NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

BASIS OF PRESENTATION

The accompanying interim unaudited consolidated financial statements have been prepared by Movado Group, Inc. (the “Company”), in a manner consistent with that used in the preparation of the annual audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2015 (the “2015 Annual Report on Form 10-K”). In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair statement of the financial position and results of operations for the periods presented. The consolidated balance sheet data at January 31, 2015 is derived from the audited annual financial statements, which are included in the Company’s 2015 Annual Report on Form 10-K and should be read in connection with these interim unaudited financial statements. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full year.

NOTE 1 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance establishes a fair value hierarchy which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.

Level 3 – Unobservable inputs based on the Company’s assumptions.

The following tables present the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis (in thousands) as of April 30, 2015 and 2014 and January 31, 2015:

		Fair Value at April 30, 2015

Hedge derivatives	Accrued liabilities	—	10	—	10
Total		\$22,478	\$ 10	\$ —	\$22,488

The fair values of the Company's available-for-sale securities are based on quoted prices. The fair value of the long-term investment is based on the purchase price plus eight percent calculated annually. Time deposits are classified as short-term investments and held to original maturity. The assets related to the Company's defined contribution supplemental executive retirement plan ("SERP") consist of both employer (employee unvested) and employee assets which are invested in investment funds with fair values calculated based on quoted market prices. The SERP liability represents the Company's liability to the employees in the plan for their vested balances. The hedge derivatives are entered into by the Company principally to reduce its exposure to Swiss franc and Euro currency exchange rate risk. Fair values of the Company's hedge derivatives are calculated based on quoted foreign exchange rates, quoted interest rates and market volatility factors.

The following table presents a reconciliation of the assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as of April 30, 2015 and 2014 and January 31, 2015. Level 3 consists of a long-term investment.

(2) Each share of class A common stock is entitled to 10 votes per share on all matters submitted to a vote of the shareholders. Each holder of class A common stock is entitled to convert, at any time, any and all of such shares into the same number of shares of common stock. Each share of class A common stock is converted automatically into common stock in the event that the beneficial or record ownership of such shares of class A common stock is transferred to any person, except to certain family members or affiliated persons deemed “permitted transferees” pursuant to the Company’s Restated Certificate of Incorporation as amended. The class A common stock is not publicly traded and consequently, there is currently no established public trading market for these shares.

(3) The currency translation adjustment is not adjusted for income taxes to the extent that it relates to permanent investments of earnings in international subsidiaries.

NOTE 3 – SEGMENT INFORMATION

The Company follows accounting guidance related to disclosures about segments of an enterprise and related information. This guidance requires disclosure of segment data based on how management makes decisions about allocating resources to segments and measuring their performance.

Edgar Filing: MOVADO GROUP INC - Form 10-Q

The Company conducts its business in two operating segments: Wholesale and Retail. The Company's Wholesale segment includes the designing, manufacturing and distribution of watches of quality luxury brands or licensed brands, in addition to revenue generated from after-sales service activities and shipping. The Retail segment includes the Company's outlet stores.

The Company divides its business into two major geographic locations: United States operations, and International, which includes the results of all other Company operations. The allocation of geographic revenue is based upon the location of the customer. The Company's International operations in Europe, the Americas (excluding the United States), the Middle East and Asia accounted for 18.6%, 11.0%, 8.7% and 8.1%, respectively, of the Company's total net sales for the three months ended April 30, 2015. For the three months ended April 30, 2014, the Company's International operations in Europe, the Americas (excluding the United States), the Middle East and Asia accounted for 20.3%, 12.8%, 8.1% and 7.4%, respectively, of the Company's total net sales. Substantially all of the Company's International assets are located in Switzerland and Hong Kong.

On January 30, 2015, the Company, together with Movado Group Delaware Holdings Corporation, Movado Retail Group, Inc. and Movado LLC (together with the Company, the “Borrowers”), each a wholly-owned domestic subsidiary of the Company, entered into a Credit Agreement (the “Credit Agreement”) with the lenders party thereto and Bank of America, N.A. as administrative agent (in such capacity, the “Agent”). The Credit Agreement provides for a \$100.0 million senior secured revolving credit facility (the “Facility”) including a \$15.0 million letter of credit sub-facility that matures on January 30, 2020, with provisions for uncommitted increases of up to \$50.0 million in the aggregate subject to customary terms and conditions. In connection with the Credit Agreement, the Borrowers also entered into a Security and Pledge Agreement dated as of January 30, 2015 in favor of the Agent (“Security Agreement”).

As of April 30, 2015, \$25.0 million in loans were drawn under the Facility. Additionally, approximately \$3.5 million in letters of credit which were outstanding under the Borrower’s pre-existing asset-based revolving credit facility that was concurrently terminated as described below, were deemed to be issued and outstanding under the Facility. As of April 30, 2015, availability under the Facility was approximately \$71.5 million.

Borrowings under the Facility bear interest at rates selected periodically by the Company at LIBOR plus 1.25% per annum (subject to increases up to a maximum of 1.75% per annum based on the Company’s consolidated leverage ratio) or a base rate plus 0.25% (subject to increases up to a maximum of 0.75% per annum based on the Company’s consolidated leverage ratio). The Company has also agreed to pay certain fees and expenses and provide certain indemnities, all of which are customary for such financings.

The borrowings under the Facility are joint and several obligations of the Borrowers and are also cross-guaranteed by each Borrower. In addition, pursuant to the Security Agreement, the Borrowers' obligations under the Facility are secured by first priority liens, subject to permitted liens, on substantially all of the Borrowers' assets other than certain excluded assets. The Security Agreement contains representations and warranties and covenants, which are customary for pledge and security agreements of this type, relating to the creation and perfection of security interests in favor of the Agent over various categories of the Company's assets.

The Credit Agreement contains affirmative and negative covenants binding on the Borrowers and their subsidiaries that are customary for credit facilities of this type, including, but not limited to, restrictions and limitations on the incurrence of debt and liens, dispositions of assets, capital expenditures, dividends and other payments in respect of equity interests, the making of loans and equity investments, mergers, consolidations, liquidations and dissolutions, and transactions with affiliates (in each case, subject to various exceptions). As of April 30, 2015, the Company was in compliance with its covenants under the Credit Agreement.

