UNIVERSAL SECURITY INSTRUMENTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Statement of Management

The consolidated financial statements include the accounts of Universal Security Instruments, Inc. (USI or the Company) and its majority owned subsidiaries. Significant inter-company accounts and transactions have been eliminated in consolidation. In the opinion of the Company's management, the interim consolidated financial statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the results for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. The interim consolidated financial statements should be read in conjunction with the Company's March 31, 2009 audited financial statements filed with the Securities and Exchange Commission on Form 10-K. The interim operating results are not necessarily indicative of the operating results for the full fiscal year.

Discontinued Operations

As discussed in prior periods, on February 11, 2008, the assets of International Conduits, Ltd. (Icon), a Canadian corporation in which we owned a two-thirds interest, were placed under the direction of a court appointed receiver, and the operations of Icon were suspended. Accordingly, the assets and liabilities of Icon are not consolidated in the financial statements of the Company and are classified as assets held in receivership. Our consolidated financial statements and the related note disclosures reflect the operations of Icon as discontinued operations for all periods presented.

At September 30, 2009, the receivership has been completed and there are no remaining assets or liabilities of Icon.

Income Taxes

A provision for federal and state income tax (benefit) expense on continuing operations of \$(19,542) and \$198,795 has been provided for the six month periods ended September 30, 2009 and 2008, respectively.

As of September 30, 2009, the Company has recorded in other long term liabilities an amount for uncertain tax positions of \$96,748, including imputed interest. The Company has chosen to treat interest and penalties related to uncertain tax liabilities as income tax expense.

Joint Venture

The Company and its co-venturer, a Hong Kong corporation, each owns a 50% interest in a Hong Kong joint venture, Eyston Company Limited (the "Joint Venture"), that has manufacturing facilities in the People's Republic of China, for the manufacturing of security products. The following represents summarized balance sheet and income statement information of the Joint Venture as of and for the six months ended September 30, 2009 and 2008:

	2009	2008
Net sales	\$ 14,059,608	\$ 19,667,762
Gross profit	4,363,249	5,146,125
Net income	2,416,124	2,382,837
Total current assets	15,923,351	17,985,028
Total assets	30,149,259	27,998,136

Total current liabilities	6,168,310	6,674,648
---------------------------	-----------	-----------

During the six months ended September 30, 2009 and 2008, respectively, the Company purchased \$7,577,193 and \$13,789,174 of products from the Joint Venture. For the six month period ended September 30, 2009 and 2008, the Company has adjusted its equity in earnings of the Joint Venture to reflect an addition (reduction) of \$402,629 and (\$266,628) for inter-company profit in inventory.

Net Income per Common Share

Basic earnings per common share is computed based on the weighted average number of common shares outstanding during the periods presented. Diluted earnings per common share is computed based on the weighted average number of common shares outstanding plus the effect of stock options and other potentially dilutive common stock equivalents. The dilutive effect of stock options and other potentially dilutive common stock equivalents is determined using the treasury stock method based on the Company's average stock price.

A reconciliation of the weighted average shares of common stock utilized in the computation of basic and diluted earnings per share for the three and six month periods ended September 30, 2009 and 2008 is as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2009	2008	2009	2008
Weighted average number of common shares outstanding for basic EPS	2,387,887	2,486,176	2,390,100	2,487,017
Shares issued upon the assumed exercise of outstanding stock options	6,127	0	5,624	0
Weighted average number of common and common equivalent shares outstanding for diluted EPS	2,394,014	2,486,176	2,395,724	2,487,017

Outstanding options to purchase 67,756 shares of common stock as of September 30, 2009 are not included in the above calculations as the effect would be anti-dilutive.

Stock Based Compensation

Stock Option Activity. During the six month period ended September 30, 2009, no stock options were granted. During the six month period ended September 30, 2009, no shares of our common stock have been issued as a result of the exercise of the options granted under the now expired stock option plan.

