DATA I/O CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

NOTE 1 - FINANCIAL STATEMENT PREPARATION

Data I/O prepared the financial statements as of September 30, 2006 and September 30, 2005, according to the rules and regulations of the Securities and Exchange Commission ("SEC"). These statements are unaudited but, in the opinion of management, include all adjustments (consisting of normal recurring adjustments and accruals) necessary to present fairly the results for the periods presented. The balance sheet at December 31, 2005 has been derived from the audited financial statements at that date. We have condensed or omitted certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America according to such SEC rules and regulations. Operating results for the nine months ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. These financial statements should be read in conjunction with the annual audited financial statements and the accompanying notes included in the Company's Form 10-K for the year ended December 31, 2005.

Stock-Based Compensation Expense

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment, (SFAS 123(R)) which requires the measurement and recognition of compensation expense for all share-based payment awards, including employee stock options and employee stock purchases, based on estimated fair values. SFAS 123(R) supersedes the Company's previous accounting under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25) for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 (SAB 107) relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R). The Company adopted SFAS 123(R) using the modified prospective method, which requires the application of the accounting standard as of January 1, 2006, the first day of the Company's fiscal year 2006. The Company's Consolidated Financial Statements as of and for the three and nine months ended September 30, 2006 reflect the effect of SFAS 123(R). The total net stock-based compensation amount for the three and nine months ended September 30, 2006 was \$88,000 and \$283,000, respectively.

NOTE 2 - RECLASSIFICATIONS

Certain prior period balances may have been reclassified to conform to the presentation used in the current period.

NOTE 3 - INVENTORIES

Inventories consisted of the following components (in thousands):

Edgar Filing: DATA I/O CORP - Form 10-Q

	September 30, 2006	December 31, 2005
Raw material	\$3,172	\$2,076
Work-in-process	854	767
Finished goods	1,041	686
Inventories	\$5,067	\$3,529

NOTE 4 PROPERTY AND EQUIPMENT, NET

Property and equipment consisted of the following components (in thousands):

	September 30,	December 31,
	2006	2005
Leasehold improvements	\$474	\$343
Equipment	8,867	9,935
	9,341	10,278
Less accumulated depreciation	6,285	8,004
Property and equipment - net	\$3,056	\$2,274

NOTE 5 BUSINESS RESTRUCTURING

During 2005, we took restructuring related charges of \$96,000 primarily related to severance and completing actions that had been started in the second half of 2004. This aligned management operations with the changes made in 2004 to control costs in North America and Europe and the need to build staff serving China and Eastern Europe. At December 31, 2005, \$33,000 remained as accrued but unpaid restructure charges, which were completed and fully paid out during the first three quarters of 2006.

During the third quarter of 2006, as part of our additional effort to reduce expenses, we incurred a restructuring charge of approximately \$152,000, with all but \$23,000 paid out during the quarter. The restructuring charge is primarily related to severance charges incurred at our Redmond, Germany and China offices. In view of our declining margins and operating results during the first and second quarters of 2006, actions were taken to reduce expenses and improve margins. The remaining unpaid restructure charge is expected to be paid out in the fourth quarter of 2006.

NOTE 6 OTHER ACCRUED LIABILITIES

Other accrued liabilities consisted of the following components (in thousands):

	September 30,	December 31,
	2006	2005
Product warranty liability	\$464	\$459
Sales return reserve	135	150
Other	647	491
Other accrued liabilities	\$1,246	\$1,100

The changes in Data I/O's product warranty liability are as follows (in thousands):

Edgar Filing: DATA I/O CORP - Form 10-Q

	September 30,
	2006
Liability, beginning balance	\$459
Net expenses	614
Warranty claims	(614)
Accrual revisions	5
Liability, ending balance	\$464

NOTE 7 LONG-TERM DEBT

On September 27, 2006, the company entered into a five year capital lease agreement in the amount of \$591,145. The lease was used to fund new equipment and installation associated with our move to the new facility in July of 2006. The interest rate is 7.69%. As of September 30, 2006, no repayments of principle have been made.

Scheduled maturities of the capital lease obligation for the years ending December 31 are as follows (in thousands):

2006	\$ 47
2007	140
2008	140
2009	140
2010	140
Thereafter	97
Total minimum lease payments	704
Less: Amount representing interest	(113)
Present value of capital lease obligation	591
Current portion long-term debt	(119)
Non-current portion long-term debt	\$472

NOTE 8 - EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is calculated based on the weighted average number of common shares outstanding during each period. Diluted earnings per share is calculated based on these same weighted average shares outstanding plus the effect of potential shares issuable upon assumed exercise of stock options based on the treasury stock method. Potential shares issuable upon the exercise of stock options are excluded from the calculation of diluted earnings per share to the extent their effect would be antidilutive.

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share data):

	Three Months Ended		Nine Months Ended	
	September 30, 2006	2005	September 30, 2006	2005
Numerator for basic and diluted earnings per share:				
Net income (loss)	\$47	\$127	(\$863)	\$219
Denominator:				
Denominator for basic earnings per share - weighted-average shares	8,437	8,244	8,413	8,200
Employee stock options	235	224	-	301
Denominator for diluted earnings per share -				

Edgar Filing: DATA I/O CORP - Form 10-Q

adjusted weighted-average shares and assumed conversions of stock options	8,672	8,468	8,413	8,501
Basic and diluted earnings (loss) per share				
Total basic and diluted earnings (loss) per share	\$0.01	\$0.02	(\$0.10)	\$0.03

The computation for the three months and nine months ended September 30, 2006 excludes 665,341 and 1,155,261 options, respectively, as these are considered antidilutive. The computation for the three and nine months ended September 30, 2005 excluded 741,534 and 437,016 options, respectively, to purchase common stock as these options were antidilutive.

