### INTRODUCTION

Canadian Imperial Bank of Commerce ("CIBC") produces quarterly reports, which are submitted to the SEC under Form 6-K. These reports are prepared in accordance with Canadian generally accepted accounting principles. SEC regulations require certain additional disclosure to be included in registration statements relating to offerings of securities. This additional disclosure is contained within this document, which should be read in conjunction with CIBC's Second Quarter 2003 Report, and 2002 Annual Report; these documents were submitted to the SEC on May

21, 2003 and January 15, 2003, respectively.

## RECONCILIATION OF CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

CIBC's consolidated financial statements are prepared in accordance with Canadian GAAP, including the accounting requirements of the Superintendent of Financial Institutions, Canada. Set out below are the more significant differences which would result if U.S. GAAP were applied in the preparation of the consolidated financial statements.

During the first quarter of 2003, CIBC adopted Emerging Issues Task Force Issue No. 02-3, "Issues Involved in Accounting for Derivative Contracts Held for Energy Trading and Risk Management Activities (EITF 02-3). Under EITF 02-3, recognition of a trading profit at inception of a derivative transaction is prohibited unless the fair value of that derivative is obtained from a quoted market price, supported by comparison to other observable market transactions, or based upon a valuation technique incorporating observable market data. The initial adoption of EITF 02-3 in the first quarter of 2003 was not material to CIBC's consolidated financial statements.
