USA ZHIMINGDE INTERNATIONAL GROUP CORPORATION

Notes to Condensed Financial Statements

March 31, 2013 (unaudited)

Note A - Organization and Description of Business

USA Zhimingde International Group Corporation (formerly Marketing Acquisition Corporation) (the “Company”) was originally incorporated on July 26, 1990 in accordance with the Laws of the State of Florida as Marketing Educational Corporation. The Company changed its corporate name to Marketing Acquisition Corporation on February 28, 2006. On June 13, 2006, the Company changed its state of incorporation from Florida to Nevada by means of a merger with and into a Nevada corporation formed on June 8, 2006 solely for the purpose of effecting the reincorporation.

On December 7, 2012, USA Zhimingde International Group Inc., a New Jersey corporation (“Zhimingde Inc.”) purchased 1,687,502 shares of common stock, par value \$0.001 per share, of the Company from Halter Financial Investments, L.P. (“HFI”), Glenn A. Little (“Little”) and The Halter Group, Inc. pursuant to Securities Purchase Agreement (“SPA” and the transaction contemplated there in as “Purchase”). The 1,687,502 shares represent approximately 91% of all of the issued and outstanding common stock of the Company. Following the Purchase, Zhimingde owned approximately 91% of the voting securities of the Company. The Purchase has resulted in a change in control of the Company. As a result, the Company changed its name to USA Zhimingde International Group Corporation effective on February 4, 2013.

The Company is currently a shell company with no operations, sources of revenue, significant assets or liabilities. See Note B.

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information. Accordingly, they do not include all of the information and disclosures required by GAAP for annual financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for a fair presentation of the condensed financial statements of the Company as of March 31, 2013 and for the three months ended March 31, 2013 and 2012. The results of operations for the three months ended March 31, 2013 are not necessarily indicative of the operating results for the full year ending December 31, 2013. These condensed financial statements should be read in conjunction with the financial statements and related disclosures of the Company as of December 31, 2012 and for the year then ended, which were filed with the Securities and Exchange Commission on Form 10-K on March 29, 2013.

Note B - Going Concern and Management Plans

The Company has not generated any revenue, nor does it have any significant operations. As of March 31, 2013, the Company does not have any cash or cash equivalents and has a working capital deficiency and stockholders' deficiency of \$18,000. The Company has incurred net losses of approximately \$56,000 during the three months ended March 31, 2013. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The Company's current business plan is to seek an acquisition or merger with a private operating company. However, there is no assurance that the Company will be able to successfully obtain debt or equity financing, consummate an acquisition or merger with a private operating company or, that the Company will identify any debt or equity financing sources to support its operations or a potential acquisition or merger. If we are unable to obtain financing, the Company may be unable to complete its business plan, and would, instead, delay all cash intensive activities. Without necessary cash flow, the Company may become dormant during the next twelve months, or until such time as necessary funds could be raised.

Accordingly, the accompanying condensed financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern and the realization of assets and satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the financial statements do not necessarily purport to represent realizable or settlement values. The condensed financial statements do not include any adjustment that might result from the outcome of this uncertainty.

Note C - Summary of Significant Accounting Policies

Use of Estimates

The preparation of condensed financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the condensed financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from these estimates.

Net Loss per Share

Basic earnings (loss) per common share are computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted earnings per common share is computed by dividing net earnings by the weighted average number of common shares outstanding, plus the issuance of common shares, if dilutive, resulting from the exercise of outstanding preferred stock, stock options and warrants. As of March 31, 2013, there were no common stock equivalents outstanding.

Subsequent events

Management has evaluated subsequent events or transactions occurring through the date on which the financial statements were issued.

7

Note D - Related Party Transactions

During the three months ended March 31, 2012, the Company received additional capital to support its operations from its former stockholders or their affiliates aggregating \$9,269.

During the three months ended March 31, 2013, the Company received additional capital to support its operations from affiliates of its stockholders aggregating \$50,613.

Note E - Commitments and Contingencies

In the normal course of business, the Company may be involved in legal proceedings, claims and assessments arising in the ordinary course of business. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. There are no such matters as of March 31, 2013.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Caution Regarding Forward-Looking Information

Certain statements contained in this annual filing, including, without limitation, statements containing the words "believes", "anticipates", "expects" and words of similar import, constitute forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; and other factors referenced in this and previous filings.

Given these uncertainties, readers of this Form 10-Q and investors are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

General

USA Zhimingde International Group Corporation (formerly, Marketing Acquisition Corporation, the "Company") was originally incorporated on July 26, 1990 in accordance with the laws of the State of Florida as Marketing Educational Corp. As used in this report, the terms "company", "we", "us", and "our" refer to USA Zhimingde International Group Corporation.

The Company has had no operations since 1992 and is currently a “shell company” as defined in Rule 405 under the Securities Act of 1933 (“Securities Act”) and Rule 12b-2 under the Securities Exchange Act of 1934 (“Exchange Act”). We are defined as a shell company because we have no operations and no or nominal assets.

On December 7, 2012, USA Zhimingde International Group Inc., a New Jersey corporation (“Zhimingde Inc.”) purchased 1,687,502 shares of common stock, par value \$0.001 per share, of the Company from Halter Financial Investments, L.P., Glenn A. Little and The Halter Group, Inc. pursuant to Securities Purchase Agreement (“SPA” and the transaction contemplated therein as “Purchase”). The 1,687,502 shares represent approximately 91% of all of the issued and outstanding common stock of the Company. Following the Purchase, Zhimingde owned approximately 91% of the voting securities of the Company. The Purchase has resulted in a change in control of the Company. As a result, the Company changed its name to USA Zhimingde International Group Corporation effective on February 4, 2013.

