*A modest dream 30 years ago ... is now the largest publicly traded financial services company based in San Diego.*

### **George Haligowski**

2004 marks our 30<sup>th</sup> year as a financial institution. ITLA has come a long way from its modest origins as a Beverly Hills based thrift and loan to what is now the largest publicly traded bank holding company headquartered in San Diego, California.

This year was a pivotal turning point in our history, with the successful execution of our long-term strategy to transform ourselves from an industrial bank to a diversified financial services company.

*(Graphics) A decade of unparalleled performance. New products. New technologies. Human capital. Consistently anticipating change. Staying ahead of the curve. Highest level of earnings in our three-decade history.*

### **George Haligowski**

With our loan officers operating from 26 locations, offering loan products in 41 states, our strategy of building a national real estate lending platform is paying off both in terms of increased production capacity and bottom line profitability.

Our efficient operations have contributed, for the ninth year in a row, towards the highest level of earnings in our three-decade history, and closing the year with our stock price reaching a new 52 week high of \$58.79 per share.

At year end, deposits exceeded \$1.43 billion dollars, an increase of almost 25% over the previous year, evidencing the vibrancy and competitiveness of Imperial Capital Bank's deposit gathering platform.

The foundation is now firmly set for us to become a significant regional banking force with a national commercial real-estate platform.

As we look ahead to the next phase in our evolutionary growth, we take this opportunity to reflect on how we reached this thirty year milestone and celebrate the entrepreneurial drive and spirit that got us here.

(V.O.) The new CEO initiates a clean sweep of the Thrift operations purging the staff and bringing on board an entire new management team, radically changing the corporate culture into an entrepreneurial sales and marketing organization.

Haligowski determines that the only way out of the crisis is for ITLA to lend their way out of it. The Thrift physically moves corporate headquarters to Glendale from Burbank and takes advantage of a void left in the commercial real estate lending markets as competitors flee the sector due to the effects of the S&L crisis.

In preparation of its upcoming IPO, the new management team begins cleaning up its loan portfolio, commencing an aggressive disposition strategy of its non-performing assets.
