1.

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and item 310(b) of Regulation S-B and are prepared using the same accounting policies as outlined in note 4 of IntelGenx Technologies Corp. financial statements for the year ended December 31, 2007 and 2006. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2008 are not necessarily indicative of the results that may be expected for the year ended December 31, 2008. The unaudited financial statements should be read in conjunction with the financial statements and notes thereto included in the IntelGenx Technologies Corp. audited financial statements for the years ended December 31, 2007 and 2006.

2.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company has reported an accumulated deficit of \$2,382,079 (2007 - \$1,918,658). To date, these losses have been financed principally through capital stock, long-term debt and debt from related parties. Additional capital and/or borrowings will be necessary in order for the Company to continue in existence and attaining profitable operations.

Management has continued to develop a strategic plan to build a management team, maintain reporting compliance and establish contracts with pharmaceutical companies. Management anticipates generating revenue through development contracts during the year. The Company has raised additional cash through the issuance of common shares in the three month period ended March 31, 2008. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

3.

Adoption of New Accounting Standards

Fair Value Measurements

SFAS 157 is effective for financial assets and liabilities in fiscal years beginning after November 15, 2007, and for non-financial assets and liabilities in fiscal years beginning after November 15, 2008. The Company adopted SFAS 157 for financial assets and liabilities in the first quarter of fiscal 2008 with no material impact to the consolidated financial statements. The Company is currently evaluating the potential impact of the application of SFAS 157 on the non-financial assets and liabilities found on its consolidated financial statements.

3.

Adoption of New Accounting Standards (Cont d)

SFAS No. 157 applies to all assets and liabilities that are being measured and reported on a fair value basis. SFAS No. 157 requires new disclosure that establishes a framework for measuring fair value in GAAP, and expands disclosure about fair value measurements. This statement enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories: Level 1: Quoted market prices in active markets for identical assets or liabilities. Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data. Level 3: Unobservable inputs that are not corroborated by market data. In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to SFAS No. 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

Fair Value of Financial Instruments

The table below presents the carrying value and fair value of Company's financial instruments. The disclosure excludes leases. The fair value represents management's best estimates based on a range of methodologies and assumptions. The carrying value of receivables and payables arising in the ordinary course of business, the investment tax credits receivable and the convertible notes approximate fair value because of the relatively short period of time between their origination and expected realization. The loan payable, shareholder is presumed to have a fair value measured by the cash proceeds exchanged at issuance in accordance with APB-21.

3.

Adoption of New Accounting Standards (Cont d)

The convertible notes use significant unobservable inputs and thus are shown as Level 3 hierarchy items. The fair value of the convertible notes is calculated by discounting the stream of future payments of interest and principal at the prevailing market rate for a similar liability that does not have an associated equity component. Results of discounted cash flow calculations may be adjusted, as appropriate, to reflect other market conditions or the perceived changes in credit risk of the borrower. The following summarizes the changes in the fair value of the convertible notes for the three month period ending March 31, 2008:

Opening Balance, December 31, 2007	\$ 417,634
Interest accretion and amortization of debenture cost	97,498
Interest paid during the period	(28,302)
Ending Balance, March 31, 2008	\$ 486,830

4.

Significant Accounting Policies

Recently Issued Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board issued SFAS Statement No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("SFAS 161"). This standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, that this statement will have on its disclosures related to derivative instruments and hedging activities.

5.

Convertible Notes

On May 22, 2007 the Company entered into convertible note agreements with certain institutional and accredited investors for amounts totalling \$1,500,000. The convertible notes bear interest at the rate of 8% per annum and are repayable on March 22, 2009. Interest is payable quarterly and payments commenced on July 1, 2007. The notes are convertible into common stock of the Company, at the option of the holders, at a rate of \$0.70 per share. The Company also issued to the holders 2,142,857 stock purchase warrants exercisable at \$1.02 per share before May 22, 2012.

The Company paid approximately \$229,323 in cash consideration and issued warrants with a fair value of \$82,993 in consideration for transaction costs. These transaction costs were allocated between the convertible debt and the warrants based on their relative fair value.

