PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

To Be Held on Wednesday, May 21, 2008

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Plug Power Inc. (the Company) for use at the 2008 Annual Meeting of Stockholders of the Company to be held on Wednesday, May 21, 2008, at 10:00 a.m., Eastern Time, at the NASDAQ, 4 Times Square, at the corner of 43rd Street, New York, New York 10036 and any adjournments or postponements thereof (the Annual Meeting).

At the Annual Meeting, the stockholders of the Company will be asked to consider and vote upon the following matters:

1. The election of two Class III Directors to hold office until the Company's 2011 annual meeting of stockholders and until such director's successor is duly elected and qualified or until such director's earlier resignation or removal; and
2. The ratification of KPMG LLP as the Company's independent auditors for 2008; and

3. Such other business as may properly come before the Annual Meeting and any adjournments or postponements thereof.

The Notice of Annual Meeting, Proxy Statement and Proxy Card are first being mailed to stockholders of the Company on or about April 16, 2008 in connection with the solicitation of proxies for the Annual Meeting. The Board of Directors has fixed the close of business on March 31, 2008 as the record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting (the Record Date). Only holders of record of the Company's Common Stock at the close of business on the Record Date will be entitled to notice of, and to vote at, the Annual Meeting. As of the Record Date, there were 88,124,168 shares of Common Stock outstanding and entitled to vote at the Annual Meeting and approximately 2,850 stockholders of record. However, management believes that a significant number of shares are held by brokers under a nominee name and that the number of beneficial stockholders of the Common Stock exceeds 57,000. Each holder of Common Stock outstanding as of the close of business on the Record Date will be entitled to one vote for each share held of record with respect to each matter submitted at the Annual Meeting.

The presence, in person or by proxy, of a majority of the total number of outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. A quorum being present, the affirmative vote of a plurality of the votes present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter is necessary to elect a nominee as a director of the Company.

Edgar Filing: PLUG POWER INC - Form DEF 14A

Shares that reflect abstentions or broker non-votes (i.e., shares represented at the Annual Meeting held by brokers or nominees as to which instructions have not been received from the beneficial owners or persons entitled to vote such shares and with respect to which the broker or nominee does not have discretionary voting power to vote such shares) will be counted for purposes of determining whether a quorum is present for the transaction of business at the meeting. With respect to the election of directors, votes may be cast in favor of or withheld from each nominee; votes that are withheld will be excluded entirely from the vote and will have no

effect on the vote. Broker non-votes will also have no effect on the outcome of the election of directors. Stockholders of the Company are requested to complete, date, sign and return the accompanying Proxy Card in the enclosed envelope. Stockholders who hold shares indirectly as the beneficial owner of shares held for them by a broker or other nominee (i.e., in street name) may direct their vote without attending the Annual Meeting by submitting voting instructions to their broker or nominee. Common Stock represented by properly executed proxies received by the Company and not revoked will be voted at the Annual Meeting in accordance with the instructions contained therein. If instructions are not given therein, properly executed proxies will be voted FOR the election of both nominees of the Board of Directors as a Class III Directors of the Company and FOR the ratification of KPMG LLP as the Company's independent auditors for 2008, as listed in this Proxy Statement. It is not anticipated that any matters other than those set forth in this Proxy Statement will be presented at the Annual Meeting. If other matters are presented, proxies will be voted in accordance with the discretion of the proxy holders.

Any properly completed proxy may be revoked at any time before it is voted on any matter (without, however, affecting any vote taken prior to such revocation) by (1) giving written notice of such revocation to the Corporate Secretary of the Company, (2) submitting a new proxy by telephone, internet or proxy card after the date of the previously submitted proxy (or submitting new voting instructions with respect to shares held in street name), or (3) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

The Annual Report of the Company is being mailed to stockholders of the Company concurrently with this Proxy Statement.

PROPOSAL 1: ELECTION OF DIRECTORS

Shares represented by each properly executed proxy will be voted for the re-election of Larry Garberding and Peter Woicke as directors, unless contrary instructions are set forth on such proxy. The nominees have agreed to stand for re-election and to serve, if elected, as a director. However, if any nominee fails to stand for re-election or is unable to accept election, the proxies will be voted for the election of such other person or persons as the Board of Directors may recommend.

Audit Committee

The Audit Committee consists of Messrs. Garberding (Chair), Grant and Gross and Ms. Helmer. The Audit Committee held 9 meetings during Fiscal 2007 and each member attended all of the meetings during the period in which such person served on the committee, except for Mr. Gross who missed one meeting.

Audit Committee Report

The Audit Committee of the Board of Directors is currently composed of four directors, each of whom is an independent director as defined in the NASDAQ Rules and the applicable rules of the Securities and Exchange Commission (SEC). In addition, the Board of Directors has made a determination that each of Messrs. Garberding and Gross qualifies as an audit committee financial expert as defined in the applicable rules of the SEC. Each of Messrs. Garberding and Gross's designation by the Board as an audit committee financial expert is not intended to be a representation that either is an expert for any purpose as a result of such designation, nor is it intended to impose on them any duties, obligations, or liability greater than the duties, obligations or liability imposed on them as members of the Audit Committee and the Board in the absence of such designation.

The Audit Committee's primary responsibility is for oversight of the Company's accounting and financial reporting processes and audits of the Company's financial statements. A more complete description of the Audit Committee's functions is set forth in the Audit Committee's charter which is published on the Investors section of the Company's website at www.plugpower.com.

In accordance with the Audit Committee's charter, management has the primary responsibility for the financial statements and the financial reporting process, including maintaining an adequate system of internal controls over financial reporting. The Company's independent auditors, KPMG LLP (KPMG), report directly to the Audit Committee and are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and of the effectiveness of the Company's internal control over financial reporting. The Audit Committee, among other matters, is responsible for appointing the Company's independent auditors, evaluating such independent auditors' qualifications, independence and performance, determining the compensation for such independent auditors, and pre-approval of all audit and non-audit services. Additionally, the Audit Committee is responsible for oversight of the Company's accounting and financial reporting processes and audits of the Company's financial statements including the work of the independent auditors. The Audit Committee reports to the Board of Directors with regard to:

the scope of the annual audit;

fees to be paid to the auditors;

the performance of the Company's independent auditors;

compliance with accounting and financial policies and financial statement presentation; and

the Company's procedures and policies relative to the adequacy of internal accounting controls.

