NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2006

UNAUDITED

NOTE A - NATURE OF ORGANIZATION

Sovereign Exploration Associates International, Inc. (the "Company") was incorporated in the state of Utah in 1980. The company was formerly known as CALI Holdings, Inc. On October 26, 2005 the Company changed its name from CALI Holdings, Inc. to Sovereign Exploration Associates International, Inc.

On January 13, 2004 the Company's filed form N-54A with the United States Securities and Exchange Commission ("SEC") to become a Business Development Company ("BDC") pursuant to Section 54 of the Investment Company Act of 1940 (the "1940 Act"). As a result, the Company operated as an investment holding company and acquired investments designed to build an investment portfolio to enhance the Company's shareholder value. As a BDC, the Company was, in effect, a publicly traded private equity fund, where stockholders provided public capital in a regulated environment for private investment in smaller companies. Congressional intent behind the creation of BDCs was to encourage the flow of public capital to private and smaller public companies.

On September 22, 2006 at a duly called special meeting, the Company's shareholders approved a proposal to withdraw the Company's election to be a business development company under the Investment Company Act of 1940 by filing Form N-54C with the SEC.

On September 22, 2006, the Company filed a notification of withdrawal of business development company election on Form N-54C notifying the SEC that, pursuant to the provisions of Section 54(c) of the Investment Company Act of 1940 ("Investment Company Act" or "1940 Act"), the Company withdrew its election to be subject to Sections 55 through 65 of the 1940 Act. Accordingly, the Company is no longer subject to the Investment Company Act but will continue as an operating reporting public company subject to the Securities Exchange Act of 1934.

The net affect, as of June 30, 2006, of the Company's election to withdrawal our business development company status pursuant to the Investment Company Act of 1940 was as follows:

Additional paid in capital	\$ (550,705)
Deficit	(425,068)
Unrealized depreciation on investments	1,015,273
Net adjustments	\$ 39,500

As a result of the change in accounting principle because of the Company's election to withdrawal its business development company election, the Company restated its June 30, 2006 Balance Sheet which is included in these consolidated financial statements.

**NOTE B - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the rules and regulations of the SEC. The accompanying financial statements for the interim periods are unaudited and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the quarterly period presented. These financial statements should be read in conjunction with the Company's financial statements for the years ended June 30, 2006 and 2005 and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended June 30, 2006 as filed with the SEC. See discussion of change in accounting principle below.

The results of operations for the six months ended December 31, 2006 are not necessarily indicative of the results of operations to be achieved for the full fiscal year ending June 30, 2007. The election to withdraw the Company as a BDC under the Investment Company Act has resulted in a significant change in the Company's required method of accounting. BDC financial statement presentation and accounting utilizes the fair value method of accounting used by investment companies, which allows BDCs to recognize income and value their investments at market value as opposed to historical cost.

In addition, majority-owned subsidiaries are not consolidated and instead, investments in those subsidiaries are reflected on the balance sheet as an investment in and advances to affiliates, at fair value. As an operating company, the required financial statement presentation and accounting for securities held by the Company utilize either fair value or historical cost methods of accounting, depending on the classification of the investment and the Company's intent with respect to the period of time it intends to hold the investment, and the Company and its subsidiaries are reflected for financial accounting purposes as a consolidated entity. The change in accounting due to the conversion to an operating company from a BDC is considered a change in accounting principle.

As an operating company, the Company consolidates its financial statements with subsidiaries, thus eliminating the investment in and advances to affiliates account that was reflected on the Company's balance sheet as of June 30, 2006 and 2005, respectively.

Management has determined that with the lack of information available from prior management of the Company, and because the Company no longer owns any of the portfolio companies that were divested as a result of the Exchange Agreement effective October 17, 2005 except for Gulf Coast Records, LLC, it is impractical to comply with the retroactive application of prior periods being presented on an operating and consolidated basis in accordance with Statement of Financial Accounting Standards No. 154, Accounting for Changes and Error Corrections ("FAS #154").

Pursuant to paragraph 11 of FAS #154: The Company has deemed it impracticable to apply the effects of a change in accounting principle retroactively because the following conditions apply as of September 30, 2006:

1. The Company has made every reasonable effort to apply the requirement; however, we are unable to do so.

2. Retrospective application of the change in accounting principle requires assumptions about prior management's intent in prior periods that can not now be independently substantiated.
3. Retrospective application of the accounting principle requires significant estimates of amounts that at this time, it is impossible to distinguish objectively information about those estimates that: (a) provides evidence of circumstances that existed on the date(s) at which those amounts would be recognized, measured, or disclosed under retrospective application, and (b) would have been available when the financial statements for that prior period were issued.

