Part I

Item 1. Business.

Aristocrat Group Corp. is a development stage company and was incorporated in Florida on July 20, 2011 to open Prenatal-Postpartum Supercare Centers in target areas across the United States. The Prenatal-Postpartum Supercare Centers will provide women who are planning to start a family, are pregnant or have recently had a baby, with a one-stop destination offering pregnancy, childbirth and parenting educational classes, nutritional counseling health and fitness classes and training and spa services, internet shopping for women's and infant's products related to pregnancy through the first year of the infant's life. We have no operations and in accordance with SFAS #7 is considered to be in the development stage.

In September 2012, the Board of Directors believed that to continue to protect and increase shareholder value, it would be to the advantage, welfare and best interests of the shareholders for the Company to consider alternative corporate strategies to generate new business revenue for the Company. Thus, the Board of Directors approved adding a second business to the Company's business plan: Aristocrat Brands, a focused brand management company. The Aristocrat Brands and Supercare Centers business lines will be operated under two separate divisions of Aristocrat Group Corp. Although the Supercare Centers will continue to be a business line, the primary focus from this point forward will be on Aristocrat Brands.

The new business line's goal will be to identify and promote unique brands that have a mass market appeal across a diverse demographic. Some of the biggest brand management companies are multi-nationals with billion dollar market caps, such as: Limited Brands, which owns Victoria's Secret, LVMH which owns Moet Chandon, Hennessy and Louis Vuitton. The approach by Aristocrat Brands will be to select product opportunities that have the largest audience and broad market appeal.

Aristocrat Brands will initially concentrate on the distilled spirits industries, with a focus on the Vodka segment. As a core direction, beverage alcohol marketing can be used as a platform to promote other business segments of the Company, such as event promotion. Vodka accounts for almost one quarter of all distilled spirits sales and continues to grow. Selecting the distilled spirits sector enables Aristocrat to enter into a large diverse market with broad appeal and several similar supporting categories, such as the spirit industry and the music industry. These two sectors are easily linkable and present many original opportunities for partnership, sponsorship and brand awareness activities.

FORWARD LOOKING STATEMENTS

Caution Regarding Forward-Looking Information

All statements contained in this Form 10-K, other than statements of historical facts, that address future activities, events or developments are forward-looking statements, including, but not limited to, statements containing the words “believe,” “expect,” “anticipate,” “intends,” “estimate,” “forecast,” “project,” and similar expressions . All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new acquisitions, products, services, developments or industry rankings; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing. These statements are based on certain assumptions and analyses made by us in light of our experience and our assessment of historical trends, current conditions and expected future developments as well as other factors we believe are appropriate under the circumstances. However, whether actual results will conform to the expectations and predictions of management is subject to a number of risks and uncertainties that may cause actual results to differ materially.

Consequently, all of the forward-looking statements made in this Form 10-K are qualified by these cautionary statements and there can be no assurance that the actual results anticipated by management will be realized or, even if substantially realized, that they will have the expected consequences to or effects on our business operations. Readers are cautioned not to place undue reliance on such forward-looking statements as they speak only of the Company’s views as of the date the statement was made. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The following discussion and analysis should be read in connection with the Company’s consolidated financial statements and related notes thereto, as included in this report.

The following is management’s discussion and analysis of certain significant factors that have affected our financial position and operating results during the periods included in the accompanying consolidated financial statements, as well as information relating to the plans of our current management.

Going Concern

We incurred a net loss of \$51,275 for the year ended July 31, 2012. Net cash used by operations for the year ended July 31, 2012 was approximately \$48,822. We do not anticipate having positive net income in the immediate future. These conditions create an uncertainty as to our ability to continue as a going concern.

We will need to obtain loans or other financing in order to fund operating shortfalls and do not foresee a change in this situation in the immediate future. There can be no assurance that we will be able to obtain these loans or that they will be available to us on terms that are acceptable to the Company. We will not be able to continue operations without them. We are pursuing alternate sources of financing, but there is no assurance that additional capital will be available to the Company when needed or on acceptable terms.