The Audit Committee reviewed and discussed with management of the Company and KPMG, the Company's 2007 quarterly unaudited interim consolidated financial statements and 2007 annual consolidated financial statements, including management's assessment of the effectiveness of the Company's internal control over financial reporting and KPMG's evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2007. Management has represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with U.S. generally accepted accounting principles.

Additionally, the Audit Committee has discussed with KPMG any matters required to be discussed under Statement on Auditing Standards No. 61 (Communication with Audit Committees), which include, among other items, matters related to the conduct of the audit of the Company's annual consolidated financial statements. The Audit Committee has also discussed the critical accounting policies used in the preparation of the Company's annual consolidated financial statements, alternative treatments of financial information within generally accepted accounting principles that KPMG discussed with management, if any, the ramifications of using such alternative treatments and other written communications between KPMG and management.

KPMG has provided to the Audit Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee discussed with KPMG that firm's independence. The Audit Committee has also concluded that KPMG's performance of non-audit services is compatible with KPMG's independence.

The Audit Committee also discussed with KPMG their overall scope and plans for their audit and met with KPMG, with and without management present, to discuss the results of their audit, the evaluations of the Company's internal control over financial reporting, and the overall quality of the Company's financial reporting. The Audit Committee also discussed with KPMG whether there were any audit problems or difficulties, and management's response.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, the inclusion of audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. The Audit Committee has also appointed KPMG as the Company's independent auditors for the fiscal year ending December 31, 2008. This report is provided by the following independent directors, who constitute the Audit Committee:

Larry G. Garberding (Chairman)

J. Douglas Grant

Joel D. Gross

Maureen O. Helmer

Under the Audit Committee's charter, the Audit Committee is authorized to delegate to one or more of its members the authority to pre-approve audit and non-audit services. All fees listed in the above table were approved using pre-approval procedures. The Audit Committee has not delegated its pre-approval authority. The Audit Committee approved all audit and non-audit services provided to the Company by KPMG during Fiscal 2007.

Compensation Committee

The Compensation Committee consists of Messrs. Willis (Chair), Batekhin, McNamee and Woicke, each of whom is an independent director under the NASDAQ Rules. The Compensation Committee held 6 meetings during Fiscal 2007. See Report of the Compensation Committee and the Board of Directors on Executive Compensation and Compensation Committee Interlocks and Insider Participation for a further description of the activities of the Compensation Committee in Fiscal 2007.

Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee (the Governance Committee) consists of Ms. Helmer (Chair) and Messrs. Polikarpov and Woicke, each of whom is an independent director under the NASDAQ Rules. The Governance Committee held 5 meetings during Fiscal 2007. The Governance Committee's responsibilities include establishing criteria for Board and committee membership, considering director nominations consistent with the requirement that a majority of the Board be comprised of independent directors as defined in the NASDAQ Rules, identifying individuals qualified to become board members, and selecting the director nominees for election at each annual meeting of stockholders. The Governance Committee is also responsible for developing and recommending to the Board a set of corporate governance guidelines applicable to the Company and periodically reviewing such guidelines and recommending any changes thereto. A more complete description of the Governance Committee's functions is set forth in the Governance Committee's charter which is published on the Investors section of the Company's website at www.plugpower.com.

Strategy Committee

The Strategy Committee consists of Messrs. Grant (Chair), Gross, McNamee and Polikarpov, and Ms. Rosenblum. The Strategy Committee held 9 meetings during Fiscal 2007. The purpose of the Strategy Committee is to provide input to management in their development of the Company's corporate strategy and to provide recommendations to the Board of Directors with respect to its review and approval of the corporate strategy. Members of the Strategy Committee received additional compensation for their participation in the Strategy Committee meetings as determined by the Board of Directors.

Director Compensation

The Compensation Committee periodically reviews the Company's Non-Employee Director Compensation Plan (the Plan) to ensure that the compensation aligns the directors' interests with the long-term interests of the stockholders and that the structure of the compensation is simple, transparent and easy for stockholders to understand. The Compensation Committee also considers whether the Plan fairly compensates the Company's directors when considering the work required in a company of the size and scope of the Company. Employee directors do not receive additional compensation for their services as directors. The following is a summary of the Plan:

Under the Plan, upon initial election or appointment to the Board of Directors, new non-employee directors receive non-qualified stock options to purchase 15,000 shares (50,000 shares for any new non-employee

Chairman) of Common Stock with an exercise price equal to fair market value on the date of grant and that are fully vested on the first anniversary of the date of the grant. Each year of a non-employee director's tenure, the director will receive non-qualified options to purchase 10,000 shares (15,000 shares for any non-employee Chairman), plus non-qualified options to purchase an additional 5,000 shares for serving as chairman of the Audit Committee and non-qualified options to purchase an additional 2,000 shares for serving as chairman of any other committee, including the Compensation Committee and the Corporate Governance and Nominating Committee. These annual options, with an exercise price equal to fair market value on the grant date, fully vest on the first anniversary of the date of the grant.

In addition, each non-employee director is paid an annual retainer of \$30,000 (\$40,000 for any non-employee Chairman) for their services. Committee members receive additional annual retainers in accordance with the following:

Committee	Non-Employee Chairman	Non-Employee Director
Audit Committee	\$ 20,000	\$ 15,000
Compensation Committee	10,000	5,000
Corporate Governance and Nominating Committee	10,000	5,000
Strategy Committee	10,000	5,000

These additional payments for service on a committee are due to the workload and broad-based responsibilities of the committees.

The total amount of the annual retainers are paid in a combination of fifty percent (50%) cash and fifty percent (50%) Common Stock, with an option to receive up to one hundred percent (100%) Common Stock, at the election of the non-employee director. All such stock shall be fully vested at the time of issuance. Non-employee directors are also reimbursed for their direct expenses associated with their attendance at board meetings.

Policy Governing Director Attendance at Annual Meetings

The Board of Directors has adopted a formal policy that all directors are expected to attend the Company's annual meetings of stockholders in person, unless doing so is impracticable due to unavoidable conflicts. All eleven of the Company's eleven directors at the time attended the 2007 annual meeting, one director participating via telephone.

