See Abbreviations on page 17.

- (a) The principal amount is stated in U.S. dollars unless otherwise indicated.
- (b) The coupon rate shown represents the rate at period end.
- (c) The principal amount is stated in original face, and scheduled paydowns are reflected in the market price on ex-date.
- (d) Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. At May 31, 2009, the aggregate value of these securities was \$109,128,723, representing 9.66% of net assets.
- (e) Principal amount is stated in 1,000 Brazilian Real Units.
- (f) Redemption price at maturity is adjusted for inflation.
- (g) Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. At May 31, 2009, the aggregate value of these securities was \$34,638,836, representing 3.07% of net assets.
- (h) Principal amount is stated in 100 Mexican Peso Units.
- (i) Security purchased on a delayed delivery basis.

See Notes to Statement of Investments.

Templeton Global Income Fund

NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED)

1. ORGANIZATION

Templeton Global Income Fund (Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end investment company.

12,027

2. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value

Corporate debt securities, government securities and municipal securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers, and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

3. DERIVATIVE FINANCIAL INSTRUMENTS

The Fund may invest in derivative financial instruments (derivatives) in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market

Quarterly Statement of Investments | 9

Templeton Global Income Fund

NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED) (CONTINUED)

3. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

factors, and require or permit net settlement. Derivatives may contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and the potential for market movements.

Derivatives are marked to market daily based upon quotations from market makers or the Fund's independent pricing services and the Fund's net benefit or obligation under the contract, as measured by the fair market value of the contract, is included in net assets.

The Fund enters into foreign exchange contracts in order to manage foreign exchange rate risk between the trade date and settlement date of securities transactions. A foreign exchange contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency for a specific exchange rate on a future date.

The Fund enters into forward exchange contracts in order to hedge against fluctuations in foreign exchange rates or to gain exposure to certain foreign currencies. A forward exchange contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency for a specific exchange rate on a future date.

The Fund enters into interest rate swap contracts in order to manage interest rate risk. An interest rate swap is an agreement between the Fund and a counterparty to exchange cash flows based on the difference between two interest rates, applied to a notional principal amount. Over the term of the contract, contractually required payments to be paid and to be received are accrued daily and recorded as unrealized depreciation and appreciation until the payments are made, at which time they are realized. Pursuant to the terms of the interest rate swap contract, cash or securities may be required to be deposited as collateral.

4. INCOME TAXES

At May 31, 2009, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Net unrealized appreciation (depreciation)	\$ 43,742,856
Unrealized appreciation	
Cost of investments	\$1,058,059,720

7. FAIR VALUE MEASUREMENTS

The Fund adopted Financial Accounting Standards Board (FASB) Statement No. 157, "Fair Value Measurement" (SFAS 157), on September 1, 2008. SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Fund has determined that the implementation of SFAS 157 did not have a material impact on the Fund's financial statements.

Quarterly Statement of Investments | 15

Templeton Global Income Fund

NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED) (CONTINUED)

7. FAIR VALUE MEASUREMENTS (CONTINUED)

SFAS 157 establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speed, credit risk,
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of May 31, 2009, in valuing the Fund's assets and liabilities carried at fair value:

	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
ASSETS:				
Investments in Securities	\$12,027,110	\$1,089,775,466	\$	\$1,101,802,576
Other Financial Instruments(a)		51,753,392		51,753,392
LIABILITIES:				
Other Financial Instruments(a)		42,736,078		42,736,078

(a) Other financial instruments include net unrealized appreciation

(depreciation) on forward exchange contracts and swaps.

8. NEW ACCOUNTING PRONOUNCEMENTS

In April 2009, FASB issued FASB Staff Position FSP FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" (FSP FAS 157-4), which provides additional guidance when the volume and level of activity for the asset or liability measured at fair value have significantly decreased. Additionally, FSP FAS 157-4 amends SFAS 157, expanding disclosure requirements by reporting entities surrounding the major categories of assets and liabilities carried at fair value. FSP FAS 157-4 is effective for interim and annual periods ending after June 15, 2009. The Fund believes applying FSP FAS 157-4 will not have a material impact on its financial statements.

In May 2009, FASB issued Statement No. 165, "Subsequent Events", which is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before the statements are issued or are available to be issued. FASB 165 is effective for interim or annual financial periods ending after June 15, 2009, the adoption of FASB 165 will not have a material impact on its financial statements.

ITEM 2. CONTROLS AND PROCEDURES.

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Quarterly Schedule of Portfolio Holdings on Form N-Q, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Quarterly Schedule of Portfolio Holdings on Form N-Q.

ITEM 3. EXHIBITS.

(a) Certification pursuant to Section 30a-2 under the Investment Company Act of 1940 of Laura F. Fergerson, Chief Executive Officer - Finance and Administration, and Mark H. Otani, Chief Financial Officer and Chief Accounting Officer.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