NOTE 9 SHARE-BASED COMPENSATION

Effective January 1, 2006, the Company adopted the provisions of SFAS No. 123(R) which requires the measurement and recognition of compensation expense for all share-based payment awards made to our employees and directors including employee stock options, stock awards and employee stock purchases made under our Employee Stock Purchase Plan (ESPP). Data I/O previously applied the provisions of APB No. 25 and related Interpretations and provided the required pro forma disclosures under SFAS No. 123(R), Accounting for Stock-Based Compensation. The following table illustrates the effect on net income and net income per common share for the three and nine months ended September 30, 2005. No share-based compensation expense was reflected in our results of operations for the three and nine month period ended September 30, 2005 as all options were granted with an exercise price equal to the market value of the underlying common stock on the date of grant. Additionally, option forfeitures were accounted for as they occurred.

Data I/O's pro forma information follows (in thousands, except per share data):

	Three Months Ended	Nine Months Ended
	September 30, 2005	September 30, 2005
Net income as reported	\$127	\$219
Deduct: Total stock-based employee compensation expense determined under fair value based method for awards granted, modified, or settled, net of related tax effects	(109)	(291)
Net income (loss) pro forma	\$18	(\$72)
Basic and diluted income per share as reported	\$0.02	\$0.03
Basic income (loss) per share pro forma	\$0.00	(\$0.01)
Diluted earnings (loss) per share pro forma	\$0.00	(\$0.01)

Data I/O adopted SFAS No. 123(R) using the modified prospective method beginning January 1, 2006. Accordingly, during the three and nine month period ended September 30, 2006, we recorded share-based compensation expense for awards granted prior to but not yet vested as of January 1, 2006 as if the fair value method required for pro forma disclosure under SFAS No. 123(R) were in effect for expense recognition purposes adjusted for estimated forfeitures. For share-based awards granted after January 1, 2006, we have recognized compensation expense based on the estimated grant date fair value method required under SFAS No. 123(R). For these awards we have recognized compensation expense using a straight-line amortization method and reduced for estimated forfeitures. The impact on our results of operations of recording share-based compensation for the three and nine month period ended September 30, 2006 was as follows (in thousands):

	Three Months Ended	Nine Months Ended
	September 30, 2006	September 30, 2006
Costs of goods sold	\$6	\$19
Research and development	20	64
Selling, general and administrative	62	200
Total share-based compensation expense	\$88	\$283
Impact on net income (loss) per share:		
Basic and diluted	\$0.01	(\$0.03)

Edgar Filing: DATA I/O CORP - Form 10-Q

Approximately \$1,500 and \$4,500 of share-based compensation was capitalized within inventory for the three and nine months ended September 30, 2006, respectively.

At September 30, 2006, there were 1,677,600 shares of Common Stock reserved for issuance under Data I/O's employee stock option plans with 522,339 shares available for grant. Pursuant to the stock option plans, options are granted to our officers and key employees with exercise prices equal to the fair market value of the Common Stock at the date of grant and generally vest over four years. Options granted under the plans generally have a maximum term of six years from the date of grant. Beginning in the second quarter of 2006, we granted restricted stock awards and performance-based stock awards to our officers and key employees at fair

Edgar Filing: DATA I/O CORP - Form 10-Q

market value. The restricted stock awards vest in equal installments over four years. The performance-based stock awards vest on December 31, 2008 based on obtaining a revenue growth target of \$34,694,935 for the fiscal year ending December 31, 2008. For purposes of share-based compensation measurement, we assume that the performance goal will be achieved. If the performance goals are not met, no compensation cost is recognized and any recognized compensation cost will be reversed. Under our Employee Stock Purchase Plan (ESPP), 108,071 shares were available for purchase at September 30, 2006. Under the ESPP, purchase options have been granted every six months with a six month term and an exercise price equal to the lower of the fair market value of the Common Stock on the first or last day of the six month period, with a 15% discount. As of August 1, 2006, ESPP purchase options will be granted on the first day of the six month period, with an exercise price equal to the fair market value on the last day of the six month period less a 5% discount.

The fair value of share-based awards for employee stock option awards and employee stock purchases made under our Employee Stock Purchase Plan were estimated using the Black-Scholes valuation model. The following weighted average assumptions were used to calculate the fair value of options granted during the three and nine months ended September 30, 2006 and 2005:

Employee Stock				
	Options		Options	
	Three Months Ended		Nine Months Ended	
	September 30,	September 30,	September 30,	September 30,
	2006	2005	2006	2005
Risk-free interest rates	-	4.18%	4.92%	3.68%
Volatility factors	-	.80	.65	.80
Expected life of the option in years	-	4.60	4.77	4.60
Expected dividend yield	None	None	None	None

Employee Stock				
	Purchase Plan		Purchase Plan	
	Three Months Ended		Nine Months Ended	
	September 30,	September 30,	September 30,	September 30,
	2006	2005	2006	2005
Risk-free interest rates	-	2.6%	3.33%	2.44%
Volatility factors	-	.80	.65	.85
Expected life of the option in years	-	.50	.50	.50
Expected dividend yield	None	None	None	None

The risk-free interest rate used in the Black-Scholes valuation method is based on the implied yield currently available in U.S. Treasury securities at maturity with an equivalent term. We have not recently declared or paid any dividends and do not currently expect to do so in the future. The expected term of options represents the period that our stock-based awards are expected to be outstanding and was determined based on historical weighted average holding periods and projected holding periods for the remaining unexercised shares. Consideration was given to the contractual terms of our stock-based awards, vesting schedules and expectations of future employee behavior. Expected volatility is based on the annualized daily historical volatility of the Company's stock over a representative period and includes consideration of the implied volatility for comparable entities within our industry.

