QUESTIONS AND ANSWERS REGARDING THIS SOLICITATION
AND VOTING AT THE ANNUAL MEETING

- | | |
|----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Why am I receiving these proxy materials?</i> | You are receiving these proxy materials from us because you were a stockholder of record at the close of business on the Record Date which was April 17, 2009. As a stockholder of record, you are invited to attend the meeting and are entitled to and requested to vote on the items of business described in this proxy statement. |
| <i>What is the purpose of the annual meeting?</i> | At our meeting, stockholders of record will vote upon the items of business outlined in the notice of meeting (on the cover page of this proxy statement), each of which is described more fully in this proxy statement. In addition, management will be available to respond to questions from stockholders. |
| <i>Who is entitled to attend the meeting?</i> | You are entitled to attend the meeting <i>only</i> if you were a Solta Medical stockholder (or joint holder) of record as of the close of business on April 17, 2009, or if you hold a valid proxy for the meeting. You should be prepared to present photo identification for admittance. |

Please also note that if you are not a stockholder of record but hold shares in *street name* (that is, through a broker or nominee), you will need to provide proof of beneficial ownership as of the Record Date, such as your most recent brokerage account statement, a copy of the voting instruction card provided by your broker, trustee or nominee, or other similar evidence of ownership.

The meeting will begin promptly at 9:00 a.m., local time. Check-in will begin at 8:30 a.m., local time.

Table of Contents

- Who is entitled to vote at the meeting?*** Only stockholders who owned our common stock at the close of business on the Record Date are entitled to notice of the Annual Meeting and to vote at the meeting, and at any postponements or adjournments thereof.
- How many shares must be present to conduct business?*** The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of our common stock at the close of business on the Record Date will constitute a quorum. A quorum is required to conduct business at the meeting. Both abstentions and broker non-votes are counted for the purpose of determining the presence of a quorum.
- What will be voted on at the meeting?*** The items of business scheduled to be voted on at the meeting are as follows:

1. the election of three nominees to serve as Class III directors on our board; and
2. the ratification of the appointment of our independent registered public accounting firm for the 2009 fiscal year.

These proposals are described more fully below in this proxy statement. As of the date of this proxy statement, the only business that our board intends to present or knows of that others will present at the meeting is set forth in this proxy statement. If any other matter or matters are properly brought before the meeting, it is the intention of the persons who hold proxies to vote the shares they represent in accordance with their best judgment.

How does the board recommend that

I vote?

Our board recommends that you vote your shares **FOR** the director nominees and **FOR** the ratification of independent registered public accounting firm for the 2009 fiscal year.

What shares can I vote at the meeting?

You may vote all shares owned by you as of the Record Date, including (1) shares held directly in your name as the *stockholder of record*, and (2) shares held for you as the *beneficial owner* through a broker, trustee or other nominee such as a bank.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Most of our stockholders hold their shares through a broker or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholders of Record. If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, you are considered, with respect to those shares, the *stockholder of record*, and these proxy materials are being sent directly to you by us. As the *stockholder of record*, you have the right to grant your voting proxy directly to Solta Medical or to vote in person at the meeting. We have enclosed a proxy card for you to use.

Beneficial Owner. If your shares are held in a brokerage account or by another nominee, you are considered the *beneficial owner* of shares held in *street name*, and these proxy materials are being forwarded to you together with a voting instruction card. As the beneficial owner, you have the right to direct your broker, trustee or nominee how to vote and are also invited to attend the meeting. Please note that since a beneficial owner is not the *stockholder of record*, you may not vote these shares in person at the meeting unless you obtain a legal proxy from the broker, trustee or nominee that holds your shares, giving you the right to vote the shares at the meeting. Your broker, trustee or nominee has

Edgar Filing: SOLTA MEDICAL INC - Form DEF 14A

enclosed or provided voting instructions for you to use in directing the broker, trustee or nominee how to vote your shares.

How can I vote my shares without attending the meeting?

