## ACADIA REALTY TRUST AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 1. ORGANIZATION AND BASIS OF PRESENTATION

## Business and Organization

Acadia Realty Trust (the “Trust”) and subsidiaries (collectively, the “Company”) is a fully-integrated, self-managed and self-administered equity real estate investment trust (“REIT”) focused primarily on the ownership, acquisition, redevelopment and management of retail properties, including neighborhood and community shopping centers and mixed-use properties with retail components.

All of the Company’s assets are held by, and all of its operations are conducted through, Acadia Realty Limited Partnership (the “Operating Partnership”) and entities in which the Operating Partnership owns a controlling interest. As of September 30, 2010, the Trust controlled approximately 99% of the Operating Partnership as the sole general partner. As the general partner, the Trust is entitled to share, in proportion to its percentage interest, in the cash distributions and profits and losses of the Operating Partnership. The limited partners primarily represent entities or individuals that contributed their interests in certain properties or entities to the Operating Partnership in exchange for common or preferred units of limited partnership interest (“Common or Preferred OP Units”). Limited partners holding Common OP Units are generally entitled to exchange their units on a one-for-one basis for common shares of beneficial interest of the Trust (“Common Shares”).

As of September 30, 2010, the Company has ownership interests in 34 properties within its core portfolio (“Core Portfolio”) and 44 properties within its three opportunity funds, Acadia Strategic Opportunity Fund I, L.P. (“Fund I”), Acadia Strategic Opportunity Fund II, LLC (“Fund II”) and Acadia Strategic Opportunity Fund III, LLC (“Fund III” and together with Fund I and Fund II, the “Opportunity Funds”). The 78 properties consist of commercial properties, primarily neighborhood and community shopping centers, self-storage and mixed-use properties with a retail component. In addition, the Company also invests in operating companies through Acadia Mervyn Investors I, LLC (“Mervyns I”) and Acadia Mervyn Investors II, LLC (“Mervyns II”) or Fund II, all on a non-recourse basis. These investments comprise and are referred to as the Company’s Retailer Controlled Property initiative (“RCP Venture”). The Operating Partnership has the following equity interests in the Opportunity Funds, Mervyns I and Mervyns II:

Entity	Equity Interest Held By Operating Partnership
Fund I and Mervyns I	22.2%
Fund II and Mervyns II	20.0%
Fund III	19.9%

In addition, with respect to each of the Opportunity Funds, Mervyns I and Mervyns II, the Operating Partnership is entitled to a profit participation in excess of its equity interest percentage based on certain investment return thresholds (“Promote”).

## Basis of Presentation

The consolidated financial statements include the consolidated accounts of the Company and its investments in partnerships and limited liability companies in which the Company is presumed to have control in accordance with the consolidation guidance of the Financial Accounting Statements Board (“FASB”) Accounting Standards Codification (“ASC”). Investments in entities for which the Company has the ability to exercise significant influence but does not

have financial or operating control, are accounted for under the equity method of accounting. Accordingly, the Company's share of the net earnings (or losses) of these entities are included in consolidated net income under the caption, Equity in Earnings (Losses) of Unconsolidated Affiliates. Investments in entities for which the Company does not have the ability to exercise any influence are accounted for under the cost method.

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from these estimates. The information furnished in the accompanying consolidated financial statements reflects all adjustments that, in the opinion of management, are necessary for a fair presentation of the aforementioned consolidated financial statements for the interim periods. These consolidated financial statements should be read in conjunction with the Company's 2009 Annual Report on Form 10-K, as filed with the SEC on March 1, 2010.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 1. ORGANIZATION AND BASIS OF PRESENTATION (continued)

## Recent Accounting Pronouncements

In June 2009, the FASB issued a new accounting standard, which provided certain changes to the evaluation of a variable interest entity (“VIE”) including requiring a qualitative rather than a quantitative analysis to determine the primary beneficiary of a VIE, continuous assessments of whether an enterprise is the primary beneficiary of a VIE and enhanced disclosures about an enterprise’s involvement with a VIE. Under the new standard, the primary beneficiary has both the power to direct the activities that most significantly impact economic performance of the VIE and the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE. The adoption of the standard on January 1, 2010 did not have a material impact on the Company’s consolidated financial statements.

In January 2010, the FASB issued Accounting Standards Update (“ASU”) No. 2010-06 “Improving Disclosures about Fair Value Measurements,” which provides for new disclosures, as well as clarification of existing disclosures on fair value measurements. The adoption of the standard on January 1, 2010 did not have an impact on the Company’s financial position and results of operations.

In February 2010, the FASB issued ASU No. 2010-09 “Subsequent Events (ASC Topic 855) Amendments to Certain Recognition and Disclosure Requirements,” which requires an entity that is an SEC filer to evaluate subsequent events through the date that the financial statements are issued and removes the requirement for an SEC filer to disclose a date through which subsequent events have been evaluated. The adoption did not have an impact on the Company’s financial position and results of operations.