Results of Operations

The Company had no revenue for either of the three month periods ended March 31, 2013 or 2012, respectively.

Operating expenses for each of the three month periods ended March 31, 2013 or 2012, respectively, were \$55,613 and \$7,769. These expenses were primarily related to the maintenance of the corporate entity and the preparation and filing of periodic reports pursuant to the Exchange Act.

During the three months ended March 31, 2012, the Company received additional capital to support its operations from its former stockholders or their affiliates aggregating \$9,269.

During the three months ended March 31, 2013, the Company received additional capital to support its operations from affiliates of its stockholders aggregating \$50,613.

Earnings per share for the respective three month periods ended March 31, 2013 and 2012 were \$(0.03) and \$(0.00) based on the weighted-average shares outstanding at the end of each respective period.

It is anticipated that future expenditure levels will remain in line relatively consistent until such time that the Company completes a business combination transaction. Upon completion of a business combination transaction, it is

anticipated that the Company's expenses will increase significantly.

The Company does not expect to generate any meaningful revenue or incur operating expenses for purposes other than fulfilling the obligations of a reporting company under the Exchange Act unless and until such time that the Company begins meaningful operations.

Plan of Business

General

The Company's current purpose is to seek, investigate and, if such investigation warrants, merge or acquire an interest in business opportunities which desire to seek the perceived advantages of an Exchange Act registered corporation.

Pending negotiation and consummation of a combination, the Company anticipates that it will have, aside from carrying on its search for a combination partner, no business activities, and, thus, will have no source of revenue. Should the Company incur any significant liabilities prior to a combination with a private company, it may not be able to satisfy such liabilities as are incurred.

If the Company's management pursues one or more combination opportunities beyond the preliminary negotiations stage and those negotiations are subsequently terminated, it is foreseeable that such efforts will exhaust the Company's ability to continue to seek such combination opportunities before any successful combination can be consummated. In that event, the Company's common stock will become worthless and holders of the Company's common stock will receive a nominal distribution, if any, upon the Company's liquidation and dissolution.

Management

The Company is a shell company, and currently has no full-time employees. Zhongquan Zou is the Company's sole officer, director, and beneficial owner of Zhimingde Inc, the controlling stockholder. All references herein to management of the Company are to Mr. Zou. Mr. Zou, as President of the Company, has agreed to allocate a limited portion of his time to the activities of the Company without compensation.

The amount of time spent by Mr. Zou on the activities of the Company is not predictable. Such time may vary widely from an extensive amount when reviewing a target company to an essentially quiet time when activities of management focus elsewhere, or some amount in between. It is impossible to predict with any precision the exact amount of time Mr. Zou will actually be required to spend to locate a suitable target company. Mr. Zou estimates that the business plan of the Company can be implemented by devoting less than 4 hours per month but such figure cannot be stated with precision.

Liquidity and Capital Resources

The Company has not generated any revenue, nor does it have any significant operations as of March 31, 2013, the Company does not have any cash or cash equivalents and has a working capital deficiency and stockholders' deficiency of \$18,000. The Company has incurred net losses of approximately \$56,000 during the three months ended March 31, 2013. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The Company's current business plan is to seek an acquisition or merger with a private operating company. However, there is no assurance that the Company will be able to successfully obtain debt or equity financing, consummate an acquisition or merger with a private operating company or, that the Company will identify any debt or equity financing sources to support its operations or a potential acquisition or merger. If we are unable to obtain financing, the Company may be unable to complete its business plan, and would, instead, delay all cash intensive activities. Without necessary cash flow, the Company may become dormant during the next twelve months, or until such time as necessary funds could be raised.

Accordingly, the accompanying condensed financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern and the realization of assets and satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the financial statements do not necessarily purport to represent realizable or settlement values. The condensed financial statements do not include any adjustment that might result from the outcome of this uncertainty.

Critical Accounting Policies

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States ("GAAP"). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note B of our condensed financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our condensed consolidated results of operations, financial position or liquidity for the periods presented in this report.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk

In future periods, the Company may become subject to certain market risks, including changes in interest rates and currency exchange rates. At the present time, the Company has no identified exposure and does not undertake any specific actions to limit exposures, if any.

Item 4 - Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, under the supervision and with the participation of our Chief Executive and Financial Officer (“Certifying Officer”), has evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15 promulgated under the Exchange Act as of the end of the period covered by this Annual Report. Disclosure controls and procedures are controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission’s rules and forms and include controls and procedures designed to ensure that information we are required to disclose in such reports is accumulated and communicated to management, including our Certifying Officer, as appropriate, to allow timely decisions regarding required disclosure. Based upon that evaluation, our Certifying Officer concluded that as of such date, our disclosure controls and procedures were not effective to ensure that the information required to be disclosed by us in our reports is recorded, processed, summarized and reported within the time periods specified by the SEC due to material weaknesses in our internal controls including (1) there are no entity level controls because there is only one person serving in the dual capacity of sole officer and sole director, (2) there are no segregation of duties as that same person approves and directs the payment of the Company’s bills, and (3) there is no independent audit committee. However, our Certifying Officer believes that the financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the respective periods presented.

Changes in Internal Controls

There was no change in our internal control over financial reporting that occurred during the quarter ended March 31, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting which internal controls will remain deficient until such time as the Company completes a merger transaction or acquisition of an operating business at which time management will be able to implement effective controls and procedures.
