Forward Looking Statements

Some portions of the press release, particularly those describing the Company's goals and strategies, contain "forward-looking statements." These forward-looking statements can generally be identified as such because the context of the statement will include words, such as "expects," "should," "believes," "anticipates" or words of similar import. Similarly, statements that describe future plans, objectives or goals are also forward-looking statements. While the Company is working to achieve those goals and strategies, actual results could differ materially from those projected in the forward-looking statements as a result of a number of risks and uncertainties. These risks and uncertainties include difficulty in marketing its products and services, maintaining and protecting brand recognition, the need for significant capital, dependence on third party distributors, dependence on third party brewers, increasing costs of fuel and freight, protection of intellectual property, competition and other factors, any of which could have an adverse effect on the Company's business plans, its reputation in the industry or its expected financial return from operations and results of operations. In light of significant risks and uncertainties inherent in forward-looking statements included herein, the inclusion of such statements should not be regarded as a representation by the Company that they will

achieve such forward-looking statements. For further details and a discussion of these and other risks and uncertainties, please see our most recent reports on Form 10-K and Form 10-Q, as filed with the Securities and Exchange Commission, as they may be amended from time to time.
