Cash flows from investing activities for the year ended March 31, 2012 were inflows of 9.9 billion yen due mainly to decrease in Other, net. Cash flows from financing activities for the year ended March 31, 2012 were outflows of 844.3 billion yen due primarily to a decrease in Long-term borrowings.

2. Corporate Goals and Principles

(1) Fundamental Management Policy

Nomura Group is committed to a management vision of firmly establishing ourselves as a globally competitive financial services group. We will seek to realize this vision and increase shareholder value by strengthening our base in the Japanese securities businesses, developing world-class businesses in other regions, and consolidating our comprehensive global strength.

We will establish our new growth model by working with our clients, providing them with the best solutions, and realizing the expansion of our business in new domains. Our management target is to maintain an average consolidated return on shareholders—equity (ROE) of 10% to 15% over the medium to long term. However, depending on developments in the environment faced by financial institutions, such as the instability of the global economic situation as well as regulatory tightening by the Basel Committee on Banking Supervision and other financial regulators, we cannot discount the possibility that we may be impacted.

Nomura Group will continue to put high priority on compliance with applicable laws, regulations and proper corporate behavior, and to build compliance into our daily business operations.

(2) Structure of Business Operations

Nomura Group is organized around globally-linked business divisions under a unified strategy, rather than individual legal entities. Nomura Group is operations are comprised of Retail, Asset Management, and Wholesale Divisions. We will strive to achieve a higher level of specialization in each division, advance and expand in each respective area of our business, and maximize the collective strength of Nomura Group by enhancing cross-divisional and regional collaboration.

(3) Management Challenges and Strategies

The global financial and economic environment continues to be challenging as regulatory tightening over financial institutions progresses and due to destabilizing factors such as the European sovereign-debt crisis. Although the market has been returning to stable growth since the beginning of 2012, complete recovery is expected to take considerable time. Under these management conditions, we will allocate management resources appropriately to pursue efficiency and sharpen our competitive edge, as well as to increase profitability by streamlining business processes. With the aim of further enhancing swift decision making, Global Markets which was initially an integrated platform to achieve increased synergy between the Fixed Income and Equities businesses, has been split into Fixed Income and Equities businesses as of April 2012 given that the synergies have developed. We will continue to build out an effective operational framework while adapting to the changing environment, aiming to achieve our management goals.

Further, using our robust financial platform, a competitive advantage of Nomura, we will continue to provide services and solutions responding nimbly to changes in market conditions, financial business environments and client demands and fulfill our corporate social responsibility to contribute to a forum for steady liquidity through the market.

To achieve our strategic goals, we will implement the following initiatives:

[Retail Division]

In the Retail Division, we will continue to expand our products and service offerings, which are provided through Financial Advisors, online or via call centers to accommodate increasingly sophisticated and diverse client needs. We aim to enhance investment consultation services and to continue being a trusted partner to our clients by providing world-class products and services that meet their individual needs.

[Asset Management Division]

In our investment trust business, we will provide individual clients with a diverse range of investment opportunities to meet investors—various demands and in investment advisory business, we will provide institutional clients globally with value-added investment services. We intend to increase assets under management and expand our client base for these two core businesses.

We aim to enhance our world-class competitive advantage in Japan and the rest of Asia by making continuous efforts to improve investment performance and gain the trust of investors worldwide.

[Wholesale Division]

Wholesale Division consists of Fixed Income and Equities which offer sales and trading of financial products and origination services, and Investment Banking which offers a broad range of financial advisory and financing solutions services.

Fixed Income and Equities, the market related businesses, have been focusing on delivering high value-added products and solutions to our clients by leveraging our sophisticated trading expertise, intellectual capital in research and structuring and our global distribution capabilities. In Fixed Income, we will build further on our client-centric strategy globally, and in Equities, we will continue to build our leadership position further across Asia, leveraging our strength in Japan, and target further growth across our strengthened platforms in EMEA and the U.S. based on our existing strategies.

In Investment Banking, we are expanding our M&A advisory and corporate finance businesses to diversify sources of profit by providing high value-added solutions in a timely manner to meet the individual needs of each client.

