PS Business Parks, Inc. Reports Results for the First Quarter Ended March 31, 2006

Glendale, California PS Business Parks, Inc. (AMEX:PSB) reported operating results for the first quarter ended March 31, 2006.

Net income allocable to common shareholders for the three months ended March 31, 2006 was \$5.1 million or \$0.23 per diluted share on revenues of \$58.9 million compared to \$7.3 million or \$0.33 per diluted share on revenues of \$53.9 million for the same period in 2005.

Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K

Revenues increased \$5.0 million for the three months ended March 31, 2006 as a result of improved occupancy within the Company's portfolio combined with a payment received from a former tenant in connection with a bankruptcy settlement of approximately \$1.8 million. Net income allocable to common shareholders for the three months ended March 31, 2006 decreased over the same period of 2005 by \$2.3 million or \$0.10 per diluted share resulting primarily from a decrease in the gain on disposition of real estate.

Supplemental Measures

Funds from operations (FFO) allocable to common shareholders and unit holders for the three months ended March 31, 2006 and 2005 were \$26.7 million, or \$0.92 per diluted share, and \$25.9 million, or \$0.88 per diluted share, respectively. The increase in FFO was primarily due to the receipt of \$1.8 million from the previously mentioned bankruptcy settlement partially offset by an increase in Same Park operating expenses and the net impact of sold and acquired assets.

Property Operations

In order to evaluate the performance of the Company's overall portfolio over two comparable periods, management analyzes the operating performance of a consistent group of properties owned and operated throughout both periods (herein referred to as Same Park). Operating properties that the Company acquired subsequent to January 1, 2005 are referred to as Other Facilities. For the three months ended March 31, 2006 and 2005, the Same Park portfolio constitutes 17.2 million net rentable square feet, which includes all assets included in continuing operations the Company owned and operated from January 1, 2005 through March 31, 2006, and represents approximately 97% of the weighted average square footage of the Company's portfolio for the three months ended March 31, 2006.

The Company's property operations account for substantially all of the net operating income earned by the Company. The following table presents the operating results of the Company's properties for the three months ended March 31, 2006 in addition to other income and expense items affecting income from continuing operations (unaudited, in thousands, except per square foot amounts):

- (1) Funds From Operations ("FFO") is computed in accordance with the White Paper on FFO approved by the National Association of Real Estate Investment Trusts ("NAREIT"). The White Paper defines FFO as computed in accordance with GAAP, before depreciation, amortization, minority interest in subsidiaries, dispositions and extraordinary items. FFO should be analyzed in conjunction with net income and viewed as a substitute for net income as a measure of operating performance or liquidity and not as a measure of cash flow and amortization costs or the level of capital expenditure and leasing costs necessary to maintain the value of the Company's properties, which are significant economic costs and could materially impact the Company's operations. Other REITs may use different methods for calculating FFO and, accordingly, the Company's FFO is not comparable to other real estate companies.
- (2) Funds available for distribution ("FAD") is computed by deducting from consolidated FFO recurring capital expenditures which the Company defines as those costs incurred to maintain the assets' value, tenant improvements, lease commissions and straight-line rent from FFO and adding stock-based compensation expense, lease incentives, in-place rents adjustment and the impact of EITF Topic D-42. Like FFO, the Company's FAD is a useful measure for investors to evaluate the operations and cash flows of a REIT. FAD is not a measure of cash flow from operations as defined by GAAP.
