FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

1. Principles of Consolidation

The consolidated condensed financial statements include the accounts of First Defiance Financial Corp. ("First Defiance" or "the Company"), its two wholly owned subsidiaries, First Federal Bank of the Midwest ("First Federal") and First Insurance and Investments, Inc. ("First Insurance"). In the opinion of management, all significant intercompany accounts and transactions have been eliminated in consolidation.

2. Basis of Presentation

The consolidated condensed statement of financial condition at December 31, 2005 has been derived from the audited financial statements at that date, which were included in First Defiance's Annual Report on Form 10-K.

The accompanying consolidated condensed financial statements as of June 30, 2006 and for the three and six-month periods ending June 30, 2006 and 2005 have been prepared by First Defiance without audit and do not include information or footnotes necessary for the complete presentation of financial condition, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States. These consolidated condensed financial statements should be read in conjunction with the financial statements and notes thereto included in First Defiance's 2005 Annual Report on Form 10-K for the year ended December 31, 2005. However, in the opinion of management, all adjustments, consisting of only normal recurring items, necessary for the fair presentation of the financial statements have been made. The results for the three and six-month period ended June 30, 2006 are not necessarily indicative of the results that may be expected for the entire year.

Goodwill

Goodwill is the excess of the purchase price over the fair value of the assets and liabilities of companies acquired through business combinations accounted for under the purchase method. Goodwill is evaluated at the business unit level, which for First Defiance are First Federal Bank and First Insurance. At June 30, 2006 goodwill totaled \$35.1 million.

Income Taxes

The Company's effective tax rate differs from the statutory 35% federal tax rate primarily because of the existence of municipal securities and bank owned life insurance, the earnings of which are exempt from federal income taxes, partially offset by the excess of fair value over cost of allocated ESOP shares which is not deductible for Federal income taxes.

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

2. Basis of Presentation (continued)

Stock Compensation

Prior to January 1, 2006, the Company accounted for stock-based compensation expense using the intrinsic value method as required by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" and as permitted by Statement of Financial Accounting Standard (SFAS) No. 123, "Accounting for Stock-Based Compensation." No compensation cost for stock options was reflected in net income for the year ended December 31, 2005, as all options granted had an exercise price equal to the market price of the underlying common stock at date of grant.

On January 1, 2006, the Company adopted SFAS 123(R) (revised version of SFAS No. 123) which requires measurement of compensation cost for all stock-based awards be based on the grant-date fair value and recognition of compensation cost over the service period of stock-based awards, which is usually the same as the vesting period. The fair value of stock options is determined using the Black-Scholes valuation model, which is consistent with the Company's valuation methodology previously utilized for options in footnote disclosures required under SFAS No. 123. The fair value of stock grants will also be determined using the Black-Scholes valuation model. The Company has adopted SFAS No. 123(R) using the modified prospective method, which provides for no restatement of prior periods and no cumulative adjustment to equity accounts. It also provides for expense recognition, for both new and existing stock-based awards, as the required services are rendered. SFAS No. 123(R) also amends SFAS No. 95, "Statement of Cash Flows," and requires tax benefits relating to excess stock-based compensation deductions be presented in the statement of cash flows as financing cash flows.

The Securities and Exchange Commission (SEC) has published Staff Accounting Bulletin No. 107 (SAB 107), which expressed the views of the Staff regarding the interaction between SFAS No. 123(R) and certain SEC rules and regulations and provided the Staff's views regarding the valuation of stock-based payment arrangements for public companies. SAB 107 requires that stock-based compensation be classified in the same expense category as cash compensation. Accordingly, the Company has included stock-based compensation and benefits in the condensed consolidated statements of income.

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

2. Basis of Presentation (continued)

Recent Accounting Pronouncements

Accounting for Servicing of Financial Assets

On March 17, 2006, the FASB issued Statement No. 156, "Accounting for Servicing of Financial Assets - an amendment of FASB Statement No. 140" ("SFAS 156"). SFAS 156 amends FASB Statement No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities-a replacement of FASB Statement No. 125" ("SFAS 140"). SFAS 156 permits entities to subsequently measure servicing rights at fair value and report changes in fair value in earnings rather than amortize servicing rights in proportion to and over the estimated net servicing income or loss and assess the rights for impairment or the need for an increased obligation as required under SFAS 140. Entities that elect to subsequently measure their servicing rights at fair value may no longer find it necessary to qualify for and apply the provisions of FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities," to achieve an income statement effect similar to the application of hedge accounting for instruments used to manage the effect of interest rate changes on servicing rights.

SFAS 156 is effective as of the beginning of an entity's first fiscal year that begins after September 15, 2006. Earlier adoption of the Statement is permitted as of the beginning of an entity's fiscal year, provided the entity has not yet issued financial statements for any interim period of that fiscal year. First Defiance plans to adopt SFAS 156 on January 1, 2007, and has not changed its method of accounting for its mortgage servicing rights. Management does not expect the adoption to have a material impact on the Company's financial condition, results of operations or cash flows.

Accounting for Uncertainty in Income Taxes

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109 (FIN 48), which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition and measurement threshold for a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company has not completed its evaluation of the impact of the adoption of FIN 48.

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

2. Basis of Presentation (continued)

Segment Information

While the Company's chief decision-makers monitor the revenue streams of the Company's various products and services, the identifiable segments are not material, and operations are managed and financial performance is evaluated on a Company-wide basis. Accordingly, all of First Defiance's financial service operations are considered by management to be aggregated in one reportable operating segment.

3. Stock Compensation Plans

First Defiance has established incentive stock option plans for its directors and employees and has reserved 1,727,485 shares of common stock for issuance under the plans. A total of 1,467,204 shares are reserved for employees and 260,281 shares are reserved for directors. As of June 30, 2006, 457,827 options (448,112 for employees and 9,715 for directors) have been granted and remain outstanding at option prices based on the market value of the underlying shares on the date the options were granted.

The Company can issue incentive stock options and nonqualified stock options under their incentive stock plans. Generally, one-fifth of the options awarded become exercisable on each of the first five anniversaries of the date of grant. The option period expires ten years from the date of grant and the exercise price is the market price at the date of grant.

Following is activity under the plans:

	Shares	Six months ended June, 2006	
		Total options outstanding	
		Weighted Average Exercise Price	Weighted Average Fair Value
Options outstanding, beginning of period	569,099	\$ 16.00	\$ 4.05

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

3. Stock Compensation Plans (continued)

The aggregate intrinsic value of all options outstanding at June 30, 2006 was \$3.67 million. The aggregate intrinsic value of all options that were exercisable at June 30, 2006 was \$3.12 million.

