

LEGGETT & PLATT INC  
Form 424B5  
November 05, 2004  
Filed Pursuant to Rule 424(b)(5)

Registration Nos. 333-51164 and

333-120233

**Prospectus Supplement**

(To Prospectus dated December 18, 2000)

*\$180,000,000*

*4.65% Notes due 2014*

*Interest payable May 15 and November 15*

**Issue price: 99.968%**

The notes will mature on November 15, 2014. Interest will accrue from November 12, 2004. We may redeem the notes in whole or in part at any time at the redemption price described on page S-6. The notes will be issued only in denominations of \$1,000 and integral multiples of \$1,000. The first interest payment will be made on May 15, 2005. The notes will rank equally with all of our other unsecured and unsubordinated debt.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	<b>Price to</b>	<b>Underwriting</b>	<b>Proceeds</b>
	<b>Public<sup>(1)</sup></b>	<b>Discounts</b>	<b>to Us<sup>(1)</sup></b>
Per Note	99.968%	.650%	99.318%
Total	\$179,942,400	\$1,170,000	\$178,772,400

Edgar Filing: LEGGETT & PLATT INC - Form 424B5

(1) Plus accrued interest from November 12, 2004, if settlement occurs after that date.

The notes will not be listed on any securities exchange. Currently, there is no public market for the notes.

The underwriters expect to deliver the notes in book-entry form only through the facilities of The Depository Trust Company against payment in New York, New York on November 12, 2004.

**LEGGETT & PLATT, INCORPORATED**

Leggett & Platt was incorporated in 1901 as the successor to a partnership formed in Carthage, Missouri in 1883. That partnership was a pioneer in the development of steel coil bed springs. The founding spirit of partnership and innovation has encouraged an ongoing commitment to product and machinery development, advancing technologies and efficiencies, with solid growth. Today we are an industry leader with over 33,000 employee-partners in more than 300 locations around the world. We manufacture a wide range of engineered components and products and serve markets for:

*Residential Furnishings* components for bedding and home furniture; fiber, fabric and foam; and related consumer products.

*Commercial Fixturing & Components* retail store fixtures, displays, commercial vehicle products, storage and material handling systems; components for office and institutional furnishings; and plastic components.

*Aluminum Products* die castings, custom tooling, machining, coating and other value added processes.

*Industrial Materials* drawn steel wire, specialty wire products, steel rod and welded steel tubing.

*Specialized Products* automotive seating suspensions and control cable systems; lumbar supports for automotive seating; and specialized machinery and equipment.

**Residential Furnishings**

Our residential furnishings products include a broad line of components used by bedding and upholstered furniture manufacturers in assembly of their finished products. Examples of residential furnishings components we manufacture include:

innerspring units for mattresses; and wood frames, steel coils and wire forms for mattress boxsprings;

foam and fiber cushioning materials; woven and non-woven construction fabrics for mattresses, home furniture and industrial uses;

springs and seating suspensions for chairs, sofas, loveseats and other residential furniture;

steel mechanisms and hardware for reclining chairs, sleeper sofas and other types of motion furniture; and

other furniture components and cut-to-size dimension lumber.

We also manufacture or distribute finished residential furnishings. These finished consumer products include bed frames, daybeds, headboards, adjustable electric beds, fashion beds, carpet underlay and non-slip coated fabrics.

Most of our customers for residential furnishings manufacture finished bedding (mattresses and boxsprings) or upholstered furniture for residential use. Finished residential furnishings are sold to bedding and furniture manufacturers for resale or directly to retailers and distributors.

### **Commercial Fixturing & Components**

We manufacture a variety of commercial fixtures and commercial furnishings products, including both finished products and components.

Finished commercial fixtures include point-of-purchase displays, store fixtures and shelving, counters and carts used to store and handle materials, and wire and steel racks, shelves and cabinets for the interior of service vans and utility vehicles. Point-of-purchase displays and store fixtures, made of wood, metal, wire and plastics,

S-1

are used by a wide range of customers, including manufacturers and marketers of branded consumer products. We have the ability to provide custom designed full store fixture packages, as well as standardized shelving used by large retailers, grocery stores, discount chains and the like. Our commercial storage products provide for the efficient storage, organization and handling of materials used in food service, health care and other applications. Customers for these storage products include food service companies, healthcare providers, restaurants, light industry and many other diverse businesses.