Convertible Notes (Cont d)

The Company may, at its option, elect to pay the interest by the issuance of shares of common stock. The number of shares is to be determined by dividing the amount of the interest payment by the number which is 85% of the average market price of the Company's common shares for the 20 trading days immediately prior to the interest payment date assuming the average market price is equal or greater than \$0.70 as adjusted for reverse and forward share split, recapitalizations and the like that occur after the date of the Securities Purchase Agreements.

In accordance with EITF Issue 98-5 "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios", the Company recognized the value of the embedded beneficial conversion feature of \$490,093 as additional paid-in capital and an equivalent discount which will be expensed over the term of the convertible notes. In addition, in accordance with EITF Issue 00-27 "Application of Issue No.98-5 to Certain Convertible Instruments", the Company has allocated the proceeds of issuance between the convertible notes and the detachable warrants based on their relative fair value. Accordingly, the Company recognized the fair value of the detachable warrants of \$490,093 as additional paid-in capital and an equivalent discount against the convertible notes. The difference between the face amount of the convertible notes and their carrying value is amortized over the life of the convertible notes. The Black-Scholes Model was used to calculate the fair value of the warrants.

The underlying assumptions included in the Black-Scholes Model were as follows:

Expected volatility	64%
Contractual life	5 years
Risk-free interest rate	4.39%
Dividend yield	Nil

Substantially all of the assets of the Company have been pledged as security of the convertible notes. For the three months ended March 31, 2008, \$28,714 (2007- \$Nil) of interest has been paid, and \$97,498 (2007- \$Nil) of interest has been accreted. In the first quarter of 2008, no convertible notes were exchanged for shares of common stock.

On March 27, 2008, as part of a private placement, the Company issued 4,001,000 units for gross proceeds of \$2,800,700. Each unit consists of one common share of the Company and one common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$1.02 per common share and expires 24 months after the date of issuance. Proceeds were allocated between the common shares and the warrants based on their relative fair value. The common shares were recorded at a value of \$2,127,960. (See note 8 for the portion allocated to the warrants.)

The Company paid an agent a cash commission in the amount of \$196,000, which is equal to 7% of the gross proceeds of the offering and issued an agent option entitling the agent to acquire 320,080 units (consisting of one common share and one common share purchase warrant) at \$0.70 per unit, which expires 24 months after the date of issuance. Each common share purchase warrant included in the unit entitles the holder to purchase one common share at an exercise price of \$1.02 per common share and expires 24 months after the date of issuance of the unit. In addition, the Company paid approximately \$256,000 in cash consideration for other transaction costs. All the above transaction costs have been reflected as a reduction of the common shares and the warrants based on their relative fair values.

Pursuant to the terms of the private placement, the Company is obliged to use its best efforts to (i) have the common shares listed on the TSX Venture Exchange, and (ii) prepare and file with, and have declared effective, by the U.S. Securities and Exchange Commission, a resale registration statement in respect of the common shares and the warrants issued to subscribers as well as those issuable upon exercise of the agents warrants, all prior to 4 months after March 27, 2008. In the event that these provisions are not satisfied within 4 months, the exercise price of the warrants shall be reduced to \$0.93. In addition, if the Company is not listed on the TSX Venture Exchange within 2 months of the private placement, the Company shall: (i) pay to each subscriber under this private placement a cash penalty in the amount of 5% of the aggregate subscription price paid by the subscriber and an additional 1% of the aggregate subscription price for every subsequent calendar month thereafter that the listing is not effected, to a maximum of 3 months; and (ii) reduce the exercise price of the agent's option by 5% with an additional 1% for every subsequent calendar month thereafter that the listing is not effective. Pursuant to FSP EITF 00-19-2 "Accounting In Registration Payment Arrangements", the Company concluded that at inception, payments under these commitments are not probable. The Company's assessment as at March 31, 2008 has not changed.