Stock Compensation Expense. Compensation expense related to share-based awards is recognized on a straight-line basis based on the grant-date fair value of share awards that are expected to vest during the requisite service period. We have estimated forfeitures on the date of grant and are only recording expense on shares we expect to vest. For the six months ended September 2009 and 2008, we recorded \$11,406 and \$6,987, respectively, of stock-based compensation cost as general and administrative expense in our consolidated statement of earnings. No portion of employees' compensation including stock compensation expense was capitalized during the period.

As of September 30, 2009, there was \$34,219 of unrecognized compensation cost related to share-based compensation arrangements that we expect to vest. The aggregate intrinsic value of currently exercisable options was \$0 at September 30, 2009.

Subsequent Events

The Company evaluated events occurring between the end of our fiscal quarter, September 30, 2009 and November 11, 2009 when the financial statements were available for issuance.

In July 2009, CIT Group, Inc. (CIT), the parent corporation of the Company's factor and principal lender, warned in a press release of the possibility that CIT may file for bankruptcy protection. At September 30, 2009, the Company had \$3,416,135 in borrowings under its factoring agreement with CIT, had no cash on deposit with CIT, and had exercised substantially all of its availability to borrow based on its factoring agreement with CIT. Since July 13, 2009 the Company has borrowed substantially all of its availability from CIT and transferred this amount to an account with the Company's commercial bank. On November 1, 2009, the parent corporation of the Company's factor and principal lender, CIT, announced that it had filed for bankruptcy protection. While CIT has stated that its bankruptcy filing will allow it to continue to provide funding to its customers such as the Company, it is too early to determine the impact, if any, CIT's bankruptcy will have on the Company. The Company will continue to monitor its borrowing policy with respect to CIT and is reviewing its options to establish an alternate source of commercial financing, if needed.

Recent Accounting Pronouncements

The FASB issued ASU 2009-01, Amendments based on Statement of Financial Accounting Standards No. 168—The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles, in June 2009 to codify in ASC 105, Generally Accepted Accounting Principles, FASB Statement 168, The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles, which was issued to establish the Codification as the sole source of authoritative U.S. GAAP recognized by the FASB, excluding SEC guidance, to be applied by nongovernmental entities. The guidance in ASC 105 is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

Applying the guidance in ASC 105 did not impact the Company's financial condition and results of operations. The Company has revised its references to pre-Codification GAAP in its financial statements for the three and six month periods ended September 30, 2009.

Business Combinations: On April 1, 2009, we adopted authoritative guidance issued by the Financial Accounting Standards Board ("FASB") on business combinations. The guidance retains the fundamental requirements that the acquisition method of accounting (previously referred to as the purchase method of accounting) be used for all business combinations, but requires a number of changes, including changes in the way assets and liabilities are recognized and measured as a result of business combinations. It also requires the capitalization of in-process research and development at fair value and requires the expensing of acquisition-related costs as incurred. We will apply this guidance to business combinations completed after April 1, 2009. The effect on our consolidated results of operations and financial position will be dependent upon future acquisitions, if any.

Fair Value: On January 1, 2009, we adopted the authoritative guidance on fair value measurement for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). Adoption of the new guidance did not have a material impact on our financial statements.

In June 2009, the FASB issued authoritative guidance on the consolidation of variable interest entities, which is effective for us beginning April 1, 2010. The new guidance requires revised evaluations of whether entities represent variable interest entities, ongoing assessments of control over such entities, and additional disclosures for variable interests. We believe adoption of this new guidance will not have a material impact on our financial statements.

From time to time, the Company is involved in various lawsuits and legal matters. It is the opinion of management, based on the advice of legal counsel, that these matters will not have a material adverse effect on the Company's financial statements.

ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used throughout this Report, “we,” “our,” “the Company” “USI” and similar words refers to Universal Security Instruments, Inc.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements reflecting our current expectations with respect to our operations, performance, financial condition, and other developments. These forward-looking statements may generally be identified by the use of the words “may”, “will”, “believes”, “should”, “expects”, “anticipates”, “estimates”, and similar expressions. These statements are necessarily estimates reflecting management’s best judgment based upon current information and involve a number of risks and uncertainties. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made, and readers are advised that various factors could affect our financial performance and could cause our actual results for future periods to differ materially from those anticipated or projected. While it is impossible to identify all such factors, such factors include, but are not limited to, those risks identified in our periodic reports filed with the Securities and Exchange Commission, including our most recent Annual Report on Form 10-K.

overview

We are in the business of marketing and distributing safety and security products which are primarily manufactured through our 50%-owned Hong Kong Joint Venture. Our financial statements detail our sales and other operational results only, and report the financial results of the Hong Kong Joint Venture using the equity method. Accordingly, the following discussion and analysis of the three and six month periods ended September 30, 2009 and 2008 relate to the operational results of the Company. A discussion and analysis of the Hong Kong Joint Venture’s operational results for these periods is presented below under the heading “Joint Venture.”

Discontinued Canadian Operations

As discussed in prior periods, on February 11, 2008, the assets of International Conduits, Ltd. (Icon), a Canadian corporation in which we owned a two-thirds interest, were placed under the direction of a court appointed receiver, and the operations of Icon were suspended. Accordingly, the assets and liabilities of Icon are not consolidated in the financial statements of the Company and are classified as assets held in receivership. Our consolidated financial statements and the related note disclosures reflect the operations of Icon as discontinued operations for all periods presented. At September 30, 2009, the receivership is completed and there are no remaining assets or liabilities of Icon.

Results of Operations

Three Months Ended September 30, 2009 and 2008

Sales. Net sales for the three months ended September 30, 2009 were \$7,900,805 compared to \$8,381,379 for the comparable three months in the prior fiscal year, a decrease of \$480,574 (5.7%). The primary reason for the decrease in net sales volumes was lower sales of our core product lines, including smoke alarms and carbon monoxide alarms, to the electrical distribution trade due to a decrease in new home construction during the quarter.

Gross Profit Margin. Gross profit margin is calculated as net sales less cost of goods sold expressed as a percentage of net sales. Our gross profit margin was 20.9% and 22.6% of sales for the quarters ended September 30, 2009 and 2008, respectively. The decrease in gross profit margin was primarily due to a lower gross profit margin realized on increased sales to a national home improvement retailer.

Expenses. Research and development, and selling, general and administrative expenses decreased by \$177,620 from the comparable three months in the prior year. As a percentage of net sales, these expenses decreased to 19.7% for the three month period ended September 30, 2009, from 20.7% for the corresponding 2008 period. The decrease in costs as a percentage of net sales was primarily due to decreases in commissions and freight expense.

Interest Expense and Income. Our interest expense, net of interest income, was \$30,830 for the quarter ended September 30, 2009, compared to net interest expense of \$3,259 for the quarter ended September 30, 2008. The increase in interest expense is due to increased borrowings from our factor.

Income Taxes. During the quarter ended September 30, 2009, the Company had a net income tax expense of \$24,702. For the corresponding 2008 period, the Company had a net income tax expense of \$97,429.

Net Income. We reported net income of \$924,870 for the quarter ended September 30, 2009, compared to net income of \$4,091,214 for the corresponding quarter of the prior fiscal year, a \$3,166,344 (77.4%) decrease. The reason for the decrease in net income is the inclusion in the prior period of the gain of \$3,434,913 recognized as a result of the settlement of the obligations of our Canadian subsidiary. Net income from continuing operations rose 40.9% to \$924,870 from \$656,301 in the comparable quarter of last year as a result of higher earnings from the Hong Kong Joint Venture.

Six Months Ended September 30, 2009 and 2008

Sales. Net sales for the six months ended September 30, 2009 were \$13,815,710 compared to \$14,574,180 for the comparable six months in the prior fiscal year, a decrease of \$758,470 (5.2%). The primary reason for the decrease in net sales volumes was lower sales of our core product lines, including smoke alarms and carbon monoxide alarms, to the electrical distribution trade due to a decrease in new home construction during the period.

Gross Profit Margin. The gross profit margin is calculated as net sales less cost of goods sold expressed as a percentage of net sales. The Company's gross profit margin decreased from 23.8% for the period ended September 30, 2008 to 20.4% for the current period ended September 30, 2009. The decrease in gross profit margin was primarily due to a lower gross profit margin realized on increased sales to a national home improvement retailer.

