Table of Contents**BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD**

Meetings. During 2008, the Board held fifteen meetings of the full Board and twenty nine meetings of committees. The Governance and Nominating Committee held four meetings, the Executive Compensation Committee held twelve meetings, the Audit Committee held twelve meetings and the Strategic Planning Committee met once during 2008. Each director attended at least 75% of the aggregate number of meetings of the Board and Committees of the Board on which he served. It is the policy of the Board that directors are encouraged to attend each meeting of Stockholders, and all of the Directors attended the last Annual Meeting of Stockholders.

Compensation. In February 2009, awards of restricted stock and stock options were made to non-employee directors.

In March 2009, the Board approved a 10% reduction in all board compensation for the remainder of 2009. Accordingly, the annual retainer and meeting fees paid to non-employee directors will be reduced for the remainder of 2009.

Non-Management Session Communications. For 2008 the non-management directors met in four executive sessions without management present.

Independence. The Board has determined that each of the directors except for Mr. Dumas is independent as that term is defined by rules of the New York Stock Exchange and, in the case of the Audit Committee, the Securities and Exchange Commission. Mr. Dumas is not an independent director because he is an officer and employee of the Company. Mr. Dumas has a 25% ownership interest in a company that has a 7% limited partnership interest in an investment partnership controlled by Mr. Chisholm, and the Board has determined that this net 1.75% limited partnership interest is immaterial and does not affect Mr. Chisholm's independence.

The following table shows the committees on which each director serves:

Director	Audit	Governance and Nominating	Compensation	Strategic Planning
John W. Chisholm			X	X
Barry E. Stewart	X		X	
Richard O. Wilson		X		X

Compensation Committee

The Compensation Committee of our Board of Directors has overall responsibility for the approval, evaluation and oversight of our compensation plans, policies and programs. The primary purpose of the Compensation Committee is to assist the Board of Directors in fulfilling its responsibilities relating to the compensation of our named executive officers and directors. The primary responsibilities of the Compensation Committee include, (i) annually reviewing our general compensation policies with respect to named executive officers and directors, (ii) annually reviewing and approving the corporate goals and objectives relevant to the compensation of our executive officers, evaluating our officers' performance in light of these goals, and approving or recommending to the Board compensation levels based on these evaluations, and (iii) producing a committee report on executive compensation as required by the SEC to be included or incorporated by reference in our proxy statement or other applicable SEC filings.

Our Board appoints our Compensation Committee members and Chair to five year terms, and these appointees continue to be members until their successors are elected and qualified or until their earlier resignation or removal. Any member of our Compensation Committee may be removed, with or without cause, by our Board. Our Board of Directors appoints members to the Compensation Committee considering criteria such as experience in compensation matters, familiarity with our management and other key personnel, understanding of public company compensation issues, time availability necessary to fulfill committee responsibilities and independence and other regulatory requirements. No member of our Compensation Committee participates in any of our employee compensation programs, and our Board has determined that none of our Compensation Committee members has any material business relationship with us. Currently, the members of the Compensation Committee are Barry E. Stewart, who serves as Chairman, Gary M. Pittman, who served as Chairman until August 2008 when his term as Chairman expired, and John W. Chisholm.

Table of Contents

Each member of the Compensation Committee is considered to be (1) independent under the currently applicable listing standards of the NYSE; (2) a non-employee director with the meaning of Rule 16b-3 under the Securities and Exchange Act of 1934, as amended; and (3) an outside director within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended.

The Compensation Committee on occasion meets with our Chief Executive Officer and other executives to obtain recommendations with respect to our compensation programs, practices and packages for executives, other employees and directors. Although management makes recommendations to the Compensation Committee on executive compensation, the Compensation Committee is not bound by and does not always accept management's recommendations. The Compensation Committee also seeks input from an independent compensation consultant prior to making any final determinations. Our Chief Executive Officer attends some of the Compensation Committee meetings, but the Compensation Committee also regularly holds executive sessions not attended by members of management or non-independent directors.