	Six months ended June 30, 2006 Total unvested options	
	Shares	Weighted Average Fair Value
Unvested options, beginning of period	164,853	\$ 5.26
Vested	(29,951)	4.73
Granted	47,250	5.98
Forfeited	(8,200)	5.26
Unvested options, end of period	173,952	\$ 5.39

Proceeds, related tax benefits realized from options exercised and intrinsic value of options exercised were as follows:

	Six months ended June 30, 2006		2005	
Proceeds of options exercised	\$	1,710	\$	1,091
Related tax benefit recognized		192		164
Intrinsic value of options exercised		2,276		1,449

Options outstanding at June 30, 2006 were as follows:

Range of Exercise Prices	Outstanding		Exercisable	
	Shares	Weighted Average Remaining Contractual Life	Shares	Weighted Average Exercise Price
\$8.25 - \$12.99	63,323	1.3	63,323	\$ 10.85
\$13.00 - \$17.99	190,351	3.9	158,951	14.19
\$18.00 - \$22.99	49,450	6.7	29,950	19.41
\$23.00 - \$27.99	154,703	8.8	31,651	26.44
Outstanding at period end	457,827	5.5	283,875	\$ 15.39

[Back to Index](#)

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

3. Stock Compensation Plans (continued)

The fair value for stock options granted during the six month periods ended June 30, 2006 and 2005 was determined at the date of grant using a Black-Scholes option-pricing model and the following assumptions:

	Six Months Ended June 30,	
	2006	2005
Expected average risk-free interest rate	5.18%	4.44%
Expected average life (in years)	6.50	10.00
Expected volatility	22.40%	22.30%
Expected dividend yield	3.63%	3.15%

The expected average risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for periods corresponding with the life of the option. The expected average life represents the weighted average period of time that options granted are expected to be outstanding giving consideration to vesting schedules, historical exercise and forfeiture patterns. Expected volatility is based on historical volatilities of the Company's common stock. The expected dividend yield is based on historical information.

The compensation cost yet to be recognized for stock-based options that have been awarded but not vested is as follows (in thousands):

Remainder of 2006	\$	143
2007		236
2008		201
2009		139
2010		77
2011		22
Total	\$	818

4. Acquisitions

On April 8, 2005, First Defiance acquired The Genoa Savings and Loan Company, ("Genoa"), a savings and loan headquartered in Genoa, Ohio for a total purchase price of \$11.2 million including direct acquisition costs of \$220,000. Genoa shareholders received cash of \$11.0 million in the all-cash transaction.

[Back to Index](#)

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

4. Acquisitions (continued)

On January 21, 2005, First Defiance acquired ComBanc, Inc. ("ComBanc"), a bank-holding company and its wholly-owned subsidiary, the Commercial Bank by acquiring all of the outstanding capital stock of ComBanc for an aggregate purchase price of \$38.3 million, including direct acquisition costs of \$542,000. ComBanc shareholders received 733,775 shares of First Defiance stock and cash of \$18.7 million.

The total purchase cost for Genoa and ComBanc has been allocated to the tangible and identifiable intangible assets and liabilities based upon their respective fair values.

5. Acquisition Related Charges

During the six months ended June 30, 2005, First Defiance recognized \$3,360,000 of acquisition related charges, of which \$975,000 related to the ComBanc acquisition and \$2,385,000 related to the Genoa acquisitions. Of the \$975,000, \$471,000 related to severance payments and retention bonuses provided to ComBanc employees and \$385,000 related to termination of certain ComBanc contracts. Of the \$2,385,000, approximately \$313,000 of the acquisition charges related to severance payments and retention bonuses provided to Genoa employees and \$1.8 million related to termination of certain Genoa contracts. Substantially all severance costs were paid out by January 2006.

6. Dividends on Common Stock

As of June 30, 2006, First Defiance had declared a quarterly cash dividend of \$.24 per share for the second quarter of 2006, payable July 28, 2006.

7. Earnings Per Share

Basic earnings per share as disclosed under FAS No. 128 has been calculated by dividing net income by the weighted average number of shares of common stock outstanding for the three and six month periods ended June 30, 2006 and 2005. First Defiance accounts for the shares issued to its Employee Stock Ownership Plan ("ESOP") in accordance with Statement of Position 93-6 of the American Institute of Certified Public Accountants ("AICPA"). As a result, shares controlled by the ESOP are not considered in the weighted average number of shares of common stock outstanding until the shares are committed for allocation to an employee's individual account. In the calculation of diluted earnings per share for the three and six month periods ended June 30, 2006 and 2005, the effect of shares issuable under stock option plans and unvested shares under the Management Recognition Plan have been accounted for using the Treasury Stock method.

(Unaudited at June 30, 2006 and 2005)

8. Investment Securities (continued)

The following table summarizes First Defiance's securities that were in an unrealized loss position at June 30, 2006:

	Duration of Unrealized Loss Position				Total	
	Less than 12 Months	Gross	12 Month or Longer	Gross		
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Losses
(In Thousands)						
At June 30, 2006						
Available-for-sale securities:						
U.S. treasury securities and obligations of U.S. government corporations and agencies	\$ 11,520	\$ (152)	\$ 19,005	\$ (350)	\$ 30,525	\$ (502)
Mortgage-backed securities	10,398	(250)	9,025	(442)	19,423	(692)
Collateralized mortgage obligations	8,978	(199)	10,658	(399)	19,636	(598)
Trust preferred stock	990	(10)	-	-	990	(10)
Obligations of state and political subdivisions	7,505	(97)	19	(1)	7,524	(98)
Held to maturity securities:						
Mortgage-backed securities	260	(1)	237	(4)	497	(5)
Total temporarily impaired securities	\$ 39,651	\$ (709)	\$ 38,944	\$ (1,196)	\$ 78,595	\$ (1,905)

First Defiance does not believe the unrealized losses on securities as of June 30, 2006 represent other-than-temporary impairment. The unrealized losses are primarily the result of the changes in interest rates and will not prohibit the Company from receiving its contractual principal and interest payments. First Defiance has the ability and intent to hold these securities for a period necessary to recover the amortized cost.