Policies Governing Director Nominations

Securityholder Recommendations

The Governance Committee's current policy with regard to the consideration of director candidates recommended by securityholders is that it will review and consider any director candidates who have been recommended by one or more of the stockholders of the Company entitled to vote in the election of directors in compliance with the procedures established from time to time by the Governance Committee. All securityholder recommendations for director candidates must be submitted to the Company's Corporate Secretary at Plug Power Inc., 968 Albany Shaker Road, Latham, NY 12110, who will forward all recommendations to the Governance Committee. We did not receive any securityholder recommendations for director candidates for election at the 2008 annual meeting. All securityholder recommendations for director candidates for election at the Company's 2009 annual meeting must be submitted to the Company's Corporate Secretary on or before January 21, 2009 and must include the following information:

the name and address of record of the stockholder;

a representation that the securityholder is a record holder of the Company's stock entitled to vote in the election of directors, or if the securityholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Securities Exchange Act of 1934, as amended;

the name, age, business and residential address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding five (5) full fiscal years of the proposed director candidate;

a description of the qualifications and background of the proposed director candidate which addresses the minimum qualifications and other criteria for membership on the Board of Directors approved by the Governance Committee from time to time;

a description of all arrangements or understandings between the securityholder and the proposed director candidate;

Edgar Filing: PLUG POWER INC - Form DEF 14A

the consent of the proposed director candidate (i) to be named in the proxy statement relating to the annual meeting of stockholders and (ii) to serve as a director if elected at such annual meeting; and

any other information regarding the proposed director candidate that is required to be included in a proxy statement filed pursuant to the rules of the SEC.

Board Membership Criteria

The Governance Committee has established criteria for membership on the Board of Directors. These criteria include the following specific, minimum qualifications that the Governance Committee believes must be met by a Governance Committee-recommended nominee for a position on the Board of Directors:

The nominee must have high personal and professional integrity, must have demonstrated exceptional ability and judgment, and must be expected, in the judgment of the Governance Committee, to be highly effective, in conjunction with the other nominees to the Board of Directors, in collectively serving the interests of the Company and its stockholders.

In addition to the minimum qualifications for each nominee set forth above, the Governance Committee will recommend that the Board of Directors select persons for nomination to help ensure that:

the Board of Directors will be comprised of a majority of independent directors in accordance with NASDAQ rules;

each of the Audit, Compensation and Governance Committees shall be comprised entirely of independent directors;

each member of the Audit Committee is able to read and understand fundamental financial statements, including a company's balance sheet, income statement, and cash flow statement; and

at least one member of the Audit Committee has past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities.

Finally, in addition to any other standards the Governance Committee may deem appropriate from time to time for the overall structure and composition of the Board of Directors, the Governance Committee, when recommending that the Board of Directors select persons for nomination, may consider whether the nominee has direct experience in the industry or in the markets in which the Company operates.

The Governance Committee will recommend to the Board of Directors the nomination of the director candidates who it believes will, together with the existing members of the Board of Directors and other nominees, best serve the interests of the Company and its stockholders.

Identifying and Evaluating Nominees

The Governance Committee may solicit recommendations for director nominees from any or all of the following sources: non-management directors, the Chief Executive Officer, other executive officers, third-party search firms, or any other source it deems appropriate. The Governance Committee will review and evaluate the qualifications of any proposed director candidate that it is considering or that has been recommended to it by a securityholder in compliance with the Governance Committee's procedures for that purpose and conduct inquiries it deems appropriate into the background of these proposed director candidates. In identifying and evaluating proposed director candidates, the Governance Committee may consider, in addition to the minimum qualifications and other criteria for membership on the Board of Directors approved by the Governance Committee from time to time, all facts and circumstances that it deems appropriate or advisable, including, among other things, the skills of each proposed director candidate, his or her depth and breadth of business experience or other background characteristics, his or her independence and the needs of the Board of Directors. Based on these considerations, the Governance Committee will recommend to the Board of Directors the

nomination of the director candidates who it believes will, together with the existing members of the Board of Directors and other nominees, best serve the interests of the Company and its stockholders. The Governance Committee will evaluate proposed director candidates who have been recommended by securityholders in compliance with the policies and procedures established by the Governance Committee in the same manner as all other proposed director candidates being considered by the Governance Committee, with no regard to the source of the initial recommendation of such proposed director candidate.

The foregoing policies regarding securityholder recommendations, Board membership criteria and identifying and evaluating nominees do not apply to directors appointed by the holders of the Class B Capital Stock.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

We provide what we believe is a competitive total compensation package to our executive management team through a combination of base salary, annual cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. We place emphasis on pay for performance-based incentive compensation, which is designed to reward our executives based on the achievement of predetermined performance goals. This Compensation Discussion and Analysis explains our compensation objectives, policies and practices with respect to our Chief Executive Officer, Chief Financial Officer and the other three most highly-compensated executive officers as determined in accordance with applicable SEC rules, which are collectively referred to as the named executive officers.

The Company's Chief Financial Officer position experienced numerous changes during Fiscal 2007. Jean Nelson served as Chief Financial Officer from November 2006 until she resigned in February 2007. David Waldek served as Interim Chief Financial Officer from February 2007 through July 2007. During Mr. Waldek's tenure as Interim Chief Financial Officer, Robert Powers, the Company's Corporate Controller at that time and Interim Chief Financial Officer from June 2006 through November 2006, served as the Company's principal financial officer for purposes of filing the Company's 2007 Form 10-K and 2007 first quarter Form 10-Q. Gerald Anderson became the Chief Financial Officer of the Company in July 2007, at which point Mr. Waldek stepped down as Interim Chief Financial Officer, but has remained with the Company as Vice President of Finance.

The Company's Chief Technology Officer, John Elter, retired in December of 2007 and has been retained by the Company as a consultant through December 31, 2008. Additionally, in February 2007, Gregory Silvestri resigned as President and Dr. Roger Saillant, the Chief Executive Officer at the time, was reinstated as President. Effective as of April 7, 2008, Dr. Saillant resigned from his positions as the President, Chief Executive Officer and a Director of the Company. Andrew Marsh was appointed by the Board of Directors as President, Chief Executive Officer and member of the Board of Directors of the Company effective April 8, 2008.

Objectives of Our Executive Compensation Programs

Our compensation programs for our named executive officers are designed to achieve the following objectives:

Attract and retain talented and experienced executives;

Motivate and reward executives whose knowledge, skills and performance are critical to our success;

Provide a competitive compensation package which is weighted towards pay for performance and in which total compensation is primarily determined by Company and individual results and the creation of shareholder value;

Ensure fairness among the executive management team by recognizing the contributions each executive makes to our success; and

Motivate our executives to manage our business to meet our short- and long-term objectives and reward them for meeting these objectives.