The Borrowers are also subject to a minimum consolidated EBITDA test of \$50.0 million, measured at the end of each fiscal quarter based on the four most recent fiscal quarters and a consolidated leverage ratio covenant not to exceed 2.50 to 1.00, measured as of the last day of each fiscal quarter.

The Credit Agreement contains events of default that are customary for facilities of this type, including, but not limited to, nonpayment of principal, interest, fees and other amounts when due, failure of any representation or warranty to be true in any material respect when made or deemed made, violation of covenants, cross default with material indebtedness, material judgments, material ERISA liability, bankruptcy events, asserted or actual revocation or invalidity of the loan documents, and change of control.

On January 30, 2015, in connection with the Company's entry into the Credit Agreement, the Company terminated its Amended and Restated Loan and Security Agreement, dated as of July 17, 2009, as amended, by and between the Borrowers, the lenders party thereto and Bank of America, N.A., as agent for the lenders. There were no borrowings outstanding under that agreement as of April 30, 2014 or January 31, 2015, and there were no material early termination penalties incurred as a result of the termination of that agreement. Additionally, the Company used cash on-hand to pay accrued fees and expenses in conjunction with the termination of that agreement and the rollover of certain outstanding letters of credit into the Facility.

A Swiss subsidiary of the Company maintains unsecured lines of credit with an unspecified length of time with a Swiss bank. As of April 30, 2015 and 2014, these lines of credit totaled 5.0 million Swiss francs with a dollar equivalent of \$5.4 million and \$5.7 million. As of April 30, 2015 and 2014, there were no borrowings against these lines. As of April 30, 2015, two European banks have guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the dollar equivalent of \$1.2 million in various foreign currencies.

NOTE 6 – EARNINGS PER SHARE

The Company presents net income per share on a basic and diluted basis. Basic earnings per share are computed using weighted-average shares outstanding during the period. Diluted earnings per share are computed using the weighted-average number of shares outstanding adjusted for dilutive common stock equivalents.

The weighted-average number of shares outstanding for basic earnings per share was approximately 24,279,000 and 25,325,000 for the three months ended April 30, 2015 and 2014, respectively. For the three months ended April 30, 2015 and 2014, the number of shares outstanding for diluted earnings per share increased by approximately 290,000 and 371,000, respectively, due to potentially dilutive common stock equivalents issuable under the Company's stock compensation plans and SERP.

For the three months ended April 30, 2015 and 2014, approximately 371,000 and 36,000, respectively, of potentially dilutive common stock equivalents were excluded from the computation of diluted earnings per share because their effect would have been antidilutive.

NOTE 7 – COMMITMENTS AND CONTINGENCIES

As of April 30, 2015, one bank in the domestic bank group had issued four irrevocable standby letters of credit in connection with a trademark license agreement, retail and operating facility leases to various landlords and for Canadian payroll to the Royal Bank of Canada. As of April 30, 2015, the Company had outstanding letters of credit totaling \$3.5 million with expiration dates through April 30, 2016.

As of April 30, 2015, two European banks had guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the dollar equivalent of \$1.2 million in various foreign currencies.

The Company is involved in various legal proceedings and claims from time to time in the ordinary course of its business.

On February 4, 2015, an individual plaintiff filed a complaint against the Company and several of its officers in the United States District Court for the District of New Jersey (the “Complaint”) as a purported class action, alleging that between March 26, 2014 and November 13, 2014, the Company made false and misleading statements about the Company’s financial performance. The Complaint also claims that these alleged false and misleading statements resulted in the Company’s stock trading at an artificially high price until November 14, 2014, when the Company issued a press release preliminarily announcing financial results and reducing its previous projections, after which the Company’s stock price fell. The Company believes that the Complaint is meritless and it intends to vigorously defend this matter.

The Company believes that it has valid legal defenses to all of the matters currently pending against it. These matters are inherently unpredictable and the resolutions of these matters are subject to many uncertainties and the outcomes are not predictable with assurance. Consequently, management is unable to estimate the ultimate aggregate amount of monetary loss, amounts covered by insurance or the financial impact that will result from such matters.

NOTE 8 – INCOME TAXES

The Company recorded an income tax provision of \$3.1 million and \$3.4 million for the three months ended April 30, 2015 and 2014, respectively.

The effective tax rate was 46.3% and 31.6% for the three months ended April 30, 2015 and 2014, respectively. The increase in the effective tax rate was primarily due to certain costs related to the operating efficiency initiatives and other items (see note 13) resulting in deferred tax benefits that were valued and recording a valuation allowance against certain foreign deferred tax assets.

The effective tax rate for the three months ended April 30, 2015 differs from the U.S. statutory tax rate of 35.0% primarily due to no tax benefit being recognized on losses incurred by certain foreign operations, recording a valuation allowance against certain foreign deferred tax assets, and certain costs related to the operating efficiency initiatives and other items (see note 13) resulting in deferred tax benefits that were valued, partially offset by foreign earnings being taxed at rates lower than the U.S. statutory tax rate. The effective tax rate for the three months ended April 30, 2014 differs from the U.S. statutory tax rate of 35.0%, primarily due to foreign earnings being taxed at rates lower than the U.S. statutory tax rate, partially offset by no tax benefit being recognized on losses incurred by certain foreign operations.