This cash will be taken from the proceeds of the private placement of March 27, 2008. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following information should be read in conjunction with the unaudited consolidated financial statements for the three month period ended March 31, 2008 and 2007 and notes thereto. Unless otherwise indicated or the context otherwise requires, the "Company", "we", "us", and "our" refer to IntelGenx Technologies Corp. and its subsidiaries including IntelGenx Corp. ("IntelGenx")

Overview

Company Background

We are a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada, which focuses on the development of novel oral immediate-release and controlled-release products for the generic pharmaceutical market. Our business strategy is to develop pharmaceutical products based on our proprietary drug delivery technologies and then license commercial rights for such products to pharmaceutical partners once the viability of a product has been demonstrated. We expect a partner company will, in some cases, fund development of the licensed products, complete the regulatory approval process with the U.S. Food and Drug Administration (FDA) or other regulatory agencies relating to the licensed products, and assume responsibility for marketing and distributing such products.

In addition, the Company anticipates that it may undertake full development of certain products without seeking a partner until the product reaches the marketing and distribution stage. The Company will assess the potential for successful development of a product and associated costs, and then determine at which stage it is most prudent to seek a partner, balancing such costs against the potential for additional returns earned by partnering later in the development process.

The Company has also undertaken a strategy under which it will work with pharmaceutical companies in order to develop new dosage forms in addition to already existing ones for pharmaceutical products for which patent protection is about to expire. Under §(505)(b)(2) of the Food, Drug, and Cosmetics Act, the FDA will grant a market exclusivity of up to three years for such a new dosage form. The Company anticipates significant returns from successfully obtaining market exclusivity in this manner.

The Company is currently continuing to develop the existing products in its pipeline and may also perform research and development on other potential products as the opportunities present themselves.

The Company does not currently plan to acquire a manufacturing facility. The Company currently purchases and/or leases, on an as-needed basis, the equipment necessary for performing research and development activities related to its products.

The Company will hire new personnel, primarily in the area of research and development, on an as-needed basis as the Company enters into partnership agreements and increases its research and development activities.

Currency rate fluctuations

The Company's operating currency is Canadian dollars while its reporting currency is U.S. dollars and, as such, the Company's results of operations and balance sheet position have been affected by recent important currency rate fluctuations. The following management discussion and analysis takes this into consideration whenever significant.

Edgar Filing: IntelGenx Technologies Corp. - Form 424B3

Net income (loss)	(463,421)	(139,842)	(323,579)	231%
Revenue				

Total revenues for the quarter ended March 31, 2008 were \$158,101, compared with \$87,455 for the same period in 2007, an increase of \$70,646, or 81%. The increase in total revenue for the three month period is primarily attributable to revenues received pursuant to our research and development agreements with our pharmaceutical partners. The remaining amount is attributable to interest income of \$13,104 earned on the cash proceeds from the sale of our securities in May 2007.

Our research and development revenues for the quarter ended March 31, 2008 consisted of \$144,997 received for development milestones achieved in connection with product development projects initiated in 2007 and prior.

Research and development

Research and development expenses for the quarter ended March 31, 2008 were \$337,624, as compared to \$103,865 for the same period in 2007. The increase in research and development expenses is attributable to the increased drug development activities. Included in these costs are R&D Salaries of \$106,453 in 2008, \$3,830 of which are non-cash compensation resulting from the amortization of options granted in 2006. Since research and development expenses are directly related to the amount of R&D work performed, management expects a further increase of R&D expenses during the current year due to a further increase of development projects. For the three months ended March 31st, 2008, we have recorded estimated Research and Development Tax Credits and refunds of \$44,852 (\$21,340 in 2007).

On April 7, 2008, the Company ratified with Cary Pharmaceutical an Agreement to jointly develop and commercialize an oral antidepressant using IntelGenx's proprietary oral delivery technology. Under the terms of the Agreement, IntelGenx will provide funding and development support for the product and will be entitled to profit sharing. The Company will account for this transaction as a collaborative agreement. Per the Agreement, \$2,000,000 of the Company's cash and cash equivalents will be dedicated to the funding of this venture. This cash will be taken from the proceeds of the private placement of March 27, 2008. As of May 12, 2008, the Company has disbursed approximately \$669,715 on the project leaving \$1,330,285 of cash as restricted for the funding of this venture.