Expenses. Research and development, and selling, general and administrative expenses decreased by \$185,559 from the comparable six months in the prior year. As a percentage of sales, these expenses were 20.8% for the six month period ended September 30, 2009 and 21.0% for the comparable 2008 period. The primary reason for the decrease in expenses as a percentage of sales is due to decreases in commissions and freight expense.

Interest Expense and Income. Our interest expense, net of interest income, was \$32,321 for the six months ended September 30, 2009, compared to net interest income of \$15,576 for the six months ended September 30, 2008. The increase in interest expense is due to increased borrowings from our factor.

Income Taxes. During the six months ended September 30, 2009, the Company recorded an income tax benefit from continuing operations of \$19,542. For the corresponding 2008 period, the Company had a tax expense of \$198,795.

Net Income. We reported net income of \$1,536,335 for the six months ended September 30, 2009 compared to net income of \$4,494,694 for the corresponding period of the prior fiscal year. The primary reasons for the decrease is the gain of \$3,381,254 recognized in the prior year's period as a result of the settlement of the obligations of our Canadian subsidiary. Net income from continuing operations rose 40.9% to \$924,870 from \$656,301 in the comparable quarter of last year. Net income from continuing operations rose 38.0% to \$1,536,335 from \$1,113,440 in the comparable period of the prior year as a result of higher earnings from the Hong Kong Joint Venture.

Financial Condition and Liquidity

The Company has a Factoring Agreement with CIT Group, Inc. (CIT) which supplies both short-term borrowings and letters of credit to finance foreign inventory purchases. The maximum amount available under the Factoring Agreement is currently \$7,500,000. Based on specified percentages of our accounts receivable and inventory and letter

of credit commitments, as of September 30, 2009 we had borrowed \$3,416,135 under the Factoring Agreement, substantially all of our availability under the Factoring Agreement. The interest rate under the Factoring Agreement on the uncollected factored accounts receivable and any additional borrowings is equal to the prime rate of interest charged by our lender. At September 30, 2009, the prime rate was 3.25%. Borrowings are collateralized by all of our accounts receivable and inventory.

Our factored accounts receivable as of the end of our last fiscal year (net of allowances for doubtful accounts) were \$4,610,401, and were \$4,799,019 as of September 30, 2009. Our prepaid expenses as of the end of our last fiscal year were \$255,745, and were \$373,848 as of September 30, 2009.

Operating activities provided cash of \$2,026,296 for the six months ended September 30, 2009. This was primarily due to a decrease in inventories and prepaid expenses of \$2,876,640, offset by a decrease in accounts payable and accrued expenses of \$507,894 and earnings of the Joint Venture of \$1,542,354. For the same period last year, operating activities used cash of \$3,073,310, primarily as a result of unremitted earnings of the Hong Kong Joint Venture and increases in inventory and prepaid expenses offset by a decrease in accounts payable and accrued expenses, which was due to a build-up in the Company's inventory balances during that period to meet forecasted sales orders.

Investing activities provided cash of \$342,740 during the six months ended September 30, 2009.

Financing activities provided cash of \$3,330,474 during the six months ended September 30, 2009, primarily from borrowings from our factor.

We believe that funds available under the Factoring Agreement, distributions from the Joint Venture, and our line of credit facilities provide us with sufficient resources to meet our requirements for liquidity and working capital. In July 2009, the parent corporation of the Company's factor and principal lender, CIT, warned in a press release of the possibility that it may file for bankruptcy protection. Since July 13, 2009 we borrowed substantially all of our availability from CIT and transferred this amount to a deposit account with our commercial bank. At September 30, 2009, we had \$3,416,135 in borrowings under our factoring agreement with CIT, had no cash on deposit with CIT, and had exercised substantially all of our availability to borrow based on our Factoring Agreement. On November 1, 2009, the parent corporation of the Company's factor and principal lender, CIT, announced that it had filed for bankruptcy protection. While CIT has stated that its bankruptcy filing will allow it to continue to provide funding to its customers such as the Company, it is too early to determine the impact, if any, CIT's bankruptcy will have on the Company. We will continue to monitor our borrowing policy with respect to CIT, and we are reviewing our options to establish an alternate source of commercial financing, if needed.