Results of Operations for the year ended July 31, 2012 compared to the period from inception (July 20, 2011) through July 31, 2011

General and administrative expenses

We recognized general and administrative expenses in the amount of \$51,275 and \$100 for the year ended July 31, 2012 and for the period from inception (July 20, 2011) through July 31, 2011, respectively. The increase in general and administrative expenses was the result of the increased operations of the Company as a result of beginning to implement our business plan.

Liquidity and Capital Resources

Net cash used by operating activities was \$48,822 for the year ended July 31, 2012.

The Company anticipates it will require around \$500,000 to sustain operations and implement its business plan over the next twelve months. The Company intends to seek to raise these funds through equity and debt financing; however, there is no guarantee that funds will be raised and the Company has no agreements in place as of the date of this filing for any financing.

We do not have any material commitments for capital expenditures. However, should we execute our business plan as anticipated, we would incur substantial capital expenditures and require financings in addition to what is required to fund our present operations.

Additional Financing

Additional financing is required to continue operations. Although actively searching for available capital, the Company does not have any current arrangements for additional outside sources of financing and cannot provide any assurance that such financing will be available.

Off Balance Sheet Arrangements

None.

Critical Accounting Policies and Recent Accounting Pronouncements

We have identified the policies below as critical to our business operations and the understanding of our financial statements. A complete discussion of our accounting policies is included in Notes 2 and 3 of the Notes to Financial Statements.

USE OF ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

GOING CONCERN - The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. For the period ended July 31, 2011, the Company had a net loss of \$51,275. As of July 31, 2011, the Company had not emerged from the development stage. In view of these matters, the Company's ability to continue as a going concern is dependent upon its ability to achieve a level of profitability. The Company intends on financing its future development activities and its working capital needs largely from the sale of public equity securities with some additional funding from other traditional financing sources, including term notes until such time that funds provided by operations are sufficient to fund working capital requirements. The financial statements of the

Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

As a smaller reporting company, we are not required to provide the information required by this Item.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and

Stockholders of Aristocrat Group Corp.:

I have audited the balance sheets of Aristocrat Group Corp. as of July 31, 2012 and 2011 and the related statement of operations, changes in stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that I plan and perform the audits to obtain reasonable assurance about whether the financial statements were free of material misstatement. The Company was not required to have, nor was I engaged to perform, an audit of its internal control over financial reporting. My audit included consideration of internal control over financial reporting as a basis for designing audit procedures that were appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, I express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provide a reasonable basis for my opinion.

In my opinion, the financial statements, referred to above, present fairly, in all material respects, the financial position of Aristocrat Group Corp. as of July 31, 2012 and 2011, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company has not generated significant revenues from operations and is requiring traditional financing or equity funding to commence its operating plan. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Further information and management's plans in regard to this uncertainty were also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The development of our business has been limited to organizational matters, the preparation of our business plan, and the preparation of the financial statements and other information presented in this Prospectus. Furthermore, if we successfully establish operations, there is no guarantee that there will be a significant market for our services or that we will achieve significant revenues, if any.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. For the year ended July 31, 2012, the Company had a net loss of \$51,275 and had net cash used in operating activities of \$48,822. As of July 31, 2012, the Company had not emerged from the development stage. In view of these matters, the Company's ability to continue as a going concern is dependent upon its ability to achieve a level of profitability. The Company intends on financing its future development activities and its working capital needs largely from the sale of public equity securities with some additional funding from other traditional financing sources, including term notes until such time that funds provided by operations are sufficient to fund working capital requirements. The financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

Accounting Basis

The Company is currently a development stage enterprise reporting under the provisions of Accounting Standards Codification (“ASC”) 915 “Development Stage Entities”, which was previously Statement of Financial Accounting Standards (“SFAS”) No. 7.

Cash and Cash Equivalents

For the purpose of the financial statements cash equivalents include all highly liquid investments with maturity of three months or less.

Earnings (Loss) per Share

The basic earnings (loss) per share are calculated by dividing the Company’s net income available to common shareholders by the weighted average number of common shares outstanding during the year. The diluted earnings (loss) per share are calculated by dividing the Company’s net income (loss) available to common Shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted as of the first of the year for any potentially dilutive debt or equity. There are no diluted shares outstanding for any periods reported.