## 2. EARNINGS PER COMMON SHARE

Basic earnings per Common Share is computed using net income attributable to common shareholders and the weighted average Common Shares outstanding. Diluted earnings per Common Share reflect the conversion of obligations and the assumed exercises of securities including the effects of awards issuable under the Company’s Share Incentive Plans. The computation of basic and diluted earnings per Common Share from continuing operations for the periods indicated are as follows:

Diluted earnings per Common Share from continuing operations attributable to Common Shareholders	\$0.13	\$0.18	\$0.57	\$0.63

The weighted average shares used in the computation of diluted earnings per share include unvested restricted Common Shares (“Restricted Shares”) and restricted OP units (“LTIP Units”) (Note 13) that are entitled to receive dividend equivalent payments. The effect of the conversion of Common OP Units is not reflected in the above table, as they are exchangeable for Common Shares on a one-for-one basis. The income allocable to such units is allocated on this same basis and reflected as noncontrolling interests in subsidiaries in the accompanying consolidated financial statements. As such, the assumed conversion of these units would have no net impact on the determination of diluted earnings per share. The conversion of the convertible notes payable (Note 9) is not reflected in the table above as such conversion, based on the current market price of the Common Shares, would be settled with cash.

2. EARNINGS PER COMMON SHARE, continued

The effect of the assumed conversion of 188 Series A Preferred OP Units into 25,067 Series A Preferred OP Units to Common Shares would be anti-dilutive for the three months ended September 30, 2010 and they are not included in the table. The effect of the assumed conversion of 188 Series A Preferred OP Units into 25,067 Common Shares is dilutive for the three months ended September 30, 2009 and nine months ended September 30, 2010 and September 30, 2009 and, accordingly, they are included in the table.

3. NONCONTROLLING INTERESTS

Noncontrolling interests represent the portion of equity that the Company does not own in entities that it consolidates. Such noncontrolling interests are reported on the Consolidated Balance Sheets within equity, separately from the Company's equity.

Noncontrolling interests include third party interests in the Company's Opportunity Funds and other entities. It also include interests in the Operating Partnership which represent (i) the limited partners' 281,942 and 626,606 Common OP Units at September 30, 2010 and December 31, 2009, respectively, (ii) 188 Series A Preferred OP Units at September 30, 2010 and December 31, 2009, respectively, and (iii) 646,534 and 393,909 LTIP Units at September 30, 2010 and December 31, 2009, respectively.

4. ACQUISITIONS AND DISPOSITION OF PROPERTIES AND DISCONTINUED OPERATIONS

Acquisitions

Prior to June 30, 2010, the Company, through Fund II, and an unaffiliated joint venture partner, California Urban Investment Partners, LLC ("CUIP") owned a leasehold interest in CityPoint, a mixed-use, redevelopment project located in downtown Brooklyn, New York. Fund II owned a 75% interest in the retail component, a 50% interest in the office component and no interest in the residential component of CityPoint. CUIP owned the remaining interests in the retail and office components and 100% of the residential component of the project. Accordingly, Fund II's investment represented 24.75% of the overall original acquisition cost and subsequent carry and pre-development costs and was accounted for using the equity method.

On June 30, 2010, Fund II acquired all of CUIP's interest in CityPoint for \$9.2 million (the "Transaction"), consisting of a current payment of \$2.0 million and deferred payments, potentially through 2020, aggregating \$7.2 million. Fund II also assumed CUIP's share of the first mortgage debt, \$19.6 million.

The Transaction was a business combination achieved in stages, and as a result, Fund II was required to report its entire investment in CityPoint at fair market value. A June 30, 2010 third-party appraisal valued CityPoint at \$108 million which resulted in Fund II recording a non-cash gain on bargain purchase of approximately \$33.8 million. The Operating Partnership's share of this gain, net of the noncontrolling interests' share, totaled \$6.3 million.

As a result of the Transaction, the Company changed its method of accounting for CityPoint from the equity method and now consolidates CityPoint in its consolidated financial statements. As CityPoint is currently in the redevelopment stage, there are no revenues or earnings from CityPoint included in the Company's Consolidated Statements of Income for the three and nine months ended September 30, 2010 and 2009.

#### Discontinued Operations

The Company reports properties held-for-sale and properties sold during the periods as discontinued operations. The results of operations and Statements of Operations of discontinued operations are reflected as a separate component within the accompanying Consolidated Financial Statements for all periods presented.

## Opportunity Funds

## RCP Venture

During January of 2004, the Company along with Klaff Realty, LP (“Klaff”) and Lubert-Adler Management, Inc., formed an investment group, the RCP Venture, for the purpose of making investments in surplus or underutilized properties owned by retailers. The RCP Venture is neither a single entity nor a specific investment. Any member of this group has the option of participating, or not, in any individual investment and each individual investment has been made on a stand-alone basis through a separate limited liability company (“LLC”). These investments have been made through different investment vehicles with different affiliated and unaffiliated investors and different economics to the Company. The Company has made these investments through its subsidiaries, Mervyns I, Mervyns II and Fund II, (together the “Acadia Investors”), all on a non-recourse basis. Through September 30, 2010, the Acadia Investors have made investments in Mervyns Department Stores (“Mervyns”) and Albertson’s including additional investments in locations that are separate from these original investments (“Add-On Investments”). Additionally, they have invested in Shopko, Marsh and Rex Stores Corporation (collectively “Other RCP Investments”).