The weighted average grant date fair value of options granted under our stock option plans during the nine month period ending September 30, 2006 was \$2.24, and \$1.67 and \$1.61 for the three and nine month period ending September 30, 2005, respectively. There were no stock option

Edgar Filing: DATA I/O CORP - Form 10-Q

grants during the three month period ending September 30, 2006. The weighted average grant date fair value of restricted stock awards and performance-based stock awards for the nine month period ending September 30, 2006 was \$3.88. The estimated fair value of purchase rights under the ESPP plan for the nine month period ending September 30, 2006 was \$1.62 and \$0.96 and \$1.08 for the three and nine months ended September 30, 2005, respectively.

The following table summarizes stock option activity under our stock option plans for the three and nine month periods ended September 30, 2006:

Edgar Filing: DATA I/O CORP - Form 10-Q

	For the Three Months Ended			For the Nine Months Ended		
	September 30, 2006			September 30, 2006		
	Options	Weighted Average Exercise Price		Options	Weighted Average Exercise Price	
Beginning balance	1,171,824	\$2.44		1,155,445	\$2.42	
Granted	-	-		175,000	3.89	
Exercised	(7,032)	1.92		(37,091)	2.00	
Cancelled, expired or forfeited	(9,531)	2.69		(138,093)	4.25	
Ending balance outstanding	1,155,261	2.44		1,155,261	2.44	
Exercisable	680,491	\$2.07		680,491	\$2.07	

The stock options outstanding and exercisable for equity share-based payment awards under our stock option plans as of September 30, 2006 were in the following exercise price ranges:

Range of Exercise Prices	Options Outstanding				Options Exercisable		
	Number Outstanding	Weighted- Average Remaining Contractual Life in Years	Weighted Average Exercise Price	Aggregate Intrinsic Value	Number Exercisable	Weighted	Aggregate Intrinsic Value
		Average Exercise Price					
\$1.00 - \$1.25	179,443	2.39	\$1.04	\$485,473	148,888	\$1.05	\$401,476
\$1.25 - \$1.89	175,091	1.76	1.43	406,813	174,622	1.43	405,807
\$1.89 - \$2.49	270,340	3.99	2.43	356,404	124,818	2.38	171,610
\$2.49 - \$3.04	283,137	3.93	2.82	262,005	149,543	2.83	137,210
\$3.04 - \$4.56	247,250	4.39	3.72	33,932	82,620	3.42	29,426
	1,155,261	3.47	\$2.44	\$1,544,627	680,491	\$2.07	\$1,145,529

The aggregate intrinsic value in the table above represents the total pretax intrinsic value, based on the Company closing stock price of \$3.75 at September 30, 2006, which would have been received by award holders had all award holders exercised their stock options that were in-the-money as of that date. The aggregate intrinsic value of awards exercised during the six month period ended September 30, 2006 was \$69,029.

There were 21,400 shares of restricted stock awards and performance-based stock awards that were granted and 21,150 that are outstanding at September 30, 2006. The unvested share balance at September 30, 2006 is 19,507.

As of September 30, 2006, there was \$959,098 of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under our stock option plans. That cost is expected to be recognized over a weighted average period of 2.52 years. As of September 30, 2006, there was no unrecognized cost related to the employee stock purchase plan.

NOTE 10 COMPREHENSIVE INCOME (LOSS)

Edgar Filing: DATA I/O CORP - Form 10-Q

During the third quarter of 2006 and 2005 total comprehensive income (loss) was comprised of the following (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2006	2005	September 30, 2006	2005
Net income (loss)	\$47	\$127	(\$863)	\$219
Foreign currency translation gain / (loss)	(20)	49	191	(132)
Unrealized gain on marketable securities	-	-	-	5
Total comprehensive income / (loss)	\$27	\$176	(\$672)	\$92

NOTE 11 FOREIGN CURRENCY TRANSLATION AND DERIVATIVES

Data I/O translates assets and liabilities of foreign subsidiaries at the exchange rate on the balance sheet date. We translate revenues, costs and expenses of foreign subsidiaries at average rates of exchange prevailing during the year. We charge our translation adjustments resulting from this process to other comprehensive income (a component of stockholders' equity), net of taxes. Realized and unrealized gains and losses resulting from the effects of changes in exchange rates on assets and liabilities denominated in foreign currencies are included in non-operating expense as foreign currency transaction gains and losses.

Data I/O accounts for its hedging activities in accordance with SFAS No. 133, *Accounting for Derivatives and Hedging Activities*. This statement establishes accounting and reporting standards for derivative instruments and requires recognition of derivatives as assets or liabilities in the statement of financial position and measurement of those instruments at fair value.