On May 1, 2012, the Company effected a five-for-one forward stock split. All share and per share amounts have been retroactively restated to reflect the forward split.

Dividends

The Company has not adopted any policy regarding payment of dividends. No dividends have been paid during the periods shown, and none are contemplated in the near future.

Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes resulting from temporary differences. Such temporary differences result from differences in the carrying value of assets and liabilities for tax and financial reporting purposes. The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company adopted the provisions of FASB ASC 740-10 "Uncertainty in Income Taxes" (ASC 740-10), on January 1, 2007. The Company has not recognized a liability as a result of the implementation of ASC 740-10. A reconciliation of the beginning and ending amount of unrecognized tax benefits has not been provided since there is no unrecognized benefit since the date of adoption. The Company has not recognized interest expense or penalties as a result of the implementation of ASC 740-10. If there were an unrecognized tax benefit, the Company would recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses.

Financial Instruments

In September 2006, the Financial Accounting Standards Board (FASB) introduced a framework for measuring fair value and expanded required disclosure about fair value measurements of assets and liabilities. The Company adopted the standard for those financial assets and liabilities as of the beginning of the 2008 fiscal year and the impact of adoption was not significant. FASB Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" (ASC 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or

corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of July 31, 2011. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include accounts receivable, other current assets, accounts payable, accrued compensation and accrued expenses. The fair value of the Company's notes payable is estimated based on current rates that would be available for debt of similar terms which is not significantly different from its stated value.

On January 1, 2009, the Company applied ASC 820 for all non-financial assets and liabilities measured at fair value on a non-recurring basis. The adoption of ASC 820 for non-financial assets and liabilities did not have a significant impact on the Company's financial statements.

Advertising

The Company will expense advertising as incurred. The advertising since inception has been \$0.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue and Cost Recognition

The Company has no current source of revenue; therefore the Company has not yet adopted any policy regarding the recognition of revenue or cost.

Property

The company does not own any real estate or other properties. The company's office is located 495 Grand Blvd., Suite 206, Miramar Beach, FL 32550. Our contact number is 850-269-7208. We rent our office space on a month-to-month basis.

Recently Issued Accounting Pronouncements

The Company has adopted all recently issued accounting pronouncements. The adoption of the accounting pronouncements, including those not yet effective, is not anticipated to have a material effect on the financial position or results of operations of the Company.

NOTE 3. EQUITY TRANSACTIONS

On July 20, 2011, 45,000,000 shares of common stock were issued to the founder for \$0.0002 per share for total proceeds in the amount of \$9,000.

On December 6, 2011 the Company received \$34,500 in exchange for 17,250,000 shares of common stock, at a share price of \$0.002.

On May 1, 2012, Sarasota, FL - Aristocrat Group Corp. (OTBBB: ASCC) announced that the company has declared a 5 for 1 forward stock split of its issued and outstanding common stock. The forward stock split will be distributed to all shareholders of record on May 1, 2012. The effective time of the forward stock split was the close of business on May 1, 2012 and the payment date was on May 1, 2012. All shareholders of record on the record date will receive 5 shares of common stock for every one share of common stock then owned. No cash was paid or distributed as a result of the forward stock split and no fractional shares were issued. All fractional shares which would otherwise be required to be issued as a result of the stock split was be rounded up to the nearest whole share. In addition, there was no mandatory exchange of stock certificates. Aristocrat's transfer agent, Island Stock Transfer, distributed the certificates representing the new shares on the pay date. All share and per share amounts have been retroactively restated for the forward split.

NOTE 4. INCOME TAXES

There are no current or deferred income tax expense or benefit for the year ended July 31, 2012.

The provision for income taxes is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes.

| | Year ended July 31, 2012 | |
|------------------------------------|-------------------------------------|----------|
| Tax benefit at U.S. statutory rate | \$ | 17,400 |
| Valuation allowance | | (17,400) |
| | \$ | — |

The Company did not have any temporary differences for the period from July 20, 2011 (Date of Inception) through July 31, 2011.

