Chairman's
LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the twelve-month period covered by
this annual report your Fund continued to provide you with monthly tax-free
income. For more details about the management strategy and performance of your
Fund, please see the Portfolio Managers' Comments and Performance Overview
sections of this report.

As I noted in my last letter to you, our conversations with financial advisors
and investors suggest that many of you may be wondering whether longer-term
interest rates will soon begin to rise substantially, mirroring the rise that
has taken place in shorter-term rates. If longer-term rates do begin to rise
significantly, some of you also may be wondering if that makes this a good time
to adjust your holdings of fixed-income investments. We can't answer these
questions for you - no one knows what the future will bring.

"IN FACT, A WELL-DIVERSIFIED PORTFOLIO MAY ACTUALLY HELP TO REDUCE YOUR OVERALL
INVESTMENT RISK."

From our experience, we do know that a well-balanced portfolio, structured and
carefully monitored with the help of a trusted investment professional, can be
an important component in helping you achieve your long-term financial goals. In
fact, a well-diversified portfolio may actually help to reduce your overall
investment risk. That is one reason why we believe that a municipal bond
investment like your Nuveen Fund can be an important building block in a
comprehensive investment program designed to perform well in a variety of market
conditions.

As in past reports, I urge you to consider receiving future Fund reports and
other Fund information by e-mail and the Internet. Not only will you be able to
receive the information faster, but this also may help lower your Fund's
expenses. Sign up is quick and easy - see the inside front cover of this report
for instructions.

Some of you may have heard that in April, 2005, The St. Paul Travelers
Companies, Inc., which had owned 79% of Nuveen Investments, Inc. (the parent of
your Fund's investment adviser) completed a public offering of a substantial
portion of its equity stake in Nuveen. At the same time, St. Paul Travelers also

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

entered into agreements to sell the balance of its shares in Nuveen to us or to others at a future date.

These transactions will have no impact on the investment objectives or management of your Fund. However, taken as a whole they are considered to be an "assignment" of your Fund's investment management agreement. This means that you and your fellow Fund shareholders soon will be asked to formally approve the continuation of your Fund's management contract with Nuveen. We will be sending you more information about this process in the coming weeks.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Portfolio Managers'
COMMENTS

Portfolio managers Tom Spalding, Scott Romans and Paul Brennan review the market environment, key investment strategies and the annual performance of these Nuveen Select Portfolios. With 30 years of investment experience, Tom has managed the three national Portfolios since 1999. Scott, who joined Nuveen in 2000, and Paul, who has 14 years of investment experience, have managed NXC and NXN, respectively, since 2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE 12-MONTH REPORTING PERIOD ENDED MARCH 31, 2005?

During this 12-month period, the Federal Reserve implemented seven quarter-point increases in the fed funds rate, beginning on June 30, 2004, and continuing through March 22, 2005. These increases, which were intended to control economic growth and head off significant growth in the rate of inflation, raised the short-term target to 2.75% from 1.00%. (On May 3, 2005, after the close of this reporting period, the fed funds rate was raised to 3.00%.) Ironically, while short-term rates rose over the period, yields on the Bond Buyer 25 index, a widely followed measure of long-term municipal bond interest rates, fell by more than 30 basis points. As a result, we saw a flattening of the municipal yield curve over the course of the 12 months.

After growing at an annualized rate of 3.3% in the second quarter of 2004, the gross domestic product (GDP) expanded by 4.0% (annualized) in the third quarter of 2004 and 3.8% (annualized) in the fourth quarter of 2004. However, expectations for higher interest rates and higher energy prices acted to restrain both consumer spending and business investment in the first three

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

months of 2005. GDP growth for the first quarter moderated to 3.1% (annualized), its slowest pace in two years.

Rising energy costs also served to reignite concerns about the potential for inflation, as the Consumer Price Index (CPI) rose at a rate of 4.3% (annualized) over the first three months of 2005. In addition to the CPI, the municipal market also continued to closely monitor the national employment picture. While the unemployment rate dropped to 5.2% in March 2005, from 5.7% in March 2004, job growth in 2005 lagged that of 2004.

Over the 12-month period, municipal supply nationwide remained strong, as \$369.7 billion in new bonds came to market. New issue supply for the first quarter of 2005 was \$96.6 billion, a new record for the first three months on any calendar year. First quarter 2005 refundings increased 25% over the first quarter 2004 as issuers sought to take advantage of the prevalent interest rates.

HOW ABOUT ECONOMIC AND MARKET CONDITIONS IN CALIFORNIA AND NEW YORK DURING THIS PERIOD?

