GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

# Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

## SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with research offices in over 25 countries, they offer investors the broadest global reach in the industry.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among undervalued stocks, arbitrage situations and distressed companies.

## TRUE DIVERSIFICATION

Because our management groups work independently and adhere to distinctly different investment approaches, Franklin, Templeton and Mutual Series funds typically have a low overlap of securities. That's why our funds can be used to build truly diversified portfolios covering every major asset class.

## RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable account services that have helped us become one of the most trusted names in financial services.

WHAT IS BALANCE OF PAYMENTS?

Balance of payments is a record of all of a country's exports and imports of goods and services, borrowing and lending with the rest of the world during a particular time period. It helps a country evaluate its competitive strengths and weaknesses and forecast the strength of its currency.

WHAT IS A CURRENT ACCOUNT?

A current account is that part of the balance of payments where all of one country's international transactions in goods and services are recorded.

value. The Fund outperformed the J.P. Morgan (JPM) Government Bond Index (GBI) Global, which posted cumulative total returns of 2.42% in local currency terms and 8.32% in U.S. dollar terms for the same period. 1 You can find the Fund's long-term performance data in the Performance Summary on page 8.

### ECONOMIC AND MARKET OVERVIEW

During the six months under review, overall global growth conditions remained robust, particularly in the U.S. and Asia. Although there was some increase in inflationary pressures regionally, inflation generally remained historically low, and global treasury yield curves flattened over the period.

The U.S. economy experienced improved growth amid employment gains and strong investment spending. The core Consumer Price Index moved higher, rising to 2.4% at period-end from 1.7% at the beginning of the reporting period. In an effort to ease inflationary pressures, the Federal Reserve Board raised the federal funds target rate 100 basis points (100 basis points equal one percent) from 1.50% to 2.50%. Economic growth indicators were generally quite positive; however, measures of the U.S. balance of payment position sharply deteriorated. The U.S. trade deficit reached record levels, hitting a \$61 billion monthly deficit level in February 2005 and a current account deficit of 6.3% of gross domestic product (GDP) in fourth quarter 2004. 2 Although financing of the current account deficit through foreign purchases of U.S. securities continued to rise over the reporting period, the increase was not enough to prevent a decline in the U.S. dollar's value against the euro and other major trading partners' currencies.

Economic growth in Europe generally moderated in the second half of 2004, with the slowdown most apparent in the euro zone. During fourth quarter 2004, real GDP growth in the euro zone slowed to 1.6% annualized. Soft

labor markets contributed to weak domestic demand conditions. Additionally, the export sector's contributions to growth eased largely due to the euro's sustained strength, which weighed on exports. Because of the weaker growth conditions, underlying inflationary pressures were limited, and the European Central Bank left interest rates unchanged at 2.00%. Elsewhere in Europe, Norway and Sweden experienced extremely low inflationary pressures, despite relatively robust economic activity, particularly in regard to consumption. In central Europe, favorable inflationary developments facilitated interest rate cuts in Hungary and Slovakia and prompted Poland's central bank to move to an easing bias. Hungary cut its interest rate 275 basis points to 8.25%, Slovakia cut its rate 150 basis points to 3.00%, and Poland's policy rate was unchanged at 6.50%. 3 In addition to interest rate cuts contributing to bond performance, higher interest rates relative to those in the euro zone, as well as attractive investment prospects, supported the region's currency performance, and central European currencies were among the world's top performing for the period.

Asia's economic performance was divided between mixed developments in Japan, which experienced weakening growth indicators and continued deflationary concerns, and generally strong economic performance elsewhere in Asia. In fourth quarter 2004, Japan's GDP growth slowed to 0.5% compared with a year earlier,

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

while GDP grew 9.5% in China, 5.1% in Thailand and 3.3% in South Korea. 4 Asia generally continued to produce current account surpluses, facilitating further buildup of foreign currency reserves in the region. While Japan's foreign currency accumulation slowed relative to prior periods given less government intervention in currency markets, China's reserve accumulation accelerated. For the six months under review, Japan's reserves rose \$12 billion. From September through December 2004, China's increased \$114 billion. Despite moderating growth rates in Australia and New Zealand, tight labor market conditions boosted inflation expectations in those countries over the period. While Australia kept its key interest rate at 5.25%, New Zealand's central bank raised interest rates 50 basis points to 6.50%.