Our Executive Compensation Programs

Our executive compensation primarily consists of base salary, annual cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. Consistent with the emphasis we place on pay for performance-based incentive compensation, long-term equity incentive compensation in the form of stock options constitutes a significant portion of our total executive compensation.

Within the context of the overall objectives of our compensation programs, our Compensation Committee determined the specific amounts of compensation to be paid to each of our executives in 2007 based on a number of factors, including:

its understanding of the amount of compensation generally paid by similarly situated companies to their executives with similar roles and responsibilities;

our executives' performance during 2007 in general and as measured against predetermined performance goals;

the roles and responsibilities of our executives;

the individual experience and skills of, and expected contributions from, our executives;

the amounts of compensation being paid to our other executives;

our executives' historical compensation at our Company; and

any contractual commitments we have made to our executives regarding compensation.

Each of the primary elements of our executive compensation is discussed in detail below, including a description of the particular element and how it fits into our overall executive compensation and a discussion of the amounts of compensation paid to our named executive officers in 2007 under each of these elements. In the descriptions below, we have identified particular compensation objectives which we have designed our executive compensation programs to serve; however, we have designed our compensation programs to complement each other and collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that, as a part of our overall executive compensation, each element to a greater or lesser extent serves each of our objectives.

Base Salary

We pay our executives a base salary which we review and determine annually. We believe that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. We also believe that attractive base salaries can motivate and reward executives for their overall performance. Base salaries are established in part based on the individual experience, skills and expected contributions of our executive and our executive's performance during the prior year.

In 2007, we increased the base salaries of our named executive officers as follows: Mr. Sperry's base salary increased from \$238,335 to \$248,000 per year and Mr. Hutchison's base salary increased from \$225,000 to \$238,500 per year. Mr. Greenberg's base salary did not increase as he became Vice President of Sales in October 2006, and his base salary therefore remained at \$250,000 per year. Dr. Saillant declined a base salary increase and therefore his base salary remained at \$325,000 per year. We initially hired Mr. Anderson in July 2007, and we established his base salary at \$225,000. Our executives' base salaries reflect the initial base salaries that we negotiated with each of our executives at the time of his or her initial employment or promotion and our subsequent adjustments to these amounts to reflect market increases, the growth and stage of development of our Company, our executives' performance and increased experience, any changes in our executives' roles and responsibilities and other factors. The initial base salaries that we negotiated with our executives were based on our understanding of the market at the time, the individual experience and skills of, and expected contribution from, each executive, the roles and responsibilities of the executive, the base salaries of our existing executives and other factors.

Annual Cash Incentive Bonuses

Consistent with our emphasis on pay for performance incentive compensation programs, our executives are eligible to receive annual cash incentive bonuses primarily based upon their performance as measured against predetermined performance goals, including financial measures, achievement of strategic objectives and other

factors. The primary objective of our annual cash incentive bonuses is to motivate and reward our named executive officers for meeting our objectives using a pay for performance-based program with objectively determinable performance goals. We do not believe that every important aspect of executive performance is capable of being specifically quantified in a predetermined objective performance goal. For example, events outside of our control may occur after we have established the executives' performance goals for the year that require our executives to focus their attention on different or other strategic objectives.

We establish the target amount of our annual cash incentive bonuses at levels that represent a portion of our executives' currently paid out cash compensation. The annual cash incentive bonus for each of our executives is to be paid based on the level of achievement of predetermined performance goals.

In 2007, we established a target annual cash incentive bonus for each of our executives of 10%, 20% or 30% of his or her base salary. Specific performance goals are aligned with each of these bonus levels. The goals are set for each individual to reflect an approximate likelihood of attainment of 90% for the 10% bonus level performance goals, 70% for the 20% bonus level performance goals and 50% for the 30% bonus level performance goals. Since the annual cash incentive bonus is payable based on the achievement of each of the different levels of performance goals, the executive officer may earn between 0% and 30% of his or her base salary based on his or her performance. Our maximum and threshold levels for these performance goals are determined in relation to our target levels and are intended to provide for correspondingly greater or lesser incentives in the event that performance is within an appropriate range above or below the target level. Because disclosure of the specific performance goals would give competitors information that could be leveraged by our competitors for competitive advantage, we do not disclose these specific performance goals. Generally these goals fell into one or more of the following categories: (i) increase sales, (ii) decrease product cost, (iii) improve product performance and reliability, (iv) market development, and (v) long-term strategy.

Neither the public corporate milestones, nor the specific performance goals for individual executives for 2008 have been determined as of the date of this proxy statement. Knowing that the Company's CEO and President of the past eight years, Roger Saillant, would be retiring effective April 7, 2008 and that the Company would be welcoming its new CEO and President, Andrew Marsh on April 8, 2008, the Board believed that it would be premature to announce public milestones for 2008 prior to Mr. Marsh's arrival. Similarly, the Board believed that it would be premature to set the executives' performance goals as they are intimately linked to the corporate milestones. The corporate milestones and executives' performance goals for 2008, therefore, will be announced subsequent to this proxy statement and disclosed in a Form 8-K filed with the U.S. Securities and Exchange Commission (SEC).

In 2007, none of the executive officers attained their performance goals; and, therefore, none of them received cash incentive bonuses in 2007, except Mr. Greenberg, whose October 2006 offer letter provides for a minimum 2007 bonus equal to 25% of his base salary (\$62,500), and Mr. Anderson, whose July 2007 offer letter provides for a minimum 2007 bonus equal to 10% of his base salary (\$22,500). It should be noted that executive officers must be employed with the Company a minimum of 4 months to be eligible for a cash incentive bonus. Additional cash bonuses outside of the performance-based plan were paid to executives who played a key role in the integration of the two companies acquired in 2007, Cellex Power Products, Inc. and General Hydrogen Corporation, with the Company. Mr. Sperry received a cash bonus based on his significant role in the integration equal to approximately 3.3% of his base salary (\$8,000).

