ITEM 1. FINANCIAL STATEMENTS

The condensed consolidated Financial Statements are set forth at the end of this document.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The following discussion should be read in conjunction with the Company's condensed consolidated financial statements and the notes thereto appearing elsewhere in this Form 10-QSB. Certain statements contained herein that are not related to historical results, including, without limitation, statements regarding the Company's business strategy and objectives, future financial position, expectations about pending litigation and estimated cost savings, are forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the "Securities Exchange Act") and involve risks and uncertainties. Although the

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

Company believes that the assumptions on which these forward-looking statements are based are reasonable, there can be no assurance that such assumptions will prove to be accurate and actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, regulatory policies, and market and general policies, competition from other similar businesses, and market and general economic factors. All forward-looking statements contained in this Form 10-QSB are qualified in their entirety by this statement.

OVERVIEW

The Company is engaged in acquiring, re-manufacturing and selling pre-owned Computer Numerically Controlled ("CNC") machine tools to manufacturing customers. The Company provides rebuilt, retrofit and remanufacturing services for numerous brands of machine tools. The remanufacturing of a machine tool, typically consisting of replacing all components, realigning the machine, adding updated CNC capability and electrical and mechanical enhancements, generally takes two to four months to complete. Once completed, a remanufactured machine is a "like new," state-of-the-art machine with a price ranging from \$275,000 to \$1,000,000, which is substantially less than the price of a new machine. The Company also manufactures original equipment CNC large turning lathes and attachments under the trade name Century Turn.

CNC machines use commands from onboard computers to control the movements of cutting tools and rotation speeds of the parts being produced. Computer controls enable operators to program operations such as part rotation, tooling selection and tooling movement for specific parts and then store the programs in memory for future use. The machines are able to produce parts while left unattended. Because of this ability, as well as superior speed of operation, a CNC machine is able to produce the same amount of work as several manually controlled machines, as well as reduce the number of operators required, generating higher profits with less re-work and scrap. Since the introduction of CNC tooling machines, continual advances in computer control technology have allowed for easier programming and additional machine capabilities.

4

A vertical turning machine permits the production of larger, heavier and more oddly shaped parts on a machine, which uses less floor space when compared to the traditional horizontal turning machine because the spindle and cam are aligned on a vertical plane, with the spindle on the bottom.

The primary industry segments in which the Company's machines are utilized to make component parts are in aerospace, power generation turbines, military, component parts for the energy sector for natural gas and oil exploration and medical fields. The Company sells its products to customers located in United States, Canada and Mexico.

Over the last four years, the Company has designed and developed a large horizontal CNC turning lathe with productivity features new to the metalworking industry. The Company believes that a potential market for the Century Turn Lathe, in addition to the markets mentioned above, is aircraft landing gear.

We provide our manufactured and remanufactured machines as part of the machine tool industry. The machine tool industry worldwide is approximately a 30 billion dollar business annually. The industry is sensitive to market conditions and generally trends downward prior to poor economic conditions, and improves prior to an improvement in economic conditions.

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

Our machines are utilized in a wide variety of industry segments as follows: aerospace, energy, valves, fittings, oil and gas, machinery and equipment, and transportation. With the recent downturn in the aerospace industry, we have seen an increase in orders from new industries such as defense and medical industries.

PLAN OF OPERATIONS

The earnings of the Company for the three months ended June 30, 2006 were positive as a result of an increase in revenues.

The Company's current strategy is to expand its customer sales base with its present line of machine products. The Company's growth strategy also includes strategic acquisitions in addition to growing the current business. Plans for expansion will be funded through current working capital from ongoing sales and, to the extent available, additional funds in the form of debt or equity. Currently, the Company's management has attracted additional funding in the form of subordinated debt. However, there is no guarantee that the capital raised will be sufficient to execute the Company's business plan. To the extent that the capital raised is not sufficient, the Company's business plan will be required to be substantially modified and its operations curtailed.

5

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2006 COMPARED TO JUNE 30, 2005.

Revenues. The Company generated revenues of \$2,297,773 for the three months ended June 30, 2006, which was a \$1,089,794 or a 90% increase from \$1,207,979 for the three months ended June 30, 2005. The increase is the result of a growth in customer orders, based on an increased demand in the market for machine tools and on the capability to sell the Company's product at higher contract amounts.

Gross Profit. Gross profit for the three months ended June 30, 2006, was \$806,721 or 35% of revenues, compared to \$372,168, or 31% of revenues for the three months ended June 30, 2005, a 117% increase. The increase of gross profit is the result of increased sales.