Joint Venture

Net Sales. Net sales of the Joint Venture for the three and six months ended September 30, 2009 were \$8,191,985 and \$14,059,608, respectively, compared to \$11,870,728 and \$19,667,762, respectively, for the comparable period in the prior fiscal year. Although the Joint Venture's sales to the Company increased, primarily for products purchased by the Company for sale to the Company's new national home improvement retailer customer, the 31.0% and 28.5% respective decreases in net sales by the Joint Venture for the three and six month periods were due to lower volumes of sales of smoke alarm products to non-related customers in the Australian and European market.

Gross Margins. Gross margins of the Joint Venture for the three month period ended September 30, 2009 increased to 34.1% from 28.0% for the 2008 corresponding period. For the six month period ended September 30, 2009, gross margins increased to 31.0% from the 26.1% gross margin of the prior year's corresponding period. Since gross margins depend on sales volume of various products, with varying margins, increased sales of higher margin products and decreased sales of lower margin products affect the overall gross margins.

Expenses. Selling, general and administrative expenses were \$1,274,546 and \$2,152,747, respectively, for the three and six month periods ended September 30, 2009, compared to \$1,389,104 and \$2,607,670 in the prior year's respective periods. As a percentage of sales, expenses were 15.6% and 15.3% for the three and six month periods ended September 30, 2009, compared to 11.7% and 13.3% for the three and six month periods ended September 30, 2008. The increase in selling, general and administrative expense as a percent of sales was primarily due to variable costs that remained constant despite decreased net sales.

Interest Income and Expense. Interest expense, net of interest income, was \$1,509 and \$3,602, respectively, for the three and six month periods ended September 30, 2009, compared to net interest expense of \$4,267 and \$5,761,

respectively, for the prior year's periods. The reduction in net interest expense resulted from a decrease in the Joint Venture's borrowings.

Net Income. Net income for the three and six months ended September 30, 2009 were \$1,477,312 and \$2,416,124, respectively, compared to \$1,732,256 and \$2,382,837, respectively, in the comparable periods last year. The 14.7% and 1.4% respective decrease and increase in net income for the three and six month periods were due primarily to decreased sales volume as noted above.

Liquidity. Cash needs of the Joint Venture are currently met by funds generated from operations. During the six months ended September 30, 2009, working capital increased by \$603,842 from \$9,151,199 on March 31, 2009 to \$9,755,041 on September 30, 2009.

Critical Accounting Policies

Management's discussion and analysis of our consolidated financial statements and results of operations are based on our Consolidated Financial Statements included as part of this document. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate these estimates, including those related to bad debts, inventories, income taxes, and contingencies and litigation. We base these estimates on historical experiences and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect management's more significant judgments and estimates used in the preparation of its consolidated financial statements. For a detailed discussion on the application on these and other accounting policies, see Note A to the consolidated financial statements included in Item 8 of the Form 10-K for the year ended March 31, 2009. Certain of our accounting policies require the application of significant judgment by management in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty and actual results could differ from these estimates. These judgments are based on our historical experience, terms of existing contracts, current economic trends in the industry, information provided by our customers, and information available from outside sources, as appropriate. Our critical accounting policies include:

Revenue Recognition. We recognize sales upon shipment of products net of applicable provisions for any discounts or allowances. The shipping date from our warehouse is the appropriate point of revenue recognition since upon shipment we have substantially completed our obligations which entitle us to receive the benefits represented by the revenues, and the shipping date provides a consistent point within our control to measure revenue. Customers may not return, exchange or refuse acceptance of goods without our approval. We have established allowances to cover anticipated doubtful accounts based upon historical experience.

Inventories are valued at the lower of market or cost. Cost is determined on the first-in first-out method. We have recorded a reserve for obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. Management reviews the reserve quarterly.

