300 US Highway 1, Suite 202, North Palm Beach, Florida, pursuant to a lease with HCF Realty, Inc., having an initial term of five years. The current aggregate monthly rent amounts to approximately \$7,468, which includes an expansion of our office space from 2,485 square feet to 3,490 square feet. The term of this lease has been extended for six years to October 30, 2010.

29

Currently, we are negotiating for an expansion of our office space in North Palm Brach, Florida to include an additional 2,190 square feet at \$18.50 per square foot.

We do not have a policy to acquire property for possible capital gains or income generation. In addition, we do not invest in securities of real estate entities or developed or underdeveloped properties.

Compensation Plans

Directors

On March 27, 2001, we issued options to our directors, including Roy Warren, to purchase the aggregate of 925,000 shares of our common stock. The options have an exercise price of \$0.75 and expire March 26, 2006. Directors received options for 35,000 shares for each full year of service and an additional 40,000 shares for service on a board committee. On July 1, 2002, we issued 250,000 options to the Board of Directors, including Roy Warren, for services rendered as directors. Each director received options for 25,000 shares of common stock at an exercise price of \$0.60. The options can be exercised for five years.

On January 13, 2004, the Board of Directors adopted a plan to convert on a one for one basis the options granted to the present employees of our and the directors currently serving on the Board into a like number of our restricted shares of common stock. The issuance of such common stock to any individual director or employee is conditioned upon the execution of the "lockup" agreement by such director or employee, pursuant to which the recipients of such common stock shall not sell, transfer, pledge or hypothecate such common stock for a six month period, commencing on the issue date of such common stock. The conversion plan adopted by the Board of Directors will result in the issuance of 5,200,000 shares of our restricted common stock to our present directors and employees.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

On April 6, 2005, our Directors voted to adopt a Stock Option Incentive Plan for the grant of option to directors, employees and consultants for the purchase of up to 10,397,745 shares of our common stock. On May 12, 2005, the Board of Directors accepted and adopted the determination of the Compensation Committee to grant 9,147,745 of the authorized option to our employees, directors and senior management. The individual option contracts have not yet been issued; we anticipate such issuance before December 31, 2005.

Employment contracts

- o Roy G. Warren Chief Executive Officer

We had a one-year contract with Mr. Warren commencing January 1, 2003, at an annual base salary of \$220,000. The contract provides for the grant of options for 1,000,000 shares of common stock at \$0.50 per share, options for 1,000,000 shares of common stock at \$1.50 per share and options for 100,000 shares of common stock at \$0.75 per share. During his employment, he also will receive five-year incentive options for an additional 400,000 shares in tranches of 100,000, as the public trading price for our stock reaches \$2.00, \$3.00, \$4.00 and \$5.00, respectively. The exercise price for these options will track the market price for our common stock when granted. Mr. Warren's employment contract provides for the payment of one year's salary plus medical insurance costs for termination of employment owing to change of control in our company. Mr. Warren's employment contract provides for the payment of one year's salary plus medical insurance costs for termination of employment owing to change of control. We converted these employment contract options to common stock pursuant to a vote of the Board of Directors on January 13, 2004. Our Board of Directors has extended this contract pending the execution of a replacement employment contract.

Tommy E. Kee, Chief Accounting Officer,

Mr. Kee has an eighteen-month contract with our company commencing July 1, 2003 at an annual salary of \$120,000. We granted options for 300,000 shares of common stock as an incentive bonus pursuant to an employment contract. The first 100,000 share options tranche vested on July 1, 2003 at an exercise price of \$0.10 per share. The remaining options for 200,000 shares of common stock vest as follows: options for 100,000 shares on each of December 31, 2003 and 2004, respectively. All of these options expire five years from vesting. Mr. Kee's employment contract provides for the payment of six months' salary plus medical insurance costs for termination of employment owing to change of control in the Company. We converted these employment contract options to common stock pursuant to a vote of the Board of Directors on January 13, 2004. Our Board of Directors has extended this contract pending the execution of a replacement employment contract.

Roy D. Toulan, Jr., Vice President, General Counsel and Corporate Secretary

Mr. Toulan has a two-year contract with our company commencing January 1, 2003 at an annual salary of \$180,000. An incentive bonus of 100,000 common stock shares was granted to Mr. Toulan in January 2003, valued at \$0.28 per share. In addition, we granted options for 100,000 shares of common stock as part of the pursuant to an employment contract. These options vested immediately, expire on December 30, 2007 and have an exercise price of \$0.40 per share. We also granted options for 200,000 shares of common stock at an exercise price of \$0.40 per share, which vest as follows: options for 100,000 shares on each of December 31, 2003 and 2004. Options for 100,000 shares expire on each of December 30, 2008 and 2009, respectively. Mr. Toulan's employment contract provides for the payment of one year's salary plus medical insurance costs for termination of employment owing to change of control in our company. We converted these employment contract options to common stock pursuant to a vote of the Board of

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Directors on January 13, 2004. Our Board of Directors has extended this contract pending the execution of a replacement employment contract.

DESCRIPTION OF SECURITIES TO BE REGISTERED

COMMON STOCK

We are authorized to issue up to 300,000,000 shares of Common Stock, par value \$.001. As of December 7, 2005, there were 181,753,751 shares of common stock outstanding. Holders of the common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. Holders of common stock are entitled to receive ratably such dividends, if any, as may be declared by the Board of Directors out of funds legally available therefor. Upon the liquidation, dissolution, or winding up of our company, the holders of common stock are entitled to share ratably in all of our assets which are legally available for distribution after payment of all debts and other liabilities and liquidation preference of any outstanding common stock. Holders of common stock have no preemptive, subscription, redemption or conversion rights. The outstanding shares of common stock are validly issued, fully paid and nonassessable.

We have engaged American Stock Transfer & Trust Company located at 59 Maiden Lane, Plaza Level, New York, NY 10038, as independent transfer agent or registrar.

INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Articles of Incorporation, as amended, provide to the fullest extent permitted by Delaware law, our directors or officers shall not be personally liable to us or our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision of our Articles of Incorporation, as amended, is to eliminate our rights and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly negligent behavior), except under certain situations defined by statute. We believe that the indemnification provisions in our Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act" or "Securities Act") may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

PLAN OF DISTRIBUTION

The selling stockholders may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. If the shares of common stock are sold through underwriters or broker-dealers, the selling stockholders will be responsible for underwriting discounts or commissions or a gent's commissions. These sales may be at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or negotiated prices. The selling stockholders may use any one or more of the following methods when selling shares:

- o on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- o ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- o block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- o through the writing of options, whether such options are listed on an options exchange or otherwise;
- o an exchange distribution in accordance with the rules of the applicable exchange;
- o privately negotiated transactions;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o short sales;
- o broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- o a combination of any such methods of sale; and
- o any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

The selling stockholders may also engage in short sales against the box, puts and calls and other transactions in our securities or derivatives of our securities and may sell or deliver shares in connection with these trades.

Broker-dealers engaged by the selling stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling stockholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved. Any profits on the resale of shares of common stock by a broker-dealer acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. Discounts, concessions, commissions and similar selling expenses, if any, attributable to the sale of shares will be borne by a selling stockholder. The selling stockholders may agree to indemnify any agent, dealer or broker-dealer that participates in transactions involving sales of the shares if liabilities are imposed on that person under the Securities Act.