Operating Income. Operating income for the three months ended June 30, 2006, was \$360,379 compared to an operating loss of \$(58,632) for the three months ended June 30, 2005. The increase of \$419,011 or 715% in operating income is due to 117% increase in sales.

Interest Expense. Interest expense for the three months ended June 30, 2006 was \$813,110 compared with \$70,218 for the three months ended June 30, 2005. The \$742,892 increase in interest expense is due primarily to \$459,000 amortization of beneficial conversion feature and \$113,000 discount on warrants and conversion option associated to two convertible notes payable and amortization of deferred financing costs related to warrants and common stock granted to third parties as financing cost on convertible notes. Secondly, the increase in interest expense is due to \$119,000 liquidated damages accrued on \$3.5 million convertible debt (See Note 5).

Derivative liability expense. As of June 30, 2006, a decrease in fair value of

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

the derivative liability associated with the warrants to purchase common stock, granted in connection with the \$3.5 million convertible debenture, was \$(799,524). The decrease in fair value was reversed to derivative liability expense (See Note 1).

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JUNE 30, 2006 COMPARED TO JUNE 30, 2005.

Revenues. The Company generated revenues of \$3,997,620 for the six months ended June 30, 2006, which was a \$1,357,752 or a 51% increase from \$2,639,868 for the six months ended June 30, 2005. The increase is the result of an increase in customer orders, based on a better market for machine tools and on the capability to sell the Company's product at higher contract amounts.

6

Gross Profit. Gross profit for the six months ended June 30, 2006, was \$1,209,960 or 30% of revenues, compared to \$758,187, or 29% of revenues for the six months ended June 30, 2005, a 60% increase. The increase of gross profit is the result of increased sales.

Operating Income. Operating income for the six months ended June 30, 2006, was \$308,589 compared to operating income of \$101,568 for the six months ended June 30, 2005. The increase of \$207,021 or 203% in operating income is due to the increase in sales.

Interest Expense. Interest expense for the six months ended June 30, 2006 was \$1,208,938 compared with \$119,285 for the six months ended June 30, 2005. The \$1,089,653 increase in interest expense is due primarily to \$708,123 amortization of beneficial conversion feature and \$170,466 discount on warrants and conversion option associated with two convertible notes payable and amortization of deferred financing costs related to warrants and common stock granted to third parties as financing cost on convertible notes. Secondly, the increase in interest expense is due to \$162,500 liquidated damages accrued on \$3.5 million convertible debt (See Note 5 to the condensed consolidated financial statements).

Derivative liability expense. As of June 30, 2006, a decrease in fair value of the derivative liability associated with the warrants to purchase common stock, granted in connection with the \$3.5 million convertible debenture, was \$(34,762). The decrease in fair value was reversed to derivative liability expense (See Note 1 to the condensed consolidated financial statements).

FINANCIAL CONDITION, LIQUIDITY, CAPITAL RESOURCES

The net cash decrease of the Company during the six months ended June 30, 2005 was \$(14,813) (bank overdraft). The decrease is due to net cash provided by financing activities of \$1,052,687, used to increase its inventory of machines for stock and debt reduction. Currently, the Company's management attracted additional funding in the form of subordinated debt. However, there is no guarantee that the capital raised will be sufficient to execute its business plan. To the extent that the capital raised is not sufficient, the Company's business plan will be required to be substantially modified and its operations curtailed.

The Company is currently improving its liquidity by the following actions:

- o The Company continues to implement plans to increase revenues.

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

o The Company continues its program for selling inventory that has been produced or is currently in production. o The Company continues to implement plans to further reduce operating costs by improved process control and greater productivity.
o The Company is continually seeking investment capital through the public markets.

7

However, there is no guarantee that any of these strategies will enable the Company to meet its financial obligations for the foreseeable future.

INFLATION AND CHANGING PRICES

The Company does not foresee any adverse effects on its earnings as a result of inflation or changing prices.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make judgments, assumptions and estimates that affect the amounts reported in the consolidated financial statements and the accompanying notes. The amounts of assets and liabilities reported on our balance sheet and the amounts of revenues and expenses reported for each of our fiscal periods are affected by estimates and assumptions, which are used for, but not limited to, the accounting for revenue recognition, accounts receivable, doubtful accounts, inventories and derivative liabilities. Actual results could differ from these estimates. The following critical accounting policies are significantly affected by judgments, assumptions and estimates used in the preparation of the financial statements:

REVENUE RECOGNITION

Service revenues are billed and recognized in the period the services are rendered.