The Acadia Investors have non-controlling interests in the individual investee LLC's as follows:

Mervyns	KLA/Mervyn's, L.L.C.	Mervyns I and Mervyns II	10.5%	5.8%

Marsh and Add-On investments	KLA Marsh, LLC	Fund II	20.0%	3.3%
Rex stores	KLAC Rex Venture, LLC	Mervyns II	13.3%	13.3%

The Company accounts for the original investments in Mervyns and Albertson's under the equity method of accounting as the Company has the ability to exercise significant influence, but does not have financial or operating control.

The Company accounts for the Add-On Investments and Other RCP Investments under the cost method. Due to its minor ownership interest based on the size of the investments as well as the terms of the underlying operating agreements, the Company has no influence over such entities operating and financial policies.

The following table summarizes activity related to the RCP Venture investments from inception through September 30, 2010:

Fund I owned a 50% interest in the Sterling Heights Shopping Center, which was accounted for under the equity method of accounting. During the three months ended September 30, 2009, Fund I recorded an impairment reserve of \$3.7 million related to this investment. On March 25, 2010, the Sterling Heights Shopping Center was sold for \$2.3 million. The proceeds from this sale together with the balance of Fund I's recourse obligation of \$0.6 million were used to fully liquidate the outstanding mortgage loan obligation.

### Fund II Investments

Fund II had a 24.75% interest in CityPoint, a redevelopment project located in downtown Brooklyn, NY, which was accounted for under the equity method. On June 30, 2010, Fund II acquired the remaining interests in the project from its unaffiliated partner, as discussed in Note 4 and, as a result, now consolidates the CityPoint investment.

### Fund III Investments

During June 2010, Fund III, together with an unaffiliated partner, invested in an entity for the purpose of providing management services to owners of self-storage properties, including the 14 locations currently owned through Fund II and Fund III. This entity was determined to be a variable interest entity for which the Company was determined not to be the primary beneficiary. As such, the Company accounts for this investment under the equity method.

8. MORTGAGE LOANS, continued

vi) Also during May of 2010, the Company borrowed an additional \$2.0 million on an existing mortgage loan collateralized by a property.

vii) During July 2010, the Company amended and extended a \$30.0 million loan, collateralized by a Fund II property located on 161st Street in the Bronx, NY. The agreement required a \$1.1 million payment on the outstanding principal balance and extended the maturity date to April 1, 2013. The interest rate has been adjusted retroactively to LIBOR plus 400 basis points for the period April 1, 2010 through March 31, 2011, LIBOR plus 550 basis points for the period April 1, 2011 through March 31, 2012, and LIBOR plus 600 basis points for the period April 1, 2012 through March 31, 2013.

viii) During July of 2010, the Company closed on a \$20.0 million bond financing that bears interest at a fixed rate of 7.25% that is due November 1, 2042 and has a mandatory put date of November 1, 2014.

The servicer on behalf of the lender has agreed to dismiss all allegations of default. The loan continues to bear interest at 7.38% and has a maturity date of January 1, 2020.

xi) During September of 2010, the Company amended and extended the maturity date of a \$10.5 million loan that was scheduled to mature during September 2010. The servicer contends that the Company did not substantially complete the improvements in accordance with the required completion date as defined in the loan agreement and, accordingly, did not meet the requirements for the final draw. Subsequent to September 30, 2010, the Company and the servicer on behalf of the lender have reached an agreement to amend the loan. ## 10. FAIR VALUE MEASUREMENTS

The FASB's fair value measurements and disclosure guidance requires the valuation of certain of the Company's financial assets and liabilities, based on a three-level fair value hierarchy. Market participant assumptions obtained from sources independent of the Company are observable inputs that are classified within Levels 1 and 2 of the hierarchy, and the Company's own assumptions about market participant assumptions are unobservable inputs classified within Level 3 of the hierarchy.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of September 30, 2010:

The Company has determined the estimated fair values of the following financial instruments by discounting future cash flows utilizing a discount rate equivalent to the rate at which similar financial instruments would be originated at the reporting date:

## 12. SEGMENT REPORTING

The Company has five reportable segments: Core Portfolio, Opportunity Funds, Self-Storage Portfolio, Notes Receivable and Other. “Notes Receivable” consists of the Company’s notes receivable and preferred equity investment and related interest income. “Other” consists primarily of management fees and interest income. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates property performance primarily based on net operating income before depreciation, amortization and certain nonrecurring items. Investments in the Core Portfolio are typically held long-term. Given the contemplated finite life of the Opportunity Funds, these investments are typically held for shorter terms. Fees earned by the Company as the general partner/member of the Opportunity Funds are eliminated in the Company’s consolidated financial statements. The following tables set forth certain segment information for the Company, reclassified for discontinued operations, as of and for the three and nine months ended September 30, 2010 and 2009 (does not include unconsolidated affiliates):

13. LONG-TERM INCENTIVE COMPENSATION

LONG-TERM INCENTIVE COMPENSATION

The Company maintains two share incentive plans, the 2003 Share Incentive Plan and the 2006 Share Incentive Plan (collectively the “Share Incentive Plans”).

On March 1, 2010 and March 10, 2010, the Company issued 265,517 LTIP Units and 1,462 Restricted Shares to officers of the Company and 15,011 Restricted Shares and 1,411 LTIP Units to employees of the Company. Vesting with respect to these awards is recognized ratably over the five annual anniversaries following the issuance date. Vesting on 23% of the awards issued to officers are also generally subject to achieving certain Company performance measures.