Management Salaries and General and Administrative

Management salaries increased to \$107,523 for the three month period ended March 31st, 2008 (\$24,601 in 2007) while general and administrative expenses increased to \$48,169 (\$32,478 in 2007). Included in management salaries are \$12,730 in non cash compensation from the amortization of options granted to management employees in 2007. The remaining cash increase in management salaries is attributable to the addition of the Chief Financial Officer and the Vice-President Business Development. The increase in G&A expenses is attributed to the increase in corporate operations. In order to continue to support ongoing product development activities and allow the addition of further development programs the Company is seeking a different location in 2008 consequently, management expects the

G&A expenses to increase during the year.

-15-

Professional Fees

Professional fees increased to \$118,436 for the three month period ended March 31st, 2008 from \$63,860 for the same period in 2007, none of which is non-cash compensation for Investor Relations contracts (\$33,312 in 2007). The increase reflects amounts paid to our legal counsel and auditors in connection with our reporting obligations as well as our investor relations firm.

Share-Based Compensation Expense, Warrants and Stock Based Payments

Share-based compensation expenses, warrants and share based payments totaled \$16,560 for the three month period ended March 31st, 2008 as compared to \$24,395 for the three months ended March 31, 2007.

We expensed \$16,560 during the first quarter of 2008 for options granted to company employees in 2006 and 2007 under the 2006 Stock Option Plan. There remains approximately \$79,894 in stock based compensation to be expensed in fiscal 2008 and 2009 related to the issuance of options during 2006 and 2007. We anticipate issuance of additional options and warrants in the future, which will continue to result in stock-based compensation expense and may result in warrant amortization expense.

Financing Cost

We incurred interest and financing fee expense of \$127,936 during the period ended March 31st, 2008 compared to \$13,767 for the same period in 2007. The majority of the financing fee expense is made up of a non-cash accretion expense of \$97,498, and cash interest payments of \$28,714 on the convertible debentures issued in May 2007. Based on the outstanding principal amount of the convertible debentures issued in May 2007, and assuming no additional conversions of these debentures into common stock, we expect to incur interest expense of \$84,000 in 2008.

Net Loss

Net loss for the three month period ended March 31st, 2008 was \$463,421, as compared to a net loss of \$139,842 for the same period in 2007. The increase in the net loss for the three month period ended March 31st, 2008 is primarily due to increases in research and development expenses, management salaries, professional fees and financing expenses. These expenses were partially offset by higher research and development revenues and interest income. In 2008, the Company incurred non-recurring and non-cash expenses for a total of \$92,246 for accretion expense, depreciation, share-based compensation and deferred income taxes.

Funds will be deposited into the checking account upon IntelGenx gaining funding for the project and will be an asset of the joint venture, for disbursement or distribution in accordance with this Agreement. The Chief Financial Officer of IntelGenx will handle deposits and disbursements to and from the checking account under direction of the Steering Committee and in cooperation with the Chief Financial Officer of Cary. Checks over \$10,000 in amount will require the written approval of an authorized officer of both parties. In addition, the funds actually expended by IntelGenx in accordance with the Development Budget (as amended from time to time) will be reimbursed to IntelGenx or, at Cary's option, such amounts may be converted into an IntelGenx Percentage, whereby IntelGenx would receive additional participation in Cary's Net Revenues for the Product.

Shortly before the end of the 45 day time period, IntelGenx will provide Cary a status report regarding its financing progress and summarizing all amounts expended pursuant to the Development Budget. The parties will meet or confer by teleconference after the delivery of such report to discuss such status and determine if an extension to the termination date is warranted.

Notwithstanding the foregoing, in no event shall such Party have the right to audit any period previously audited or to audit any period ending more than two years prior to the date such audit is commenced. Any amounts determined pursuant to any such audit to have been overpaid or underpaid shall promptly be refunded or paid as applicable. Notwithstanding the foregoing, in the event that the other Party disagrees with the conclusions of any such audit, the Parties shall submit such dispute to arbitration in accordance with Section 15.11 and no payment shall be made pursuant to this Section 7.6.1 pending the outcome of such arbitration. As a condition to such audit, the independent public accountant selected shall execute a written agreement, reasonably satisfactory in form and substance to both Parties, to maintain in confidence all information obtained during the course of any such audit except for disclosure as necessary for the above purpose and all reasonable documents will be delivered to the auditor under these confidential terms. Additionally no auditor may be employed on a contingency basis.