Whether you hold shares directly as the stockholder of record or beneficially in street name, you may direct how your shares are voted without attending the meeting. Stockholders of record of our common stock may submit proxies by completing, signing and dating their proxy cards and mailing them in the accompanying pre-addressed envelope. Solta Medical stockholders who hold shares beneficially in street name may vote by mail by completing, signing and dating the voting instruction cards provided by the broker, trustee or nominee and mailing them in the accompanying pre-addressed envelope. In addition, if you are a stockholder of record, you may grant a proxy to vote your shares at the annual meeting by telephone, by calling 1 (800) PROXIES (1 (800) 776-9437) and following the simple recorded instructions, twenty-four hours a day, seven days a week, at any time prior to 11:59 p.m. on June 3, 2009, the day before the annual meeting. Alternatively, as a stockholder of record, you may vote via the Internet at any time prior to 11:59 p.m. on June 3, 2009, the day before the annual meeting, by going to <http://www.voteproxy.com> to create an electronic ballot. If you vote by telephone or the Internet, you will be required to provide the control number contained on your proxy card. If your shares are held in street name, your proxy card may contain instructions from your broker, bank or nominee that allow you to vote your shares using the Internet or by telephone. Please consult with your broker, bank or nominee if you have any questions regarding the electronic voting of shares held in street name. The granting of proxies electronically is allowed by Section 212(c)(2) of the Delaware General Corporation Law.

How can I vote my shares in person at the meeting?

Shares held in your name as the stockholder of record may be voted in person at the meeting. Shares held beneficially in street name may be voted in person only if you obtain a legal proxy from the broker, trustee or nominee that holds your shares giving you the right to vote the shares. ***Even if you plan to attend the meeting, we recommend that you also submit your proxy card or voting instructions as described above so that your vote will be counted if you later decide not to, or are unable to, attend the meeting.***

Can I change my vote?

You may change your vote at any time prior to the vote at the meeting. If you are the stockholder of record, you may change your vote by granting a new proxy bearing a later date (which automatically revokes the earlier proxy), by providing a written notice of revocation to our Secretary prior to your shares being voted, or by attending the meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request.

For shares you hold beneficially in street name, you may change your vote by submitting new voting instructions to your broker, trustee or nominee, or, if you have obtained a legal proxy from your broker, trustee or nominee giving you the right to vote your shares, by attending the meeting and voting in person.

How are votes counted?

The vote required to approve each item of business and the method for counting votes is set forth below:

Election of Directors. The director nominees receiving the highest number of affirmative FOR votes at the meeting (a plurality of votes cast) will be elected to serve as Class III directors. You may vote either FOR or WITHHOLD your vote for the director nominees. A properly executed proxy marked WITHHOLD with respect to the election of a director will not be voted with respect to the director, although it will be counted for purposes of determining whether there is a quorum.

Ratification of Independent Registered Public Accounting Firm. For the ratification of the appointment of our independent registered public accounting firm, the affirmative FOR vote of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. You may vote FOR, AGAINST or

Table of Contents

ABSTAIN for this item of business. If you choose to ABSTAIN, your abstention has the same effect as a vote AGAINST.

If you provide specific written instructions with regard to certain items, your shares will be voted as you instruct on such items. If you sign your proxy card or voting instruction card without giving specific instructions, your shares will be voted in accordance with the recommendations of the board (FOR our nominee to the board and FOR ratification of the independent registered public accounting firm, and in the discretion of the proxy holders on any other matters that properly come before the meeting).

What is a broker non-vote ?

Under the rules that govern brokers who have record ownership of shares that are held in street name for their clients, who are the beneficial owners of the shares, brokers have the discretion to vote such shares on routine matters. The election of directors and the ratification of the appointment of independent registered public accounting firm are considered routine matters. Therefore, if you do not otherwise instruct your broker, the broker may turn in a proxy card voting your shares FOR our nominees to the board and FOR ratification of the independent registered public accounting firm. A *broker non-vote* occurs when a broker expressly instructs on a proxy card that it is not voting on a matter, whether routine or non-routine.

How are broker non-votes counted?

Broker non-votes will be counted for the purpose of determining the presence or absence of a quorum for the transaction of business, but they will not be counted in tabulating the voting result for any particular proposal.

How are abstentions counted?

If you return a proxy card that indicates an abstention from voting on all matters, the shares represented will be counted for the purpose of determining both the presence of a quorum and the total number of votes cast with respect to a proposal but they will not be voted on any matter at the meeting. In the absence of controlling precedent to the contrary, we intend to treat abstentions in this manner. Accordingly, abstentions will have the same effect as a vote AGAINST a proposal.

What happens if additional matters are presented at the meeting?