The Compensation Committee's function is more fully described in its charter. The Compensation Committee will continue to review and assess the adequacy of the charter and recommend any proposed changes to the Board for approval on an annual basis. The Compensation Committee works with our Chief Executive Officer to establish an agenda for each meeting of the Compensation Committee and to prepare meeting materials. Our Chief Executive Officer, outside corporate counsel, and other members of our management and outside advisors may be invited to attend all or a portion of a Compensation Committee meeting depending on the nature of the matters to be discussed. Only members of the Compensation Committee vote on items before the Compensation Committee; however, the Compensation Committee and Board of Directors often solicit the advice of our Chief Executive Officer on compensation matters, the compensation of other senior management and the other named executive officers.

On at least an annual basis, the Compensation Committee or our full Board approves all compensation and equity awards to our CEO, COO, CFO, the managers of our business segments and the Board. Further, the Compensation Committee approves grants for other employees of the Company from time to time.

Our Compensation Committee may retain, at our expense, independent compensation consultants in the consideration of executive compensation matters. The Compensation Committee meets with the compensation consultants, both in and outside of the presence of our management, to review findings and recommendations regarding executive compensation and considers those findings and recommendations in determining and making adjustments to our executive compensation program. For the year ended December 31, 2008, the Compensation Committee retained BDO Seidman LLP (referred to herein as the Compensation Consultant) to assist it in fulfilling its responsibilities as assigned by the Chair of the Committee. Under the direction of the Chair of the Compensation Committee, the Compensation Consultant provided information regarding compensation trends in the energy services industry, relative compensation for similarly-situated executive officers in the industry, the structure of our cash and equity incentive awards and the structure of the compensation program for outside directors. At the Committee's request, the Compensation Consultant worked with management to prepare materials for review by the Committee and made recommendations regarding the Committee's calendar.

Compensation Philosophy

Flotek operates in a very competitive environment. Our principal competitors are more established providers of services in our industry and, because of their size, have significant resource basis. In order to successfully compete in this environment, Flotek must be able to attract and retain highly skilled employees with well-developed management, operational and marketing skills. The Company has been successful in developing and retaining a highly-qualified management team by offering compensation that is equitable, reasonably competitive with what we believe they might earn elsewhere based on our understanding of market practices, and closely tied to performance through our annual salary review process, our annual cash bonus plan (our Pay for Performance Plan or PPP), and grants of stock options and restricted stock from our Equity Incentive Plan or EIP.

Table of Contents

In general, our executive compensation programs are designed to achieve the following objectives:

Attract and retain talented and experienced executives with the skills necessary to run and grow our existing business segments;

Attract and retain talented and experienced executives who can grow our Company through acquisitions and the successful integration of those acquisitions;

Align the interests of our executive officers with those of shareholders to increase the value of our enterprise;

Motivate and reward executives whose knowledge, skills and performance are critical to our success;

Demonstrate fairness among the executive management team by recognizing the contributions each executive makes to Flotek's success;

Provide accountability for the executives' performance to the Board;

Encourage a shared commitment among executives by coordinating Company and individual business unit targets and objectives; and

Encourage executives to meet non-financial goals that the Board believes are necessary for the success of the Company.

As we endeavor to evaluate the adequacy of our overall executive compensation program, our Compensation Committee works with the Compensation Consultant to evaluate and compare certain elements of total compensation against a group of similar publicly traded energy services companies (the Compensation Peer Group). We would prefer to define the market for our executive talent using a sizeable group of companies that are comparable in both size and line of business to us. However, there are not sufficient companies to us in size and line of business to comprise such a peer group. Therefore, as we evaluate the adequacy of our compensation programs, the Committee considers data in regard to our Compensation Peer Group and data from published survey sources as well as information from our directors, management and our Compensation Consultant based on their collective understanding of industry practices. The Companies that comprised our Compensation Peer Group in 2008 included the following:

Allis-Chalmers Energy, Inc.

Basic Energy Services, Inc.

Bolt Technology Corporation

Boots & Coots International Well Control, Inc.

Carbo Ceramics, Inc.

CE Franklin, LTD.

ENGlobal Corp.