Neither the execution and delivery of this Agreement by Cary, or any other agreement or instrument contemplated hereby, by Cary, nor the performance by Cary of its obligations hereunder or thereunder, will: (a) result in any violation of or constitute a breach of any of the terms or provisions of, result in the acceleration of any obligation under, or constitute a default under (i) the certificate of incorporation or by-laws or similar organizational documents of Cary or (ii) any contract or any other material obligation to which Cary is a party or to which it is subject or bound; (b) violate any judgment, order, injunction, decree or award of any court, administrative agency, arbitrator or governmental body against, or affecting or binding upon, Cary; (c) constitute a violation by Cary of any applicable law or regulation of any jurisdiction as such law or regulation relates to Cary; or (d) require any consent, authorization, or approval of, or notice, declaration, filing or registration by Cary to or with, any governmental authority or any other Person.

ARTICLE XI

INDEMNIFICATION

SECTION 11.1. Cary Indemnification. Cary shall indemnify IntelGenx and its officers, directors, employees and Affiliates (collectively, the IntelGenx Parties) against any and all losses, liabilities, damages, costs and expenses, including without limitation costs of investigation and reasonable attorneys' fees and expenses (collectively, Losses), sustained by an IntelGenx Party and arising from

(i) any breach of any representation or warranty made by Cary in this Agreement or any agreement, instrument or document delivered by Cary pursuant to the terms of this Agreement,

(ii) any failure to perform duly and punctually any covenant, agreement or undertaking on the part of Cary contained in this Agreement, or

except, in each case, to the extent such Losses are caused by IntelGenx's breach of this Agreement or the willful misconduct or negligence of IntelGenx.

SECTION 11.2. IntelGenx Indemnification. IntelGenx shall indemnify Cary and its officers, directors, employees and Affiliates (collectively, the Cary Parties) against any and all Losses sustained by any Cary Party and arising from

(i) any breach of any representation or warranty made by IntelGenx in this Agreement or any agreement, instrument or document delivered by IntelGenx pursuant to the terms of this Agreement,

- (ii) any failure to perform duly and punctually any covenant, agreement or undertaking on the part of IntelGenx contained in this Agreement,
- (iii) the infringement by the Product, the activities contemplated hereby, or the IntelGenx Intellectual Property of any patent, copyright, trade secret or other intellectual property right of any third party, or
- (iv) any death of, or bodily injury to, any person on account of the ingestion or use of any Product to the extent that such death or injury is attributable to or arises out of clinical studies or development work conducted by IntelGenx or its designee(s) or Product manufactured by IntelGenx or at its direction,

except, in each case, to the extent such Losses are caused by Cary's breach of this Agreement or the willful misconduct or negligence of Cary.