California continued its steady economic recovery, outperforming a number of national averages over the 12-month period. Leading areas of job growth within the state included professional and business services, construction and trade, transportation, and utilities. California also benefited from expanding international trade, particularly with Asia. The jobless rate dropped to 5.4% in March 2005, compared with 6.4% in March 2004. This 5.4% rate is the lowest level since July 2001.

During this period, California made significant progress toward resolving cash flow problems and improving balance sheet liquidity following the March 2004 passage of Proposition 57, which enabled the state to issue a total of \$11 billion in economic recovery bonds (ERBs). The combination of economic and budgetary improvements led all three major credit rating agencies to upgrade the state's outstanding general obligation debt. In May 2004, Moody's revised its rating of California general obligation bonds (GOs) to A3 from Baal, followed by Standard & Poor's upgrade to A from BBB in August. In September, Fitch moved its rating for California GOs to A- from BBB. During this reporting period, California issuers offered \$56.9 billion in new municipal bonds, up 9% from the previous 12-month period. In July 2004, California enacted a \$105 billion fiscal 2005 budget, closing a \$14 billion gap without tax increases.

In New York, the economy continued to be led by financial services, healthcare and education. Although well diversified, the recovery of the state economy has proceeded more slowly than many national averages. However, employment growth was an exception, as New York's jobless rate dropped to 4.6% in March 2005 from 6.1% in March 2004. This is the lowest state unemployment rate since June 2001. As of March 31, 2005, the state was forecast to have a fiscal 2005 ending surplus of \$1.2 billion, driven primarily by higher revenues from personal income taxes.

During this 12-month reporting period, New York issuers brought \$39.6 billion in new municipal bonds to market, down 9% from the prior 12 months. In November 2004, Moody's upgraded the credit rating on New York State GOs to A1 from A2, based on the state's improving economic outlook. That rating was reconfirmed in February 2005, as was S&P's AA rating. On April 4, 2005, following the end of this reporting period,

Moody's upgraded its rating of New York City GOs to A1 from A2, the highest rating ever given to the city by Moody's.

WHAT KEY STRATEGIES WERE USED TO MANAGE THE NUVEEN SELECT PORTFOLIOS DURING THE 12 MONTHS ENDED MARCH 31, 2005?

With the market anticipating increases in interest rates throughout the period, our focus centered on finding bonds that, in our judgment, could add immediate value to the Portfolios and that also had the potential to perform well under a variety of future market scenarios.

We believed the national Portfolios--NXP, NXQ and NXR--were generally well positioned coming into this reporting period, and as a result turnover was relatively light during these 12 months. When we needed to reinvest proceeds from called bonds, we tended to look for insured or AA or A rated bonds in the 25-year part of the yield curve. We also looked for opportunities to add to our healthcare holdings, based on this sector's continued strong performance and potential for additional yield. While we continued to keep the Portfolios well diversified geographically, we often looked to the states with greater issuance--such as California, Texas, New York, Florida and Illinois--to find these opportunities.

In both NXC and NXN, we actively sought lower-rated investment-grade bonds as we continued to transition these two Portfolios from their previous status as 100% insured Portfolios. This helped the performance of these Portfolios during this reporting period, as BBB rated bonds were among the best performers during this period. In general, additions to the Portfolios during this time were financed with the proceeds from called bonds and the sale of pre-refunded bonds and bonds with shorter maturities, which tended to underperform in the interest rate environment of the 12-month period.

In NXC, another goal during this period was to improve overall call exposure. We sought to do this by focusing most of our purchases and reinvestment activity in the 20-year part of the yield curve.

During the period for NXN, we began to place greater emphasis on bonds further out on the yield curve, specifically those with 20 years or more to maturity. In our opinion, these bonds generally offered more attractive opportunities and better value. While we

continued to diversify the credit quality of NXN, issuance in New York was dominated by high-quality and insured issues and did not provide many opportunities to add lower-rated investment-grade bonds to this Portfolio.

funds; and 10 years, 16 funds; and Lipper New York category, 1 year, 22 funds; 5 years, 11 funds; and 10 years, 9 funds. Portfolio and Lipper returns assume reinvestment of dividends.

7

For the 12 months ended March 31, 2005, the total returns on net asset value (NAV) for all five Select Portfolios outperformed the returns on the respective Lehman Brothers indexes. All five Portfolios underperformed their Lipper fund group averages for this period. The strong performance of the CA and NY state peer groups is at least partly explained by the fact that the vast majority of funds in these peer groups were leveraged, which tended to significantly boost those funds' performance due to historically low short-term interest rates they paid over this period on their leveraging instruments.

