FASTER INFORMATION
RECEIVE YOUR
NUVEEN FUND REPORT
ELECTRONICALLY

By registering for electronic delivery, you will receive an e-mail as soon as your Nuveen Fund information is available. Click on the link and you will be taken directly to the report. Your Fund report can be viewed and saved on your computer. Your report will arrive faster via e-mail than by traditional mail.

Registering is easy and only takes a few minutes (see instructions at right).

SOME COMMON CONCERNS:

WILL MY E-MAIL ADDRESS BE DISTRIBUTED TO OTHER COMPANIES?

No, your e-mail address is strictly confidential and will not be used for anything other than notification of shareholder information.

WHAT IF I CHANGE MY MIND AND WANT TO RECEIVE INVESTOR MATERIALS THROUGH REGULAR MAIL DELIVERY AGAIN?

If you decide you do not like receiving your reports electronically, it's a simple process to go back to regular mail delivery.

IF YOUR NUVEEN FUND DIVIDENDS AND STATEMENTS

COME FROM YOUR FINANCIAL ADVISOR OR BROKERAGE ACCOUNT,

FOLLOW THE STEPS OUTLINED BELOW:

- 1 Go to WWW.INVESTORDELIVERY.COM
- 2 Refer to the address sheet that accompanied this report. Enter the personal 13-CHARACTER ENROLLMENT NUMBER imprinted near your name.
- You'll be taken to a page with several options. Select the NEW ENROLLMENT-CREATE screen. Once there, enter your e-mail address (e.g. yourID@providerID.com), and a personal, 4-digit PIN number of your choice. (Pick a number that's easy to remember.)
- 4 Click Submit. Confirm the information you just entered is correct, then click Submit again.
- You should get a confirmation e-mail within 24 hours. If you do not, go back through these steps to make sure all the information is correct.
- 6 Use this same process if you need to change your registration information or cancel internet viewing.

IF YOUR NUVEEN FUND DIVIDENDS AND STATEMENTS

COME DIRECTLY TO YOU FROM NUVEEN,

FOLLOW THE STEPS OUTLINED BELOW:

- 1 Go to WWW.NUVEEN.COM
- Select ACCESS YOUR ACCOUNT. Select the E-REPORT ENROLLMENT section. Click on Enrollment Today.
- 3 You'll be taken to a screen that asks for your Social Security number and e-mail address. Fill in this information, then click Enroll.
- 4 You should get a confirmation e-mail within 24 hours. If you do not, go back through these steps to make sure all the information is correct.
- 5 Use this same process if you need to change your registration information or cancel internet viewing.

Sidebar text: "NO ONE KNOWS WHAT THE FUTURE WILL BRING, WHICH IS WHY WE THINK A WELL-BALANCED PORTFOLIO IS AN IMPORTANT COMPONENT IN ACHIEVING YOUR LONG-TERM FINANCIAL GOALS."

Dear SHAREHOLDER

Once again, I am pleased to report that over the most recent reporting period your Fund continued to provide you with attractive tax-free monthly income and the opportunity for increased portfolio diversification. For more specific information about the performance of your Fund, please see the Portfolio Manager's Comments and Performance Overview sections of this report.

With interest rates at historically low levels, many have begun to wonder whether interest rates will rise, and whether that possibility should cause them to adjust their holdings of fixed-income investments. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an important component in achieving your long-term financial goals. A well-diversified portfolio may actually help to reduce your overall investment risk, and we believe that municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio crafted to perform well through a variety of market conditions.

I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Timothy R. Schwertfeger Chairman of the Board

Nuveen Michigan and Ohio Municipal Closed-End Exchange-Traded Funds (NUM, NMP, NZW, NUO, NXI, NBJ, NVJ)

Portfolio Manager's COMMENTS

Portfolio manager Rick Huber discusses economic and market conditions, key investment strategies and the recent performance of the Funds. With 18 years of investment experience, Rick has managed NUO, NXI, and NBJ since 2001. He added NVJ at its inception in March 2002. Rick assumed portfolio management responsibility for the three Michigan Funds in January 2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE TWELVE-MONTH PERIOD ENDED JULY 31, 2003?