SECTION 11.3. Indemnification Procedures. Promptly after receipt by a Party of notice of any claim which could give rise to a right to indemnification pursuant to Section 11.1 or 11.2, such Party (the Indemnified Party) shall give the other Party (the Indemnifying Party) written notice describing the claim in reasonable detail. The failure of an Indemnified Party to give notice in the manner provided herein shall not relieve the Indemnifying Party of its obligations under this Article XI, except to the extent that such failure to give notice materially prejudices the Indemnifying Party's ability to defend such claim. Except as otherwise set forth in Section 9.4, the Indemnifying Party shall have the right, at its option, to compromise or defend, at its own expense and by its own counsel, any such matter involving the asserted liability of the Indemnified Party. If the Indemnifying Party shall undertake to compromise or defend any such asserted liability, it shall promptly (and in any event not less than ten (10) days after receipt of the Indemnified Party's original notice) notify the Indemnified Party in writing of its intention to do so, and the Indemnified Party agrees to cooperate fully with the Indemnifying Party and its counsel in the compromise or defense against any such asserted liability. All reasonable costs and expenses incurred in connection with such cooperation shall be borne by the Indemnifying Party. If the Indemnifying Party elects not to compromise or defend the asserted liability or fails to notify the Indemnified Party of its election to compromise or defend as herein provided, then the Indemnified Party shall have the right, at its option, to pay, compromise or defend such asserted liability by its own counsel and its reasonable costs and expenses shall be included as part of the indemnification obligation of the Indemnifying Party hereunder. Notwithstanding the foregoing, neither the Indemnifying Party nor the Indemnified Party may settle or compromise any claim over the objection of the other; provided, however, that consent to settlement or compromise shall not be unreasonably withheld. Anything to the contrary notwithstanding, regardless of which Party controls the defense of an asserted liability, the other Party shall have the right, at its own expense, to participate in (but not control) such defense. If the Indemnifying Party chooses to defend any claim, the Indemnified Party shall make available to the Indemnifying Party copies of any books, records or other documents within its control that are reasonably necessary for such defense. Notwithstanding anything to the contrary in this Section 11.3, the Party conducting the defense of a claim shall keep the other Party informed on a reasonable and timely basis as to the status of the defense of such claim (but only to the extent such other Party is not participating jointly in the defense of such claim). To the extent desirable and appropriate in connection with the defense of any liability described in this Section 11.3, the Parties shall enter into a joint defense and privilege agreement in customary form.

SECTION 11.4. Indemnification Payment. Upon the determination of liability and the amount of the indemnification payment under this Article XI, the appropriate Party shall pay to the other, as the case may be, within ten (10) business days after such determination, the amount of any claim for indemnification made hereunder.

SECTION 11.5. Effect of Investigation. The Parties agree and acknowledge that the representations, warranties, indemnification obligations and other covenants contained in this Agreement constitute a bargained-for allocation of risk among the Parties. Any due diligence review, audit or other investigation or inquiry undertaken or performed by or on behalf of a Party or any of its Affiliates or representatives shall not limit, qualify, modify or amend the representations, warranties or covenants of, or indemnities by, the other Party made or undertaken pursuant to this Agreement, irrespective of the knowledge and information received (or which should have been received) therefrom by the Party conducting such due diligence review, audit or other investigation or inquiry, or any of its respective Affiliates or representatives.

ARTICLE XII

LIMITATION OF LIABILITY

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, EXCEPT WITH RESPECT TO THIRD PARTY CLAIMS SUBJECT TO THE INDEMNIFICATION OBLIGATIONS SET FORTH IN THIS AGREEMENT, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY SPECIAL, INDIRECT, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, OR ANY DAMAGES CONSTITUTING LOST PROFITS SUFFERED BY THE OTHER PARTY, WHETHER IN CONTRACT, TORT OR OTHERWISE.

ARTICLE XIII

TERM AND TERMINATION

SECTION 13.1. Term. Unless earlier terminated pursuant to this Article XIII or Section 7.5, the term of this Agreement shall continue in force and effect from the Effective Date until the later of (i) the date that is fifteen (15) years of the effective date of this Agreement and (ii) the date of expiration of the last to expire of the patents relating to the Product.

SECTION 13.2. Early Termination.

SECTION 13.2.1. Subject to this Section 13.2.1, either Party may terminate this Agreement if the other Party is in breach of any material term of this Agreement. If a Party seeks to so terminate this Agreement based on the other Party's breach, such Party shall give the other Party written notice thereof setting forth in reasonable detail the default(s) which would form the basis for such termination. If the defaulting Party fails to correct such default(s) within ninety (90) days after receipt of such notice, then, at the defaulting Party's option, the asserted breach shall be submitted to arbitration in accordance with Section 15.11. If the asserted breach is confirmed by such arbitration panel or if the defaulting Party elects not to proceed with arbitration, then the other Party shall have the right to terminate this Agreement immediately upon notice to the defaulting Party. This Section 13.2.1 shall not be exclusive and shall not be in lieu of any other remedies available to a Party hereto for any default hereunder on the part of the other Party.

