(A Company in the Exploration Stage)
Notes to the Financial Statements

NOTE 1 - Summary of Significant Accounting Policies

a. Organization

Intercontinental Resources, Inc, formerly known as Anglotajik Minerals, Inc., (the "Company") was incorporated in the State of Nevada in August 1997, under the name Meximed Industries, Inc. In January 1999 the Company changed its name to Digital Video Display Technology Corporation and in July 2001 to Iconet, Inc. With new management in the middle of 2003 the Company again changed its name to Anglotajik Minerals, Inc. The Company was considered to be in the exploration stage as its operations principally involve research and exploration, market analysis, and other business planning activities, and no revenue has been generated from its business activities. The Company has suspended proposed activities in mineral exploration in the Republic of Tajikistan, thus the Company again changed its name to Intercontinental Resources, Inc in May of 2006.

These financial statements have been prepared assuming that the Company will continue as a going concern. The Company is currently in the development stage and existing cash and available credit are insufficient to fund the Company's cash flow needs for the next year. The Company plans to raise additional capital through private placements. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

b. Cash and cash equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. As of September 30, 2006 the Company held \$25 in cash equivalents.

c. Fair Value of Financial Instruments

Unless otherwise indicated, the fair values of all reported assets and liabilities which represent financial instruments (none of which are held for trading purposes) approximate the carrying values of such amounts.

d. Provision for Income taxes (unaudited)

No provision for income taxes has been recorded due to net operating loss carryforwards totaling over \$5.2 million that will be offset against future taxable income. These NOL carryforwards begin to expire in the year 2017. No tax benefit has been reported in the financial statements because the Company believes there is a 50% or greater chance the carryforward will expire unused.

e. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. In these financial statements, assets, liabilities and earnings involve extensive reliance on management's estimates. Actual results could differ from those estimates.

f. Earning (loss) per share (unaudited)

Net loss per share is provided in accordance with Statement of Financial Accounting Standards (SFAS) No. 128 Earnings Per Share. Basic loss per share for each period is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted loss per share is computed in a manner consistent with that of basic loss per share while giving effect to all potentially dilutive common shares that were outstanding during the period. The number of additional shares is calculated by assuming that outstanding stock options were exercised and that the proceeds from such exercises were used to acquire shares of common stock at the average market price during the reporting period. The weighted averages for the years ended December 31, 2003, and 2002, and from inception reflect the reverse stock split of 1:200 that was approved by the board of directors in July 2001, the 1:143 reverse stock split effective July 16, 2003 and the 2:1 forward split on September 15, 2003.

The computation of earnings (loss) per share of common stock is based on the weighted average number of shares outstanding at the date of the financial statements. Outstanding employee warrants have been considered in the fully diluted earnings per share calculation in 2006 and 2005.

NOTE 2 - New Technical Pronouncements

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections. This Statement replaces APB No. 20, Accounting Changes and FASB No. 3, Reporting Accounting Changes in Interim Financial Statements, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement applies it all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed. This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. The adoption of SFAS No. 154 did not have an impact on the Company's consolidated financial statements.

In February 2006, the FASB issued SFAS No. 155, ACCOUNTING FOR CERTAIN HYBRID FINANCIAL INSTRUMENTS - AN AMENDMENT OF FASB STATEMENTS NO. 133 AND 140. This Statement amends FASB Statements No. 133, accounting for Derivative Instruments and Hedging Activities, and No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This statement resolves issues addressed in Statement 133 Implementation Issued No. D1, "Application of Statement 133 to Beneficial Interests in Securitized Financial Assets." The adoption of SFAS No. 155 did not have an impact on the Company's consolidated financial statements.

In March 2006, the FASB issued SFAS No. 156, ACCOUNTING FOR SERVICING OF FINANCIAL ASSETS - AN AMEDNMENT OF FASB STATEMENT No. 140. This Statement amends FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, with respect to the accounting for separately recognized servicing assets and servicing liabilities. The adoption of SFAS No. 156 did not have an impact on the Company's consolidated financial statements.

-9-

In September 2006, the FASB issued SFAS No. 157, FAIR VALUE MEASUREMENTS. This statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The adoption of SFAS 157 did not have an impact on the Company's consolidated financial statements. The Company presently comments on significant accounting policies (including fair value of financial instruments) in Note 2 to the financial statements.

