Notes:

1.

Appraised value is the lesser of the average and median Base Values of each aircraft as appraised by three appraisers. An appraisal is an estimate of value and should not be relied upon as a measure of realizable value. Assumes that United finances the first 18 Boeing 787-9 aircraft and the first 3 Boeing 787-8 aircraft scheduled for delivery from which United may select. The Aggregate Appraised Aircraft Value after all Aircraft have been delivered will be \$1,308,033,650

2.

Initial collateral cushion is calculated as of August 15, 2014, the first Regular Distribution Date after all aircraft are expected to be delivered

Collateral Overview

Boeing 737-900ER

Overview:

The 737-900ER is the largest variant of world's all-time best selling 737NG family of narrowbody commercial aircraft

Strengths

(1)

:

Very similar build and configuration to the 737-800, but longer fuselage accommodates 13 additional passengers with transcontinental capability in United's standard two-class configuration

Introduced in 2007, the 737-900ER is the newest member of the 737NG family with up to 177 commercial aircraft in service and 349 on order

Lowest operating unit cost per seat among in-production narrowbodies

Importance

to

United:

Allows United to increase available capacity in higher demand domestic markets with a marginal increase in trip cost as compared to other 737NG aircraft

United also views the aircraft as an attractive alternative for domestic 757-200 aircraft

Importance to United:

Provides United with a cost-efficient, long-range, medium-density route aircraft

An attractive replacement on 767 routes and certain 777 markets

1. Sources: Ascend, The Boeing Company, United Airlines

2. Includes orders of 787-8, -9 and -10 variants

Up to 20% lower fuel consumption than equivalent sized aircraft

15-25% lower operating costs

Up to 30% lower airframe maintenance costs and longer intervals between
maintenance checks

20% weight savings due to an airframe comprised of nearly 50% carbon fiber