In June 2003, the Federal Reserve cut the fed funds rate to 1.0%, its lowest level since 1958. Also in June, the GDP growth rate for the first quarter of 2003 was revised downward to 1.4%. The preliminary second-quarter growth rate announced in July was 2.4%, which continued to lag the 3% level some economists consider to be indicative of a recovery.

This was just the latest evidence of the two factors that, in our opinion, continued to have the greatest influence on the performance of the U.S. economy and the municipal market over the course of this reporting period - historically low interest rate levels and the sluggish pace of economic growth. In addition, inflation remained dormant through the period, while comments by the Fed kept the topic of potential deflation in the news.

In combination, the slow rate of economic recovery, low interest rates and lack of inflationary pressures created conditions that helped many municipal bonds perform well during much of this reporting period. However, in July 2003 some stronger-than-expected economic data raised the specter of a tighter monetary policy sooner rather than later. This, along with volatility in the mortgage-backed securities market, precipitated a spike in bond yields and a corresponding drop in bond prices that impacted all fixed-income markets. One barometer of the volatility experienced in the bond markets during the month of July was the yield on the benchmark 10-year U.S. Treasury, which jumped approximately 150 basis points from 45-year lows in June to its highest point in more than a year by July 31, 2003.

During the first seven months of 2003, the municipal market followed up the record issuance of 2002 with continued strong supply, issuing \$230 billion in new bonds. This represented an increase of 18% over the same period in 2002. Much of the increase in supply reflected issuance intended to address the fiscal problems facing many states as the result of slow growth, rising costs (especially for healthcare and pensions), and sharp declines in the collection of income and capital gains taxes. Matching the increased supply, demand for municipal bonds also remained strong from both individual and institutional investors, particularly insurance companies.

HOW WERE ECONOMIC AND MARKET CONDITIONS IN MICHIGAN AND OHIO? Because of its heavy dependence on the manufacturing sector, Michigan's recession has been longer and deeper than some other states. Faced with weaker vehicle sales in recent months, the state's auto manufacturers and suppliers continued to struggle to hold onto eroding market shares. Office furniture manufacturing in western Michigan also remained stalled, reflecting the ongoing weakness in commercial construction. Job creation in the state's growing biotech sector provided one of the few bright spots in Michigan's slowly diversifying industrial and economic base. The state recently approved its \$37.9 billion fiscal 2004 budget, closing a gap of nearly \$2 billion through spending cuts, tax increases and the use of federal receipts. Overall, we think Michigan's debt position remained well managed, with a relatively low overall debt burden and fully-funded pension liabilities. While the state's credit rating of Aaa/AAA with Moody's and Standard & Poor's, respectively, remained intact over this reporting period, both agencies are keeping a close eye on the state. As of July 31, 2003, Moody's and Standard & Poor's maintained negative outlooks on the state.

Like neighboring Michigan, Ohio's economy also is heavily reliant on manufacturing, and several of its major industries—autos, machinery and steel—all suffered during the national economic slowdown.

While the state's recovery continued to be delayed by its dependence on manufacturing, Ohio's large wholesale and warehousing industry showed some improvement as businesses began to restock inventories. The state's industrial base continued to diversify, especially in the major metropolitan areas, and the below-average cost of doing business in the state as well as the presence of numerous corporate headquarters helped support a modest level of economic recovery. Despite the depletion of its reserve funds, Ohio ended fiscal 2003 with a small surplus resulting from federal receipts and tax increases enacted earlier in 2003. While we think the state's debt levels are moderate relative to its substantial economic base, pension liabilities were still not fully funded as of July 31, 2003. In the first seven months of 2003, Ohio issued \$5.6 billion in new municipal paper, an increase of 51% over the same period in 2002. The state's \$7.5 billion of general obligation debt continued to be rated Aal/AA+, by Moody's and Standard & Poor's, respectively. In July 2003, S&P revised its outlook to stable from negative, while Moody's maintained a negative outlook.