Commercial furnishings components include chair controls (devices which allow office chairs to be adjusted to height, tilt and swivel), chair bases, columns, backrests, casters, frames and other components used by customers that manufacture office, institutional and other commercial furniture. We also produce plastic components for commercial furnishings customers as well as customers that make lawn care products, power tools, and other consumer or commercial products.

### **Aluminum Products**

We die cast aluminum components for use in a number of different industries, primarily for non-automotive applications. We also produce some zinc and magnesium die castings.

We sell our castings to a diverse group of customers that manufacture industrial and consumer products. Our customers use these components in their production of gas barbecue grills, outdoor lighting fixtures, cable line amplifiers, wireless communications systems and other cable and telecommunication products, computer and electronics products, electric motors, consumer appliances, power tools, diesel and small gasoline engines, motorcycles, snowmobiles, ATVs, trucks and automobiles.

We also manufacture and refurbish dies (also known as molds or tools) for all types and sizes of die casting machines. These complementary products are sold to customers that buy our die castings and to others. We also provide extensive machining, coating, finishing, sub-assembly and other value-added services related to these die cast components.

### **Industrial Materials**

We produce steel rod, drawn steel wire and welded steel tubing, as well as specialty wire products. Drawn wire and welded steel tubing are important raw materials that we use widely in manufacturing our products. For example, we use wire to make our bedding and furniture components, commercial fixtures and point of purchase displays, automotive seating components and other products.

We use welded steel tubing in many of the same types of products, including our motion furniture mechanisms, store fixtures, displays, shelving and storage products, and ATV, RV and snowmobile accessories.

Our steel rod mill in Sterling, Illinois produces a consistent supply of quality steel rod for the Industrial Materials segment, nearly all of which is used by our businesses.

## Edgar Filing: LEGGETT & PLATT INC - Form 424B5

In addition to supplying a portion of our needs for important materials, we sell drawn wire and welded steel tubing to a diverse group of industrial customers, such as bedding and furniture makers, manufacturers of lawn and garden equipment, recreational equipment, mechanical springs, automotive interiors and other products.

Specialty wire products using our drawn wire include wire ties that secure cotton bales. Customers for these products include cotton gins and textile companies. We also manufacture and sell tying heads of various types which waste recyclers and solid waste removal businesses use to bale materials. We manufacture and sell shaped wire to automotive companies and medical supply businesses.

S-2

## Specialized Products

We have two business units engaged in manufacturing specialized products. One concentrates on manufacturing components primarily for automotive interior applications. The other business unit designs, builds and sells specialized machinery and equipment. In the automotive group, we manufacture seat suspension, lumbar support and control cable systems, such as shift cables, cruise-control cables, seat belt cables, accelerator cables, seat control cables, and latch release cables. The primary customers for our automotive products are automobile seating manufacturers.

In the machinery group, we manufacture highly automated quilting machines for fabrics used to cover mattresses and other home furnishings, coilers used to shape wire into various types of springs, industrial sewing machines, material handling systems, wide format digital printing equipment, and other products for factory automation. While bedding manufacturers are the primary customers for our machinery, we also design and produce some of these specialized products for our own use.

We are a Missouri corporation, with our principal executive offices located at No. 1 Leggett Road, Carthage, Missouri 64836 (Telephone: (417) 358-8131).

## FORWARD-LOOKING STATEMENTS

This prospectus supplement and the attached prospectus include and may incorporate by reference forward-looking statements concerning possible *future* events, objectives, strategies, trends or results. Such statements are identified either by the context in which they appear or by use of the words such as anticipate, believe, estimate, expect, or the like.

Readers are cautioned that any forward-looking statement reflects only the *beliefs* of Leggett & Platt or its management *at the time the statement is made*. In addition, readers should keep in mind that, because all forward-looking statements deal with the future, they are subject to risks, uncertainties and developments which might cause actual events or results to differ materially from those envisioned or reflected in any forward-looking statement. Moreover, we do not have and we do not undertake any duty to update or revise any forward-looking statement to reflect events or circumstances after the date on which the statement was made. For all of these reasons, forward-looking statements should not be relied upon as a prediction of actual future events, objectives, strategies, trends or results.