See Note Q for explanation of the prior period financial statement presentation.

As of December 31, 2006, the Company's subsidiaries were development stage enterprises, except for Gulf Coast Records, LLC, which is accounted for on the equity method of accounting as described in Investments under Note B.

The Company's subsidiaries are development stage enterprises engaged in ocean explorations and archaeologically sensitive recoveries of artifacts, treasure trove and/or cargo from shipwrecks under various licenses.

Statement of Financial Accounting Standards No. 7, Accounting and Reporting by Development Stage Enterprises, defines a development stage enterprise as one that is devoting substantially all of its efforts to establishing a new business and either planned principal operations have not commenced or planned principal operations have commenced but there has been no significant revenue. Several artifacts have been recovered, but for the six month period ended December 31, 2006, there was no revenue.

The accompanying financial statements have been prepared on a going-concern basis, which contemplates the continuation of operations, realization of assets and liquidation of liabilities in the ordinary course of business. The Company's subsidiaries have capitalized all of their ocean explorations and archaeologically sensitive recoveries of artifacts, treasure trove and/or cargo from shipwrecks costs to-date. The Company plans to obtain additional financing through the sale of publicly traded stock, limited liability company member units of its subsidiaries and/or debt financing. There is no assurance these efforts will be successful. The financial statements do not include any adjustments relating to the recoverability and classifications of reported asset amounts or the amounts of liabilities that might result from the outcome of that uncertainty. See Subsequent Events under Note O.

#### Principles of Consolidation

The accompanying consolidated financial statements, as presented herein, are prepared on the accrual basis of accounting under the principles of consolidation consisting of the accounts of the Company and its subsidiaries.

As of December 31, 2006, the Company's subsidiaries and the related equity ownership are as follows:

#### Historic Discoveries, Inc.

Historic Discoveries is the Company's primary subsidiary and is wholly-owned by the Company. Historic Discoveries has two wholly-owned subsidiaries, Artifact Recovery & Conservation, Inc. ("ARC") and Sea Research, Inc. ("SRI").

Artifact Recovery & Conservation, Inc.

ARC is the managing member of Fantome Cove Treasure Trove 150, LLC, of which it owns a 97.05% equity interest. ARC is also the managing member of Interspace Exploration, LLC, of which ARC owns a 74% equity interest.

Sovereign Exploration Associates International of Spain, Inc.

The Company owns a 100% equity interest in Sovereign Exploration Associates International of Spain, Inc.

As of December 31, 2006, the minority interest in Fantome Cove Treasure Trove 150, LLC and Interspace Exploration, LLC is \$803,530.

Investments

The Company accounts for investments, where the Company holds from 20% up to 50%, in the common stock of an entity, using the equity method. The investment is initially recorded at cost and the carrying amount is adjusted to recognize the Company's proportionate share of the earnings or losses of the investee after the date of acquisition. The amount of the adjustment is included in the determination of net income or loss of the Company in the period of the adjustment. Any dividends received from the investee reduce the carrying value of the investment.

As of December 31, 2006, the Company's 49% equity investment in Gulf Coast Records, LLC was valued at zero. As of the fiscal year ended June 30, 2006, the Company had provided for a write-down of the investment in and advances to this company of \$1,015,273 to zero.

Revenue Recognition

The Company recognizes revenue using the accrual method of accounting wherein revenue is recognized when earned and expenses and costs are recognized when incurred.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Consolidated Statement of Cash Flows

For the purpose of the Consolidated Statement of Cash Flows, the Company considers cash equivalents to be all highly liquid securities with an original maturity date of three months or less.

Segments

The Company operates as one segment as defined by the Statement of Financial Accounting Standards No. 131 Disclosures about Segments of an Enterprise and Related Information.

### Foreign Currency Translation

The accompanying financial statements are stated in United States Dollars (USD).

### New Accounting Pronouncement

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157 ("FAS 157"), Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles ("GAAP"), and expands disclosures about fair value measurements. FAS 157 applies under other accounting pronouncements that require or permit fair value measurements. Prior to FAS 157, there were different definitions of fair value and limited guidance for applying those definitions in GAAP. Moreover, that guidance was dispersed among the many accounting pronouncements that require fair Value measurements. Differences in that guidance created inconsistencies that added to the complexity in applying GAAP. The changes to current practice resulting from the application of FAS 157 relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company does not expect the adoption of FAS 157 to have an effect on its financial statements.