### INVESTMENT STRATEGY

We invest selectively in bonds around the world to generate income for the Fund, seeking opportunities while monitoring changes in interest rates, currency rates and credit risk.

### MANAGER'S DISCUSSION

During the reporting period, the Fund benefited from its strategy of diversifying into peripheral Europe (non-euro zone) and non-Japan Asia, areas we viewed as having attractive opportunities for favorable interest rate and currency developments. The Fund's relative performance also benefited from having no holdings in the U.S. or Japan. The U.S. was the clear underperformer during the period on bond return and currency return bases, with the U.S. portion of the JPM GBI Global rising only 0.66% and the U.S. dollar depreciating 6.96% against the country's major trading partners. 1 Japan also underperformed the index, although not to the magnitude of the U.S. Our overall European position benefited relative Fund performance, as peripheral European holdings generally outperformed the euro zone. However, the Fund's underweighted U.K. position detracted from performance relative to the index given the U.K. bond market's outperformance in U.S. dollar terms. During the reporting period, we found what we believed were attractive opportunities globally through our interest rate, currency and sovereign bond strategies. By period-end,

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

approximately 15% of the Fund's total net assets were in below investment grade holdings.

### INTEREST RATE STRATEGY

While the U.S. began raising interest rates in 2004, economic conditions in other countries contributed to maintaining low interest rates or facilitated interest rate reductions, which provided support to bond markets in local currency terms. For instance, the Fund benefited from earning higher interest rates in Poland relative to the euro zone, as well as from building market expectations for interest rate reductions following easing inflationary pressures during the period. The JPM GBI Global's Polish subindex rose 11.53% in local currency terms for the six months ended February 28, 2005. 1 Although

### 4 | Semiannual Report

the Fund's euro zone position was underweighted relative to the JPM GBI Global, it represented one of the Fund's longer duration positions and benefited from low inflation and unchanged interest rates. In Asia, local Indonesian bond markets outperformed the index, rising 11.06% over the six-month period, supported by favorable macroeconomic conditions in Indonesia, such as slowing inflation and robust growth, as well as political stability and attractive yields. 1 Additionally, the country's economy benefited from greater investment spending, which rose 18.3% in fourth quarter 2004 compared with a year earlier.

### CURRENCY STRATEGY

During the reporting period, currency gains against the U.S. dollar benefited global bond market performance, with the JPM GBI Global rising 8.32% in U.S. dollar terms compared with 2.42% in local currency terms. 1 Central to our currency strategy during the period was our negative outlook for the U.S. dollar given structural weakness in the U.S. balance of payment position. Although the euro generated positive returns, rising 8.97% against the U.S. dollar during the period, we saw better value in other European (non-euro zone) and Asian currencies. Many currencies appreciated against the U.S. dollar, with a couple of notable performers within each region. In central Europe, the Polish zloty and Slovakian koruna appreciated 24.46% and 15.86% against the U.S. dollar. Among Scandinavian currencies, the Norwegian krone and Swedish krona rose 11.24% and 9.82%. In the Asia-Pacific region, the South Korean won gained 14.67%, while the Australian dollar increased 12.23%.

## GLOBAL SOVEREIGN DEBT STRATEGY

Despite rising U.S. interest rates, U.S. dollar-denominated sovereign debt generated positive returns, with the JPM Emerging Markets Bond Index Global (EMBIG) rising 8.01% in U.S. dollar terms during the reporting period. 5 Sovereign interest rate spreads declined from 425 basis points greater than U.S. Treasuries at the beginning of the reporting period to 333 basis points at period-end. Given tightening spreads, we de-emphasized sovereign debt in our overall strategy while maintaining selective exposure to sovereign credits with what we believed were improving credit fundamentals. For example, Ukrainian sovereign bonds returned 8.71% during the period, following the landmark election of the presidential candidate many perceived as market friendly. 5 In addition to a strong economic environment with 12% GDP growth in 2004, such political developments seemed to provide a positive backdrop for progress on previously stalled structural reform initiatives, which has the potential to enhance Ukraine's credit standing. 6 Russian sovereign bonds rose 11.58%, benefiting from an investment grade sovereign credit rating from Standard & Poor's and Moody's Investors Service, two independent credit rating agencies. 5

