Notice to the Market

COSAN and CPFL enter into
electric power trading agreement

São Paulo, August 14, 2008 – COSAN S.A. INDÚSTRIA E COMÉRCIO (Bovespa: CSAN3), pursuant to CVM Instruction no. 358, as of January 3, 2002, publicly informs that its wholly-owned subsidiary Barra Bioenergia S.A. has entered into an electric power trading agreement with CPFL Comercialização Brasil S.A. (“CPFL”). By means of Gasa unit, a project for energy co-generation through the use of biomass will be explored, in order to comply with the electric power minimum trading agreement of 2,900,00MWh to 3,600,000MWh in a 15-year period, totaling a current approximate amount of R\$500 million, annually restated by the IGP-M. The agreement also provides for the supply of possible additional energy generated by this unit, inclusively through a greater use of biomass, i.e., the use of sugar cane leaves and straw, in addition to the bagasse. This project will involve investments of R\$190 million. In March 2008, a financing request with BNDES was filed, which may finance up to 90% of the project.

COSAN also informs that in view of the early conclusion of its co-generation projects in the Costa Pinto and Rafard plants, estimated to start operating in 2009, it will provide CPFL with 100,000 MWh during a 6-month period with immediate start.

COSAN believes that initiatives as these will contribute to the biomass insertion in the country’s energy matrix.

COSAN

COSAN is one of the largest producers of sugar and ethanol in the world. With a crushing capacity of more than 40 million tonnes of sugar cane, the Company holds over 9% of the local market.

Notice to the Market

COSAN, units of Barra, Bonfim and Jataí
successfully participate in energy auction

São Paulo, August 14, 2008 – COSAN S.A. INDÚSTRIA E COMÉRCIO announces that its subsidiaries Barra Bioenergia S.A. and Cosan Centroeste S.A. Açúcar e Álcool were winners at the 1st Reserve Energy Auction held on August 14, 2008. By means of the units of Barra, Bonfim and Jataí, projects for energy co-generation will be explored through the use of biomass for a 15-year term, as of 2010, totaling 9,504,600 MWh, a current approximate amount of R\$1.5 billion, restated by IPCA. The main characteristics of the project follow in the table below:

Unit	Energy Sold (MWh)	Price (R\$/MWh)	Total amount of the Agreement (R\$)
Barra	4,134,720.00	156.23	645,949,169.71
Bonfim	1,278,960.00	156.41	200,036,399.00
Jataí	4,090,920.00	155.73	637,070,745.57
Total	9,504,600.00	156.04	1,483,056,314.42

It is worth noting that, in view of these units' minimum installed capacity and energy already contracted for trading, there is also potential for future sale of 37%, 17% and 16% at the units of Barra, Bonfim and Jataí, respectively. Also, eventual additional energy generated by a greater use of biomass, i.e., the use of sugar cane leaves and straw, in addition to the bagasse, will be traded later.

COSAN believes that the positive outcomes from this auction will contribute to the biomass insertion in the country's energy matrix.

COSAN

COSAN is one of the largest producers of sugar and ethanol in the world. With a crushing capacity of more than 40 million tonnes of sugar cane, the Company holds over 9% of the local market.