9. Loans (continued)

The following table presents the aggregate amounts of non-performing assets, comprised of non-accrual loans and real estate owned on the dates indicated:

	June 30, 2006	December 31, 2005
	<i>(in thousands)</i>	
Non-accrual loans	\$ 5,504	\$ 4,952
Loans over 90 days past due and still accruing	-	-
Total non-performing loans	5,504	\$ 4,952
Real estate owned (REO)	3,434	404
Total non-performing assets	\$ 8,938	\$ 5,356

Effective June 30, 2006, First Defiance sold its credit card portfolio to another bank. The portfolio had a balance at the sale date of \$2.1 million. First Defiance realized a gain on the sale of the portfolio of \$400,000, which is included in gain on sale of non-mortgage loans on the Consolidated Condensed Statement of Income.

10. Deposits

A summary of deposit balances is as follows (in thousands):

	June 30, 2006	December 31, 2005
Non-interest-bearing checking accounts	\$ 95,468	\$ 103,498
Interest-bearing checking accounts	98,663	102,144
Savings accounts	76,603	82,766
Money market demand accounts	208,414	174,414
Certificates of deposit	631,602	606,679
	\$ 1,110,750	\$ 1,069,501

Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

11. Borrowings

First Defiance's debt, Federal Home Loan Bank (FHLB) advances and junior subordinated debentures owed to an unconsolidated subsidiary trust are comprised of the following:

	June 30, 2006	December 31, 2005
	<i>(in thousands)</i>	
FHLB Advance:		
Callable fixed maturity advances	\$ 75,000	\$ 111,000
Callable fixed maturity strike rate advances	27,000	27,000
Other fixed rate long-term advances	13,690	14,181
Three month LIBOR based advances	35,000	—
Short-term and overnight advances	44,000	28,779
Total	\$ 194,690	\$ 180,960
Junior subordinated debentures owed to unconsolidated subsidiary trust, due October 2035, 6.71% at June 30, 2006 and 5.87% at December 31, 2005 (variable)	\$ 20,619	\$ 20,619

The callable fixed rate FHLB advances are callable at the option of the FHLB on specified dates in 2006. Advances totaling \$36,000 were called by the FHLB during 2006. Of those advances, \$35,000 were converted to three-month LIBOR based advances.

The strike-rate advances are also callable in 2006, but only if three month LIBOR rates exceed the strike rate in the advance contract which ranges from 7.5% to 8.0%.

In September 2005, the Company formed an affiliated trust, First Defiance Statutory Trust I (the Trust Affiliate) that issued \$20 million of Guaranteed Capital Trust Securities (Trust Preferred Securities). In connection with this transaction, the Company issued \$20.6 million of Junior Subordinated Deferrable Interest Debentures (Subordinated Debentures) to the Trust Affiliate. The Company formed the Trust Affiliate for the purpose of issuing Trust Preferred Securities to third-party investors and investing the proceeds from the sale of these capital securities solely in Subordinated Debentures of the Company. The Subordinated Debentures held by the Trust Affiliate are the sole assets of that trust. Distributions on the Trust Preferred Securities issued by the Trust Affiliate are payable quarterly at a variable rate equal to the three-month LIBOR rate plus 1.38%, or 6.71% as of June 30, 2006.

The Trust Preferred Securities are subject to mandatory redemption, in whole or part, upon repayment of the Subordinated Debentures. The Company has entered into an agreement that fully and unconditionally guarantees the Trust Preferred Securities subject to the terms of the guarantee. The Trust Preferred Securities and Subordinated Debentures may be redeemed by the issuer at par after October 28, 2010.

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

12. Commitments, Guarantees and Contingent Liabilities

Loan commitments are made to accommodate the financial needs of First Defiance's customers; however, there are no long-term, fixed-rate loan commitments that result in market risk. Standby letters of credit obligate the Company to pay a third party beneficiary when a customer fails to repay an outstanding loan or debt instrument, or fails to perform some contractual non-financial obligation. Standby letters of credit are issued to address customers' financing needs and to facilitate customers' trade transactions.

If amounts are drawn under standby letters of credit, such amounts are treated as loans. Both loan commitments and standby letters of credit have credit risk, essentially the same as that involved in extending loans to customers, and are subject to the Company's normal credit policies. Collateral (e.g., securities, receivables, inventory and equipment) is obtained based on management's credit assessment of the customer.

The Company's maximum obligation to extend credit for loan commitments (unfunded loan and unused lines of credit) and standby letters of credit was as follows:

	June 30, 2006	December 31, 2005
	<i>(In Thousands)</i>	
Loan commitments	\$ 242,932	\$ 275,982
Standby Letters of Credit	8,227	8,785
Total	\$ 251,159	\$ 284,767

The remaining weighted average life for outstanding standby letters of credit was less than one year at June 30, 2006. The Company had \$3.9 million of standby letters of credit with a life longer than one year.

FIRST DEFIANCE FINANCIAL CORP.
Notes to Consolidated Condensed Financial Statements
(Unaudited at June 30, 2006 and 2005)

13. Postretirement Benefits

First Defiance sponsors a defined benefit postretirement plan that is intended to supplement Medicare coverage for certain retirees who meet minimum age requirements. A description of employees or former employees eligible for coverage is included in Footnote 14 in the financial statements included in First Defiance's 2005 Annual Report on Form 10-K.

Net periodic postretirement benefit costs include the following components for the three and six-month periods ended June 30, 2006 and 2005:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2005	2004
	<i>(In Thousands)</i>			
Service cost-benefits attributable to service during the period	\$ 10	\$ 14	\$ 20	\$ 26
Interest cost on accumulated postretirement benefit obligation	27	24	54	48
Net amortization and deferral	8	6	16	12
Net periodic postretirement benefit cost	\$ 45	\$ 44	\$ 90	\$ 86

Prescription drug coverage was added to Medicare under the Medicare Prescription Drug Improvement and Modernization Act of 2003 (the Act). The Company has elected to opt for the Federal subsidy approach in lieu of coverage under Medicare Part D.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

First Defiance Financial Corp. ("First Defiance" or "the Company") is a holding company which conducts business through its two wholly owned subsidiaries, First Federal Bank of the Midwest ("First Federal") and First Insurance and Investments, Inc. ("First Insurance"). First Federal is a federally chartered savings bank that provides financial services to communities based in northwest Ohio where it operates 26 full service branches. First Federal provides a broad range of financial services including checking accounts, savings accounts, certificates of deposit, real estate mortgage loans, commercial loans, consumer loans, home equity loans and trust services. First Insurance sells a variety of property and casualty, group health and life, and individual health and life insurance products and investment and annuity products. Insurance products are sold through First Insurance's office in Defiance, Ohio while investment and annuity products are sold through registered investment representatives located at five First Federal banking center locations.