HOW DID THE FUNDS PERFORM OVER THE TWELVE-MONTHS ENDED JULY 31, 2003?

Individual results for these Funds, as well as for selected benchmarks, are presented in the accompanying table.

	MAR	KET YIELD	TOTAL RETURN ON NAV	LEHMAN TOTAL RETURN1	LIPPER AVERAGE2
	7/31/03	TAXABLE- EQUIVALENT3	1 YEAR ENDED 7/31/03	1 YEAR ENDED 7/31/03	1 YEAR ENDED 7/31/03
NUM	6.06%	8.78%	4.35%	3.60%	4.45%
NMP	6.22%	9.01%	3.71%	3.60%	4.45%
NZW	5.92%	8.58%	5.01%	3.60%	4.45%
NUO	5.88%	8.78%	4.84%	3.60%	4.35%
NXI	6.61%	9.87%	5.09%	3.60%	4.35%
NBJ	6.31%	9.42%	4.74%	3.60%	4.35%
NVJ	6.08%	9.07%	3.81%	3.60%	4.35%

Past performance is not predictive of future results.

For additional information, see the individual Performance Overview for your Fund in this report.

For the twelve months ended July 31, 2003, all of the Funds in this report outperformed the national, unleveraged Lehman Brothers Municipal Bond Index. One of the factors that benefited the performance of these Funds in comparison with the Lehman index was their use of leverage, a strategy that can provide the opportunity for additional income for common shareholders, especially during periods of low short-term interest rates. Income is an important component of total return for any bond investment, and additional income can lead to enhanced total returns. In general over this period, most of the Funds were also helped by their relatively longer durations.4 During periods of declining interest rates, such as that we experienced over most of the twelve-month period, investments with longer durations generally would be expected to perform better than those with shorter durations, all other factors being equal. As of July 31, 2003, the durations of these Funds ranged from 8.77 for NMP to 15.05 for NZW, compared with 8.17 for the Lehman index.

In addition to leverage and duration, factors such as call exposure, portfolio trading activity and the price movement of specific sectors and holdings also had an impact on the Funds' performances. For example, NMP had a large position in bonds with short call provisions, which contributed to its modest underperformance relative to the other funds over this reporting period. NMP also held \$1 million (par value) in bonds issued by the Puerto Rico Ports Authority and backed by American Airlines. Over the past year, the market value of most airline-backed bonds fell, due in part to a decline in passenger volume and in part to the well-documented financial struggles of many carriers. The depreciation of these bonds over the reporting period had a negative impact on NMP's total return. In addition, both NMP and NUM held small positions in bonds issued for Detroit Medical Center, the largest healthcare provider in the Detroit metropolitan area. These securities underperformed the market during the last months of the reporting period, reflecting operating

- 1 The total annual returns on common share net asset value (NAV) for these Nuveen Funds are compared with the total annual return of the Lehman Brothers Municipal Bond Index, an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The total returns of the Nuveen Michigan Funds are compared with the average annualized return of the 6 funds in the Lipper Michigan Municipal Debt Funds category, while the total returns of the Nuveen Ohio Funds are compared with the average annualized return of the 36 funds in the Lipper Other States Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends. It should be noted that the performance of the Lipper Other States category represents the overall average of annual returns for funds from 10 different states with a wide variety of economic and municipal market conditions and investment guidelines, making direct comparisons less applicable.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 28% plus the applicable state income tax rate. The combined federal and state tax rates used in this report are as follows: Michigan 31% and Ohio 33%.
- 4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. References to duration in this commentary are intended to indicate Fund duration unless otherwise noted.

3

losses at two of the Center's nine hospitals. New management, as well as a public task force, is currently examining ways to deal with future funding, including public subsidies.