The Company accounts for shipping and handling fees and costs in accordance with EITF 00-10 "Accounting for Shipping and Handling Fees and Costs." Such fees and costs incurred by the Company are immaterial to the operations of the Company.

In accordance with SFAS 48, "Revenue Recognition when Right of Return Exists," revenue is recorded net of an estimate of markdowns, price concessions and warranty costs. Such reserve is based on management's evaluation of historical experience, current industry trends and estimated costs.

Staff Accounting Bulletin 104 ("SAB 104"), "Revenue Recognition," outlines the basic criteria that must be met to recognize revenue and provides guidance for presentation of revenue and for disclosure related to revenue recognition policies in financial statements filed with the Securities and Exchange Commission. Management believes that the Company's revenue recognition policy for services and product sales conforms to SAB 104. The Company recognizes revenue of long-term contracts pursuant to SOP 81-1.

8

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

METHOD OF ACCOUNTING FOR LONG-TERM CONTRACTS

The Company uses the percentage-of-completion method of accounting to account for long-term contracts and, therefore, takes into account the cost, estimated earnings and revenue to date on fixed-fee contracts not yet completed. The percentage-of-completion method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

The amount of revenue recognized at the statement date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost, based on current estimates of cost to complete. It is not related to the progress billings to customers. Contract costs include all materials, direct labor, machinery, subcontract costs and allocations of indirect overhead.

Because long-term contracts may extend over a period of time, changes in job performance, changes in job conditions and revisions of estimates of cost and earnings during the course of the work are reflected in the accounting period in which the facts that require the revision become known. At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are considered closed for consolidated financial statement purposes. Revenue earned on contracts in progress in excess of billings (under billings) is classified as a current asset. Amounts billed in excess of revenue earned (overbillings) are classified as a current liability.

ESTIMATES

Critical estimates made by management are, among others, deferred tax asset valuation allowances, realization of inventories, collectibility of contracts receivable, the estimating of costs for long-term construction contracts and the valuation of derivative liabilities. Actual results could materially differ from those estimates.

CLASSIFICATION OF WARRANT OBLIGATION

In connection with the issuance of the 12% Senior Secured Convertible Notes (See Note 3), the Company has an obligation to file a registration statement covering the resale of 125% of the Registrable Securities, as defined in the Registration Rights Agreement. The obligation to file the registration statement meets the criteria of an embedded derivative to be bifurcated pursuant to SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", as amended. Under this transaction, the Company is obligated to register for resale the common shares underlying the warrants, and as a result, the embedded derivative associated with this warrant obligation does not meet the scope exception of paragraph 11(a) of SFAS No. 133. Specifically, at March 31, 2006, the Company did not have any uncommitted registered shares to settle the warrant obligation and accordingly, such obligation has been classified as a liability (outside of stockholders' deficit) in accordance with EITF Issue No. 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock." The classification of the warrant obligation will be evaluated at each reporting date and as such, it will continue to be reported as a liability until such time all of the criteria necessary for equity classification have been met.

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

OTHER SIGNIFICANT ACCOUNTING POLICIES

Other significant accounting policies not involving the same level of measurement uncertainties as those discussed above, are nevertheless important to an understanding of the financial statements. The policies related to consolidation and loss contingencies require difficult judgments on complex matters that are often subject to multiple sources of authoritative guidance. Certain of these matters are among topics currently under reexamination by accounting standards setters and regulators. Although no specific conclusions reached by these standards setters appear likely to cause a material change in our accounting policies, outcomes cannot be predicted with confidence. Also see Note 1 of Notes to Condensed Consolidated Financial Statements, Summary of Significant Accounting Policies, which discusses accounting policies that must be selected by management when there are acceptable alternatives.

ITEM 3. CONTROLS AND PROCEDURES

EVALUATION OF CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act as of a date (the "Evaluation Date") within 90 days prior to filing the Company's June 30, 2006 Form 10-Q. Based upon that evaluation, the CEO and CFO concluded that, as of June 30, 2006, our disclosure controls and procedures were not effective in timely alerting management to the material information relating to us (or our consolidated subsidiaries) required to be included in our periodic filings with the SEC.

CHANGES IN CONTROLS AND PROCEDURES

There were no changes made in our internal controls over financial reporting during the quarter ended June 30, 2006 that have materially affected or are reasonably likely to materially affect these controls.

LIMITATIONS ON THE EFFECTIVENESS OF INTERNAL CONTROL

The Company's management, including the CEO, does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material errors. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations on all internal control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, and/or by management override of the control. The design of any system of internal control is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in circumstances, and/or the degree of compliance with the policies and procedures may deteriorate. Because of the inherent limitations in a cost-effective internal control system, financial reporting misstatements due

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

to error or fraud may occur and not be detected on a timely basis.