### NOTE C - FIXED ASSETS

Fixed assets are stated at cost. The cost of equipment is charged against income over their estimated useful lives, using the straight-line method of depreciation. Repairs and maintenance which are considered betterments and do not extend the useful life of equipment are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the asset and accumulated depreciation is removed from the accounts and the resulting profit and loss are reflected in income.

### NOTE D - CAPITALIZED COSTS

As of December 31, 2006, the Company accounted for its ocean exploration and archaeologically sensitive recoveries of artifacts, treasure trove and/or cargo from shipwrecks costs incurred to-date as capitalized costs.

### NOTE E - STOCK ISSUED FOR SERVICES

During the six months ended December 31, 2006 and the year ended June 30, 2006, the Company did not issue any stock for services.

### NOTE F- INCOME TAXES

Pursuant to the Exchange Agreement dated October 17, 2005, substantial ownership of the Company was transferred and according to provisions of the Internal Revenue Code, this transaction eliminated all of the loss carryforwards for federal income tax purposes starting with fiscal year that ended June 30, 2006.

**NOTE G - LEASE ARRANGEMENTS**

The Company maintains shared office space in Pennsylvania and Massachusetts with unrelated companies controlled by certain officers of the Company. These companies sublet space to the Company on a month-to-month basis with monthly rent of \$4,010, with no formal subleases. Rent expense for the six months ended December 31, 2006 was \$24,060.

**NOTE H - NOTES PAYABLE**

Total notes payable, current	\$ 126,523
------------------------------	------------

For the six months ended December 31, 2006, the Company incurred interest expense on these convertible debentures of \$4,683. These convertible debentures continue to be in dispute because of issues related to the conversion rates. There is no additional information available from prior management at this time.

**NOTE I - AGREEMENTS**

Prior to the Exchange Agreement of October 17, 2005, there is a Revenue Agreement as outlined in Exhibit B of the Exchange Agreement, that requires 20% revenue participation payable to the original owners of the permits from the net recovery of the shipwrecks for the permits that have been assigned to the subsidiaries of one of the Company's subsidiaries, Historic Discoveries, Inc. The 20% revenue participation allows Historic Discoveries, Inc. to defer permit transfer fees and align site permit cost with revenue generation, eliminating the exposure associated with sites that do not produce a material number of artifacts.

Historic Discoveries, Inc. is only required to pay the 20% revenue participation when sites produce net revenue. The 20% revenue participation also provides Historic Discoveries, Inc. the right of first refusal on future sites, creating a mechanism for Historic Discoveries, Inc. and its operating companies to build site inventory while deferring the associated cost and reducing financial risk.

The Revenue Agreement with the original owners was executed prior to October 17, 2005. The original owners of these permits are the beneficial owners of the controlling interest in the stock received in the Exchange Agreement. Additionally, officers and directors of the Company hold certain executive positions in Historic Discoveries, Inc. and its subsidiaries.

The Fantome project (Fantome Cove Treasure Trove License 150, LLC, a subsidiary of ARC) sold a 2.06% equity interest for a capital investment of \$411,530, and the LeChateau project (Interspace Explorations, LLC, a subsidiary of ARC) sold a 26.0% ownership interest and 40% profit participation interest for \$392,000.

Management intends to assess the Company's liability under these agreements on a periodic basis. No liability has been recorded for these agreements as of December 31, 2006.

#### NOTE J - SETTLEMENT AGREEMENT AND GENERAL RELEASE

Effective June 30, 2006, the Company entered into a Settlement Agreement and General Release (the "Settlement Agreement") with Former Management, KMA Capital Partners, Inc., and CF Holdings, LLC (collectively, the "Settlement Agreement Parties") in order to reach a comprehensive resolution of their disputes. The Settlement Agreement provides that the Settlement Agreement Parties release all claims that they may have against the Company, its parents, subsidiaries, affiliates, predecessors, successors, assigns, partners, agents, representatives, and attorneys (collectively, "affiliated parties") and that the Company releases all claims it may have against the Settlement Agreement Parties and their respective affiliated parties. On December 26, 2006, 910,000 common shares were issued pursuant to the Settlement Agreement effective June 30, 2006. These 910,000 common shares are subject to a Leak-Out Agreement and are restricted under Rule 144.