SECTION 13.2.2. If either Party (i) makes a general assignment for the benefit of creditors; (ii) files an insolvency petition in bankruptcy; (iii) petitions for or acquiesces in the appointment of any receiver, trustee or similar officer to liquidate or conserve its business or any substantial part of its assets; (iv) commences under the laws of any jurisdiction any proceeding involving its insolvency, bankruptcy, reorganization, adjustment of debt, dissolution, liquidation or any other similar proceeding for the release of financially distressed debtors; or (v) becomes a party to any proceeding or action of the type described above in (iii) or (iv) and such proceeding or action remains undismissed or unstayed for a period of more than sixty (60) days, then the other Party may by written notice terminate this Agreement in its entirety with immediate effect.

SECTION 13.3. Effect of Termination.

SECTION 13.3.1. Upon the termination of this Agreement by a non-breaching Party pursuant to Section 13.2.1 or a Party entitled to terminate under Section 13.2.2, the license and rights granted pursuant to Sections 5.1 (if Cary is the Party entitled to terminate under Section 13.2.1 or 13.2.2) or Section 5.2 (if IntelGenx is the Party entitled to terminate under Section 13.2.1 or 13.2.2) shall become irrevocable, fully-paid, royalty-free and non-assessable until the later of (i) the fifteenth (15th) anniversary of the Effective Date and (ii) the date of expiration of the last to expire of the patents relating to the Product. In such event, the Party holding such license shall (i) pay to the other Party (or to the successor, trustee in bankruptcy, or other person or entity legally entitled to receive value on behalf of a Party, subject to the requirements of the next sentence) the share of Net Revenues described in Section 7.4, and (ii) comply with the provisions of Section 7.4 and Section 7.6. The Party holding such license will make a payment, deliver a report or otherwise grant a right or privilege under this Agreement to the other Party's successor, trustee in bankruptcy or other person or entity only upon receipt by the Party holding such license of (a) documentary evidence (such as a court order, binding agreement or other instrument) satisfactory to legal counsel for the Party holding such license that the substitute person is entitled to such payment, report, right or privilege, and (b) an indemnity agreement from such substitute person in form and substance satisfactory to legal counsel for the Party holding such license pursuant to which such substitute person will agree to indemnify and hold harmless the Party holding such license from claims made by any other party relating to any payment, report, right or privilege made, given or granted to such substitute person.

SECTION 13.4. Survival. Articles 8, 11, 12 and 15 and Sections 4.1, 5.5, 7.4, 9.1, 9.2, 13.3, and 13.4 shall survive any expiration or termination of this Agreement. In addition, unless otherwise expressly set forth herein, no expiration or termination of this Agreement shall have any effect on any payment, right or obligation, representation or warranty under this Agreement accruing or arising prior to such expiration or termination.

ARTICLE XIV

INSURANCE

Each Party shall obtain and maintain at all times during the term of this Agreement, prudent comprehensive general liability coverage appropriate to the level of risk of its activities with reputable and financially secure insurance carriers to cover its potential liabilities associated with its activities related to this Agreement.

ARTICLE XV

MISCELLANEOUS

SECTION 15.1. Interpretation. Unless the context of this Agreement otherwise requires, (i) the terms include, includes, or including shall be deemed to be followed by the words without limitation unless otherwise indicated; (ii) words using the singular or plural number also include the other; (iii) the terms hereof, herein, hereby, and derivative or similar words refer to this entire Agreement; (iv) the terms Article, Section Exhibit refer to the specified Article, Section and Exhibit of this Agreement, and (v) words of any gender include each other gender. Whenever this Agreement refers to a number of days, unless otherwise specified, such number shall refer to calendar days. The headings in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

SECTION 15.2. Independent Contractor Status. It is understood and agreed that the Parties hereto are independent contractors and are engaged in the operation of their own respective businesses, and neither Party hereto is to be considered the agent of the other Party for any purpose whatsoever, and neither Party shall have any authority to enter into any contracts or assume any obligations for the other Party nor make any warranties or representations on behalf of that other Party.