10

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the quarter ended June 30, 2006, the Company issued 19,318 shares of common stock to Motivated Minds LLC, as a conversion of \$12,750 interest on a \$300,000 convertible note. The shares were issued pursuant to an exemption from the registration rights of the Securities Act of 1933, as amended, pursuant to Section 4(2) thereof and are included in the current Registration Statement.

Item 3. Defaults Upon Senior Securities

During November 2004, the Company borrowed \$80,816 on two notes payable to one individual. The Note is unsecured, matured in January 2005, has an interest rate of 6% and is currently in default. At June 30, 2006 the total outstanding principal balance on this Note was \$80,816.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

WAIVER OF PREFERRED DIVIDEND

At June 30, 2006, the Company had a total of 27,780 preferred shares Series C and 11,640 preferred shares Series D issued and outstanding. As of December 31, 2005, the Company accumulated dividends payable totaling \$565,875. In March 2006, ten of the Company's preferred shareholders elected to waive their rights to receive dividends. Therefore, the Company recorded a decrease in dividends payable of \$287,875.

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND NATURE OF OPERATIONS

New Century Companies, Inc. and Subsidiary (collectively, the "Company"), a California corporation, was incorporated March 1996 and is located in Southern California. The Company provides after-market services, including rebuilding, retrofitting and remanufacturing of metal cutting machinery. Once completed, a remanufactured machine is "like new" with state-of-the-art computers, and the cost to the Company's customers is substantially less than the price of a new machine.

The Company currently sells its services by direct sales and through a network of machinery dealers across the United States. Its customers are generally medium to large sized manufacturing companies in various industries where metal cutting is an integral part of their businesses. The Company grants credit to its customers who are predominately located in the western United States.

The Company trades on the OTC Bulletin Board under the symbol "NCNC.OB".

PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements include the accounts of New Century Companies, Inc. and its wholly owned subsidiary, New Century Remanufacturing (collectively, the "Company"). All significant intercompany accounts and transactions have been eliminated in consolidation.

BASIS OF PRESENTATION

The accompanying unaudited interim condensed consolidated financial statements have been prepared by the Company, pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted pursuant to such SEC rules and regulations; nevertheless, the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements and the notes hereto should be read in conjunction with the financial statements, accounting policies and notes thereto included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2005, filed with the SEC. In the opinion of management, all adjustments necessary to present fairly, in accordance with GAAP, the Company's financial position as of June 30, 2006, and the results of operations and cash flows for the interim periods presented, have been made. Such adjustments consist only of normal recurring adjustments. The results of operations for the three months ended June 30, 2006 are not necessarily indicative of the results for the full year.

F-4

GOING CONCERN

The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business. The Company has negative working capital of \$188,773 and an accumulated deficit of \$7,579,559 at June 30, 2006, and had net cash used in operating activities of \$1,032,687 for the six months ended June 30, 2006. These factors, among others, raise substantial doubt about the Company's ability

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

to continue as a going concern. The Company fund operations through increased sales and debt and equity financing arrangements which management believes may be insufficient to fund its capital expenditures, working capital and other cash requirements for the fiscal year ending December 31, 2006. Therefore, the Company will be required to seek additional funds to finance its long-term operations. The successful outcome of future activities cannot be determined at this time and there is no assurance that if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

In response to these problems, management has taken the following actions:

- o The Company continues its aggressive program for selling inventory.
- o The Company continues to implement plans to further reduce operating costs.
- o The Company is seeking investment capital through the public markets.

The condensed consolidated financial statements do not include any adjustments related to recoverability and classification of assets carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

INVENTORY

Inventories are stated at the lower of cost or net realizable value. Cost is determined under the first-in, first-out method. Inventories represent cost of work in process on units not yet under contract. Cost includes all direct material and labor, machinery, subcontractors and allocations of indirect overhead.

F-5

REVENUE RECOGNITION

The Company's revenues consist of contracts with vendors. The Company uses the percentage-of-completion method of accounting to account for long-term contracts and, therefore, takes into account the cost, estimated earnings and revenue to date on fixed-fee contracts not yet completed. The percentage-of-completion method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

Staff Accounting Bulletin ("SAB") No. 104, "Revenue Recognition" outlines the basic criteria that must be met to recognize revenue and provides guidance for presentation of revenue and for disclosure related to revenue recognition policies in financial statements filed with the SEC. Management believes that the Company's revenue recognition policy conforms to SAB No. 104. The Company recognizes revenue on contracts pursuant to SOP 81-1.