Long-Term Equity Incentive Compensation

We grant long-term equity incentive awards in the form of stock options and restricted stock to executives as part of our total compensation package. Consistent with our emphasis on pay for performance-based incentive compensation, these awards represent a significant portion of total executive compensation. Based on the stage of our Company's development and the incentives we aim to provide to our executives, we have chosen to use either stock options or a combination of stock options and restricted stock as our long-term equity incentive awards. Our decisions regarding the amount and type of long-term equity incentive compensation and relative

weighting of these awards among total executive compensation have also been based on our understanding of market practices of similarly situated companies and our negotiations with our executives in connection with their initial employment or promotion by our Company.

Additionally, the Board adopted stock ownership guidelines for named executives, effective as of August 15, 2005, which are also considered when granting long-term equity incentive awards to executives. These guidelines provide a target level of Company equity holdings with which named executives are expected to comply within five (5) years from the latter of the effective date of the guidelines or the date the individual is first appointed as an executive. The target stock holdings are determined as a multiple of the named executive's base salary and then converted to a fixed number of shares. The named executive's base salary is multiplied by five (5) for Chief Executive Officer and by three (3) for all other named executives; then that product is divided by Plug Power's 200-day average common stock price as reported by the NASDAQ; and finally that amount is then rounded to the nearest 100 shares. The following counts towards satisfaction of these stock ownership guidelines: shares owned outright by the executive or his or her immediate family members residing in the same household; stock held in the Plug Power Inc. Savings and Retirement Plan (401K Plan); stock held in the Plug Power Inc. Employee Stock Purchase Plan (ESPP); restricted stock issued as part of an executive's annual or other bonus whether or not vested; shares acquired upon the exercise of employee stock options; shares underlying unexercised employee stock options as part of the Plug Power Inc. Employee Stock Option Plan (ESOP) times a factor of 33 percent; and shares held in trust.

Stock option awards provide our executive officers with the right to purchase shares of our common stock at a fixed exercise price typically for a period of up to ten years, subject to continued employment with our Company. Stock options are earned on the basis of continued service to us and generally vest over three years, beginning with one-third vesting on after the first anniversary of the grant date, one-third vesting on the second anniversary of the grant date and the final one-third vesting on the third anniversary of the grant date, subject to acceleration in certain circumstances. Stock option awards are made pursuant to our 1999 Stock Option and Incentive Plan. Except as may otherwise be provided in the applicable stock option award agreement, stock option awards become fully exercisable upon a change of control under the 1999 Stock Option and Incentive Plan. The exercise price of each stock option granted under our 1999 Stock Option and Incentive Plan is the closing price of our common stock on the NASDAQ Global Market as of the effective date of each grant.

We make grants to our existing executive officers on an annual basis; however, grants to new hires and grants relating to an existing executive officer's promotion may be made on a periodic basis. All grants to executive officers are approved by the Compensation Committee. In 2007, we considered a number of factors in determining the number of stock options, if any, to grant to our executives, including:

the number of shares subject to, and exercise price of, outstanding options, both vested and unvested, held by our named executive officers;

the vesting schedule of the unvested stock options held by our named executive officers; and

the amount and percentage of our total equity on a diluted basis held by our named executive officers.

Restricted stock awards provide our executive officers with shares of our stock that they may retain or trade; however, all executive officers must trade within their rights according to our Insider Trading Policy. The restricted stock is intended to be a long-term incentive alternative to the stock option awards that may be appropriate for executive officers based on their performance and their critical skills. Restricted stock awards may vest over three years, beginning with one-third vesting one year after the date of grant, then pro-rata vesting monthly thereafter. Restricted stock awards are made pursuant to our 1999 Stock Option and Incentive Plan.

Broad-Based Benefits

All full-time employees, including our named executive officers, may participate in our health and welfare benefit programs, including medical, dental and vision care coverage, disability insurance and life insurance, and our 401(k) plan.

Our Executive Compensation Process

The Compensation Committee of our board of directors is responsible for determining the compensation for our named executive officers. The Compensation Committee is composed entirely of non-employee directors who are independent as that term is defined in the applicable NASDAQ rules. In determining executive compensation, our Compensation Committee annually reviews the performance of our executives with our Chief Executive Officer, and our Chief Executive Officer makes recommendations to our Compensation Committee with respect to the appropriate base salary, annual cash incentive bonus payments and performance measures, and grants of long-term equity incentive awards for each of our executives. The Chairman of the Compensation Committee makes recommendations to the Compensation Committee with regards to the Chief Executive Officer's compensation. The Compensation Committee makes its determination regarding executive compensation and then recommends such determination to the Board of Directors. The Board of Directors ultimately approves executive compensation.

As a result, the total amount of compensation that we paid to our executives, the types of executive compensation programs we maintained and the amount of compensation paid to our executives under each program has been determined by our Compensation Committee and Board of Directors based on their understanding of the market, experience in making these types of decisions and judgment regarding the appropriate amounts and types of executive compensation to provide.

Discussion of Summary Compensation, All Other Compensation, and Grants of Plan-Based Awards Tables

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table, All Other Compensation Table, and the Grants of Plan Based Awards Table was paid or awarded, are described above under Compensation Discussion and Analysis. A summary of certain material terms of our compensation plans and arrangements is set forth below.

Employment Agreements

The Company and Dr. Saillant were parties to an employment agreement which renewed automatically for successive one-year terms unless Dr. Saillant or the Company gave notice to the contrary. Dr. Saillant received an annual base salary of \$325,000 and was eligible to: (i) receive an annual incentive bonus with a target amount

equal to 100 percent of his annual base salary; (ii) participate in all savings and retirement plans; and (iii) participate in all benefit and executive perquisites. Dr. Saillant's employment could have been terminated by the Company for cause, as defined in the agreement, or by Dr. Saillant for good reason, as defined in the agreement, or without good reason upon sixty days' prior notice to the Company. If Dr. Saillant's employment was terminated by the Company for any reason other than cause, death or disability, or in the event that Dr. Saillant terminated his employment with the Company and was able to establish good reason, the Company was obligated to pay Dr. Saillant the sum of the following amounts: (i) his expected bonus through the date of termination; plus (ii) either, two years' annual base salary and two years' expected bonus if the date of termination occurred within one year after a change in control of the Company, or one year's annual salary and one year's expected bonus if the termination occurred either in the absence of a change in control or more than one year after a change in control. In the event of a termination for good reason, Dr. Saillant was entitled to be fully vested in any outstanding restricted stock, stock options and other stock awards previously granted. Furthermore, the Company was required to continue paying health insurance and other benefits to Dr. Saillant and his eligible family members for twelve (12) months following his termination.