**NOTE M - CONCENTRATION OF CREDIT RISK**

Financial instruments, which potentially expose the Company to concentrations of credit risk, consist principally of cash. As of December 31, 2006, the Company maintains its cash accounts with financial institutions located in Pennsylvania and Canada. The Federal Deposit Insurance Corporation (FDIC) guarantees the Company's deposits in US-based financial institutions up to \$100,000 per account.

As of December 31, 2006, the Company accounts for its investment in Gulf Coast Records, LLC on the equity method of accounting. The amount of \$832,849 was offset by an allowance to reduce the market value of this note and investment to zero from Gulf Coast Records as of June 30, 2006. Current management is reviewing its options regarding this company and whether it wants to maintain its position or divest its holdings in the future, while actively negotiating with the management of Gulf Coast Records, LLC regarding the recovery of the Company's investment. Prior to June 30, 2006, the Company received information from the management of Gulf Coast Records, LLC that has caused the Company to reduce the fair market value to zero.

**NOTE N - RELATED PARTY TRANSACTIONS**

**ACCRUED PAYROLL AND EXPENSES: DUE TO RELATED PARTIES**

(F/K/A - Cali Holdings, Inc.)

NOTES TO FINANCIAL STATEMENTS

Unaudited

December 31, 2005

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Company Activities

Sovereign Exploration Associates International, Inc. (the "Company") was incorporated in the state of Utah in 1980. The company was formerly known as CALI Holdings, Inc. On October 26, 2005 the Company changed its name from CALI Holdings, Inc. to Sovereign Exploration Associates International, Inc.

On January 5, 2004 the Company's shareholders consented to the proposal to allow the Company to adopt business development company ("BDC") status under the Investment Company Act of 1940 ("1940 Act"). A BDC is a specialized type of Investment Company under the 1940 Act. A BDC may primarily be engaged in the business of furnishing capital and managerial expertise to companies that do not have ready access to capital through conventional financial channels; such companies are termed "eligible portfolio companies". The Company as a BDC, may invest in other securities, however such investments may not exceed 30% of the Company's total asset value at the time of such investment. The Company filed its BDC election with the SEC (Form N-54A) on January 13, 2004. The Company provides equity and long-term debt financing to small and medium-sized private companies. The Company's investment objective is to achieve long-term capital appreciation in the value of its investments and to provide current income primarily from interest, dividends and fees paid by its portfolio companies.

Basis of Presentation

Different accounting principles are used in the preparation of financial statements of a business development company under the Investment Company Act of 1940 and therefore, the financial statements is presented using the guidelines outlined under the 1940 Act. By becoming a BDC, the Company has effected a change in accounting principle and no longer consolidates its investments in portfolio companies in accordance with Article 6 of Regulation S-X under the Securities Act of 1933 and Securities Act of 1934 in which a BDC does not consolidate portfolio company investments, including those in which it has a controlling interest. Certain reclassifications have been made to the December 31, 2004 and June 30, 2005 amounts to make them consistent with the December 31, 2005 classifications.

Revenue Recognition

The Company recognizes revenue using the accrual method of accounting. The accrual method provides for a better matching of revenues and expenses. The Company also accrues interest income on loans made to various portfolio companies. The Company accrues the interest on such loans until the portfolio company has the necessary cash flow to repay such interest. If the Company's analysis of the portfolio company's performance indicates that the portfolio company may not have the ability to pay the interest and principal on a loan, the Company will make an allowance provision on that entity and in effect cease recognizing interest income on that loan until all principal has been paid. However, the Company will make exceptions to this policy if the investment is well secured and in the process of collection.

For certain investment companies, the Company provides management services and recognizes an agreed upon fixed monthly fee ("Fee Income") and expenses. Fee Income includes fees for services rendered by the Company to portfolio companies and other third parties such as diligence, structuring, transaction services, management services, and other advisory services. Diligence, structuring, and transaction services fees are generally recognized as income when services are rendered or when the related transactions are completed. Management and other advisory services fees are generally recognized as income as the services are rendered.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

#### Net (Loss) Per Common Share

Net (Loss) per common share is computed using the weighted average of shares outstanding during the periods presented in accordance with *Statement of Financial Accounting Standards No. 128, Earnings Per Share*. As discussed further in Notes N and O, any references to amounts per share or weighted average common shares have been restated to reflect reverse splits.