41

In connection with sales of the shares of common stock or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling stockholders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling stockholders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

The selling stockholders may from time to time pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time under this prospectus after we have filed an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933 amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus and may sell the shares of common stock from time to time under this prospectus after we have filed an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933 amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares of common stock may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commission paid, or any discounts or concessions allowed to, such broker-dealers or agents and any profit on the resale of the shares of common stock purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with. There can be no assurance that any selling stockholder will sell any or all of the shares of common stock registered pursuant to the shelf registration statement, of which this prospectus forms a part.

We are required to pay all fees and expenses incident to the registration of the shares of common stock, including \$10,000 of fees and disbursements of counsel to the selling stockholders. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

If we are notified by any selling stockholder that any material arrangement has been entered into with a broker-dealer for the sale of shares of common stock, if required, we will file a supplement to this prospectus. If the selling stockholders use this prospectus for any sale of the shares of common stock, they will be subject to the prospectus delivery requirements of the Securities Act.

42

The anti-manipulation rules of Regulation M under the Securities Exchange Act of 1934 may apply to sales of our common stock and activities of the selling stockholders, which may limit the timing of purchases and sales of any of the shares of common stock by the selling stockholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

Once sold under the registration statement, of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

The anti-manipulation rules of Regulation M under the Securities Exchange Act of 1934 may apply to sales of our common stock and activities of the selling stockholders.

PENNY STOCK

The Securities and Exchange Commission has adopted Rule 15c-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- o that a broker or dealer approve a person's account for transactions in penny stocks; and
- o the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks,

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

the broker or dealer must

- o obtain financial information and investment experience objectives of the person; and
- o make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- o sets forth the basis on which the broker or dealer made the suitability determination; and
- o that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

43

SELLING STOCKHOLDERS

The table below sets forth information concerning the resale of the shares of common stock by the selling stockholders. We will not receive any proceeds from the resale of the common stock by the selling stockholders. We will receive proceeds from the exercise of the warrants. Assuming the selling stockholders sell all the shares registered below, none of the selling stockholders will continue to own any shares of our common stock.

The following table also sets forth the name of each person who is offering the resale of shares of common stock by this prospectus, the number of shares of common stock beneficially owned by each person, the number of shares of common stock that may be sold in this offering and the number of shares of common stock each person will own after the offering, assuming they sell all of the shares offered.

Terms of Financing

To obtain funding for our ongoing operations, we entered into the following financing transaction:

On November 28, 2005, we closed a funding transaction with 13 accredited institutional investors, for the issuance and sale of 40,500,000 shares of our common stock for a purchase price of \$20,250,000. In addition, we also issued five-year warrants for the purchase of an additional 15,187,500 shares of common stock at an exercise price of \$0.80 per share. The securities are restricted and have been issued pursuant to an exemption to the registration requirements of Section 5 of the Securities Act of 1933 for "transactions of the issuer not

47

involving any public offering" provided in Section 4(2) of the Act and pursuant to a Regulation D offering. In connection with this financing, we issued common stock purchase warrants to purchase 1,012,500 shares of common stock at an exercise price of \$.50 per share and 304,688 shares of common stock at an exercise price of \$.80 per share to SG Cowen & Co., LLC, who acted as placement agent for this financing.

The shares of common stock and the shares of common stock underlying the warrants carry registration rights that obligate us to file a registration statement within 45 days from closing and have the registration statement declared effective within 120 days from closing.

Terms of Services Agreement

In June 2005, we entered into a Services Agreement with Marvel Enterprises, Inc. pursuant to which Marvel Enterprises, Inc. agreed to provide introductions to retailers and advise on creative design in consideration for a common stock purchase warrant to purchase 1,000,000 shares of common stock at \$0.05 per share.

This prospectus relates to the resale of the shares of common stock and

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

The accompanying unaudited consolidated financial statements include the accounts of Bravo! Foods International Corp. and its wholly owned subsidiary Bravo! Brands (UK) Ltd. (collectively the "Company"). The Company is engaged in the sale of flavored milk products and flavor ingredients in the United States, the United Kingdom and various countries in the Middle East and is establishing infrastructures to conduct business in Canada.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10QSB and Article 10 of Regulation S-X. Accordingly, the accompanying financial statements do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. All significant inter-company accounts and transactions have been eliminated in consolidation. The consolidated financial statements are presented in U.S. dollars. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the period ended September 30, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report for the year ended December 31, 2004.

As shown in the accompanying consolidated financial statements, the Company has suffered operating losses and negative cash flow from operations since inception and has an accumulated deficit of \$41,485,761, negative working capital of \$4,105,854 and is delinquent on certain of its debts at September 30, 2005. Further, the Company's auditors stated in their report on the Company's Consolidated Financial Statements for the year ended December 31, 2004, that these conditions raise substantial doubt about the Company's ability to continue as a going concern. Management plans to increase gross profit margins in its U.S. business, grow its international business, obtain additional financing and launch one new product line in the fourth quarter of 2005. While there is no assurance that funding will be available or that the Company will be able to improve its profit margins, the Company is continuing to actively seek equity and/or debt financing and, in January 2005, obtained financing of \$2,350,000, with \$1,950,000 invested in the six months ending June 30, 2005 and the balance invested in August 2005.

On July 13, 2005, Coca-Cola Enterprises Inc. (CCE) acquired options to purchase shares of common stock, convertible securities and warrants, entitling Coca-Cola Enterprises to purchase approximately 69,000,000 shares of common stock from 9 non-affiliated shareholders of the Company (the "Options"), representing approximately 23% of the authorized shares of the Company's common stock. Coca-Cola Enterprises and the Company contemporaneously commenced negotiations regarding a stock purchase agreement for the direct sale of approximately 81 million shares of the Company's common stock to Coca-Cola Enterprises. The consummation of the direct sale and the exercise of the Options by Coca-Cola Enterprises would have resulted in Coca-Cola Enterprises holding slightly in excess of 50% of the Company's equity on a fully diluted basis. These transactions were contingent upon the execution of a Master Distribution Agreement between the Company and Coca-Cola Enterprises. On July 29, 2005, the Company and Coca-Cola Enterprises entered into a Letter of Intent memorializing and confirming their intention to enter into the stock purchase agreement.

Subsequent to the execution of the Letter of Intent, in lieu of the exercise of the Options and the stock purchase agreement, the parties agreed to enter into the Master Distribution Agreement with the attendant grant of three year warrants by the Company to Coca-Cola Enterprises for the right to purchase

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

30 million shares of the Company's common stock at an exercise price of \$0.36 per share. On August 31, 2005, the Company issued the warrants to Coca-Cola Enterprises, and the parties executed a ten year exclusive Master Distribution Agreement that will significantly expand the distribution and sales of the Company's products. The Company presently is seeking from \$10 - \$15 million in new financing to promote the expanded sales anticipated with the implementation of the Master Distribution Agreement and for general working capital.

The Company recorded a \$3,000,000 one time, non-recurring finder's fee payable to a third party in connection with the execution of the Master Distribution Agreement with Coca-Cola Enterprises, Inc. in the quarter ending September 30, 2005. In addition, the Company recorded \$99,168, pro-rata, of an \$11,900,000 net charge in deferred distribution costs for the issuance of a three year warrant to Coca-Cola Enterprises to purchase of 30,000,000 shares of our common stock in connection with the execution of the Master Distribution Agreement. The Company will recognize that cost as a selling expense over the 10-year term of the Master Distribution Agreement.