Dr. Saillant retired as President, Chief Executive Officer and as a member of the Board of Directors of the Company effective as of the close of business on April 7, 2008 (the Retirement Date). In connection with his retirement, the Company and Dr. Saillant entered into a retirement agreement on April 2, 2008. The retirement agreement provides for Dr. Saillant to receive a retirement payment, in the amount of \$1,494,966, on the date that is six months after the Retirement Date. The majority of the retirement payment, \$1,169,966, is required under the terms of Dr. Saillant's 2000 employment agreement with the Company, mentioned above, and is intended to make Dr. Saillant whole for the retirement benefits he gave up by leaving Visteon Corp. to join the Company in 2000. The retirement agreement also provides that Mr. Saillant will, for the period of twelve months subsequent to the Retirement Date, make himself available to the Company's Chief Executive Officer to advise on transition matters, and the Company shall compensate him for such services at the rate of \$1,000 per day of service.

The Company and Mr. Sperry are parties to an employment agreement pursuant to which he will continue to receive fifty percent (50%) of his base salary for a period of twelve (12) months following termination for any reason other than his gross misconduct, negligence, theft, fraud or complete failure to perform his duties to the Company. Additionally, his stock options will continue to vest and the Company will continue his health and other benefits for twelve (12) months following the termination.

The Company and Mr. Sperry are parties to an agreement that provides, among other things, that if, within twenty-four (24) months after a change in control, the Company terminates such executive's employment or assigns him duties materially inconsistent with his position (a Terminating Event), then such executive shall be entitled to (1) receive a lump sum payment equal to the sum of (i) his average annual base salary over the three fiscal years prior to the Terminating Event and (ii) his average annual bonus over the three fiscal years prior to the change in control, (2) continued vesting of his stock options for twelve (12) months following the Terminating Event, and (3) receive benefits, including health and life insurance for twelve (12) months following the Terminating Event.

Annual Cash Incentive Bonuses

In 2007, we established target annual cash incentive bonuses for each of our named executive officers as a percentage of that executive's base salary according to the executives' achievement of a number of predetermined performance goals, as described above under "Our Executive Compensation Programs Annual Cash Incentive Bonuses." Generally, for each goal, the executive has the ability to earn between 0% and 30% of the target bonus amount based on the level of achievement of his or her personal performance goals. The named executive officers did not achieve their performance goals in 2007 and therefore did not receive their target annual cash incentive bonuses; however, Mr. Anderson and Mr. Greenberg received guaranteed minimum bonuses that the Company had agreed to in their offer letters as discussed above in *Annual Cash Incentive*

Bonuses. Mr. Anderson received \$22,500, or 10% of his annual base salary, and Mr. Greenberg received \$62,500, or 25% of his annual base salary. Additionally, Mr. Sperry received a cash bonus of \$8,000, or approximately 3.3% of his annual base salary, for his role in the integration of the two companies acquired by the Company in 2007.

2007 Stock Option Grants

In 2007, we granted Mr. Anderson stock options under our 1999 Stock Option and Incentive Plan to purchase 45,000 shares of common stock at an exercise price of \$3.33 per share. Mr. Anderson's stock options vest in equal thirds with one-third immediately vested upon the grant date, one-third vesting on the first anniversary of the grant date, and the remaining one-third vesting on the second anniversary of the grant date. Additionally, in 2007 we granted Mr. Waldek the stock options to purchase 25,000 shares of common stock at an exercise price of \$3.17 per share, Mr. Sperry the stock option to purchase 40,000 shares of common stock at an exercise price of \$3.75 per share and Mr. Hutchinson the stock option to purchase 25,000 shares of common stock at an exercise price of \$3.75 per share. Each of these stock options has an exercise price equal to the fair market value on grant date and a term of ten years. Each of Messrs. Sperry and Hutchinson's stock options vest over three years with one-third of the total award vesting on the first anniversary of the grant date and the remainder vesting on the second and third anniversaries of the grant date.

1999 Stock Option and Incentive Plan

Administration. Our Board of Directors currently administers our 1999 Stock Option and Incentive Plan. The Compensation Committee of our Board of Directors is responsible for reviewing all of our executive compensation plans.

Eligibility. All of our employees, consultants and non-employee directors are eligible to be granted awards under our 1999 Stock Option and Incentive Plan. An employee, consultant or non-employee director granted an award is a participant under our 1999 Stock Option and Incentive Plan.

Number of Shares Available for Issuance. The maximum number of shares of our common stock that are authorized for issuance under our 1999 Stock Option and Incentive Plan as of January 1, 2008 is 14,481,262. Shares issued under the 1999 Stock Option and Incentive Plan may be treasury shares or authorized but unissued shares. In the event the number of shares to be delivered upon the exercise or payment of any award granted under the 1999 Stock Option and Incentive Plan is reduced for any reason or in the event that any award (or portion thereof) can no longer be exercised or paid, the number of shares no longer subject to such award shall be released from such award and shall thereafter be available under the 1999 Stock Option and Incentive Plan for the grant of additional awards. Upon the occurrence of a merger, consolidation, recapitalization, reclassification, stock split, stock dividend, combination of shares or the like, the plan administrator may ratably adjust the aggregate number and affected class of securities available under the 1999 Stock Option and Incentive Plan.

Types of Awards. The plan administrator may grant the following types of awards under our 1999 Stock Option and Incentive Plan: stock options; restricted stock; or other stock-based awards. Stock options awarded under our 1999 Stock Option and Incentive Plan may be nonqualified stock options or incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended. With the exception of incentive stock options, the plan administrator may grant, from time to time, any of the types of awards under our 1999 Stock Option and Incentive Plan to our employees, consultants and non-employee directors. Incentive stock options may only be granted to our employees.

Stock Options. A stock option is the right to acquire shares of our common stock at a fixed price for a fixed period of time and generally is subject to a vesting requirement. To date, as a matter of practice, options have generally been subject to a three-year vesting period, with one-third of the total award vesting at the first anniversary of the grant date and the remainder vesting in equal thirds each anniversary thereafter. A stock option will be in the form of a nonqualified stock option or an incentive stock option. The exercise price is set as the

market price on the grant date. The term of a stock option may not exceed ten years or five years in the case of incentive stock options granted to a 10% owner. Our 1999 Stock Option and Incentive Plan also allows for the early exercise of unvested options, provided that right is permitted in the applicable stock option agreement. All outstanding unvested shares of our common stock acquired through early exercised options are subject to repurchase by us. After termination of an optionee, he or she may exercise his or her vested options for the period of time stated in the stock option agreement. Generally, if termination is due to death or disability, the vested option will remain exercisable for twelve (12) months; if termination is for cause, the option may no longer be exercised; and, in all other cases, for executives, the vested options will remain exercisable for executives twelve (12) months. However, an option may not be exercised later than its expiration date.