NOTE 9—DERIVATIVE FINANCIAL INSTRUMENTS

The Company accounts for its derivative financial instruments in accordance with guidance which requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. A significant portion of the Company's purchases are denominated in Swiss francs. The Company also sells to third-party customers in a variety of foreign currencies, most notably the Euro. The Company reduces its exposure to the Swiss franc and the Euro exchange rate risks through a hedging program. Under the hedging program, the Company manages most of its foreign currency exposures on a consolidated basis, which allows it to net certain exposures and take advantage of natural offsets. In the event these exposures do not offset, the Company uses various derivative financial instruments to further reduce the net exposures to currency fluctuations, predominately forward contracts. When entered into, the Company designates and documents these derivative instruments as a cash flow hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transactions. Changes in the fair value of a derivative that is designated and documented as a cash flow hedge and is highly effective, are recorded in other comprehensive income until the underlying transaction affects earnings, and then are later reclassified into earnings in the same account as the hedged transaction. The earnings impact is partially offset by the effects of currency movements on the underlying hedged transactions. The Company formally assesses, both at the inception and at each financial quarter thereafter, the effectiveness of the derivative instrument hedging the underlying forecasted cash flow transaction. Any ineffectiveness related to the derivative financial instruments' change in fair value will be recognized as other income in the Consolidated Statements of Operations in the period in which the ineffectiveness was calculated. No ineffectiveness has been recorded in the three months ended April 30, 2015 and 2014.

The Company uses forward exchange contracts to offset its exposure to certain foreign currency receivables and liabilities. These forward contracts are not designated as qualified hedges and, therefore, changes in the fair value of these derivatives are recognized into earnings, thereby offsetting the current earnings effect of the related foreign currency receivables and liabilities.

All of the Company's derivative instruments have liquid markets to assess fair value. The Company does not enter into any derivative instruments for trading purposes.

As of April 30, 2015, the Company's entire net forward contracts hedging portfolio consisted of 28.0 million Swiss francs equivalent and 14.0 million Euros equivalent for various expiry dates ranging through December 18, 2015.

The following table summarizes the fair value and presentation in the Consolidated Balance Sheets for derivatives (in thousands):

As of April 30, 2015, the balance of deferred net losses on derivative financial instruments documented as cash flow hedges included in accumulated other comprehensive income (“AOCI”) was \$0.5 million, net of tax benefit of \$0.1 million. As of April 30, 2014, there was no balance of deferred net losses on derivative financial instruments documented as cash flow hedges included in AOCI. The maximum length of time the Company hedges its exposure to the fluctuation in future cash flows for forecasted transactions is 24 months. For the three months ended April 30, 2015, the Company reclassified from AOCI to earnings \$0.1 million of net gains, net of tax of \$0.1 million. For the three months ended April 30, 2014, the Company had no reclassifications from AOCI to earnings.

NOTE 11 – TREASURY STOCK

On March 21, 2013, the Board approved a share repurchase program under which the Company was authorized to purchase up to \$50.0 million of its outstanding common stock from time to time, depending on market conditions, share price and other factors. The Company may purchase shares of its common stock through open market purchases, repurchase plans, block trades or otherwise. On November 25, 2014, the Board increased the amount of the share repurchase authorization to \$100.0 million. This authorization expires on January 31, 2016. During the three months ended April 30, 2015, the Company repurchased a total of 859,700 shares of its common stock at a total cost of approximately \$22.2 million or an average cost of \$25.77 per share. During the three months ended April 30, 2014, the Company repurchased a total of 133,073 shares of its common stock at a total cost of approximately \$5.3 million or an average cost of \$39.92 per share.

There were 17,979 shares of common stock repurchased during the three months ended April 30, 2015 as a result of the surrender of shares in connection with the vesting of certain stock awards. At the election of an employee, shares having an aggregate value on the vesting date equal to the employee's withholding tax obligation may be surrendered to the Company.

NOTE 12 – RECENT ACCOUNTING PRONOUNCEMENTS

On April 7, 2015, FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which states that debt issuance costs be presented in the balance sheet as a direct deduction from the debt liability, consistent with debt discounts. Under current accounting standards, such costs are recorded as an asset. The new guidance is effective for the beginning of the Company's fiscal year 2017, with early adoption permitted. This new guidance is not expected to have a material impact on the Company's consolidated financial statements.

In May 2014, FASB issued ASU 2014-09, “Revenue from Contracts with Customers.” This pronouncement affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This pronouncement provides alternative methods of retrospective adoption and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is not permitted. The Company is evaluating the effect of adopting this pronouncement, but the adoption is not expected to have a material impact on the Company’s consolidated financial statements.

NOTE 13 – OPERATING EFFICIENCY INITIATIVES AND OTHER ITEMS

As a result of actions taken by the Company in fiscal 2016 to achieve greater operating efficiencies and streamline its operations, primarily at certain of its foreign subsidiaries, the Company recorded \$2.7 million of pre-tax expenses primarily for severance, occupancy charges, and fixed assets. The Company expects that the remaining liabilities will be paid during fiscal 2016.

A summary rollforward of costs related to the operating efficiency initiatives and other items is as follows (in thousands):

	Balance at	Fiscal	Cash	Non-cash	Accrued
	January 31, 2015	2016	payments	adjustments	balance
		charges			at
		(4)			April
					30,
					2015
Severance (1)	\$ 1,080	\$1,300	\$ (365)	\$ -	\$2,015
Occupancy charges (1) (2)	-	788	(16)	-	772
Fixed assets (1) (3)	-	582	-	(582)	-
Total	\$ 1,080	\$2,670	\$ (381)	\$ (582)	\$2,787

(1) The total severance charges of \$1.3 million include \$0.6 million in SG&A and \$0.7 million in Cost of sales on the Consolidated Statement of Operations for the three months ended April 30, 2015. The occupancy charge of \$0.8 million and fixed asset charge of \$0.6 million are included in SG&A on the Consolidated Statement of Operations for the three months ended April 30, 2015

(2) Occupancy charges include expenses for rent, office equipment and legal expenses.

(3) Includes \$0.5 million related to closing of certain shop-in-shops that were no longer in use in Asia.