The amount of revenue recognized at the statement date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost, based on current estimates of cost to complete. It is not related to the progress billings to customers. Contract costs include all materials, direct labor, machinery, subcontract costs and allocations of indirect overhead.

Because contracts may extend over a period of time, changes in job performance, changes in job conditions and revisions of estimates of cost and earnings during

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

the course of the work are reflected in the accounting period in which the facts that require the revision become known. At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are considered closed for consolidated financial statement purposes. Costs incurred and revenue earned on contracts in progress in excess of billings (under billings) are classified as a current asset. Amounts billed in excess of costs and revenue earned (over billings) are classified as a current liability.

The Company accounts for shipping and handling fees and costs in accordance with Emerging Issues Task Force ("EITF") Issue No. 00-10 "Accounting for Shipping and Handling Fees and Costs." Such fees and costs incurred by the Company are immaterial to the operations of the Company.

In accordance with Statements of Financial Accounting Standards ("SFAS") No. 48, "Revenue Recognition when Right of Return Exists," revenue is recorded net of an estimate of markdowns, price concessions and warranty costs. Such reserve is based on management's evaluation of historical experience, current industry trends and estimated costs.

F-6

BASIC AND DILUTED LOSS PER COMMON SHARE

Under SFAS No. 128, "Earnings Per Share," basic earnings per common share is computed by dividing income available to common stockholders by the weighted-average number of common shares assumed to be outstanding during the period of computation. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were 903,659 potentially dilutive and 13,372,330 potential common shares at June 30, 2006, which include common stock purchase warrants and shares underlying convertible preferred stock and convertible notes payable.

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the three and six month periods ended June 30, 2006 and 2005:

For the Three Months Ended June 30,

		2006

Net income (loss)	\$	346
Cumulative preferred dividends accrued		(42)

Numerator for basic and diluted net income (loss) per common share:		
Net income (loss) applicable to common stockholders		304
Denominator for basic net income (loss) per common share:		
Basic weighted average common shares outstanding		11,291

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

Denominator for diluted net income (loss) per common share:
 Diluted weighted average common shares outstanding 12,222

Basic net income (loss) per common share \$
 Diluted net income (loss) per common share \$

F-7

For the Six Months Ended June 30,

	2006	2005
	-----	-----
Net income (loss)	\$ (865,587)	\$ (17,711)
Cumulative preferred dividends accrued	(42,400)	(105,520)
Waiver of accrued cumulative preferred dividends	287,875	-
	-----	-----
Numerator for basic and diluted net income (loss) per common share: Net income (loss) available to common stockholders	(620,112)	(123,240)
Denominator for basic net income (loss) per common share: Basic weighted average common shares outstanding	11,047,485	7,635,590
	-----	-----
Denominator for diluted net income (loss) per common share: Diluted weighted average common shares outstanding	11,047,485	7,635,590
	-----	-----
Basic net income (loss) per common share	\$ (0.06)	\$ (0.02)
	=====	=====
Diluted net income (loss) per common share	\$ (0.06)	\$ (0.02)
	=====	=====

STOCK BASED COMPENSATION

Effective January 1, 2006, the Company adopted the provisions of SFAS No. 123-R, "Share-Based Payment," ("SFAS No. 123-R"). SFAS No. 123-R requires employee stock options and rights to purchase shares under stock participation plans to be accounted for under the fair value method and requires the use of an option pricing model for estimating fair value. Accordingly, share-based compensation is measured at the grant date, based on the fair value of the award. The Company previously accounted for awards granted under its equity incentive plan under the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations, and provided the required pro forma disclosures prescribed by SFAS No. 123, "Accounting for Stock-Based Compensation," as amended. The exercise price of options is generally equal to the market price of the Company's common stock (defined as the closing price as quoted on the Over-the-Counter Bulletin Board

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

administered by Nasdaq) on the date of grant. Accordingly, no share-based compensation was recognized in the financial statements prior to January 1, 2006.

Under the modified prospective method of adoption for SFAS No. 123-R, the compensation cost recognized by the Company beginning January 1, 2006 includes (a) compensation cost for all equity incentive awards granted prior to, but not yet vested as of April 1, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all equity incentive awards granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123-R.

F-8

From time to time, the Company's Board of Directors grants common share purchase options or warrants to selected directors, officers, employees, consultants and advisors in payment of goods or services provided by such persons on a stand-alone basis outside of any of the Company's formal stock plans. The terms of these grants are individually negotiated and generally expire within five years from the grant date.