Among the Ohio Funds, the performance of NVJ, which was assembled in the lower interest rate environment of March 2002, was affected by the relatively higher number of lower-yielding securities in its portfolio. As mentioned earlier, income plays an important part in a bond fund's total return. In addition, this Fund held a higher percentage of tobacco-backed bonds relative to the other three Ohio Funds, which cost NVJ approximately 30 basis points in performance

over this reporting period.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES? As noted earlier, with short-term interest rates at historically low levels, the dividend-paying capabilities of these Funds benefited from their use of leverage. The amount of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. Low short-term rates can enable the Funds to reduce the amount of income paid to MuniPreferred shareholders, which can potentially leave more earnings to support common share dividends.

During the twelve months ended July 31, 2003, the continued low level of short-term interest rates enabled us to implement three dividend increases in NMP, NZW, NUO, NXI and NBJ and two in NUM. As of July 2003, NVJ--the newest Fund in this report--had paid shareholders stable, attractive dividends for 15 consecutive months.

Although the share prices and net asset values of these Funds performed well during much of this reporting period, the increased volatility that led to an overall weakening of bond prices during July 2003 resulted in share prices and NAVs that were generally lower on July 31, 2003, than they were one year earlier. NZW was the only Fund to end the period with a higher share price. As of July 31, 2003, NUM, NZW and NUO were trading at premiums to their common share NAVs, while NXI, NBJ and NVJ had moved to trading at slight discounts, and NMP continued to trade at a small discount (see charts on individual Performance Overview pages).

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE TWELVE-MONTHS ENDED JULY 31, 2003?

Over this reporting period, we continued to place strong emphasis on diversifying the portfolios, improving call protection and enhancing each Fund's dividend-paying capabilities. Strategically, our main focus centered on systematically controlling the Funds' durations, which we believed would enhance our ability to mitigate the Funds' interest rate risk and produce more consistent returns over time. Interest rate risk is the risk that the value of a Fund's portfolio will decline when market interest rates rise (since bond prices move in the opposite direction of interest rates). The longer the duration of a Fund's portfolio, the greater its interest rate risk.

In line with our duration strategy, we concentrated on finding value in the intermediate part of the yield curve (i.e., bonds that mature in 15 to 20 years), particularly for the newer Funds with generally longer durations. In many cases, bonds in this part of the curve offered yields similar to those of longer-term bonds but, in our opinion, had less inherent interest rate risk. In some of the older Funds (NUM, NMP and NUO), the need to replace shorter duration bonds that were called from the portfolios with current bonds having longer durations served to extend the Funds' durations slightly over this period.

4

In general, the relatively heavy issuances in the Michigan and Ohio municipal markets over the period increased our trading opportunities. In both markets, we continued to look for bonds that we believed had the potential to perform relatively well regardless of the future direction of interest rates. We also watched for opportunities to take losses on selected securities in order to offset the generation of capital gains. Over the twelve-month period, the Michigan and Ohio Funds generally had significant holdings of healthcare and water and sewer bonds, which were among the top performing Lehman revenue sectors for this reporting period. In Ohio, specifically, we participated in a number of larger issues, including those for City of Cincinnati Water System.

As of July 31, 2003, each of the Michigan and Ohio Funds, except for NZW, also had small positions in bonds backed by the 1998 master tobacco settlement agreement. In recent months, the prices of these bonds weakened as the result of lawsuits involving the major tobacco companies as well as the increased issuance of such bonds by states planning to use the proceeds to help close budget gaps. Although the sector as a whole produced negative returns over the twelve months ended July 31, 2003, tobacco-backed bonds showed some recovery toward the end of the period. As of the end of this reporting period, our strategy was to maintain our tobacco holdings while we continued to regularly evaluate the situation.

