Notification of Transactions of Directors and Persons Discharging Managerial Responsibility

Awards

On 22 February 2010, the Company granted share-based awards to Directors and Persons Discharging Managerial Responsibility (PDMRs) under the GlaxoSmithKline 2009 Performance Share Plan (the 2009 Performance Share Plan) and the GlaxoSmithKline 2009 Deferred Annual Bonus Plan (the 2009 Deferred Annual Bonus Plan). These awards are subject to performance conditions.

2009 Performance Share Plan

The 2009 Performance Share Plan was approved by shareholders on 20 May 2009, and allows awards to be made to senior executives in the Group, including the Executive Directors.

Under the terms of the 2009 Performance Share Plan, contingent awards are granted over a designated number of Ordinary Shares or American Depositary Shares (ADSs), and the percentage of awards ultimately vesting is dependent on performance.

There are two parts to the performance condition:

.

60% of each award is subject to a Total Shareholder Return ("TSR") condition;

.

the remaining 40% of each award is subject to an Adjusted Free Cash Flow condition.

The performance period for the part which is subject to Adjusted Free Cash Flow and for 50% of the part which is subject to TSR is three years (1 January 2010 to 31 December 2012) and for the other 50% of the part subject to TSR is four years (1 January 2010 to 31 December 2013).

The TSR Condition:-

The TSR condition compares the TSR of the Company's Shares over the Performance Period with the TSR of the shares of ten (10) other global pharmaceutical companies. The Ordinary Shares (or ADSs) will vest depending on how the Company's TSR over the Performance Period ranks when compared to the TSR of the other companies in the TSR Comparator Group over the same period. No awards will vest if the Company delivers returns which, when ranked among these companies, rank below the median. At median position, vesting is at 30%. Above median, vesting is staggered between median and upper quartile of the comparator group, i.e., at 5th place 55% vests, at 4th place 80% vests and at 3rd or above 100% vests.

To the extent that each part of an award does not vest after the appropriate performance period, it will lapse.

The companies in the TSR Comparator Group are Abbott Laboratories, AstraZeneca, Bristol-Myers Squibb, Eli Lilly & Co, Johnson & Johnson, Merck, Novartis, Pfizer, Roche, Sanofi-Aventis and GlaxoSmithKline.

The Adjusted Free Cash Flow target:-

Adjusted Free Cash Flow represents the operating profit of the business adjusted for material factors which would typically include exchange rate movements and may include legal and major taxation settlements and special pension contributions. The impact of any acquisition or divestment will be quantified and adjusted for at the time of the event. The Adjusted Free Cash Flow threshold for these awards is £17.3 billion, where vesting for this part of each award will be at 25%, at £17.8 billion 50% will vest, at £19.6 billion 75% will vest, and there will be maximum vesting for this part of the award at £20.5 billion. Vesting between these points will be on a straight-line basis. To the extent that this part of the award does not vest at the end of the performance period, it will lapse.

The individuals in the tables below, who are all Executive Directors or PDMRs, were each granted an award under the terms of the 2009 Performance Share Plan. Awards granted are of the Company's 25p Ordinary shares or the Company's ADSs. One ADS equals two Ordinary shares. The table below shows the number of Ordinary Shares or ADSs which can vest in total, taking into account both the three and four year performance periods.

Dividends accrue on the shares during the vesting period and vest to the extent that awards vest at the end of the relevant performance period (these are not included in the figures below).

The vesting date for these awards will be the dates, following the end of the three and four year performance periods respectively, on which the Remuneration Committee determines the extent to which the performance conditions have been satisfied or such other later dates as determined by the Remuneration Committee.

All of the above awards were made on 22 February 2010. The awards made were determined, in accordance with the 2009 Performance Share Plan rules, using an Ordinary share price of £12.035 and an ADS share price of US\$37.32 which were the closing prices of Ordinary shares and ADSs respectively on 22 February 2010.

2009 Deferred Annual Bonus Plan

The 2009 Deferred Annual Bonus Plan was approved by shareholders on 20 May 2009, and allows awards to be made to eligible employees. Eligibility for the 2009 bonus year was restricted to the CEO, Mr Witty,

and the CFO, Mr Heslop. Mr Witty has elected to participate in the 2009 Deferred Annual Bonus Plan in respect of his bonus for 2009.

Up to 50% of any bonus earned may be deferred into shares for three years (Deferred Bonus Award). The Company will match shares up to one-for-one depending on the Company's relative TSR over the Performance Period (Matching Award). The performance measure, vesting schedule and Performance Period for the Matching Award will be consistent with the three-year TSR component of the 2009 Performance Share Plan awards described above.

The awards of Deferred and Matching shares have been granted as nil-cost options granted over Ordinary shares. As noted above, the percentage of Matching shares ultimately vesting will be dependent on TSR performance.

Dividends accrue on the Deferred shares during the vesting period. Dividends also accrue on the Matching shares during the vesting period, but only vest to the extent that the Matching shares vest at the end of the relevant Performance Period. These dividends are not included in the figures below.

* denotes an Executive Director					

The vesting date for this award will be the date, following the end of the three year performance period, on which the Remuneration Committee determines the extent to which the performance condition has been satisfied or such other later date as determined by the Remuneration Committee.

The above award was made on 22 February 2010. The award made was determined, in accordance with the 2009 Deferred Annual Bonus Plan rules, using an Ordinary share price of £12.35 which was the closing price of Ordinary shares on 19 February 2010.
