The rate we are willing to pay for securities of this type, maturity and issuance size is likely to be lower than the rate implied by our secondary market credit spreads and advantageous to us. - Adjustments to the underlying index could adversely affect the value of the Buffered PLUS.

·The Buffered PLUS will not be listed on any securities exchange and secondary trading may be limited.

·The calculation agent, which is a subsidiary of Morgan Stanley and an affiliate of MSFL, will make determinations with respect to the Buffered PLUS.