Given the current geopolitical and economic climate, we believed that maintaining strong credit quality remained a vital requirement. As of July 31, 2003, the Michigan and Ohio Funds all offered excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 64% to 86%. In general, our weightings in insured and AAA bonds benefited the performance of these Funds during the past year.

WHAT IS YOUR OUTLOOK FOR THESE FUNDS?

We continue to believe that the U.S. economy is slowly headed for a recovery. We also think that inflation and interest rates will remain relatively low over the near term. However, an eventual rise in interest rates remains a distinct risk, and we plan to keep a careful watch on the Funds' durations and holdings in order to be as well positioned as possible if and when this happens.

All of these Funds, with the exception of NMP, offer good levels of call protection, with potential call exposure ranging from zero in NZW and NVJ to 14% in NUO through the end of 2004. During this recently completed reporting period, we worked to mitigate the call risk of the three older Funds, especially NMP. As of July 31, 2003, NMP's potential call exposure through 2003 and 2004 was 18%, down from 26% one year earlier. The number of actual calls in all of these Funds will depend largely on market interest rates in coming months.

Looking ahead, we will continue to manage the Funds' durations and seek to enhance their income-generating capabilities. We also plan to continue closely monitoring the budgetary situations in both states. We believe that these Nuveen Funds remain attractive sources of tax-free income, and continue to offer the potential for considerable portfolio diversification.

¹ Taxable-equivalent yield represents the yield on a taxable investment necessary to equal the yield of the Nuveen Fund on an after-tax basis. It is calculated using the current market yield and a federal income tax rate of 28%. The rate shown for federal and state highlights the added value of owning shares that are also exempt from state income taxes. It is based on a combined

federal and state income tax rate of 31%.

2 The Fund also paid shareholders a capital gains distribution in December 2002 of \$0.1030 per share.

- 1 Taxable-equivalent yield represents the yield on a taxable investment necessary to equal the yield of the Nuveen Fund on an after-tax basis. It is calculated using the current market yield and a federal income tax rate of 28%. The rate shown for federal and state highlights the added value of owning shares that are also exempt from state income taxes. It is based on a combined federal and state income tax rate of 33%.
- 2 The Fund also paid shareholders capital gains and net ordinary income distributions in December 2002 of \$0.0563 per share.

Report of INDEPENDENT AUDITORS

THE BOARDS OF DIRECTORS, TRUSTEES AND SHAREHOLDERS NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND, INC. NUVEEN MICHIGAN PREMIUM INCOME MUNICIPAL FUND, INC. NUVEEN MICHIGAN DIVIDEND ADVANTAGE MUNICIPAL FUND NUVEEN OHIO QUALITY INCOME MUNICIPAL FUND, INC. NUVEEN OHIO DIVIDEND ADVANTAGE MUNICIPAL FUND NUVEEN OHIO DIVIDEND ADVANTAGE MUNICIPAL FUND 2 NUVEEN OHIO DIVIDEND ADVANTAGE MUNICIPAL FUND 3

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Michigan Quality Income Municipal Fund, Inc., Nuveen Michigan Premium Income Municipal Fund, Inc., Nuveen Michigan Dividend Advantage Municipal Fund, Nuveen Ohio Quality Income Municipal Fund, Inc., Nuveen Ohio Dividend Advantage Municipal Fund, Nuveen Ohio Dividend Advantage Municipal Fund 2 and Nuveen Ohio Dividend Advantage Municipal Fund 3 as of July 31, 2003, and the related statements of operations, changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of investments owned as of July 31, 2003, by correspondence with

the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Michigan Quality Income Municipal Fund, Inc., Nuveen Michigan Premium Income Municipal Fund, Inc., Nuveen Michigan Dividend Advantage Municipal Fund, Nuveen Ohio Quality Income Municipal Fund, Inc., Nuveen Ohio Dividend Advantage Municipal Fund, Nuveen Ohio Dividend Advantage Municipal Fund 2 and Nuveen Ohio Dividend Advantage Municipal Fund 3 at July 31, 2003, and the results of their operations, changes in their net assets and the financial highlights for the periods indicated therein in conformity with accounting principles generally accepted in the United States.