Lufkin Industries, Inc.

Matrix Service Company

Natco Group, Inc.

Newpark Resources, Inc.

T-3 Energy Services, Inc.

Tesco Corporation

Table of Contents

The Compensation Committee intends to continually monitor the composition of the Compensation Peer Group to assure that it continues to provide a useful representation of the market for leadership talent in which the Company competes. As a result Boots & Coots International Well Control, Inc. and ENGlobal Corp. were removed for 2009.

Executive Officer Compensation

Principal Elements of Compensation of Our Named Executive Officers

Historically, the principal elements of the compensation package offered to our executive officers has consisted of:

Base salary;

Cash bonus incentive compensation under the terms of the Company's PPP; and

Equity compensation generally in the form of stock option or restricted stock grants under the terms of our 2005 and 2007 Long Term Incentive Plan.

Some, but not all of our named executive officers participate in certain perquisite programs as described later in this discussion and all of our named executive officers participate in group insurance programs and our 401(k) Plan on the same basis as all other employees of the company.

Allocation of Compensation among the Principal Components

The Committee has not established formulas for allocating compensation between compensation elements. Rather the Committee reviews compensation structures at companies in our Compensation Peer Group, historical compensation for the participant, the participant's responsibilities, the participant's performance on both financial metrics and individual goals and objectives provided by the Committee, and the individual circumstances of its senior executives when determining the mix of base salary, cash bonus percentages, and annual equity awards to be paid or awarded to our senior executive officers. However our historical practice has been to make executives' overall compensation opportunity significantly contingent on operational performance.

Base Salary

We review base salaries for our Chief Executive Officer and other executives annually to determine if a change is appropriate. In reviewing base salaries, we consider several factors including a comparison to base salaries paid for comparable positions in our Compensation Peer Group, the relationship among base salaries paid with our Company and individual experience and performance. Our intent is to fix base salaries at levels that we believe are consistent with our program design objectives, including the ability to attract, motivate and retain highly talented individuals in a competitive environment.

Chief Executive Officer

Mr. Dumas has been Chairman and Chief Executive Officer since 1998. Primarily based on market practices provided by the Compensation Consultant, the Compensation Committee determined in August 2008 that Mr. Dumas' annual salary was in line with the salaries being paid to chief executive officers in our Compensation Peer Group. Mr. Dumas' annual salary for 2008, therefore, remained \$450,000, as previously established by the Committee in July 2007.

Chief Operating Officer

Mr. Reeves was appointed Executive Vice President and Chief Operating Officer in May 2008. Prior to his appointment as Executive Vice President and Chief Operating Officer, Mr. Reeves served as President of the Company's Downhole Tool Division from January 2007, and served as Vice President of the Company's

Table of Contents

Turbeco Division from April 2004 until January 2007. The Committee increased Mr. Reeves' salary in May 2008 from \$200,000 to \$275,000 in connection with his promotion to Executive Vice President and Chief Operating Officer. In setting the new base annual salary for Mr. Reeves, the Committee considered information regarding compensation practices among companies in the Compensation Peer Group and the salaries of other key employees of the Company along with an informal evaluation of Mr. Reeves' past performance and future potential.

Chief Financial Officer

Mr. Neyman was appointed Senior Vice President and Chief Financial Officer in October 2008. Prior to his appointment as Senior Vice President and Chief Financial Officer, Mr. Neyman served as Vice President of Business Development from December 2006 until October 2008. The Compensation Committee increased Mr. Neyman's salary in October 2008 from \$185,000 to \$200,000 in connection with his promotion to Senior Vice President and Chief Financial Officer. The amount of the increase was based on the Compensation Committee's understanding of market practices in regard to compensation of Chief Financial Officers among companies of Flotek's size, Mr. Neyman's experience and his performance in previous roles with the Company.

Interim Chief Financial Officer

James Andrew Jowett joined Flotek in January 2006 as Chief Accounting Officer and served as Interim Chief Financial Officer from August 2008 until October 2008. The Compensation Committee increased Mr. Jowett's salary in August 2008 from \$150,000 to \$175,000 for that Interim period. Mr. Jowett has left the Company under the terms of the separation agreement as of March 17, 2009.