No assurances can be given that the Company will be successful in carrying out its plans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Revenue Recognition

The Company recognizes revenue in the United States at the gross amount of its invoices for the sale of finished product to wholesale buyers. Commencing with the first quarter 2004, the Company no longer uses the sale of "kits" as a revenue event in the United States. Rather, the Company takes title to its branded flavored milks when they are shipped by the Company's third party processors and recognize as revenue the gross wholesale price charged to the Company's wholesale customers. Expenses for slotting fees and certain promotions are treated as a reduction of reported revenue. The Company determines gross margin by deducting from the reported wholesale price the cost charged by the Company's third party processors to produce the branded milk products. The sale of "kits" will remain as the revenue model for the Company's international business, with the exception of the United Kingdom and Canada, where the domestic business model will be implemented.

The Company recognizes revenue for its international business at the gross amount of its invoices for the sale of flavor ingredients and production rights (collectively referred to as "kits") at the time of shipment of flavor ingredients to processor dairies with whom the Company has production contracts for extended shelf life and aseptic long life milk. The Company recognizes revenue based upon its role as the principal in these transactions, its discretion in establishing kit prices (including the price of flavor ingredients and production rights fees), its development and refinement of flavors and flavor modifications, its discretion in supplier selection and its credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model is allocated for the processors' purchase of flavor ingredients and fees charged by the Company to the processors for production rights. The Company formulates the price of production rights to cover its royalties under intellectual property licenses, which varies by licensor as a percentage of the total cost of a kit sold to the processor dairy under the production agreement. The Company recognizes revenue on the gross amount of "kit" invoices to the dairy processors and simultaneously records as cost of goods sold the cost of flavor ingredients paid by the processor dairies to ingredients suppliers. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped. The criteria to meet this

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

guideline are: 1) persuasive evidence that an arrangement exists, 2) delivery has occurred or services have been rendered, 3) the price to the buyer is fixed or determinable and 4) collectibility is reasonably assured.

F-6

The Company follows the final consensus reached by the Emerging Issues Task Force (EITF) 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent". In certain circumstances in its U.S. business, the Company is required to pay slotting fees, give promotional discounts or make marketing allowances in order to secure wholesale customers. These payments, discounts and allowances reduce the Company's reported revenue in accordance with the guidelines set forth in EITF 01-9 and SEC Staff Accounting Bulletin No. 104. Pursuant to EITF 99-19, international sales of kits made directly to customers by the Company are reflected in the statements of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue.

Stock-based Compensation

The Company has adopted the intrinsic value method of accounting for employee stock options as permitted by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation" (SFAS No. 123) and discloses the pro forma effect on net loss and loss per share as if the fair value based method had been applied. For equity instruments, including stock options issued to non-employees, the fair value of the equity instruments or the fair value of the consideration received, whichever is more readily determinable, is used to determine the value of services or goods received and the corresponding charge to operations.

On April 6, 2005, the Company's Board of Directors voted to adopt a Stock Incentive Plan for the issuance of incentive options for up to 10,397,745 shares of the Company's common stock to management, employees and certain key third party service providers. On May 12, 2005, the Board received and reviewed a Report of the Compensation Committee recommending an allocation schedule for the allotted incentive option shares and voted to implement the Stock Incentive Plan for distribution of such options to the Corporation's present management, employees, directors and service providers as set forth in the Compensation Committee Report. The Company has not as yet issued the Incentive Stock Option Grant contracts.

Note 2 - Transactions in Capital Deficit

Quarter Ending March 31, 2005

New Financing: January 2005 Convertible Notes . On January 31, 2005, we closed a funding transaction with Longview Fund, LP, Longview Equity Fund, LP, Longview International Equity Fund, LP, Alpha Capital Aktiengesellschaft and Whalehaven Funds Limited, five institutional accredited investors, for the issuance and sale to the Subscribers of up to \$2,300,000 of principal amount of promissory notes convertible into shares of our common stock, and Warrants to purchase shares of common stock at 100% coverage of the common stock issuable in accordance with the principal amount of the notes. One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of the purchase price was paid on the initial closing date, and One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of the purchase price will be payable within five (5) business days after the actual effectiveness of an SB-2 Registration Statement as defined in the Subscription Agreement. The initial closing notes were at prime plus 4% interest in the aggregate amount of \$1,150,000, plus five-year Warrants for the purchase of, in the aggregate, 9,200,000 shares of common stock, at the lesser of (i) \$0.16, or (ii) 101% of the closing bid price of the Common Stock as reported by

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Bloomberg L.P. for the OTC Bulletin Board for the trading day preceding the Closing Date. The notes are convertible into shares of our common stock at \$0.125 per common share. Conversions are limited to a maximum ownership of 9.99% of the underlying common stock at any one time. The notes have a maturity date two years from closing and are payable in twelve equal monthly installments, commencing June 1, 2005. The installment payments consist of principal equal to

F-7

1/20(th) of the initial principal amount which, subject to certain conditions concerning trading volume and price, can be paid in cash at 103% of the monthly installment, or common stock or a combination of both. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO. In connection with this transaction, we issued restricted common stock in the aggregate amount of 460,000 shares plus the aggregate cash amount of \$57,500 for due diligence fees to the investors in this transaction. We issued the Convertible Promissory Note and the underlying common stock upon conversion to an accredited investor, pursuant to a Regulation D offering. The underlying common stock is now registered pursuant to a Form SB-2 registration statement declared effective August 2, 2005.

November 2003 Convertible Notes. We converted \$25,000 of our November 2003 Convertible Promissory Notes into 549,340 shares of common stock pursuant to a notice of conversion from Gamma Opportunity Capital Partners LP, at a fixed conversion price of \$0.05. The conversion included \$2,467 of accrued and unpaid interest on the converted amount. We issued the underlying common stock upon conversion pursuant to a Form SB-2 registration statement, declared effective on August 3, 2004.

April 2004 Convertible Notes. We converted \$99,999 of our April 2004 Convertible Promissory Notes into 1,141,387 shares of common stock pursuant to notices of conversion from Longview Fund LP, at a fixed conversion price of \$0.10. The conversions included \$14,138 of accrued and unpaid interest. We issued the underlying common stock upon conversion pursuant to our SB-2 registration statement, declared effective on August 3, 2004.

June 2004 Convertible Notes. We converted \$41,666 of our June 2004 Convertible Promissory Notes into 430,327 shares of restricted common stock pursuant to a notice of conversion from Longview Fund LP, at a fixed conversion price of \$0.15. The conversion included \$22,822 of accrued and unpaid interest. We issued the Convertible Promissory Note and the underlying common stock upon conversion to an accredited investor, pursuant to a Regulation D offering. The underlying common stock is now registered pursuant to a Form SB-2 registration statement declared effective April 18, 2005.

Quarter Ending June 30, 2005

New Financing: April 2005 Convertible Note. On April 21, 2005, we closed a funding transaction with Alpha Capital Aktiengesellschaft for the issuance of a convertible 10% note in the aggregate amount of \$300,000. The promissory note is convertible into shares of common stock of the Company at \$0.20 per common share. Conversions are limited to a maximum ownership of 9.99% of the Company's common stock at any one time. The note has an October 31, 2005 maturity and is payable in five equal monthly installments, commencing June 1, 2005. The installment payments consist of principal (equal to 1/5th of the initial principal amount) plus accrued interest. Installments can be paid in cash or common stock valued at the average closing price of the Company's common stock during the five trading days immediately preceding the relevant installment due date. The Company has repriced Class B Warrants issued on June 30, 2004 from

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

\$2.00 per share to \$0.125 per share and issued restricted common stock in the aggregate amount of 93,750 shares for finder's fees to a third-party to facilitate this transaction. The Company has the right to prepay the promissory note by paying to the holder cash equal to 120% of the principal to be prepaid plus accrued interest. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors or a change in the present CEO of the Company. The common stock underlying the note and the finder's fee common stock have "piggy back" registration rights. We issued the convertible note and finder's fee common stock to accredited investors, pursuant to a Regulation D offering.