(4) This pre-tax charge was the net of a \$0.9 million transfer of the provision related to severance agreements and a charge of \$3.6 million in the United States and International locations of the Wholesale segment, respectively.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

Statements in this Quarterly Report on Form 10-Q, including, without limitation, statements under Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report, as well as statements in future filings by the Company with the Securities and Exchange Commission (the “SEC”), in the Company’s press releases and oral statements made by or with the approval of an authorized executive officer of the Company, which are not historical in nature, are intended to be, and are hereby identified as, “forward-looking statements” for purposes of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations, estimates, forecasts and projections about the Company, its future performance, the industry in which the Company operates and management’s assumptions. Words such as “expects”, “anticipates”, “targets”, “goals”, “projects”, “intends”, “plans”, “believes”, “seeks”, “estimates”, “may”, “will”, “should” and v words and similar expressions are also intended to identify such forward-looking statements. The Company cautions readers that forward-looking statements include, without limitation, those relating to the Company’s future business prospects, projected operating or financial results, revenues, working capital, liquidity, capital needs, plans for future operations, expectations regarding capital expenditures and operating expenses, effective tax rates, margins, interest costs, and income as well as assumptions relating to the foregoing. Forward-looking statements are subject to certain risks and uncertainties, some of which cannot be predicted or quantified. Actual results and future events could differ materially from those indicated in the forward-looking statements, due to several important factors herein identified, among others, and other risks and factors identified from time to time in the Company’s reports filed with the SEC including, without limitation, the following: general economic and business conditions, which may impact disposable income of consumers in the United States and the other significant markets (including Europe) where the Company’s products are sold, uncertainty regarding such economic and business conditions, trends in consumer debt levels and bad debt write-offs, general uncertainty related to possible terrorist attacks, natural disasters, the stability of the European Union and defaults on or downgrades of sovereign debt and the impact of any of those events on consumer spending, changes in consumer preferences and popularity of particular designs, new product development and introduction, the ability of the Company to successfully implement its business strategies, competitive products and pricing, the impact of “smart” watches and other wearable tech products on the traditional watch market, seasonality, availability of alternative sources of supply in the case of the loss of any significant supplier or any supplier’s inability to fulfill the Company’s orders, the loss of or curtailed sales to significant customers, the Company’s dependence on key employees and officers, the ability to successfully integrate the operations of acquired businesses without disruption to other business activities, the continuation of the company’s major warehouse and distribution centers, the continuation of licensing arrangements with third parties, losses possible from pending or future litigation, the ability to secure and protect trademarks, patents and other intellectual property rights, the ability to lease new stores on suitable terms in desired markets and to complete construction on a timely basis, the ability of the Company to successfully manage its expenses on a continuing basis, information systems failure or breaches of network security, the continued availability to the Company of financing and credit on favorable terms, business disruptions, disease, general risks associated with doing business outside the United States including, without limitation, import duties, tariffs, quotas, political and economic stability, changes to existing laws or regulations, and success of hedging strategies with respect to currency exchange rate fluctuations.

These risks and uncertainties, along with the risk factors discussed under Item 1A “Risk Factors” in the Company’s 2015 Annual Report on Form 10-K, should be considered in evaluating any forward-looking statements contained in this report or incorporated by reference herein. All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to the Company or any person acting on its behalf are qualified by the cautionary statements in this section. The Company undertakes no obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of

this report.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the consolidated financial statements. These estimates and assumptions also affect the reported amounts of revenues and expenses. Estimates by their nature are based on judgments and available information. Therefore, actual results could materially differ from those estimates under different assumptions and conditions.

Critical accounting policies are those that are most important to the portrayal of the Company's financial condition and the results of operations and require management's most difficult, subjective and complex judgments as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Company's most critical accounting policies have been discussed in the Company's 2015 Annual Report on Form 10-K.

As of April 30, 2015, there have been no material changes to any of the critical accounting policies as disclosed in the Company's 2015 Annual Report on Form 10-K.

Recent Developments

As a result of actions taken by the Company in fiscal 2016 to achieve greater operating efficiencies and streamline its operations, primarily at certain of its foreign subsidiaries, the Company recorded \$2.7 million of pre-tax expenses primarily for severance, occupancy charges, and fixed assets (see note 13- Operating Efficiency Initiatives and Other Items).

On May 27, 2015, the Board approved the payment of a cash dividend in the amount of \$0.11 for each share of the Company's outstanding common stock and class A common stock. The dividend will be paid on June 22, 2015 to all shareholders of record as of the close of business on June 8, 2015. The decision of whether to declare any future cash dividend, including the amount of any such dividend and the establishment of record and payment dates, will be determined, in each quarter, by the Board of Directors, in its sole discretion.

On May 1, 2015, the Company and ABG Juicy Couture, LLC entered into Amendment Number 5, effective as of January 1, 2014, to that certain License Agreement between them dated as of November 15, 2005 (as previously amended, the "Amended License Agreement"), which extends the term of the Amended License Agreement through December 31, 2017 and makes certain other modifications to the Amended License Agreement.

Overview

The Company conducts its business primarily in two operating segments: Wholesale and Retail. The Company's Wholesale segment includes the designing, manufacturing and distribution of quality watches and revenue generated from after-sales service activities and shipping. The Retail segment includes the Company's outlet stores. The Company also operates in two major geographic locations: United States operations and International, the latter of which includes the results of all other Company operations.

Since April 30, 2014, the Company has divided its watch business into two principal categories: the luxury category and the licensed brands category. The luxury category consists of the Ebel®, Concord®, Movado® and ESQ® Movado brands. Previously, the Company classified the Movado and the ESQ Movado brands together as a separate category referred to as accessible luxury. Watches in the licensed brands category include the following brands manufactured and distributed under license agreements with the respective brand owners: Coach®, HUGO BOSS®, Juicy Couture®, Lacoste®, Tommy Hilfiger® and SCUDERIA FERRARI®. These changes to the Company's watch brand categories did not change the Company's operating segments.

Gross margins vary among the brands included in the Company's portfolio and also among watch models within each brand. Watches in the luxury category generally earn higher gross margin percentages than watches in the licensed brands category. The difference in gross margin percentages for the licensed brands category is primarily the impact of royalty payments made on the licensed brands. Gross margins in the Company's outlet business are affected by the mix of product sold and may exceed those of the wholesale business since the Company earns margins on its outlet store sales from manufacture to point of sale to the consumer.