Other than the two proposals described in this proxy statement, we are not aware of any other business to be acted upon at the meeting. If you grant a proxy, the persons named as proxy holders, Stephen J. Fanning (a Director and our President and Chief Executive Officer) and John F. Glenn (our Chief Financial Officer), will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If, for any unforeseen reason, the nominee for director is not available as a candidate, the persons named as proxy holders will vote your proxy for such other candidate as may be nominated by our board.

Who will serve as inspector of election?

We expect a representative of American Stock Transfer & Trust Company, our transfer agent, to tabulate the votes and act as inspector of election at the meeting.

What should I do if I receive more than one proxy?

You may receive more than one set of these proxy solicitation materials, including multiple copies of this proxy statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you may receive a separate voting instruction card for each brokerage account in which you hold shares. In addition, if you are a stockholder of record and your shares are registered in more than one name, you may receive more than one proxy card. Please complete, sign, date and return each Solta Medical proxy card and voting instruction card that you receive to ensure that all your shares are voted.

Who is soliciting my vote and who is paying the costs?

Your vote is being solicited on behalf of the board, and we will pay the costs associated with the solicitation of proxies, including preparation, assembly, printing and mailing of this proxy statement.

Table of Contents

How can I find out the results of the voting?

We intend to announce preliminary voting results at the meeting and publish final results in our quarterly report on Form 10-Q for the second quarter of fiscal 2009.

What is the deadline for proposing action or director candidates?

As a stockholder, you may be entitled to present proposals for action at a future meeting of stockholders, including director nominations.

Stockholder Proposals: For a stockholder proposal to be considered for inclusion in the Solta Medical proxy statement for the annual meeting to be held in 2010, the written proposal must be received by our Corporate Secretary at our principal executive offices no later than January 4, 2010. each of our executive officers named in the summary compensation table on page 25 (our Chief Executive Officer, our Chief Financial Officer and our three other most highly compensated executive officers);

each of our current directors; and

all of our directors and executive officers as a group.

The number of shares beneficially owned by each entity, person, director or executive officer is determined in accordance with the rules of the SEC, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under such rules, beneficial ownership includes any shares over which the individual has the sole voting power, shared voting power, or investment power and includes any shares that the individual has the right to acquire within 60 days of April 17, 2009 through the exercise of any stock option or other right. The number and percentage of shares beneficially owned is computed on the basis of 47,758,823 shares of our common stock outstanding as of April 17, 2009. The information in the following table regarding the beneficial owners of more than 5% of our common stock is based upon information supplied by our principal stockholders or Schedules 13D and 13G filed with the SEC.

Shares of our common stock that a person has the right to acquire within 60 days of April 17, 2009 are deemed outstanding for purposes of computing the percentage ownership of the person holding such rights, but are not deemed outstanding for purposes of computing the percentage ownership of any other person, except with respect to the percentage ownership of all directors and executive officers as a group. To our knowledge, except as set forth in the footnotes to this table and subject to applicable community property laws, each person or entity named in the table has sole voting and dispositive power with respect to the shares set forth opposite such person's or entity's name. Consideration of Director Nominees

Stockholder Nominations and Recommendations. As described above in the Question and Answer section of this proxy statement under "What is the deadline to propose actions for consideration at next year's annual meeting of stockholders or to nominate individuals to serve as directors?", our Bylaws set forth the procedure for the proper submission of stockholder nominations for membership on our board. In addition, the Nominating and Governance Committee may consider properly submitted stockholder recommendations (as opposed to formal nominations) of director candidates. A stockholder may recommend a candidate for the board of directors by submitting the following information to our Secretary at 25881 Industrial Boulevard, Hayward, California 94545: the candidate's name, home and business contact information, detailed biographical data, relevant qualifications, professional and personal references and information regarding any relationships between the candidate and Solta Medical within the last three years. In addition, the party making the recommendation must submit evidence of being a Solta Medical stockholder.

Director Qualifications. Members of the board should have the highest professional and personal ethics and values, and conduct themselves in a manner consistent with our Code of Business Conduct and Ethics. The Committee has not established specific minimum qualifications for director candidates, however, it believes that the board of directors should be comprised of directors who (i) are predominantly independent, (ii) are of high integrity, (iii) have qualifications that will increase overall board effectiveness, and (iv) meet other criteria as may be required by applicable rules, such as financial literacy or financial expertise with respect to audit committee members.

