Exhibit	Description
No. 1	RNS Announcement, re: 'Disposal of Interest in OWP' dated 23 December 2003

British Energy plc

Edgar Filing: BRITISH ENERGY PLC - Form 6-K

Sale of Interest in Offshore Wind Power Ltd

British Energy plc announces today that it has sold its 50% equity interest in Offshore Wind Power Limited (OWP) to GB Gas Holdings Limited (GBGH), a fully owned subsidiary of Centrica plc, for an up-front cash consideration of approximately GBP2.2m and deferred consideration of up to GBP0.5m. In addition British Energy may receive further payments of up to GBP0.25m from Renewable Energy Systems Limited (RES) dependent upon progress of OWP's Round 2 offshore windfarm development

OWP is a joint venture company formed in February 2001 which is owned 50/50 by British Energy Renewables Limited (BER) and RES, a subsidiary of Robert McAlpine Holdings Limited. OWP, through its wholly owned subsidiary, Offshore Wind Power (Site No 1) Limited, has an option to take a lease from Crown Estates Commissioners (CEC) to construct a Round 1 offshore wind farm of up to 90 MW at Inner Dowsing near Skegness.

The up-front cash consideration of approximately GBP2.2m is subject to working capital and tax adjustments following completion. In a simultaneous transaction, GBGH purchased Amec plc's 100% equity interest in the adjacent Lynn offshore wind farm development. The deferred consideration of up to GBP0.5m will be payable by GBGH to BER in two further equal installments on the signing of the main construction contracts for each of the Inner Dowsing and Lynn developments.

In British Energy's accounts for the year ending 31 March 2003, British Energy's interest in OWP had a net book value of approximately GBP0.4m. OWP contributed a loss of approximately GBP0.2m to British Energy's results for the year to 31 March 2003.

The sale proceeds will be used for general working capital and collateral purposes.