Results of operations for the three months ended April 30, 2015 as compared to the three months ended April 30, 2014

Net Sales: Comparative net sales by business segment were as follows (in thousands):

Comparative net sales by categories were as follows (in thousands):

	Three Months Ended April 30,	
	2015	2014
Wholesale:		
Luxury brands category	\$44,903	\$44,220
Licensed brands category	60,842	61,729

Total Wholesale	109,597	109,685
Retail	10,864	11,236
Consolidated total	\$120,461	\$120,921

Net sales for the three months ended April 30, 2015 were \$120.5 million, below the prior year period by \$0.5 million or 0.4%. For the period ended April 30, 2015, fluctuations in foreign currency exchange rates unfavorably impacted net sales by \$6.5 million when compared to the prior year period.

Net sales for the three months ended April 30, 2015 in the Wholesale segment were \$109.6 million, a slight decrease compared to the prior year period of \$0.1 million or 0.1%. The slight decrease in net sales was the net result of a decrease in net sales in the International location, partially offset by sales increases in the United States location of the Wholesale segment.

Net sales for the three months ended April 30, 2015 in the United States location of the Wholesale segment were \$53.7 million, above the prior year period by \$2.7 million or 5.2%, primarily driven by sales increases in both the luxury and licensed brands categories. The net sales increase recorded in the luxury brands category was \$1.3 million, or 4.0%, which was primarily attributable to the strong sell-through and expansion in the Company's retail distribution channels. The sales increase in the luxury brands category was primarily due to higher sales in the Movado brand, partially offset by lower ESQ Movado brand sales. The sales increase in the Movado brand was primarily due to higher sales of Movado BOLD and the introduction of new products in the current year, all of which were supported by the Company's continued focus and investment in marketing and advertising. These increases were partially offset by a decrease in ESQ Movado brand sales as a result of the ESQ/Movado conversion strategy in the prior year. The sales increase in the licensed brands category was primarily due to higher sales of certain licensed brands, as a result of strong sell-through, as design and key price points resonated well with customers.

Net sales for the three months ended April 30, 2015 in the International location of the Wholesale segment were \$55.9 million, below prior year by \$2.8 million or 4.7%, which included fluctuations in foreign currency exchange rates which unfavorably impacted net sales by \$6.5 million when compared to the prior year period. This decrease was primarily driven by sales decreases in both the licensed brands and luxury brands categories. Net sales in the licensed brands category were below the prior year period by \$2.1 million, or 4.7%, due to lower sales of certain licensed brands primarily due to the translational impact of the weaker European and Canadian currencies when compared to the prior year period. The net sales decrease in the luxury category of \$0.6 million was primarily due to lower sales of Movado brand watches. The decrease in Movado watch sales was primarily due to weaker than expected performance in certain markets, including Asia and South America.

Net sales for the three months ended April 30, 2015 in the retail segment were \$10.9 million, representing a 3.3% decrease from the prior year period sales of \$11.2 million. The decrease in net sales was primarily due to inclement weather, which slowed foot traffic in certain locations of the Company's outlets when compared to the prior year period. As of April 30, 2015, the Company operated 38 outlet stores, compared to 35 outlet stores at the end of the

prior year period.

Gross Profit. Gross profit for the three months ended April 30, 2015 was \$62.4 million or 51.8% of net sales as compared to \$65.2 million or 53.9% of net sales in the prior year period. The decrease in gross profit of \$2.7 million, as well as a decrease in the gross margin percentage of approximately 210 basis points for the three months ended April 30, 2015, was primarily due to an unfavorable impact of fluctuations in foreign currency exchange rates of approximately 200 basis points and an unfavorable impact of approximately 60 basis points related to charges from the Company's operating efficiencies initiative, partially offset by a favorable shift in channel and product mix of approximately 60 basis points.

Selling, General and Administrative ("SG&A"). SG&A expenses for the three months ended April 30, 2015 were \$55.6 million, representing an increase from the prior year period of \$1.3 million or 2.5%. The increase in SG&A expenses was attributable to a charge for the Company's operating efficiencies initiative and other items of \$2.0 million and an increase in compensation, benefits and other payroll related expenses of \$1.5 million, primarily resulting from higher headcount, salaries, and stock awards. Also contributing to this increase in SG&A expenses was certain higher selling related expenses of \$0.3 million. These increases in SG&A expenses were partially offset by the favorable effect of fluctuations in foreign currency exchange rates of \$2.2 million, which was the

result of the translation of foreign subsidiary results and the result of the stronger average Swiss to Euro currency rate when compared to the prior year period, and also contributing to this offset was lower marketing expense of \$0.4 million.

Wholesale Operating Income. Operating income of \$5.9 million and \$9.4 million, which includes \$7.1 million and \$7.0 million of unallocated corporate expenses as well as \$8.8 million and \$9.6 million of certain intercompany profits related to the Company's supply chain operations, was recorded in the Wholesale segment for the three months ended April 30, 2015 and 2014, respectively. The \$3.5 million decrease in operating income was the net result of a decrease in gross profit of \$2.5 million and an increase in SG&A expenses of \$0.9 million. The decrease in gross profit of \$2.5 million was primarily due to a lower gross margin percentage. The increase in SG&A expenses was attributable to a charge for the Company's operating efficiencies initiative and other items of \$2.0 million and an increase in compensation, benefits and other payroll related expenses of \$1.2 million, primarily resulting from higher headcount, salaries, and stock awards. Also contributing to this increase in SG&A expenses were certain higher selling related expenses of \$0.3 million. These increases in SG&A expenses were partially offset by the favorable effect of fluctuations in foreign currency exchange rates of \$2.2 million, which was the result of the translation of foreign subsidiary results and the result of the stronger average Swiss franc to Euro currency rate when compared to the prior year period and also contributing to this offset was lower marketing expense of \$0.4 million.

U.S. Wholesale Operating Income / (Loss). Operating income of \$1.5 million and an operating loss of \$2.4 million, which included unallocated corporate expenses, was recorded in the United States location of the Wholesale segment for the three months ended April 30, 2015 and 2014, respectively. The increase in operating income of \$3.9 million was the net result of higher gross profit of \$5.2 million, partially offset by higher SG&A expenses of \$1.3 million. The increase in gross profit of \$5.2 million was primarily due to higher net sales and to a lesser extent, a higher gross margin percentage. The increase in SG&A expenses was attributable to an increase in compensation, benefits and other payroll related expenses of \$1.7 million, primarily resulting from higher headcount, salaries, and stock awards. Also contributing to the increase in SG&A expenses was an increase in professional fees of \$0.3 million. These increases in SG&A expenses were partially offset by a \$0.9 million transfer of the provision related to severance agreements as a result of the Company's operating efficiencies initiative and other items. Also offsetting these increases in SG&A expenses were lower marketing expenses of \$0.4 million.