First Defiance invests in U.S. Treasury and federal government agency obligations, obligations of municipal and other political subdivisions, mortgage-backed securities which are issued by federal agencies, corporate bonds, and collateralized mortgage obligations ("CMOs") and real estate mortgage investment conduits ("REMICs"). Management determines the appropriate classification of all such securities at the time of purchase in accordance with FAS Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*.

Securities are classified as held-to-maturity when First Defiance has the positive intent and ability to hold the security to maturity. Held-to-maturity securities are stated at amortized cost and had a recorded value of \$1.7 million at June 30, 2006. Securities not classified as held-to-maturity are classified as available-for-sale, which are stated at fair value and had a recorded value of \$117.6 million at June 30, 2006. The available-for-sale portfolio consists of U.S. Treasury securities and obligations of U.S. Government corporations and agencies (\$43.6 million), certain municipal obligations (\$24.6 million), CMOs and REMICs (\$21.6 million), mortgage backed securities (\$19.6 million) and preferred stock and other equity investments (\$8.3 million).

In accordance with FAS No. 115, unrealized holding gains and losses deemed temporary on available-for-sale securities are reported in a separate component of stockholders' equity, net of tax, and are not reported in earnings until realized. Net unrealized holding losses on available-for-sale securities were \$1.6 million at June 30, 2006, or \$1.0 million after considering the related deferred tax asset.

The profitability of First Defiance is primarily dependent on its net interest income and non-interest income. Net interest income is the difference between interest income on interest-earning assets, principally loans and securities, and interest expense on interest-bearing deposits, Federal Home Loan Bank advances, and other borrowings. The Company's non-interest income includes deposit and loan servicing fees, gains on sales of mortgage loans, and insurance commissions. First Defiance's earnings also depend on the provision for loan losses and non-interest expenses, such as employee compensation and benefits, occupancy and equipment expense, deposit insurance premiums, amortization and impairment of mortgage servicing rights and miscellaneous other expenses, as well as federal income tax expense.

Forward-Looking Information

Certain statements contained in this quarterly report that are not historical facts, including but not limited to statements that can be identified by the use of forward-looking terminology such as “may”, “will”, “expect”, “anticipate”, “continue” or the negative thereof or other variations thereon or comparable terminology are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21B of the Securities Act of 1934, as amended. Actual results could differ materially from those indicated in such statements due to risks, uncertainties and changes with respect to a variety of market and other factors.

Changes in Financial Condition

At June 30, 2006, First Defiance's total assets, deposits and stockholders' equity amounted to \$1.51 billion, \$1.11 billion and \$154.3 million, respectively, compared to \$1.46 billion, \$1.07 billion and \$151.2 million, respectively, at December 31, 2005.

Net loans receivable (excluding loans held for sale) increased \$53.2 million to \$1.22 billion at June 30, 2006 from \$1.16 billion at December 31, 2005. The increase in loans receivable occurred primarily in the commercial loan portfolios, which increased by \$65.6 million between December 31, 2005 and June 30, 2006. During that same period, one-to-four family real estate loans declined by approximately \$5.0 million. Certain loans which have non-residential real estate collateral as an abundance of caution were reclassified as commercial and industrial loans during the 2006 first quarter. Prior period balances have not been restated.

The investment securities portfolio increased to \$119.3 million at June 30, 2006 from \$114.9 million at December 31, 2005. The increase is the result of investing balances that were included in cash and amounts due from depository institutions at December 31, 2005. The amount of cash and due from depository institutions dropped from \$44.1 million to \$31.4 million between December 31, 2005 and June 30, 2006. At June 30, 2006 there were approximately \$2.7 million of interest-bearing deposits held at other financial institutions.

Deposits increased from \$1.07 billion at December 31, 2005 to \$1.11 billion as of June 30, 2006. Of the \$41.2 million increase, interest-bearing demand deposits and money market accounts increased \$30.5 million to \$307.1 million, retail time deposits increased \$5.8 million to \$575.5 million and national time deposits increased \$19.1 million to \$56.1 million, while non-interest-bearing demand deposits decreased \$8.0 million to \$95.5 million and savings deposits decreased \$6.2 million to \$76.6 million. The increase in interest-bearing demand deposits and money market accounts from the beginning of the year is the result of increased promotional efforts and an increase in interest rates, especially the rates on the money market accounts. National time deposits increased as First Defiance continues to use such deposits as a source of liquidity.

Additionally, FHLB advances increased \$13.7 million to \$194.7 million at June 30, 2006 from \$181.0 million at December 31, 2005. Of this increase, First Defiance's overnight borrowings increased \$15.2 million and \$35.0 million of callable advances were called by the FHLB and converted to three-month LIBOR based advances. In total, long-term advances decreased \$36.5 million as a result of the conversion of callable advances and contractual amortization during the period.

[Back to Index](#)

Stockholders' equity increased from \$151.2 million at December 31, 2005 to \$154.3 million at June 30, 2006. The increase is a result of net income of \$7.8 million, the release of ESOP shares totaling \$1.0 million and the exercise of stock options by First Defiance employees totaling \$1.7 million. Those increases were partially offset by \$3.4 million of cash dividends declared, \$3.2 million from the repurchase of shares for treasury and a decrease in unrealized gains on available for sale securities (net of tax) of \$1.0 million.

Average Balances, Net Interest Income and Yields Earned and Rates Paid

The following table presents for the periods indicated the total dollar amount of interest from average interest-earning assets and the resultant yields, as well as the interest expense on average interest-bearing liabilities, expressed both in thousands of dollars and rates, and the net interest margin. The table reports interest income from tax-exempt loans and investment on a tax-equivalent basis. All average balances are based upon daily balances.

	Three Months Ended June 30,

Results of Operations

Three Months Ended June 30, 2006 compared to Three Months Ended June 30, 2005

On a consolidated basis, First Defiance had net income of \$4.0 million or \$.55 per diluted share for the three months ended June 30, 2006 compared to \$2.0 million or \$0.28 per diluted share in 2005.

Net Interest Income. Net interest income for the quarter ended June 30, 2006 was \$12.3 million compared to \$11.9 million, an increase of 3.4%. The increase is due to primarily to the 10.8% increase in the average balance of loans outstanding between the two quarters. However the impact of that growth was partially offset by an 18 basis point decline in the net interest margin between the second quarter of 2005 and the second quarter of 2006.