The Company has not recognized an income tax benefit for the period based on uncertainties concerning its ability to generate taxable income in future periods. The tax benefit for the current period presented is offset by a valuation allowance (100%) established against deferred tax assets arising from operating losses and other temporary differences, the realization of which could not be considered more likely than not. In future periods, tax benefits and related deferred tax assets will be recognized when management considers realization of such amounts to be more likely than not.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were not effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Limitations on Systems of Controls

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. To address the material weaknesses identified in our evaluation, we performed additional analysis and other post-closing procedures in an effort to ensure our consolidated financial statements included in this annual report have been prepared in accordance with generally accepted accounting principles. Accordingly, management believes that the financial statements included in this report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Management is required to base its assessment of the effectiveness of our internal control over financial reporting on a suitable, recognized control framework, such as the framework developed by the Committee of Sponsoring Organizations (COSO). The COSO framework, published in *Internal Control-Integrated Framework*, is known as the COSO Report. Our principal executive officer and our principal financial officer, have has chosen the COSO framework on which to base its assessment. Based on this evaluation, our management concluded that our internal control over financial reporting was effective as of July 31, 2012.

This annual report on Form 10-K does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report on Form 10-K. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. We have identified the following material weaknesses:

1. As of July 31, 2012, we did not maintain effective controls over the control environment. Specifically we have not developed and effectively communicated to our employees its accounting policies and procedures. This has resulted in inconsistent practices. Further, the Board of Directors does not currently have any independent members and no director qualifies as an audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K. Since these entity level programs have a pervasive effect across the organization, management has determined that these circumstances constitute a material weakness.
2. As of July 31, 2012, we did not maintain effective controls over financial statement disclosure. Specifically, controls were not designed and in place to ensure that all disclosures required were originally addressed in our financial statements. Accordingly, management has determined that this control deficiency constitutes a material weakness.

Because of these material weaknesses, management has concluded that the Company did not maintain effective internal control over financial reporting as of July 31, 2012, based on the criteria established in “Internal Control-Integrated Framework” issued by the COSO.

Changes In Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the three months ended July 31, 2012, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The following table sets forth certain information as of October 31, 2012, with respect to the beneficial ownership of shares of the Company's common stock by (i) each person known to us who owns beneficially more than 5% of the outstanding shares of the Company's common stock, (ii) each of our Directors, (iii) each of our Executive Officers, and (iv) all of our Executive Officers and Directors as a group. Unless otherwise indicated, each stockholder has sole voting and investment power with respect to the shares shown. As of October 31, 2012, there were 62,250,000 shares of the Company's common stock issued and outstanding.

| Name and address of beneficial owner | Relationship to Registrant | Number of Shares of Common Stock | Percentage of Common Stock (1) |
|--|----------------------------|----------------------------------|-----------------------------------|
| | Shareholder | 45,000,000 | 72% |
| Cindy Morrissey | Sole Director and CEO | -nil- | 0.0% |
| All Officers and Directors as a group (total of 1) | | -nil- | 0.0 % |

(1) Under Rule 13d-3 promulgated under the Exchange Act, a beneficial owner of a security includes any person who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares: (i) voting power, which includes the power to vote, or to direct the voting of shares; and (ii) investment power, which includes the power to dispose or direct the disposition of shares. Certain shares may be deemed to be beneficially owned by more than one person (if, for example, persons share the power to vote or the power to dispose of the shares). In addition, shares are deemed to be beneficially owned by a person if the person has the right to acquire the shares (for example, upon exercise of an option) within 60 days of the date as of which the information is provided. In computing the percentage ownership of any person, the amount of shares is deemed to include the amount of shares beneficially owned by such person (and only such person) by reason of these acquisition rights. As a result, the percentage of outstanding shares of any person as shown in this table does not necessarily reflect the person's actual ownership or voting power with respect to the number of shares of common stock actually outstanding on October 31, 2012.

Item 13. Certain Relationships and Related Transactions, and Director Independence.