We are subject to lawsuits and other claims, related to patents and other matters. Management is required to assess the likelihood of any adverse judgments or outcomes to these matters, as well as potential ranges of probable losses. A determination of the amount of reserves required, if any, for these contingencies is based on a careful analysis of each individual issue with the assistance of outside legal counsel. The required reserves may change in the future due to new developments in each matter or changes in approach such as a change in settlement strategy in dealing with these matters.

We generally provide warranties from one to ten years to the non-commercial end user on all products sold. The manufacturers of our products provide us with a one-year warranty on all products we purchase for resale. Claims for warranty replacement of products beyond the one-year warranty period covered by the manufacturers are immaterial and we do not record estimated warranty expense or a contingent liability for warranty claims.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

No material changes have occurred in our quantitative and qualitative market risk disclosures as presented in our Annual Report Form 10-K for the year ended March 31, 2009.

ITEM 4.

CONTROLS AND PROCEDURES

We maintain a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed by us in the reports that we file or submit under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and is accumulated and communicated to management in a timely manner. Our Chief Executive Officer and Chief Financial Officer have evaluated this system of disclosure controls and procedures as of the end of the period covered by this quarterly report, and have concluded that the system is effective. There have been no changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1.

LEGAL PROCEEDINGS

As previously reported, on June 11, 2003, Walter Kidde Portable Equipment, Inc. ("Kidde") filed a civil suit against the Company in the United States District Court for the Middle District of North Carolina (Case No. 03cv00537), alleging that certain of the Company's AC powered/battery backup smoke detectors infringe a patent acquired by Kidde (US 4,972,181). Kidde was seeking injunctive relief and damages to be determined at trial. On March 31, 2006, following numerous procedural and substantive rulings which the Company believes were favorable to the Company, Kidde obtained dismissal, without prejudice, of its suit. On November 28, 2005, prior to the March 31, 2006 dismissal of the original suit, Kidde filed a second lawsuit in the same court (Case No. 05cv1031) based on virtually identical infringement allegations as the earlier case. Discovery is now closed in this second case. Although the asserted patent is now expired, prior to its expiration, the Company sought and has now successfully obtained re-examination of the asserted patent in the United States Patent and Trademark Office (USPTO) largely based on the references cited and analysis presented by the Company which correspond to defenses raised in the litigation. In July, the USPTO issued a final rejection of all of the claims asserted against the Company based on the references. Kidde filed a response to the rejection which was subject to an October 19, 2009 advisory action by the USPTO rejecting its additional arguments. Kidde is entitled to take an appeal to the Board of Patent Appeals and Interferences. The litigation is stayed pending the conclusion of the reexamination proceedings. The USPTO action fully supports the Company's substantive position and its defenses to Kidde. The Company and its counsel believe that regardless of the outcome of the reexamination, the Company has significant defenses relating to the patent in suit. In the event of an unfavorable outcome, the amount of any potential loss to the Company is not yet determinable.

As further previously reported, on June 25, 2008, Maple Chase Company which was acquired in January 2008 by United Technologies Corporation (UTC), which also owns Kidde, filed a civil suit against the Company in the United States District Court for the Northern District of Illinois (Case No. 08cv3641) for patent infringement of Re 33920, a patent that expired in March of 2007. On January 13, 2009, the Court granted permission to substitute Kidde for Maple Chase as the party plaintiff. This action involves the same patent that formed the basis of the suit filed by Maple Chase against the Company in February 2004 (Case No. 03cv07205). In that case, the Company successfully sought and obtained reexamination of the asserted patent in the USPTO based on the references cited and analysis presented by the Company. In April 2005, the Court dismissed the earlier case subject to the outcome of the reexamination. After pending for more than three years and after the expiration of the patent, a Reexamination Certificate was granted confirming patentability of many of the claims and cancelling the remaining claims. The 2008 case asserts infringement of the claims emerging out of reexamination. On June 10, 2009, the Court granted the Company's motion to amend its Answer and Counterclaims seeking injunctive and antitrust damages against Kidde and filed a third-party Complaint against its parent company, United Technologies Corporation. Kidde and UTC filed a motion to dismiss the antitrust claims which was denied by the Court on October 22, 2009. Discovery is now underway. The Company believes that it has meritorious and substantial technical defenses to the action and that it is entitled to a number of legal/equitable defenses due to the long period of inaction and acquiescence by Kidde/Maple Chase and its predecessors. The amount, if any, of potential loss to the Company is not yet determinable. The Company intends to vigorously defend the suit and press its pending counterclaims.