Preferred Shares, at Liquidation Value - (53.4)%

Net Assets Applicable to Common Shares - 100%

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares.
- * Optional Call Provisions (not covered by the report of independent auditors): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.
- ** Ratings (not covered by the report of independent auditors): Using the higher of Standard & Poor's or Moody's rating.
- *** Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.

N/R Investment is not rated.

Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Michigan Quality Income Municipal Fund, Inc. (NUM), Nuveen Michigan Premium Income Municipal Fund, Inc. (NMP), Nuveen Michigan Dividend Advantage Municipal Fund (NZW), Nuveen Ohio Quality Income Municipal Fund, Inc. (NUO), Nuveen Ohio Dividend Advantage Municipal Fund (NXI), Nuveen Ohio Dividend Advantage Municipal Fund 2 (NBJ), and Nuveen Ohio Dividend Advantage Municipal Fund 3 (NVJ). Common shares of Michigan Quality Income (NUM), Michigan Premium Income (NMP), and Ohio Quality Income (NUO) are traded on the New York Stock Exchange while Common shares of Michigan Dividend Advantage (NZW), Ohio Dividend Advantage (NXI), Ohio Dividend Advantage 2 (NBJ), and Ohio Dividend Advantage 3 (NVJ) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Prior to the commencement of operations of Michigan Dividend Advantage (NZW), Ohio Dividend Advantage 2 (NBJ), and Ohio Dividend Advantage 3 (NVJ), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 per Fund by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc.(formerly, The John Nuveen Company), and the recording of the organization expenses (\$11,500 per Fund) and their reimbursement by Nuveen Investments, LLC(formerly, Nuveen Investments), also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided

by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At July 31, 2003, there were no such outstanding purchase commitments in any of the Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

47

Notes to FINANCIAL STATEMENTS (continued)

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its share holders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended July 31, 2003, have been designated Exempt Interest Dividends.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in

accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

			MICHIGAN PREMIUM INCOME (NMP)	DIVIDEND ADVANTAGE
Number of shares: Series M Series W Series TH Series F		 3,200 560	840 1,400	 640
Total		3 , 760	2,240	640
	QUALITY	OHIO DIVIDEND ADVANTAGE	DIVIDEND	DIVIDEND
	(NUO)	(NXI)	(NBJ)	
Number of shares: Series M	680			
Series T Series W		 1,240	 	660
Series TH Series TH2 Series F	1,400 1,000		 960	
Total	3 080	1,240	960 960	 660
10041	5,000	1,240	900	000

48

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap, and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the fiscal year ended July 31, 2003.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments, LLC has agreed to pay all common share offering costs (other than the sales load) that exceed \$.03 per Common share for Michigan Dividend Advantage (NZW), Ohio Dividend Advantage 2 (NBJ), and Ohio Dividend Advantage 3 (NVJ). Michigan Dividend Advantage's (NZW), Ohio Dividend Advantage 2's (NBJ), and Ohio Dividend Advantage 3's (NVJ) share of common share offering costs (\$61,530, \$93,150, and \$64,500, respectively) were recorded as a reduction of the proceeds from the sale of common shares.

Costs incurred by Michigan Dividend Advantage (NZW), Ohio Dividend Advantage 2 (NBJ), and Ohio Dividend Advantage 3 (NVJ) in connection with their offering of Preferred shares (\$275,343, \$362,543, and \$293,107, respectively) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At July 31, 2003, the cost of investments were as follows:

		QUALITY INCOME (NUM)	PREMIUM INCOME (NMP)	
Cost of investments		\$255,523,287	\$163,593,571	
	OHIO	OHIO	OHIO

^{*} Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

52

At July 31, 2003, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

MICHIGAN OHIO
DIVIDEND DIVIDEND
ADVANTAGE ADVANTAGE 2

	(NZW)	(NBJ)
Expiration year:		
2011	\$135,162	\$21,436
Total	\$135 , 162	\$21,436
	·	