New Financing: May 2005 Convertible Notes On May 23, 2005, we closed a funding transaction (the "May '05 Transaction") with Longview Fund, LP, Whalehaven Funds Limited, Ellis International Ltd., and Osher Capital Corp., four institutional accredited investors, for the issuance and sale to the Subscribers of Five Hundred Thousand Dollars (\$500,000) of principal amount of

F-8

promissory notes convertible into shares of our common stock and Warrants to purchase shares of common stock at 100% coverage of the common stock issuable in accordance with the principal amount of the notes. This May '05 Transaction was a part of a January 23, 2005 funding transaction for an aggregate of Two Million Three Hundred Thousand Dollars (\$2,300,000), One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of which was paid on the initial closing date, and One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of which (the "Second Tranche") was to be payable within five (5) business days after the actual effectiveness of an SB-2 Registration Statement covering the aggregate transaction, as defined in the Subscription Agreement. The May '05 Transaction for Five Hundred Thousand Dollars (\$500,000) is a partial interim closing of the Second Tranche, which occurred prior to the anticipated effectiveness of the SB-2 Registration Statement covering the aggregate transaction. Contemporaneous with the May '05 Transaction, we agreed to a modification of the January 23, 2005 aggregate transaction for the substitution of Ellis International Ltd. and Osher Capital Corp. in the place of Alpha Capital Aktiengesellschaft, one of the original investors. The May '05 Transaction convertible notes are at prime plus 4% interest in the aggregate amount of \$500,000, plus five-year Warrants for the purchase of, in the aggregate, 4,000,000 shares of common stock, at an exercise price of \$0.129. The notes are convertible into shares of our common stock at \$0.125 per common share. Conversions are limited to a maximum ownership of 9.99% of the underlying common stock at any one time. The notes have a maturity date two years from closing and are payable in twelve equal monthly installments, commencing June 1, 2005. The installment payments consist of principal equal to 1/20th of the initial principal amount which, subject to certain conditions concerning trading volume and price, can be paid in cash at 103% of the monthly installment or common stock or a combination of both. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO. In connection with this transaction, we issued restricted common stock in the aggregate amount of 200,000 shares plus the aggregate cash amount of \$25,000 for due diligence fees to Longview Fund, LP, Gem Funding LLC, Ellis International Ltd., and Osher Capital Corp. in this transaction. The Second Tranche of the January 23, 2005 aggregate transaction, now in the amount of \$650,000, remains outstanding and will be triggered by the effectiveness of the pending SB-2 registration statement.

We issued the restricted common stock pursuant to Section 4(6) of the Securities Act of 1933, which provides an exemption from the registration requirements of the Act for transactions not involving a public offering.

On September 19, 2005, we issued 450,000 restricted shares of our common stock to Alpha Capital AG, an accredited investor, in a sale not involving a public offering at a price of \$1.00 per share. We issued the common stock pursuant to a Regulation D offering.

Warrant Issue. On August 31, 2005, we issued a three year Warrant to Coca-Cola Enterprises Inc. to purchase 30,000,000 shares of our common stock a \$0.36 per share. During the first 18 months of the exercise period, the Company has the option to "call" the exercise of up to 10,000,000 shares of common stock issuable upon exercise of the Warrant, upon the Company's satisfaction of certain conditions, including a trading price of not less than \$1.08 per share for 20 consecutive trading days. This Warrant was issued in connection with the execution of a Master Distribution Agreement on August 31, 2005. We issued the Warrant pursuant to Section 4(6) of the Securities Act of 1933, which provides an exemption from the registration requirements of the Act for transactions not involving a public offering. The Company will record an \$11,900,000 net charge in deferred distribution costs for the issuance of a three year warrant to Coca-Cola Enterprises to purchase of 30,000,000 shares of our common stock in connection with the Master Distribution Agreement. The Company will recognize that cost as a selling expense over the 10-year term of the agreement.

Note 3 - Business Segment and Geographic Information

The Company operates principally in the single serve flavored milk industry segment, under two distinct business models. In the United States, the Company is responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, the Company recognizes as revenue the invoiced wholesale prices that the Company charges to the retail outlets that purchase the Slammers(R) flavored milks. In countries other than the United States, the Company's revenue generally is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for the Company's Slammers(R) flavored milks and production rights to manufacture and sell the milks. In line with the Company's revenue recognition policies, the Company recognizes the full invoiced kit price as revenue. In earlier periods, the Company reported the sale of kits to SADAFCO, a third party dairy processor located in Saudi Arabia, for distribution to nine Middle Eastern countries, and Neolac, a third party dairy processor located in Mexico. The Company did not have sales to these third party processors in the quarter ending September 30, 2005.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
Bravo! Foods International Corp.
North Palm Beach, Florida

We have audited the accompanying consolidated balance sheets of Bravo! Foods International Corp. as of December 31, 2003 and 2004 and the related statements of operations and comprehensive loss, shareholders' deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (U.S.). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bravo! Foods International Corp. as of December 31, 2003 and 2004 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has incurred a net loss of \$3,799,926 for the year ended December 31, 2004 and as of that date had a working capital deficiency of \$2,365,969 and

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

a shareholders' deficit of \$3,029,694. The Company is also delinquent in payment of certain debts. These conditions raise substantial doubt about their ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence. Management's actions in regard to these matters are more fully described in Note 1.

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Organization, Businesses and Going Concern Uncertainty

Bravo! Foods International Corp., formerly known as China Premium Food Corporation, was incorporated under the laws of the State of Delaware on April 26, 1996. We are engaged in the sale of branded flavored milk products and flavor ingredients in the United States, the Middle East, Canada and Mexico.

In December 1999, we obtained Chinese government approval for the registration of China Premium Food Corp (Shanghai) Co. Ltd., a wholly owned subsidiary, in the Wai Gao Qiao free trade zone in Shanghai, China. This subsidiary was formed to import, export and distribute food products and flavored milk ingredients on a wholesale level in China. We ceased all business activities of this Chinese subsidiary in the second quarter 2004 and did not generate revenue in 2004 from our China operation.

In January 2005, we formed Bravo! Brands (UK) Ltd., a registered United Kingdom subsidiary. The company formed this subsidiary to operate our branded flavored milk business in the United Kingdom. On February 4, 2005, we executed a license agreement with Marvel Enterprises, Inc., for the use of Marvel Heroes(R) comic book characters on our products.

