Item 2.02. Results of Operations and Financial Condition.

Edgar Filing: CORNING INC /NY - Form 8-K

The January 25, 2005 press release announcing the financial results for the Corning Incorporated 2004 fourth quarter and its first quarter 2005 earnings guidance is attached as Exhibit 99 and is incorporated herein by reference.

The information in this report, being furnished pursuant to Item 2.02 and 7.01 of Form 8-K, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that Section, and is not incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such filing.

Item 7.01. Regulation FD Disclosure.

Additional information concerning the Corning Incorporated ("Corning") 2004 fourth quarter earnings and 2005 first quarter guidance is being presented to investors in a teleconference call on January 26, 2005. During that call, management will state that we are terminating one of the distributors in the life sciences segment, and that, although management plans to add additional distribution channels to replace this volume, this may have a possible 10% to 20% impact on that segment's annual 2005 sales revenues and a slight potential impact on Corning's first quarter 2005 revenues.

Item 9.01. Financial Statements and Exhibits.

Corning Reports Fourth-Quarter Results
Quarterly sales up 26 percent versus prior year
2004 sales increase 25 percent

CORNING, N.Y.--Corning Incorporated (NYSE: GLW) today announced fourth-quarter sales of \$1.033 billion, with net income of \$163 million, or \$0.11 per share. Net income includes net special charges of \$14 million, or \$0.01 per share.

Excluding these net charges, Corning's earnings per share (EPS) would have been \$0.12 and at the high end of previously-announced quarterly guidance. This EPS is a non-GAAP financial measure. This and all non-GAAP financial measures are reconciled on the company's investor relations Web site and in attachments to this news release.

For the year, Corning recorded sales of \$3.85 billion, an increase of 25 percent over 2003 sales of \$3.09 billion. The company had a net loss of \$2.17 billion or \$1.56 per share. This compares to a 2003 net loss of \$223 million or \$0.18 per share. Excluding special items, Corning had net income for the year of \$674 million or \$0.45 per share in 2004, compared to net income of \$128 million or \$0.10 per share in 2003. This is a non-GAAP financial measure.

James R. Houghton, chairman and chief executive officer, said, "We had a solid fourth quarter and a spectacular year. Three years ago we embarked on a significant restructuring of the company. At that time, I said we knew there was a light at the end of the tunnel, but we did not know how long it was. I am pleased to say today that we have emerged from that tunnel, and we believe Corning has a very bright future."

Houghton added, "This is the second consecutive year that we have achieved a \$500 million improvement in profitability before special items. I believe that we have strong momentum across a number of our business segments going into 2005." Profitability before special items is a non-GAAP financial measure.

Fourth-quarter Operating Results

Corning's fourth-quarter sales of \$1.033 billion increased 3 percent over the previous quarter's sales of \$1.006 billion, and increased 26 percent over the prior year's fourth-quarter sales of \$820 million. Gross margin for the fourth quarter declined to 35 percent versus 40 percent in the previous quarter, a result of lower margins in the Telecommunications segment caused by a number of adjustments not expected to reoccur in the first quarter, the write-off of certain assets in the semiconductor product line, and weak manufacturing performance in the Environmental Technologies segment.

The company recorded \$311 million in fourth-quarter sales for its Display Technologies segment, a 5 percent increase over third-quarter sales of \$295 million. Sequential quarterly volume in liquid crystal display (LCD) glass increased 2 percent, and movements in exchange rates resulted in a 3 percent increase in sales. Pricing for the quarter again remained stable, and net income for the segment increased 6 percent to \$151 million from \$142 million in the previous quarter. For the full year, Corning's LCD glass volume increased by 65 percent.

Wendell P. Weeks, president and chief operating officer, said, "While our Display Technologies segment experienced some Taiwanese customer slowdowns in November, we had very strong performance in December. The slight slowdown in orders has allowed us to rebuild our inventory levels to more efficiently manage our customer requirements."

Telecommunications segment sales were \$423 million, a 3 percent increase over third-quarter sales of \$412 million. Excluding the impact of the divestiture of the frequency control product line, sales increased 6 percent. The segment recorded a net loss of \$9 million versus a net loss of \$1.82 billion in the third quarter. The third-quarter loss was primarily due to goodwill, fixed assets and equity method investment impairment charges. Fourth-quarter fiber volume was essentially flat compared to the third-quarter results and better than the company expected. Fiber pricing was down only slightly in the quarter.