Templeton Global Income Fund

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Global Income Fund (the Fund) is registered under the Investment Company Act of 1940 as a non-diversified, closed-end investment company. Effective June 1, 2004, the Fund was reorganized from a Maryland corporation into a Delaware statutory trust. The Fund seeks high current income, with a secondary goal of capital appreciation. Under normal market conditions, the Fund invests at least 80% of its net assets in income-producing securities, including debt securities of U.S. and foreign issuers, including emerging markets. The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market.

Corporate debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Some methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

### C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses on these contracts are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts.

### D. INCOME TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income. Fund distributions to shareholders are determined on an income tax basis and may differ from net investment income and realized gains for financial reporting purposes.

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Discounts and premiums on securities purchased are amortized over the lives of the respective securities. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

#### F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expense during the reporting period. Actual results could differ from those estimates.

#### G. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liability arising out of the performance

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

### 2. SHARES OF BENEFICIAL INTEREST

The Board of the Fund previously authorized an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. This authorization remains in effect. Through February 28, 2005, the Fund had repurchased a total of 11,210,400 shares.

At February 28, 2005, there were an unlimited number of shares authorized (without par value). During the period ended February 28, 2005, 263,789 shares were issued for \$2,522,656 from reinvested distributions. During the year ended August 31, 2004, 199,459 shares were issued for \$1,767,365 from reinvested distributions.

### 3. TRANSACTIONS WITH AFFILIATES

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

#### 5. INCOME TAXES

At August 31, 2004, the Fund had tax basis capital losses, which may be carried over to offset future capital gains. Such losses expire as follows:

Capital loss carryovers expiring in:	
2008 .....	\$ 2,252,961
2009 .....	22,567,406
2010 .....	27,371,582
2011 .....	4,209,282
	-----
	\$56,401,231
	=====

Net investment income (loss) differs for financial statement and tax purposes primarily due to differing treatments of foreign currency transactions and bond discounts and premiums.

Net realized gains differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, and bond discounts and premiums.

At February 28, 2005, the net unrealized appreciation (depreciation) based on the cost of investments for income tax purposes were as follows:

Cost of investments .....	\$1,038,066,959
	-----
Unrealized appreciation .....	\$ 187,278,610
Unrealized depreciation .....	(1,286,040)
	-----
Net unrealized appreciation (depreciation) .....	\$ 185,992,570
	=====

#### 6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short-term securities) for the period ended February 28, 2005 aggregated \$248,337,284 and \$260,956,675, respectively.

#### 7. CREDIT RISK

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

The Fund has 15.40% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions than higher rated securities. The risk of loss due to default by the issuer may be significantly greater for the holders of high yielding securities because such securities are generally unsecured and are often subordinated to other creditors of the issuer.

### 8. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund.

### 9. REGULATORY MATTERS

#### INVESTIGATIONS

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, including the Securities and Exchange Commission ("SEC"), the California Attorney General's Office ("CAGO"), and the National Association of Securities Dealers, Inc. ("NASD"), relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (as used in this section, together, the "Company"), as well as certain current or former executives and employees of the Company, received subpoenas and/or requests for documents, information and/or testimony. The Company and its current employees provided documents and information in response to those requests and subpoenas.

#### SETTLEMENTS

Beginning in August 2004, the Company entered into settlements with certain regulators investigating the mutual fund industry practices noted above. The Company believes that settlement of each of the matters described in this section is in the best interest of the Company and shareholders of the Franklin, Templeton, and Mutual Series mutual funds (the "funds").

