## IVANHOE MINES SECURES BUSINESS LICENCES TO ADVANCE GOLD-COPPER JOINT VENTURES IN INNER MONGOLIA, CHINA

**BEIJING, CHINA** Ivanhoe Mines Chairman Robert Friedland and Executive Vice-President, Exploration, Douglas Kirwin announced today that the company has obtained business licences for its new joint ventures with the Bureau of Geology and Minerals Exploration and Development of Inner Mongolia (the Bureau) and with Inner Mongolia Huayu Geology and Minerals Exploration Co. Ltd. (Huayu).

The business licences provide for legal establishment of the two joint ventures and provide each joint venture with the right to engage in the exploration, mining and processing of gold, copper, silver and other minerals in Inner Mongolia, an autonomous region in northern China.

This is an important step in our overall strategy to become a leading mineral exploration and development company in northern China, Mr. Friedland said. Inner Mongolia shares similar geology to the South Gobi region of Mongolia, where our Oyu Tolgoi discovery is located. Our initial exploration work has confirmed Inner Mongolia s potential to offer similar opportunities for important copper and gold discoveries.

Ivanhoe entered into joint venture agreements with the Bureau and with Huayu in 2003. The joint ventures give Ivanhoe the right to earn an 80% interest in exploration and mining licences that cover a combined 1,230 square kilometres in Inner Mongolia and include the Oblaga Mine, currently a small-scale, porphyry-related copper-gold mine operated by local Chinese miners.

Ivanhoe has a 100% interest in the Oyu Tolgoi copper and gold project in Mongolia and holds exploration rights covering approximately 111,000 square kilometres in central and southern Mongolia, where additional copper and gold discoveries have been made. Ivanhoe produces LME grade A copper from its Monywa joint venture in Myanmar and iron ore products from ABM Mining s Savage River mine in Australia.

Ivanhoe shares are listed on the Toronto and Australian stock exchanges under the symbol IVN and on the NASDAQ under the symbol HUGO.