Under the terms of the Company's Incentive Stock Option Plan, options to purchase an aggregate of 1,000,000 shares of common stock may be issued to key employees, as defined. The exercise price of any option may not be less than the fair market value of the shares on the date of grant. No options granted may be exercisable more than ten years after the date of grant. The options granted generally vest evenly over a one-year period, beginning from the date of grant.

Under the terms of the Company's Non-Statutory Stock Option Plan, options to purchase an aggregate of 1,350,000 shares of common stock may be issued to non-employees for services rendered. These options are non-assignable and non-transferable, are exercisable over a five-year period from the date of grant, and vest on the date of grant.

At June 30, 2006, the Company had 936,500 options available for future issuance under their equity compensation plans. All of these options vested prior to the adoption of SFAS No. 123-R.

The effects of share-based compensation resulting from the application of SFAS No. 123-R to options granted outside of the Company's Stock Option Plan resulted in zero expense for the three and six month periods ended June 30, 2006. Share-based compensation recognized as a result of the adoption of SFAS No. 123-R as well as pro forma disclosures according to the original provisions of SFAS No. 123 for periods prior to the adoption of SFAS No. 123-R use the Black Scholes option pricing model for estimating fair value of options granted.

In accordance with SFAS No. 123-R, the Company's policy is to adjust share-based compensation on a quarterly basis for changes to the estimate of expected award forfeitures based on actual forfeiture experience. The effect of adjusting the forfeiture rate for all expense amortization after December 31, 2006 is recognized in the period the forfeiture estimate is changed. Since the Company had no unvested options during the six month period ended June 30, 2006, the effect of forfeiture adjustments in the three and six month periods was not applicable.

Pro forma information required under SFAS No. 123 for periods prior to 2006 as if the Company had applied the fair value recognition provisions of SFAS No. 123 to options granted under and outside of the Company's equity incentive plans was

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

as follows:

F-9

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005
	-----	-----
Net loss as reported	\$ (128,850)	\$ (17,717)
Less: Total stock-based employee compensation expense determined under the Black Scholes option pricing model, net of tax	--	--
	-----	-----
Pro forma net loss	\$ (128,850)	\$ (17,717)
	=====	=====
Basic and diluted loss per common share:		
As reported	\$ (0.03)	\$ (0.02)
	=====	=====
Pro forma	\$ (0.03)	\$ (0.02)
	=====	=====

Pro forma compensation expense reported in the above table is generally based on the vesting provisions in the related stock option grants. Since all options granted prior to January 1, 2005 had been completely vested prior to such date, there is no pro forma compensation expense to disclose for the three and six months ended June 30, 2005, as reflected in the above table, nor any weighted average assumptions to disclose.

The expected volatility is based on the historical volatility. The expected life of options granted is based on the "simplified method" described in the SEC's Staff Accounting Bulletin No. 107 due to changes in the vesting terms and contractual life of current option grants compared to the Company's historical grants.

Options and warrants outstanding that have vested and are expected to vest as of June 30, 2006 are as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years	Aggregate Intrinsic Value (1)
	-----	-----	-----	-----
Vested	1,460,000	\$ 0.35	2.09	\$ 482,800
Expected to vest	--	--	--	\$ --
	-----			-----
Total	1,460,000			\$ 482,800
	=====			=====

(1) These amounts represent the difference between the exercise price and \$0.62, the closing market price of the Company's common stock on June 30, 2006 as quoted on the Over-the-Counter Bulletin Board under the symbol "NCNC.OB" for all in-the-money options outstanding.

F-10

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

The Company's policy for options outstanding that are expected to vest are net of estimated future forfeitures in accordance with the provisions of SFAS No. 123-R, which are estimated when compensation costs are recognized. Additional information with respect to stock option activity is as follows:

	Outstanding Options			
	Shares Available for Grant	Number of Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value (1)
December 31, 2005	936,500	1,468,500	\$ 0.40	\$ 482,800
Grants	--	--	--	=====
Exercises	--	--	--	
Cancellations	--	8,500	\$10.00	
June 30, 2006	936,500	1,460,000	\$ 0.35	\$ 482,800
	=====	=====	=====	=====
Options exercisable at:				
December 31, 2005		1,468,500	\$ 0.40	
June 30, 2006		1,460,500	\$ 0.35	

(1) Represents the difference between the exercise price and the December 31, 2005 or June 30, 2006 market price of the Company's common stock, which was \$0.62 on both dates.