Going Concern Uncertainty

As shown in the accompanying consolidated financial statements, we have suffered operating losses and negative cash flow from operations since inception and have an accumulated deficit of \$33,737,029, a capital deficit of \$3,029,694, negative working capital of \$2,365,969 and are delinquent on certain of our debts at December 31, 2004. Further, our auditors stated in their report on our Consolidated Financial Statements for the year ended December 31, 2004, that these conditions raise substantial doubt about our ability to continue as a going concern. Management plans to increase gross profit margins in our U.S. business and obtain additional financing and is continuing to reposition our products with the launch of three new product lines in the first and second quarters of 2005. While there is no assurance that funding will be available or that the Company will be able to improve its profit margins, management is continuing to actively seek equity and/or debt financing, and the Company received \$1,150,000 in the first quarter 2005 as part of a \$2,300,000 convertible debt financing. No assurances can be given that the Company will be successful in carrying out our plans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the more significant estimates included in these financial statements are the estimated allowance for doubtful accounts receivable and the deferred income tax asset valuation allowance. Actual results could differ materially from those estimates.

Fair Value of Financial Instruments

The carrying amount of cash, receivables, accrued liabilities and notes payable are reasonable estimates of their fair value because of the short maturity of these items.

F-22

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Cash and Cash Equivalents

We consider all highly liquid investments purchased with a remaining maturity of three months or less to be cash equivalents.

Accounts Receivable and Concentration of Credit Risk

Our financial instruments that are exposed to concentrations of credit risk primarily consist of cash and accounts receivable.

During the normal course of business, we extend unsecured credit to our customers who are located in various geographical areas. Typically credit terms require payments to be made by the thirtieth day following the sale. We regularly evaluate and monitor the creditworthiness of each customer on a case-by-case basis. We provide an allowance for doubtful accounts based on our continuing evaluation of our customers' credit risk. As of December 31, 2004, the allowance of doubtful accounts aggregated \$90,396. We maintain cash accounts with high credit quality financial institutions. The FDIC insures total cash balances up to \$100,000 per bank. Cash balances in any one financial institution were not in excess of this limit at December 31, 2004.

Inventory

Inventory, which consists primarily of packing materials and flavor ingredients, is stated at the lower of cost on the first in, first-out method or market.

Furniture and Equipment

Furniture and equipment are stated at cost. Depreciation is computed primarily utilizing the straight-line method over a period of seven years for furniture and five years for equipment.

Maintenance, repairs and minor renewals are charged directly to expenses as incurred. Additions and betterments to property and equipment are capitalized. When assets are disposed of, the related cost and accumulated depreciation thereon are removed from the accounts, and any resulting gain or loss is included in the statement of operations.

Impairment of Long-Lived Assets

Effective January 1, 2002, we began applying the provisions of Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No. 144"). SFAS No. 144 requires that

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value.

Revenue Recognition

We sell flavor ingredients and production rights (collectively referred to as "kits") to processor dairies in Mexico and nine Middle East counties and also sell flavored milk products in the U.S. We recognize revenue when goods are shipped, and title and the risk and reward of ownership have been passed to the customer and possible return of goods can be reasonably estimated. The criteria to meet this guideline are: 1) persuasive evidence of an arrangement exists, 2) delivery has occurred or services have been rendered, 3) the price to the buyer is fixed or determinable and 4) collectibility is reasonably assured.

F-23

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

We follow the final consensus reached by the Emerging Issues Task Force (EITF) 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent". Pursuant to EITF 99-19, our sales of kits made directly to customers are reflected in the statement of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue. Sales of kits made through intermediaries, in whom our role is similar to that of an agent, are reflected on a net basis, which represents the amount earned by us in the transaction.

We have production agreements with processors of dairy products pursuant to which we sell flavored milk products to retail stores (referred to as "unit sales"). We benefit from the difference between the prices charged by the dairy processor to produce the product for us and the price paid by retail stores to purchase the product. We bear the responsibility for paying food brokers fees, transportation and delivery expenses and sample expense, etc. We recognize revenue on the gross basis and recognize the aforementioned expenses as selling expenses.

Shipping and Handling Costs

Shipping and handling costs incurred by us are included in selling expenses and aggregated \$504,971 and \$ 498,313 for 2003 and 2004, respectively.

Advertising and Promotion Costs

Advertising and promotion costs, which are included in selling expenses, are expensed as incurred and aggregated \$342,367 and \$656,614 for 2003 and 2004, respectively.

Income Taxes

We account for income taxes using the liability method, which requires an entity to recognize deferred tax liabilities and assets. Deferred income taxes are recognized based on the differences between the tax bases of assets and liabilities and their reported amounts in the financial statements that will result in taxable or deductible amounts in future years. Further, the effects of enacted tax laws or rate changes are included as part of deferred tax expense or benefit in the period that covers the enactment date. A valuation allowance is

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

recognized if it is more likely than not that some portion, or all, of a deferred tax asset will not be realized.

Earnings (Loss) Per Share

Basic earnings (loss) per common share is computed by dividing the loss applicable to common stockholders by the weighted average number of common shares outstanding for the period.

For the years ended December 31, 2003 and 2004, potential common shares arising from our stock options, stock warrants and convertible preferred stock of 39,611,363 and 65,089,658, respectively, were not included in the computation of diluted earnings per share because their effect was antidilutive.

Stock-based Compensation

We have adopted the intrinsic value method of accounting for employee stock options as permitted by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation" (SFAS No. 123) and disclose the pro forma effect on net loss and loss per share as if the fair value based method had been applied. For equity instruments, including stock options, issued to non-employees, the fair value of the equity instruments or the fair value of the consideration received, whichever is more readily determinable, is used to determine the value of services or goods received and the corresponding charge to operations. (SFAS 123 was amended further in December 2004; see below - Recent Accounting Pronouncements).

F-24

Recent Accounting Pronouncements

In December 2004, the FASB issued Statement No. 152, "Accounting for Real Estate Time-Sharing Transactions". This statement amends SFAS No. 66 (Accounting for

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Sales of Real Estate) and SFAS No. 67 (Accounting for Costs and Initial Rental Operations of Real Estate Projects). This standard, which is effective for financial statements for fiscal years beginning after June 15, 2005, is not applicable to the Company's current operations.

In December 2004, the FASB issued SFAS No. 153 "Exchange of Non-Monetary Assets - an amendment of APB Opinion No. 29". Statement 153 eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance, defined as transactions that are not expected to result in significant changes in the cash flows of the reporting entity. This statement is effective for exchanges of non-monetary assets occurring after June 15, 2005. The application of this statement is not expected to have an impact on the Company's financial statements considering the Company's intermittent participation in exchanges of non-monetary assets.

In December 2004, the FASB issued a revision of SFAS No. 123 "Share-Based Payment" (No. 123R). The statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods and services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. The statement does not change the accounting guidance for share-based payments with parties other than employees. The statement requires a public entity to measure the cost of employee service received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exception). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). A public entity will initially measure the cost of employee services received in exchange for an award of a liability instrument based on its current fair value; the fair value of that award will be remeasured

F-25

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

subsequently at each reporting date through the settlement date. Changes in fair value during the requisite service period will be recognized as compensation over that period. The grant-date fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of these instruments. According to management, this pronouncement, which becomes effective for the Company for periods beginning after December 15, 2005, is not expected to have a material effect on their financial position.

Note 3 - Licensing Agreements

Warner Brothers Consumer Products Co.

On January 1, 1999, we entered into a licensing agreement (the Original Agreement) with Warner Brothers Consumer Products Co. (Warner) for the right to utilize Looney Tunes(TM) images and names, as defined in the Agreement, on our products in Shanghai and Hangzhou, China. We recorded license rights of \$300,000 and amortized the rights over a period of three years. On November 21, 2000, we entered into an amendment of the Original Agreement with Warner. Per the amendment, the term of the agreement was extended to June 30, 2003 with the guaranteed consideration being increased to \$400,000. The Original Agreement, as amended, was extended to October 29, 2003, at which time it expired. As of December 31, 2003, the outstanding obligation under this agreement was \$147,115.