#### Cash and Cash Equivalents

Cash and cash equivalents include time deposits with original maturities of three months or less.

#### Fixed Assets

Fixed assets are stated at cost. The cost of equipment is charged against income over their estimated useful lives, using the straight-line method of depreciation. Repairs and maintenance which are considered betterments and do not extend the useful life of equipment are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the asset and accumulated depreciation is removed from the accounts and the resulting profit and loss are reflected in income.

#### Goodwill and Other Intangibles

The Company records Goodwill in accordance with *Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets*. Intangible assets such as goodwill are not amortized; instead the Company will review the goodwill not less frequently than annually to see if it has been impaired. If impairment occurs, it will be recorded as an expense in that period. During the three months ending December 31, 2005, goodwill was adjusted to zero pursuant to the calculation of the divestiture of the assets in Note J.

## NOTE B - INVESTMENTS

### Valuation of Investments

The most significant estimate inherent in the preparation of the Company's financial statements is the valuation of its investments and the related unrealized appreciation or depreciation. The Company has engaged independent business valuation experts to value selected portfolio companies, which will have significant activity in the Company's first year operating under the new registrant. The Board of Directors states all other portfolio companies and investments at fair market value, which approximates cost, as determined under a good faith standard. The Company analyzes the investments on a regular basis and records unrealized gains or losses if and when an investment significantly gains or loses market value as determined by a good faith standard.

The Company has investments in three (3) controlled portfolio companies as of December 31, 2005.

.	Historic Discoveries, Inc.
.	Sovereign Exploration Associates International of Spain, Inc. (SEAI - SPAIN)
.	Gulf Coast Records, LLC

The portfolio companies consist of Historic Discoveries, Inc.; Artifact Recovery & Conservation, Inc. and Sea Research, Inc. (SR) are wholly owned subsidiaries of Historic Discoveries, Inc.

Artifact Recovery & Conservation, Inc. (ARC) has secured the rights to five (5) sites; several of the sites have revealed multiple ships with historic and intrinsic value. Currently ARC operates recovery operations on two of the five sites. ARC manages its own dive teams and oversees operations for contracted recovery teams. Management is in the process of preparing time lines and operating plans for the other sites.

#### Sea Research, Inc. (SR)

Sea Research, Inc. (SR) has secured the rights to seven (7) sites; several of the sites have revealed multiple ships with historic and intrinsic value. Currently SR is preparing to initiate recovery operations on one of the seven sites and developing timelines for the remainder of the portfolio.

#### Sovereign Exploration Associates International of Spain, Inc. (SEAI - SPAIN)

Sovereign Exploration Associates International of Spain, Inc. (SEAI-SPAIN) has secured the finder's rights to four (4) shipwrecks in Spain with potential historic and intrinsic value, thereby expanding SR's current holdings.

Gulf Coast Records, LLC

Gulf Coast Records, LLC is an independent record label. In 2005, Gulf Coast was developing record artist Glenn Cummings. There has been no activity in the development or promotion of this artist since September 2005. Current management is reviewing its options regarding this portfolio company and whether it wants to maintain its position or divest its holdings in the future.

Current management does not possess adequate information to determine the proper fair market value of this portfolio company, at this time, and has reduced the value of the investment and note receivable to zero. Once management receives the necessary information, it will update the fair market value of these assets. Current management is actively negotiating with the management of Gulf Coast Records, LLC regarding the recovery of the Company's investment.

NOTE C - FIXED ASSETS

During the six months ended December 31, 2004, prior management issued 12,250 shares of the Company's common stock for various professional consulting services. The value assigned to the above shares (\$52,250) is based on the stocks' traded market price on or about the date the shares were issued and are included in professional fees.

NOTE E - UNREALIZED GAINS (LOSSES) ON INVESTMENTS

For the six months ended December 31, 2005 and 2004, the Company recognized an unrealized loss on the Company's investments in the amount of \$716,649 and \$7,071, respectively.

NOTE K - EXCHANGE AGREEMENT

At closing of the Exchange Agreement on October 17, 2005, the Company agreed to pay to Charles Giannetto, James E. Jenkins and KMA Capital, in total the sum of Six Hundred Thousand and no/100 dollars (\$600,000) in complete termination and release of the Executive Management contracts from Cali to Giannetto and Jenkins and the consulting contract of Cali to KMA. Three Hundred Thousand (\$300,000) was paid at closing and the balance of \$300,000 was to be paid on or before March 31, 2006. Additionally, two of the former officers of the Company, and a management consulting firm (KMA Capital Partners, Ltd.) were to receive an aggregate 5% of the outstanding shares of the Company, post reverse split.

