Item 2.02 Results of Operations and Financial Condition.

On May 6, 2009, The Blackstone Group L.P. issued a press release announcing financial results for its quarter ended March 31, 2009.

A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

Non-GAAP Financial Information

Blackstone discloses the following financial measures that are calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles in the United States of America (non-GAAP) in the attached press release:

Blackstone uses Economic Net Income, or ENI , as a key measure of value creation and as a benchmark of its performance. ENI represents segment net income excluding the impact of income taxes and transaction-related items, including charges associated with equity-based compensation, the amortization of intangibles and corporate actions including acquisitions.

The aggregate of ENI for all reportable segments equals Total Segment ENI. ENI is used by management primarily in making resource deployment and compensation decisions across Blackstone 's four segments.

Economic Net Income After Taxes represents ENI adjusted to reflect the implied provision (benefit) for income taxes calculated using the same methodology applied in calculating the tax provision (benefit) for The Blackstone Group L.P.

Blackstone uses Net Fee Related Earnings from Operations, which is a component of Adjusted Cash Flows from Operations, as a performance measure to highlight earnings from operations excluding the income related to performance fees and allocations and income earned from Blackstone 's investments in the Blackstone Funds. Management uses Net Fee Related Earnings from Operations as a measure to assess whether recurring revenue from our businesses more than adequately covers all of our operating expenses and generates profitability. Net Fee Related Earnings from Operations equals (i) contractual revenues and interest income, (ii) less compensation expenses but excluding carried interest and incentive fee compensation, including amortization of transaction-related equity-based awards, (iii) less other operating expenses and (iv) less cash taxes calculated in a manner similar to our ENI provision for income taxes.

Blackstone has managed its historical liquidity and capital requirements by focusing on its cash flows before consolidation of the Blackstone Funds and the effect of normal changes in assets and liabilities which it anticipates will be settled for cash within one year. Normal movements in Blackstone 's short-term assets and liabilities do not affect its distribution decisions given its current and historical balance sheet liquidity, including available cash, marketable securities and available borrowing capability. Adjusted Cash Flows from Operations, which is derived from our segment reported results, is a supplemental measure to assess liquidity and amounts available for distributions to Blackstone unitholders, including Blackstone personnel.

Adjusted Cash Flows from Operations represents net cash flows used in or provided by operating activities adjusted for (i) transaction-related corporate actions, (ii) cash flows relating to changes in operating assets and liabilities, (iii) Blackstone Funds-related investment activity, (iv) net realized gains on illiquid investments, (v) differences in the timing of realized gains by The Blackstone Group L.P. versus the Blackstone Funds, (vi) minority interest related to departed partners, (vii) GAAP taxes versus cash income taxes which are calculated in a manner similar to our ENI provision for income taxes, (viii) non-controlling interests in income of consolidated entities, and (ix) other adjustments.

Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are included in the attached press release. These non-GAAP financial measures should be considered in addition to and not as a substitute for, or superior to, financial measures presented in accordance with GAAP.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

Exhibit No.	Description
Exhibit 99.1	Press release of The Blackstone Group L.P. dated May 6, 2009.

SIGNATURE
