EXHIBIT 1

SGL Carbon increases Graphite Electrode prices

WIESBADEN, January 30, 2004. With immediate effect for all new business, SGL Carbon increases prices of its Graphite Electrodes by 115 Euro/mt in Europe, by 115 Euro/mt (150 US-Dollar/mt) in the Near Middle East and Africa and by 150 US-Dollar/mt in Asia except China. Since Graphite Electrode pricing for China is the sole responsibility of the SGL/Tokai Joint Venture STS, all price changes will be announced separately.

This price increase applies to product of all diameters. It is triggered by significantly higher raw material prices supported by tightness of graphite electrode supply. All plants remain operating near capacity. The Company does not expect this situation to change in the near future.

Important Notice:

This document contains forward-looking statements. These statements reflect the current belief of SGL Carbon's management as well as assumptions made by, and information available to, the SGL Group. Actual future results and trends could differ materially from those set forth in these statements due to various factors. These factors include, among others, changes in economic, political, technical, business and competitive conditions; unforeseeable alterations in electric steel production; changes of interest and exchange rates; price developments; unanticipated developments relating to recently acquired businesses and Group companies; potential liability in connection with existing or future regulations; unforeseen difficulties relating to the investigations by the European antitrust authorities and to the completed investigation by the Canadian and U.S. antitrust authorities and the civil actions related thereto; and other risks and uncertainties, including those detailed in the Company's filings with the U.S. Securities and Exchange Commission. SGL Carbon does not intend to update these forward-looking statements, and does not assume any obligation to do so.