Pursuant to the Exchange Agreement, the Company received in exchange for total consideration under the Exchange Agreement an interest in one controlled portfolio company: Historic Discoveries, Inc. See Note B for a description of this portfolio company. The consideration for the acquisition of this portfolio company was \$1,861,410 in the form of obligations as outlined in Exhibit G of the Exchange Agreement.

Under the requirements of a BDC, management is required to recognize the fair market value of its ownership interest in its portfolio companies. As of December 31, 2005, management's good faith estimate of fair market value of its investment in Historic Discoveries, Inc. equals its cost of \$1,861,410 as fully disclosed in the Exchange Agreement.

Prior management received consent for the transaction by the holders of 51% of the outstanding shares as of the date of the Exchange Agreement. Current management is reviewing the consent transaction to determine if all filing requirements were completed by prior management as they relate to the shareholder approval of this transaction.

Senior Security Instruments

Prior to the Exchange Agreement, there is a Revenue Agreement as outlined in Exhibit B of the Exchange Agreement, that requires 20% revenue participation payable to the original owners of the permits from the net recovery of the shipwrecks for the permits that have been assigned to the subsidiaries of the Company's portfolio company, Historic Discoveries, Inc. The 20% revenue participation allows Historic Discoveries, Inc. to defer permit transfer fees and align site permit cost with revenue generation, eliminating the exposure associated with sites that do not produce a material number of artifacts. Historic Discoveries, Inc. is only required to pay the 20% revenue participation when sites produce net revenue. **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS - DECEMBER 31, 2006**

The following discussion should be read in conjunction with our financial statements and notes thereto appearing elsewhere in this report.

**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION:**

This Form 10-QSB for the quarter ended December 31, 2006 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements may be identified by the use of forward-looking terminology, such as "may", "shall", "could", "expect", "estimate", "anticipate", "predict", "probable", "possible", "should", "continue", or similar terms, variations of those terms or the negative of those terms. The forward-looking statements specified in the following information have been compiled by our management on the basis of assumptions made by management and are considered by management to be reasonable. Our future operating results, however, are impossible to predict and no representation, guaranty, or warranty is to be inferred from those forward-looking statements.

The assumptions used for purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. No assurance can be given that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements.

The reader of this discussion, the related financial statements and notes thereto, and other recent Company filings should understand that the Portfolio companies, the Senior Management team, the Board of Directors, and the Company's method of accounting upon its withdrawal of its election to be treated as a business development company under the Investment Company Act of 1940, have all materially changed.

**RECENT DEVELOPMENTS:**

**REASONS FOR CEASING TO BE A BUSINESS DEVELOPMENT COMPANY**

Following the change in control of Sovereign Exploration Associates International, Inc. (the "Company") on October 17, 2005, we determined that many of the regulatory, financial reporting and other requirements imposed by the 1940 Act were too restrictive and prevented the Company from operating in the manner in which it desires. Among these restrictions are the following:

- A BDC is an investment company and is engaged in the business of investing, reinvesting, owning, holding, or trading in securities. We instead intend to carry on our marine recovery and explorations business through subsidiaries and controlled companies.

- In carrying on our business, from time to time we expect to enter into joint venture and other transactions with affiliates, subject to the oversight and approval of the Board of Directors. BDCs generally are unable to enter into such transactions without the approval of the Securities and Exchange Commission (the "SEC"), and such approvals generally cannot be obtained without undue time and expense.
- BDCs are subject to restrictions in the 1940 Act on the type and amount of securities, other than Common Stock, that they can issue. We believe that the Company would be better served by greater flexibility in our capital structure. The closely regulated nature of BDCs causes them to be subject to greater legal and accounting expenses.
- Because of restrictions on the Company's ability to issue stock, we were unable to comply with the Settlement Agreement effective June 30, 2006, while the Company was a BDC. We believe that the comprehensive settlement embodied in the Settlement Agreement is in the Company's best interests.