On August 2, 2004, Franklin Resources, Inc. announced that its subsidiary, Franklin Advisers, Inc., reached an agreement with the SEC that resolved the issues resulting from the SEC investigation into market timing activity. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940 and Sections 9(b) and 9(f) of the Investment Company Act of 1940, Making Findings and Imposing Remedial Sanctions and a Cease-and-Desist Order" (the "Order"). The SEC's Order concerned the activities of a limited number of third parties that ended in 2000 and those that were the subject of the first Massachusetts administrative complaint described below.

Under the terms of the SEC's Order, pursuant to which Franklin Advisers, Inc. neither admitted nor denied any of the findings contained therein, Franklin Advisers, Inc. agreed to pay \$50 million, of which \$20 million is a civil penalty, to be distributed to shareholders of certain funds in accordance with a plan to be developed by an independent distribution consultant. At this time, it is unclear which funds or which shareholders of any particular fund will receive distributions. The Order also required Franklin Advisers, Inc. to, among other

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

things, enhance and periodically review compliance policies and procedures.

On September 20, 2004, Franklin Resources, Inc. announced that two of its subsidiaries, Franklin Advisers, Inc. and Franklin Templeton Alternative Strategies, Inc. ("FTAS"), reached an agreement with the Securities Division of the Office of the Secretary of the Commonwealth of Massachusetts (the "State of Massachusetts") related to its administrative complaint filed on February 4, 2004, concerning one instance of market timing that was also a subject of the August 2, 2004 settlement that Franklin Advisers, Inc. reached with the SEC, as described above.

#### SETTLEMENTS (CONTINUED)

Under the terms of the settlement consent order issued by the State of Massachusetts, Franklin Advisers, Inc. and FTAS consented to the entry of a cease-and-desist order and agreed to pay a \$5 million administrative fine to the State of Massachusetts (the "Massachusetts Consent Order"). The Massachusetts Consent Order included two different sections: "Statements of Fact" and "Violations of Massachusetts Securities Laws." Franklin Advisers, Inc. and FTAS admitted the facts in the Statements of Fact.

On October 25, 2004, the State of Massachusetts filed a second administrative complaint, alleging that Franklin Resources, Inc.'s Form 8-K filing (in which it described the Massachusetts Consent Order and stated that "Franklin did not admit or deny engaging in any wrongdoing") failed to state that Franklin Advisers, Inc. and FTAS admitted the Statements of Fact portion of the Massachusetts Consent Order (the "Second Complaint"). Franklin Resources, Inc. reached a second agreement with the State of Massachusetts on November 19, 2004, resolving the Second Complaint. As a result of the November 19, 2004 settlement, Franklin Resources, Inc. filed a new Form 8-K. The terms of the Massachusetts Consent Order did not change and there was no monetary fine associated with this second settlement.

On November 17, 2004, Franklin Resources, Inc. announced that Franklin Templeton Distributors, Inc. ("FTDI") reached an agreement with the CAGO, resolving the issues resulting from the CAGO's investigation concerning sales and marketing support payments. Under the terms of the settlement, FTDI neither admitted nor denied the allegations in the CAGO's complaint and agreed to pay \$2 million to the State of California as a civil penalty, \$14 million to the funds, to be allocated by an independent distribution consultant to be paid for by FTDI, and \$2 million to the CAGO for its investigative costs.

On December 13, 2004, Franklin Resources, Inc. announced that its subsidiaries FTDI and Franklin Advisers, Inc. reached an agreement with the SEC, resolving the issues resulting from the SEC's investigation concerning marketing support payments to securities dealers who sell fund shares. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings, Making Findings, and Imposing Remedial Sanctions Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940, Sections 9(b) and 9(f) of the Investment Company Act of 1940, and Section 15(b) of the Securities Exchange Act of 1934" (the "Second Order").