Data I/O utilizes forward foreign exchange contracts to reduce the impact of foreign currency exchange rate risks where natural hedging strategies are not effectively employed. All hedging instruments held by us are fair value hedges. Generally, these contracts have maturities less than one year and require us to exchange foreign currencies for U.S. dollars at maturity. The change in fair value of the open hedge contracts as of September 30, 2006 is an unrealized gain of \$5,542 included in net loss for the nine months ended September 30, 2006, and it is included in accounts payable on the balance sheet as of September 30, 2006.

Data I/O does not hold or issue derivative financial instruments for trading purposes. The purpose of our hedging activities is to reduce the risk that the valuation of the underlying assets, liabilities and firm commitments will be adversely affected by changes in exchange rates. Our derivative activities do not create foreign currency exchange rate risk because fluctuations in the value of the instruments used for hedging purposes are offset by fluctuations in the value of the underlying exposures being hedged.

NOTE 12 RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued Interpretation No. 48, *Accounting for uncertainty in Income Taxes*—an interpretation of FASB Statement No. 109 (FIN 48). This interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. Data I/O is currently evaluating the impact of FIN 48 on its consolidated results of operations and financial condition.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, which establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS No. 157 does not require any new fair value measurements but rather it eliminates inconsistencies in the guidance found in various prior accounting pronouncements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. Earlier adoption is encouraged, provided the company has not yet issued financial statements, including for interim periods, for that fiscal year. We are still evaluating the potential effects of this standard.

In September 2006, the Securities and Exchange Commission released Staff Accounting Bulletin No. 108, *Quantifying Financial Statement Misstatements* (SAB 108). SAB 108 gives guidance on how errors, built up over time in the balance sheet, should be considered from a materiality perspective and corrected. SAB 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. SAB 108 represents the SEC Staff's views on the proper interpretation of existing rules and as such has no effective date. We are currently evaluating the impact of SAB No. 108 on our consolidated

results of operations and financial condition.

Item 2. **Management's Discussion and Analysis of Financial Condition and Results of Operations**

General

FORWARD-LOOKING STATEMENTS

Edgar Filing: DATA I/O CORP - Form 10-Q

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. This Act provides a "safe harbor" for forward-looking statements to encourage companies to provide prospective information about themselves as long as they identify these statements as forward-looking and provide meaningful cautionary statements identifying important factors that could cause actual results to differ from the projected results. All statements other than statements of historical fact made in this Quarterly Report on Form 10-Q are forward-looking. In particular, statements herein regarding industry prospects or trends; expected level of expense; future results of operations, breakeven point, or financial position; changes in gross margin; integration of acquired products and operations; market acceptance of our newly introduced or upgraded products; development, introduction and shipment of new products; and any other guidance on future periods are forward-looking statements. Forward-looking statements reflect management's current expectations and are inherently uncertain. Although Data I/O believes that the expectations reflected in these forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, achievements, or other future events. Moreover, neither Data I/O nor anyone else assumes responsibility for the accuracy and completeness of these forward-looking statements. Data I/O is under no duty to update any of these forward-looking statements after the date of this report. The reader should not place undue reliance on these forward-looking statements. The discussions above and in the section in Item 1A. Risk Factors - Cautionary Factors That May Affect Future Results in the Company's Annual report on Form 10-K for the year ended December 31, 2005 describe some, but not all, of the factors that could cause these differences.

OVERVIEW

Our primary goal is to manage the business to achieve profitable operations, while developing, launching and enhancing products to drive revenue and earnings growth. Our challenge continues to be operating in a cyclical and challenging industry environment, while positioning Data I/O to take advantage of any growth in capital spending. We began to see a recovery in growth in capital spending during 2005. During the first nine months of 2006, we experienced a 9% increase in orders over the same period of 2005. We anticipate that demand for programming capacity should continue to show improvement during the balance of 2006, in part based on third party forecasted increased 2006 unit sales for the semiconductor industry and the business outlook for target customer segments.

Following our losses during the first two quarters of 2006, we launched an initiative to lower the quarterly revenue breakeven point to below \$7 million, as it rose to a calculated \$7.6 million for the second quarter of 2006. This higher breakeven point was due especially to the lower gross margins, as well as the higher development and other operating expenses, we experienced during the first half of 2006. During the third quarter, we successfully reduced the breakeven point below our goal of \$7 million through a combination of margin improvements and expense reductions. We have taken actions to improve the effectiveness of our sales organization. We have reduced expenses by reducing personnel costs, moving to a new much smaller facility and moderating our development materials and patent related spending.

We are continuing our efforts to balance increasing costs and strategic investments in our business with the level of demand and mix of business we expect. We are focusing our research and development efforts in our strategic growth markets, namely new programming technology, in-system programming (ISP) ImageWriter technology, and automated programming systems for the manufacturing environment, particularly the new FLX 500 desktop automated programming system, and extending the capabilities and support for our FlashCORE architecture and the ProLINE-RoadRunner and PS families. To better support our customers in their geographic areas and time zones, we are investing in tools and device support operations in Germany, India and Shanghai, China.