These awards were measured at their fair value as if they were vested on the grant date. Fair value was established as the market price of the Company’s Common Shares as of the close of trading on the day preceding the grant date.

The total value of the above Restricted Shares and LTIP Units as of the grant date was \$4.7 million. Compensation expense of \$0.2 million and \$0.7 million has been recognized in the accompanying financial statements related to these awards for the three month and nine months ended September 30, 2010, respectively.

Total long-term incentive compensation expense, including the expense related to the above-mentioned plans, was \$0.9 million and \$0.8 million for the three months ended September 30, 2010 and 2009, respectively and \$2.9 million for each nine month period ended September 30, 2010 and 2009.

On May 10, 2010, the Company issued 4,180 unrestricted Common Shares to Trustees of the Company in connection with Trustee fees. The Company also issued 8,000 Restricted Shares to Trustees, which vest over three years with 33% vesting on each of the three anniversaries following the issuance date. The Restricted Shares do not carry voting rights or other rights of Common Shares until vesting and may not be transferred, assigned or pledged until the recipients have a vested non-forfeitable right to such shares. Dividends are not paid currently on unvested Restricted Shares, but are paid cumulatively, from the issuance date through the applicable vesting date of such Restricted Shares vesting. Trustee fee expense of \$0.1 million has been recognized for the nine months ended September 30, 2010 related to these unrestricted Common Shares and Restricted Shares.

In 2009, the Company adopted the Long Term Investment Alignment Program (the “Program”) pursuant to which the Company may award units primarily to senior executives which would entitle them to receive up to 25% of any future Fund III Promote when and if such Promote is ultimately realized. As of September 30, 2010, the Company has awarded units representing 61% of the Program, which were determined to have no value at issuance or as of September 30, 2010. In accordance with ASC Topic 718, “Compensation - Stock Compensation,” compensation relating to these awards will be recorded based on the change in the estimated fair value at each reporting period.

14. SUBSEQUENT EVENTS

During October 2010, the Company paid down \$14.0 million on an outstanding line of credit secured by six Core Portfolio properties. The outstanding balance after the payment is \$1.0 million.

During October 2010, the Company closed on a \$50.0 million loan collateralized by the Cortlandt Town Center. The loan bears interest at LIBOR plus 190 basis points and matures on October 26, 2015. There is an additional \$25.0 million available on this loan which bears interest at LIBOR plus 230 basis points. The proceeds were used to repay the existing \$46.6 million mortgage note payable.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion is based on the consolidated financial statements of the Company as of September 30, 2010 and 2009 and for the three and nine months then ended. This information should be read in conjunction with the accompanying consolidated financial statements and notes thereto.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this report constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results performance or achievements expressed or implied by such forward-looking statements. Such factors are set forth under the heading "Item 1A. Risk Factors" in our Form 10-K for the year ended December 31, 2009 (our "2009 Form 10-K") and include, among others, the following: general economic and business conditions, including the current post-recessionary period, which will, among other things, affect demand for rental space, the availability and creditworthiness of prospective tenants, lease rents and the availability of financing; adverse changes in our real estate markets, including, among other things, competition with other companies; risks of real estate development, acquisition and investment; risks related to our use of leverage; demands placed on our resources due to the growth of our business; risks related to operating through a partnership structure; our limited control over joint venture investments; the risk of loss of key members of management; uninsured losses; REIT distribution requirements and ownership limitations; concentration of ownership by certain institutional investors; governmental actions and initiatives; and environmental/safety requirements. Except as required by law, we do not undertake any obligation to update or revise any forward-looking statements contained in this Form 10-Q.

OVERVIEW

As of September 30, 2010, we operated 78 properties, which we own or have an ownership interest in, within our Core Portfolio or within our three Opportunity Funds. These 78 properties consist of commercial properties, primarily neighborhood and community shopping centers, self-storage and mixed-use properties with a retail component. The properties we operate are located primarily in the Northeast, Mid-Atlantic and Midwestern regions of the United States. Our Core Portfolio consists of those properties either 100% owned, or partially owned through joint venture interests, by the Operating Partnership, or subsidiaries thereof, not including those properties owned through our Opportunity Funds. Excluding two properties under redevelopment, there are 32 properties in our Core Portfolio totaling approximately 4.8 million square feet. Fund I has 20 properties comprising approximately 0.9 million square feet. Fund II has 10 properties, seven of which (representing 1.2 million square feet) are currently operating, one is under construction, and two are in the design phase. Three of the properties also include self-storage facilities. We expect the Fund II portfolio will have approximately 2.0 million square feet upon completion of all current construction and anticipated redevelopment activities. Fund III has 14 properties totaling approximately 1.8 million square feet, of which 11 locations representing 0.9 million net rentable square feet are self-storage facilities. The majority of our operating income is derived from rental revenues from these 78 properties, including recoveries from tenants, offset by operating and overhead expenses. As our RCP Venture invests in operating companies, we consider these investments to be private-equity style, as opposed to real estate, investments. Since these are not generally traditional investments in operating rental real estate but investments in operating businesses, the Operating Partnership principally invests in these through a taxable REIT subsidiary ("TRS").