The Company's Board of Directors agreed with our assessment and determined that it was no longer feasible for the Company to operate as a BDC. The appropriate course of action was to withdraw the Company's election to be regulated as a BDC by filing a Form N-54C with the SEC. Following the withdrawal of the election, the Company will continue to be a reporting company under the Exchange Act, but will be managed so that it will not be subject to the provisions of the 1940 Act.

#### EFFECT ON SHAREHOLDERS

Upon the Company's withdrawal of its election to be treated as a BDC, the Company will no longer be subject to regulation under the 1940 Act, which is designed to protect the interests of investors in investment companies. Specifically, our shareholders will no longer have the following protections of the 1940 Act:

- We will no longer be subject to the requirement in Section 61 of the 1940 Act that we maintain a ratio of assets to senior securities (such as senior debt or preferred stock) of at least 200%. We will no longer be prohibited from protecting any director or officer against any liability to the Company or our shareholders arising from willful malfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of that person's office.
- We will no longer be required to provide and maintain a bond issued by a reputable fidelity insurance company to protect the Company against larceny and embezzlement.
- We will no longer be required to ensure that a majority of our directors are persons who are not "interested persons," as that term is defined in section 56 of the Investment Company Act, and certain persons that would be prevented from serving on our board if we were a BDC (such as investment bankers) would be able to serve on our board.
- We will no longer be subject to provisions of the 1940 Act regulating transactions between BDCs and certain affiliates.
- We will no longer be subject to provisions of the 1940 Act restricting our ability to issue shares, warrants and options.

- We will be able to change the nature of our business and fundamental investment policies without having to obtain the approval of our shareholders.

#### EFFECT ON FINANCIAL STATEMENTS AND TAX STATUS

The election to withdraw the Company as a BDC under the 1940 Act results in a significant change in the Company's required method of accounting. BDC financial statement presentation and accounting utilizes the value method of accounting used by investment companies, which allows BDCs to recognize income and value their investments at market value as opposed to historical cost.

Operating companies use either the fair-value or historical-cost methods of accounting for financial statement presentation and accounting for securities held, depending on how the investment is classified and how long the company intends to hold the investment. Because of an absence of reliable market data as to the value of its assets, the Company has used historical cost as a proxy for fair value, mitigating the immediate impact of the change from fair-value to historical-cost accounting. In the future, however, changing our method of accounting could reduce the market value of our investments in privately held companies by eliminating our ability to report an increase in value of our holdings as they occur. Also, as an operating company, we will have to consolidate our financial statements with subsidiaries, thus eliminating the portfolio company reporting benefits available to BDCs.

We do not believe that the withdrawal of the Company's election to be treated as a BDC will have any impact on its federal income tax status, since we never elected to be treated as a regulated investment company under Subchapter M of the Internal Revenue Code. (Electing treatment as a regulated investment company under Subchapter M generally allows a qualified investment company to avoid paying corporate level federal income tax on income it distributes to its shareholders.) Instead, we have always been subject to corporate level federal income tax on our income (without regard to any distributions we make to our shareholders) as a "regular" corporation under Subchapter C of the Code.

#### CHANGE IN ACCOUNTING PRINCIPLE

The Company's financial statements for the quarter ended September 30, 2005, as presented herein, were prepared using the method of accounting applicable to investment companies, while our financial statements, as presented herein, for the three months ended September 30, 2006, are prepared using the method of accounting applicable to operating companies. Our financial statements for these periods are not comparable. We have determined it is impractical to comply with the retroactive application of prior periods being presented on an operating and consolidated basis in accordance with Statement of Financial Accounting Standards No. 154, Accounting for Changes and Error Corrections ("FAS #154").

Pursuant to paragraph 11 of FAS #154, we have deemed it impracticable to apply the effects of a change in accounting principle retroactively because the following conditions apply as of December 31, 2006:

1. We have made every reasonable effort to apply the requirement, but are unable to do.
2. Retrospective application of the change in accounting principle requires assumptions about prior management's intent in prior periods that cannot now be independently substantiated.

3. Retrospective application of the change in accounting principle requires significant estimates of amounts, and at this time it is impossible to distinguish objectively information about those estimates that: (a) provides evidence of circumstances that existed on the date(s) at which those amounts would be recognized, measured, or disclosed under retrospective application, and (b) would have been available when the financial statements for that prior period were issued.

### COMPARATIVE ANALYSIS

Since the Company does not possess the information necessary to restate the financial statements as of December 31, 2005, as an operating company, the following analysis only provides for the current year information.