Our customer focus has been on strategic high volume manufacturers in key market segments like wireless, automotive, industrial controls and programming centers and supporting NAND Flash and microcontrollers on our newer products to gain new accounts and break into new market areas, such as microcontrollers for the automotive market. We have expanded our China operations during 2006 to take advantage of the growth of manufacturing in China. Our switch to a new distributor in Japan, Toyo Corporation, is intended to help recapture business in the Japanese market and coordinate Japanese related business in other countries. We worked with Toyo Corporation on introductions, training, integration and transitions in the second and third quarter of 2006. We continue our efforts to partner with selected semiconductor manufacturers to better serve our mutual customers and announced two additional members of the Preferred Partnership Program in the third quarter of 2006. The Preferred Partnership Program formalizes our mutual support relationship and is designed to increase collaboration between the semiconductor vendor and Data I/O to better serve our customers.

BUSINESS RESTRUCTURING

During 2005, we took restructuring related charges of \$96,000 primarily related to severance and completing actions that had been started in the second half of 2004. This aligned management operations with the changes made in 2004 to control costs in North America and Europe and the need to build staff serving China and Eastern Europe. At December 31, 2005, \$33,000 remained as accrued but unpaid restructure charges, which were completed and fully paid out during the first three quarters of 2006.

Edgar Filing: DATA I/O CORP - Form 10-Q

During the third quarter of 2006, as part of our additional effort to reduce expenses, we incurred a restructuring charge of approximately \$152,000, with all but \$23,000 paid out during the quarter. The restructuring charge is primarily related to severance charges incurred at our Redmond, Germany and China offices. In view of our declining margins and operating results during the first and second quarters of 2006, actions were taken to reduce expenses and improve margins, thereby reducing our quarterly revenue breakeven point to below \$7 million for the quarter. The remaining unpaid restructure charge is expected to be paid out in the fourth quarter of 2006.

CRITICAL ACCOUNTING POLICY JUDGMENTS AND ESTIMATES

The Company's critical accounting policies are disclosed in the Company's Form 10-K for the year ended December 31, 2005 and have not materially changed as of September 30, 2006, with the exception of the following:

Stock-based Compensation: We estimate the fair value of stock options using the Black-Scholes valuation model consistent with the provisions of SFAS 123(R), SEC SAB 107 and our prior period pro forma disclosures of net earnings, including stock-based compensation (determined under a fair value method as prescribed by SFAS 123). The Black-Scholes model requires the input of highly subjective assumptions, including the option's expected life and the price volatility of the underlying stock. The expected stock price volatility assumption was determined using a combination of historical and implied volatility of the Company's common stock. Changes in the subjective assumptions required in the valuation model may significantly affect the estimated value of the awards, the related stock-based compensations expense and, consequently, our results of operations. Beginning in the second quarter of 2006, restricted stock awards and performance-based stock awards were granted. The vesting of the performance-based stock awards is based on attaining a particular revenue growth target during the three year period ending December 31, 2008. We assume that the performance goal will be achieved. If the performance goals are not met, no compensation cost is recognized and any recognized compensation cost will be reversed.

Edgar Filing: DATA I/O CORP - Form 10-Q

Results of Operations

NET SALES

Net sales by product line	Three Months Ended		September 30, 2005	Nine Months Ended		September 30, 2005
	September 30, 2006	% Change		September 30, 2006	% Change	
Automated programming systems	\$4,106	16.4%	\$3,528	\$11,813	1.5%	\$11,635
Non-automated programming systems	2,731	(10.7%)	3,059	8,600	3.2%	8,331
Total programming systems	\$6,837	3.8%	\$6,587	20,413	2.2%	\$19,966

Net sales by location	Three Months Ended		September 30, 2005	Nine Months Ended		September 30, 2005
	September 30, 2006	% Change		September 30, 2006	% Change	
United States	\$1,260	13.5%	\$1,110	\$4,703	(3.0%)	\$4,848
% of total	18.4%		16.9%	23.0%		24.3%
International	\$5,577	1.8%	\$5,477	\$15,710	3.9%	\$15,118
% of total	81.6%		83.1%	77.0%		75.7%

The revenue increase for the third quarter of 2006 compared to the third quarter of 2005 relates primarily to higher sales of our ProLINE-RoadRunner, offset by lower sales of our PS Series products and adapters. However, on a year-to-date basis, the revenue increase can be attributed to an increase of PS Series product sales offset in part by a decrease in ProLINE-RoadRunner product sales. In the third quarter of 2006, we experienced increased sales in the Americas and China, partially offset by lower sales in Europe. Domestic sales increased approximately 13.5% in the third quarter of 2006, compared to the third quarter of 2005, primarily due to additional ProLINE-RoadRunner product sales. Programming centers, electronic manufacturing services (EMS) companies and semiconductor factory programming represented our main automation equipment customers. During the third quarter of 2006, we sold automated systems to several new accounts. Although orders booked during both the third quarters of 2006 and 2005 were \$7.8 million, on a year-to-date basis orders increased from \$20.4 million in 2005 to \$22.2 million in 2006. We increased our backlog of orders during the third quarter of 2006 by \$700,000. The relatively high level of unshipped orders resulted primarily from orders taken for our new FLX-500 product, which we began shipping during October, as well as later customer delivery requirements and a distributor's orders being on hold due to credit issues not resolved until October.