It is not possible to anticipate and list all of the risks, uncertainties and developments which may affect our future operations or performance, or which otherwise may cause actual events or results to differ from forward-looking statements. However, some of these risks and uncertainties include the following:

our ability to improve operations and realize cost savings (including our tactical plan for the Fixture and Display business)

factors that could impact costs, including the availability and pricing of steel rod and scrap and other raw materials, the availability of labor and wage rates and energy costs

our ability to pass along raw material cost increases to our customers

Edgar Filing: LEGGETT & PLATT INC - Form 424B5

price and product competition from foreign (particularly Asian) and domestic competitors

future growth of acquired companies

our ability to bring start up operations on line as budgeted in terms of expense and timing

litigation risks

risks and uncertainties that could affect industries or markets in which we participate, such as growth rates and opportunities in those industries, or changes in demand for certain products, or trends in business capital spending

S-3

changes in the competitive, economic, legal and market conditions and risks, such as the rate of economic growth in the United States and abroad, inflation, currency fluctuation, political risk, US or foreign laws or regulations, interest rates, housing turnover, employment levels, consumer sentiment, taxation, and the like.

Furthermore, we have made and expect to continue to make acquisitions. Acquisitions present significant challenges and risks, and depending upon market conditions, pricing and other factors, there can be no assurance that we can successfully negotiate and consummate acquisitions or successfully integrate acquired businesses into Leggett & Platt.

#### USE OF PROCEEDS

We expect to use the net proceeds from the sale of the notes (estimated at \$178,772,400, before deducting expenses of the offering) for general corporate purposes, which may include the repayment or refinancing of existing indebtedness, stock repurchases and/or to fund possible future acquisitions. Before we use the proceeds for these purposes, we may invest them in short term investments.

#### RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges for the periods indicated:

	Nine Months Ended September 30,		Twelve Months Ended December 31,				
	2004	2003	2003	2002	2001	2000	1999
Ratio of earnings to fixed charges	8.2	6.0	6.2	7.6	5.2	6.4	9.8

Earnings consist principally of income from continuing operations before income taxes, plus fixed charges. Fixed charges include interest expense, capitalized interest and implied interest included in operating leases.

**DESCRIPTION OF NOTES**

**Title:**

4.65% Notes due 2014.

*General:* We will issue the notes as a separate series of debt securities under an indenture, dated as of November 24, 1999, between us and JPMorgan Chase Bank (formerly known as The Chase Manhattan Bank), as trustee. For a description of the rights attaching to different series of debt securities under the indenture, see "Description of debt securities" beginning on page 4 of the attached prospectus.

*Ranking and Form:* The notes will rank equally with all of our other unsecured and unsubordinated debt. We will issue the notes only in book-entry form through the facilities of The Depository Trust Company (the "Depository"), and sales in book-entry form may be effected only through a participating member of the Depository. See "Global securities" below.

**Total initial principal amount being issued:**

\$180,000,000

**Due date for principal:**

November 15, 2014

**Interest rate:**

4.65% per annum, computed on the basis of a 360-day year of twelve 30-day months.

**Date interest starts accruing:**

November 12, 2004

**Interest payment dates:**

Every May 15 and November 15

**First interest payment date:**

May 15, 2005

**Regular record dates for interest:**

May 1, for May 15; November 1, for November 15

**Limitations on liens:**

As described in Description of debt securities Limitation on liens beginning on page 7 of the accompanying prospectus, except as permitted below, neither we nor any subsidiary will create or have outstanding any mortgage, lien, pledge or other encumbrance upon any property, without providing that the notes will be secured equally and ratably with the debt so secured.

S-5

The limitation on liens does not apply to a number of different types of liens described under Description of debt securities Limitations on liens beginning on page 7 of the accompanying prospectus.

Under the terms of the notes, the limitation will be modified so that it does not apply to any liens not so excluded if at the time and after giving effect to any debt secured by a lien such liens do not exceed 15%, rather than 10% as stated in the accompanying prospectus, of our consolidated assets. Consolidated assets is defined to mean the gross book value of our assets and our subsidiaries, determined on a consolidated basis in accordance with generally accepted accounting principles.