Identifying and Evaluating Director Nominees. Typically new candidates for nomination to our board are suggested by existing directors or by our executive officers. Candidates may also come to the attention of our board through professional search firms, stockholders or other persons. The Committee will carefully review the qualifications of any candidates who have been properly brought to its attention. Such review may, in the Committee's discretion, include a review solely of information provided to the Committee or may also include discussions with persons familiar with the candidate, an interview with the candidate or other actions that the Committee deems proper. The Committee will consider the suitability of each candidate, including the current members of the board, in light of the current size and composition of the board. In evaluating the qualifications of the candidates, the Committee considers many factors, including, issues of character, judgment, independence, age, expertise, diversity of experience, length of service, other commitments and the like. The Committee evaluates such factors, among others, and does not assign any particular weighting or priority to any of these factors. Candidates properly recommended by stockholders will be evaluated by the independent directors using the same criteria as other candidates.

Director Nominees at our 2009 Annual Meeting. Our Nominating and Governance Committee recommended Cathy L. McCarthy, Mark M. Sieczkarek and Eric B. Stang for nomination to our board.

Code of Business Conduct and Ethics

We are committed to maintaining the highest standards of business conduct and ethics. We have adopted a Code of Business Conduct and Ethics (the "Code") for our directors, officers (including our principal executive officer and principal financial officer) and employees. The Code reflects our values and the business practices and principles of behavior that support this commitment. The Code satisfies SEC rules for a code of ethics

required by Section 406 of the Sarbanes-Oxley Act of 2002, as well as the Nasdaq listing standards requirement for a code of conduct. We will post any amendment to the Code, as well as any waivers that are required to be disclosed by the rules of the SEC or the Nasdaq, on our website.

Compensation Philosophy and Objectives

The compensation committee of the board of directors (the Committee), together with our board, is responsible for establishing, implementing and monitoring adherence with our compensation philosophy. The Committee seeks to ensure that the total compensation paid to our executive officers is fair, reasonable and competitive. The types of compensation and benefits provided to the named executive officers are similar to those provided to our other executive officers.

The primary objectives of our compensation programs are to:

attract and retain the top echelon of performers;

establish a direct link between sustained performance and individual rewards;

create long-term stockholder value; and

provide an ownership opportunity for all employees.

We seek to foster a performance-oriented culture, where individual performance is aligned with organizational objectives. Company performance is the primary measure of success upon which we structure our compensation. We evaluate and reward our executive officers based on their contribution to the achievement of short and longer term goals. The Committee believes that the most effective executive compensation program is one that is designed to reward achievement and that aligns executives' interests with those of stockholders by rewarding performance, with the ultimate objective of improving stockholder value and building a sustainable company. The Committee evaluates each executive's performance and compensation. The Committee seeks to ensure that we maintain our ability to attract and retain superior employees in key positions and that the compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of a selected group of our peer companies and the broader marketplace from which we recruit and compete for talent. To that end, the Committee believes the compensation provided by us to our executives, including the named executive officers, should include a mix of salary, cash bonuses and equity awards that reward performance and the creation of longer-term stockholder value, and that provide the appropriate level of incentives to retain each executive. Each element of compensation and the practices used to evaluate and inform the Committee's

decisions are discussed in detail below.

Table of Contents

Executive compensation is reviewed annually, and adjustments are made to reflect performance-based factors, as well as competitive conditions. Additionally, our 2009 compensation program was impacted by the significant adverse global economic conditions that were affecting our business.

How We Implement and Manage our Executive Compensation Programs

Role of Our Compensation Committee

The Committee sets our overall compensation philosophy, which is reviewed and approved by our board. The Committee also reviews and approves our compensation programs, including the specific compensation of our executive officers other than our Chief Executive Officer. The Committee also reviews and provides recommendations to our board with respect to the compensation of our Chief Executive Officer, and our board approves the Chief Executive Officer's compensation annually. The Committee regularly meets in executive session to discuss compensation matters. The Committee operates under a written charter adopted by our board. A copy of this charter is available on our website at <http://www.solta.com>.

The Committee is appointed by our board, and currently is comprised of Cathy L. McCarthy, Marti Morfitt and Mark Sieczkarek. The primary purpose of the Committee is to:

discharge the board's responsibilities relating to compensation of our executive officers;

administer our stock option plans, stock purchase plans, restricted stock plans and any other equity incentive plans we adopt; and

provide disinterested administration of any employee benefit plans in which our executive officers are eligible to participate.