Interest income, including FHLB stock dividends increased to \$23.0 million for the 2006 second quarter compared to \$18.7 million in the 2005 second quarter. The growth was entirely attributable to the loan portfolio, where the average balance increased to \$1.21 billion in the 2006 second quarter from \$1.09 billion in the second three month period of 2005. Average loan yields increased to 7.04% from 6.27%. Interest income gains were offset by increases in interest expense, which grew to \$10.7 million from \$6.8 million. The average balance of interest-bearing deposits increased to \$995.8 million for the 2006 second quarter from \$957.1 million in the year earlier period. During those same time periods, the average balance of FHLB advances increased by \$39.8 million to \$196.3 million from \$156.5 million in the second quarter of 2005. The average cost of those deposits increased to 3.17% from 2.06% while the average cost of FHLB advances increased from 4.59% to 4.85%. Also, First Defiance issued \$20 million in trust preferred subordinated debentures in the 2005 fourth quarter at a cost of 90-day LIBOR plus 1.38%. The cost of the subordinated debentures was 6.24% in the 2006 second quarter.

Net interest margin for the quarter ended June 30, 2006 was 3.69%, an 18 basis point decline from the 2005 second quarter margin of 3.87%. First Defiance's average yield on interest earning assets increased to 6.87% for the 2006 second quarter, up from 6.07% for the same period of 2005, an increase of 80 basis points. However, during that same period, the cost of interest-bearing liabilities increased to 3.48% for the 2006 quarterly period, up from 2.41% in 2005, an increase of 107 basis points. As a result, the Company's interest rate spread has compressed to 3.39% in the 2006 second quarter compared to 3.66% in the 2005 quarterly period. Also, the net interest margin declined from 3.84% in the 2006 first quarter, due primarily to funding costs increasing by more than asset yields during those periods.

Provision for Loan Losses. The provision for loan losses was \$683,000 in the second quarter of 2006 compared to \$349,000 for the second quarter of 2005. Provisions for loan losses are charged to earnings to bring the total allowance for loan losses to the level deemed appropriate by management based on the following factors: historical experience; the volume and type of lending conducted by First Defiance; the amount of non-performing assets, including loans which meet the FASB Statement No. 114 definition of impaired; the amount of assets graded by management as substandard, doubtful, or loss; industry standards; general economic conditions, particularly as they relate to First Defiance's market area; and other factors related to the collectibility of First Defiance's loan portfolio. Management believes the balance of the allowance for loan losses is appropriate.

[Back to Index](#)

Non-performing assets increased to \$8.9 million at June 30, 2006 from \$7.6 million at March 31, 2006 and from \$5.4 million at December 31, 2005. The increase in the 2006 second quarter was primarily attributable to one large credit falling more than 90 days past due at June 30, 2006. That particular credit is secured by real estate but a dispute between the partners who control the property has thus far prevented First Federal from taking a deed in lieu of foreclosure. Foreclosure proceedings have been started in this matter and management does not believe their losses will be greater than the specific reserve allocated to that credit. The second quarter issue follows a first quarter increase in non-performing assets which resulted from the taking of deeds in lieu of foreclosure from a large commercial real estate credit, which increased real estate owned from \$404,000 at the end of 2005 to \$3.7 million at March 31, 2006. Several of those properties have been sold as of June 30, 2006 and the REO balance has declined to \$3.4 million at the end of the second quarter. Management continues to negotiate with interested buyers for the remaining properties in REO and does not anticipate any further loss on any of those assets. However they anticipate that it will take several quarters to resolve the existing issues related to non-performing assets. Non-performing assets and asset quality ratios for First Defiance were as follows (in \$000's) at June 30, 2006 and December 31, 2005:

	June 30, 2006	December 31, 2005
	<i>(in thousands)</i>	
Non-accrual loans	\$ 5,504	\$ 4,952
Loans over 90 days past due and still accruing	-	-
Total non-performing loans	5,504	\$ 4,952
Real estate owned (REO)	3,434	404
Total non-performing assets	\$ 8,938	\$ 5,356
Allowance for loans losses as a percentage of total loans	1.16%	1.16%
Allowance for loan losses as a percentage of non-performing assets	159.31%	255.28%
Allowance for loan losses as a percentage of non-performing loans	258.70%	276.11%
Total non-performing assets as a percentage of total assets	0.59%	0.37%
Total non-performing loans as a percentage of total loans	0.45%	0.42%

Of the \$5.5 million in non-accrual loans, \$900,000 were 1-4 family residential loans, \$4.1 million were commercial loans or commercial real estate loans and \$500,000 were home equity or consumer loans. The allowance for loan losses at June 30, 2006 was \$14.2 million compared to \$13.8 million at March 31, 2006, \$13.7 million at December 31, 2005 and \$13.5 million at June 30, 2005. For the quarter ended June 30, 2006, First Defiance charged off \$365,000 of loans against its allowance and realized recoveries of \$73,000 from loans previously charged off. During the same quarter in 2005, First Defiance charged off \$204,000 in loans and realized recoveries of \$77,000.

[Back to Index](#)

Non-Interest Income. Total non-interest income increased to \$5.1 million in the 2006 second quarter, compared with \$3.9 million in the same period in 2005. The 2006 amount includes a \$400,000 gain realized from the June 30, 2006 sale of First Defiance's \$2.1 million credit card portfolio. The 2005 amount included gains from sale of investment securities of \$515,000 and there were no securities gains in the 2006 second quarter. Excluding the gain from the sale of the credit card portfolio and the securities gains, non-interest income increased by \$1.36 million, or 40.5%. The increase in non-interest income occurred in primarily two areas: deposit fees and mortgage banking income.

Gain on Sale of Securities. There were no securities sold in the second quarter 2006 compared to \$515,000 recognized in the second quarter of 2005.

Service Fees. Service fees and other charges increased by \$977,000 or 70.4% in the 2006 second quarter compared to the same period in 2005. The increase was primarily related to the first quarter 2006 implementation of an overdraft privilege product. Fees generated by checking accounts increased by \$794,000 in the 2006 second quarter compared to the second quarter of 2005. The balance of the increase in service fees relates to an increase in the number of accounts in the 2006 quarter compared to 2005. Management believes that the level of fees resulting from the implementation of the overdraft product in the 2006 second quarter is an accurate reflection of the level of income that will be realized each quarter.