We decided not to seek another license from Warner Bros. for China beyond the October 2003 expiration based upon the lack of sales in our China markets and what we perceived to be the licensor's continuing overall lack of brand support in China. The Company and Warner Bros. dispute the contractual necessity of the payment of the balance owed on the China license as a result of the above circumstances. As of December 31, 2004, we reserved and continue to reserve \$147,116 for this obligation, representing a total \$183,343 balance of guaranteed royalties, which includes \$36,227 for the legally allowed default penalty.

On July 26, 2000, we entered into a license agreement with Warner Bros. and obtained rights to utilize Looney Tunes(TM) character images and names in the United States in connection with specified categories of products sold by Bravo!. The license agreement was originally effective from January 1, 2000 to December 31, 2002 and was extended to December 31, 2003. We recorded total license rights for this U.S. license of \$750,000.

F-26

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In September 2001, we entered into a licensing agreement with Warner for the right to utilize Looney Tunes(TM) character images and names, as defined in the agreement, on our products sold in Mexico, with a minimum total guaranteed consideration of \$145,000, which we amortized over a period of three years. This licensing agreement was effective through May 31, 2004.

In May 2002, we entered into a licensing agreement with Warner to utilize Looney Tunes(TM) characters and names on milk products sold in specified retail outlets throughout Canada, for the period March 1, 2002 to March 31, 2004. We recorded a license right of \$32,720 upon execution of the agreement.

Our experience with Warner Bros. licenses, as a function of sales of the flavored milks, has not supported the guaranteed royalty structure required by Warner Bros. for its licenses. As a result, we decided to exploit our own Slammers(R) brand, which was developed in 2003, and commenced negotiations for licenses with Marvel Comics and Moon Pie. For these reasons, we decided not to accept the offer of Warner Bros. to renew the U.S. license.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

Marvel Enterprises, Inc.

In January 2004, we commenced a license agreement with Marvel Enterprises, Inc. for the right to use certain Marvel Super Heroes in the United States (including its territories) and nine Middle East countries for a one-year (renewable) term. We agreed to a royalty rate of 11% on the amount invoiced to dairy processors for "kits" and 4% of net wholesale sales in the United States. We have recorded \$100,000 and \$75,000 for 750,000 shares and options for an additional 750,000 shares as license fees.

On February 4, 2005, we entered into a two-year license agreement for the utilization of Marvel Heroes characters on our flavored milks in the United Kingdom and Ireland. We agreed to a royalty rate of 4% of net wholesale sales in the territory against the prepayment of a guaranteed minimum royalty amount of approximately \$240,000.

We currently are negotiating with Marvel to conclude a new one-year license for the United States, Mexico and Canada and a two-year license for the Middle East.

Chattanooga Bakery, Inc. (Moon Pie(R))

In October 2003, we commenced a two-year license agreement with MD Enterprises, Inc. on behalf of Chattanooga Bakery for the right to manufacture, distribute, market and sell Moon Pie(R) flavored milk products in the United States. We agreed to a variable royalty rate of 3% to 2% of net wholesale sales, depending upon volume.

Masterfoods USA (Starburst(R), Milky Way(R), 3 Musketeers(R))

On September 21, 2004, we entered into a licensing agreement with Masterfoods USA, a division of Mars, Incorporated, for the use of Masterfood's Milky Way(R), Starburst(R) and 3 Musketeers(R) trademarks in connection with the manufacture, marketing and sale of single serve flavored milk drinks in the United States, its Possessions and Territories, and US Military installations worldwide. We have agreed to pay a royalty based upon the total net sales value of the licensed products sold and advance payments of certain agreed upon guaranteed royalties and recorded license fees of \$50,000 in 2004 and \$25,000 in the first quarter of 2005.

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 4 - Default of Note Payable to International Paper

In 1999, we issued a promissory note to assume existing debt owed by our then Chinese joint venture subsidiary to a supplier, International Paper. The face value of that unsecured note was \$282,637 at an interest rate of 10.5% per annum. The note originally required 23 monthly payments of \$7,250 and a balloon payment of \$159,862 due on July 15, 2000. During 2000, we negotiated an extension of this note to July 1, 2001. International Paper imposed a charge of \$57,000 to renegotiate the note, which amount represents interest due through the extension date. The current balance due on this note is \$187,743 at December 31, 2004, all of which is delinquent. We have not had any communication with International Paper during the last three years. Although International Paper has not pursued collection of the note, it is possible that they could do so in the future and, if they do, such collection effort may have a significant adverse impact on the liquidity of the Company. We have not accrued interest as

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

of December 31, 2003 and December 31, 2004.

Note 5 - Notes Payable to Individual Lenders

On November 6 and 7, 2001, respectively, we received the proceeds of two loans aggregating \$100,000 from two offshore lenders. The two promissory notes, one for \$34,000 and the other for \$66,000, were payable on February 1, 2002 with interest at an annual rate of 8%. These loans are secured by a general security interest in all of our assets. These lenders have agreed to extend the notes without default on a demand basis. Interest accrued and unpaid as December 31, 2004 aggregated \$25,380.

On May 9, 2004 we received the proceeds of a \$750,000 loan from Mid-Am Capital, payable September 3, 2004, with an interest rate of 8%. This loan is secured by a general security interest in all of our assets. Mid-Am has agreed to extend the note to January 31, 2005. Interest accrued and unpaid as December 31, 2004 aggregated \$10,121.

Note 6 - Capital Deficit

2003

On January 2, 2003, we issued 100,000 shares of common stock to an employee. This common stock was registered under a Form S-8 registration statement in December 2004. In January 2003, we recorded \$28,000 of compensation expense based upon a signing bonus for this grant. In addition, we granted options for 100,000 shares of common stock to the employee pursuant to an employment contract. These options vested immediately, expire on December 30, 2007 and have an exercise price of \$0.40 per share. We also granted options for 200,000 shares of common stock at an exercise price of \$0.40 per share and vest as follows: options for 100,000 shares on each of December 31, 2003 and 2004, and 100,000 expire on each of December 30, 2008 and 2009, respectively.

On February 4, 2003, we issued 30,000 shares of common stock to Keshet, LP, upon the conversion of 480 shares of Series G Convertible Preferred stock, at a conversion price of \$0.196. The conversion included accrued and unpaid dividends on the preferred converted.

On February 21, 2003, we issued 50,000 shares of non-voting Series J 8% Convertible Preferred stock, having a stated value of \$10.00 per Preferred J share, and common stock warrants to Mid-Am Capital, L.L.C. ("Mid-Am") for the aggregate purchase price of \$500,000. Each preferred share is convertible to 40 shares of our common stock at a per common share conversion price of \$0.25, representing 2,000,000 shares of common stock underlying the preferred. The

Note 7 - Stock Warrants and Options

2003

On January 2, 2003, we granted options for 100,000 shares of common stock to an employee pursuant to an employment contract. These options vested immediately, expire on December 30, 2007 and have an exercise price of \$0.40 per share. We also granted options for 200,000 shares of common stock at an exercise price of \$0.40 per share and vest as follows: options for 100,000 shares on each of December 31, 2003 and 2004, and 100,000 expire on each of December 30, 2008 and 2009, respectively.