Table of Contents

Also in the Wholesale Division, cross-business and cross-regional cooperation are increasingly important axes of our Wholesale strategy to satisfy client needs. As a global financial services group, we will continue to strive collectively to further our growth through our geographic advantage in Asia where economic development and a deepening of our clients—footprint is expected. We aim to enhance our presence as a global investment bank providing world-class services, by enhancing regional integration and business coordination between Japan and the rest of Asia and utilizing global business platform.

In implementing the initiatives outlined above, we aim to bring together the collective strengths of our domestic and international operations to realize our management objectives and to maximize shareholder value by enhancing profitability across our businesses, while helping to strengthen the global financial and capital markets.

[Other]

We recognize that it is necessary to further strengthen and streamline our global risk management and we are pursuing a proactive, rather than a reactive, risk management approach. We will continue to develop a system where senior management directly engage in a proactive risk management approach for precise decision making.

As our business becomes increasingly international and diverse, we recognize the growing importance of compliance. In addition to complying with local laws and regulations in the countries that we operate, we view compliance in a wider context. We will further enhance our existing overall compliance system with initiatives towards promoting an environment of professionalism and high ethical standards among executive management to meet the expectations of society and clients and contribute to the further development of the financial and capital markets.

3. Consolidated Financial Statements

The consolidated financial information herein has been prepared in accordance with Nomura's accounting policies which are disclosed in the notes to the consolidated financial statements of Nomura Holdings, Inc.'s Annual Securities Report (the annual report filed in Japan on June 30, 2011) and Form 20-F (the annual report filed with the U.S. Securities and Exchange Commission on June 30, 2011) for the year ended March 31, 2011.

(7) Significant Items for Presenting the Consolidated Financial Statements (UNAUDITED) The Scope of Consolidation (Changes in Significant Subsidiaries During the Period)

In May 2011, Nomura increased its stake in Nomura Land and Building Co., Ltd. (NLB) by acquiring additional NLB shares and thereby made it a subsidiary. As a result, Nomura Real Estate Holdings, Inc., a subsidiary of NLB, became a Specified Subsidiary of Nomura. Due to this business combination with NLB, income before income taxes for the three months ended June 30, 2011 increased by 24.3 billion yen. In addition, through share exchange in July 2011, NLB became a wholly owned subsidiary of Nomura.

(8) Changes in Accounting Policies (UNAUDITED) Accounting for repurchase agreements and similar transactions

Nomura adopted Accounting Standard Update 2011-03 Reconsideration of Effective Control for Repurchase Agreements issued by the Financial Accounting Standards Board from January 1, 2012, and certain Japanese securities lending transactions undertaken after adoption date have been accounted for as secured borrowings rather than sales in these consolidated financial statements as the criteria for derecognition of the transferred financial assets are no longer met.

The Fair Value for Non-trading Securities

During the three months ended June 30, 2011, an insurance company became a subsidiary of Nomura (insurance subsidiary). Nomura measures the non-trading securities that are held by the insurance subsidiary at fair value, with changes in fair value recognized through other comprehensive income (loss) after tax effects are adjusted. These non-trading securities are included in *Other assets Non-trading debt securities* and *Other assets Other* in the consolidated balance sheets.

Changes in Tax Laws

On December 2, 2011, the Act to partially revise the Income Tax Act and others in order to construct a tax system corresponding to changes in the structure of economic system (Act No. 114 of 2011) (the Act 114) was promulgated. Under the Act 114, effective from the fiscal year beginning on or after April 1, 2012, the corporate income tax rate will be reduced from 30% to 25.5% and the use of operating loss carryforwards for tax purposes will be limited to 80% of the current year taxable income before deducting operating loss carryforwards for tax purposes. Also, on December 2, 2011, the Special measures act to secure the financial resources required to implement policy on restoration after the Great East Japan Earthquake (Act No. 117 of 2011) (the Act 117) was promulgated. Under the Act 117, effective for three fiscal years from April 1, 2012 to March 31, 2015, the Special Reconstruction Corporate Tax will be imposed on the companies, which will be calculated by multiplying the base corporate income tax by 10%. As a result, the domestic statutory tax rates to calculate deferred tax assets and liabilities will be 38% for the next three years and 36% thereafter.

Due to these revisions, income tax expenses increased by 5.5 billion yen and net income attributable to NHI shareholders decreased by 13.3 billion yen for the year ended March 31, 2012.
