SECTION 1 – REGISTRANT’S BUSINESS AND OPERATIONS

Item 1.01 Entry into a Material Definitive Agreement

On May 7, 2018, XsunX, Inc. (the "Company") issued a 10% unsecured convertible promissory note (the "Note") and entered into a Securities Purchase Agreement (the "Purchase Agreement") with an accredited investor (the "Lender") for the principal amount of \$25,000 (the "Note") which transactions consummated and closed upon the advanced of the principal amount on May 9, 2018. The Note matures on February 15, 2019. The Company has the right to redeem a portion or all amounts outstanding under the Note prior to one hundred and eighty-one days from issuance of the Note under a variable redemption rate premium. After one hundred and eighty days the holder may convert into shares of common stock at a conversion price to be 65% of the average of the two lowest dollar volume weighted average price ("VWAP") occurring during the fifteen trading days preceding any conversion date by Holder. Upon closing of the transaction, the Company agreed to allow the Investor to retain \$3,000 of the advanced sum for Lenders legal and due diligence expenses.

The Lender agreed that so long as the Note remains outstanding, the Lender, and the Lenders affiliates, will not enter into or effect "short sales" transactions of the common stock which would established a short position with respect to the common shares of the Company.

The foregoing is qualified in its entirety by the form of Note attached as Exhibit 10.1, and the Securities Purchase Agreement attached as Exhibit 10.2, which are incorporated herein by reference.

The securities above were offered and sold pursuant to an exemption from the registration requirements under Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act") and Rule 506 of Regulation D promulgated thereunder since, among other things, the transactions did not involve a public offering and the securities were acquired for investment purposes only and not with a view to or for sale in connection with any distribution thereof.
