Forward-Looking and Cautionary Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Among other things, these statements relate to our financial condition, results of operations and future business plans, operations, opportunities and prospects. In addition, we and our representatives may from time to time make written or oral forward-looking statements, including statements contained in other filings with the Securities and Exchange Commission and in our reports to stockholders. These forward-looking statements are generally identified by the words or phrases may, could, should, expect, anticipate, plan, believe, seek, estimate, predict, project or words of similar import. These forward-looking statements are based upon our current knowledge, assumptions about future events and involve risks and uncertainties that could cause our actual results, performance or achievements to be materially different from any anticipated results, prospects, performance or achievements expressed or implied by such forward-looking statements. These forward-looking statements are not guarantees of future performance. Many factors are beyond our ability to control or predict. You are accordingly cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date that we make them. We do not undertake to update any forward-looking statement that may be made from time to time by or on our behalf.

In our most recent Form 10-K, we have included risk factors and uncertainties that might cause differences between anticipated and actual future results. We have attempted to identify, in context, some of the factors that we currently believe may cause actual future experience and results to differ from our current expectations regarding the relevant matter or subject area. The operations and results of our software and systems integration businesses also may be subject to the effects of other risks and uncertainties, including, but not limited to:

a reduction in anticipated sales;

an inability to perform customer contracts at anticipated cost levels;

our ability to otherwise meet the operating goals established by our business plan;

market acceptance of our new software, technology and services offerings;

an economic downturn; and

changes in the competitive market place and/or customer requirements.

CSI Among Fastest Growing Solution Providers in U.S.

August, 4 2008 Easley, South Carolina Impressive sales growth at Computer Software Innovations, Inc. (CSI) (OTCBB: CSWI.OB) has earned the company inclusion in the CRN 2008 Fast Growth 100. CSI was recognized as the 38th fastest growing solution provider in the United States by generating a 122% increase over the past two years in reaching over \$44 million in sales in its technology business unit.

It s definitely an honor to be included in this prestigious industry ranking, said Nancy Hedrick CEO of CSI. Our success is a testament to the CSI team. They have revised processes to both encourage and manage our expansion and acquisitions, refined our product and service mix, evaluated new vendors, found the best new hires, and set the expectation that together we can accomplish amazing goals.

For example, our ranking in the CRN 2008 Fast Growth 100 is based solely on our hardware technology sales. CRN excludes software sales in their selection process which in combination with technology pushes total company sales to over \$55 million. A key reason we achieved such a high ranking based solely on technology sales is because our team created a comprehensive, multi-product connected classroom solution for the K12 vertical. They recruited the necessary vendors, developed promotion materials, restaged our event booth to showcase the solution, and brought their idea to market with absolutely phenomenal results.

One final thought that s very important, added Hedrick, a special thank you to our vendor partners. They too are an integral part of the CSI team.

The CRN Fast Growth 100 are the cream of the crop when it comes to Solution Providers who know how to wrap technology in world-class services offerings, and this years group demonstrate that the technology channel is strong and growing, said Robert C. DeMarzo, senior vice president and editorial director for Everything Channel editorial. Rank is based on two year s growth of net sales from calendar year 2005 to calendar year 2007. Net sales were verified by public filings when possible. All private companies provided a signed affidavit attesting to the accuracy of the reported 2005 and 2007 net sales figures or accountant-reviewed financials or audited financials. Affidavits were signed by an owner or officer of the company or by a CPA representing the company.

About Computer Software Innovations, Inc.

CSI provides software and technology solutions primarily to public sector markets. CSI has more than doubled its revenue in the past two years to over \$55 million by using organic growth and acquisitions to fuel an aggressive expansion from its southeast base. Over 600 school, government, and non-profit organizations have CSI solutions that encompass financial management software specialized for the public sector, IT infrastructure, IP telephony, IP video surveillance, printing/imaging, and interactive classroom technologies.