The Committee assumes primary responsibility for the annual compensation review process.

Role of Compensation Consultant

The Committee, which has the authority to directly engage outside firms or consultants, has retained Compensia, a third-party compensation consulting firm, to support the Committee's responsibilities in determining executive compensation and administering the related programs. The Committee periodically seeks input from Compensia on a range of external market factors. During 2008, Compensia assisted the Committee's executive compensation-setting process by:

reviewing those companies that comprise our peer group and advising on whether any changes to this group were advisable;

assisting in the design of our compensation programs for executives and board members, including discussing evolving compensation trends;

assisting in the design of our equity ownership guidelines; and

compiling and providing market data to assist in setting our compensation plan parameters and measures.

The Committee has actively worked with Compensia since 2007. In 2008, the Committee reviewed Compensia's relationship with the Company and determined that Compensia was independent from management. In the future, we may decide not to hire a compensation consultant each year, if we believe that the prior report we obtained, along with publicly-available data from our group, is sufficient to allow us to make informed decisions with regard to executive compensation matters.

Table of Contents***Role of Executive Officers***

Our Chief Executive Officer aids the Committee by providing recommendations regarding the compensation of all executive officers other than himself. Our Chief Executive Officer also advises the Committee regarding the alignment and weighting of our performance measures under our annual cash incentive (bonus) awards with our overall strategy, the impact of the design of our equity incentive awards on our ability to attract, motivate and retain highly talented executives, and the competitiveness of our compensation program. Prior to the end of the year, our Chief Executive Officer reviews each executive officer's performance as well as the Company's performance against the pre-established financial targets and critical strategic priorities. Our Chief Executive Officer then presents this assessment to the Committee and makes his recommendations with respect to the appropriate base salary, annual bonus payments and grants of long-term equity incentive awards for all executive officers, other than himself. Any executive officer who participates in the Committee's meetings leaves the meetings during discussions and deliberations of individual compensation actions affecting him or her personally and during the Committee's executive sessions.

Each named executive officer, with the exception of our Chief Executive Officer, participated in an annual performance review with his or her respective manager, to provide input about his or her contributions to the Company's goals and objectives for the period being assessed. Our Chief Executive Officer participated in a similar annual review with the Committee and our board. The recommendations of our Chief Executive Officer were assessed in the context of each named executive officer's performance, along with competitive positioning information generated by Compensia and provided to management and the Committee with respect to base salary, bonus and equity compensation for each executive.

Positioning of Cash and Equity Compensation

The Committee believes it is important when making its compensation-related decisions to be informed as to current compensation practices of comparable publicly held companies in the medical device and life sciences industries. To provide independent and expert advice on appropriate compensation, the Committee directed Compensia to perform an analysis of the executive compensation practices of a number of representative and comparable publicly held companies in the medical device and life sciences industries.

The peer companies included in the analyses used by the Committee to make compensation decisions in 2008 were:

Accuray	Cyberonics	SonoSite
Biolase Technology	Cynosure	TomoTherapy
Candela	HealthTronics	VNUS Medical Technologies
Cepheid	Natus Medical	Volcano
Cutera	Palomar Medical Technologies	

Companies are selected for inclusion in these analyses based on business characteristics similar to ours, including, but not limited to, similar business model, stage of development, employee headcount, market capitalization, research and development expenditures, cash reserves and revenue. The Committee adjusts the group of peer companies annually to take into account our progression in our stage of development and changes in the comparative companies. The Committee, with the assistance of Compensia, also uses (1) information regarding companies with \$50 million to \$200 million in annual revenues from the Radford Executive Compensation Survey, which is a broader based compensation data source, and (2) information regarding companies with 150 to 500 employees from a proprietary global life sciences executive compensation survey to further calibrate its analyses. The Committee uses the cash and equity components data from these analyses to help define the competitive total compensation opportunity for each executive officer, but specific pay decisions for each executive are based on his or her past and anticipated contributions, current compensation package, retention risks and overall corporate performance.