Former Chief Financial Officer

Our Chief Financial Officer from April 2004 until August 2008 was Lisa Meier. Mrs. Meier's annual salary for 2008 was \$250,000, which she received up to the date of her resignation as Chief Financial Officer on August 8, 2008.

2009 Base Salaries

In regard to 2009 salaries of the named executive officers, the Compensation committee has reviewed the current status of the salary amounts in regard to overall market competitiveness, internal equity, personal performance and the current operating environment. Based on this review, the Compensation Committee has decided to defer any decisions regarding salary amounts for named executive officers, subject to a possible review in the third quarter of 2009.

Annual Bonus Compensation

After a review of the effectiveness of the PPP by management and the Compensation Consultant and upon receiving their recommendations regarding improvements to the structure of the annual cash bonus plan structure, the Compensation Committee approved the 2009 Management Incentive Plan (MIP) to replace the PPP. Under the terms of the MIP named executive officers and other leadership employees will have the opportunity to earn annual cash incentives based on the achievement of Company performance objectives, operating unit performance objectives (applicable to Mr. Reeves and other leadership employees assigned to operating units) and individual objectives. For executive officers 75% of MIP compensation will be earned by the Company's performance on Company objectives including 2009 budget revenue, 2009 budget EBITDA, and 2009 budget fully diluted earnings per share (each equally weighted), and 25% will be based on individual performance objectives.

For each goal, a threshold, target and challenge amount has been defined. Performance below threshold on any measure results in no bonus amount contingent on that measure being paid. Performance at threshold results

Table of Contents

in 50% of the contingent amount being paid, while 100% and 120% of the contingent amounts are paid at target and challenge levels, respectively. Failure to achieve threshold on any one measure does not disqualify participants from earning bonuses based on performance on other measures.

The Company objectives were selected because, in the opinion of the Compensation Committee, success on these measures is vital to the ability of the Company to emerge successfully from the current difficult operating environment. Because the operating environment in 2009 is so difficult, the Committee believes that the objectives will be difficult to achieve and would consider target performance to be an extraordinary achievement.

The MIP provides that if the company's performance exceeds the challenge level or if performance does not meet threshold levels, the CEO may recommend for Compensation Committee approval of discretionary awards to those executives and other employees whose efforts contributed to positive results or mitigated negative results.

Following a review of competitive compensation practices, internal equity considerations, individual performance and the current operating environment, the Compensation Committee determined that the target bonus amounts available to each of the Named Executive Officers under the MIP (expressed as a percentage of annual base salary) will remain unchanged in 2009 from the target percentages in effect for 2008.

Equity Compensation

The historical practice of the Compensation Committee has been to grant restricted stock and/or options to attract, retain, motivate and reward employees and executive officers, and to encourage ownership in Flotek. The grant value of awards is determined by the Compensation Committee based on its understanding of competitive practices, internal equity considerations, performance, and the potential of the employee. The Compensation Committee considers it important that the value inherent in the grant is sufficient to create a long-term incentive for the employee to remain with the Company and to focus on the strategic objectives that must be achieved in order to deliver an attractive return to shareholders.

Through 2008, such grants have consisted of incentive stock options, non-qualified stock options and restricted stock. Generally, the Compensation Committee has granted awards of stock options to our executive officers upon their appointment as executive officers or in annual grants made at the end of a fiscal year or shortly thereafter. The equity grants typically have vested over three or four years. Grants made to executive officers are shown in the 2008 Grants of Plan-Based Awards table.

One-half of the value of the equity grants awarded in 2008 took the form of restricted stock and one-half of the award values were comprised of non-qualified stock options. The value attributed to restricted shares is based on the closing price of Flotek shares on the date of grant, while the value attributed to stock options is based on the Black-Scholes value of the options on the date of grant. In addition to the service condition, the restricted stock portion of the 2008 equity grant vests evenly over four years and has a performance condition that requires the Company or certain divisions of the Company to reach 90% of budgeted Pre-Tax Income for the stock to vest in that year. The option portion of the 2009 equity grant also vests evenly over four years and only has a service condition. Grants to Messrs. Dumas, Reeves and Neyman provide for accelerated vesting in the event of a change in control of the Company as defined under Potential Payments upon Termination of Employment or Change in Control; this condition only applies to one other employee of the Company.