**Optional redemption:**

The notes will be redeemable, in whole or in part, at our option at any time at a redemption price equal to the greater of (i) 100% of the principal amount of the notes to be redeemed, and (ii) as determined by the Quotation Agent (as defined below), the sum of the present values of the remaining scheduled payments of principal and interest thereon (not including any portion of those payments of interest accrued as of the date of redemption) discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate (as defined below) plus 12.5 basis points plus, in each case, accrued interest thereon to the date of redemption.

Adjusted Treasury Rate means, with respect to any date of redemption, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that date of redemption.

Comparable Treasury Issue means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of those notes.

Comparable Treasury Price means, with respect to any date of redemption, (i) the average of the Reference Treasury Dealer Quotations for the date of redemption, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (ii) if the trustee obtains fewer than three Reference Treasury Dealer Quotations, the average of all such Reference Treasury Dealer Quotations.

Quotation Agent means one of the Reference Treasury Dealers appointed by us.

Reference Treasury Dealer means (i) J.P. Morgan Securities Inc. and Wachovia Capital Markets, LLC and their successors; provided, however, that if either of them shall cease to be a primary U.S. Government securities dealer in New York City (a Primary Treasury Dealer), we shall substitute another Primary Treasury Dealer; and (ii) any other Primary Treasury Dealers selected by us.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any date of redemption, the average, as determined by the trustee, after consultation with us, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by that Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding that date of redemption.

## Edgar Filing: LEGGETT & PLATT INC - Form 424B5

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the date of redemption to each holder of the Notes to be redeemed. Unless we default in payment of the redemption price, on and after the date of redemption, interest will cease to accrue on the Notes or portions thereof called for redemption. If less than all of the notes are to be redeemed, the notes shall be selected by the trustee by such method as the trustee shall deem fair and appropriate.

S-6

**Further issues:**

We may from time to time, without notice to or the consent of the registered holders of the notes, create and issue further notes ranking equally and ratably with the notes in all respects (or in all respects except for the payment of interest accruing prior to the issue date of such further notes or except for the first payment of interest following the issue date of such further notes), so that such further notes shall be consolidated and form a single series with the notes and shall have the same terms as to status, redemption or otherwise as the notes.

**Paying agent:**

JPMorgan Chase Bank, the trustee under the indenture, is our paying agent at its offices in New York, New York. We may at any time designate additional paying agents or rescind the designations or approve a change in the offices where they act.

**Global securities:**

The notes will be represented by one or more global securities registered in the name of the nominee of the Depositary. We will issue the notes in denominations of \$1,000 and integral multiples of \$1,000. We will deposit the global security with the Depositary or its custodian and will register the global security in the name of the Depositary's nominee. See "Global securities" beginning on page 6 of the accompanying prospectus.

**Trading in the Depositary:**

Indirect holders trading their beneficial interests in the global securities through the Depositary must trade in the Depositary's same-day funds settlement system and pay in immediately available funds.

**Sinking fund:**

There is no sinking fund.

**Defeasance:**

The notes are subject to our ability to choose "legal defeasance" and "covenant defeasance" as described under the caption "Defeasance" on page 9 of the accompanying prospectus.

**Definitive securities:**

## Edgar Filing: LEGGETT & PLATT INC - Form 424B5

A permanent global security is exchangeable for definitive notes registered in the name of any person other than the Depository or its nominee, only if:

(a) the Depository notifies us that it is unwilling or unable to continue as Depository for the global security or if at any time the Depository ceases to be a clearing agency registered under the Securities Exchange Act of 1934, as amended, and we do not appoint a successor within 90 days;

(b) Subject to the procedures of the Depository, in our discretion at any time, we determine not to have all of the notes represented by the global security and notify the trustee; or

(c) an Event of Default has occurred and is continuing with respect to the notes.

### **Same-Day settlement and payment:**

The underwriters will make settlement for the notes in immediately available or same-day funds. So long as the notes are represented by the global security, we will make all payments of principal and interest in immediately available funds.

S-7

Secondary trading in notes and debentures of corporate issuers is generally settled in clearing-house or next-day funds. In contrast, so long as the notes are represented by the global security registered in the name of the Depository or its nominee, the notes will trade in the Depository's Same-Day Funds Settlement System. Secondary market trading activity in the notes represented by the global security will be required by the Depository to settle in immediately available or same-day funds. We cannot give any assurances as to the effect, if any, of settlement in same-day funds on trading activity in the notes.

