Fair Value Measurements

In determining the fair value of the Fund's investments, various inputs are used. These inputs are summarized in the three broad levels listed below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the Fund's fair value measurements as of January 31, 2011:

	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$—	\$382,219,186	\$6,362,099	\$388,581,285

Total	\$—	\$381,789,572	\$6,362,099	\$388,151,671

The following is a reconciliation of the Fund's Level 3 investments held at the beginning and end of the measurement period:

Derivative Instruments and Hedging Activities

The Fund records derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Fund's investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

The following table presents the fair value of all derivative instruments held by the Fund as of January 31, 2011, the location of these instruments on the Statement of Assets and Liabilities, and the primary underlying risk exposure.

Underlying Risk Exposure	Derivative Instrument	Location on the Statements of Assets and Liabilities		Value	Value
		Asset Derivatives Location Unrealized	Liability Derivatives Location Unrealized		
Interest Rate	Forward Swaps	appreciation on forward swaps*		\$ —	depreciation on forward swaps* \$429,614

* Represents cumulative appreciation (depreciation) of forward swap contracts as reported in the Portfolio of Investments.

Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset value of the Fund.

At January 31, 2011, the cost of investments (excluding investments in derivatives) was \$419,462,335.

Gross unrealized appreciation and gross unrealized depreciation of investments (excluding investments in derivatives) at January 31, 2011, were as follows:

Gross unrealized:	
Appreciation	\$14,894,181
Depreciation	(63,946,110)
Net unrealized appreciation (depreciation) of investments	\$(49,051,929)
