SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

HIMAX TECHNOLOGIES, INC.

By: /s/ Max Chan

Name: Max Chan

Title: Chief Financial Officer

Date: May 1, 2006

Exhibit 99.1

HIMAX REPORTS FIRST QUARTER 2006 RESULTS

- First quarter 2006 net revenue increased to \$174.9 million, 81% year-over-year growth
- First quarter 2006 net income increased to \$21.9 million, 117% year-over-year growth; diluted EPS of \$0.12 represents 115% year-over-year growth

Tainan, Taiwan, May 9, 2006 - Himax Technologies, Inc. (the Company) (Nasdaq: HIMX) today reported financial results for the first guarter ended March 31, 2006.

Net revenue for the first quarter of 2006 was \$174.9 million, an 81% increase as compared to \$96.4 million for the first quarter of 2005, and a 1% decrease as compared to \$177.3 million in the fourth quarter of 2005. Net income for the first quarter of 2006 was \$21.9 million, or \$0.12 per diluted share, representing a 117% increase compared to net income of \$10.1 million, or \$0.06 per diluted share in the first quarter of 2005, and a 29% increase compared to \$17.0 million, or \$0.09 per diluted share in the fourth quarter of 2005. Share-based compensation was \$1.1 million, \$1.5 million and \$4.1 million in the first quarter of 2006, the first quarter of 2005 and the fourth quarter of 2005, respectively.

Gross margin in the first quarter of 2006 was 21.5%, as compared to 22.2% in the first quarter of 2005, and 21.2% in the fourth quarter of 2005. Operating margin was 13.5% in the first quarter of 2006, as compared to 11.6% in the first quarter of 2005, and 10.8% in the fourth quarter of 2005.

Excluding share-based compensation, gross margin in the first quarter of 2006 was 21.5%, as compared to 22.2% in the first quarter of 2005, and 21.3% in the fourth quarter of 2005, with an operating margin of 14.1%, 13.2%, and 13.1% respectively.

Jordan Wu, President and Chief Executive Officer of Himax, commented, []We are pleased with the first quarter[]s results given our continued business momentum and record earnings. Overall display driver revenue continued to grow across large panel applications and small-and-medium-sized applications. In large panel applications, display drivers for TV panels delivered strong growth, offsetting seasonally weak demand in the monitor segment. In small-and medium-sized based applications, shipments of display drivers for both mobile and consumer electronics applications increased from the previous quarter, but we experienced significant ASP erosion, primarily due to the product mix changing towards the lower price, lower resolution segment, including LTPS display drivers.[]

Max Chan, Chief Financial Officer of Himax, said, □Our operating income for the first quarter increased 111% to \$23.6 million from \$11.2 million for the same period a year ago and increased 23% compared to \$19.1 million in the fourth quarter 2005. The company was operating cash flow positive in the first quarter. We are also now debt-free, having raised approximately \$147 million in our IPO on March 31, after deducting underwriting discounts and commissions and estimated offering expenses. We will continue to execute our growth plan while working to increase shareholder value.□

Looking forward, Mr. Wu added, [We expect the business environment in the second quarter of 2006 to be similar to that of the first quarter of 2006 as large panel display driver shipments will be impacted by the increased inventory levels of large panel manufacturers. While PC-related demand should improve sequentially, revenues from display drivers for TVs are expected to decline. Revenues from third-party customers are expected to grow as a result of fab production ramp-up[s and increased sourcing from Himax, offsetting an inventory-related decline in revenues from related parties. We forecast unit shipments of small and medium-sized display drivers will increase while average selling prices will continue to decline. Specifically, we expect net revenue in the second quarter of 2006 will be in the range of low single digit growth to a low single digit decline sequentially, which will result in a more than 50% year-on-year growth. We expect diluted GAAP earnings per ADS to be in the range of \$0.10 to \$0.11, which reflects approximately \$1 million of share-based compensation, and is based on approximately 197.5 million diluted weighted-average outstanding shares used in the calculation. Based on typical seasonal patterns in the panel industry and indications from our customers, we expect shipments and revenues to increase significantly in the second half of 2006. We also expect to continue to increase our share of the large panel and small and medium-sized display driver markets.

Investor Conference Call / Webcast Details

The Company s management will review detailed first quarter 2006 results on Monday, May 8, 2006 at 7:00 PM EST (7:00 AM, May 9, Taiwan time). The conference call-in number is 201-689-8562. A live webcast of the conference call will be available at the Company website at www.himax.com.tw. The playback will be available beginning two hours after the conclusion of the conference call and will be accessible by dialing 201-612-7415. The account number to access the replay is 3055 and the confirmation ID number is 200644.

About Himax Technologies, Inc.

Himax Technologies, Inc. designs, develops and markets semiconductors that are critical components of flat panel displays. The Company principal products are display drivers for large-sized TFT-LCD panels, which are used in desktop monitors, notebook computers and televisions, and display drivers for small- and medium-sized TFT-LCD panels, which are used in mobile handsets and consumer electronics products such as digital cameras, mobile gaming devices and car navigation displays. In addition, the Company is expanding its product offering to include LCD TV chipset solutions and LCOS microdisplays. Based in Tainan, Taiwan, the Company has regional offices in Hsinchu and Taipei, Taiwan; Suzhou and Shenzhen, China; Yokohama, Japan and Anyangsi Kyungkido, South Korea.

Forward-Looking Statements:

Certain statements in this press release, including statements regarding expected future financial results and industry growth, are forward-looking statements that involve a number of risks and uncertainties that could cause actual events or results to differ materially from those described in this press release. Factors that could cause actual results to differ include general business and economic conditions and the state of the semiconductor industry; level of competition; demand for end-use applications products; reliance on a small group of principal customers; continued success in technological innovations; development of alternative flat panel display technologies; ability to develop and protect our intellectual property; pricing pressures including declines in average selling prices; changes in customer order patterns; shortages in supply of key components; changes in environmental laws and regulations; exchange rate fluctuations; regulatory approvals for further investments in our subsidiaries; and other risks described from time to time in the Company sellings, including its Form F-1 dated March 13, 2006, as amended. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