In 2006, we introduced our new FLX-500 desktop automated programming system, as well as a new version of our ProLINE-RoadRunner for Siemens X-Series (SMT) feeder. During 2005, we began shipping other new products including the PS-588 automated programming system and the ImageWriter-300, our In-System Programming solution. We limited our sales efforts on ImageWriter products in the second quarter while we resolved issues affecting our customers' out-of-box experience. These ImageWriter improvements were completed, and although sales efforts resumed for the third quarter of 2006, we have not yet experienced significant ImageWriter sales growth. We expect these products to increase our revenues; however, partially offsetting this expected increase is the expected continuing trend of declining sales of our older non-automated product lines.

For the first nine months of 2006 compared to the same period of 2005, sales increased slightly, with the third quarter sales increase offsetting the first quarter sales decline. There have been significant product mix shifts with higher sales of PS Systems and FlashPAK programmers and lower sales of ProLINE-RoadRunner products, adapters and older legacy programmer products. China sales grew 25%, offset by declines in the rest of Asia. Sales in the Americas grew 6%, with Mexico and Canada sales offsetting the U.S sales decline. European sales declined 13%. Programming centers, EMS companies and semiconductor factory programming represented our main automation customer groups in 2006. Order bookings for the first nine months of 2006 were up 8.8% compared to the first nine months of 2005.

Edgar Filing: DATA I/O CORP - Form 10-Q

GROSS MARGIN

(in thousands)	Three Months Ended September 30, 2006	September 30, 2005	Nine Months Ended September 30, 2006	September 30, 2005
Gross Margin	\$3,768	\$3,756	\$10,922	\$11,703
Percentage of net sales	55.1%	57.0%	53.5%	58.6%

Gross margins decreased as a percentage of sales compared to the third quarter of 2005 but increased in dollars compared to the third quarter of 2005. The overall gross margin percentage decrease primarily relates to product mix shifts and lower average selling prices as well as certain unfavorable operating variances during the quarter. The product mix shift relates to decreased sales volume of higher margin Unifamily and aftermarket products, with offsetting increased sales volume of ProLINE-RoadRunner and FlashPAK non-automated programmer. The lower average selling prices related primarily to the effect of increased indirect channel sales, especially in China. In addition, the third quarter of 2006 had \$282,000 of less favorable or negative operations variances and \$155,000 of increased operations labor and overhead spending, particularly at the Brazil operations, compared to the third quarter of 2005, offset by favorable manufacturing labor and overhead variance of \$113,000.

For the first nine months of 2006 compared to the same period of 2005, the lower gross margin dollars and gross margin as a percentage of sales are primarily due to the decrease in sales volume of higher margin ProLINE-RoadRunner and aftermarket products with offsetting increased sales volume of lower margin PS Series products and FlashPAK non-automated programmer. For the first nine months of 2006 there were \$520,000 of less favorable or negative operations variances and \$346,000 of increased labor & overhead costs, due primarily to Brazil operations, compared to the third quarter of 2005.

RESEARCH AND DEVELOPMENT

(in thousands)	Three Months Ended September 30, 2006	September 30, 2005	Nine Months Ended September 30, 2006	September 30, 2005
Research and development	\$1,426	\$1,218	\$4,245	\$3,905
Percentage of net sales	20.9%	18.5%	20.8%	19.6%

Research and development (R&D) spending for the third quarter and first nine months of 2006 compared to the same periods of 2005 increased in dollars and as a percentage of sales due to the higher spending associated with the development of the FLX-500. We expect that the spending in R&D should moderate as a percentage of sales as the development of new platforms, such as the FLX-500 and ImageWriter, come to completion and the engineering focus moves from significant platform development to product enhancements and extensions.

SELLING, GENERAL AND ADMINISTRATIVE

(in thousands)	Three Months Ended September 30, 2006	September 30, 2005	Nine Months Ended September 30, 2006	September 30, 2005
Selling, general & administrative	\$2,229	\$2,411	\$7,494	\$7,421
Percentage of net sales	32.6%	36.6%	36.7%	37.2%

Edgar Filing: DATA I/O CORP - Form 10-Q

Selling, general and administrative (SG&A) expenses decreased \$182,000 for the third quarter of 2006 compared to the third quarter of 2005 due primarily to lower facility costs of \$46,000 in connection with the move to a smaller facility in July, decreased costs of approximately \$89,000 associated with the new information system purchase in prior year and a decrease in net personnel costs in China of \$83,000. These decreases were offset by an increase in FAS 123(R) equity compensation related expense of \$62,000 for the third quarter.

For the first nine months of 2006 compared with the same period in 2005, SG&A expense increased slightly by \$73,000 which was basically due to the FAS 123(R) expense of \$200,000, offset by lower SG&A during the third quarter of 2006 as described above.

Edgar Filing: DATA I/O CORP - Form 10-Q

INTEREST

(in thousands)	Three Months Ended September 30, 2006	September 30, 2005	Nine Months Ended September 30, 2006	September 30, 2005
Interest income	\$18	\$37	\$98	\$81
Interest expense	\$ -	(\$4)	\$ -	(\$16)

Interest income decreased in the third quarter due to the decrease in marketable securities but increased for the first nine months of 2006 compared to the same periods in 2005 due to higher investment returns.

INCOME TAXES

(in thousands)	Three Months Ended September 30, 2006	September 30, 2005	Nine Months Ended September 30, 2006	September 30, 2005
Income tax expense (benefit)	(\$64)	(\$5)	(\$9)	\$106

Tax benefit recorded for the third quarter and the first nine months of 2006 was due to foreign taxes. The tax effective rate differed from the statutory tax rate primarily due to the effect of valuation allowances, states taxes and the taxes in countries without local net operating loss carryforwards. The tax valuation allowance decreased by approximately \$82,000 during the quarter. Data I/O has a valuation allowance of \$10,007,564 as of September 30, 2006.