Our primary business objective is to acquire and manage commercial retail properties that will provide cash for distributions to shareholders while also creating the potential for capital appreciation to enhance investor returns. We focus on the following fundamentals to achieve this objective:

- Own and operate a Core Portfolio of community and neighborhood shopping centers and main street retail located in markets with strong demographics and generate internal growth within the Core Portfolio through aggressive redevelopment, re-anchoring and/or leasing activities
- Maintain a strong and flexible balance sheet through conservative financial practices while ensuring access to sufficient capital to fund future growth
- Generate external growth through an opportunistic yet disciplined acquisition program. We target transactions with high inherent opportunity for the creation of additional value through redevelopment and leasing and/or transactions requiring creative capital structuring to facilitate the transactions. These transactions may include other types of commercial real estate besides those which we invest in through our Core Portfolio. These may also include joint ventures with private equity investors for the purpose of making investments in operating retailers with significant embedded value in their real estate assets

#### CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. Management bases its estimates on historical experience and assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe there have been no material changes to the items that we disclosed as our critical accounting policies under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our 2009 Form 10-K.

Reference is made to Note 12 to the Notes to Consolidated Financial Statements in Part 1, Item 1 of this Form 10-Q for an overview of our five reportable segments.

The decrease in rental income in the Core Portfolio is primarily attributable to the write-off of a lease intangible liability in connection with a lease terminated during 2009 at 3rd Avenue. The increase in rental income in the Storage Portfolio relates to the full amortization of acquired lease intangible costs during 2009, increased occupancy in the Storage Portfolio as well as the Company’s discontinued practice of reporting the Storage Portfolio one month in arrears which was based on the historical unavailability of timely financial information. Based on improvements in the Storage Portfolio accounting systems, the Company reports this activity on a current basis. Accordingly, the three months ended September 30, 2010 reflects four months of storage activity while the three months ended September 30, 2009 reflects three months of storage activity (“Storage Portfolio Activity”).

Lease termination income of \$2.5 million in the Core Portfolio for 2009 related to termination fee income received from a former tenant at Absecon Marketplace.

The decrease in general and administrative expense in Other related to the elimination of this Promote expense for consolidated financial statement presentation purposes.

Interest expense in the Opportunity Funds increased \$1.4 million in 2010. This was the result of an increase of \$0.7 million due to higher average interest rates in 2010, \$0.3 million increase attributable to higher outstanding borrowings in 2010 and \$0.4 million of lower capitalized interest in 2010. Interest expense in the Storage Portfolio decreased \$0.7 million in 2010 as a result of lower average interest rates in 2010.

Reference is made to Note 12 to the Notes to Consolidated Financial Statements in Part 1, Item 1 of this Form 10-Q for an overview of our five reportable segments.

The decrease in rental income in the Core Portfolio was primarily attributable to tenant vacancies and the write-off of a lease intangible liability in connection with a lease terminated during 2009 at Third Avenue. The increase in property operating expenses in the Storage Portfolio primarily related to higher operating costs in 2010 following increased occupancy, additional tenant receivable reserves in 2010 and the Storage Portfolio Activity.

The increase in real estate taxes in the Opportunity Funds was primarily attributable to the 2009 Fund Acquisition as well as Fordham and Pelham. The increase in real estate taxes in the Storage Portfolio was attributable to the Storage Portfolio Activity.

The \$3.7 million impairment of investment in unconsolidated affiliate in 2009 related to a Fund I unconsolidated investment.

Total interest expense in the Core Portfolio decreased \$1.5 million in 2010. (Income) loss attributable to noncontrolling interests in subsidiaries – Continuing operations and Discontinued operations primarily represents the noncontrolling interests' share of all the Opportunity Funds variances discussed above.

## FUNDS FROM OPERATIONS

Consistent with the National Association of Real Estate Investment Trusts ("NAREIT") definition, we define funds from operations ("FFO") as net income attributable to common shareholders (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

We consider FFO to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing our performance. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (or losses) from sales of operating property and depreciation and amortization. However, our method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by GAAP and is not indicative of cash available to fund all cash needs, including distributions. FFO should not be considered as an alternative to net income for the purpose of evaluating our performance or to cash flows as a measure of liquidity.

The reconciliation of net income to FFO for the three and nine months ended September 30, 2010 and 2009 is as follows:

	Three months ended September 30,		Nine months ended September 30,	
(dollars in millions, except per share amounts)	2010	2009	2010	2009

## USES OF LIQUIDITY

Our principal uses of liquidity are (i) distributions to our shareholders and OP unit holders, (ii) investments which include the funding of our capital committed to the Opportunity Funds and property acquisitions and redevelopment/re-tenanting activities within our Core Portfolio, and (iii) debt service and loan repayments, including the repurchase of our Convertible Notes.

### Distributions

In order to qualify as a REIT for Federal income tax purposes, we must currently distribute at least 90% of our taxable income to our shareholders. For the three and nine months ended September 30, 2010, we paid dividends and distributions on our Common Shares and Common OP Units totaling \$7.4 million and \$22.2 million, respectively.