Assessment of Corporate and Individual Achievement

Corporate Achievement

At the beginning of each year, management prepares and proposes to the Committee a detailed set of corporate goals covering the expected operating and financial performance of the Company for the year. Our corporate goals are focused towards deliverables expected to advance near-term stockholder value while also building towards long-term stockholder value. These corporate goals are then reviewed and approved by the Committee. The Committee also assigns a specific weighting to each goal and establishes formulas for determining the resulting annual bonus payments based on actual achievement against these goals. In 2008 and 2009, these goals related to targets in the categories of revenue, operating income and product pipeline goals, each of which was weighted one-third of the total target bonus opportunity. In 2008, the goals related to 12-month targets, and in 2009 the goals were divided into six-month and 12-month targets. At the end of 2008, the Committee assessed the level of overall level of corporate achievement based on the Company's performance relative to these goals, and at the mid-point and end of 2009, the Committee will make a similar assessment regarding the 2009 six-month and 12-months performance targets.

Individual Achievement

Although the Committee believes that the largest portion of each executive officer's total compensation should be based on our executive officers' success as a team and thus based on achievement of shared financial and critical strategic goals, it also believes that there should be some ability to reward individual and departmental contributions. To that end, we consider individual and departmental performance, the impact of that performance on the achievement of our strategic goals and objectives and on the executive team's performance as significant factors in setting base salary and in granting equity-based compensation. At the beginning of each year, individual goals are established for each named executive officer, except for our Chief Executive Officer, whose performance is evaluated based solely on the corporate goals established for the year. These individual goals are derived from the corporate goals that relate to the named executive officer's functional area.

Compensation Components

Compensation for our executive officers, including the named executive officers, is broken out into the following components:

Cash Compensation. Cash compensation consists of base salary and an annual bonus opportunity. Compensia assists us in analyzing the companies in our peer group to guide our determination of appropriate cash compensation opportunities. Our cash compensation goals for our executive officers are based upon the following principles:

Ensuring that our short-term incentive program is consistent with our compensation philosophy;

Payouts should be based primarily on corporate financial performance, rather than individual performance;

With improved company performance, pay will increase toward targeted positioning; and

Ensuring that individual target incentive opportunities align target total cash compensation levels with desired positioning.

Base Salary and Total Target Cash Compensation. In 2008, our goal was to set the base salaries of our executive officers between the 50th to 60th percentile of our peer group and total target cash compensation at or above the 60th percentile of our peer group. As a result, the Committee accepted management's recommended base salary merit increases for our executive officers, other than our Chief Executive Officer, that averaged 5% per executive. The Committee determined to also increase our Chief Executive Officer's base salary by 6%, which increase was subsequently approved by the board of directors. For 2009, in light of the significant adverse global economic conditions that were affecting our business, the Committee accepted management's recommendation not to award any base salary increases.

Table of Contents

Bonus Program. In addition to base salary, we have a bonus plan covering all full-time regular employees, including our executive officers (except for certain of our employees in manufacturing who participate in a monthly bonus plan and our sales representatives who participate in a sales compensation plan) pursuant to which cash bonus payments and equity awards may be made. As noted above, bonuses are calculated based upon actual achievement of the pre-established corporate financial goals.

For 2008, the Committee approved a bonus plan covering all full-time eligible regular employees, including our executive officers. The target bonus opportunity for our Chief Executive Officer was 80% of his base salary, and for each other executive officer, 40% of his or her respective base salary. In December 2008, the Committee determined that the specified 2008 goals relating to revenue, operating income and product pipeline targets had not been achieved and, as a result, no bonus would be earned pursuant to the bonus plan for 2008.

However, in light of the successful completion of our significant acquisition of Reliant Technologies during 2008, the Committee determined that a special recognition bonus should be paid to our executive officers and certain employees. The Committee noted that this acquisition was not contemplated as part of the establishment of the 2008 goals, and the Committee believed that the successful completion of the transaction required extraordinary efforts of our executive officers and key employees during 2008. As a result, the Committee awarded our Chief Executive Officer a cash bonus of \$90,000, Mr. Glenn a cash bonus of \$26,500 and Mr. Carnell a cash bonus of \$30,000. In addition, as a component of this special recognition bonus and as a retention tool, the Committee determined to award restricted stock units (RSUs) to each of our Chief Executive Officer, Mr. Glenn and Mr. Carnell in the amounts of 60,403, 17,786 and 20,135 RSUs, respectively, which number of units represented grant date fair values approximately equal to the cash bonuses paid to these executives. These equity awards will vest 100% in January 2010, provided that the executives remain employed by us at such time. The Committee determined the amount of these bonuses and awards based on an aggregate value equal to approximately 50% of the original 2008 target bonuses for the executive officers.