Financial Condition

LIQUIDITY AND CAPITAL RESOURCES

(in thousands)	September 30, 2006	Change	June 30, 2006	Change	December 31, 2005
Working capital	\$9,419	(\$38)	\$9,457	(\$537)	\$9,994

At September 30, 2006, Data I/O's principal sources of liquidity consisted of existing cash and cash equivalents. Our working capital decreased by \$38,000 and our current ratio remained consistent at 2.7 at December 31, 2005 and at September 30, 2006.

Our cash and cash equivalents decreased by approximately \$1.9 million during the nine months ended September 30, 2006 primarily due to the cash used for operating activities totaling approximately \$1.5 million. Cash used for operations primarily included a \$1.5 million increase in inventories and expenditures related to the move to our new facility. The increase in inventory levels was primarily related to the increase in FLX-500 inventory, as well as additional inventory supporting higher PS System sales.

We used approximately \$360,000 of cash in investing activities during the nine months ended September 30, 2006, which included \$1.1 million used to purchase property, plant and equipment offset by proceeds from the sale of marketable securities totaling \$804,000. We expect that we will continue to make capital expenditures to support our business and we anticipate that present working capital will be sufficient to meet our operating requirements throughout at least the next one year period. Capital expenditures for property, plant and equipment during the balance of 2006 are planned to be approximately \$100,000.

Edgar Filing: DATA I/O CORP - Form 10-Q

As a result of our significant product development, customer support, international expansion and selling and marketing efforts, we have required substantial working capital to fund our operations. Over the last few years, we restructured our operations to lower our costs and operating expenditures in some geographic regions, while investing in other regions, and to lower the level of revenue required for our net income breakeven point, to preserve our cash position and to focus on profitable operations. We believe that we have sufficient working capital available under our operating plan to fund our operations and capital requirements through at least the next one year period. Any substantial inability to achieve our current business plan could have a material adverse impact on our financial position, liquidity, or results of operations and may require us to reduce expenditures and/or seek additional financing.

Edgar Filing: DATA I/O CORP - Form 10-Q

Aggregate Contractual Obligations and Commitments

We have purchase obligations for inventory and production costs as well as other obligations such as capital expenditures, service contracts, marketing, and development agreements. Arrangements are considered purchase obligations if a contract specifies all significant terms, including fixed or minimum quantities to be purchased, a pricing structure and approximate timing of the transaction. Most arrangements are cancelable without a significant penalty, and with short notice, typically less than 90 days. Any amounts reflected on the balance sheet as accounts payable, accrued liabilities and notes payable are excluded from the below table. We have commitments under non-cancelable operating leases and other agreements, primarily for factory and office space, with initial or remaining terms of one year or more as follows as of September 30, 2006 (in thousands):

	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years	Total
Operating leases	\$1,098	\$1,952	\$1,334	-	\$4,384
Commitments to suppliers	1,716	-	-	-	1,716
Other purchase commitments	100	1	-	-	101
Total	\$2,914	\$1,953	\$1,334	-	\$6,201

OFF-BALANCE SHEET ARRANGEMENTS

Except as noted above in aggregate contractual obligations and commitments, Data I/O had no off-balance sheet arrangements.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the FASB issued Interpretation No. 48, *Accounting for uncertainty in Income Taxes* an interpretation of FASB Statement No. 109 (FIN 48). This interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. Data I/O is currently evaluating the impact of FIN 48 on its consolidated results of operations and financial condition.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, which establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS No. 157 does not require any new fair value measurements but rather it eliminates inconsistencies in the guidance found in various prior accounting pronouncements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. Earlier adoption is encouraged, provided the company has not yet issued financial statements, including for interim periods, for that fiscal year. We are still evaluating the potential effects of this standard.

In September 2006, the Securities and Exchange Commission released Staff Accounting Bulletin No. 108, *Quantifying Financial Statement Misstatements* (SAB 108). SAB 108 gives guidance on how errors, built up over time in the balance sheet, should be considered from a materiality perspective and corrected. SAB 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. SAB 108 represents the SEC Staff's views on the proper interpretation of existing rules and as such has no effective date. We do not expect the adoption of SAB No. 108 to have a material impact on

our financial position, results of operation, or cash flows.

Item 3. **Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to financial market risks, including fluctuations in foreign exchange rates and interest rates.

INTEREST RATE RISK

We invest our cash in a variety of short-term financial instruments, including government bonds, commercial paper and money market instruments, which are classified as available-for-sale. Our investments are made in accordance with an investment policy approved by our board of directors. Our portfolio is diversified and consists primarily of investment grade securities to minimize credit risk.

Edgar Filing: DATA I/O CORP - Form 10-Q

Cash balances in foreign currencies are operating balances and are invested in demand or short-term deposits of the local operating bank.

Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted because of a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Due in part to these factors, our future investment income may fall short of expectations because of changes in interest rates or we may suffer losses in principal if forced to sell securities that have seen a decline in market value because of changes in interest rates. We do not attempt to reduce or eliminate our exposure to interest rate risk through the use of derivative financial instruments due to the short-term nature of the investments.