"Our fourth-quarter telecommunications results continue to reflect the strength of hardware, cable and fiber sales in North America, particularly related to Verizon's fiber-to-the-premises buildout, as well as higher than usual project sales," Weeks said.

Environmental Technologies segment sales for the fourth quarter were \$130 million, a decline of 4 percent from the previous quarter's sales of \$136 million. Sales were impacted by the normal end-of-the-year slowdown in auto production. Quarterly segment earnings were impacted by continued difficulties in manufacturing performance at several facilities. Due to normal seasonality, the Life Sciences segment sales and earnings declined slightly from the previous quarter.

"This was a very satisfying quarter for Corning. Our sales increased 26 percent compared to this same period last year. Excluding special items, our net income improved by \$125 million, and our EPS was three times what it was last year," Weeks said. These are non-GAAP financial measures.

Special Items

Corning's fourth-quarter net special charges consisted of a \$17 million charge to reflect the increase in the fair market value of Corning common stock to be contributed to settle the asbestos litigation related to Pittsburgh Corning Corporation and \$3 million of net credits related to adjustments to restructuring reserves.

For the full year, the company's net income was reduced by \$2.839 billion, or \$2.01 per share, of net charges comprising the following:

- . Restructuring, impairment and other charges and credits of \$1.789 billion (\$1.802 billion after-tax and minority interest) primarily related to the impairment of goodwill and fixed assets in the Telecommunications segment.
- . An asbestos settlement charge of \$33 million (\$30 million after-tax) to reflect the increase in the market value of Corning's common stock to be contributed to settle the asbestos litigation related to Pittsburgh Corning Corporation.
- . A loss on repurchases and retirement of debt of \$36 million (\$34 million after-tax) related to Corning's ongoing debt reduction program.
- . A provision for income taxes of \$937 million as a result of the company's decision to increase its valuation allowance against a significant portion of its deferred tax assets.
- . Equity method charges of \$56 million, included in equity earnings of associated companies, net of impairments, of which \$35 million related to impairments of certain Telecommunications segment equity method investments and \$21 million related to restructuring actions and bankruptcy related charges recorded by Dow Corning Corporation.
- . Income from discontinued operations of \$20 million related to the final settlement of escrowed proceeds from the 2002 sale of Corning Precision Lens.

Cash Flow/Liquidity Update

Corning ended the year with \$1.9 billion in cash and short-term investments, an increase from the previous quarter's balance of \$1.7 billion. The cash increase was primarily due to strong cash flow from operations, including the receipt of a \$102 million customer deposit. The company's debt-to-capital ratio was 41 percent, a slight decline from the previous quarter's ratio of 42 percent.

"We continue to make progress on our financial priorities. We met or exceeded all of our expectations for the year. Our balance sheet continued to improve. We reduced our overall debt level, and we had operating cash flow of over \$1 billion," said James B. Flaws, vice chairman and chief financial officer.

First-Quarter Outlook

Corning said that it expects first-quarter sales to be in the range of \$980 million to \$1.03 billion and EPS in the range of \$0.11 to \$0.13 before special items. This EPS estimate is a non-GAAP financial measure and excludes any possible special items. The company expects foreign exchange rates to remain stable and that its gross margin will be in the range of 37 percent to 38 percent for the quarter.

In the Display Technologies segment, Corning expects that the sequential volume growth will be in the range of 5 percent to 10 percent, including both its wholly-owned business and Samsung Corning Precision Glass Co. Ltd., a 50 percent owned equity company. The sequential volume growth in Corning's wholly-owned business is expected to be flat to up 10 percent in the first quarter. Samsung Corning Precision is anticipating sequential volume growth of 5 percent to 15 percent for the quarter. The rate of volume growth will be largely dependent upon the industry's ability to efficiently bring on new panel manufacturing capacity during the quarter, as well as continued strong market demand for LCD products. Corning noted that its capacity expansion plans are modular and may be adjusted if industry growth projections change. While the company anticipates continued growth in the LCD glass market during the first quarter, it also noted that the level of glass demand could differ by geographic region.

Pricing for LCD glass is expected to begin to decline after being stable to up slightly over the last two years. As a result, the company anticipates that the average price for LCD glass will be down approximately 5 percent sequentially in the first quarter.

"Last week, we introduced the first successful commercial application of Generation 7 LCD glass substrates at Samsung Corning Precision. This larger size glass substrate is designed to support the LCD TV market, which we continue to believe will be a significant driver of LCD glass volume increases for the next several years," Flaws said.