As the municipal yield curve flattened during this reporting period, the prices of bonds with longer maturities, which are more sensitive to interest rate movements, generally tended to perform better than those of securities with shorter maturities. Our trading activity over the past 12 months, which emphasized investments in the intermediate and long intermediate parts of the yield curve as bonds with shorter maturities were called or sold from the Portfolios, helped the performances of all five Portfolios for the period relative to the Lehman indexes.

All of the Portfolios also benefited from their allocations of lower investment-grade quality bonds during this period, with bonds rated BBB ranking among the best performing credit quality sectors as the demand for these bonds increased. Among the lower-rated holdings making positive contributions to the Portfolios' annual returns were hospital bonds. This sector ranked among the top Lehman Brothers index municipal revenue sectors in terms of performance for the 12-month period. Bonds backed by the 1998 master tobacco settlement agreement also produced solid performance during this period, as the litigation environment improved and the supply/demand situation drove tobacco bond prices higher. As of March 31, 2005, the three national Portfolios maintained exposures between 4% and 5% to tobacco bonds that were uninsured or not backed by others sources of revenue, while NXC and NXN each held approximately 2% of these types of securities.

NXC's holdings of California general obligation bonds and other securities benefited from the upgrade in the state's credit rating, as the prices on these bonds rose relative to national AAA credits with similar maturities. NXC also continued to hold some older, high-coupon bonds that performed very strongly during this period.

8

The performance of NXN was boosted by several advance refundings of its holdings during this period, which resulted in price appreciation as well as enhanced credit quality for this Portfolio. At the same time, holdings of older pre-refunded bonds in all of the Portfolios tended to underperform the general municipal market during this period, due primarily to the shorter effective maturities of these bonds.

HOW WERE THE PORTFOLIOS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF MARCH 31, 2005?

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

We continued to believe that, given the current geopolitical and economic climate, maintaining strong credit quality was an important requirement. As of March 31, 2005, these five Portfolios continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 64% in NXC to 73% in NXR, 76% in NXP, 81% in NXQ and 91% in NXN.

As of March 31, 2005, potential call exposure for these Portfolios for the period April 2005 through the end of 2006 ranged from 2% in NXN to 8% in NXP, 10% in NXC, 12% in NXR and 17% in NXQ. The number of actual bond calls in all of these Portfolios depends largely on future market interest rates.

9

Dividend and Share Price INFORMATION

As short-term interest rates remained relatively low throughout this reporting period, proceeds from calls or maturing higher-yielding bonds had to be reinvested in the current lower interest rate environment. This led to one dividend cut in NXC and NXN and two reductions in NXP, NXQ and NXR during the 12-month period.

Due to capital gains generated by normal portfolio activity, shareholders of the following Portfolios received capital gains and/or net ordinary income distributions at the end of December 2004 as indicated:

	LONG-TERM CAPITAL GAINS (PER SHARE)	ORDINARY INCOME (PER SHARE)
NXP	\$0.0979	\$ 0.0044
NXQ	\$0.0413	\$ --
NXR	\$0.0343	\$ 0.0023
NXC	\$0.0468	\$ --
NXN	\$0.0640	\$ --

All of these Portfolios seek to pay stable dividends at rates that reflect each Portfolio's past results and projected future performance. During certain periods, each Portfolio may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Portfolio during the period. If a Portfolio has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Portfolio's NAV. Conversely, if a Portfolio has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Portfolio's NAV. Each Portfolio will, over time, pay all of its net investment income as dividends to shareholders. As of March 31, 2005, all of the Select Portfolios had negative UNII balances for financial statement purposes and positive UNII balances for tax purposes.