For 2009, the Committee approved a bonus plan covering all full-time eligible regular employees, including our executive officers. The target bonus opportunity for our Chief Executive Officer is 80% of his base salary, for our COO and CFO, 50% of their respective base salaries, and for each other executive officer, 40% of his or her respective base salary. Bonuses are payable based on actual achievement against six-month and 12-month performance targets in the categories of revenue, operating income and product pipeline goals, each of which is weighted one-third of the total bonus opportunity. The actual bonuses payable for 2009, if any, will vary depending on the extent to which our actual financial performance meets, exceeds, or falls short of these financial goals as approved by the Committee. If our actual performance exceeds these goals, the actual bonus payable may be up to 193% of the target bonus based on the formulas established by the Committee.

Long-Term Incentive Program. We believe that long-term performance is achieved through an ownership culture that encourages long-term performance by our executive officers through the use of stock-based awards. All employees are eligible to participate in our equity programs. Our equity compensation goals for our executive officers are based upon the following principles:

Stockholder and executive interests should be aligned;

The program should be structured to provide meaningful retention incentives to participants; and

Actual awards should be tailored to reflect individual performance and recruitment/retention goals.

Our practice is to make annual equity grants to our executive officers, consistent with the practices of the companies in our peer group. We generally target our long-term incentive compensation opportunity at or above the median of our peer group. In February 2008, the Committee awarded grants to our executive officers that approximated the 50th percentile of our peer group. We also took into consideration the use of equity awards as a means of rewarding achievement and as a means of retention, especially for our executive officers who were mostly vested in their prior awards. In December 2008, the Committee awarded restricted stock units to each of

Table of Contents

our Chief Executive Officer, Mr. Glenn and Mr. Carnell, as described above, as retention tools and in special recognition of their efforts in the completion of our acquisition of Reliant Technologies.

In 2008, we issued stock options to our executive officers, directors and employees to purchase shares of our common stock at an exercise price equal to the fair market value of such stock on the date of grant. The date of grant for our executive officers is typically the date of a regularly scheduled board meeting, of which we have four per year. We have no program, plan or practice to select option grant dates (or set board meeting dates) to correspond with the release of material non-public information.

Severance and Change of Control Benefits. We entered into change of control and severance agreements providing for certain change of control benefits for our executive officers, the terms of which are described in more detail below in the sections entitled Employment Agreements Change of Control and Severance Agreements and Potential Payments Upon Termination or Change in Control.

Other Benefits. We provide the following benefits to our executive officers generally on the same basis as the benefits provided to all employees:

Health, vision and dental insurance;

Life insurance;

Short-and long-term disability;

Section 401(k) plan;

Employee assistance plan; and

Flexible spending plan.

We believe that these benefits are consistent with those offered by other companies and specifically with those companies with which we compete for employees.

Amounts include compensation expense recognized with respect to awards granted in previous fiscal years, as well as those granted, if any, in the current fiscal year. - (2) Amounts reported on Non-Equity Incentive Plan Compensation represent cash amounts paid under our bonus program, a non equity incentive program for the achievement of corporate operating performance. In 2006, our Compensation Committee determined to pay 100% of the target achievement of corporate performance under the bonus program in cash. Such cash amounts were paid in 2007. An additional 50% payout for overachievement under the 2006 bonus program was made in the form of restricted stock units. Such restricted stock units were granted in 2007 and are shown as stock awards in 2007. In 2007, our Compensation Committee determined to pay 85% of the target achievement of corporate performance under the bonus program in cash. Such cash amounts were paid in 2008. In 2008, our Compensation Committee determined that the specified 2008 goals under our bonus plan had not been achieved and, as a result, no bonus would be earned pursuant to the bonus plan for 2008. However, in light of the successful completion of our significant acquisition of Reliant Technologies during 2008, the Compensation Committee awarded executive officers and certain employees a special recognition bonus. Additionally, as a retention tool, the Committee awarded restricted stock units to executive officers. The Committee determined the amount of these bonuses and awards based on an aggregate value equal to approximately 50% of the original 2008 target bonuses for the executive officers.