On February 16, 2009, the Compensation Committee approved equity grants to named executive officers as follows: Mr. Dumas received 107,575 shares of restricted stock and options to purchase 200,000 shares of Common Stock at \$2.51 per share; Mr. Reeves received 43,828 shares of restricted stock and options to purchase 81,484 shares of Common Stock at \$2.51 per share; Mr. Neyman received 31,876 shares of restricted stock and options to purchase 59,260 shares of Common Stock at \$2.51 per share, and Mr. Jowett received 4,784 shares of restricted stock and options to purchase 8,892 shares of Common Stock at \$2.51 per share.

Table of Contents

In a departure from past practice, the Committee decided that for 2009, no performance conditions would be attached to the 2009 restricted stock grants. This decision was made because, in the Compensation Committee's opinion, the equity positions of named executive officers attained through prior awards have diminished in value to such a degree in the current operating environment that they do not currently represent a meaningful wealth accumulation opportunity and thus, are of limited value in motivating performance on strategic goals or in retaining our named executive officers. Further, given the current operating environment, the Compensation Committee believes that it is difficult to set goals for a three-to-five year period.

All equity-based awards that the Compensation Committee awarded have been reflected in our consolidated financial statements based upon the applicable accounting guidance. In December 2004, the Financial Accounting Standards Board (FASB) published FASB Statement No. 123 (revised 2004), Share-Based Payment (FAS 123R or the Statement). FAS 123R requires us to recognize in our financial statements the compensation cost relating to share-based payment transactions, including grants of employee stock options. We have to measure the cost based on the fair value of the equity or liability instruments issued. FAS 123R, which replaces FASB Statement No. 123, Accounting for Stock-Based Compensation, and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related interpretive guidance, covers a wide range of share-based compensation arrangements including stock options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. To date, we have only awarded stock options and restricted stock awards under our stock awards plan. Additionally, FAS 123R requires us to measure the cost of employee services received in exchange for stock options based on the fair value of the award on the grant date, and to recognize the cost over the period the employee is required to provide services for the award. FAS 123R permits us to use any option-pricing model that meets the fair value objective in the Statement. We adopted FAS 123R on a prospective basis beginning January 1, 2006, for stock-based compensation awards granted after that date and for unvested awards outstanding at that date using the modified prospective transition method. We recognize the fair value of stock-based compensation awards as compensation expenses in our statement of operations on a straight line basis over the vesting period.

Employment and Separation Agreements

The Company has not entered into any employment or severance agreements with any of its current named executive officers. However, in connection with the resignation of Ms. Meier as Chief Financial Officer effective August 8, 2008, Flotek entered into a Separation and Release Agreement with Ms. Meier, which provided for, among other things: (i) a cash payment equal to the sum of her regular salary through the Resignation Date and her accrued vacation benefits in the amount of \$6,730.77; (ii) a short-term deferral payment in the amount of \$153,846.20, payable in 16 equal bi-weekly payments of \$9,615, commencing on August 15, 2008; (iii) a six month deferral payment in the amount of \$96,153.80, payable in 10 equal bi-weekly payments of \$9,615.38, commencing on March 27, 2009; and (iv) payment to Ms. Meier of up to \$10,000 with respect to her attorney's fees incurred in connection with the negotiation of the Separation and Release Agreement.

In connection with the departure of Mr. Jowett as Chief Accounting Officer effective March 17, 2009, Flotek entered into a Separation and Release Agreement with Mr. Jowett, which provided for amongst other things: (i) a cash payment equal to the sum of his regular salary through March, 31, 2009 and his accrued vacation benefits in the amount of \$2,163; (ii) a payment in the amount of \$50,000 payable in a lump sum.