### Investments

#### Fund I and Mervyns I

During 2001, we formed a partnership, Fund I, and in 2004 formed a limited liability company, Mervyns I, with four institutional investors with \$90.0 million, in the aggregate, of committed discretionary capital. Fund I and Mervyns I have returned all invested capital and accumulated preferred return thus triggering our Promote in all future Fund I and Mervyns I earnings and distributions. As of September 30, 2010, \$86.6 million has been invested in Fund I and Mervyns I, of which the Operating Partnership contributed \$19.2 million.

As of September 30, 2010, Fund I currently owned, or had ownership interests in, 20 assets comprising approximately 0.9 million square feet as follows:

Shopping Center	Location	Year acquired	GLA
New York Region			
New York			
Tarrytown Shopping Center	Tarrytown	2004	35,291
Mid-Atlantic Region			
Ohio			
Granville Centre	Columbus	2002	134,997

Reference is made to Note 5 in the Notes to Consolidated Financial Statements in Part 1, Item 1 in this Form 10-Q for a discussion of RCP investments made by Mervyns I to date.

#### Fund II and Mervyns II

During 2004, we, along with the investors from Fund I as well as two additional institutional investors, formed Fund II, and Mervyns II with \$300.0 million, in the aggregate, of committed discretionary capital. To date, Fund II's primary

investment focus has been in the New York Urban/Infill Redevelopment Initiative and the Retailer Controlled Property Venture. As of September 30, 2010, \$249.6 million has been invested in Fund II, of which the Operating Partnership contributed \$49.9 million.

#### New York Urban Infill Redevelopment Initiative

In September 2004, we, through Fund II, launched our New York Urban Infill Redevelopment initiative. During 2004, Fund II, together with an unaffiliated partner, P/A Associates, LLC (“P/A”), formed Acadia P/A Holding Company, LLC (“Acadia P/A”) for the purpose of acquiring, constructing, developing, owning, operating, leasing and managing certain mixed-use real estate properties in the New York City metropolitan area which include a retail component. To date P/A has invested \$2.2 million and Fund II, the managing member, has agreed to invest the balance.

To date, Fund II has invested in nine New York Urban Infill Redevelopment construction projects, eight of which were made through Acadia P/A, as follows:

Property	Location	Year acquired	Costs to date	Redevelopment (dollars in millions)			Square feet upon completion
				Anticipated additional costs	Estimated construction completion		
Liberty Avenue (1)	Queens	2005	\$ 15.4	\$ —	Completed		125,000

#### Notes:

- (1) Acadia P/A acquired a ground lease interest at this property.
- (2) To be determined
- (3) Currently operating but redevelopment activities have commenced.
- (4) P/A is not a partner in this project.

On June 30, 2010, Fund II acquired all of CUIP's 75.25% interests in CityPoint for \$9.2 million, consisting of a current cash payment of \$2.0 million and deferred payments, potentially through 2020, aggregating \$7.2 million, as well as the assumption of CUIP's share of the first mortgage debt representing \$19.6 million. Reference is made to Note 4 in the Notes to Consolidated Financial Statements in Part 1, Item 1 in this Form 10-Q for a further discussion of this transaction.

#### Retailer Controlled Property Venture

Reference is made to Note 5 in the Notes to Consolidated Financial Statements in Part 1, Item 1 in this Form 10-Q for a discussion of RCP investments made by Fund II and Mervyns II to date.

#### Fund III

During 2007, we formed Fund III with 14 institutional investors, including all of the investors from Fund I and a majority of the investors from Fund II with \$502.5 million of committed discretionary capital. As of September 30, 2010, \$96.5 million has been invested in Fund III, of which the Operating Partnership contributed \$19.2 million.

#### New York Urban Infill Redevelopment Initiative

Fund III has invested in one New York Urban/Infill Redevelopment and one Urban/Infill Redevelopment in Westport, Connecticut as follows:

Other Fund III Investments

During February 2008, Acadia, through Fund III, and in conjunction with an unaffiliated partner, Storage Post, acquired a portfolio of eleven self-storage properties from Storage Post's institutional investors for approximately \$174.0 million. The properties are located throughout New York and New Jersey.

During January 2009, Fund III purchased Cortlandt Towne Center for \$78.0 million. The property is a 642,000 square foot shopping center located in Westchester County, NY, a trade area with high barriers to entry for regional and national retailers.

### Core Portfolio Property Redevelopment and Expansion

Our Core Portfolio redevelopment program focuses on selecting well-located neighborhood and community shopping centers and creating significant value through re-tenanting and property redevelopment. We currently have two properties in the early stages of redevelopment, LedgeWood Mall and Third Avenue.

### Share Repurchase

We have an existing share repurchase program that authorizes management, at its discretion, to repurchase up to \$20.0 million of our outstanding Common Shares. The program may be discontinued or extended at any time and there is no assurance that we will purchase the full amount authorized. Under this program we have repurchased 2.1 million Common Shares, none of which were repurchased after December 2001. As of September 30, 2010, management may cause the Company to repurchase up to approximately \$7.5 million of our outstanding Common Shares under this program.