Under the terms of the Second Order, in which FTDI and Franklin Advisers, Inc. neither admitted nor denied the findings contained therein, they agreed to pay the funds a penalty of \$20 million and disgorgement of \$1 (one dollar). FTDI and

## Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSRS

Franklin Advisers, Inc. also agreed to implement certain measures and undertakings relating to marketing support payments to broker-dealers for the promotion or sale of fund shares, including making additional disclosures in the funds' Prospectuses and Statements of Additional Information. The Second Order further requires the appointment of an independent distribution consultant, at the Company's expense, who shall develop a plan for the distribution of the penalty and disgorgement to the funds.

The SEC's Second Order and the CAGO settlement agreement concerning marketing support payments provide that the distribution of settlement monies are to be made to the relevant funds, not to individual shareholders. The independent distribution consultant has substantially completed preparation of these distribution plans. The CAGO has approved the distribution plan pertaining to the distribution of the monies owed under the CAGO settlement agreement and, in accordance with the terms and conditions of that settlement, the monies were disbursed to the participating funds. The Fund did not participate in the CAGO settlement. The SEC has not yet approved the distribution plan pertaining to the Second Order. When approved, disbursements of settlement monies under the SEC's Second Order will be made promptly in accordance with the terms and conditions of that order.

#### OTHER LEGAL PROCEEDINGS

The Company, and other funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits in different federal courts in Nevada, California, Illinois, New York and Florida, alleging violations of various federal securities laws and seeking, among other relief, monetary damages, restitution, removal of fund trustees, directors, advisers, administrators, and distributors, rescission of management contracts and 12b-1 Plans, and/or attorneys' fees and costs. Specifically, the lawsuits claim breach of duty with respect to alleged arrangements to permit market timing and/or late trading activity, or breach of duty with respect to the valuation of the portfolio securities of certain Templeton funds managed by Franklin Resources, Inc. subsidiaries, resulting in alleged market timing activity. The majority of these lawsuits duplicate, in whole or in part, the allegations asserted in the February 4, 2004 Massachusetts administrative complaint and the findings in the SEC's August 2, 2004 Order, as described above. The lawsuits are styled as class actions or derivative actions on behalf of either the named funds or Franklin Resources, Inc.

In addition, the Company, as well as certain current and former officers, employees, and directors, have been named in multiple lawsuits alleging violations of various securities laws and pendent state law claims relating to the disclosure of directed brokerage payments and/or payment of allegedly excessive advisory, commission, and distribution fees, and seeking, among other relief, monetary damages, restitution, rescission of advisory contracts, including recovery of all fees paid pursuant to those contracts, an accounting of all monies paid to the named advisers, declaratory relief, injunctive relief, and/or attorneys' fees and costs. These lawsuits are styled as class actions or derivative actions brought on behalf of certain funds.

### OTHER LEGAL PROCEEDINGS (CONTINUED)

The Company and fund management strongly believe that the claims made in each of the lawsuits identified above are without merit and intend to vigorously defend against them. The Company cannot predict with certainty, however, the eventual outcome of the remaining governmental investigations or private lawsuits, nor whether they will have a material negative impact on the Company. Public trust and confidence are critical to the Company's business and any material loss of investor and/or client confidence could result in a significant decline in assets under management by the Company, which would have an adverse effect on the Company's future financial results. If the Company finds that it bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate. The Company is committed to taking all appropriate actions to protect the interests of its funds' shareholders.

### DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

Shareholders must affirmatively elect to participate in the Plan; share dividends and capital gains distributions will be reinvested automatically; Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938, will provide additional Plan information upon request.

Whenever the Fund declares dividends in either cash or shares of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in shares at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional cash payments to Mellon Bank, N.A. (the "Plan Administrator"), in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Bank, N.A." and sent to Mellon Investor Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attention: Templeton Global Income Fund. The Plan Administrator shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares on the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or distributions.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested. The Plan Administrator's fees for a sale of shares through the Plan are \$15.00 per transaction plus a \$0.12 per share trading fee.

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Administrator sent to Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938. Upon withdrawal, the participant will receive, without charge, share certificates issued in the participant's name for all full shares held by the Plan Administrator; or, if the participant wishes, the Plan Administrator will sell the shares and send the proceeds, less a service charge of \$15.00 and less trading fees of \$0.12 per share, to the participant.