This section summarizes the specific financial and legal terms of the notes that are more generally described under "Description of the debt securities" beginning on page 4 of the accompanying prospectus. If anything described in this section is inconsistent with the terms described under "Description of the debt securities" in the accompanying prospectus, you should consider the terms here to be the ones that prevail.

## UNDERWRITING

Leggett & Platt and the underwriters for the offering named below have entered into an underwriting agreement and a pricing agreement (together, the Underwriting Agreement ) with respect to the notes. Subject to certain conditions, each underwriter has severally agreed to purchase the principal amount of notes indicated in the following table:

Underwriters	Principal Amount of Notes
J.P. Morgan Securities Inc.	\$ 59,400,000
Wachovia Capital Markets, LLC	46,800,000
SunTrust Capital Markets, Inc.	14,400,000
Piper Jaffray & Co.	14,400,000
Barclays Capital Inc.	9,000,000
Banc of America Securities LLC	9,000,000
ABN AMRO Incorporated	5,400,000
BNY Capital Markets, Inc.	5,400,000
TD Securities (USA) LLC.	5,400,000
UMB Scout Brokerage Services, Inc.	5,400,000
Wells Fargo Securities, LLC	5,400,000
Total	\$ 180,000,000

Under the terms of the Underwriting Agreement, if the underwriters take any of the notes, then they are obligated to take and pay for all of the notes.

Notes sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to .40% of the principal amount of notes. Any such securities dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price of up to .25% of the principal amount of notes. If all the notes are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms.

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any national securities exchange. We have been advised by certain of the underwriters that they intend to make a market in the notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

## Edgar Filing: LEGGETT & PLATT INC - Form 424B5

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

S-9

We expect that delivery of the notes will be made against payment therefor on or about the date specified on the cover page of this prospectus supplement, which will be the fifth business day following the pricing of the notes (this settlement cycle being referred to as "T+5"). Under Rule 15c6-1 of the U.S. Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of this prospectus supplement or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle in a T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to make such trades should consult their own advisor.

### Underwriting Compensation

	<u>Per Note</u>	<u>Total</u>
Underwriting Discounts and Commissions paid by us	.650%	\$ 1,170,000

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$200,000.

J.P. Morgan Securities Inc. ("JPMorgan") will make the notes available for distribution on the Internet through a proprietary web site and/or a third-party system operated by Market Axess Corporation, an Internet-based communications technology provider. Market Axess Corporation is providing the system as a conduit for communications between JPMorgan and its customers and is not a party to any transactions. Market Axess Corporation, a registered broker-dealer, will receive compensation from JPMorgan based on transactions JPMorgan conducts through the system. JPMorgan will make the notes available to its customers through the Internet distributions, whether made through a proprietary or third-party system, on the same terms as distributions made through other channels.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

From time to time, the underwriters and their affiliates perform investment banking, commercial banking and other financial services for us and our affiliates. JPMorgan Chase Bank, the trustee under the indenture for the notes, is an affiliate of JPMorgan.

### LEGAL MATTERS

The validity of the notes will be passed upon for the Company by Ernest C. Jett, Vice President, General Counsel and Secretary of the Company, Carthage, Missouri. Mr. Jett is paid a salary and a bonus by the Company, is a participant in various employee benefit plans offered by the Company, and owns and has options to purchase shares of common stock of the Company. Certain legal matters will be passed upon for the underwriters by Cravath, Swaine & Moore LLP, New York, New York.

**PROSPECTUS**

**Leggett & Platt, Incorporated**

**\$500,000,000**

**Debt Securities**

---

This prospectus describes debt securities which we may issue and sell at various times:

The debt securities may be debentures, notes (including notes commonly known as medium-term notes) or other unsecured evidences of indebtedness of Leggett & Platt.

We may issue the debt securities in one or several series.

The total principal amount of debt securities to be issued under this prospectus will not be more than \$500,000,000 or the equivalent amount in other currencies.

The terms of each series of debt securities (interest rates, maturity, redemption provisions and other terms) will be determined at the time of sale, and will be specified in a prospectus supplement delivered together with this prospectus at the time of sale.

We may sell debt securities to or through underwriters, dealers or agents. We may also sell debt securities directly to investors. More information about the way we will distribute the debt securities is under the heading Plan of distribution. Information about the underwriters or agents who will participate in any particular sale of debt securities will be in the prospectus supplement relating to that series of debt securities.