Mortgage Banking Activity. Total revenue from the sale and servicing of mortgage loans increased 70.1% to \$888,000 for the second quarter of 2006 from \$522,000 for the same period of 2005. Gains realized from the sale of mortgage loans increased \$151,000 to \$632,000 for the three months ended June 30, 2006 from \$481,000 during the 2005 second quarter. Mortgage loan servicing revenue increased \$19,000 from the second quarter of 2005 as compared to the second quarter of 2006, while the mortgage servicing rights valuation adjustment was a favorable \$31,000 in the 2006 second quarter compared to \$95,000 of expense in the 2005 second quarter. Also the amortization of mortgage servicing rights declined in the 2006 second quarter by \$70,000 when compared to the second quarter of 2005.

Insurance and Investment Sales Commission. Insurance commission income decreased slightly, to \$1.00 million in the 2006 second quarter, from \$1.05 million during the second quarter of 2005. Income from the sale of group health and life insurance was up slightly in the 2006 second quarter while income from property and casualty insurance sales and investment sales were both slightly lower in the 2006 second quarter than they were in the second quarter of 2005.

Other Non-Interest Income. Other sources of non-interest income include gains from the sale of non-mortgage loans, trust income, earnings from bank-owned life insurance and other. Non-mortgage loan gains were \$437,000 for the 2006 second quarter including the gain from the sale of the credit card portfolio compared to \$107,000 of non-mortgage gains in the second quarter of 2005. These gains typically result from the sale of agricultural or small business loans originated under certain federal programs. Trust income increased to \$78,000 for the 2006 second quarter from \$61,000 in the 2005 second quarter. Income from BOLI increased by \$63,000 in the 2006 second quarter, the result of a \$5 million purchase of additional insurance in the fourth quarter of 2005.

[Back to Index](#)

Non-Interest Expense. Non-interest expense declined to \$10.8 million for the 2006 second quarter compared to \$12.5 million for the same period in 2005. The 2005 amount included \$2.5 million of acquisition-related charges. Excluding those items, non-interest expense increased by \$753,000.

Occupancy, Ohio franchise tax and data processing costs all increased in the second quarter of 2006 compared to the same period in 2005 as a result of the growth over the last 12 months. Also, as a result of the Company's expansion and business strategy, advertising and promotional expenses increased from \$277,000 to \$357,000 between the 2005 and 2006 second quarters. Also, the Company incurred fees to its vendor for the overdraft privilege product totaling \$144,000 in the 2006 second quarter while attorney fees, postage costs, collection expense and audit and exam services all also increased significantly in the 2006 second quarter compared to the same period in 2005.

Acquisition Related Charges. Second quarter 2005 results included \$2.5 million of non-recurring costs associated with the Genoa and ComBanc acquisitions. There were no acquisition related charges recorded in the 2006 second quarter.

Compensation and Benefits. Compensation and benefits declined slightly to \$5.9 million for the quarter ended June 30, 2006 from \$6.0 million for the same period in 2005. The decrease was due primarily to a reduction in expense associated with First Defiance's self-funded health insurance program, the result of program changes and favorable recent experience relative to amounts that were historically accrued. Total compensation expense recorded in the 2006 second quarter included \$76,000 related to the expensing of employee stock options. Such expense resulted from the January 1, 2006 adoption of FASB Statement 123R.

Other Non-Interest Expenses. Other non-interest expenses (including occupancy, state franchise tax, data processing, deposit insurance premiums, and amortization of intangibles) increased by \$825,000 to \$4.9 million for the quarter ended June 30, 2006 from \$4.0 million for the same period in 2005.

Occupancy costs increased by \$89,000 and data processing costs increased by \$165,000 between the second quarter of 2005 and the second quarter of 2006. Both costs increased primarily due to the acquisitions in the first and second quarters of 2005 as well as organic growth since the acquisitions. Non-interest expense also included \$144,000 of expense related to the overdraft privilege product, a \$93,000 increase in postage costs due to several direct mail campaigns and customer notification programs, an \$80,000 increase in advertising expense and a \$62,000 increase in audit and examination fees.

The GAAP efficiency ratio for the second quarter of 2006 was 61.55% compared to 81.40% for the second quarter of 2005. The core efficiency ratio, which eliminates acquisition related charges, for the second quarter of 2005 was 65.30%.

[Back to Index](#)

First Defiance computes federal income tax expense in accordance with FASB Statement No. 109, which resulted in an effective tax rate of 33.09% for the quarter ended June 30, 2006 compared to 29.24% for the same period in 2005. The effective tax rate is lower than the Company's statutory 35% rate because it has approximately \$25.0 million invested in municipal securities, and \$24.8 million of bank owned life insurance which are both exempt from federal tax. Those book-tax differences are partially offset by the excess of fair value over cost of allocated ESOP shares which is not deductible for Federal income taxes.

As a result of the above factors, income for the quarter ended June 30, 2006 was \$4.0 million compared to income of \$2.0 million for the comparable period in 2005. On a per share basis, basic and diluted earnings per share for the three months ended June 30, 2006 were \$0.56 and \$.55, respectively, compared to basic and diluted earnings per share of \$0.29 and \$0.28, respectively, for the quarter ended June 30, 2005.

Six Months Ended June 30, 2006 compared to Six Months Ended June 30, 2005

On a consolidated basis, First Defiance had net income of \$7.8 million or \$1.09 per diluted share for the six months ended June 30, 2006 compared to \$4.9 million or \$0.70 per diluted share for the six months ended June 30, 2005. The 2005 period included \$3.4 million of acquisition related charges. Excluding the after tax impact of those charges results in core earnings for the first six months of 2005 of \$7.1 million, or \$1.01 per diluted share.

Net Interest Income. Net interest income for the six months ended June 30, 2006 was \$24.6 million compared to \$22.5 million for the six months ended June 30, 2005. Net interest margin on a tax-equivalent basis was 3.76% for the first half of 2006, a nine basis point reduction from 2005's 3.85% first half margin. The margin decline was due to funding costs increasing at a faster pace than asset yields during the first half of the year.

Interest income increased by \$9.6 million to \$44.7 million for the six months ended June 30, 2006 from \$35.1 million for the six months ended June 30, 2005. Interest on loans increased \$9.5 million while other sources of interest income were flat between 2005 and 2006. The increase in interest from loans was due both to a \$156.8 million increase in the average balance of loans outstanding between the two periods and a 78 basis point increase on the average yield on loans (from 6.19% for the first half of 2005 compared to 6.97% for the same period in 2006). The yield on total interest earning assets for the first half of 2006 was 6.81% on a tax-equivalent basis compared to 5.98% for the first half of 2005.