International Wholesale Operating Income. Operating income of \$4.4 million and \$11.8 million, which included certain profits related to the Company's supply chain operations, was recorded in the International location of the Wholesale segment for the three months ended April 30, 2015 and 2014, respectively. The decrease in operating income of \$7.4 million was primarily due to a lower gross profit of \$7.7 million, partially offset by lower SG&A expenses of \$0.3 million. The decrease in gross profit of \$7.7 million was primarily due to lower sales and lower gross margin percentage. The decrease in SG&A expenses included a favorable effect of fluctuations in foreign currency exchange rates of \$2.2 million. Also contributing to the decrease in SG&A expenses was a lower compensation and benefit expenses of \$0.5 million and lower professional fees of \$0.2 million. These decreases were partially offset by a charge of \$2.9 million related to the Company's operating efficiencies initiative and other items.

Retail Operating Income. Operating income of \$1.0 million and \$1.5 million was recorded in the retail segment for the three months ended April 30, 2015 and 2014, respectively. The \$0.5 million decrease in operating income was the result of an increase in SG&A expenses of \$0.3 million and a decrease in gross profit of \$0.2 million. The increase in SG&A expenses of \$0.3 million was primarily due to higher compensation, benefit expenses and occupancy expenses related to operating more stores when compared to the prior year period. The decrease in gross profit of \$0.2 million was primarily attributable to lower sales.

Income Taxes. The Company recorded an income tax provision of \$3.1 million and \$3.4 million for the three months ended April 30, 2015 and 2014, respectively.

The effective tax rate was 46.3% and 31.6% for the three months ended April 30, 2015 and 2014, respectively. The increase in the effective tax rate was primarily due to certain costs related to the operating efficiency initiatives and other items resulting in deferred tax benefits that were valued and recording a valuation allowance against certain foreign deferred tax assets.

The effective tax rate for the three months ended April 30, 2015 differs from the U.S. statutory tax rate of 35.0% primarily due to no tax benefit being recognized on losses incurred by certain foreign operations, recording a valuation allowance against certain foreign deferred tax assets, and certain costs related to the operating efficiency initiatives and other items resulting in deferred tax benefits that were valued, partially offset by foreign earnings being taxed at rates lower than the U.S. statutory tax rate. The effective tax rate for the three months ended April 30, 2014 differs from the U.S. statutory tax rate of 35.0%, primarily due to foreign earnings being taxed at rates lower than the U.S. statutory tax rate, partially offset by no tax benefit being recognized on losses incurred by certain foreign operations.

Net Income Attributed to Movado Group, Inc. The Company recorded net income of \$3.6 million and \$7.4 million for the three months ended April 30, 2015 and 2014, respectively.

LIQUIDITY AND CAPITAL RESOURCES

At April 30, 2015 and April 30, 2014, the Company had \$185.8 million and \$137.8 million of cash and cash equivalents, \$181.0 million and \$121.4 million of which consisted of cash and cash equivalents at the Company's foreign subsidiaries, respectively. At April 30, 2014 one of the Company's foreign subsidiaries also had \$34.1 million in a six-month time deposit which matured on July 24, 2014, labeled as Short-Term Investments on the Consolidated Balance Sheet. The majority of the foreign cash balances are associated with earnings that the Company has asserted are permanently reinvested, and which are required to support continued growth outside the United States through funding of capital expenditures, operating expenses and similar cash needs of the foreign operations. The Company has recorded a federal tax liability of \$2.7 million related to \$12.7 million of pre-2013 foreign earnings which have been earmarked for future repatriation.

Cash used in operating activities was \$11.2 million and \$12.1 million for the three months ended April 30, 2015 and 2014, respectively. The \$11.2 million of cash used in operating activities for the three months ended April 30, 2015, was primarily due to change in working capital of \$21.4 million, partially offset by favorable non-cash items of \$7.0 million, which included a \$2.3 million non-cash charge related to the operating efficiency initiatives and other items, and net income for the period of \$3.6 million. The change in working capital of \$21.4 million was primarily due to the timing of building of inventory to meet future sales and payments made on income taxes. The \$12.1 million of cash used in operating activities for the three months ended April 30, 2014, was primarily due to the change in working capital of \$24.6 million, partially offset by income for the period of \$7.4 million and favorable non-cash items of \$4.9 million. The change in working capital of \$24.6 million was primarily due to the pay down of liabilities related to the timing of payments for inventory and certain year-end accruals and an increase in accounts receivable primarily due to increased sales.

Cash used in investing activities amounted to \$1.6 million and \$1.5 million for the three months ended April 30, 2015 and 2014, respectively. The cash used in investing activities for both the three months ended April 30, 2015 and 2014, was primarily for capital expenditures related to the improvements of Baselworld Watch and Jewelry Show booths, construction of shop-in-shops at some of the Company's wholesale customers, spending on store renovation/openings and spending on tooling and design.

Cash used in financing activities amounted to \$0.3 million and \$8.3 million for the three months ended April 30, 2015 and 2014, respectively. Cash used in financing activities for the three months ended April 30, 2015 included the repurchase of shares of the Company's common stock, the payment of dividends, and the result of the surrender of shares in connection with the vesting of certain stock awards, partially offset by proceeds from bank borrowings. Cash used in financing activities for the three months ended April 30, 2014, was primarily to repurchase shares of the Company's common stock, to pay dividends, and the result of the surrender of shares in connection with the vesting of certain stock awards.