As reported in the Company's Annual Report of Form 10-K for the fiscal year ended March 31, 2009, on August 21, 2008, Kidde filed its latest civil suit against the Company for patent infringement (Case No. 08cv2202), this time in the United States District Court for the District of Maryland. Kidde accuses the Company of infringement of US patent 6,791,453 by communication protocols for interconnected hazardous condition (smoke, heat and Carbon monoxide) detectors sold by the Company. The Company believes that it has meritorious and substantial technical defenses to the action. The amount, if any, of potential loss to the Company is not yet determinable. The Company intends to vigorously defend the suit and press its pending counter and third party claims.

As further reported in the Company's Annual Report of Form 10-K for the fiscal year ended March 31, 2009, on September 25, 2008, the Company with its Answer and Counterclaims to Kidde filed a third-party Complaint against UTC in the United States District Court for the District of Maryland in Case No. 08cv2202 for the predatory litigation campaign by the defendant and its subsidiary, Kidde. On March 31, 2009, Kidde filed for reexamination of the '453 patent. That reexamination request was declined by the USPTO. Kidde and UTC filed a joint motion to dismiss the Company's antitrust claims and the Company filed a second motion to amend its Answer and Counterclaims. On October 9, 2009, the Court held a hearing but has not yet issued its decision on the patent claim interpretation and the motions to dismiss and amend. Otherwise, the case is in the discovery phase. The Company intends to vigorously prosecute its claims.

From time to time, the Company is involved in various lawsuits and legal matters. It is the opinion of management, based on the advice of legal counsel, that these matters will not have a material adverse effect on the Company's financial statements.

ITEM 6.

EXHIBITS

Exhibit No.

- 3.1 Articles of Incorporation (incorporated by reference to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 1988, File No. 1-31747)
- 3.2 Articles Supplementary, filed October 14, 2003 (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed October 31, 2002, file No. 1-31747)
- 3.3 Bylaws, as amended (incorporated by reference to Exhibit 3.3 to the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2009, File No. 1-31747)
- 10.1 Non-Qualified Stock Option Plan, as amended (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the period ended September 30, 2003, File No. 1-31747)
- 10.2 Hong Kong Joint Venture Agreement, as amended (incorporated by reference to Exhibit 10.1 to the Company's Annual Report on Form 10-K for the year ended March 31, 2003, File No. 1-31747)
- 10.3 Amended and Restated Factoring Agreement between the Registrant and The CIT Group/Commercial Services, Inc. ("CIT"), dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.) (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed June 26, 2007, file No. 1-31747)
- 10.4 Amended and Restated Inventory Security Agreement between the Registrant and CIT, dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.) (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed June 26, 2007, file No. 1-31747)
- 10.5 Lease between Universal Security Instruments, Inc. and St. John Properties, Inc. dated November 4, 2008 for its office and warehouse located at 11407 Cronhill Drive, Suites A-D, Owings Mills, Maryland 21117 (incorporated by reference to Exhibit 10.8 to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 2008, File No. 1-31747)
- 10.6 Amendment to Lease between Universal Security Instruments, Inc. and St. John Properties, Inc. dated June 23, 2009 (incorporated by reference to Exhibit 10.9 to the Company's Annual Report on Form 10-K for the year ended March 31, 2009, File No. 1-31747)
- 10.7 Amended and Restated Employment Agreement dated July 18, 2007 between the Company and Harvey B. Grossblatt (incorporated by reference to Exhibit 10.7 to the Company's Quarterly Report on Form 10-Q for the period ended September 30, 2007, File No. 1-31747)
- 31.1 Rule 13a-14(a)/15d-14(a) Certification of Chief Executive Officer*
- 31.2 Rule 13a-14(a)/15d-14(a) Certification of Chief Financial Officer*
- 32.1 Section 1350 Certifications*
- 99.1 Press Release dated November 11, 2009*
