Form 425
August 13, 2018

FILED BY EXPRESS SCRIPTS HOLDING COMPANY

PURSUANT TO RULE 425 UNDER THE SECURITIES ACT OF 1933

AND DEEMED FILED PURSUANT TO RULE 14a-12

UNDER THE SECURITIES EXCHANGE ACT OF 1934

SUBJECT COMPANY: EXPRESS SCRIPTS HOLDING COMPANY / CIGNA CORPORATION

COMMISSION FILE NO. 001-35490

The following was sent in an email to employees of Express Scripts Holding Company:

Dear colleagues,

It has been quite a week for our company: We faced flawed critiques of our business model, baseless criticisms of our pending combination with Cigna and uninformed speculation about our future.

As we would expect, the facts prevailed in the end and your important work continues to be validated.

Earlier today, Institutional Shareholder Services (ISS) made a positive recommendation to Cigna and Express Scripts shareholders to vote in favor of our pending deal. The ISS recommendation supports what we have long known to be true: our value is clear, our future opportunities are numerous, and a combined company can do even more to deliver quality, cost-effective healthcare.

As many of you know, the shareholders of Express Scripts and Cigna are scheduled to vote on our combination on Aug. 24. We remain confident that the vote and the ongoing regulatory reviews will be positive.

We firmly believe, as does Cigna, that together we can fundamentally improve healthcare by driving down costs, increasing access to critical care and helping people live healthier lives. We and Cigna remain fully committed to our combination and are confident in our ability to complete the transaction by the end of the year.

As we said in our second quarter earnings announcement, our company is doing well. We delivered solid financial results, increased our expectations for client retention, growth in prescription claims and 2018 adjusted EBITDA for our core business. We are well positioned for future growth.

At the same time, we operate in an evolving system. Many medications remain too expensive for most Americans and pharmaceutical companies continue to raise drug prices at unsustainable levels. And while these companies often look to shift the blame to others, it's important to remember there's not a single law or regulation that needs to change for manufacturers to lower their prices—drug companies alone set the list price for the drugs they sell.

Earlier this week, the Centers for Medicare and Medicaid Services (CMS) proposed applying proven PBM solutions, namely step therapy, to help increase competition and negotiation for physician-administered and other Part B medications that will result in lower drug costs for patients—yet another endorsement of our work.

Our job is clear and has never been more important: use our scale, formulary, clinical expertise and innovative solutions to secure the lowest possible net cost for our clients and improve patient outcomes.

Edgar Filing: Express Scripts Holding Co. - Form 425

Self-appointed experts may speculate on the future of our company, but we know what works in the market. Focusing on patients and clients allows us to be confident in our business. No matter what, we will not waver in delivering quality care and cost effective access to prescription drugs for the 83 million people who rely on us every day.

It is an increasingly noisy environment to be sure, but when we focus on doing great work for the right reasons, we can continue to be champions for better for those we serve.

As always, and this week in particular, thank you for being all in for our clients, patients and each other.