On January 30, 2015, the Company, together with Movado Group Delaware Holdings Corporation, Movado Retail Group, Inc. and Movado LLC (together with the Company, the "Borrowers"), each a wholly-owned domestic subsidiary of the Company, entered into a Credit Agreement (the "Credit Agreement") with the lenders party thereto and Bank of America, N.A. as administrative agent (in such capacity, the "Agent"). The Credit Agreement provides for a \$100.0 million senior secured revolving credit facility (the "Facility") including a \$15.0 million letter of credit sub-facility that matures on January 30, 2020, with provisions for uncommitted increases of up to \$50.0 million in the aggregate subject to customary terms and conditions. In connection with the Credit Agreement, the Borrowers also entered into a Security and Pledge Agreement dated as of January 30, 2015 in favor of the Agent ("Security Agreement").

As of April 30, 2015, \$25.0 million in loans were drawn under the Facility. Additionally, approximately \$3.5 million in letters of credit which were outstanding under the Borrower's pre-existing asset-based revolving credit facility that was concurrently terminated as described below, were deemed to be issued and outstanding under the Facility. As of April 30, 2015, availability under the Facility was approximately \$71.5 million.

Borrowings under the Facility bear interest at rates selected periodically by the Company at LIBOR plus 1.25% per annum (subject to increases up to a maximum of 1.75% per annum based on the Company's consolidated leverage ratio) or a base rate plus 0.25% (subject to increases up to a maximum of 0.75% per annum based on the Company's consolidated leverage ratio). The Company has also agreed to pay certain fees and expenses and provide certain indemnities, all of which are customary for such financings.

The borrowings under the Facility are joint and several obligations of the Borrowers and are also cross-guaranteed by each Borrower. In addition, pursuant to the Security Agreement, the Borrowers' obligations under the Facility are secured by first priority liens, subject to permitted liens, on substantially all of the Borrowers' assets other than certain excluded assets. The Security Agreement contains representations and warranties and covenants, which are customary for pledge and security agreements of this type, relating to the creation and perfection of security interests in favor of the Agent over various categories of the Company's assets.

The Credit Agreement contains affirmative and negative covenants binding on the Borrowers and their subsidiaries that are customary for credit facilities of this type, including, but not limited to, restrictions and limitations on the incurrence of debt and liens, dispositions of assets, capital expenditures, dividends and other payments in respect of equity interests, the making of loans and equity

investments, mergers, consolidations, liquidations and dissolutions, and transactions with affiliates (in each case, subject to various exceptions). As of April 30, 2015, the Company was in compliance with its covenants under the Credit Agreement.

The Borrowers are also subject to a minimum consolidated EBITDA test of \$50.0 million, measured at the end of each fiscal quarter based on the four most recent fiscal quarters and a consolidated leverage ratio covenant not to exceed 2.50 to 1.00, measured as of the last day of each fiscal quarter.

The Credit Agreement contains events of default that are customary for facilities of this type, including, but not limited to, nonpayment of principal, interest, fees and other amounts when due, failure of any representation or warranty to be true in any material respect when made or deemed made, violation of covenants, cross default with material indebtedness, material judgments, material ERISA liability, bankruptcy events, asserted or actual revocation or invalidity of the loan documents, and change of control.

On January 30, 2015, in connection with the Company's entry into the Credit Agreement, the Company terminated its Amended and Restated Loan and Security Agreement, dated as of July 17, 2009, as amended, by and between the Borrowers, the lenders party thereto and Bank of America, N.A., as agent for the lenders. There were no borrowings outstanding under that agreement as of April 30, 2014 or January 31, 2015, and there were no material early termination penalties incurred as a result of the termination of that agreement. Additionally, the Company used cash on-hand to pay accrued fees and expenses in conjunction with the termination of that agreement and the rollover of certain outstanding letters of credit into the Facility.

A Swiss subsidiary of the Company maintains unsecured lines of credit with an unspecified length of time with a Swiss bank. As of April 30, 2015 and 2014, these lines of credit totaled 5.0 million Swiss francs with a dollar equivalent of \$5.4 million and \$5.7 million. As of April 30, 2015 and 2014, there were no borrowings against these lines. As of April 30, 2015, two European banks have guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the dollar equivalent of \$1.2 million in various foreign currencies.

The Company paid dividends of \$0.11 per share and \$0.10 per share or approximately \$2.6 million and \$2.5 million for the three months ended April 30, 2015 and 2014, respectively.

On May 27, 2015, the Board approved the payment of a cash dividend in the amount of \$0.11 for each share of the Company's outstanding common stock and class A common stock. The dividend will be paid on June 22, 2015 to all shareholders of record as of the close of business on June 8, 2015. The decision of whether to declare any future cash dividend, including the amount of any such dividend and the establishment of record and payment dates, will be determined, in each quarter, by the Board of Directors, in its sole discretion.

On March 31, 2015, the Board approved an increase in the Company's quarterly cash dividend to \$0.11 for each share of the Company's outstanding common stock and class A common stock.

Cash at April 30, 2015 amounted to \$185.8 million compared to \$137.8 million at April 30, 2014. The increase in cash is primarily the result of proceeds from the maturity of a short-term investment, cash provided by operating activities and available-for-sale securities, partially offset by cash used in stock repurchases, the payment of dividends, capital expenditures and a long-term investment.

Management believes that the cash on hand in addition to the expected cash flow from operations and the Company's short-term borrowing capacity will be sufficient to meet its working capital needs for at least the next twelve months.

Off-Balance Sheet Arrangements

The Company does not have off-balance sheet financing or unconsolidated special-purpose entities.

Recent Accounting Pronouncements

On April 7, 2015, FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which states that debt issuance costs be presented in the balance sheet as a direct deduction from the debt liability, consistent with debt discounts. Under current accounting standards, such costs are recorded as an asset. The new guidance is effective for the beginning of the Company's fiscal year 2017, with early adoption permitted. This new guidance is not expected to have a material impact on the Company's consolidated financial statements.