Restricted Stock. A restricted stock award is an award entitling the recipient to acquire, at par value or such other higher purchase price determined by the administrator, shares of stock subject to such restrictions and conditions as the administrator may determine at the time of grant. Conditions may be based on continuing employment (or other business relationship) and/or achievement of pre-established performance goals and objectives. The grant of a restricted stock award is contingent on the participant executing the restricted stock award agreement. Restricted stock awards are shares of our common stock that are subject to cancellation, restrictions and vesting conditions, as determined by the plan administrator. Restricted stock awards generally vest over three years, beginning with one-third vesting one year after the date of grant, then pro-rata vesting monthly thereafter. Restricted stock awards are made pursuant to our 1999 Stock Option and Incentive Plan.

Other Awards. The administrator of the 1999 Stock Option and Incentive Plan also may grant other forms of awards that generally are based on the value of our common stock as determined by the plan administrator to be consistent with the purposes of our 1999 Stock Option and Incentive Plan.

Amendment and Discontinuance; Term. The plan administrator may amend, suspend or terminate our 1999 Stock Option and Incentive Plan at any time, with or without prior notice to or consent of any person, except as would require the approval of our stockholders, be required by law or the requirements of the exchange on which our common stock is listed or would adversely affect a participant's rights to outstanding awards without their consent. Unless terminated earlier, our 1999 Stock Option and Incentive Plan will expire on the tenth anniversary of its effective date.

Outstanding Equity Awards at 2007 Fiscal Year-End Table

This table includes unexercised and unvested option awards and unvested restricted stock. The market value of the stock awards is based on the closing market price of Plug Power stock as of December 31, 2007, which was \$3.95. Option Exercises and Stock Vested in Fiscal 2007 Table

The following table provides information for the named executive officers on (1) stock option exercises during 2007, including the number of shares acquired upon exercise and the value realized; and (2) the number of shares acquired upon the vesting of restricted stock awards and the value realized, in each case before payment of any applicable withholding tax and broker commissions.

Name	Option Awards (1)		Stock Awards (2)

Mark A. Sperry			6,999	25,826
Allan Greenberg			4,999	16,997

- (1) There were no option exercises during the year for the named executives.
- (2) Mr. Sperry received 6,999 shares on February 1, 2007 at a market price of \$3.69 and Mr. Greenberg received 4,999 shares on October 30, 2008 at a market price of \$3.40 due to the lapse of vesting restrictions on those dates.

Potential Payments Upon Termination or Change-in-Control

The Company and Dr. Saillant were parties to an employment agreement that provided for payment upon termination or change-in-control; however, Dr. Saillant retired from the Company effective as of April 7, 2008 (Retirement Date) and pursuant to the employment agreement and retirement agreement as discussed above in *Employment Agreements* he will receive an aggregate sum of \$1,494,966, on the date that is six months after the Retirement Date.

The Company and Messrs. Anderson and Sperry are parties to a severance agreement and an employment agreement, respectively, that provides for a potential payment upon termination for other than cause. Mr. Sperry's employment agreement is also discussed above in *Employment Agreements*. In the event that Mr. Anderson's severance agreement or Sperry's employment agreement is terminated by us without cause and such named executive signs a comprehensive release in the form, and of a scope acceptable to the Company, such named executive will be entitled to continue to be paid 100 percent (100%) of his base salary plus annual bonus received in the year prior to the date of termination for a period of twelve (12) months, in the case of Mr. Anderson, or fifty percent (50%) of his base salary for a period of twelve (12) months, in the case of Mr. Sperry, as applicable, following termination without cause. Upon termination without cause, Mr. Anderson will also be entitled to an acceleration of all equity grants that would have vested in the twelve (12) months following the date of termination. Upon termination without cause, Mr. Sperry will also be entitled to continued vesting of outstanding equity awards. Additionally, such named executives will be entitled to health insurance and life insurance for a period of twelve (12) months following termination without cause. Notwithstanding the foregoing, in no event is Messrs. Anderson or Sperry entitled to receive any such payment after he breaches any non-compete, non-solicit or non-disclosure covenant contained in the non-competition and non-solicitation agreement or the employee nondisclosure and developments agreement between us and such named executive. We agreed to provide severance payments to this executive in these circumstances based on our negotiations with each of our executives at the time they joined our Company and in order to provide a total compensation package that we believed to be competitive. Additionally, we believe that providing severance upon a termination without cause can help to encourage our executives to take the risks that we believe are necessary for our Company to succeed and also recognizes the longer hiring process typically involved in hiring a senior executive.

Cause generally may mean any of the following: (1) the failure or refusal of the named executive to render services to us in accordance with his obligations under the employment agreement or a determination by us that the named executive has failed to perform the duties of his employment; (2) disloyalty, gross negligence, dishonesty, breach of fiduciary duty or breach of the terms of the employment agreement or the other agreements executed in connection therewith; (3) the commission by the named executive of an act of fraud, embezzlement or disregard of our rules or policies or the commission by the named executive of any other action which injures us; (4) acts which, in the judgment of our board of directors, would tend to generate adverse publicity toward us; (5) the commission, or plea of nolo contendere, by the named executive of a felony; (6) the commission of an act which constitutes unfair competition with us or which induces any of our customers to breach a contract with us; or (7) a breach by the named executive of the terms of the non-competition and non-solicitation agreement or the employee nondisclosure and developments agreement between us and the named executive.

If Mr. Sperry had been terminated without cause on December 31, 2007, the approximate value of the severance packages, including, as mentioned above, salary, benefits and equity awards, under the employment agreement for such named executive would have been \$135,930. If Mr. Anderson had been terminated without cause on December 31, 2007, the approximate value of the severance packages, including, as mentioned above, salary, benefits and equity awards, under the severance agreement for such named executive would have been \$306,927. This includes an acceleration of any remaining unvested options granted to such named executive under the 1999 Stock Option and Incentive Plan.