The compression in the net interest margin from the first half of 2005 to the first half of 2006 resulted from a substantial increase in First Defiance's funding costs. Total interest expense was \$20.1 million for the first half of 2006 compared to \$12.6 million for the same period in 2005. The average balance of interest-bearing deposits increased by \$82.8 million between the first half of 2005 and 2006 and the average cost of those deposits rose from 1.98% to 3.01%. Also, FHLB advance balances increased by \$32.4 million and the cost of advances rose by 21 basis points. Also, First Defiance issued \$20 million of subordinated debentures during the fourth quarter of 2005. The average cost of those debentures for the first half of 2006 was 6.06%.

[Back to Index](#)

Provision for Loan Losses. The provision for loan losses was \$1.1 million in the first half of 2006 compared to \$696,000 for the first half of 2005. The increase in the provision is primarily due to the deterioration of one credit in the second quarter of 2006 which required a specific allowance of \$400,000. Provisions for loan losses are charged to earnings to bring the total allowance for loan losses to the level deemed appropriate by management. Management believes the allowance for loan losses are adequate and consistent with recent loss experience.

Non-Interest Income. Non-interest income increased to \$9.6 million for the first half of 2006 from \$8.1 million recognized in the first six months of 2005. If gains from the sale of First Defiance's credit card portfolio of \$400,000 in 2006 and gains from security sales of \$1.1 million in 2005 are excluded, non-interest income increased by \$2.2 million or 31.9%. The increase is primarily in service fees and other charges, which have increased by \$1.6 million, mortgage banking income, which increased by \$237,000, insurance and investment sales commissions, which increased by \$399,000 and BOLI income, which is up by \$123,000.

Service Fees and Other Charges. The increase in services fees is the result of the early March 2006 implementation of an overdraft privilege product for First Defiance's checking account customers. Fees generated by checking accounts have increased by \$1.2 million in the first half of 2006 compared to 2005. The balance of increased service fees is primarily related to increases in debit card interchange revenue.

Mortgage Banking Income. Gains from the sale of mortgage loans increased by \$142,000, a result of a higher level of mortgage originations in 2006 compared to 2005. Fees from servicing mortgage loans continues to increase, reaching \$760,000 for the first half of 2006, up from \$677,000 in 2005. Mortgage banking income also includes \$300,000 of mortgage servicing rights amortization expense in 2006, down from \$396,000 in the first half of 2005. Also, both the first halves of 2006 and 2005 included recovery of previously recorded mortgage servicing rights impairment. Those amounts were \$42,000 and \$126,000 in the first half of 2006 and 2005 respectively.

Insurance and Investment Sales Commission. Sales commission income increased to \$2.7 million for the first half of 2006 compared to \$2.3 million in the first half of 2005. The difference is primarily due to contingent commissions earned by the First Insurance and Investments entity in the first quarter. Those payments, which result from underwriting profitable business for insurance companies, totaled \$539,000 in 2006 compared to \$356,000 in 2005.

Bank Owned Life Insurance. Income from BOLI increased to \$480,000 for the first half of 2006 from \$357,000 in the first half of 2005, the result of a fourth quarter 2005 purchase of an additional \$5 million of BOLI.

Other Non-Interest Income. Other non-interest income, including gains from the sale of non-mortgage loans, trust income and other income increased to \$801,000 in the first half of 2006 from \$490,000 in the first half of 2005. If you exclude the \$400,000 gain from the sale of the credit card portfolio, these sources of other income declined by approximately \$90,000. The 2005 amount included a gain in excess of \$100,000 from the sale of a former branch building.

[Back to Index](#)

Non-Interest Expense. Non-interest expense for the 2006 first six months were \$21.5 million compared to \$22.8 million for the first six months of 2005. The 2005 total includes \$3.4 million related to the ComBanc and Genoa acquisitions. If you exclude those acquisition related charges, which were primarily costs to terminate data processing contracts and severance agreements, non-interest expense for the first half of 2005 were \$19.4 million. The 2006 level of expense represents an 11.0% increase over 2005 levels excluding acquisition charges. Significant individual components of the increase between the two periods are as follows:

Compensation and Benefits. Compensation and benefits costs increased to \$12.0 million for the first half of 2006 compared to \$11.5 million for the same period in 2005, an increase of \$522,000 or 4.5%. Salary increases of approximately 3.5% were granted to employees between 2005 and 2006 and the balance of that increase results from several additional staff positions, as well as a full six months of compensation and benefits costs associated with the Genoa acquisition compared to just one quarter in 2005. Benefits costs have generally been flat between 2005 and 2006. Compensation costs also includes \$133,000 related to the expensing of employee stock options, which is a new item in 2006.

Occupancy. Occupancy expense increased to \$2.5 million for the six months ended June 30, 2006 compared to \$2.2 million for the first six months of 2005. The increase is primarily due to incurring a full six months of costs associated with the Genoa acquisition versus just three months of expense in 2005.

Data Processing. Data processing increased to \$1.9 million for the first six months of 2006 compared to \$1.6 million in the first half of 2005. The increase is due both to a full period of expense related to the acquired Genoa operations compared to just three months of such expense in 2005. Also, the number of accounts has increased substantially between 2005 and 2006, resulting in a higher level of charges from the Company's third-party data processing provider.

Other Non-Interest Expenses. Other non-interest expenses (including deposit insurance premiums, state franchise tax, amortization of intangibles and other) increased to \$5.1 million for the first half of 2006 from \$4.1 million in the first half of 2005. The increase is due to the acquisitions, significant year-over-year organic growth and increased marketing efforts. First Defiance's efficiency ratio for the first half of 2006 was 62.41% compared to a core efficiency ratio (excluding the acquisition related charges) of 65.11% for the first half of 2005.

The effective income tax rate utilized for the six months ended June 30, 2006 was 32.8% compared to 31.4% for the first six months of 2005. The increase in the effective tax rate between the two periods is primarily the result of tax exempt income (primarily earnings on municipal securities and BOLI) is a lower percentage of total income in 2006 than it was in 2005.

As a result of the above factors, income for the six months ended June 30, 2006 was \$7.8 million compared to \$4.9 million for the comparable period of 2005. On a per share basis, basic and diluted earnings per share for the six months ended June 30, 2006 were \$1.11 and \$1.09 respectively, compared to basic and diluted earnings per share of \$0.72 and \$0.70 respectively in the first six months of 2005.

Liquidity and Capital Resources

As a regulated financial institution, First Federal is required to maintain appropriate levels of "liquid" assets to meet short-term funding requirements.