SECTION 15.3. Waiver. The waiver by either Party of a breach of any provisions contained herein may only be pursuant to written instrument, signed by the waiving Party, and any such waiver shall in no way be construed as a waiver of any succeeding breach of such provision or the general waiver of the provision itself.

SECTION 15.4. Successors; Assignment. This Agreement shall be binding upon and inure to the benefit of each Party's respective successors and permitted assigns. This Agreement may not be assigned by either Party without the prior written consent of the other Party, such consent not to be unreasonably withheld or delayed; provided, however, that either Party may assign this Agreement without the other Party's consent, to any Affiliate of such Party or any entity which acquires substantially all of such Party's assets or business to which this Agreement relates; provided that in any case the assignee of IntelGenx's rights and obligations hereunder shall own or control the IntelGenx Intellectual Property and any other rights or interests necessary to meet IntelGenx's obligations hereunder. In the event a Party assigns this Agreement, in whole or in part, to any Person without the other Party's consent in accordance with this Section 15.4, such assigning Party shall promptly notify the other Party in writing of such assignment.

SECTION 15.5. Entire Agreement. This Agreement, together with the schedules and exhibits hereto, contains the entire agreement of the Parties regarding the subject matter hereof and supersedes all prior agreements, understandings and negotiations regarding the same, including, without limitation, the Prior Agreement and any Memorandum of Understanding, letter of intent, or other document relating to the subject matter of this Agreement. This Agreement may not be changed, modified, amended or supplemented except by a written instrument signed by both Parties. Furthermore, it is the intention of the Parties that this Agreement is controlling over additional or different terms of any order, confirmation, invoice or similar document, even if accepted in writing by both Parties, and that waivers and amendments shall be effective only if made by non-pre-printed agreements clearly understood by both Parties to be an amendment or waiver of any provision of this Agreement.

SECTION 15.6. Severability. If any provision of this Agreement shall be held illegal or unenforceable, that provision shall be limited or eliminated to the minimum extent necessary so that this Agreement shall otherwise remain in full force and effect and enforceable.

SECTION 15.7. Further Assurances. Each Party hereto agrees to execute, acknowledge and deliver such further instruments, and to do all such other acts, as may be necessary or appropriate in order to carry out the purposes and intent of this Agreement.

SECTION 15.8. Publicity. Each of the Parties agrees that no publicity release or announcement concerning the transactions contemplated hereby shall be issued without the advance written consent of the other, except as such release or announcement may be required by law or the rules or regulations of any securities exchange on which a Party's or its Affiliate's securities may be traded, in which case the Party making the release or announcement shall, before making any such release or announcement, afford the other Party a reasonable opportunity to review and comment upon such release or announcement.

SECTION 15.9. Notice and Reports. All notices, consents or approvals required by this Agreement shall be in writing sent by certified or registered air mail, postage prepaid, by reputable overnight courier, or by confirmed facsimile to the Parties at the following addresses or such other addresses as may be designated in writing by the respective Parties in accordance with this Section 15.9:

SECTION 15.11. Dispute Resolution.

SECTION 15.11.1. Any dispute, controversy or claim arising out of or in connection with this Agreement shall be determined and settled by arbitration in Delaware, pursuant to the rules of the American Arbitration Association. Any award rendered shall be final and conclusive upon the Parties and a judgment thereon may be entered in a court having competent jurisdiction. Each of the Parties shall bear its own costs and expenses, including attorney's fees incurred in any dispute which is determined and/or settled by arbitration pursuant to this Section. Except where clearly prevented by the area in dispute, both Parties agree to continue performing their respective obligations under this Agreement while the dispute is being resolved. Arbitration shall not prevent any Party from seeking injunctive relief where such remedy is an appropriate form of remedy under the circumstances. Any dispute, controversy or claim relating to: (i) the scope, validity, enforceability or infringement of any patent rights covering the manufacture, use or sale of any Product; (ii) the scope, validity, enforceability or infringement of any trademark rights relating to any Product; or (iii) any Party's potential breach of its confidentiality obligations under this Agreement shall be submitted to a court of competent jurisdiction in the territory in which such patent or trademark rights were granted or arose.

SECTION 15.12. Force Majeure.
