Out-bound Script to Registered Shareholders

Hello, my name is *<insert your name>*, and I am calling to speak with *<insert shareholder name>* concerning his/her investment in **Placer Dome Inc.** *<wait for response>* Can we discuss the offer briefly?

IF YES

IF NO

Thank you.

I am calling on behalf of the management of Barrick Gold Corporation which has made an offer to purchase your shares. The terms of the purchase are discussed in the Offer to Purchase that has been mailed to you. Have you received a copy of the Offer to Purchase? These documents can be found online at www.barrick.com/offertoplacer, www.sedar.com or www.sec.gov. Have you had an opportunity to review the materials, and do you have any questions about the Offer?

Here are a few reasons why you should accept the Offer:

1. The Offer price of US\$20.50 represents a premium of approximately 27% over the average closing price of Placer Dome's shares on the NYSE for the last ten trading days prior to the announcement of the Offer.
2. Placer Dome shareholders will receive either US\$20.50 (the cash alternative) or 0.7518 of a Barrick common share and US\$0.05 in cash (the share alternative) for each common share of Placer Dome, in each case subject to pro ration.

3. Additional Reasons to Accept the Offer:

Creation of a Highly-Respected Global Gold Mining Company: The combined company would have 149.8 million ounces of proven and probable gold reserves and 63.3 million ounces of measured and indicated resources, based on the respective 2004 year-end figures of Barrick and Placer Dome and reserves updates by Placer Dome in 2005. In addition, Barrick would also have proven and probable copper reserves of 6.542 billion pounds as at December 31, 2004. Barrick would have estimated production for 2005 of between 8.3 and 8.4 million ounces of gold and approximately 370 million pounds of copper from a portfolio of quality operations in key gold-producing districts.

Substantial Anticipated Cost and Related Synergies: Barrick has identified the possibility to realize estimated annual pre-tax operating and corporate synergies of approximately US\$200 million. Barrick expects to realize these synergies in 2007.

Unrivaled Pipeline of Projects: Barrick would have an unrivaled pipeline of projects on four continents as well as extensive land positions for exploration in 16 countries, with a balanced geopolitical risk profile.

Scope, Scale and Financial Strength: Based on the unaudited financials statements of both companies as at September 30, 2005 and assuming the exercise of all in-the-money stock options of Placer Dome, Barrick would have a cash position of about US\$2.4 billion (including restricted cash) as at September 30, 2005 and the ability to finance the development of a combined project pipeline without any need to issue equity to

fund that development.

Value Creation for All Shareholders: The Offer represents significant value to Placer Dome's shareholders by providing them with the opportunity to participate in a highly-respected global company in the gold mining industry with demonstrated expertise in finding, developing and operating large-scale mines worldwide.
