#### Significant events after balance date

##### Income tax audit

As a consequence of an income tax audit conducted by the Australian Taxation Office (ATO), an amount of \$229 million has been subject to litigation.

The dispute concerns the deductibility of financing costs paid to General Electric Company in connection with the BHP Billiton Limited Group's acquisition of the Utah Group in the early 1980's. On 23 November 1999, the Federal Court ruled in favour of the BHP Billiton Limited Group. On 18 October 2000, the Full Bench of the Federal Court ruled in favour of the ATO. The BHP Billiton Limited Group sought leave to appeal to the High Court of Australia (High Court) and the hearing occurred on 10 August 2001. The High Court has refused the BHP Billiton Limited Group leave to appeal on the general question of deductibility but did allow leave to appeal on the question of whether the ATO had the power to amend the 1985 assessment.

An amount of \$79 million was paid in 1992 and up to 2001 was accounted for as a non-current asset. At 30 June 2001, the accounts have been adjusted to include a tax expense of \$63 million relating to refusal of the High Court to grant leave to appeal on the deductibility of financing costs. A non-current asset of \$16 million will be carried forward.

In July 2001, the outstanding balance of \$150 million was paid. This amount will also be recorded as a non-current asset in the 2002 fiscal year. This together with the \$16 million carried forward from the 2001 year represents the tax and interest in dispute in relation to the 1985 assessment.

#### New Accounting Standards

- Revised

Australian Accounting Standard AASB 1041: Revaluation of Non-Current Assets was first adopted from 1 July 2000 resulting in property plant and equipment and other financial assets previously carried at valuation being reverted to a cost basis of measurement. For the purposes of transitioning to a cost basis, the existing revalued carrying amounts at 1 July 2000 were deemed to be their cost. The change in policy had no impact on net profit attributable to members of BHP Billiton Limited.

- Some line items and sub-totals reported in the previous financial year have been reclassified and repositioned in the financial statements as a result of the first time application on 1 July 2000 of the revised standards AASB 1018: Statement of Financial Performance, AASB 1034: Financial Report Presentation and Disclosures and the new AASB 1040: Statement of Financial Position.

#### Change in accounting policies

As a consequence of the DLC structure established between BHP Billiton Limited and BHP Billiton Plc, which became effective on 29 June 2001, certain accounting policies of the BHP Billiton Limited Group have been changed to align with the policies of the BHP Billiton Plc Group in order to minimise differences between results reported in the UK and Australian jurisdictions. The following revised accounting policies have been adopted for the year ended 30 June 2001:

##### Provision for restoration and rehabilitation

In prior periods the BHP Billiton Limited Group had recognised provisions for restoration on a progressive basis over the life of each asset. At 30 June 2001, this policy was changed such that a provision for the full cost expected to be incurred at the end of the life of each asset on a discounted to net present value basis is recognised at the beginning of each project and capitalised as part of the cost of the asset. The capitalised cost is amortised over the life of the operation and the annual increase in the net present value of the provision for the expected cost is included in expenses from ordinary activities. The effect of this policy change for the year ended 30 June 2001 has been an increase in net profit attributable to members of BHP Billiton Limited of \$55 million.

##### Pension costs

In prior periods the BHP Billiton Limited Group had recognised an expense for defined benefit pensions when contributions were paid. At 30 June 2001, this policy was changed such that expenses for defined benefit pension schemes are recognised so as to allocate the cost systematically over the employees' service lives on the basis of independent actuarial advice. A pension obligation or asset is consequently recognised in the Statement of Financial Position to the extent that the contributions paid either lag or precede expense recognition. The effect of this policy change for the year ended 30 June 2001 has been to recognise a net asset representing the fund surplus and an increase in net profit attributable to members of BHP Billiton Limited of \$265 million.

##### Employee compensation costs

In prior periods, the BHP Billiton Limited Group included in the Statement of Financial Performance the cost associated with Performance Rights at the time they were exercised. Costs associated with the exercise of options were not included in the Statement of Financial Performance. At 30 June 2001, this policy was changed such that the estimated cost to the BHP Billiton Limited Group on exercise of Performance Rights and, where applicable, the cost associated with the discount on issue of options are included in the Statement of Financial Performance over the likely vesting period, with a corresponding provision for employee benefits being included in the Statement of Financial Position. At the time the Performance Rights or options vest, an adjustment is made to reflect the actual cost to the BHP Billiton Limited Group. The effect of this policy change for the year ended 30 June 2001 has been a decrease in net profit attributable to members of BHP Billiton Limited of \$5 million.

Change of company name

During the financial year ended 30 June 2001, The Broken Hill Proprietary Company Limited changed its name to BHP Limited with effect from 30 October 2000, and subsequently to BHP Billiton Limited with effect from 29 June 2001.

Change of financial year

Directors announced on 17 December 1999 that the financial year end for the BHP Billiton Group would change from 31 May to 30 June with effect from 30 June 2000. All subsequent financial years will commence on 1 July and end on 30 June.

-

**Australian Stock Exchange (ASX)**

Comparative figures for the thirteen months ended 30 June 2000 are in lieu of a 31 May 2000 Appendix 4B.