The table below provides information about our marketable securities, including principal cash flows and the related weighted average interest rates (in thousands):

	Principal	Estimated Fair	Principal	
	Cash Flows	Value at	Cash Flows	Estimated Fair
	For Q4 2006	September 30, 2006	to September 30, 2006	Value at
				December 31, 2005
Taxable Auction Securities	-	-	\$800	\$800
Total portfolio value	\$ -	\$ -	\$800	\$800

FOREIGN CURRENCY RISK

We have operations in Germany, Canada, China, and Brazil. Therefore, we are subject to risks typical of an international business including, but not limited to, differing economic conditions, changes in political climate, differing tax structures, other regulations and restrictions and foreign exchange rate volatility. Accordingly, our future results could be materially adversely affected by changes in these or other factors.

Our sales and corresponding receivables are substantially in U.S. dollars other than sales made in our subsidiaries in Germany, Canada, China, and Brazil. Through our operations in Germany, Canada, China, and Brazil, we incur certain product costs; research and development; customer service and support costs; selling, general and administrative expenses in local currencies. We are exposed, in the normal course of business, to foreign currency risks on these expenditures and on related foreign currency denominated monetary assets and liabilities. We have evaluated our exposure to these risks and believe that our only significant exposure to foreign currencies at the present time is primarily related to Euro-based receivables. We use forward contracts to hedge and thereby minimize the currency risks associated with certain transactions denominated in Euros.

If our actual currency requirement or timing in the period forecasted differs materially from the notional amount of our forward contracts and/or the natural balancing of receivables and payables in foreign currencies during a period of currency volatility or if we do not continue to manage our exposure to foreign currency through forward contracts or other means, we could experience unanticipated foreign currency gains or losses. In addition, our foreign currency risk management policy subjects us to risks relating to the creditworthiness of the commercial banks with which we enter into forward contracts. If one of these banks cannot honor its obligations, we may suffer a loss. We also invest in our international operations, which will likely result in increased future operating expenses denominated in those local currencies. In the future, our exposure to foreign currency risks from these other foreign currencies may increase and if not managed appropriately, we could experience unanticipated foreign currency gains and losses.

Edgar Filing: DATA I/O CORP - Form 10-Q

The purpose of our foreign currency risk management policy is to reduce the effect of exchange rate fluctuation on our results of operations. Therefore, while our foreign currency risk management policy may reduce our exposure to losses resulting from unfavorable changes in currency exchange rates, it also reduces or eliminates our ability to profit from favorable changes in currency exchange rates.

At September 30, 2006, we had eight forward contracts to sell Euros in exchange for \$1,672,000 with rates ranging from 1.2575 to 1.2819, all scheduled to be due within the next quarter and the value at that date of \$1,678,000.

Item 4. **Controls and Procedures**

- (a) Evaluation of disclosure controls and procedures.

Edgar Filing: DATA I/O CORP - Form 10-Q

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, Data I/O evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act) as of the end of the period covered by this report (the Evaluation Date). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective in timely alerting them to the material information relating to Data I/O (or its consolidated subsidiaries) required to be included in our periodic SEC filings and Form 8-K reports.

(b) Changes in internal controls.

There were no changes made in our internal controls during the period covered by this report that have materially affected or are reasonably likely to materially affect our internal control over financial reporting except as described below.

During the first and third quarters of 2006, we implemented a new information system starting with our United States and Canadian operations, respectively. During the fourth quarter of 2006, we continue our implementation efforts to prepare for adding and integrating our Germany and China subsidiary operations as well as making system refinements for the U.S. operations. Overall, we implemented similar process and system internal controls to those associated with our previous system and performed testing of the new system and reconciliations of the results. However changes to significant systems and processes like these may result in unforeseen or unknown items that may materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. **Legal Proceedings**

None

Item 1A. **Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. There are no material changes to the Risk Factors described in our Annual Report other than changes to the Risk Factor below entitled Failure to successfully implement a new worldwide information system may adversely affect our operations and sales. This Risk Factor item, which was included in our Annual Report, has been changed to reflect additional discussion of the potential risks.

Failure to successfully implement a new worldwide information system may adversely affect our operations and sales.

We have recently acquired and are currently implementing a new worldwide information system. Our corporate office began use of the new system in February 2006. Our Canadian operations began use in August 2006. We are now in the process of implementing the new system at our Germany and China subsidiary locations and additional modules and features in the United States. Our operations and financial results could be adversely affected if we are unable to complete the system implementation without significant interruptions in accounting systems, order entry, billing, manufacturing and other customer support functions. In addition, the costs associated with the implementation and training could exceed budgeted amounts and adversely affect our profitability and liquidity. Process changes and system operation could require additional resources and costs to be incurred on a current and ongoing basis. System implementation delays could cause difficulties in our complying with the

Edgar Filing: DATA I/O CORP - Form 10-Q

internal controls assessment, reporting and auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002.

Item 2. **Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities**

None

Item 3. **Defaults Upon Senior Securities**

None

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information

None

Item 6. Exhibits

(a) Exhibits

The following list is a subset of the list of exhibits described below and contains all compensatory plans, contracts or arrangements in which any director or executive officer of Data I/O is a participant, unless the method of allocation of benefits thereunder is the same for management and non-management participants:

- (1) Amended and Restated 1982 Employee Stock Purchase Plan. See Exhibit 10.18.

Exhibit 31.1

Section 302 Certification

I, Frederick R. Hume, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Data I/O Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