The Company follows SFAS No. 123 (R) (as interpreted by EITF Issue No. 96-18, "Accounting for Equity Instruments That Are Issued To Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services") to account for transactions involving services provided by third parties where the Company issues equity instruments as part of the total consideration. Pursuant to paragraph 7 of SFAS No. 123 (R), the Company accounts for such transactions using the fair value of the consideration received (i.e. the value of the goods or services) or the fair value of the equity instruments issued, whichever is more reliably measurable. The Company applies EITF Issue No. 96-18, in transactions, when the value of the goods and/or services are not readily determinable and (1) the fair value of the equity instruments is more reliably measurable and (2) the counterparty receives equity instruments in full or partial settlement of the transactions, using the following methodology:

a) For transactions where goods have already been delivered or services rendered, the equity instruments are issued on or about the date the performance is complete (and valued on the date of issuance).

b) For transactions where the instruments are issued on a fully vested, non-forfeitable basis, the equity instruments are valued on or about the date of the contract.

c) For any transactions not meeting the criteria in (a) or (b) above, the Company re-measures the consideration at each reporting date based on its then current stock value.

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

DEFERRED FINANCING COSTS

Direct costs of securing debt financing are capitalized and amortized over the term of the related debt using the straight-line method. When a loan is paid in full, any unamortized financing costs are removed from the related accounts and charged to operations. During the three months ended June 30, 2006, the Company amortized approximately \$113,000.

STOCK PURCHASE WARRANTS ISSUED WITH NOTES PAYABLE

The Company granted warrants in connection with the issuance of certain notes payable. Under Accounting Principles Board Opinion No. 14, "Accounting for Convertible Debt and Debt Issued With Stock Purchase Warrants," the relative estimated fair value of such warrants represents a discount from the face amount of the notes payable. Such discounts are amortized to interest expense over the term of the notes.

BENEFICIAL CONVERSION FEATURE OF CONVERTIBLE NOTES PAYABLE

The convertible feature of certain notes payable provides for a rate of conversion that is below market value. Such feature is normally characterized as a "Beneficial Conversion Feature" ("BCF"). Pursuant to EITF Issue No. 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratio" and EITF No. 00-27, "Application of EITF Issue No. 98-5 To Certain Convertible Instruments," the estimated fair value of the BCF is recorded in the consolidated financial statements as a discount from the face amount of the notes. Such discounts are amortized to interest expense over the term of the notes.

CLASSIFICATION OF WARRANT OBLIGATION

In connection with the issuance of the 12% Senior Secured Convertible Notes (See Note 3), the Company has an obligation to file a registration statement covering the resale of 125% of the Registrable Securities, as defined in the Registration Rights Agreement. The obligation to file the registration statement meets the criteria of an embedded derivative to be bifurcated pursuant to SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", as amended. Under this transaction, the Company is obligated to register for resale the common shares underlying the warrants, and as a result, the embedded derivative associated with this warrant obligation does not meet the scope exception of paragraph 11(a) of SFAS No. 133. Specifically, at the commitment date, the Company did not have any uncommitted registered shares to settle the warrant obligation and accordingly, such obligation has been classified as a liability (outside of stockholders' deficit) in accordance with EITF Issue No. 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock." The classification of the warrant obligation will be evaluated at each reporting date and as such, it will continue to be reported as a liability until such time all of the criteria necessary for equity classification have been met.

F-12

NEW ACCOUNTING PRONOUNCEMENTS

Recent accounting pronouncements discussed in the notes to the December 31, 2005 financial statements filed previously with the Securities and Exchange Commission in Form 10-KSB that are required to be adopted during the year ending

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

December 31, 2006 did not or will not have a significant impact on the Company's financial statements.

2. CONTRACTS IN PROGRESS

Contracts in progress as of June 30, 2006 which include completed contracts not completely billed, approximate:

Cumulative costs to date	\$ 2,295,000
Cumulative gross profit to date	5,476,000

Cumulative revenue earned	7,771,000
Less progress billings to date	(7,553,000)

Net under billings	\$ 218,000
	=====

The following is included in the accompanying condensed consolidated balance sheet under these captions as of June 30, 2006:

Costs and estimated earnings in excess of billings on uncompleted contracts	\$ 600,000
Billings in excess of costs and estimated earnings on uncompleted contracts	(382,000)

Net under billings	\$ 218,000
	=====

3. DEBT TRANSACTIONS

During the three months ended June 30, 2006, the Company amortized approximately \$459,000 of debt discounts, including beneficial conversion features, to interest expense. Of such amount, \$309,000 was related to a convertible note payable to CAMOFI Master LDC ("CAMOFI") and \$150,000 was related to a convertible note payable to Motivated Minds, LLC ("Motivated Minds").