Unless we state otherwise in a prospectus supplement, we will not list any of the debt securities on any securities exchange.

---

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is December 18, 2000.

**Securities**

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, which we refer to as the SEC. Under this registration statement, we may offer from time to time up to \$500,000,000, or its equivalent in foreign or composite currencies, of debt securities. This prospectus provides you with a general description of the securities we may offer. Each time we offer securities, we will provide you with a prospectus supplement that describes the specific amounts, prices and terms of the securities being offered. The prospectus supplement may also add, update or change information contained in this prospectus.

Where you can find more information about Leggett & Platt, Incorporated	13

**Leggett & Platt, Incorporated**

We manufacture a wide range of engineered products. Our company was incorporated in 1901 as the successor to a partnership formed in 1883 at Carthage, Missouri. That partnership was a pioneer in the development of steel coil bedsprings. Today we serve markets for:

Residential furnishings components for bedding, furniture and other furnishings, as well as related consumer products.

Commercial furnishings retail store fixtures, displays, storage and material handling systems, components for office and institutional furnishings and plastic components.

Aluminum products die castings, custom tooling and dies, machining, coating and other value added processes and smelting of aluminum ingot.

Industrial materials drawn wire, specialty wire products and welded steel tubing.

Specialized products automotive seating suspensions, control cable systems and lumbar supports for automotive, office and residential application, and specialized machinery and manufacturing equipment.

The term company, unless the context requires otherwise, refers to Leggett & Platt, Incorporated and its majority owned subsidiaries.

We are a Missouri corporation, with principal executive offices located at No. 1 Leggett Road, Carthage, Missouri 64836 (Telephone: (417) 358-8131) and on the world wide web at [www.leggett.com](http://www.leggett.com). Information on our website does not constitute a part of this prospectus or any prospectus supplement or pricing supplement.

**Cautionary statement regarding forward-looking statements**

This prospectus, any prospectus supplement and any pricing supplement, as well as our public reports and statements may contain forward-looking statements concerning possible future events, objectives, strategies, trends or results. These statements are identified either by the context in which they appear or by use of words such as anticipate, believe, estimate, expect, or the like.

Any forward-looking statement reflects only our beliefs at the time the statement is made. Because all forward-looking statements deal with the future, they are subject to risks, uncertainties and developments which might cause actual events or results to differ materially from those envisioned or reflected in any forward-looking statement. Moreover, we do not have and do not undertake any duty to update any forward-looking statement to reflect events or circumstances after the date on which the statement was made. For all of these reasons, you should not rely on forward-looking statements as a prediction of actual future events, objectives, strategies, trends or results.

We cannot identify all of the risks, uncertainties and developments which may affect our future operations or performance, or which otherwise may cause actual events or results to differ from forward-looking statements. However, some of these risks and uncertainties include the

following:

general economic and market conditions and risks, such as the rate of economic growth in the United States, inflation, government regulation, interest rates, taxation, and the like;

risks and uncertainties which could affect industries or markets in which the company participates, such as growth rates and opportunities in those industries, or changes in demand for certain products, and the like; and

factors which could impact costs, such as the availability and pricing of raw materials, the availability of labor and wage rates, and fuel and energy costs.

**Ratio of earnings to fixed charges**

The following table sets forth the ratio of earnings to fixed charges for the periods indicated:

	Nine months ended September 30,	Year ended December 31,				
	2000	1999	1998	1997	1996	1995
Ratio of earnings to fixed charges	7.0	9.8	9.6	9.6	7.8	7.0

Earnings consist principally of income from continuing operations before income taxes, plus fixed charges. Fixed charges consist principally of interest costs.

**Use of proceeds**

We will use the net proceeds from the sale of the debt securities for general corporate purposes, unless we specify another use in the applicable prospectus supplement. General corporate purposes may include working capital additions, capital expenditures, stock redemption, debt repayment or financing for acquisitions. Before we use the proceeds for these purposes, we may invest them in short term investments.

**Description of debt securities**

We will offer debt securities which represent our unsecured general obligations under an indenture dated as of November 24, 1999 between us and The Chase Manhattan Bank, as trustee.