In the Telecommunications segment, the company is anticipating first-quarter sequential fiber volume will be flat to down 10 percent against an unusually strong fourth quarter. First-quarter fiber price declines are expected to be around 5 percent.

The company noted that at the end of the fourth quarter it received final notification from the People's Republic of China's Ministry of Commerce that it had removed its preliminary fiber dumping determination which had placed a 16 percent duty on Corning fiber imports. Previously, the company said that its fiber exports to China had been impacted by the preliminary determination. "We are very pleased with the final ruling," Flaws said. "It alleviates any uncertainty about our ability to compete in the very important and growing China region. We are hopeful about regaining lost market share in this dynamic fiber market," he said.

Presentation of Information in this News Release

Non-GAAP financial measures are not in accordance with, or an alternative to, GAAP. Corning's non-GAAP net income and EPS measures exclude restructuring, impairment and other charges and adjustments to prior estimates for such charges. Additionally, the company's non-GAAP measures exclude adjustments to asbestos settlement reserves required by movements in Corning's common stock price, gains and losses arising from debt retirements, charges or credits arising from adjustments to the valuation allowance against deferred tax assets, equity method charges resulting from impairments of equity method investments or restructuring, impairment or other charges taken by equity method companies, and gains from discontinued operations. The company believes presenting non-GAAP net income and EPS measures is helpful to analyze financial performance without the impact of unusual items that may obscure trends in the company's underlying performance. These non-GAAP measures are reconciled on the company's Web site at www.corning.com/investor-relations and accompany this news release.

- (1) Non-direct research, development and engineering expenses are allocated to segments based upon direct project spending for each segment.
- (2) Interest expense is allocated to segments based on a percentage of segment net operating assets. Consolidated subsidiaries with independent capital structures do not receive additional allocations of interest expense.
- (3) Many of Corning's administrative and staff functions are performed on a centralized basis. Where practicable, Corning charges these expenses to segments based upon the extent to which each business uses a centralized function. Other staff functions, such as corporate finance, human resources and legal are allocated to segments, primarily as a percentage of sales.
- (4) Minority interests include the following restructuring, impairment and other charges and (credits):
 - . For 2004, gains from the sale of Corning Asahi Video Products Company (CAV) assets in excess of assumed salvage value of \$17 million, and reversals of CAV severance reserves of \$2 million.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

1. Restructuring, Impairment and Other Charges and (Credits)

We recorded net credits of \$5 million (\$3 million after-tax and minority interest) for adjustments to prior periods' restructuring and impairment charges.

2. Asbestos Settlement

On March 28, 2003, we announced that we had reached agreement with the representatives of asbestos claimants for the settlement of all current and future asbestos claims against us and Pittsburgh Corning Corporation ("PCC"), which might arise from PCC products or operations. Accordingly, we recorded a charge of \$298 million in the first quarter of 2003. The charge included the value of 25 million shares of Corning common stock that we will contribute as part of the settlement. Also at that time, we indicated that any changes in the value of our common stock contribution would be recognized in our quarterly results through the date of contribution to the settlement trust. As required, we recorded a mark-to-market charge of \$17 million in the fourth quarter of 2004 reflecting the increase in Corning's common stock from September 30 to December 31, 2004. Beginning with the first quarter of 2003, we have recorded total net charges of \$446 million to reflect the initial settlement and to mark-to-market the value of our common stock. We will make our contributions to the settlement trust under the agreement after the plan is approved, becomes effective and is no longer subject to appeal.

(a) Corning recorded net credits of \$5 million (\$3 million after-tax and minority interest) for adjustments to prior periods' restructuring and impairment charges, primarily in the Telecommunications segment.

(b) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation reorganization plan, Corning will contribute, when the reorganization plan becomes effective, 25 million shares of Corning common stock to a trust. This portion of the asbestos liability requires quarterly adjustment based upon movements in Corning's common stock price prior to contribution of the shares to the trust. In the fourth quarter of 2004, Corning recorded a charge of \$17 million for the change in its common stock price of \$11.77 at December 31, 2004 compared to \$11.08, the common stock price at September 30, 2004.