The Company and Messrs. Anderson, Sperry, Waldek, Hutchison and Greenberg are parties to an executive severance agreement that provides for a potential payment upon a change-in-control. In the case Mr. Sperry, in the event that within twenty-four (24) months after a change-in-control his employment is terminated without

cause, or he experiences a material negative change in his compensation or responsibilities he will be entitled to be paid the average annual base salary over the prior three (3) years, as applicable. In the event that within twelve (12) months after a change-in-control the named executive's employment is terminated without cause, or he experiences a material negative change in his compensation or responsibilities each executive will be entitled to be paid the average annual base salary over the prior three (3) years, in the case of Messrs. Anderson, Waldek, Hutchison and Greenberg. Additionally, Messrs. Anderson, Sperry, Waldek, Hutchison and Greenberg will be entitled to be paid their average annual bonus over the prior three (3) years. Upon a change-in-control, a named executive will also be entitled to continued vesting of any remaining unvested options for a period of twelve (12) months. Further, a named executive will be entitled to health and other benefits from the Company for a period of twelve (12) months following such termination.

Change-in-control generally means any of the following: (1) a sale or other disposition of all or substantially all of our assets; or (2) a merger or consolidation after which our voting securities outstanding immediately before the transaction cease to represent at least a majority of the combined voting power of the successor entity's outstanding voting securities immediately after the transaction. We agreed to provide payments to these executives in these circumstances in order to provide a total compensation package that we believed to be competitive. Additionally, the primary purpose of our equity-based incentive awards is to align the interests of our executives and our stockholders and provide our executives with strong incentives to increase stockholder value over time. As change-in-control transactions typically represent events where our stockholders are realizing the value of their equity interests in our Company, we believe it is appropriate for our executives to share in this realization of stockholder value, particularly where their employment is terminated in connection with the change-in-control transaction. We believe that this will also help to better align the interests of our executives with our stockholders in pursuing and engaging in these transactions.

If a change-in-control had occurred on December 31, 2007 and on that date Messrs. Anderson, Sperry, Waldek, Hutchison or Greenberg had been terminated without cause, experienced a material negative change in his or her compensation or responsibilities or was required to be based at a location more than 50 miles from his or her current work location, the value of the change-of-control provisions, including, as mentioned above, salary, benefits, equity awards and bonus, under the employment or executive severance agreements for each such named executive would have been as follows: Mr. Anderson \$264,554, Mr. Sperry \$386,107, Mr. Waldek \$160,165, Mr. Hutchison \$246,478 and Mr. Greenberg \$331,473.

The following Report of the Compensation Committee of the Board of Directors on Executive Compensation will not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any of the Company's filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and will not otherwise be deemed filed under such Acts.

Report of the Compensation Committee of the Board of Directors on Executive Compensation

The Compensation Committee reviews and evaluates individual executive officers and determines the compensation for each executive officer (See the section entitled *Executive Compensation*). The Compensation Committee also oversees management's decisions concerning the performance and compensation of other Company officers, administers the Company's incentive compensation and other stock-based plans, evaluates the effectiveness of its overall compensation programs, including oversight of the Company's benefit, perquisite and employee equity programs, and reviews the Company's management succession plans. A more complete description of the Compensation Committee's functions is set forth in the Compensation Committee's charter which is published on the Investors section of the Company's website at www.plugpower.com. Each member of the Compensation Committee is an independent director as defined in the NASDAQ Rules.

In general, the Compensation Committee designs compensation to attract, retain and motivate a superior executive team, reward individual performance, relate compensation to Company goals and objectives and align the interests of the executive officers with those of the Company's stockholders. We rely upon our judgment

about each individual and not on rigid guidelines or formulas, or short-term changes in business performance in determining the amount and mix of compensation elements for each senior executive officer. Key factors affecting our judgments include: the executive's performance compared to the goals and objectives established for the executive at the beginning of the year; the nature, scope and level of the executive's responsibilities; the executive's contribution to the Company's financial results; the executive's effectiveness in leading the Company's initiatives to increase customer value, productivity and revenue growth; the executive's contribution to the Company's commitment to corporate responsibility, including the executive's success in creating a culture of unyielding integrity and compliance with applicable law and the Company's ethics policies; and the executive's commitment to community leadership and diversity.

The Compensation Committee has reviewed the Compensation Discussion and Analysis and discussed that analysis with Management. Based on its review and discussions with Management, the Compensation Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K for 2007 and the Company's 2008 Proxy statement. This report on executive compensation for Fiscal 2007 is provided by the undersigned members of the Compensation Committee of the Board of Directors.

PROPOSAL 2: RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Introduction

The Audit Committee of the Board of Directors has appointed the firm of KPMG, independent auditors, to serve as independent auditors for its 2008 fiscal year. KPMG has served as the Company's independent auditing firm since December 3, 2001. The Audit Committee reviewed and discussed its selection of, and the performance of, KPMG for its 2008 fiscal year. As a matter of good corporate governance, the Audit Committee has determined to submit its selection to stockholders for ratification. If the selection of auditors is ratified, the Audit Committee in its discretion may select a different independent auditing firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

The Audit committee of the Board of Directors has implemented procedures under the Company's Audit committee pre-approval policy for audit and non-audit services (the Pre-Approval Policy) to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of KPMG for specific audit and non-audit services, within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before it may be provided by KPMG. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by the Audit Committee. For additional information concerning the Audit Committee and its activities with KPMG, see Committees and Meetings of the Board of Directors and Audit Committee Report above.

Representatives of KPMG attended four out of the four in-person meetings of the Audit Committee in 2007. We expect that a representative of KPMG will attend the annual meeting, and the representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from stockholders.

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's officers, as defined by Section 16, and directors, and persons who own more than 10% of the Company's outstanding shares of Common Stock (collectively, Section 16 Persons), to file initial reports of ownership and reports of changes in ownership with the SEC. Section 16 Persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

Form 4s were filed late for all executive officers that sold stock to cover taxes on February 1, 2007. Additionally, Form 4s were filed late for all directors, with the exception Sergey Batekhin and Sergey Polikarpov, who received stock on April 3, 2007 as part of their quarterly compensation. However, Form 4s were filed late for Sergey Batekhin and Sergey Polikarpov for their April 19, 2007 receipt of stock as part of their quarterly compensation. In May 2007, Form 3s were filed late for Allen K. Bucknam and Bradley H. Johnson, both section 16 executive officers at the time.