During the three months ended June 30, 2006, the Company made cash payments of \$36,000 to reduce the principal balance on one of its outstanding secured notes payable.

F-13

4. EQUITY TRANSACTIONS

During the three months ended June 30, 2006, the Company issued 19,318 shares of restricted common stock at \$0.66 per share to one of its creditors to settle accrued interest totaling \$12,750 on a convertible note payable. The common stock conversion price was recorded at \$0.66 in accordance with the terms of the convertible note agreement.

As described in Note 1, the Company enters into equity based compensation arrangements with non-employees where the value of the services are not readily determinable and the fair value of the equity instruments is more reliably measurable. Under most of these arrangements, the performance criteria required

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

for a measurement date is not reached until the service period has been completed. As a result, the Company is required to re-measure the consideration at each reporting date (or when the services were complete if sooner) based on its then current stock value. During the three months ended June 30, 2006, the Company recorded net increases to the fair values of such equity based compensation arrangements with third parties totaling \$149,500. During the three months ended June 30, 2006, the Company recorded approximately \$84,000 of consulting expense related to the amortization of deferred consulting fees on such equity based compensation arrangements.

5. CONTINGENCIES

On February 28, 2006, the Company entered into a Securities Purchase Agreement ("the Note") with CAMOFI whereby CAMOFI agreed to purchase, up to \$5,000,000 aggregate principal amount of 12% Senior Secured Convertible Notes, due February 28, 2009 (up to \$3,500,000 to be purchased at the closing and up to an additional \$1,500,000 to be purchased pursuant to an Additional Investment Right), secured by a first priority lien on all assets of the Company and its current and future subsidiaries (including a pledge of the shares of the Company's current and future Subsidiaries). The Note is convertible into shares of the Company's common stock at a fixed price of \$0.63 at any time at CAMOFI's option. Additionally, \$1,500,000 of the \$3,500,000 proceeds from the closing were placed into an escrow account, which was originally intended to be used for a potential private company business acquisition. Accordingly, such amount has been recorded as restricted cash in the accompanying condensed consolidated balance sheet at June 30, 2006. In connection with the Note, the Company issued 3,476,190 warrants at an exercise price of \$0.63 to CAMOFI. The warrants vested and became fully exercisable on their issuance date.

CAMOFI has not exercised its \$1,500,000 Additional Investment Right. Additionally, CAMOFI has certain registration rights for the common stock underlying both the warrants and the convertible debt. The related registration rights agreement includes financial penalties because the Company failed to meet the registration statement effectiveness deadline, which was June 28, 2006. Such penalties, which are 1.5% of the outstanding principal balance of the Note for the first 30 days and an additional 1.5% for each 30 day period thereafter, can be paid in common stock at the option of the

F-14

Company. As of June 30, 2006, the Company has accrued \$162,500 for such estimated liquidated damages, which are included in accounts payable and accrued expenses in the accompanying condensed consolidated balance sheet. Of such amount, \$43,500 was accrued during the three months ended March 31, 2006 and \$119,000 was accrued during the three months ended June 30, 2006. As a result of not meeting these deadlines, this condition may be deemed an "Event of Default" if not cured to the satisfaction of CAMOFI prior to the expiration of thirty days from the Event Date, as defined in the registration rights agreement, and could possibly allow CAMOFI to call the debt or seek other remedy at such time.

6. SUBSEQUENT EVENTS

As noted above, in connection with the CAMOFI Purchase Agreement, the Company entered into an escrow agreement, pursuant to which \$1,500,000 was deposited into escrow by CAMOFI. Pursuant to the terms of the letter agreement, the \$1,500,000 deposit was to be released to the Company upon consummation of the acquisition of Quilite International LLC. Based upon changed circumstances and the immediate need of the Company for the funds for general working capital purposes, the parties decided to release the funds held in escrow to the Company

Edgar Filing: NEW CENTURY COMPANIES INC - Form 10QSB

as follows: (a) \$750,000 on July 10, 2006 and (b) \$750,000 on August 4, 2006. The Company is utilizing the funds for general working capital purposes.

On July 25, 2006, in connection with the Motivated Minds convertible note dated February 15, 2006, the Company issued 45,000 restricted shares of common stock to Motivated Minds for extension of \$150,000 of principal balance of the note until August 16, 2006, and the remaining principal balance of \$150,000 of the note until October 16, 2006.

F-15

SIGNATURES

In accordance with Section 13 or 15(d) of the Exchange Act, the Company caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