First Defiance generated \$6.5 million of cash from operating activities during the first six months of 2006. The Company's cash from operating activities resulted from net income for the period, adjusted for various non-cash items, including the provision for loan losses, depreciation and amortization of mortgage servicing rights, FHLB stock dividends, gain on sales of securities, loans and property, plant and equipment, ESOP expense related to release of shares, and changes in loans available for sale, interest receivable and other assets, and other liabilities. The primary investing activity of First Defiance is the origination of loans, which is funded with cash provided by operations, proceeds from the amortization and prepayments of existing loans, the sale of loans, proceeds from the sale or maturity of securities, borrowings from the FHLB, and customer deposits.

At June 30, 2006, First Defiance had \$106.5 million in outstanding loan commitments and loans in process to be funded generally within the next six months and an additional \$144.6 million committed under existing consumer and commercial lines of credit and standby letters of credit. Also at that date, First Defiance had commitments to sell \$13.8 million of loans held-for-sale. Also, the total amount of certificates of deposit that are scheduled to mature by June 30, 2007 is \$522.0 million. First Defiance believes that it has adequate resources to fund commitments as they arise and that it can adjust the rate on savings certificates to retain deposits in changing interest rate environments. If First Defiance requires funds beyond its internal funding capabilities, advances from the FHLB of Cincinnati and other financial institutions are available.

First Defiance utilizes forward purchase and forward sale agreements to meet the needs of its customers and manage its exposure to fluctuations in the fair value of mortgage loans held for sale and its pipeline. These forward purchase and forward sale agreements are considered to be derivatives as defined by FAS 133, *Accounting for Derivatives and Hedging Instruments*. The change in value in the forward purchase and forward sale agreements is approximately equal to the change in value in the loans held for sale and the effect of this accounting treatment is not material to the financial statements.

First Defiance also invests in on-balance sheet derivative securities as part of the overall asset and liability management process. Such derivative securities include REMIC and CMO investments. As of June 30, 2006, all of these securities pass the FFIEC high-risk security test. The weighted average life of these securities does not exceed the test limits in an instantaneous rate increase scenario of 200 and 300 basis points. The company feels that at this time the return being realized is worth this risk. The total \$21.6 million balance of these securities are not classified as high risk at June 30, 2006 and do not present risk significantly different than other mortgage-backed or agency securities.

First Federal is required to maintain specified amounts of capital pursuant to regulations promulgated by the OTS. The capital standards generally require the maintenance of regulatory capital sufficient to meet a tangible capital requirement, a core capital requirement, and a risk-based capital requirement. The following table sets forth First Federal's compliance with each of the capital requirements at June 30, 2006.

[Back to Index](#)

	Core Capital		Risk-Based Capital	
	Adequately Capitalized	Well Capitalized	Adequately Capitalized	Well Capitalized
Regulatory capital	\$ 129,537	\$ 129,537	\$ 143,308	\$ 143,308
Minimum required regulatory capital	58,916	73,645	95,276	119,095
Excess regulatory capital	\$ 70,621	\$ 55,892	\$ 48,032	\$ 24,213
Regulatory capital as a percentage of assets (1)	8.8%	8.8%	12.0%	12.0%
Minimum capital required as a percentage of assets	4.0%	5.0%	8.0%	10.0%
Excess regulatory capital as a percentage of assets	4.8%	3.8%	4.0%	2.0%

(1) Core capital is computed as a percentage of adjusted total assets of \$1.47 billion. Risk-based capital is computed as a percentage of total risk-weighted assets of \$1.19 billion.

Critical Accounting Policies

First Defiance has established various accounting policies which govern the application of accounting principles generally accepted in the United States in the preparation of its financial statements. The significant accounting policies of First Defiance are described in the footnotes to the consolidated financial statements included in the Company's Annual Report on Form 10-K. Certain accounting policies involve significant judgments and assumptions by management, which have a material impact on the carrying value of certain assets and liabilities; management considers such accounting policies to be critical accounting policies. Those policies which are identified and discussed in detail in the Company's Annual Report on Form 10-K include the Allowance for Loan Losses and the Valuation of Mortgage Servicing Rights. There have been no material changes in assumptions or judgments relative to those critical policies during the second quarter of 2006.

Item 3. Qualitative and Quantitative Disclosure About Market Risk

As discussed in detail in the 2005 Annual Report on Form 10-K, First Defiance's ability to maximize net income is dependent on management's ability to plan and control net interest income through management of the pricing and mix of assets and liabilities. Because a large portion of assets and liabilities of First Defiance are monetary in nature, changes in interest rates and monetary or fiscal policy affect its financial condition and can have significant impact on the net income of the Company. First Defiance does not use off balance sheet derivatives to enhance its risk management, nor does it engage in trading activities beyond the sale of mortgage loans.

[Back to Index](#)

First Defiance monitors its exposure to interest rate risk on a monthly basis through simulation analysis which measures the impact changes in interest rates can have on net income. The simulation technique analyzes the effect of a presumed 100 basis point shift in interest rates (which is consistent with management's estimate of the range of potential interest rate fluctuations) and takes into account prepayment speeds on amortizing financial instruments, loan and deposit volumes and rates, nonmaturity deposit assumptions and capital requirements. The results of the simulation indicate that in an environment where interest rates rise or fall 100 basis points over a 12 month period, using June 30, 2006 amounts as a base case, First Defiance's net interest income would be impacted by less than the board mandated guidelines of 10%.

Item 4. Controls and Procedures

Disclosure Controls are procedures designed to ensure that information required to be disclosed in the Company's reports filed under the Exchange Act, such as this report, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed to ensure that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of June 30, 2006, an evaluation was carried out under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective. No significant changes were made in the internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

FIRST DEFIANCE FINANCIAL CORP.

PART II-OTHER INFORMATION

Item 1. Legal Proceedings

First Defiance is not engaged in any legal proceedings of a material nature.

Item 1A. Risk Factors

There were no material changes to the risk factors as presented in First Defiance Financial Corp.'s annual report on Form 10-K for the year ended December 31, 2005.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (a)
April 1, 2006 - April 30, 2006	53,433	\$26.67	39,633	360,757
May 1, 2006 - May 31, 2006	12,471	\$28.77	12,471	348,286
June 1, 2006 - June 30, 2006	25,215	\$26.25	25,215	323,071
Total for 2006 Second Quarter	91,119	\$26.84	77,319	323,071

(a) On July 18, 2003, the registrant announced that its Board of Directors had authorized management to repurchase up to 10% of the Registrant's common stock through the open market or in any private transaction. The authorization, which is for 639,828 shares, does not have an expiration date.

Item 3. Defaults upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

Not applicable

Item 5. Other Information

Not applicable.