In May 2014, FASB issued ASU 2014-09, "Revenue from Contracts with Customers." This pronouncement affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This

pronouncement provides alternative methods of retrospective adoption and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is not permitted. The Company is evaluating the effect of adopting this pronouncement, but the adoption is not expected to have a material impact on the Company's consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

The Company's primary market risk exposure relates to foreign currency exchange risk. A significant portion of the Company's purchases are denominated in Swiss francs. The Company also sells to third-party customers in a variety of foreign currencies, most notably the Euro. The Company reduces its exposure to the Swiss franc and Euro exchange rate risk through a hedging program. Under the hedging program, the Company manages most of its foreign currency exposures on a consolidated basis, which allows it to net certain exposures and take advantage of natural offsets. In the event these exposures do not offset, the Company uses various derivative financial instruments to further reduce the net exposures to currency fluctuations, predominately forward and option contracts. When entered into, the Company designates and documents these derivative instruments as a cash flow hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transactions. Changes in the fair value of a derivative that is designated and documented as a cash flow hedge and is highly effective, are recorded in other comprehensive income until the underlying transaction affects earnings, and then are later reclassified into earnings in the same account as the hedged transaction. The earnings impact is partially offset by the effects of currency movements on the underlying hedged transactions. If the Company does not engage in a hedging program, any change in the Swiss franc and Euro exchange rates to local currency would have an equal effect on the Company's earnings.

The Company uses forward exchange contracts to offset its exposure to certain foreign currency receivables and liabilities. These forward contracts are not designated as qualified hedges and, therefore, changes in the fair value of these derivatives are recognized into earnings, thereby offsetting the current earnings effect of the related foreign currency liabilities.

As of April 30, 2015, the Company's entire net forward contracts hedging portfolio consisted of 28.0 million Swiss francs equivalent and 14.0 million Euros equivalent for various expiry dates ranging through December 18, 2015 compared to a portfolio of 37.0 million Swiss francs equivalent for various expiry dates ranging through October 22, 2014 as of April 30, 2014. If the Company were to settle its Swiss franc and Euro forward contracts at April 30, 2015, the net result would be a gain of \$0.5 million, net of tax of \$0.3 million and a loss of \$0.5 million, net of tax benefit of \$0.1 million, respectively. The Company had no Swiss franc or Euro option contracts related to cash flow hedges as of April 30, 2015 and 2014, respectively.

The Board authorized the hedging of the Company's Swiss franc denominated investment in its wholly-owned Swiss subsidiaries using purchase options under certain limitations. These hedges are treated as net investment hedges under the relevant accounting guidance regarding derivative instruments. As of April 30, 2015 and 2014, the Company did not hold a purchased option hedge portfolio related to net investment hedging.

Commodity Risk

The Company considers its exposure to fluctuations in commodity prices to be primarily related to gold used in the manufacturing of the Company's watches. Under its hedging program, the Company can purchase various commodity

derivative instruments, primarily future contracts. These derivatives are documented as qualified cash flow hedges, and gains and losses on these derivative instruments are first reflected in other comprehensive income, and later reclassified into earnings, partially offset by the effects of gold market price changes on the underlying actual gold purchases. The Company did not hold any future contracts in its gold hedge portfolio related to cash flow hedges as of April 30, 2015 and 2014, thus any changes in the gold price will have an equal effect on the Company's cost of sales.

Debt and Interest Rate Risk

The Company has the capability to have certain debt obligations with variable interest rates, which are based on LIBOR plus a fixed additional interest rate. The Company does not hedge these interest rate risks. As of April 30, 2015, the Company had \$25.0 million in outstanding debt. The Company believes that a 1% change in interest rates would affect the Company's net income by approximately \$0.1 million. For additional information concerning potential changes to future interest obligations, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources."

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives, and the Company's Chief Executive Officer and Chief Financial Officer have concluded that such disclosure controls and procedures are effective at that reasonable assurance level. However, it should be noted that a control system, no matter how well conceived or operated, can only provide reasonable, not absolute, assurance that its objectives will be met and may not prevent all errors or instances of fraud.

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures, as such terms are defined in Rule 13a-15(e) under the Securities Exchange Act, as amended. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective at a reasonable assurance level as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

There has been no change in the Company's internal control over financial reporting during the three months ended April 30, 2015, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various legal proceedings and claims from time to time in the ordinary course of its business.

On February 4, 2015, an individual plaintiff filed a complaint against the Company and several of its officers in the United States District Court for the District of New Jersey (the "Complaint") as a purported class action, alleging that between March 26, 2014 and November 13, 2014, the Company made false and misleading statements about the Company's financial performance. The Complaint also claims that these alleged false and misleading statements resulted in the Company's stock trading at an artificially high price until November 14, 2014, when the Company issued a press release preliminarily announcing financial results and reducing its previous projections, after which the Company's stock price fell. The Company believes that the Complaint is meritless and it intends to vigorously defend this matter.

The Company believes that it has valid legal defenses to all of the matters currently pending against it. These matters are inherently unpredictable and the resolutions of these matters are subject to many uncertainties and the outcomes are not predictable with assurance. Consequently, management is unable to estimate the ultimate aggregate amount of monetary loss, amounts covered by insurance or the financial impact that will result from such matters.

Item 1A Risk Factors

As of April 30, 2015, there have been no material changes to any of the risk factors previously reported in the Company's 2015 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On March 21, 2013, the Board approved a share repurchase program under which the Company was authorized to purchase up to \$50.0 million of its outstanding common stock from time to time, depending on market conditions, share price and other factors. The Company may purchase shares of its common stock through open market purchases, repurchase programs, block trades or otherwise. On November 25, 2014, the Board increased the amount of the share repurchase authorization to \$100.0 million. This authorization expires on January 31, 2016. During the three months ended April 30, 2015, the Company repurchased a total of 859,700 shares of its common stock in the open market at a total cost of approximately \$22.2 million or an average cost of \$25.77 per share.

There were 17,979 shares of common stock repurchased during the three months ended April 30, 2015 as a result of the surrender of shares in connection with the vesting of certain stock awards. At the election of an employee, shares having an aggregate value on the vesting date equal to the employee's withholding tax obligation may be surrendered to the Company.

The following table summarizes information about the Company's purchases for the three months ended April 30, 2015 of equity securities that are registered by the Company pursuant to Section 12 of the Securities Exchange Act of 1934, as amended:

Issuer Repurchase of Equity Securities