On February 21, 2003, we issued a warrant for 1,666,667 shares of common stock to Mid-Am, in connection with the issuance of 50,000 shares of non-voting Series J 8% Convertible Preferred stock, having a stated value of \$10.00 per Preferred J share, for the aggregate purchase price of \$500,000. The warrants have an exercise price of \$0.30 per common stock share, and are exercisable for a five-year period. The February 21, 2003 closing market trading price was \$0.23 per share. In accordance with EITF 00-27, we recorded a deemed dividend of \$274,720 related to a beneficial conversion feature.

On May 29, 2003, we issued a warrant for 2,000,000 shares of common stock to Mid-Am, in connection with the issuance of 50,000 shares of non-voting Series J 8% Convertible Preferred stock, having a stated value of \$10.00 per Preferred J share, for the aggregate purchase price of \$500,000. The warrants entitle the holder to purchase 40 shares of common stock for each share of Series J Convertible Preferred stock issued at an exercise price of \$0.25 per common stock share, and are exercisable for a five-year period. The May 22, 2003 closing market trading price was \$0.12 per share. In addition, we made the following adjustments to prior issued warrants for the purpose of facilitating future fund raising by us arising out of the exercise of the warrants by Holder. The purchase price, as defined in the Warrants No. 1 (issued September 2002) and 2 (issued February 2003), was reduced to \$0.25, subject to further adjustment as described in the warrants. The warrant stock provided for in Warrant No.1 was increased by 1,500,000 shares. The warrant stock provided for in Warrant No. 2 was increased by 333,333 shares. The expiration date, as defined in the respective warrants, remains as stated. The trading price call option trigger set forth in Section 9 (b) of all of the warrants has been reduced from \$1.75 to \$0.75 per share. The value of the warrants, \$92,491, was determined using the Black-Scholes model.

On November 21, 2003, we issued two "A" warrants for the aggregate amount of 2,000,000 shares of common stock, and two "B" warrants for the aggregate amount of 10,000,000 shares of common stock to Mid-Am Capital, L.L.C. and Gamma Opportunity Capital Partners, LP, in connection with the issuance of two convertible notes in the aggregate face amount of \$400,000. The "A" warrants have an exercise price of \$0.05 per share and the "B" warrants have an exercise price of \$1.00 per share. In connection with this transaction, we issued a warrant to purchase 2,000,000 shares of common stock at \$0.05 per share, as a finder's fee. All warrants issued in connection with this transaction are exercisable for five years.

2004

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

On February 1, 2004, we agreed to issue warrants to purchase 750,000 shares of common stock to Marvel Enterprises, Inc. We issued this equity in connection with the grant of an intellectual property license by Marvel on January 17, 2004, giving us the right to use certain Marvel Comics characters on our Slammers(R) line of flavored milks. The warrants have an exercise price of \$0.10 per share for the first year and, upon the occurrence of certain conditions tied to the royalty performance under the license, can be extended for an additional year with an exercise price of \$0.14 per share. We made this private offering to Marvel Enterprises, an accredited investor, pursuant to Rule 506 of Regulation D and Section 4(2) of the Securities Act of 1933.

On April 20, 2004, we entered into a Subscription Agreement with Longview Fund, LP and Alpha Capital Aktiengesellschaft for the issuance of two convertible 10% notes in the amount of \$250,000 each and five-year warrants for the purchase of, in the aggregate, 3,000,000 shares of common stock, at \$0.15 per share. The common stock underlying all notes and warrants carry registration rights. We issued the convertible notes and warrants to accredited investors, pursuant to a Regulation D offering.

On May 9, 2004 we received the proceeds of a \$750,000 loan from Mid-Am Capital, payable September 3, 2004, with an interest rate of 8%. This loan is secured by a general security interest in all of our assets. Mid-Am has agreed to extend the note without to January 31, 2005. We issued one-year warrants for 3,000,000 shares of common stock at \$0.25 per share to Mid-Am Capital in connection with this loan.

On June 30, 2004, we entered into Subscription Agreements with Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited, Stonestreet Limited Partnership and Mid-Am Capital L.L.C for the issuance of convertible 10% notes in the aggregate amount of \$1,300,000 and five-year "A" warrants for the purchase of, in the aggregate, 5,200,000 shares of common stock, at \$0.25 per share, and five-year "B" warrants for the purchase of, in the aggregate, 13,000,000 shares of common stock, at \$2.00 per share. The common stock underlying all notes and warrants carry registration rights. We issued the convertible notes and warrants to accredited investors, pursuant to a Regulation D offering.

On October 29, 2004, we entered into Subscription Agreements with Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership for the issuance of convertible 10% notes in the aggregate amount of \$550,000 and five-year "C" warrants for the purchase of, in the aggregate, 2,200,000 shares of common stock, at \$0.15 per share, and the repricing of five-year "A" warrants, issued June 30, 2004 for the purchase of, in the aggregate, 3,200,000 shares of common stock, from \$0.25 to \$0.15 per share. The common stock underlying all notes and warrants carry registration rights. We issued the convertible notes and warrants to accredited investors, pursuant to a Regulation D offering.

On November 19, 2004, we agreed to grant incentive stock options to National Financial Communications Corp. for the purchase of the aggregate of 1,000,000 shares of our common stock at an exercise price of \$.25 per share in connection with a public relations and corporate communications services agreement. The options are exercisable during the period commencing on the agreement date and ending three years subsequent to the termination date of the agreement. The grant of options shall be as follows: (i) options for 250,000 shares upon the execution of the agreement, and (ii) beyond the first ninety (90) days of the agreement, the balance of 750,000 shares on a pro rata quarterly basis at the rate of 250,000 per quarter, conditioned upon the continuation of the agreement.

Note 8 - Income Taxes

We are subject to Federal income taxes. As we have experienced operating losses for the years of 2003 and 2004, we have not provided for income tax .

We have gross deferred tax assets of approximately \$6.8 million and \$8.1 million at December 31, 2003 and 2004, respectively, relating principally to tax effects of net operating loss carry forwards. In assessing the recoverability of deferred tax assets, management considers whether it is more likely than not that the assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable loss and projections for future taxable income over the periods in which the deferred tax items are recognizable for tax reporting purposes, it is more likely than not that we will not realize the benefits of these deferred tax assets existing at December 31, 2003 and 2004. As such, management has recorded a valuation allowance for the full amount of deferred tax assets at December 31, 2003 and 2004.

At December 31, 2004, we had available net operating losses of approximately \$19 million for federal income tax purposes, to offset future taxable income, if any, which will expire at various dates through the year 2023 for federal income tax purposes. The utilization of net operating losses, however, may be subject to certain limitations as prescribed by Section 382 of the Internal Revenue Code.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Our Articles of Incorporation, as amended, provide to the fullest extent permitted by Delaware law, our directors or officers shall not be personally liable to us or our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision of our Articles of Incorporation, as amended, is to eliminate our right and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly negligent behavior), except under certain situations defined by statute. We believe that the indemnification provisions in its Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

To obtain funding for our ongoing operations, we entered into a Subscription Agreement with two accredited investors in November 2003 for the sale of (i) \$400,000 in convertible debentures, (ii) class A warrants to buy 2,000,000 shares of our common stock and (iii) class B warrants to buy 10,000,000 shares of common stock. In connection with this financing, we paid a finders fee to an accredited investor, which included (i) 400,000 shares of common stock, (ii) class A warrant to purchase 2,000,000 shares of common stock and (iii) 10% of the proceeds received by us in connection with the exercise of the class B warrants, which is payable in shares of common stock at the rate of one share of common stock for every ten shares of common stock actually issued upon exercise of the class B warrants.