- (a) Corning recorded charges of \$1.789 billion (\$1.802 billion after-tax and minority interest) primarily related to the impairment of goodwill and fixed assets in the Telecommunications segment.
- (b) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation reorganization plan, Corning will contribute, when the reorganization plan becomes effective, 25 million shares of Corning common stock to a trust. This portion of the asbestos liability requires quarterly adjustment based upon movements in Corning's common stock price prior to contribution of the shares to the trust. For 2004, Corning recorded a charge of \$33 million (\$30 million after-tax) for the change in its common stock price of \$11.77 at December 31, 2004 compared to \$10.43, the common stock price at December 31, 2003.
- (c) During 2004, Corning retired a significant portion of long-term debt, resulting in a loss of \$36 million (\$34 million after-tax).
- (d) In the third quarter of 2004, Corning increased income tax expense by \$937 million as a result of the company's decision to provide a valuation allowance against a significant portion of its deferred tax assets.
- (e) This amount reflects charges of \$35 million for impairments of certain non-strategic equity method investments in Corning's Telecommunications segment and \$21 million related to restructuring actions and bankruptcy related charges recorded by Dow Corning Corporation.
- (f) This gain relates to the final settlement of escrowed proceeds from the 2002 sale of Corning's precision lens business to 3M Company.

(a) Corning recorded net charges of \$111 million (\$26 million after-tax) for our decision to shutdown Corning Asahi Video Products Company, exit the photonics technologies business within our Telecommunications segment, and shutdown two of our Specialty Materials manufacturing facilities. The charges for these actions were partially offset by credits to prior periods' restructuring plans, most notably for our decision not to exit two cabling sites previously marked for shutdown in 2002.

(b) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation reorganization plan, Corning will contribute, when the reorganization plan becomes effective, 25 million shares of Corning common stock and our investment in Pittsburgh Corning Europe to a trust. This charge represents recording the initial liability based on the terms of the settlement agreement (\$298 million) plus the charge to reflect movements in Corning's common stock price from the settlement arrangement date and December 31, 2003 (\$115 million).

(c) During 2004, Corning retired a significant portion of long-term debt, resulting in a gain of \$19 million (\$12 million after-tax).

- (a) For 2004 and 2003, refer to separate reconciliations of non-GAAP financial measure to the comparable GAAP measure for an explanation of the special items being excluded.

2002 Special Items:

- (b) Corning recorded total net charges of \$2.08 billion (\$1.462 billion after-tax and minority interest) related to the following significant actions: restructuring charges of \$1.271 billion (\$929 million after-tax and minority interest) for the closure of facilities, workforce reductions and abandonment of certain construction projects, mostly in our Telecommunications segment; \$400 million (\$294 million after-tax) for the impairment of goodwill in our Telecommunications segment; and \$409 million (\$239 million after-tax) for the impairment of assets of our photonic technologies and conventional video components businesses.
- (c) During 2002, Corning retired a significant portion of long-term debt resulting in a gain of \$176 million (\$108 million after-tax).
- (d) This amount reflects charges for impairments of certain equity method investments in Corning's Telecommunications segment.
- (e) On December 13, 2002, Corning completed the sale of our precision lens business to 3M Company for approximately \$800 million in cash and recorded a gain on the sale of \$652 million (\$415 million after-tax) included in income from discontinued operations. The remaining \$63 million, net of tax, of income from discontinued operations represents the 2002 operating results of the precision lens business prior to the sale to 3M Company.

This schedule will be updated as additional announcements occur.

- (a) From time to time, Corning may need to make adjustments to estimates used in the determination of prior year restructuring and impairment charges, which could result in a gain or loss during the quarter.
- (b) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation reorganization plan, Corning will contribute, when the reorganization plan becomes effective, 25 million shares of Corning common stock to a trust. The common stock will be contributed to the trust, after the plan has been approved by the asbestos claimants and bankruptcy court. The portion of the asbestos liability to be settled in common stock requires adjustment each quarter based upon movements in Corning's common stock price prior to contribution of the shares to the trust. In the first quarter of 2005, Corning will record a charge or credit for the change in its common stock price as of March 31, 2005 compared to \$11.77, the common stock price at December 31, 2004.
- (c) From time to time, Corning may repurchase or retire debt, which could result in a gain or loss during the quarter.

Please note that the company may pursue other financing, restructuring and divestiture activities at any time in the future, and that the potential impact of these events is not included within Corning's first quarter 2005 guidance.

This schedule contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward looking statements are based on current expectations and involve certain risks and uncertainties. Actual results may differ from those projected in the forward looking statements. Additional information concerning factors that could cause actual results to materially differ from those in the forward looking statements is contained in the Securities and Exchange Commission filings of this Company.