Equity Retention Grant

In February 2009, the Compensation Committee approved a retention grant of 60,000 shares of restricted stock to Mr. Reeves. The restricted stock grant vests over a five year period as follows: (i) 5,000 shares vest on the first anniversary of the grant; (ii) 5,000 shares vest on the second anniversary of the grant; (iii) 10,000 shares vest on the third anniversary of the grant; (iv) 20,000 shares vest on the fourth anniversary of the grant; and (v) 20,000 shares vest on the fifth anniversary of the grant. The purpose of the equity grant was to incentivize Mr. Reeves to remain in a long-term management role with the Company.

Other Benefits

We believe that establishing competitive benefit packages for our employees is an important factor in attracting and retaining highly qualified personnel. Executive officers are eligible to participate in all of our employee benefit plans, including medical, dental & vision care programs, Company-paid accidental death, dismemberment & life insurance, and Flotek's 401(k) plan, on the same basis as other employees. During 2008 and first quarter of 2009, we provided a matching contribution on employee contributions of up to 4% of eligible compensation determined by statutory limits. Effective as of April 2009 we suspended such matching contributions. Other than the 401(k) plan we do not offer pension or retirement benefits. Our international employees may have slightly different employee benefit plans than those we offer domestically, typically as a result of legal requirements in any specific country.

Perquisites

We do not have a formal process to review regularly the perquisites received by members of senior management. The perquisites received by each senior executive are determined by past practices. The specific perquisites our named executives are currently receiving or have received in the past include:

Our Chief Executive Officer and Chief Operating Officer receive a Company owned vehicle.

A country club membership in our Chief Executive Officer's name that is primarily used for marketing purposes by our operating units.

Tax and Accounting Implications

Deductibility of Executive Compensation

The Compensation Committee is aware of the provisions of Section 162(m) of the Internal Revenue Code which provides that the Company may not deduct for federal income tax purposes annual compensation in excess of \$1 million paid to certain employees. Performance-based compensation paid pursuant to shareholder-approved plans such as our 2007 Long-Term Incentive Plan is not subject to the deduction limit as long as such compensation is approved by outside directors within the meaning of Section 162(m) of the Code.

The Compensation Committee makes every reasonable effort to structure and administer executive compensation opportunities so that compensation will not be subject to the Section 162 (m) deduction limit. However, the Compensation Committee may from time to time approve payments that cannot be deducted in order to maintain flexibility in structuring appropriate compensation opportunities in the interest of shareholders.

Accounting for Stock-Based Compensation

Flotek Industries accounts for stock-based payments in accordance with the requirements of FAS 123R. Under this accounting pronouncement, Flotek Industries is required to value unvested stock options granted under the fair value method and expense those amounts in the income statement over the stock options' remaining vesting period. Flotek Industries considers the expenses associated with the grant of options and other long-term incentive awards in granting such awards.

Section 409A

To the extent we permit executives to defer compensation or we commit to deliver compensation at a later date than when earned and vested, we make every attempt to meet the requirements of Section 409A of the Internal Revenue Code. Failure to satisfy the Section 409A requirements could subject the executives receiving deferred compensation to a 20% excise tax.

Potential Payments upon Termination of Employment or Change in Control

We entered into a Separation and Release Agreement with Ms. Meier, which requires us, among other things to make severance payments to Ms. Meier. The following table describes the circumstances that will trigger acceleration of vesting of certain stock options and restricted stock grants awarded to Mr. Dumas and Mr. Reeves and quantifies the value of the stock options or restricted stock grants the vesting of which would have accelerated upon the occurrence of the specified events, assuming that such event had occurred on December 31, 2008 and based on the closing price on Flotek's Common Stock on that date (\$2.52). None of the other named officers have provisions for accelerated vesting for circumstances listed above.

In connection with the departure of Mr. Jowett as Chief Accounting Officer effective March 17, 2009, Flotek entered into a Separation and Release Agreement with Mr. Jowett, which provided for amongst other things: (i) a cash payment equal to the sum of his regular salary through March, 31, 2009 and his accrued vacation benefits in the amount of \$2,163.; (ii) a payment in the amount of \$50,000 payable in a lump sum.