We have audited the accompanying statements of assets and liabilities of Nuveen Select Tax-Free Income Portfolio, Nuveen Select Tax-Free Income Portfolio 2, Nuveen Select Tax-Free Income Portfolio 3, Nuveen California Select Tax-Free Income Portfolio, and Nuveen New York Select Tax-Free Income Portfolio (the Funds), including the portfolios of investments, as of March 31, 2005, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2005, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of the Nuveen Select Tax-Free Income Portfolio, Nuveen Select Tax-Free Income Portfolio 2, Nuveen Select Tax-Free Income Portfolio 3, Nuveen California Select Tax-Free Income Portfolio, and Nuveen New York Select Tax-Free Income Portfolio at March 31, 2005, and the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding New York Stock Exchange symbols are Nuveen Select Tax-Free Income Portfolio (NXP), Nuveen Select Tax-Free Income Portfolio 2 (NXQ), Nuveen Select Tax-Free Income Portfolio 3 (NXR), Nuveen California Select Tax-Free Income Portfolio (NXC) and Nuveen New York Select Tax-Free Income Portfolio (NXN). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide stable dividends consistent with the preservation of capital, exempt from regular federal and designated state income taxes, where applicable, by investing primarily in a diversified portfolio of municipal obligations.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service or, in the absence of a pricing service for a particular security, the Board of Trustees of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from securities dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustees' designee. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At March 31, 2005, Select Tax-Free (NXP), Select Tax-Free 2 (NXQ), Select Tax-Free 3 (NXR) and California Select Tax-Free (NXC) had outstanding when-issued and delayed delivery purchase commitments of \$783,563, \$2,955,928, \$2,172,366 and \$2,688,374, respectively. There were no such outstanding purchase commitments in New York Select Tax-Free (NXN).

44

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, where applicable, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended March 31, 2005, have been designated Exempt Interest Dividends. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Dividends and Distributions to Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Derivative Financial Instruments

The Funds are not authorized to invest in derivative financial instruments.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

FINANCIAL STATEMENTS (continued)

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Effective January 1, 2005, Nuveen Institutional Advisory Corp. ("NIAC"), the Funds' previous Adviser, and its affiliate, Nuveen Advisory Corp. ("NAC"), were merged into Nuveen Asset Management ("NAM"), each wholly owned subsidiaries of Nuveen Investments, Inc. ("Nuveen"). As a result of the merger, NAM is now the Adviser to all funds previously advised by either NIAC or NAC.

As approved by the Board of Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by the Adviser, or its predecessor and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As of April 30, 2005, the complex-level fee rate was .1915%; that is, the funds' effective management fees were reduced by

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

approximately .0085%.

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily net assets of each Fund as follows:

AVERAGE DAILY NET ASSETS	SELECT TAX-FREE (NXP) FUND-LEVEL FEE RATE	SELECT TAX-FREE 2 (NXQ) SELECT TAX-FREE 3 (NXR) CALIFORNIA SELECT TAX-FREE (NXC) NEW YORK SELECT TAX-FREE (NXN) FUND-LEVEL FEE RATE

For the next \$250 million	.0250	.0750
For the next \$500 million	.0125	.0625

48

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

Each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets of each Fund as follows:

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

AVERAGE DAILY NET ASSETS	SELECT TAX-FREE (NXP)	SELECT TAX-FREE 2 (NXQ)	SELECT TAX-FREE 3 (NXR)	CALIFORNIA SELECT TAX-FREE (NXC)	NEW YORK SELECT TAX-FREE (NXN)

For the next \$125 million	.2375				.2875
For the next \$250 million	.2250				.2750
For the next \$500 million	.2125				.2625
For the next \$1 billion	.2000				.2500
For net assets over \$2 billion	.1875				.2375

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

FINANCIAL STATEMENTS (continued)

6. ANNOUNCEMENT REGARDING PARENT COMPANY OF ADVISER

In early April 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers"), which owned 79% of Nuveen, (A) completed a public offering of a substantial portion of its equity stake in Nuveen, (B) sold Nuveen \$200 million of its Nuveen shares, (C) entered into an agreement with Nuveen to sell an additional \$400 million of its Nuveen shares on a "forward" basis with payment for and settlement of these shares delayed for several months, and (D) entered into agreements with two unaffiliated investment banking firms to sell an amount equal to most or all of its remaining Nuveen shares for current payment but for future settlement. The settlement of transactions (C) and (D) above would likely be deemed an "assignment" (as defined in the 1940 Act) of the investment management agreements between the Funds and NAM, which would result in the automatic termination of each agreement under the 1940 Act. The Board of Trustees will consider approval of new ongoing investment management agreements for each Fund and the submission of those agreements for approval by each respective Fund's shareholders. Those agreements, if approved by a Fund's shareholders, would take effect upon such approval. There can be no assurance that these approvals will be obtained.

7. SUBSEQUENT EVENT

Reinvest Automatically
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS
DIVIDEND REINVESTMENT PLAN

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

MODIFIED DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change.

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/etf. Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Select Tax-Free Income Portfolio 2

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans and William J. Schneider.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Schedule I in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Edgar Filing: NUVEEN SELECT TAX FREE INCOME PORTFOLIO 2 - Form N-CSR

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.