In April 2004, we entered into a Subscription Agreement with two accredited investors for the sale of (i) \$500,000 in convertible debentures and (ii) warrants to buy 3,000,000 shares of our common stock. In connection with this financing, we paid a fee in the amount of \$50,000 in the form of a convertible debentures.

9

The debentures issued in connection with the April 2004 financing bear interest at 10%. The principal on the notes is due in equal monthly installments commencing on November 1, 2004 until October 1, 2005. On October 1, 2005, all principal and interest shall become due. In the event that our common stock has a closing price in excess of \$.20 for the five days preceding the monthly payment, then, within our discretion, the monthly payment may be deferred. and the notes are convertible into our common stock at \$0.10 per share.

Marvel License

On February 1, 2004, we entered into a license agreement with Marvel Enterprises, Inc. In consideration for the use of proprietary information, we

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

issued Marvel 750,000 shares of our common stock and a common stock purchase warrant to purchase 750,000 shares of our common stock. The warrants have an exercise price of \$.10 per share for the first year and, upon the occurrence of certain conditions tied to the royalty performance under the license, can be extended for an additional year with an exercise price of \$.14 per share.

June 2004

In June 2004, we entered into a Subscription Agreement with Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership for the issuance of convertible 10% notes in the aggregate amount of \$800,000 and five-year "A" warrants for the purchase of, in the aggregate, 3,200,000 shares of common stock, at \$0.25 per share, and five-year "B" warrants for the purchase of, in the aggregate, 8,000,000 shares of common stock, at \$2.00 per share. In addition, in a separate private placement, Mid-Am Capital L.L.C. invested \$500,000 in exchange for convertible 10% notes, 5,000,000 "A" warrants and 2,000,000 "A" warrants, which had identical terms to that of the other investors. In consideration for the investors providing us with additional financing in the aggregate amount of \$550,000 in October 2004, we subsequently amended the exercise price to \$.15 for the "A" warrants and to \$.125 for the "B" warrants issued to Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership. The notes are convertible into shares of common stock of the Company at \$0.10 per common share. The notes are payable in twelve equal monthly installments, commencing January 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on December 1, 2005, if our common stock trades above \$0.20 for the five trading days prior to the due date of an installment payment.

The investors have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock.

October 2004

On October 29, 2004, we entered into Subscription Agreements with Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership for the issuance of convertible 10% notes in the aggregate amount of \$550,000 and five-year "C" warrants for the purchase of, in the aggregate, 2,200,000 shares of common stock, at \$0.15 per share, and the repricing of five-year "A" warrants, issued June 30, 2004 for the purchase of, in the aggregate, 3,200,000 shares of common stock, from \$0.25 to \$0.15 per share. The notes are convertible into shares of common stock at \$0.10 per common share. The notes are payable in twelve equal monthly installments, commencing May 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on April 30, 2006, if our common stock trades above \$0.15 for the five trading days prior to the due date of an installment payment and the underlying common stock is registered. In connection with this transaction, we issued additional notes, without attached warrants, in the aggregate amount of \$27,500 to Gem Funding, LLC, Bi-Coastal Consulting Corp., Stonestreet Limited Partnership and Libra Finance, S.A upon identical terms as the principal notes, as a finder's fee, and paid \$12,500 in legal fees. The common stock underlying all notes and warrants carry registration rights.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

The investors have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock.

December 2004

In December 2004, we entered into Subscription Agreements with Momona Capital Corp. and Ellis International Ltd. for the issuance of convertible 10% notes in the aggregate amount of \$400,000 and five-year "C" warrants for the purchase of, in the aggregate, 800,000 shares of common stock, at \$0.15 per share. The notes are convertible into shares of common stock at \$0.10 per common share. The notes are payable in twelve equal monthly installments, commencing May 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on April 30, 2006, if our common stock trades above \$0.15 for the five trading days prior to the due date of an installment payment and the underlying common stock is registered. In connection with this transaction, we issued additional notes, without attached warrants, in the aggregate amount of \$10,000 to Momona Capital Corp. and Ellis International Ltd. upon identical terms as the principal notes, as a finder's fee. The common stock underlying all notes and warrants carry registration rights.

The investors have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock.

January 2005

On January 31, 2005, we closed a funding transaction with Longview Fund, LP, Longview Equity Fund, LP, Longview International Equity Fund, LP, Alpha Capital Aktiengesellschaft and Whalehaven Funds Limited (collectively, the "January 2005 Investors"), five institutional accredited investors, for the issuance and sale to the January 2005 Investors of up to \$2,300,000 of principal amount of convertible notes convertible into shares of our common stock, and common stock purchase warrants to purchase 18,400,000 shares of common stock. In April 2005, Alpha Capital Aktiengesellschaft assigned its right to participate in the second closing to Ellis International Ltd. and Osher Capital Group. The exercise price for the common stock purchase warrants is \$0.129. Pursuant to the Subscription Agreement as modified, \$1,150,000 of the purchase price was paid on the initial closing date, \$500,000 of the purchase price was paid in May 2005 and \$650,000 of the purchase price was paid within five business days after the actual effectiveness of the registration statement that registered these securities.

The notes have a maturity date two years from closing, have an interest rate of 4% and are payable in 12 equal monthly installments, commencing June 1, 2005. The installment payments consist of principal equal to 1/20th of the initial principal amount which can be paid in cash at 103% of the monthly installment, or common stock, or a combination of both. The notes are convertible into shares of our common stock at \$0.125 per common share. However, in the event that the average of the five lowest closing bid prices of our common stock for the 20 consecutive trading days immediately preceding the conversion date is less than \$0.144 or certain volume criteria are not satisfied, then the conversion price shall be 80% of the average of the five lowest closing bid prices of our common stock for the 20 trading days immediately preceding the conversion date.

The investors have contractually agreed to restrict their ability to

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock.

April 2005

On April 21, 2005, we closed a funding transaction with Alpha Capital Aktiengesellschaft ("Alpha") for the issuance of a 10% convertible note in the amount of \$300,000. The convertible note has an October 31, 2005 maturity date and is payable in five equal monthly installments, commencing June 1, 2005. The installment payments consist of principal (equal to 1/5th of the initial principal amount) plus accrued interest. We can elect to pay the installments in

11

cash or common stock valued at the average closing price of our common stock during the five trading days immediately preceding the relevant installment due date. We have the right to prepay the convertible note by paying to Alpha cash equal to 120% of the principal to be prepaid plus accrued interest. Prior to the installment date becoming due, Alpha may elect to convert the convertible note into shares of common stock of our company at \$0.20 per common share.

Alpha contractually agreed to restrict its ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and its affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2

The undersigned registrant hereby undertakes to:

(1) File, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of the securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) under the Securities Act if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement, and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For purposes of determining any liability under the Securities Act, treat the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act as part of this registration statement as of the time it was declared effective.

(5) For determining any liability under the Securities Act, treat each post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the registration statement, and that offering of the securities at that time as the initial bona fide offering of those securities.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

In accordance with the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements of filing on Form SB-2 and authorizes this registration statement to be signed on its behalf by the undersigned, in the City of North Palm Beach, State of Florida, on December 20, 2005.