The following description sets forth the general terms and provisions that could apply to the debt securities. This description of certain provisions of the indenture is not complete. You should refer to the applicable provisions of the indenture filed as exhibit 4.1 to our registration statements filed with the SEC (File Nos. 333-51164 and 333-90443) covering the debt securities.

Some of the capitalized terms used in the following discussion are defined in the indenture, and their definitions are incorporated by reference into this prospectus. When we refer to sections, we mean sections in the indenture which we are incorporating by reference.

**General**

## Edgar Filing: LEGGETT & PLATT INC - Form 424B5

The indenture does not limit the aggregate principal amount of debt securities that we may issue under it nor does it limit other debt we may issue. The debt securities may be issued in one or more series as we may authorize at various times. A series of debt securities may be issued at more than one time and, unless we agree otherwise with the trustee, may be re-opened for issuance without notice to holders of such series. All debt securities will be unsecured and will have the same rank as all of our other unsecured and unsubordinated debt. The debt securities may be issued as original issue discount debt securities and sold at a substantial discount below their principal amount.

The prospectus supplement relating to the particular series of debt securities being offered will specify the amounts, prices and terms of those debt securities. These terms may include:

the title and aggregate principal amount of the debt securities;

the price at which we are offering the debt securities, usually expressed as a percentage of the principal amount;

the maturity date or dates for the debt securities and any rights to extend these dates;

the person to whom interest is payable, if other than the person in whose name the debt security is registered as of the record date for payment of interest;

any annual rate or rates, which may be fixed or variable, or the method of determining any rate or rates, at which the debt securities will bear interest;

the date or dates from which interest will accrue and the interest payment date or dates;

the place or places where the principal of and any premium and interest on the debt securities will be payable;

the currency, currencies or composite currency in which the debt securities are denominated and principal and interest may be payable, and for which the debt securities may be purchased, if other than United States dollars;

any redemption or sinking fund terms;

any event of default or restrictive covenant with respect to the debt securities of a particular series, if not set forth in this prospectus, or any deletions or modifications thereof;

the extent to which the discharge and defeasance provisions apply to any series of securities or any modifications or additions thereto;

any index used to determine the amount of principal, premium or interest payable with respect to the debt securities;

whether the debt securities are to be issued in whole or in part in the form of one or more global securities and the depositary for the global security or securities;

if other than in denominations of \$1,000 or multiples of \$1,000, the denominations in which debt securities will be issued;

the part of the principal amount of debt securities which will be payable upon acceleration if less than the entire amount;

if the principal amount of the debt securities or interest paid on the debt securities are set forth or payable in a currency other than U.S. dollars, whether and under what terms and conditions we may defease the debt securities; and

any other terms of the series, which will not conflict with the terms of the indenture. (Section 301)

We will issue the debt securities in fully registered form without coupons. Unless we specify otherwise in the applicable prospectus supplement, we will issue debt securities denominated in U.S. dollars in denominations of \$1,000 or multiples of \$1,000. Debt securities may also be issued pursuant to the indenture in transactions exempt from the registration requirements of the Securities Act of 1933. Those debt securities will not be considered in determining the aggregate amount of securities issued under the registration statement.

We will describe special federal income tax and other considerations relating to debt securities denominated in foreign currencies in the applicable prospectus supplement.

Unless we specify otherwise in the applicable prospectus supplement, the covenants contained in the indenture and the debt securities will not provide special protection to holders of debt securities if we enter into a highly leveraged transaction, recapitalization or restructuring.

**Exchange, registration and transfer**

Debt securities of any series that are not global securities will be exchangeable for other registered securities of the same series and of like aggregate principal amount and tenor in different authorized denominations.

Transfers and exchanges may be made without service charge and upon payment of any taxes and other governmental charges as described in the indenture. The security registrar or the transfer agent will effect the transfer or exchange upon being satisfied with the documents of title and identity of the person making the request. We have appointed the trustee as security registrar for the indenture. If a prospectus supplement refers to any transfer agents, in addition to the security registrar, initially designated by us with respect to any series of debt securities, we may at any time rescind the designation of any such transfer agent or approve a change in the location through which such transfer agent acts. We may at any time appoint additional transfer agents with respect to any series of debt securities. (Section 305).

**Payment and paying agents**

Unless we specify otherwise in the applicable prospectus supplement, payment of principal, any premium and any interest on debt securities will be made at the office of the paying agent or paying