### OPERATING AND OTHER EXPENSES

Operating expenses for the six months ended December 31, 2006 was \$484,931 consisting of salaries and wages, general and administrative expenses and professional fees. All of our employees, including officers, have agreed to a 50% reduction in their respective salaries and wages effective July 01, 2006.

### CAPITALIZED COSTS

The Company's subsidiaries are development stage enterprises engaged in ocean explorations and archaeologically sensitive recoveries of artifacts, treasure trove and/or cargo from shipwrecks under various licenses. FAS #7 defines a development stage enterprise as one that is devoting substantially all of its efforts to establishing a new business and either planned principal operations have not commenced or planned principal operations have commenced but there has been no significant revenue.

As of December 31, 2006, the Company accounted for \$2,867,615 of its ocean exploration and archaeologically sensitive recoveries of artifacts, treasure trove and/or cargo from shipwrecks costs incurred to-date as capitalized costs.

### LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2006, we had an accumulated deficit of \$20,468,882.

Each year diving operations for ocean explorations and archaeologically sensitive recoveries of artifacts, treasure trove and/or cargo from shipwrecks must be funded. In order to fund the 2006 diving operations which ran from July through October 2006, In July 2006 the President of the Company advanced the Company \$500,000 of which \$265,000 was directly used for diving operations in Nova Scotia. The remaining funds of approximately \$235,000 were used for working capital purposes of the Company primarily for legal and professional fees related to being an SEC registrant.

The net affect, as of June 30, 2006, of the Company's election to withdrawal our business development company status pursuant to the Investment Company Act of 1940 was as follows:

Additional paid in capital	\$ (550,705)
Deficit	(425,068)
Unrealized depreciation on investments	1,015,273
Net adjustments	\$ 39,500

As a result of the change in accounting principle because of the Company's election to withdrawal its business development company election, the Company restated its June 30, 2006 Balance Sheet which is included in the accompanying financial statements.

Effective November 15, 2006, the Chairman of the Company advanced the Company \$160,000 under a note agreement that requires an interest rate of the lesser of 0.9% or the legal rate under Texas law and is due, in full, with principal and interest on November 15, 2007.

Effective November 15, 2006, the \$600,000 note due to Sea Hunt, Inc. and Venture Planning, Inc., related parties to the Chairman of the Company, was renegotiated with a new due date of November 15, 2007 along with an interest rate of the lesser of 0.9% or the legal rate under Texas law and is due, in full, with principal and interest on November 15, 2007.

#### NOTES PAYABLE

The convertible debentures as outlined in Note H of the accompanying financial statements continue to be in dispute. We have no additional information regarding the resolution to these disputed convertible debentures which were entered into by prior management before October 17, 2005. These convertible debentures continue to be in dispute because of issues related to the conversion rates. There is no additional information available from prior management at this time.

#### COMMITMENTS AND CONTINGENCIES:

Prior to the Exchange Agreement, there is a Revenue Agreement as outlined in Exhibit B of the Exchange Agreement, that requires 20% revenue participation payable to the original owners of the permits from the net recovery of the shipwrecks for the permits that have been assigned to the subsidiaries of the Company's portfolio company, Historic Discoveries, Inc. The 20% revenue participation allows Historic Discoveries, Inc. to defer permit transfer fees and align site permit cost with revenue generation, eliminating the exposure associated with sites that do not produce a material number of artifacts. Historic Discoveries, Inc. is only required to pay the 20% revenue participation when sites produce net revenue. The 20% revenue participation also provides Historic Discoveries, Inc. the right of first refusal on future sites, creating a mechanism for Historic Discoveries, Inc. and its operating companies to build site inventory while deferring the associated cost and reducing financial risk. The Revenue Agreement with the original owners was executed prior to October 17, 2005.

As of December 31, 2006, we have determined that no liability exists under this agreement.

On December 1, 2006, the Company was named in a lawsuit in Orange County, Florida; *Estate of Mulligan vs. Cali Holdings, Inc., Sovereign Exploration Associates International, Inc., TSB Holdings, Inc., James Jenkins, and Charles Gianetto, et al.* The Plaintiff had invested funds into one of the portfolio companies of prior management and has named all parties including successor corporations in the suit. Management also has the signed representations from prior management that no other potential lawsuits existed as of the settlement with them on June 30, 2006. The documentation clearly states otherwise and they were aware of this suit at that time. Management feels comfortable they will prevail in this suit based on the documentation already provided.