In September 2006, the FASB issued SFAS No. 158, EMPLOYER'S ACCOUNTING FOR DEFINED BENEFIT PENSION AND OTHER POSTRETIREMENT PLANS - AN AMENDMENT OF FASB STATEMENTS NO. 87,88, 106 AND 132(R). This statement improves financial reporting by requiring an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other that a multiemployer plan) as an asset or liability in its statement of financial position and to

Edgar Filing: INTERCONTINENTAL RESOURCES, INC - Form 10QSB

recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity or changes in unrestricted net assets of a not-for-profit organization. The adoption of SFAS No. 158 did not have an impact on the Company's consolidated financial statements.

NOTE 3 - Stock Options

The Company has stock option plans that provide for stock-based employee compensation, including the granting of stock options, to certain key employees. Prior to January 1, 2006, the Company applied APB Opinion No. 25, "Accounting for Stock Issued to Employees", and related Interpretations in accounting for awards made under the Company's stock-based compensation plans. Under this method, compensation expense was recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price.

During the periods presented in the accompanying financial statements, the Company has granted options under its 2001 Equity Incentive Plan. The Company has adopted the provisions of SFAS No. 123R using the modified-prospective transition method and the disclosures that follow are based on applying SFAS No. 123R. Under this transition method, compensation expense recognized during the nine months ended September 30, 2005 included: (a) compensation expense for all share based awards granted prior to, but not yet vested as of January 1, 2006, and (b) compensation expense for all share-based awards granted on or after January 1, 2006. Accordingly, compensation cost of \$119,879 has been recognized for grants of options to employees and directors in the accompanying statements of operations with a associated recognized tax benefit of \$0 of which \$0 was capitalized as an asset for the period ended September 30, NOTE 3 - Stock Options (Continues)

2006. In accordance with the modified-prospective transition method, the Company's financial statements for the prior year have not been restated to reflect, and do not include, the impact of SFAS 123R. Had compensation cost for the Company's stock option plans and agreements been determined based on the fair value at the grant date for awards in 2005 consistent with the provisions of SFAS No. 123R, the Company's net loss and basic net loss per common share would have been increased to the pro forma amounts indicated below:

Item 2 - Management's Discussion and Analysis or Plan of Operation (Restated)

NOTE: The following discussion and analysis should be read in conjunction with the Company's Interim Financial Statements (unaudited) and the Notes to the Financial Statements for the nine month period ended September 30, 2006.

Plan of Operation

We have suspended our proposed activities in mineral exploration in the Republic of Tajikistan because of our inability to secure funding, and are currently exploring other business opportunities. Our ability to resume mineral exploration, or to acquire or start another business, will likely depend upon our success in raising capital through stock sales or some other means, of which we cannot be certain."

We are in the exploration stage and have no revenues from operations, nor do we expect revenues for the foreseeable future. To date, we have funded our various business activities through advances from officers and stockholders and through the issuance of equity stock. Our officers are under no obligation to continue to provide advances to the us.

We have no cash or cash equivalent resources, no lines of credit, nor any other source of funds. We are negotiating with various commercial funding sources to raise required capital but at this stage we have not yet received any

Edgar Filing: INTERCONTINENTAL RESOURCES, INC - Form 10QSB

commitments from any source for any amount of funding.

If we sell equity stock to raise capital, our current stockholders will experience substantial dilution of their shareholdings.

Uncertainty as to Certain Accounts Payable

After much review of our corporate files, books and records, we were unable to locate invoices or documents to substantiate the Accounts Payables and Related Parties from previous management carried on our books. We have concluded during a regulatory review ending June 30, 2006 that the Accounts Payable and Related Parties were stated in error and should be written off against Retained Earnings.

September 30, 2006 versus 2005

Operating expenses for the period increased to \$391,782 in 2006 compared to \$236,917 for the comparable period in 2005. As the company had no cash resources, expenses were funded by issuance of common stock, by loans subsequently settled by the issuance of our common stock, and by an increase in the Related Party Payable account.

-13-

Item 3 - Controls and Procedures

Evaluation of Controls and Procedures

Our Chief Executive Officer, who is our principal executive officer and also serves as our interim principal financial officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this report (the "evaluation date"). Based on this evaluation, the officer concluded as of the evaluation date that our disclosure controls and procedures were effective such that the material information required to be included in our periodic filings with the Securities and Exchange Commission is accumulated and communicated to management (including the principal executive officer) as appropriate to allow timely decisions regarding required disclosure and recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to the Company.

Changes in Internal Control Over Financial Reporting

There were no changes in internal control over financial reporting during the period covered by this quarterly report that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