### SOURCES OF LIQUIDITY

We intend on using Fund III, as well as new funds that we may establish in the future, as the primary vehicles for our future acquisitions, including investments in the RCP Venture and New York Urban/Infill Redevelopment Initiative. Additional sources of capital for funding property acquisitions, redevelopment, expansion, re-tenanting and RCP Venture investments, are expected to be obtained primarily from (i) the issuance of public equity or debt instruments, (ii) cash on hand and cash flow from operating activities, (iii) additional property debt financings, (iv) noncontrolling interests' unfunded capital commitments of \$325.2 million for Fund III, and (v) future sales of existing properties.

During 2010, Fund II received capital contributions of \$26.3 million to fund redevelopment projects and pay down the line of credit of Fund II.

As of September 30, 2010, we had approximately \$104.9 million of additional capacity under existing debt facilities and cash and cash equivalents on hand of \$110.7 million.

### Shelf Registration Statements and Issuance of Equity

During April 2009, we filed a shelf registration on Form S-3 providing for offerings of up to a total of \$500.0 million of Common Shares, Preferred Shares and debt securities. During April 2009, we issued 5.75 million Common Shares and generated net proceeds of approximately \$65.0 million. The proceeds were primarily used to purchase a portion of our outstanding convertible notes payable and pay down existing lines of credit. Following this issuance, we have remaining capacity under this registration statement to issue up to approximately \$430.0 million of these securities.

### Asset Sales

Asset sales are an additional source of liquidity for us. In March 2010, the Sterling Heights Shopping Center was sold for \$2.3 million. During November 2009, we sold Blackman Plaza for \$2.5 million. During February 2009, The Kroger Co. purchased the fee at six locations in Fund I's Kroger/Safeway Portfolio for \$14.6 million of which Fund I's share of the sales proceeds amounted to \$8.1 million after the repayment of the mortgage debt on these properties.

### Notes Receivable and Preferred Equity Investment

Reference is made to Note 6 to the Notes to Consolidated Financial Statements in Part 1, Item 1 in this Form 10-Q for an overview of our notes receivable and preferred equity investment. During 2010, the following payments were

received on these investments:

During April 2010, we received a \$2.1 million first mortgage loan payment.

During September 2010, one of our Georgetown, Washington D.C. mezzanine investments, which was secured by a portfolio of 18 properties, was fully liquidated. We received \$40.0 million of principal along with \$9.4 million of accrued interest.

## Financing and Debt

At September 30, 2010, mortgage and convertible notes payable aggregated \$832.2 million, net of unamortized premium of \$0.1 million and unamortized discount of \$1.3 million, and were collateralized by 29 properties and related tenant leases. Interest rates on our outstanding mortgage indebtedness and convertible notes payable ranged from 0.74% to 7.38% with maturities that ranged from October 2010 to November 2032. Taking into consideration \$77.3 million of notional principal under variable to fixed-rate swap agreements currently in effect, \$452.8 million of the portfolio, or 54.4%, was fixed at a 5.66% weighted average interest rate and \$379.4 million, or 45.6% was floating at a 3.44% weighted average interest rate. There is \$25.5 million of debt maturing in 2010 at weighted average interest rates of 1.66%. Of this amount, \$0.7 million represents scheduled annual amortization. The loans relating to \$24.8 million of the 2010 maturities provide for extension options, which we believe we will be able to exercise. If we are unable to extend these loans, we believe we will be able to repay this debt with existing liquidity. As it relates to maturities after 2010, we may not have sufficient cash on hand to repay such indebtedness, we may have to refinance this indebtedness or select other alternatives based on market conditions at that time.

Reference is made to Note 8 in the Notes to Consolidated Financial Statements in Part 1, Item 1 in this Form 10-Q for an overview of transactions related to mortgage loans, bond financing and credit facilities during the nine months ended September 30, 2010.

The following table sets forth certain information pertaining to our secured credit facilities:

## Notes:

(1) During October 2010, we paid down \$14.0 million on an outstanding line of credit secured by six Core Portfolio properties. The outstanding balance after the payment is \$1.0 million.

(2) During March of 2010, this facility's maturity date was extended from March 1, 2010 to March 1, 2011 and the interest rate was adjusted from LIBOR plus 250 basis points to LIBOR plus 325 basis points. In connection with the extension, we made an \$8.2 million payment on the outstanding \$48.2 million line of credit.

## CONTRACTUAL OBLIGATIONS AND OTHER COMMITMENTS

At September 30, 2010, maturities on our mortgage notes ranged from October 2010 to November 2032. In addition, we have non-cancelable ground leases at six of our shopping centers. We also lease space for our corporate headquarters for a term expiring in 2015. The following table summarizes our debt maturities and obligations under non-cancelable operating leases as of September 30, 2010:

Contractual obligation	Total	Payments due by period			
		Less than 1 year	1 to 3 years	3 to 5 years	More than 5 years

<b>Total</b>	<b>\$1,104.4</b>	<b>\$185.2</b>	<b>\$499.4</b>	<b>\$98.7</b>	<b>\$321.1</b>

Notes:

(1) In conjunction with the redevelopment of our Core Portfolio and Opportunity Fund properties, we have entered into construction commitments with general contractors. We intend to fund these requirements with existing liquidity.

## OFF BALANCE SHEET ARRANGEMENTS

We have investments in the following joint ventures for the purpose of investing in operating properties. We account for these investments using the equity method of accounting as we have a noncontrolling interest. As such, our financial statements reflect our share of income and loss from but not the assets and liabilities of these joint ventures.