For purposes of awards under our long-term plans, "Change-in-Control" of the Corporation means the first to occur of the following events:

(i) Any Person (other than those persons in control of the Corporation on the Effective Date of the Plan, a trustee or other fiduciary holding securities under an employee benefit plan of the Corporation, or a corporation owned directly or indirectly by the stockholders of the Corporation in substantially the same proportions as their ownership of stock of the Corporation) becomes the beneficial owner, directly or

Table of Contents

indirectly, of securities of the Corporation representing fifty percent (50%) or more of the combined voting power of the Corporation's then outstanding securities; or

(ii) During any period of one (1) year (not including any period prior to the Effective Date of the Plan), individuals who at the beginning of such period constitute the Board (and any new Director whose election by the Corporation's stockholders was approved by a vote of at least two-thirds ($\frac{2}{3}$) of the Directors then still in office who either were Directors at the beginning of the period or whose election or nomination for election was so approved) cease for any reason to constitute a majority thereof;

(iii) (A) The sale or disposition of all or substantially all the Corporation's assets, or (B) a merger, consolidation, or reorganization of the Corporation with or involving any other entity, other than a merger, consolidation, or reorganization that would result in the voting securities of the Corporation outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) at least fifty percent (50%) of the combined voting power of the securities of the Corporation (or such surviving entity) outstanding immediately after such merger, consolidation, or reorganization.

For purposes of awards under our long-term incentive plans, "Cause" means the termination of an employee for any of the following reasons, as determined by the Compensation Committee:

(i) An employee willfully fails to substantially perform the employee's duties (other than any such failure resulting from the employee's total and permanent disability) after a written demand for substantial performance has been delivered by the Corporation to the employee that specifically identifies the manner in which the Corporation believes that the employee has not substantially performed the employee's duties, and the employee fails to remedy such failure within ten (10) calendar days after receiving such notice;

(ii) An employee is convicted (by trial, plea of guilty or plea of nolo contendere) for committing an act of fraud, embezzlement, theft, or other act constituting a felony; or

(iii) An employee willfully engages in gross misconduct or willfully violates a Corporation or a Subsidiary policy which is materially and demonstrably injurious to the Corporation and/or a Subsidiary after a written demand to cease such misconduct or violation has been delivered by the Company to the employee that specifically identifies the manner in which the Company believes that the employee has violated this Paragraph (iv), and the employee fails to cease such misconduct or violation and remedy any injury suffered by the Corporation or the Subsidiary as a result thereof within thirty (30) calendar days after receiving such notice. However, no act or failure to act, on the employee's part shall be considered "willful" unless done, or omitted to be done, by the employee not in good faith and without reasonable belief that the employee's action or omission was in the best interest of the Corporation or the Subsidiary; or

(iv) An employee commits a material breach of any noncompetition, confidentiality or similar agreement with the Corporation or a Subsidiary, as determined under such agreement.

Director Compensation

Compensation of independent directors is determined by the Board of Directors based upon recommendations prepared by the Compensation Committee. Effective August 2008, each independent, non-employee director was paid an annual retainer of \$30,000 and received \$2,000 for each meeting of the board attended and \$1,000 for each committee meeting attended. The Chair of the Audit Committee is paid an annual retainer of \$20,000, the Chair of the Compensation Committee is paid an annual retainer of \$15,000, and the Chair of the Governance and Nominating Committee and the Chair of the Strategic Planning Committee are paid annual retainers of \$10,000. All directors are reimbursed for reasonable expenses incurred in connection with their service on our Board.

In 2008, outside directors who served on our Board of Directors for a full year received a grant of stock options with a fair value on the date of grant of approximately \$20,000 and a grant of restricted stock also valued

at approximately \$20,000. Outside directors who joined the board during the year received a grant that was adjusted to reflect the portion of the year that they served as directors. Stock options granted to outside directors vest ratably over a period of four years and have a term of six years. Restricted stock granted to outside directors vests ratably over four years.
