Item 5. Other Events

On March 15, 2004, we issued a press release announcing that the United States District Court for the Southern District of California (the Court) has issued a Temporary Restraining Order against Agen Biomedical Limited (Agen), preventing Agen's canine heartworm diagnostic product from entering the United States market. The Court ordered that Agen, their directors, officers, employees, agents, servants, and all those in active concert or participation with them, are restrained from importing, making, using, selling, or offering for sale, in the United States, any canine heartworm kit containing the DI 16 872.5 monoclonal antibody manufactured or supplied by Agen. The Court ruled earlier that Synbiotics was likely to succeed on the merits of its claim that Agen's canine heartworm diagnostic product, STATScreenTM CHW, which contains Synbiotics DI 16 872.5 monoclonal antibody, infringed Synbiotics' United States Patent 4,789,631.