Reference is made to Note 5 in the Notes to Consolidated Financial Statements in Part 1, Item 1 in this Form 10-Q for a discussion of our unconsolidated investments. Our pro-rata share of unconsolidated debt related to these investments is as follows:

Investment	Pro-rata share of mortgage debt Operating Partnership	Interest rate at September 30, 2010		Maturity Date
Crossroads	\$ 30.2	5.37	%	December 2014
Brandywine	36.9	5.99	%	July 2016
<b>Total</b>	<b>\$ 67.1</b>			

In addition, we have arranged for the provision of three separate letters of credit in connection with certain leases and investments. As of September 30, 2010, there were no outstanding balances under any of the letters of credit. If the letters of credit were fully drawn, the combined maximum amount of our exposure would be \$9.1 million.

## HISTORICAL CASH FLOW

The following table compares the historical cash flow for the nine months ended September 30, 2010 (“2010”) with the cash flow for the nine months ended September 30, 2009 (“2009”)

(dollars in millions)	Nine months ended September 30,		
	2010	2009	Change
Net cash provided by operating activities	\$22.6	\$39.1	\$(16.5 )
Net cash used in investing activities	(23.1 )	(110.4 )	87.3
Net cash provided by financing activities	17.4	102.4	(85.0 )
Total	\$16.9	\$31.1	\$(14.2 )

A discussion of the significant changes in cash flow for 2010 versus 2009 is as follows:

The \$16.5 million decrease in net cash provided by operating activities was primarily attributable to cash used during 2010 to fund an escrow account with the proceeds from the CityPoint bond financing and less cash provided from redemptions of auction rate securities during 2010 as all remaining auction rate securities were fully redeemed in 2009. These decreases were partially offset by an increase in 2010 accounts payable and accrued expenses.

The decrease of \$87.3 million in net cash used in investing activities resulted primarily from a \$61.6 million reduction in expenditures for real estate, development and tenant installations in 2010 and an additional \$33.2 million in collections of notes receivable during 2010. These decreases in 2010 cash used were partially offset by \$9.5 million of proceeds from property sales received during 2009.

The \$85.0 million decrease in net cash provided by financing activities was attributable to \$196.2 million of additional cash provided by borrowings during 2009 and proceeds from the 2009 stock offering of \$65.2 million, net of costs. These 2010 cash decreases were offset by the following: (i) \$116.7 million of additional cash used for the repayments of mortgage notes during 2009, (ii) \$46.7 million of cash used for the purchase of convertible notes during 2009, and (iii) \$13.9 million of additional contributions from noncontrolling interests during 2010.

## INFLATION

Our long-term leases contain provisions designed to mitigate the adverse impact of inflation on our net income. Such provisions include clauses enabling us to receive percentage rents based on tenants’ gross sales, which generally increase as prices rise, and/or, in certain cases, escalation clauses, which generally increase rental rates during the terms of the leases. Such escalation clauses are often related to increases in the consumer price index or similar inflation indexes. In addition, many of our leases are for terms of less than ten years, which permits us to seek to increase rents upon re-rental at market rates if current rents are below the then existing market rates. Most of our leases require the tenants to pay their share of operating expenses, including common area maintenance, real estate taxes, insurance and utilities, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation.

## Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our primary market risk exposure is to changes in interest rates related to our mortgage debt. See the discussion under Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations for certain quantitative details related to our mortgage debt.

Currently, we manage our exposure to fluctuations in interest rates primarily through the use of fixed-rate debt and interest rate swap agreements. As of September 30, 2010, we had total mortgage debt and convertible notes payable of \$832.2 million, net of unamortized premium of \$0.1 million and unamortized discount of \$1.3 million, of which \$452.8 million or 54.4% was fixed-rate, inclusive of interest rate swaps, and \$379.4 million, or 45.6% was variable-rate based upon LIBOR or commercial paper rates plus certain spreads. As of September 30, 2010, we were a party to seven interest rate swap transactions and one interest rate cap to hedge our exposure to changes in interest rates with respect to \$77.3 million of LIBOR-based variable-rate debt.

Of our total consolidated outstanding debt, \$25.5 million and \$400.6 million will become due in 2010 and 2011, respectively. As we intend on refinancing some or all of such debt at the then-existing market interest rates, which may be greater than the current interest rate, our interest expense would increase by approximately \$4.3 million annually if the interest rate on the refinanced debt increased by 100 basis points. After giving effect to noncontrolling interests, the Company's share of this increase would be \$1.5 million.

Interest expense on our consolidated variable-rate debt, net of variable to fixed-rate swap agreements currently in effect, as of September 30, 2010 would increase by \$3.8 million annually if LIBOR increased by 100 basis points. After giving effect to noncontrolling interests, the Company's share of this increase would be \$0.6 million. We may seek additional variable-rate financing if and when pricing and other commercial and financial terms warrant. As such, we would consider hedging against the interest rate risk related to such additional variable-rate debt through interest rate swaps and protection agreements, or other means.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures. In accordance with paragraph (b) of Rule 13a-15 promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective.

(b) Internal Control over Financial Reporting. There has not been any change in the Company's internal control over financial reporting during the fiscal quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information