Ohio Dividend Advantage 2 (NBJ) has elected to defer net realized losses from investments incurred from November 1, 2002 through July 31, 2003 ("post-October losses") in accordance with Federal income tax regulations. Ohio Dividend Advantage 2 (NBJ) has \$10,421 of post-October losses that are treated as having arisen in the following fiscal year.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under Michigan Quality Income's (NUM), Michigan Premium Income's (NMP), and Ohio Quality Income's (NUO) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE	DAILY	NET	ASSETS	(INCLUDING	NET	ASSETS
ATTRIBUT	rable '	TOPRI	EFERRED	SHARES)		

MANAGEMENT	FEE

For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For the next \$3 billion	.5875
For net assets over \$5 billion	.5750

Under Michigan Dividend Advantage's (NZW), Ohio Dividend Advantage's (NXI), Ohio Dividend Advantage 2's (NBJ), and Ohio Dividend Advantage 3's (NVJ) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE	DAILY	NET	ASSETS	(INCLUDING	NET	ASSETS

ATTRIBUTABLE TOPREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For net assets over \$2 billion	.5750

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser.

Notes to FINANCIAL STATEMENTS (continued)

For the first ten years of Ohio Dividend Advantage's (NXI) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts, and for the time periods set forth below:

YEAR ENDING MARCH 31,		YEAR ENDING MARCH 31,	
2001*	.30%		.25%
2002	.30	2008	.20

Build Your Wealth AUTOMATICALLY

SIDEBAR TEXT: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name

of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

POLICY CHANGE

On November 14, 2002, the Board adopted a policy that allows these Funds, in addition to investments in municipal bonds, to invest up to 5% of its net assets (including assets attributable to preferred shares, if any) in tax-exempt or taxable fixed-income securities or equity securities for the purpose of acquiring control of an issuer whose municipal bonds (a) the Fund already owns and (b) have deteriorated or are expected shortly to deteriorate significantly in credit quality, provided Nuveen Advisory determines that such investment should enable the Fund to better maximize the value of its existing investment in such issuer. This policy is a non-fundamental policy of each Fund which means that it can be changed at any time by the Board of Trustees without vote of the shareholders.

GLOSSARY OF TERMS USED IN THIS REPORT

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

Average Effective Maturity: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

Leverage-Adjusted Duration: Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Taxable-Equivalent Yield: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the fiscal year ended July 31, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.

Serving Investors FOR GENERATIONS

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions. For the past century, Nuveen Investments has adhered to the belief that the best approach to investing is to apply conservative risk-management principles to help minimize volatility.

Building on this tradition, we today offer a range of high quality equity and fixed-income solutions that are integral to a well-diversified core portfolio. Our clients have come to appreciate this diversity, as well as our continued adherence to proven, long-term investing principles.

Managing \$80 billion in assets, Nuveen Investments offers access to a number of different asset classes and investing solutions through a variety of products. Nuveen Investments markets its capabilities under four distinct brands: Nuveen, a leader in tax-free investments; NWQ, a leader in value-style equities; Rittenhouse, a leader in growth-style equities; and Symphony, a leading institutional manager of market-neutral alternative investment portfolios.

To learn more about the products and services Nuveen Investments offers and for a prospectus, where applicable, talk to your financial advisor, or call us at (800) 257-8787. Please read the information carefully before you invest.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at www.nuveen.com/etf.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors has determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its audit committee. The registrant's audit committee financial expert is William E. Bennett, who is "independent" for purposes of Item 3 of Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable at this time.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable at this time.

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, Nuveen Advisory Corp. (the "Adviser") would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the

consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 206(4)-6, reports were filed with the SEC on Form N-PX, and the results provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. [RESERVED]

ITEM 9. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 10. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because posted on registrant's website.
- (a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certification required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
